Office of **the County Executive**
Monroe County, New York

Maggie Brooks
County Executive

October 30, 2007

To The Honorable
Monroe County Legislature
39 West Main Street
Room 407
Rochester, New York 14614

Honorable Legislators:

I am submitting for your review and approval the proposed 2008 Annual Budget for Monroe County.

This is the fourth budget that I am submitting as County Executive. It is balanced, fully funded, fiscally responsible, and reasonably funds the services that are important to the residents of our community. The Operating Budget for spending totals $863,307,700 and the Grant Budget spending totals $151,431,088. Mandated spending comprises 71% of the total budget, with non-mandated spending comprising 29%.

With the Medicaid Swap enacted and our County's budget crisis solved, this year's budget does not forecast a budget deficit in either the short-term or the long-term. Combining the enactment of the Swap with our administration's success in reducing the size and scope of County government, we are projecting a balanced budget for this year, and a contribution to fund balance totaling $500,000 by 2010.

We also continue to keep faith with the taxpayers of Monroe County. For the past three years, we have kept our property tax rate flat, at $9.10. For 2008, I am proposing a cut in the property tax rate by $0.11 per thousand. This will reduce our County's property tax rate to $8.99.

Additionally, we are also maintaining our commitment to curtailing the cost of County government. For the past three years, we have kept spending growth below the rate of inflation. Accounting for one-time measures, the 2008 operating budget of $863,307,700 cuts spending by 3.9%.

110 County Office Building • 39 West Main Street • Rochester, New York 14614
(585) 428-5301 • *fax:* (585) 428-2168 • *www.monroecounty.gov* • e-mail: *countyexecutive@monroecounty.gov*

The 2008 budget also protects our sales tax sharing partners in local government. It continues the historic Morin-Ryan sales tax sharing formula, and also implements the new inter-municipal sharing agreements approved by the County Legislature in September. These agreements keep the City of Rochester, as well as town and village governments fully funded.

Just as we have done throughout my tenure as County Executive, I remain confident that we can continue to join together in the renewed spirit of collaboration that has transformed our community. While the results of our efforts have clearly moved our community forward, we must continue this impressive progress in the weeks and months ahead.

Sincerely,

Maggie Brooks

Maggie Brooks
Monroe County Executive

2008 MONROE COUNTY BUDGET
EXECUTIVE SUMMARY

GENERAL OVERVIEW OF THE BUDGET

The Monroe County Budget crisis is solved. The 2008 Monroe County Budget uses recurring revenues sufficient to cover budgeted expenses. In the Multi Year Forecast section of this document, the 2009 and 2010 forecast shows stable revenue and expense trends. In short, County Executive Brooks has moved the Monroe County Budget from Crisis to Stability.

The 2008 Operating Budget totals $863,307,700. Accounting for one time measures, this represents a 3.9% reduction in spending from the 2007 budget. The comparison shows Mandated spending down 20.4%, primarily resulting from the elimination of the Medicaid program costs through the election of the Medicaid Sales Tax Swap. Non Mandated spending is up 2%. New to the budget is the Payment to Municipal Sharing Partners. This is budgeted at $90,506,863 and fully funds the Intermunicipal Agreements included in the F.A.I.R. Plan.

OPERATING BUDGET (in millions)	**2007**	**2008**	**CHANGE**	**% CHANGE**
Mandated	654.2	520.5	(133.7)	-20.4%
Non Mandated	181.8	185.4	3.6	2.0%
Debt Service	62.6	66.9	4.3	
Payment to Municipal Sharing Partners	-	90.5	90.5	
Total Operating Budget*	**898.6**	**863.3**	**(35.3)**	**-3.9%**

*See Financial Summaries Section of the Budget Document

Introduced with the 2007 Monroe County Budget was the new financial platform using SAP Software, which is a sophisticated, state of the art system. The system has been designed to ensure Grant funding is aligned with costs and to ensure those costs remained capped. Separate from the Operating Budget is the Grants Budget which totals $151,431,088 for 2008. This represents a 2.8% increase from the 2007 Grants Budget. Using the accounting control features of the SAP software, local tax dollars are never needed to fund Grant programs because the financial system does not allow costs to exceed the designated funding. The Grant Fund feature allows programs that are entirely funded through non local revenue sources to be cost controlled by the amount of revenue available with the grant. Some Grant programs reimburse for all costs associated with the program without a cap on the revenue. The Grant Fund, by collecting all costs associated with these types of programs, assures that full cost reimbursement is achieved.

The 2008 Monroe County Budget implements County Executive Brooks' F.A.I.R. Plan. Importantly, the Property Tax Rate is lowered to $8.99 from $9.10, a reduction of 1.2%. The Property Tax Rate reduction is possible due to spending reductions and the elimination of Medicaid program costs through the election of the Medicaid Sales Tax Swap. The F.A.I.R. Plan also makes possible structural balance for the long term. In the 2006 and 2007 Budget documents, the Multi Year Forecast for the succeeding two years showed combined deficits exceeding $100,000,000. This Budget document forecasts that the 2009 and 2010 budgets will result in a modest gain in fund balance of $500,000. The significant structural imbalance that has plagued Monroe County finances has been eliminated.

With the elimination of Medicaid program costs in the 2008 Monroe County Budget, Mandated spending now represents 71% of the budget (down from 79% in 2007). While Non Mandated spending now represents 29% of the budget, the chart above shows that spending in this area grew 2% for comparative purposes. This is the fourth consecutive budget that has kept spending growth below the rate of inflation for Non Mandated spending.

County Executive Brooks has worked with employees at all levels to identify and implement cost reduction strategies. The cost reductions have occurred from a variety of strategies and impact all major cost areas. Included in the strategies are personnel efficiencies, health insurance coverage reengineering, performance based contracts, fleet costs, utility and facility costs, technology costs, as well as travel and cell phone costs.

An example of the effective approach used to control costs can be found in the health insurance benefit. Since 2004, product offerings and pricing options for health insurance coverage have seen significant changes. Introduced in 2007 was an Employee Wellness initiative to bend the curve of fast growing health insurance costs. Education and opportunities to make healthy life choice changes were provided to employees. The result of effective management efforts, including the wellness program was a reduction in health insurance costs of $1,200,000 for 2008. While the "low hanging fruit" of cost reduction opportunities have long ago been harvested, innovation surrounding new cost reduction opportunities continues.

MEDICAID SALES TAX SWAP

Until 2008, the most significant cost for County Governments in New York State is the local share of the Medicaid program. More expensive than the states of Florida and California combined, New York's Medicaid program is funded significantly by County Governments. New York is one of only two states to require County Governments to share in the cost of Medicaid services. To provide cost stability, in 2005 important legislative action by New York State provided Monroe County with a controlled growth cap for 2006 and forward. Replacing double-digit increases in costs for the years up to 2005, Monroe County paid 3.5% more in 2006 than our 2005 cost. In 2007 the cost of Medicaid was capped at 6.75% above the 2005 cost, and in 2008, without implementation of the Medicaid Sales Tax Swap, the cost would have been capped at 9.75% above the 2005 cost with the cost scheduled to increase 3% more each succeeding year above the 2005 base year cost.

For 2008, Monroe County has elected to participate in the Medicaid Sales Tax Swap. Medicaid program costs are swapped with a fixed percentage of Sales Tax revenue. Monroe County will now forego receiving 1.61% of their 4% Sales Tax Levy and New York State will pay all Medicaid program costs for Monroe County. In their July 2007 Report titled "Decision 2007: Counties and the Medicaid Choice", the Office of the State Comptroller (OSC) states, "When the intercept formula is calculated for [these] counties, assuming historical sales tax growth, only Monroe, Wayne and Niagara appear to potentially benefit." Based on historical sales tax growth, Monroe County will benefit by $10.1M in 2016 and cumulatively from 2008-2016 will benefit by $53.2M according to the OSC report.

Under County Executive Brooks' F.A.I.R. Plan all the sharing partners (City of Rochester, all towns, all villages and all school districts) will continue to benefit from the rate of growth of Sales Tax Revenue. While the OSC report notes that a change in the rate of sales tax growth will impact the amount of the long term benefit of the Medicaid Sales Tax Swap for Monroe County, the Medicaid Sales Tax Swap will not impact the rate of growth benefit for the sharing partners.

BUDGET DOCUMENT FORMAT

The Budget document delineates Mandated and Non-Mandated spending for each department. The Budget for each Elected Office is also detailed. Each of these sections provides a summary of the services distinguished between Mandated and Non-Mandated services. In addition the Budget document includes a section titled Multi Year Forecast, showing the projected expenses and revenues for 2009 and 2010.

COUNTY SERVICES OVERVIEW

Below provides an overview by Elected Official and its Departments:

COUNTY EXECUTIVE

Included in the County Executive budget section are all the departments of County Government that are within the County Executive's management responsibility. Some of the major department highlights include:

Aviation: The Greater Rochester International Airport is a major commercial air facility in New York State experiencing steady and record breaking increases in passenger traffic. Through operating agreements with the airlines, the Airport is self-funded. Improvements in 2007 include the Real Time Flight Data and Flight Tracker program available on the web. Facility upgrades continue in 2007 and 2008, which include a new business center, airport valet services, and a cellular telephone waiting lot. Enhancements at the complex to provide a safer and environmentally friendly operation include a longer runway, new glycol storage facility and Airport Energy Performance Program. This program is designed to reduce energy consumption in Airport facilities, improve the operational capacity of emergency power systems and optimize co-generation energy operations. Improvements to escalators and elevators allow the Airport Terminal to be more accessible for physically impaired persons.

Board of Elections: The Board of Elections conducts all national, state, county, city and town elections in Monroe County. In 2006 new voting machines were tested in the community to gain needed feedback on the equipment available. Improved accessibility for physically impaired persons has been a specific objective. New York State standards need to be finalized before final implementation. The result will be a system compliant with the Help America Vote Act (HAVA).

Human Services (DHS): The Department of Human Services oversees the Federal and State Mandated social service programs along with the County's investment in Preventive and Protective services. In 2007, DHS was awarded a State grant to fund the implementation of Project SAVE. Project SAVE will provide the resources to dramatically change the outcomes for those on the welfare or foster care caseloads. The objective is to assist those in need to attain self-sufficiency through more effective

approaches. Continuing in 2008 is the Family Access and Connections Team (FACT) which provides resources for Persons in Need of Supervision (PINS). This program has been successful in reducing the number of PINS petitions filed in Family Count.

Information Services (IS): This department provides support for all information services throughout County Government, including computers, phones, data lines and other technology. IS is continuing a significant reengineering of all office technology to consolidate copiers, printers, fax machines and scanners. Savings will be realized in Rental of Equipment, Capital Leases, Maintenance of Equipment and Supplies. These savings will benefit all departments.

Monroe Community Hospital (MCH): Recognized as a leader in rehabilitation and long term care in the community and region, MCH is one of the largest publicly owned nursing home facilities in the State. In 2008 it is anticipated that a Dialysis Service provider will begin operation on the MCH campus. In 2008 the deficit resulting from insufficient State and Federal cost reimbursements will be addressed from support in the County Budget.

Public Defender: The Public Defender's Office represents indigent individuals in criminal court proceedings as well as Family and Surrogate Court.

Public Health: Improved community health and the prevention of health problems is the purpose of this department. Programs include disease prevention and control, environmental health, maternal and child health as well as the Medical Examiner. Joining this department in 2008 are Special Children's Services, formerly in the Department of Human Services.

Public Safety: This department consolidates and manages functions related to the ever changing requirements for the provision of public safety services. These services include the 911 call center, radio/paging communications system, emergency responder training and much more. Another important responsibility of Public Safety is the ongoing effort to make the emergency communications system compliant with FCC wireless communications regulations. In 2008 work will continue on the much needed Crime Lab for the region.

Public Works Sector: As part of the 2005 Budget, the Departments of Environmental Services, Parks and Transportation consolidated equipment and personnel resources. Over $3m has been saved through this shared services paradigm. Construction of the Waste Management Renewable Energy Facility was completed in 2007 resulting in significant green energy resources. Dedicated funding for road and bridge repairs will ensure the county infrastructure remains safe. Construction of new exhibits at the Seneca Park Zoo continue into 2008.

COUNTY CLERK

The County Clerk is the County Registrar and the Clerk of the Supreme and County Courts. A hallmark of this office has been the use of technology to facilitate access to records and information. The new Integrated Records Management System will serve as a model for County Clerks throughout NYS. Ease of access and improved customer service has resulted from the recently opened Greece Auto License Bureau office at Greece Ridge Mall.

COUNTY LEGISLATURE

The County Legislature is comprised of 29 elected Legislators representing the residents of Monroe County. The budget includes the appropriations for the legislators as well as the Office of the Legislature and Legislature Clerk, the Office of the Legislature President and staff support for both Republicans and Democrats.

DISTRICT ATTORNEY

The District Attorney is the Chief Prosecutor for Monroe County and this department oversees the prosecution of all crime in the county. This Office services over 45 courts. In 2007 the Office saw continued success receiving grant funding for needed services, including Operation Impact and Cease-fire programs as well as funding for an Appeals Backlog Reduction Program. This budget continues the Motor Vehicle Theft and Insurance Fraud Prosecution Program.

SHERIFF

The Sheriff is a constitutional officer elected to a four-year term and serves as an officer of the court and conservator of the peace in Monroe County. New technology applications will allow for on-line access by attorneys for certain Civil Bureau records. In addition insurance companies will be able to access accident reports. This budget includes new intermunicipal agreements and responsibilities with the Sheriff and the police departments for the towns of Greece and Webster.

CONCLUSION

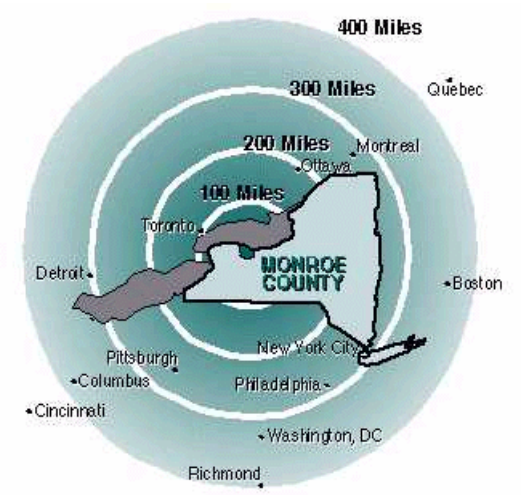
From Crisis to Stability, the 2008 Monroe County Budget represents the effective leadership of County Executive Brooks to solve a long term structural deficit through the F.A.I.R. Plan. The F.A.I.R. Plan lowers the property tax rate, introduces innovative ways to pay for local services (like Monroe Community College and road/bridge infrastructure), and takes advantage of the Medicaid Sales Tax Swap, all of which result in the budget deficit being solved. This Budget does not depend on one-time measures. The Multi Year Forecast for 2009 and 2010 shows a modest gain in fund balance. All this has been accomplished while maintaining the Quality of Life services that make Monroe County a great place to live, work and raise a family.

THIS PAGE INTENTIONALLY LEFT BLANK

COMMUNITY PROFILE

Monroe County and the City of Rochester are located in western New York State where the Genesee River meets the south shore of Lake Ontario. In 2007, *Expansion Management*, a leading site selector publication, ranked the Rochester Region #1 for Overall Quality of Life among metropolitan areas with a population of more than 1 million.

Kodak, Xerox and Bausch & Lomb, some of the world's most recognizable names in business, all make their home in Monroe County. The community is also home to nationally recognized and growing companies like Wegmans, Paychex, CooperVision, PAETEC Communications, Carestream Health and Harris RF Communications. The University of Rochester, along with its Medical Center, is now the area's largest employer.



There are a variety of industries that make up Monroe County's diverse economic culture: BioTech, Optics and Imaging, Alternative Energy and Fuel Cells, Business and Information Services, Food and Beverage Manufacturing, Telecommunications, Printing and Publishing.

We are a community of innovators on the cutting edge of research and discovery; a community of artists featuring world-renowned performers with a top-flight orchestra and one of the nation's premier schools of music; and a community of entrepreneurs, home to some of the world's best known brands and fastest growing companies.

Creating jobs and enhancing our economic vitality and quality of life is our continued goal. Monroe County is a great place to live and a great place to do business.

Monroe County Today

As of July 2006, the U.S. Census Bureau estimates Monroe County's population at 730,807 residents. A business-friendly infrastructure, a community centered on partnership and collaboration, nationally-ranked colleges and universities, four-season weather and affordable housing are just a few of the many reasons people locate in Monroe County. A strong industrial history, emerging technology sector and an emphasis on high quality services, including higher education, ensure a technically sophisticated and reliable workforce.

Monroe County has an intricate transportation system designed to allow residents the freedom to travel across the county with ease. The average commute time for residents is 19.6 minutes. Multi-modal transportation is also available in Monroe County, at the Greater Rochester International Airport (GRIA), Amtrak and Rochester Genesee Regional Transportation Authority bus service. The Greater Rochester International Airport is the gateway to Rochester for those visiting the area and offers a newly renovated state-of-the-art facility for business and leisure travelers.

Seven exceptional colleges and universities provide quality educational opportunities for students from throughout the Greater Rochester area, New York State, the nation and the world. These world-class institutions help support the local economy and bring a talented workforce of professionals into the community. The University of Rochester's Simon School of Business ranks as one of the top 30 business schools in the country. In addition, four local public high schools have been ranked among the top "100 Best High Schools in America" (Brighton #93, Pittsford-Mendon #58, Pittsford-Sutherland #61 and Wilson Magnet #24).

Businesses locating here can benefit from some of the most competitive incentive programs available, including the New York State Empire Zone program. Monroe County offers a wide variety of financing programs and incentive packages for businesses looking to expand or locate here. Large corporations, small companies and start-ups all benefit from the area's excellent educational resources, skilled and knowledgeable workforce, available and convenient infrastructure, and economic development programs, while enjoying an outstanding quality of life. *Expansion Management* ranked Rochester a "5-Star Business Opportunity Metro," a premier place for companies to do business in America. *Expansion Management* magazine has also ranked Rochester one of America's "50 Hottest Cities for Business Expansion/Relocation."

In addition, homeownership is affordable in Monroe County. A variety of urban and suburban neighborhoods offer an array of housing options at reasonable prices. From downtown lofts to suburban subdivisions to rural farmhouses, high quality housing is within reach for Monroe County residents. According to the Greater Rochester Association of Realtors, median home prices remain well below the national median. In fact, when compared to other metropolitan areas throughout the country, the Rochester area ranks among the most reasonably priced.

Economic Profile of Monroe County

Until the last decade, Monroe County's economy was dominated by major manufacturers. As these companies restructured and transitioned, their highly skilled workers fueled the growth of numerous small and medium-sized firms in a range of industries. Today, 97% of the region's job growth is in small business, 51% of the companies in Monroe County have one to four employees, and Monroe County's manufacturing workforce is larger than any other county in New York State (NYS Department of Labor).

Eastman Kodak, Xerox and Bausch & Lomb play an important role in Monroe County's economy. Eastman Kodak, the area's second largest employer, has been repositioning and shifting its emphasis to digital imaging. Xerox Corporation invested $59 million in a new 120,000 square foot toner plant in Webster that began production in September 2007. Bausch & Lomb invested $35 million in a new worldwide research and development center. In April 2007, Carestream Health acquired Eastman Kodak's health group. This $2.3 billion acquisition makes Carestream the leading global provider of innovative medical imaging and health care information technology solutions, and Monroe County is now the world headquarters for Carestream.

The region's economic vitality is energized by small and medium-sized businesses, including high technology manufacturers like Harris RF Communications and ITT Industries; telecommunications firms like PAETEC and Allworx; biotech firms such as Vaccinex and VirtualScopics; and information technology firms like Paychex. *Computerworld* magazine named Paychex one of the top 100 workplaces for information technology (IT) professionals. In addition, Monroe County's higher education sector, including expansions at the University of Rochester Medical Center and Rochester Institute of Technology, continue to drive economic growth and job creation in the community.

Recent success stories include: Mirror Show Management, Wegmans Food Markets Culinary Innovation Center, McAlpin Industries, RIT's Sustainability Institute and the University of Rochester's Clinical and Translational Science Institute. In July 2007, Mirror Show Management purchased a 126,000 square foot building in Webster and is also constructing a 25,000 square foot addition for professional office space, investing $4.7 million. Also in July 2007, Wegmans Foods Markets announced it had chosen Monroe County over Pennsylvania as home to a new 43,000 square foot Culinary Innovation Center. This $22 million project will include a test kitchen and plant that will develop and produce new food products. In August 2007, McAlpin Industries, a sheet metal processing company, announced it had selected Monroe County for its $5 million expansion. McAlpin had considered facilities in North Carolina and Texas. In September 2007, Paychex founder and chairman Tom Golisano donated $10 million to the Rochester Institute of Technology to establish a new Sustainability Institute. The Institute will play a major role in enabling the transformation of global industrial enterprises into sustainable systems by undertaking comprehensive interdisciplinary initiatives in education, research and technology transfer. Bolstered by a $40 million National Institutes of Health (NIH) grant, the University of Rochester announced plans for its new Clinical and Translational Science Institute to lead the emerging field of clinical and translational research. In 2007, the University of Rochester also opened the Rochester BioEnterprise Center, an incubator for biotechnology and life science ventures.

The most tangible evidence of Monroe County's longstanding leadership in technology and innovation is the number of patents issued to inventors living in the Rochester area. *Forbes* magazine ranked Rochester "1st in innovation" with the highest number of patents issued per worker. On a per capita basis, Rochester ranks 3rd in the nation for number of patents issued.

International trade by area exporters continues to be a significant component of the area's economic activity. Regional exports are estimated at over $12 billion. Rochester is the second largest exporting region in the state (New York City is the largest). The Monroe County Foreign Trade Zone (MCFTZ) has been a catalyst for local export activity since its establishment in 1987. There are four approved foreign trade zone sites in Monroe County.

Quality of Life

Monroe County is a dynamic, historically rich and culturally diverse metropolitan community, the third-largest urban area in the State of New York. This high-tech community has also preserved many links with the past as it claims more sites on the National Register of Historic Places than any other city its size.

Monroe County is recognized nationally for its leadership in arts and culture. The community's vibrant cultural district includes: the world-renowned Eastman Theatre and Eastman School of Music, which was ranked the "Hottest Music School" in 2007; Memorial Art Gallery; Susan B. Anthony House; Rochester Museum and Science Center; and the George Eastman House International Museum of Photography and Film. Strong National Museum of Play opened its expanded facility in July 2006. The $33 million project nearly doubled the size of the museum, making it the second largest children's museum in the nation. In addition, Monroe County's Seneca Park Zoo is one of the top family attractions in the area.

Monroe County is home to professional sports teams in baseball, hockey, soccer, indoor football, lacrosse, basketball and the Buffalo Bills Training Camp. *Street & Smith's Sports Business Journal* named Rochester the "#1 Minor League Sports Market in America". The prestigious Oak Hill Country Club has ranked among "America's 100 Greatest Golf Courses" by *Golf Digest* magazine and will host the 2008 Senior PGA Championship. Locust Hill Country Club has hosted the Wegmans LPGA for 30 years. Adding to the community's rich golf tradition is the Xerox Classic at Irondequoit Country Club, a stop on the PGA Nationwide Tour.

According to the Greater Rochester Visitors Association, now VisitRochester, 1.8 million people visited the Monroe County area in 2006, generating more than $800 million for the Monroe County economy. There are over 15,000 people employed in the local tourism industry. Monroe County hosts a number of festivals that attract thousands of tourists to the region each year, including the annual Lilac Festival, Rochester International Jazz Festival and High Falls Film Festival.

Monroe County is known for its extensive parks system, one of the most beautiful and scenic in the nation. The County operates 21 parks with nearly 12,000 acres of parkland. Four season outdoor recreation opportunities in the region range from sailboat racing and deepwater fishing on Lake Ontario; camping, hunting and skiing in the Bristol Hills; and windsurfing and boating on the Finger Lakes. Numerous Finger Lakes wineries boast wines that are among the best in the world. The climate of the Finger Lakes is particularly well-suited to white wine production. The area is also home to the New York Wine and Culinary Center, founded by Constellation Brands, Wegmans Food Markets, Rochester Institute of Technology and the New York Wine and Grape Foundation.

Monroe County continues to excel and grow as our community moves forward. Our future is bright with opportunity.

Vision for Monroe County

Monroe County is a community of choice that is economically prosperous with a diverse business base, outstanding educational opportunities, sound infrastructure, access to a wide range of recreational and cultural assets as well as quality affordable housing for its residents. Ours is a community that will encourage future generations to live, work and raise their families here. Through stable property taxes, more efficient government and more effective partnerships and collaborations, Monroe County government will create an environment that promotes aggressive economic development and job creation.

Mission for Monroe County Government

Through the dedicated and productive efforts of its workforce, Monroe County will provide high quality service to its residents in a cost-effective manner. By engaging the community and working together with people from all walks of life, Monroe County will create a government structure that lives within its means and promotes fiscal stability. By fostering a spirit of teamwork and collaboration with community partners, Monroe County government will return to its core values, ensuring a safe and healthy community, with a quality of life second to none.

Monroe County Legislature
Office of the President

WAYNE E. ZYRA
PRESIDENT

December 20, 2007

Dear Taxpayers:

On December 11, the County Legislature approved Monroe County's 2008 budget. A solid financial plan that moves our community from crisis to comeback, the 2008 budget continues to keeps faith with our hard-working property taxpayers, while safeguarding the vital programs and services that are so integral to our community's quality of life.

The 2008 budget is balanced, fiscally sound, and cuts the property tax rate from $9.10 to $8.99. It also implements the state-sponsored Medicaid Swap option, which enables our county to remove the costs of Medicaid from the backs of our taxpayers locally. Medicaid costs had previously comprised nearly 35% of the total net County budget, and had risen by 60% since 2000. Wall Street has recognized the impact of this critical action, as Fitch Ratings recently removed their negative credit watch on Monroe County's finances.

Cutting the property tax rate, stabilizing our credit rating, and maintaining vital services such as law enforcement, parks and libraries are a clear victory for Monroe County's property taxpayers. In the face of escalating Medicaid costs and record energy costs, our successful efforts to keep taxes stable and our community affordable will continue to spur new business investment and job creation within Monroe County.

This budget also represents a continued and successful effort by County Executive Maggie Brooks to control costs through increased productivity to maintain essential county services. Accounting for one-time measures, the 2008 operating budget of $863,307,700 cuts spending 3.9% from the previous year.

Additionally, the 2008 budget protects our County's sales-tax sharing partners in local government. This budget continues the historic Morin-Ryan sales tax sharing formula, continues the town tax credit, and also implements the new inter-municipal sharing agreements approved by the County Legislature in September that keeps the City of Rochester, as well as town and village governments fully funded.

Our new budget also marks the fourth year that Monroe County has implemented a multi-year approach to budgeting. Unlike previous years, this budget forecasts a future fund balance, rather than a Medicaid-inspired structural deficit. The enactment of the Medicaid Swap by the County Legislature in September has eliminated the County's structural deficit. Due to mandated Medicaid costs, this deficit was forecast to exceed $100 million by 2009.

The top priority of the Republican Majority in the Monroe County Legislature is to serve and protect the hard-working property taxpayers of this great county. We applaud the efforts of County Executive Maggie Brooks and her financial team to produce a 2008 budget that keeps faith with property taxpayers and preserves our most essential county services. We look forward to working with the County Executive during this coming year to preserve our County's fiscal stability, and to safeguard our County's long-term financial future.

Sincerely,

R. Anthony LaFountain
Chairman, Ways and Means Committee

Wayne E. Zyra
President

ADOPTION OF THE MONROE COUNTY BUDGET
FOR FISCAL YEAR 2008

The County Executive submitted the 2008 proposed budget to the County Legislature on October 30, 2007. On December 11, 2007, the Legislature passed Resolution 399 adopting the Monroe County annual budget for fiscal year 2008.

Operating Budget

	Appropriations	Revenue	Tax Levy
Proposed Budget	$863,307,700	$533,544,987	$329,762,713
Amendments*	($112,745)	$0	($112,745)
Adopted Budget	$863,194,955	$533,544,987	$329,649,968

FUND SUMMARY AND TAX LEVY COMPUTATION
2008 BUDGET

This schedule presents appropriations and revenues by fund. A fund is a self-balancing group of accounts. For fund accounting purposes the entire real estate tax levy is received into the General Fund. The "Transfer From Other Funds" column includes the amounts required from the General Fund to support other funds. The Pure Waters Fund is supported by unit charges to users.

BUDGET PROCESS

Budget Preparation and Development

The procedures governing the preparation, submission, and adoption of Monroe County's annual budget are stipulated in Article IV of the County Charter and Article VI of the Monroe County Administrative Code. The development of the capital budget involves a slightly different process and timing, as also stipulated in Article IV of the Charter.

Budgeting is a year-long process. In January of each year, the Chief Financial Officer and Director of Management and Budget brief the County Executive on the financial outlook for the forthcoming and successive budget years. After consultation with the County Executive, detailed budget instructions and specific budget targets are issued to operating departments and authorized agencies by mid-June to guide the preparation of the budget development process. In June and July, department heads and authorized agencies assess department/agency needs, prepare their respective operating budget requests and submit them to the Office of Management and Budget (OMB) on or before a set day in July. OMB personnel, in continued consultation with department staff, analyze budgets during the months of July through October. Many decisions are impacted by State, Federal and local changes, which make it imperative to use the latest and most accurate information available before finalizing the budget. Final budget decisions are made by the County Executive, who prepares a proposed budget for submission to the County Legislature on or before November 15th.

Budget Adoption

Following submission of the budget to the County Legislature, the Legislature must meet to deliberate on the budget and also must hold at least one public hearing prior to budget adoption. If the Legislature passes the budget as proposed, no further action is required on the part of the County Executive. If the Legislature changes the budget, the changes must be submitted to the County Executive for her consideration. The County Executive then has 48 hours to approve or disapprove each of the legislative changes. The Legislature can override a County Executive veto within the next 48 hours with a three-fifths majority vote.

If a budget has not been passed on or before the second Tuesday in December, the Legislature must meet every day until the budget is passed or until December 16th, whichever occurs first. If the budget is not passed by December 16th, then the budget as submitted by the County Executive, with any legislative changes agreed to by the County Executive, becomes the adopted budget for the next year. The Monroe County budget takes effect January 1st .

Budget Amendments

During the course of a year the budget is routinely amended. The major reasons are to accept grant funding and to respond to unanticipated program requirements which may necessitate changes of authorizations from one portion of the budget to another. Estimated grant funding may be budgeted through the normal cycle in anticipation of grant funding of a program, but when actual grant amounts are verified through the course of a year, the budget has to be amended to account for exact amounts. Budget amendments which involve the acceptance of additional revenues and corresponding changes of expenses or involve a transfer of expense appropriations between funds have to be approved by the County Legislature. Budget amendments which involve a transfer of expense appropriations among line items between departments may (if they are $10,000 or less to a particular line item) be approved administratively with the approval of a department head and the Budget Director. Major transfers between departments (amounts in excess of $10,000 to a particular line item) require the approval of the County Legislature. Since amendments to the budget are done routinely, the year-to-year comparison in the department budgets and in the financial detail is made from the <u>amended</u> previous year budget (rather than the original adopted) to the new budget.

During the budget year, quarterly reviews of key appropriation and revenue accounts deemed critical to maintaining a balanced budget are prepared by OMB and submitted to the Legislature. On the basis of these reviews, OMB, in cooperation with the Controller, prepares a fourth quarter reallocation to revise appropriations for review and approval by the Legislature in anticipation of the current year close-out.

Capital Budget

Monroe County has a six-year plan for capital improvements. This plan is updated each year in the form of a Capital Improvement Program (CIP). As required by Article IV of the County Charter, the administration is required to submit an updated CIP to the Legislature by May of each year, and the Legislature is required to approve the plan on or before the first regularly scheduled meeting in July. The first year of that six-year plan becomes the Capital Budget for the next fiscal year (beginning the following January).

Future implications of the CIP projects on the operating budget are noted in the CIP document. Generally, the implications of capital projects on the operating budget have been to either reduce the cost of maintenance or avoid future increases in the cost of maintaining facilities. For some projects, the implication has been to increase costs because of additional staffing and other expenses required to operate expanded facilities. Other projects result in additional operating costs, but generate additional operating revenues which offset these costs.

The CIP document is separate from this operating budget document. For more information, see the "Capital Program/Debt Service" analysis toward the end of this budget document.

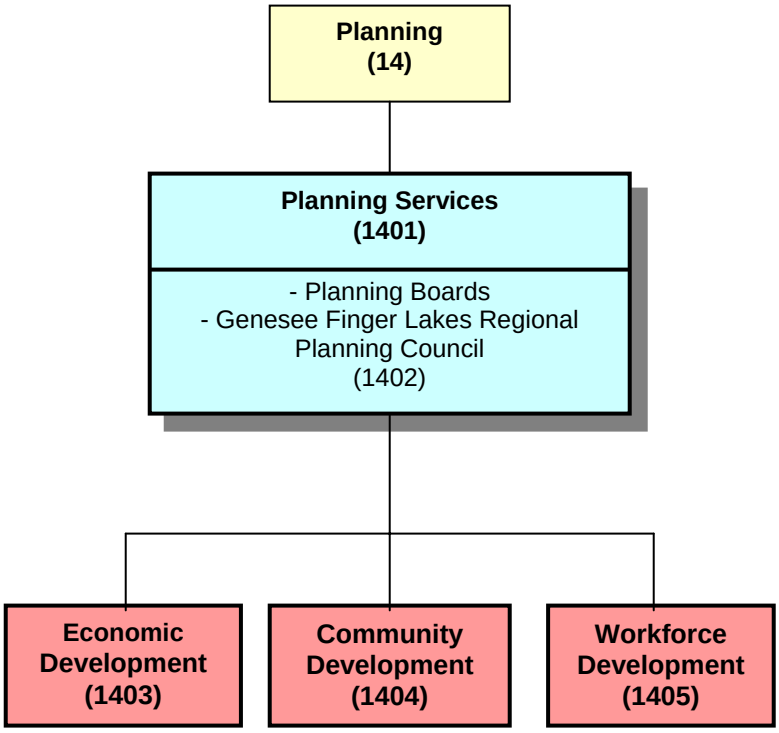
*** Elected Department Heads**

ORGANIZATION STRUCTURE

The department is the principal organization level of the county. The organization of county departments is depicted in the chart on the preceding page. Departments are identified either as operating departments, which provide direct services to citizens, or staff departments, which perform functions relating to the support of the operating departments. The County Clerk, District Attorney and Sheriff are directly elected by popular vote as are the County Executive and the 29 County Legislators.

Departments may be separated into divisions, as necessary, to reach a level which facilitates analysis and understanding. The department level, however, is the level at which the County Legislature actually authorizes appropriations. Within each department and division, unique funds centers are established to identify specific activities of the department. The number of divisions and funds centers presented generally varies according to a department's size and complexity.

The breakdown for a portion of the Planning Department is shown below. Note that the department is identified by a two-digit number shown in parentheses while divisions are identified by a four-digit number. Funds centers, not shown in the chart, are identified by a ten-digit number. The first four numbers of the ten-digit funds center number usually incorporate the department and division numbers.



FINANCIAL STRUCTURE

The county's financial system is organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise the assets, liabilities, fund balance, revenues, and expenditures. The following fund types and account groups are used by the county:

GOVERNMENTAL FUND TYPES

Governmental Funds are those through which most governmental functions of the county are financed. The acquisition, use, and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following are the county's governmental fund types:

1. The General Fund is the county's principal operating fund and includes all operations not required to be recorded in other funds.

2. Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or capital projects) that are legally restricted to expenditures for specified purposes. The county's Special Revenue Funds include the following:

   - The Library Fund accounts for the activities of the Monroe County Library System, which exists to serve member libraries in the county.

   - The Road Fund accounts for certain public works functions relating to maintenance and improvement of county highways.

   - Special Grants Funds includes programs mandated and reimbursed by the State or Federal government.

3. The Debt Service Fund is used to account for reserve funds established for the retirement of outstanding debt, as well as activities in the county's coupon trust accounts. Other than for the proprietary funds, payments of principal and interest on bond anticipation notes, serial bonds, and capital notes are recorded and appropriated in this fund.

4. Capital Projects Funds are used to account for financial resources to be used for the acquisition of major equipment items and the construction of major capital facilities other than those accounted for in the proprietary funds.

PROPRIETARY FUND TYPES

Proprietary Funds are used to account for ongoing organizations or activities which are similar to those often found in the private sector. The following proprietary funds are used by the county:

1. Enterprise Funds are used to account for operations that provide services to the public and are financed primarily by user charges. The county's enterprise funds include Monroe Community Hospital, Pure Waters, the Airport and Solid Waste.

   - Monroe Community Hospital is a health-related facility for the care and treatment of the chronically ill.

- Pure Waters includes the financing of wastewater management public improvements, as well as operations and maintenance services which benefit the properties against which user fees are charged.

- The Greater Rochester International Airport is served by a number of major air carriers and commuter lines providing air carrier services, as well as other related facilities and services. The facility, which is owned by the county, has been leased to the Monroe County Airport Authority, but under the Lease and Operating Agreement, continues to be operated by the county through the Airport Enterprise Fund.

- Solid Waste finances the county's waste disposal and recycling operations.

2. Internal Service Funds are used to account for special activities or services provided by one department of the county to other departments or to other governments on a cost reimbursement basis. Included in this category are the following:

   - Building Operations provides for the operation and maintenance of county-owned buildings including the Hall of Justice, County Office Building, Civic Center Complex and the Health and Human Services Building.

   - Central Services provides centralized purchasing of duplicating supplies. Also provided are interdepartmental and public mailing services, and the centralized management of records.

   - Fleet Services provides for and services county-owned vehicles and motor equipment.

   - Information Services provides central information services, including computer and telephone systems and support.

   - Risk Management provides for the county's insurance requirements for general liability, workers' compensation and unemployment coverage. These funds are also used to account for certain claims and judgments.

BASIS OF BUDGETING / ACCOUNTING MEASUREMENT FOCUS

The Monroe County budget is prepared on a cash basis. Governmental funds are accounted for using the modified accrual basis of accounting. Under this basis of accounting, revenues are recognized when measurable and available to pay current liabilities. Expenditures are recognized when the related fund liability is incurred, except for principal and interest on long-term debt which are recorded as expenditures when paid, and compensated absences which are recognized as a liability in the applicable fund when due and payable.

Proprietary funds are accounted for using the accrual basis of accounting. Under this basis of accounting, revenues are recognized when earned and expenses are recorded when the liabilities are incurred.

BUDGET FORMAT

The budget document consists of two major parts: the narrative program description or "Department" budget and the line item or "Financial Detail" portion.

The program budget is organized by elected official. Departments under each elected official are presented in alphabetical order. For each department, an organization chart is presented which shows the breakdown of the department into its organizational components (divisions). For small departments that are not subdivided organizationally, the organization chart reflects the primary functions, or activities of the department. Pie charts for each department display operating budget appropriations and grant appropriations by division or category. In addition, there is a pie chart depicting the percentage of Mandated vs. Non-Mandated Services performed by each department along with a general description of these services.

Budget information is presented for each major organizational component within a department. While most budget pages follow the format described below, the format for some pages may vary slightly to include fee schedules or relevant statistical information in the form of bar charts, additional pie charts, or tables. Generally, the page format contains the following components:

Descriptions of each major organizational component summarize the functions of the department or division and include relevant information regarding any recent or proposed organizational or programmatic changes. Descriptions may also be provided for the department's funds centers.

Mission, Accomplishments and Objectives detail the philosophy of each department as well as what the department has accomplished in 2007 and the goals for 2008.

Budget Summary (financial information) presents appropriations by major category of expense, revenue by major source, and the net county support required by the department. Depending on the structure of the department, budget summaries may also appear for each division within the department. If a department has grants, appropriations are segregated by grant and operating budget appropriations. If no grants exist in the department, the budget total presented reflects the operating budget appropriations only. The net county support amount is the difference between a department's appropriations and its anticipated revenue and represents the amount of support required from property taxes and other general fund revenues. Financial data is presented for the 2007 budget as amended and the 2008 budget as proposed.

Performance Measures present data about the organization's input, output, service quality and efficiencies. Measures for the previous year, current year and budget year are presented.

Staff tables (a separate section in the back of the book) show the personnel for 2008 by title, number of full time equivalent positions, and pay group. Salary Schedules (a separate section in the back of the book) relate pay groups to annual salary amounts.

The Financial Detail portion of the budget document shows expenses and revenues in a line item format for major organizational components (divisions) within each department. Departments are presented in order by financial system account number. The financial data shows the actual expenses and revenues for 2006, the appropriations and revenues in the 2007 budget as amended, each department's funding request and revenue estimates for 2008, and the County Executive's proposed budget for 2008.

DEFINITION OF TERMS

ADOPTED BUDGET

This is the annual budget plan for the upcoming fiscal year as formally approved by the County Legislature pursuant to the provisions of Article IV of the County Charter and in Article VI of the County Administrative Code.

AMENDED BUDGET

This is the budget with changes in appropriations and revenues which occur after adoption of the budget by the County Legislature. Generally these changes result from appropriation transfers among commitment line items and the acceptance of grant funds during the year.

APPROPRIATED FUND BALANCE

The amount of fund balance estimated to be available from previous years and designated for use in the current year. The equation for a balanced budget is: Appropriations = Estimated Revenues + Appropriated Fund Balance.

APPROPRIATIONS

An authorization granted by the County Legislature to make expenditures and to incur obligations for specific purposes. An appropriation is limited in amount and to the time period during which it may be expended. Appropriations are divided into budgetary categories, each of which represents a unique type of expense and which facilitates an accounting of the use of county resources.

ASSESSED VALUATION

A value set upon real estate or other property by a government as a basis for levying taxes. In some cases the value may only be a fraction of the property's market value.

ASSESSED VALUE TAX RATE

The amount of tax levied for each $1,000 of assessed valuation.

ASSET EQUIPMENT

One of the major categories of appropriations. This category includes equipment designated as fixed assets. Examples of equipment are office, computers, construction, plant, laboratory, grounds or motor vehicles, landscaping, law enforcement, safety, tools and shop equipment.

ATTRIBUTABLE REVENUE

The revenue generated as a direct consequence of the provision of a specific governmental activity, such as fees, state or federal aid for programs and income from sales. If the government no longer provided the service, the revenue would also stop.

AUTHORIZED POSITION

The status assigned to a position that has been created by either the County Legislature or the County Executive.

BUDGET

A plan of financial operation including estimates of proposed expenditures for a given period and the proposed means of financing them. It is generally a financial plan for a single fiscal year. For additional information, see Operating Budget, Grant Budget and Capital Budget.

CAPITAL BUDGET

The annual spending plan for major improvements and construction projects which are defined as capital projects (see below). It provides project details, project priority ratings, costs and funding sources.

CAPITAL FUND

An authorization by the County Legislature to spend a defined amount for a particular item or category of items (e.g. "construct a new building" or "reconstruct several culverts"). Each fund has a separate authorizing resolution by the Legislature. The source of funding is usually the sale of bonds or notes, but it might also include federal or state aid or funding by the City of Rochester, the Monroe County Water Authority, a town, or a village.

CAPITAL IMPROVEMENT PROGRAM (CIP)

The six-year spending plan for major improvements and construction projects. It provides detail at summary level by functional area and department, funding source and year. The first year of a capital improvement program becomes the proposed capital budget for the next fiscal year.

CAPITAL PROJECT

Any object which is acquired, constructed or renovated having a useful life of three years or longer as defined under the New York State General Municipal Law, Section 11, with a "Period of Probable Usefulness."

CASH CAPITAL (PROVISION FOR CAPITAL EXPENSE)

One of the major categories of appropriations. Funds designated specifically for capital projects in order to avoid long-term debt financing are "Cash Capital."

COMITTMENT ITEM

A sub-category of expense (i.e., salaries, overtime and longevity) within a Commitment Item Class. (i.e., Personnel Services) . This is the lowest level at which appropriations and revenues are budgeted.

COMMITMENT ITEM CLASS

Categories of budget appropriation. Monroe County's financial platform changed with the implementation of SAP on January 1, 2006. The Financial Detail section is presented using the following major classes:

Code	Commitment Item
501000	Personnel Services
503000	Provision for Capital Expense (Cash Capital)
504000	Contractual Services
505000	Supplies and Materials
506000	Debt Service
507000	Employee Benefits
508000/900000	Interdepartmental Charges
541000	Asset Equipment

CONSTITUTIONAL DEBT LIMIT

In accordance with Article VIII of the State Constitution and Title 9 of Article 2 of the Local Finance Law, this limits the amount of debt which can be incurred to 7% of the five-year average full value of taxable real property.

CONSTITUTIONAL TAX LIMIT

In accordance with Section 10 of Article VIII of the State Constitution, this limits the amount Monroe County may raise in real estate taxes in any fiscal year, exclusive of debt service, to 1.5% of the five-year average full value of taxable real estate of the county.

CONTINGENCY ACCOUNT

A budgetary reserve fund established for unforeseen expenditures not otherwise budgeted. The County Legislature must approve each expense against this fund.

CONTRACTED DEBT SERVICE

The reimbursement to other parties for principal and interest payments made by these parties on amounts borrowed for capital purposes.

CONTRACTUAL SERVICES

One of the major categories of appropriations. Examples of contractual services are travel, mileage, memberships, equipment maintenance, rental of equipment, clothing, telephones, utilities, contracts for services, and rental of space.

DEBT SERVICE

One of the major categories of appropriations. The principal and interest payments for obligations incurred by borrowing to finance capital projects. These payments are similar to mortgage payments on a home.

DEPARTMENT

The highest organizational level for the provision and delivery of a specific government service or closely related services. A department may be comprised of divisions and/or funds centers.

DIVISION

The major organizational component of a department.

EMPLOYEE BENEFITS

One of the major categories of appropriations. Employee Benefits include retirement, social security, medical and retired medical.

ENTERPRISE FUND

A governmental accounting fund in which services provided are financed and operated similarly to those of a private business. User charges provide the majority of revenues necessary to support its operation.

EQUALIZATION RATE

A means for converting the assessed value of property to its full value.

EXECUTIVE'S MESSAGE

A general discussion of the proposed budget as presented in writing by the County Executive to the Legislature.

FEE FOR SERVICE (FS)

A sub-category within Interdepartmental Charges. Specific services (other than Internal Service or ICAP charges) charged by a county department or division to another county department or division. A positive expense appears in the funds center incurring the charge while a negative expense (Service Chargeback) appears in the funds center performing the service.

FINANCIAL DETAIL (LINE ITEM BUDGET)

The part of the budget document that provides line item information on appropriations and revenues for each department. Actual figures are given for the preceding fiscal year, while financial data is also provided for the current year amended budget, and the department request and County Executive's estimate for the budget year.

FULL-TIME EQUIVALENT (FTE)

The staffing of employee positions, in terms of productive work hours.

FULL VALUATION

The term used to indicate a property appraisal at 100% of market value at a specified prior point in time.

FULL VALUE TAX RATE

The amount of tax levied for each $1,000 of full valuation.

FUND

A self-balancing group of related accounts.

FUND BALANCE

In fund accounting, Fund Balance = Assets - Liabilities.

FUNDS CENTER

An organizational component of a division.

GENERAL FUND

The accounts of the county are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The General Fund is the county's principal fund, accounting for all financial resources not required to be recorded in other funds. Other types of funds consist of Enterprise, Debt Service, Internal Service and Special Revenue Funds such as the Grant Fund, Library Fund and the County Road Fund.

GRANT

Funding from sources outside the county (federal, state or private) to conduct a specific program to achieve a specific purpose.

GRANT BUDGET

The annual spending and program plan for grants received by the county.

HOTEL ROOM OCCUPANCY TAX

This is a tax calculated as a percentage of the cost of room occupancy on a daily basis (hotel, motel, bed and breakfast, etc.). The rate of taxation is 6% in addition to the standard combined sales tax rate (see the analysis of the Hotel Room Occupancy Tax in the Tax Analyses part of this budget).

ICAP (INDIRECT COST ALLOCATION PLAN)

A sub-category within Interdepartmental Charges. This federally approved plan refers to the allocation of expenses of staff departments. A positive expense appears in the funds center incurring the charge while a negative expense (Service Chargeback) appears in the funds center of the staff department .

INTEREST ON INDEBTEDNESS

One of the sub-categories of appropriations under Debt Service. Interest on Indebtedness includes the annual interest payment on bonds and notes issued by the county to finance capital projects.

INTERDEPARTMENTAL CHARGES

One of the major categories of appropriations. The Interdepartmental Charges appropriation represents the expense to one county department for services or supplies provided by another county department. This category is divided into three types of expenditures: 1) Fee for Service Charges, 2) Internal Services Charges and 3) ICAP charges. Each of these sub-categories is defined under its own heading.

INTERNAL SERVICES

A sub-category within Interdepartmental Charges. Services charged by a county department or division (classified as part of an Internal Service Fund) to other county departments. Internal Services departments or divisions include Facilities Management, Information Services and Unallocated Insurances. These services are consumed internally in the operations of county departments and are principally financed by charges to user departments. A positive expense appears in the funds center incurring the charge while a negative expense (Service Chargeback) appears in the funds center of the internal service department or division.

INTERNAL SERVICES DISTRIBUTION

An allocation of the budgeted costs of the Internal Services operations to the users of the services.

LINE ITEM BUDGET (SEE "Financial Detail")

MANDATED SERVICES

Mandated services are those which the county is required to provide through either federal or state law. The level of control of these services can range from no control to some control over the level of service provided. Federal/State initiatives, services that are significantly reimbursed by federal/state aid, are also included as mandated services.

MEDICAID SALES TAX SWAP

Monroe County has elected to participate in the Medicaid Sales Tax Swap. Medicaid program costs are swapped with a fixed percentage of Sales Tax revenue. Monroe County will forgo receiving 1.61% of their 4% Sales Tax Levy and New York State will pay all Medicaid program costs for Monroe County.

NET COUNTY SUPPORT

The difference between appropriations and attributable revenue which must be raised through the property tax levy or non-attributable revenue.

NON-ATTRIBUTABLE REVENUE

The revenue flowing into the county which is not the direct consequence of providing a specific governmental service. Examples include Sales Tax, Off-Track Betting earnings and interest earned on investments. This revenue, together with the property tax, provides the net county support for programs.

NON-MANDATED SERVICES

Non-mandated services are those for which there is no federal or state requirement, nor is otherwise initiated by another level of government, but may be required by county charter.

OPERATING BUDGET

The annual spending and program plan for county operations and services. It includes appropriations by category of expense and revenue estimates to support county operations and services. It includes all appropriations and revenues not included in the Grant Budget.

PAY GROUP

Designation within the salary schedule establishing the compensation range for each class of position.

PERSONNEL SERVICES

One of the major categories of appropriations. Personnel Services appropriations include salaries for full-time and part-time employees, overtime costs, shift differential, holiday pay, longevity, educational reimbursement and mandated training.

PRINCIPAL ON INDEBTEDNESS

One of the subcategories of appropriations under Debt Service. Principal is the amount originally borrowed to finance capital projects and principal payments redeem part of the amount borrowed.

PROGRAM BUDGET

The main part of the Monroe County budget consists of department budgets which describe the programs that the county administers. Each department, division and funds center has a description which is intended to explain the services it provides or the program it carries out.

PROPOSED BUDGET

The budget plan for the upcoming fiscal year recommended by the County Executive to the County Legislature for its formal approval. The budget is "proposed" until it is formally approved or "adopted" by the County Legislature.

PROVISION FOR CAPITAL EXPENSE (SEE "Cash Capital")

REAL PROPERTY TAX

This is a tax on real estate based on the assessed value and the full or partial taxable status of property. Rates of taxation for county purposes vary among the taxing jurisdictions in the county depending on the assessment practice of each jurisdiction. See the analysis of the Monroe County Real Property Tax in the Tax Analyses part of this budget.

REVENUES

The general category for all income sources which finance county services.

SALES TAX

A tax as a percentage of retail sales (with the general exceptions of food, pharmaceuticals, and other medical supplies) is levied by the State of New York and Monroe County. See the analysis of the Monroe County Sales Tax in the Tax Analyses part of this budget.

SALES TAX CREDIT

The City of Rochester, villages, and school districts in Monroe County receive cash payments for their entire shares of sales tax. In towns outside of villages, property owners receive the benefit of the aggregate first $55 million sales tax directly through a credit which reduces their property tax bills and represents their proportionate share of sales tax allocated to the town. Beginning in 1996 the town aggregate amount over $55 million is distributed to the town governments in direct cash payments.

SEASONAL EMPLOYEE

The status assigned to an employee working a portion of the fiscal year and entitled to minimal fringe benefits.

SERVICE CHARGEBACKS

This includes three different types of interdepartmental charges: Internal service charges, ICAP charges and other Fee for Service charges (see separate definitions for each). In each case a department will utilize staff and resources in their own budget to perform a service for another department or division. The department being charged for the service will show a positive expense under their interdepartmental charges budget. The department performing the service will show a negative expense in their budget. These negative expenses are categorized as Service Chargebacks. This presentation of the budget coincides with the accounting presentation in the new financial system.

STAFF

A section of the budget that lists the proposed personnel by title, number of positions and pay group.

SUPPLIES AND MATERIALS

One of the major categories of appropriations. Examples of Supplies and Materials appropriations are consumable items such as office, construction, technical, institutional, medical and laboratory, landscaping, law enforcement, safety, recreational, chemical supplies, computer software, fuel and gasoline, motor oil, vehicle parts, clothing, books and periodicals and non fixed asset equipment.

TAX LEVY

The total amount to be raised by the general real estate or property tax.

TAX RATE

The amount of tax levied for each $1,000 of assessed or full valuation.

UNALLOCATED EXPENSE/REVENUE

Appropriations and revenues not directly related to any department operations are included in the Unallocated Expense/Unallocated Revenue part of the budget. Examples of such appropriations are the contingency account, the contribution to the Regional Transportation Authority, and several debt service accounts for purposes such as the Water Authority and the Outdoor Sports Facility. Revenues include the real property tax, sales tax, interest earned on investments and several other categories.

UNIT CHARGES

The charges to users in Pure Waters districts based upon water consumption and/or assessed value.

USER FEE

The payment of a fee for direct receipt of a public service by the party benefiting from the service.

Financial Strategies for Monroe County

1. Maintain Stable Tax Rate

Aggressive efforts to reduce costs and enhance revenues from outside the County Tax Base will be continued, enabling the County to maintain the property tax rate at or below 2004 levels and provide quality services to its residents.

To this end, Monroe County will:

- Pursue cost-saving and revenue-enhancing measures that reduce the need for county taxpayer funding;
- Pursue federal, state, and other funding and financing strategies that reduce the need for county taxpayer funding;
- Pursue legislative reforms at all levels of government that facilitate the county's ability to deliver services efficiently and effectively.

Collaboration with other governments in and outside of Monroe County, as well as with local businesses and educational institutions, is critical to the success of these efforts.

2. Continue Multi-Year Budget Forecasting

The Monroe County budget document will include an annual budget plus a two-year budget forecast. This will assist policy-makers in their assessment of the proposed budget as well as highlight the potential impact of – and opportunities for change in – existing and proposed local, state, and federal programs and policies. The net result will be a better basis for decision-making that supports sustainable programmatic and fiscal health in Monroe County.

3. Rebuild County Reserves

A Tax Stabilization Fund will be created and when fully funded will amount to 7.5% of the average annual sales and property taxes accruing to Monroe County (approximately $30 million). It will be funded through annual budget appropriations commensurate with available resources, in no case exceeding the amount of positive fund balance available in the General Fund. Any or all of this Fund may be applied for General Fund purposes during the annual budget process to stabilize taxes for the same fiscal year, and restored to the target fund level in subsequent budget years as resources permit.

4. Continue Conservative Cash and Debt Management Practices

The county administration's debt policy provides that debt shall be issued to finance capital projects where funding sources are not immediately available. The debt will be structured in the most efficient manner to limit the impact on the taxpayer and will take payment of existing debt obligations into consideration as well as the total projected operating cost of the county. The use of cash capital through the operating budget will be utilized to finance projects with a short useful life or with costs estimated at $100,000 or less or for portions of the cost of other projects as financial and budgetary conditions permit without placing undue pressures on the taxpayers. Debt may be issued for cash flow purposes if needed. Any and all debt issues will be structured and sold in accordance with sound debt management practices.

5. Maintain Appropriate Internal Controls

The system of internal controls will be maintained and monitored for enhancement opportunities to ensure compliance with all applicable laws and prudent stewardship of public funds. All employees will be responsible and accountable for the safekeeping of public assets, and a professional internal audit function will be maintained to monitor the system of controls.

6. Enhance Economic Development Efforts

Economic development efforts will be fully coordinated and aggressively advanced in order to strengthen the underlying economic fundamentals of Monroe County. These efforts will contribute to Monroe County's ability to retain and attract business, labor and residents, maintain a stable tax rate, and provide quality services to its residents.

7. Track Performance Towards Goals

Performance measures and targets will be established to measure, manage and promote attainment of Monroe County's financial goals.

MONROE COUNTY PROCUREMENT POLICY

1. Background

This policy has been developed to ensure that Monroe County is in compliance with New York State General Municipal Law concerning the procurement of goods and services as defined herein.

In accordance with New York State General Municipal Law, all purchase contracts involving expenditures of more than $10,000 and all contracts for public works involving expenditures of more than $20,000 must be publicly bid. This policy prescribes the manner in which expenditures for purchase contracts and public works contracts not subject to public bidding requirements are awarded, as well as contracts for professional services, which are also not subject to public bidding requirements. This policy supercedes any policy previously issued and approved.

2. Guidelines for Securing Competitive Quotations for Purchase and Publics Works Contracts

This section pertains to all purchase and public works contracts less than the public bidding limits of $10,000 and $20,000 respectively. All County employees involved in the procurement process shall follow this policy.

All purchases of $25 and less may be made directly with petty cash, subject to the Petty Cash guidelines established by the Monroe County Controller.

Purchases of items and/or services above twenty-five dollars ($25) up to and including one thousand dollars ($1,000) may be made at the discretion of the various departments. A cost quote(s) shall be obtained before any purchase. This policy recognizes that the benefits of cost savings from competition can be quickly outweighed by the costs inherent in seeking multiple quotations.

For all purchase and public works contracts in excess of $1,000 and below the public bidding limits, the County will seek to secure at least three (3) competitive quotes, and shall make an award based on the lowest responsive and responsible quote. Any deviation from this policy shall have written justification from the Purchasing Manager and shall be included in the official file.

3. When Competitive Bidding May Not Apply

In accordance with General Municipal Law, there are instances in which Public Bidding is not required. These instances include:

- purchases through New York State contracts
- purchases made by Monroe Community Hospital (MCH) pursuant to Public Health Law
- items to be purchased from a “sole source”
- items procured through a “true lease”
- surplus supplies, materials or equipment purchased from another governmental or public benefit entity
- supplies, materials or equipment purchased from state correctional institutions or from qualified charitable not-for-profit agencies for the blind or disabled
- purchase or public work is required in an emergency, subject to the requirements of the emergency purchase order procedures
- the County Legislature approves the standardization of an item
- energy performance contracts
- professional services contracts

4. **Professional Services**

This section pertains to professional services, which are not subject to public bidding requirements and which are subject to approval by the Monroe County Legislature and/or the County Executive. Professional Services are services which require special or technical skill, training or expertise which do not readily lend themselves to competitive bidding. General guidelines for determining whether a procurement is a professional service are as follows:

a) Whether the services are subject to State licensing or testing requirements;
b) Whether substantial formal education or training is a necessary prerequisite to the performance of the services;
c) Whether the services require a relationship of personal trust and confidence between the contractor and municipal officials.

For all professional service agreements less than $5,000, a Request for Proposal ("RFP") is not required but may be used when practical.

For all professional service agreements above $5,000 and less than $25,000, an RFP or Request for Qualifications ("RFQ") is not required but may be used when practical. Other forms of soliciting competition, provided they offer an objective basis upon which to award said contracts, may be utilized upon the prior approval of the Purchasing Manager.

For all professional service agreements greater than $25,000, an RFP or RFQ is required unless waived by the County Executive or her designee. A waiver may be issued only in the event of a public emergency, as defined under General Municipal Law or the New York State Defense Emergency Act. The County Executive or her designee shall notify the Monroe County Legislature within 90 days of the issuance of any waiver.

All professional service contracts in excess of $5,000 are subject to approval by the Monroe County Legislature.

5. **Exception for Federal and State Contracts**

This Policy applies to contracts for the procurement of all supplies, services, materials and equipment entered into by the County of Monroe which are not publicly bid. When the procurement involves the expenditure of federal or state funding, the procurement shall be conducted in accordance with any mandatory applicable regulations.

Exceptions to this policy shall only be made upon the approval of the County Attorney.

BUDGET SUMMARY

OPERATING BUDGET	2007	2008	CHANGE	% CHANGE
Mandated [1]	$654,285,843	$520,440,489	($133,845,354)	-20.5%
Non Mandated [1]	181,756,183	185,384,037	3,627,854	2.0%
Debt Service [2]	62,563,721	66,863,566	4,299,845	
Payment to Municipal Sharing Partners [3]	-	90,506,863	90,506,863	
Total Operating Budget	**$898,605,747**	**$863,194,955**	**($35,410,792)**	**-3.9%**

GRANT BUDGET	2007	2008	CHANGE	% CHANGE
Mandated	$146,593,070	$150,970,320	$4,377,250	3.0%
Debt Service [2]	780,479	460,768	(319,711)	
Total Grant Budget	**$147,373,549**	**$151,431,088**	**$4,057,539**	**2.8%**

[1] For comparative purposes, the 2007 mandated and non-mandated budget includes pension costs that were paid in advance in 2006.

[2] Debt Service costs represent obligations to pay for capital budget related expenditures which are approved under a separate legislative action.

[3] This amount represents payments that will be made to fully fund municipalities due to the implementation of the Medicaid Swap in 2008.

FUND SUMMARY AND TAX LEVY COMPUTATION
2008 BUDGET

This schedule presents appropriations and revenues by fund. A fund is a self-balancing group of accounts. For fund accounting purposes the entire real estate tax levy is received into the General Fund. The "Transfer From Other Funds" column includes the amounts required from the General Fund to support other funds. The Pure Waters Fund is supported by unit charges to users.

MONROE COUNTY REAL PROPERTY TAX

Several factors influence the amount of county tax that a real property owner in Monroe County will pay:

- **Assessed Value** is the value placed on the property by city or town assessors. As a result of different assessing practices in each jurisdiction, there is a different relationship of assessed value to full value among jurisdictions within the county. In order to apportion the county tax levy across jurisdictions, the different assessed values are "equalized" to full value.

- **Full Value** represents the estimated market value of all the real property in a municipality at some prior point in time. Full value is based on surveys conducted by the State Board of Real Property Services in which actual field appraisals are performed. From these surveys, equalization rates are established by the state to convert assessed value to full value. As a result of changes in assessed value and equalization rates during this past year, full value has increased in Monroe County by approximately 4.1%.

  It should be noted that a change in full value does not mean that individual properties have gained (or lost) real market value. Full value is a measurement tool used to compare properties from one jurisdiction to another. The importance of full value is its use in equitably apportioning the county tax levy.

- **County Tax Levy** is the total amount of money to be raised by the general real property tax. The share of the tax levy for each jurisdiction is based on its percent of the county's total full value. For example, Penfield represents 6.95% of the county's full value for 2008 therefore, 6.95% of the 2008 county tax levy is allocated to Penfield.

Once the 2008 county tax levy is determined, the full value tax rate is calculated by dividing the tax levy by the total full value expressed in thousands of dollars.

Tax Levy		Full Value		F.V. Tax Rate
$329,649,968	÷	$36,668,516,966	=	$8.99 per $1,000 of full value

Full value tax rates can be compared from one jurisdiction to another, while assessed value tax rates cannot. The assessed value tax rate is the rate that appears on a homeowner's tax bill and is used to compute the tax bill. The tax bill is computed by dividing the assessed value of a home by 1,000 and multiplying that number by the assessed value tax rate. Sales Tax Credits, the share of total sales tax collections credited to towns, are then applied to reduce the county property tax liability for residents of towns outside villages.

MONROE COUNTY
CONSTITUTIONAL TAX LIMIT

The Constitutional Tax Limit of the county is determined in accordance with Section 10 of Article VIII of the New York State Constitution. This limits the amount counties may raise in real estate taxes in any fiscal year, exclusive of debt service, to 1.5% of the five-year average full value of taxable real estate of the county. In the calculation, the Sales Tax Credit to towns is an offset to the tax levy for operating purposes.

2008 Estimated Total Taxing Power	$505,715,323
2008 Estimated Tax Levy	$263,384,870
TAX MARGIN	**$242,330,453**

FACTORS AFFECTING YOUR MONROE COUNTY PROPERTY TAX

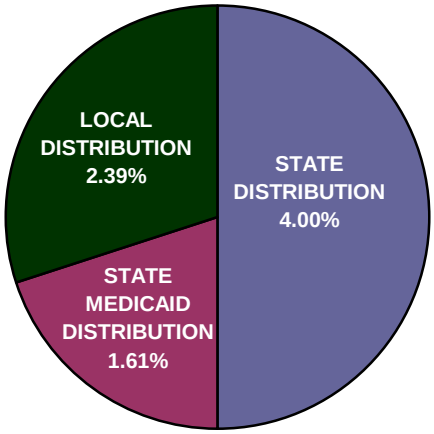
FACTOR	CONTROLLED BY	Impact
Mandated Spending	Programs Required by the Federal or State Government	71% of budget is mandated
Non-Mandated Spending	Programs Controlled by the County Government	29% of budget is non-mandated
Monroe County Full Value Tax Rate	County Government	Decreases from $9.10 to $8.99 per $1,000 of Full Value
Monroe County Real Estate Tax Levy	County Government	Grows by $9.2 million for 2008
Assessed Value	Town or City Government	Varies by Jurisdiction
Equalization	State Government	Varies by State Formula
Exemptions	State Government	Varies
Sales Tax Receipts	Sharing Agreements Medicaid Swap	New York State retains 1.61% of Local 4% tax rate; County distributes remaining 2.39%
Medicaid Expenses	Medicaid Swap	County Medicaid bill is now paid by New York State
Sales Tax Credit (towns only)	Local Economy	Frozen at $55 million

MONROE COUNTY SALES TAX

RATE

New York State's sales tax rate is 4%. Monroe County's sales tax rate is 4%, and has been since March 1993. The following chart depicts the composition of the 8% sales tax rate as a result of the Medicaid Sales Tax Swap explained below.

DISTRIBUTION OF 8% SALES TAX RATE



MEDICAID SALES TAX SWAP

Pursuant to Chapter 58 of the Laws of 2005 of the State of New York, the State Legislature authorized county governments to end local Medicaid payments through their adoption of New York State's "Medicaid Sales Tax Swap". With this swap, counties had the option of relinquishing to the State a certain percentage of their local sales tax revenues in exchange for foregoing paying the state a Medicaid payment which grows at annual rates specified by Law. In 2007, the Monroe County Legislature approved "opting-in" to the New York State "Medicaid Sales Tax Swap", effective January 1, 2008.

The New York State Tax Commissioner has determined that Monroe County's Medicaid factor is 1.61% of the 4.0% local sales tax rate. Therefore, the state withholds a sales tax rate of 1.61% in order to pay for Medicaid. The remaining 2.39% is remitted to the county and distributed to the sharing partners in accordance with the existing distribution formulas in place.

SALES TAX DISBURSED BY NEW YORK STATE AS A RESULT OF SWAP

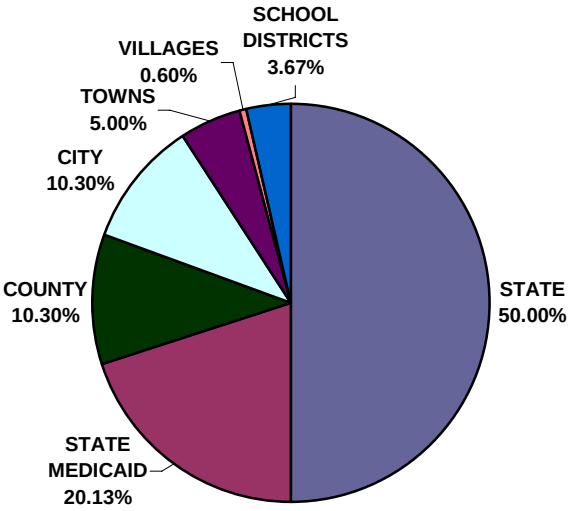
A. Total Estimated Taxable Sales	$10,060,000,000
B. Medicaid Factor (determined by NYS)	1.61%
C. Remaining Local Sales Tax Rate	2.39%
D. Sales Tax Revenue subject to distribution formulas (A x C)	$240,434,000

SALES TAX SHARING

Monroe County, compared with other counties in New York State, has the most generous sales tax sharing formula. Monroe County shares sales tax revenue with all other local municipalities (City of Rochester, towns, villages and suburban school districts). In 2008, Monroe County intends to share 100% of the Sales Tax Revenue through the Distribution Formulas in place and as a result of inter-municipal agreements Monroe County has with the City of Rochester, towns and villages.

The impact of the Medicaid Sales Tax Swap will be a reduction in the amount of sales tax revenue received from New York State available to the county to disburse to the county's municipal sharing partners. The county, as a result of the inter-municipal agreements, will distribute the same dollar amount of funding these municipalities would have received had New York State distributed the entire revenue from the 4% sales tax levy to the County. The following chart depicts the allocation of the 8% sales tax rate to all jurisdictions.

DETAILED DISTRIBUTION OF 8% SALES TAX COLLECTIONS



DISTRIBUTION FORMULAS

Sales tax receipts are divided into two separate components for distribution calculation purposes. The two components, as noted in the Unallocated Revenue portion of the budget (12-1209) are the **"First three cents"** and the **"Additional one cent".**

"First three cents" Component (Morin-Ryan Act Formula)

- The 3% tax component is subject to a complex distribution formula whereby approximately 82.4% is distributed to political sub-divisions within the county and approximately 17.6% is retained by the county to finance the county budget. The Morin-Ryan Act of 1985 details the current formula which included the following stipulations:

  - The City of Rochester receives half the annual growth in sales tax collections.

  - The remaining half is divided among the county, city, towns (including sales tax credits up to $55 million), villages and suburban school districts, with the villages and school districts "held harmless". According to this "hold harmless" provision, the county must compensate suburban schools and villages for any portion of the distribution they may have lost under the Morin-Ryan Act formula.

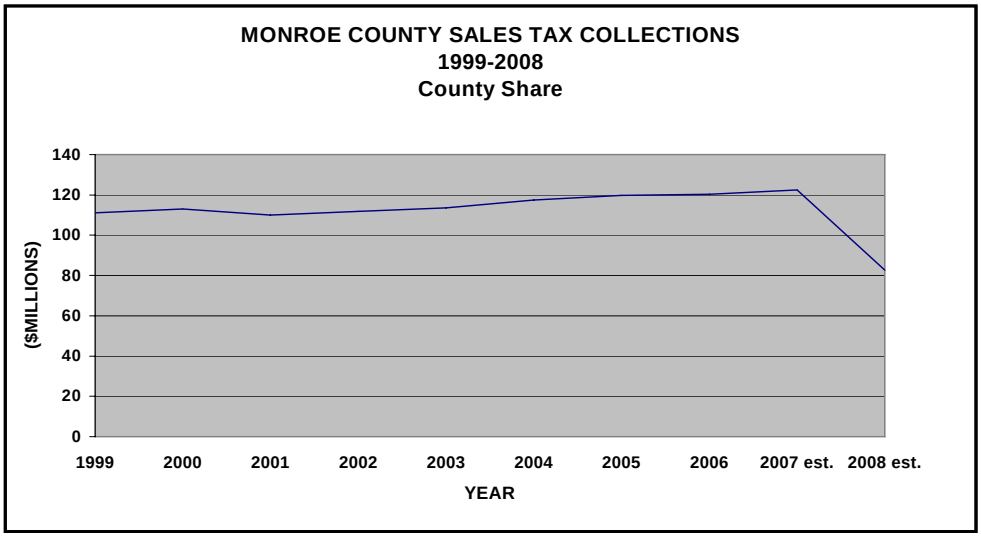
  - The city share of sales tax may never exceed 35.63% of total collections.

“Additional one cent” Component (Parity Formula)

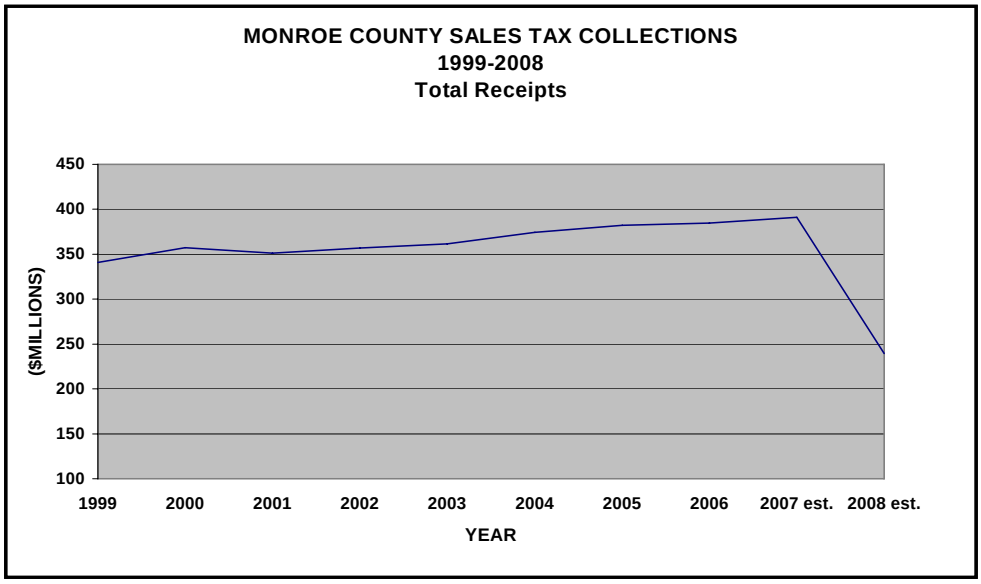
- The additional 1% tax was fully enacted in March 1993.
- Beginning in December 1999 (calendar year 2000), after distributing 9.25% of the additional one cent to suburban school districts (5%), towns (3%) and villages (1.25%), the remaining balance (90.75%) is divided between the City of Rochester and the county so that when added to the **"first three cents"** component, the total share (4 cents) for the city and county is equal.

HISTORY OF SALES TAX COLLECTIONS

The following charts detail the 10 year history of Monroe County sales tax collections (overall receipts and County share) from 1999 through the 2008 estimated amount.



Year	County Share
1999	$ 111,122,546
2000	$ 112,991,577
2001	$ 110,097,188
2002	$ 111,760,823
2003	$ 113,463,888
2004	$ 117,398,625
2005	$ 119,794,793
2006	$ 120,307,825
2007est	$ 123,504,089
2008est	$ 82,910,035



Year	Total Receipts
1999	$ 340,963,422
2000	$ 357,364,720
2001	$ 351,217,003
2002	$ 356,920,683
2003	$ 361,547,791
2004	$ 374,371,876
2005	$ 382,227,902
2006	$ 384,818,624
2007est	$ 394,520,892
2008est	$ 240,434,000

DISTRIBUTION OF SALES TAX AMONG JURISDICTIONS WITHIN MONROE COUNTY

Sales Tax Year	Total Collected	Total Distribution				
		County[1]	City of Rochester	Towns (Aggregate of 19)	Villages (Aggregate of 10)	Suburban School Districts (Aggregate of 24)
2006 Actual	384,818,624	120,307,825	120,307,825	80,242,084	8,558,772	55,402,118
2007 Estimate	394,520,892	123,504,089	123,504,089	81,936,878	8,776,497	56,799,339
2008 Estimate	240,434,000	82,910,035	82,910,035	40,254,723	4,818,803	29,540,404

[1] The above figures are based on the New York State Sales Tax year. The county's share does not represent revenue recognized in the county's financial statements since accruals have not been included. By not including the accruals for the county, the figures for all jurisdictions are kept on a consistent basis.

2008 SALES TAX INTERMUNICIPAL AGREEMENTS
(Based on 2008 Estimate)

MUNICIPALITY	SALES TAX DISTRIBUTION	INTERMUNCIPAL AGREEMENT	TOTAL[2]
City of Rochester	82,910,035	43,069,389	125,979,424
Towns	40,254,723	43,312,512	83,567,235*
Villages	4,818,803	4,124,962	8,943,765

[2]The county will distribute the same dollar amount of funding these municipalities would have received had New York State distributed the entire revenue from the 4% Sales Tax Levy to the County.

*$55 million of this amount will be in the form of a credit on the property tax bill for town residents.

MONROE COUNTY HOTEL ROOM OCCUPANCY TAX

The current Hotel Room Occupancy Tax levied by Monroe County is 6% (This is levied in addition to the retail sales tax). The tax is collected from hotel operators quarterly based on the calendar year.

The revenue derived from the tax is largely distributed to agencies, corporations, and associations whose activities promote or enhance tourism in Monroe County. As of January 1, 2005 the distribution formula changed from a percentage based allocation to a fixed dollar amount allocation:

Agency/County Division	Yearly Allocation Amount (Fixed)
County of Monroe (Administration)	$ 55,000
City of Rochester (War Memorial)	$ 905,000
City of Rochester (Convention Center)	$ 795,000
Monroe County Fair & Recreation Association	$ 55,000
Rochester/Monroe County Convention Bureau	$ 2,795,000
Sports Development Corporation	$ 82,500
Greater Rochester Sports Authority	$ 285,000
Total Distribution to be made each year	**$ 4,972,500**

Any collections over this amount will be distributed to the County's Authorized Agencies/Tourism and Cultural District Development accounts.

The actual distribution for 2006, the adopted budget for 2007 and the 2008 budget are as follows:

	2006 Actual	2007 Adopted	2008 Budget
County of Monroe (Admin.)	$55,000	$55,000	$55,000
City of Rochester (War Memorial)	$905,000	$905,000	$905,000
City of Rochester (Convention Center)	$795,000	$795,000	$795,000
Monroe County Fair & Recreation Association	$55,000	$55,000	$55,000
Rochester/Monroe County Convention Bureau	$2,795,000	$2,795,000	$2,795,000
Sports Development Corporation	$82,500	$82,500	$82,500
Greater Rochester Sports Authority	$285,000	$285,000	$285,000
Total	$4,972,500	$4,972,500	**$4,972,500**
County of Monroe*	$1,491,119	$1,203,401	**$1,509,285**
Totals	$6,463,619	$6,175,901	**$6,481,785**

* These funds will be distributed to the County's Tourism Account to maintain funding levels for various authorized agencies (see Section 89-8902) and Cultural District Development Debt Service (see Section 89-8905)

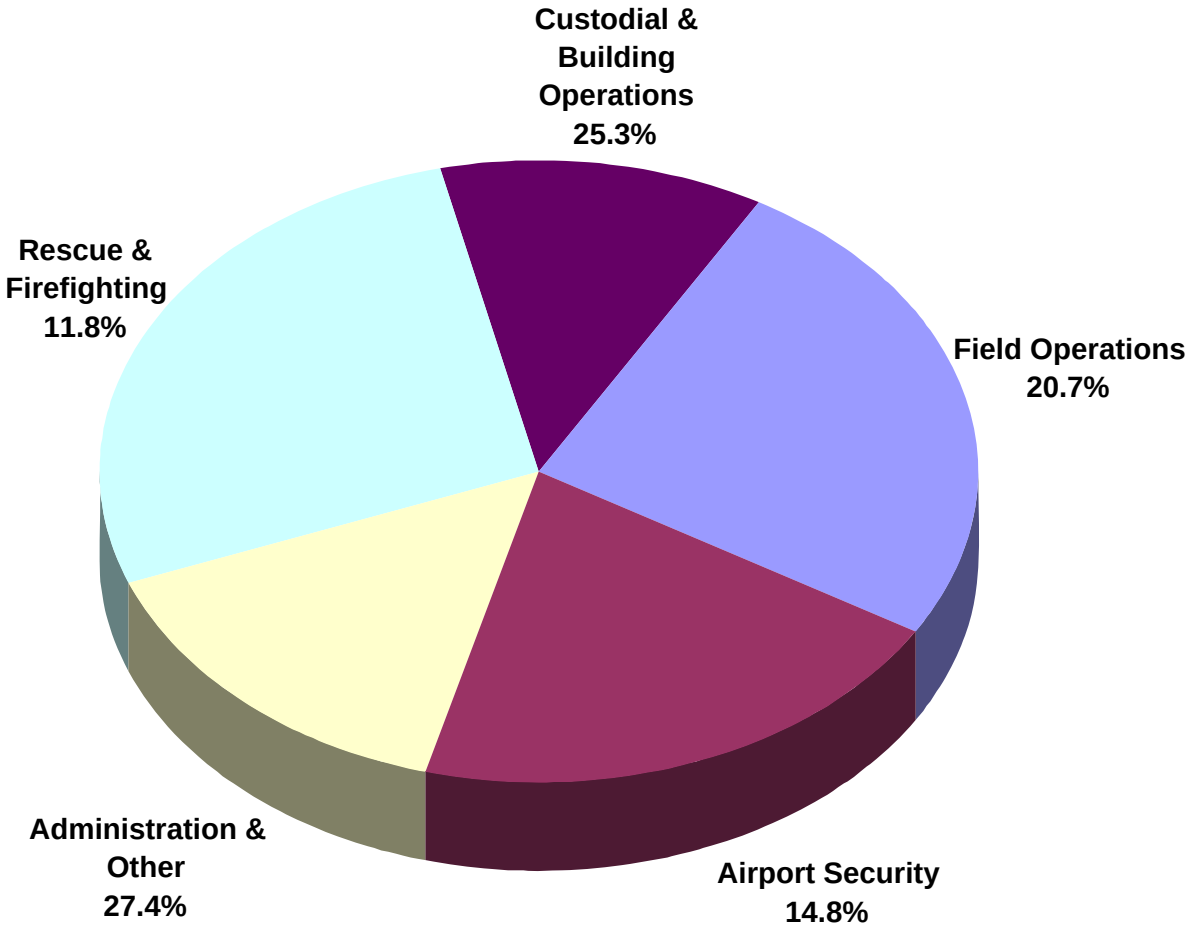
The operating budget for the Department of Aviation is classified as non-mandated. However, the Airport is self-funded and requires no financial support from the county general fund. No taxpayer funds are used to support the Department of Aviation.

AVIATION
2008 Budget - $19,206,804



DEPARTMENT: Aviation (81)
(Greater Rochester International Airport)

DEPARTMENT DESCRIPTION

The Greater Rochester International Airport is a major commercial air facility in New York State. The county leases the Airport's facilities to the Monroe County Airport Authority (MCAA) which sublets land and terminal space to airlines, concessionaires and various other parties. The Aviation Department is responsible for the day-to-day operations of the Airport including administrative services, building and field maintenance, security and emergency response to the MCAA under contract. The Airport is self-funded and requires no financial support from the county general fund. The airport facilities include the three-story garage used as long term parking, three on-Airport surface lots used for short term parking, weekly parking, employee parking and Airport Shuttle Lot parking, as well as three lots off-Airport which are used for Airport Economy Shuttle Lot parking and overflow parking. The budget presented here is for operating costs provided by the Department of Aviation to the MCAA. All revenue from airlines, concessionaires, parking, etc. are paid to the MCAA and are not shown in this document.

Mission

The Monroe County Department of Aviation provides and operates a safe, secure, and efficient air transportation facility for the benefit of the local community, the surrounding region and the air transportation industry to enhance economic well being and quality of life.

2007 Major Accomplishments

- Continued the Airport marketing program which works with local travel agency representatives to encourage travelers to use the competitive low fare air service from Rochester to numerous cities throughout the United States
- Continued successful efforts in attracting additional new low fare air services to the community with the introduction of new nonstop Las Vegas flights
- Held numerous public events at the Airport including Walk the Runway 5K race, Rochester Wings General Aviation Program, Take Your Child to Work Day at the Airport, Airport Fantasy Flight Program, and Airport Tours program
- Enhanced Monroe County's Airport webpage to reflect new developments and services at the Airport including the Real Time Flight Data and Flight Tracker program, and Weather Forecast services
- Continued to provide air travelers expanded parking facilities and services, such as the Airport Valet Service and Cellular Telephone Waiting Lot , available for passengers to use when traveling to and from Rochester
- Introduced new and improved food concession areas in the Airport Terminal for the convenience of air travelers and visitors
- Continued to provide improved access for the hearing impaired population using the Airport through the intertype communications system
- Continued upgrading security systems throughout the Airport complex
- Completed construction of the Runway 10/28 Safety Area Project
- Continued construction of Taxiway "A" improvements
- Completed construction of the first phase of the North Ramp Rehabilitation Project

- Initiated rehabilitation of Runway 7-25
- Continued reconstruction of Taxiway D, as well as construction throughout 2007 to rehabilitate the North Ramp
- Completed the VOR/DME Facility for FAA Navigational Aid upgrade
- Continued operations of the Field Maintenance Division from the Regional Transportation Operations Complex which is operated in conjunction with the Monroe County Department of Transportation, NYS Department of Transportation, and the New York State Police
- Assisted in the operation of a Public Safety Training Facility for the training of airport fire/rescue personnel and community firefighters
- Continued operating the Airport Energy Performance Program which reduces energy consumption in Airport facilities, improves the operational capacity of emergency power systems, and optimizes co-generation energy operations
- Completed construction of the Airport Terminal Renovation Project West Concourse Phase, which offers travelers an expanded Airport Business Center, a new play area for children, improved gate seating, and incorporates new flooring and improved vertical circulation systems with additional elevator and escalators, to make the Airport Terminal more accessible for physically impaired persons
- Initiated construction on the next phase of the Airport Terminal Renovation Project that will upgrade the ticketing lobby and baggage claim areas. Other improvements will also include enhanced lighting, new terrazzo flooring, new ticket counters, and elevator relocation providing more accessibility for passengers
- Continued to assess and review Airport tenant compliance with regulatory policies
- Continued work on the Airport Master Plan Update
- Operation of new glycol storage facility, designed to improve the efficiency of existing glycol collection systems

2008 Major Objectives

- Continue efforts with the local business organizations to attract new air services to the community
- Continue efforts to improve the efficiency of existing glycol collection systems
- Continue to insure Airport compliance with government environmental policies
- Continue to maximize non-airline revenues and maintain airline rates and charges within reasonable levels
- Complete the Perimeter Airside Service Road on the Beahan Road side of the Airport
- Complete construction of Taxiway A Phase 2, Taxiway D Contract 2, and Runway 7-25 Rehabilitation projects
- Continue to market Airport real estate sites for aviation related development, providing additional income to the Airport
- Continue construction on the Terminal Renovation Project
- Relocate the Baggage Screening Operations to the ground floor of the Airport terminal
- Complete the update and initiate work on the Airport Master Plan
- Complete the North Ramp Contract Rehabilitation Project

ENPLANEMENTS BY YEAR
(Total Number of Boarding Passengers)

A common and valuable measure of an airport's activity is registered in terms of the number of passengers boarded each year (enplanements). The actual number of enplanements in 2006 was 1,430,418. The estimated number for 2007 is 1,440,000; the estimated number for 2008 is 1,460,000.

DIVISION DESCRIPTIONS

Administration (8101010000)

This division administers all airport field and terminal operations with the exception of air traffic control, which is the responsibility of the Federal Aviation Administration (FAA). Specific responsibilities include the development of procedures and policy alternatives, management of county personnel and operations, marketing and public relations programming, and the coordination of activities performed under a variety of leases. Administration staff are engaged to some degree in all facets of airport operations and capital improvements.

Also included are debt service payments recorded in this account for 2006 and 2007 to reflect only those capital improvement projects that were not transferred to MCAA in 1989. Detailed information on projects currently serviced by debt are available in the Capital Program/Debt Service section of the budget document.

Airport Security (8102010000)

This division provides services for public safety and general property security and meets FAA requirements concerning the security of aircraft and air travelers. Law enforcement is provided on a 24-hour basis by the Sheriff's Office. A central communication and emergency dispatching center located in the east terminal building provide support to all security and emergency services.

Crash/Fire/Rescue (8103010000)

This division provides a firefighting and rescue station for airfield operation as required by FAA regulations. The Rescue and Firefighting team also responds to non-aircraft related emergencies occurring anywhere on the airport premises. The team responds to over 400 emergencies annually and is required by the FAA to respond to all aircraft emergencies within three minutes. In an effort to reduce and prevent airport and airfield emergencies, this team conducts safety programs for all airport employees and inspects all critical areas and equipment. Personnel of this division also continually conduct in-house training programs and joint training programs with the City of Rochester and various town fire departments to ensure a coordinated emergency response effort to the airport when required.

Field Operations (8104010000)

This division conducts regular inspections of the airfield in accordance with FAA-mandated guidelines and maintains a safe airfield environment in all weather conditions. County personnel assigned to this division maintain runways, taxiways, ramps, access roads, and landscaping on the airfield. Specific activities include the repair of lighting systems, maintenance of turf and pavement, and removal of snow and ice.

Custodial Operations (8105010000)

A full-time staff provides maintenance and custodial responsibilities for public portions of the terminal building and other airport facilities. Specific activities include office cleaning, snow removal, cleaning of sidewalks and roadways, terminal and roadway landscaping, and the maintenance and repair of terminal equipment, furnishings, and fixtures. Personnel monitor all facets of terminal operations to ensure that any day-to-day problems are corrected with minimal inconvenience to airport users.

Building Operations (8106010000)

Building Operations provides services for the plumbing, heating, air conditioning, and electrical systems at the Airport. Maintenance services are provided to six buildings, including the Airport Terminal, Regional Transportation Operations Center, Rescue One Firehouse and several smaller freight buildings.

DIVISION DESCRIPTIONS

Fuel Farm (8107010000)

The Greater Rochester International Airport constructed an environmentally compliant Fuel Farm in 1999. The facility is a self-supporting Special Purpose Facility used to store aviation fuel. A fee is charged to all the users of the facility. This fee recovers all the costs associated with the Fuel Farm. Revenue, Debt Service and Operational Expenses, if any, are isolated and accounted for as a self-supporting Special Purpose Facility.

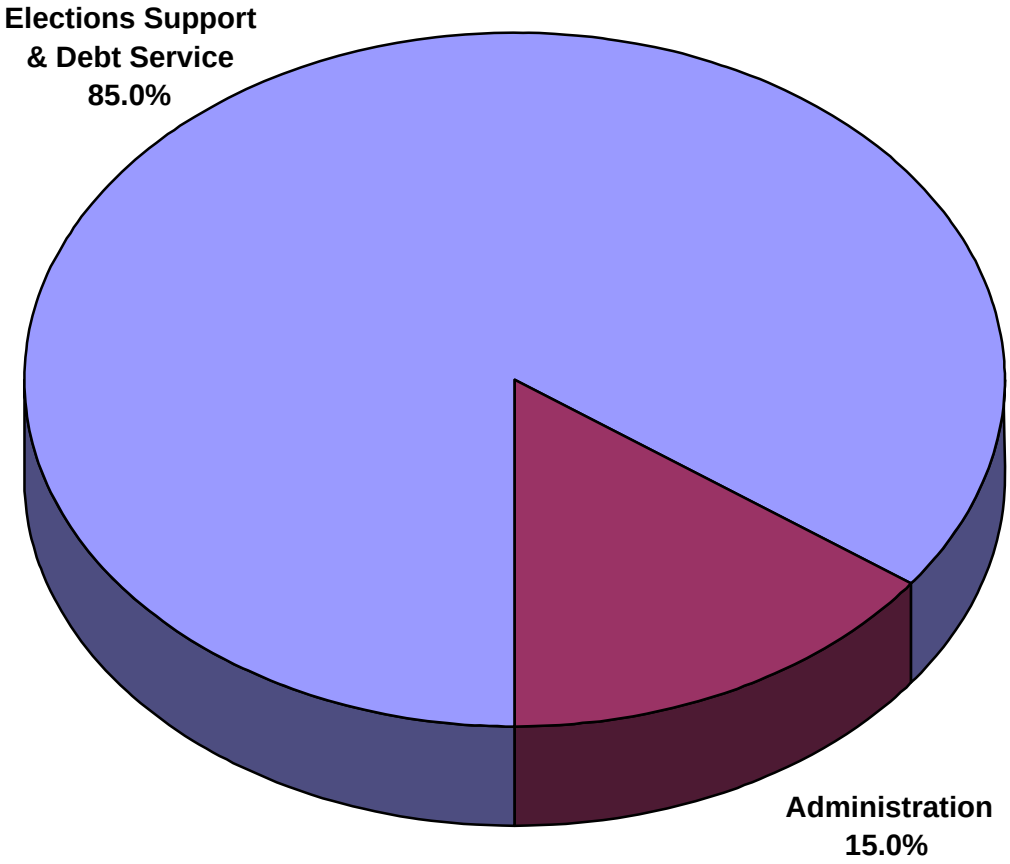
Board of Elections is mandated by the State of New York to conduct all national, state, county, city and town elections in Monroe County.

BOARD OF ELECTIONS
2008 Budget - $7,062,111



DEPARTMENT: Board of Elections (20)

DEPARTMENT DESCRIPTION

The Board of Elections conducts all national, state, county, city and town elections in Monroe County. National elections now require compliance with the Help America Vote Act (HAVA). New York State Legislation identifies additional requirements and implementation procedures. In addition, the Board of Elections provides machines, support and relevant materials to villages, school districts, fire districts, union districts, water districts and other organizations both private and public. It currently maintains official election records on 426,000 voters and directs all aspects of voter registration, redistricting and administration of elections. Our updated automated records provide an historical and legal source for governmental agencies and individuals requiring documentation for employment, residency and citizenship.

The Board of Elections handles financial disclosure filings for all political and campaign committees supporting candidates within Monroe County.

The Board of Elections trains and manages over 3,300 Election Inspectors who are employed for various elections.

Monroe County is one of four New York counties that owns, maintains and programs their own machines. The fleet of 981 machines are centrally stored in our Service Center facility where ongoing preventive maintenance is performed throughout the year.

The National Voter Registration Act, NYS Motor Voter/Agency Law and Help America Vote Act affords the opportunity for the Monroe County Board of Elections to provide easy access to the voter registration process and maximize participation in the electoral process.

Mission

We will provide, as a New York State mandated department of Monroe County, through a skilled and dedicated staff, in collaboration with federal, state and county municipalities, for the highest degree of voter participation in honest and fair elections for all the citizens of New York in compliance with the Help America Vote Act (HAVA).

2007 Major Accomplishments

- Implemented the new absentee workflow system as a result of the revamped procedures. Also reevaluated absentee applications
- Continued cross training of staff to maximize their effectiveness, efficiency and productivity
- Began documentation of Board of Election procedures for all departments
- Worked with persons with disabilities to assure their involvement in the implementation of Plan B equipment as required by State and Federal Legislation and the Justice Department
- Collaborated with town and city polling sites to continue to meet A.D.A. compliance
- Restructured office space and changed workflow to make operations more efficient
- Complete research on feasibility of new automated scanning of voting history
- Implemented wireless handhelds for machine inventory and machine maintenance
- Developed and implemented training programs for Inspector Coordinator and Election Inspectors
- Implemented a permanent solution for the Statewide Database as required by State and Federal legislation
- Completed several audits to update and improve voting records
- Met with outside agencies to improve timeliness of incoming registrations
- Continued to provide “Plan B” voting equipment for voters in the Primary and General Election

2008 Major Objectives

- Evaluate and implement new equipment to be used to implement HAVA under "Plan A" as required by State and Federal Legislation and the Department of Justice
- Purchase and receive new certified voting equipment which will include evaluation of storage space at our service center and the leasing of new space or reconfiguration of the current space
- Perform acceptance test according to NYS regulations and procedures developed by Monroe County Board of Elections to assure standards are met for new equipment
- Train technical staff on maintenance and setup of new machines, as well as Inspector Coordinator staff on Election Day usage of machines
- Train entire Board of Elections staff on general usage of voting machines so that they can participate in community outreach programs to introduce new voting equipment
- Develop and implement extensive public relations programs to introduce new voting equipment
- Continue with the process of capturing all historical canvass books, machine face diagrams and other related historical documents
- Maintain efforts to work with persons with disabilities to assure their involvement in the implementation of the new voting equipment
- Refine and improve Statewide Database interactions

DIVISION DESCRIPTIONS

Administration (2001010000)

Elections are administered in accordance with New York State Election Law and Federal Statute. Administration provides the managerial direction to the department through development of policies and procedures and oversight for all elections. Additionally, administration division responsibilities include the development, coordination, and implementation of programs for the purpose of maximizing voter participation through voter outreach programs.

Elections Support (2003010000)

The Elections Support division registers voters, trains election inspectors, tabulates election results and ensures the integrity of the election process. Instructional booklets, training manuals, and financial disclosure information are provided for election inspectors, candidates and campaign treasurers to ensure that campaign financial reports are filed by legal deadlines and that candidates are informed of all necessary requirements and pertinent dates. A computerized election tabulating system has been implemented which provides the public, candidates and media with immediate updated election results.

The staff at the Service Center maintains and programs voting machines for use in primary, special and general elections as well as providing technical assistance to villages, school districts, fire districts and other community-based elections.

Secure storage, maintenance and conduction of an annual audit of official election records of Monroe County voters, including current registration, enrollments and annual redistricting, are performed by the Elections Support division. Through the use of computerized verification systems, all state reports are filed accurately and within legal deadlines and information can be quickly provided in response to Election Day inquiries from the public.

COMMUNICATIONS

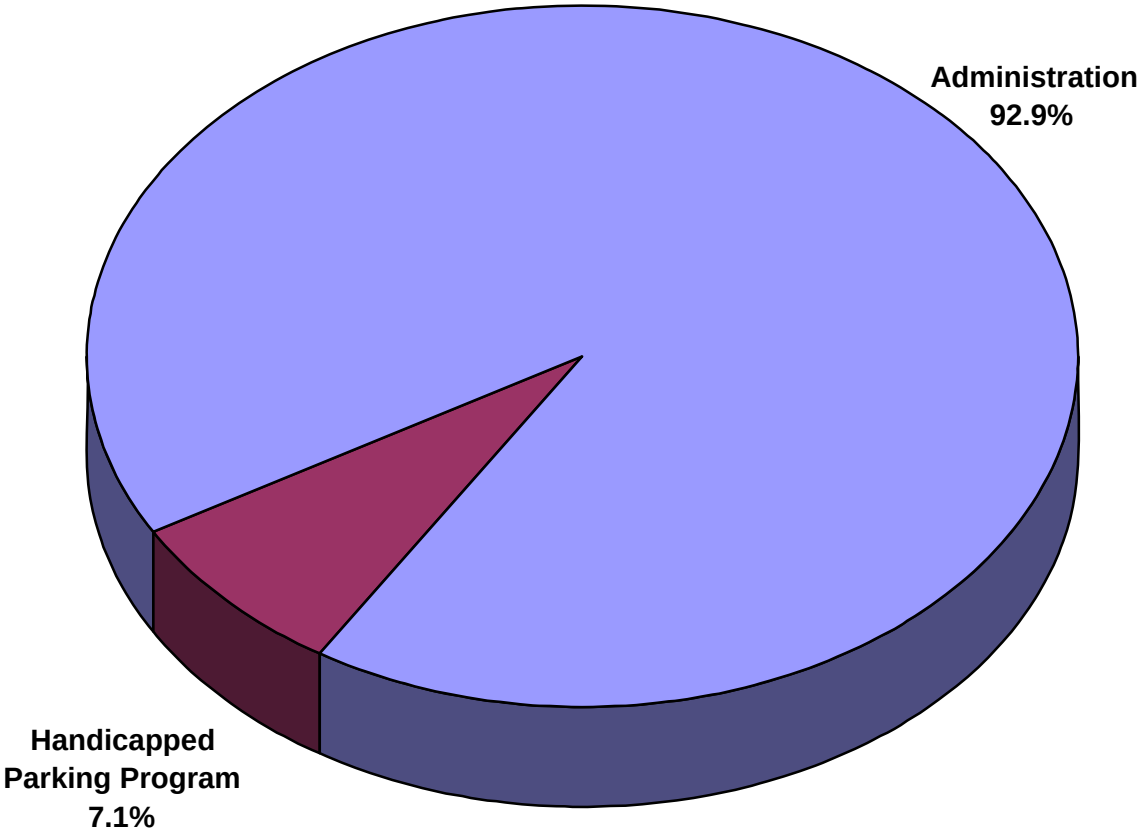
2008 Budget - $395,138



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Communications (18)

DEPARTMENT DESCRIPTION

The Department of Communications consolidates a number of county communication functions: Freedom of Information procedures, public information activities, emergency response, graphic coordination and special events planning.

Mission

The Department of Communications is the central source of information on Monroe County operations for all of its customers in the general public, the media and within Monroe County government. The department promotes the policies, programs and agenda of the Monroe County Administration, contributing to the success of those programs by developing community and internal support for them.

2007 Accomplishments

- Worked with the County Executive and departments to market projects such as the Mill Seat Landfill, Renaissance Square, new exhibits at the Seneca Park Zoo, and new energy and environmental initiatives
- Worked with internal and external Project Team members to launch and provide support for the final phase of the County Executive's Technology Improvement project, including implementing enhancements to the website to improve services and accessibility for the public
- Worked closely with the Department of Planning and Development to promote economic development initiatives and business expansion projects
- Worked in collaboration with the Greater Rochester International Airport to communicate the expansion of terminal amenities and promotional strategy for the Airport's ongoing terminal renovation project
- Worked closely with the County Executive to craft and publicly deliver the State of the County message
- Worked closely with the County Executive, Office of Management and Budget, and Department of Finance to educate the public about the County Budget
- Worked with COMIDA to expand public access and community awareness of COMIDA-approved projects
- Worked to implement public awareness campaigns for The Entrepreneurs Network to keep ideas and entrepreneurs in Monroe County
- Worked with our region's college Presidents, young professional organizations and the County Executive to coordinate media strategy to encourage young people to stay within our community
- Worked with the Department of Public Safety to implement improvements to the Law Enforcement Communications system and organize public information sessions
- Improved turnaround time for media requests for information and interviews and for Freedom of Information requests

2008 Major Objectives

- Continue to work on major projects such as Renaissance Square, Crime Lab and the county's energy and environmental initiatives
- Continue to work with the Department of Planning and Development and community partners to advance economic development initiatives and projects
- Build on successful community outreach and collaborative efforts with local organizations, groups and agencies

DIVISION DESCRIPTIONS

Administration (1801010000)

The Communications Department provides information about county programs and initiatives to the media and the general public. The division prepares and distributes press releases, schedules news conferences, arranges public appearances and writes and edits a variety of informational materials for public distribution.

The division, in addition to the coordination of public and media inquiries, addresses all requests under the Freedom of Information and Open Meeting Laws. Staff is trained to coordinate public information during emergencies involving storms, nuclear power emergencies or other disasters.

Handicapped Parking Education Program (1802010000)

The Handicapped Parking Education Program funds education and public awareness projects to reduce illegal use of handicapped parking spots.

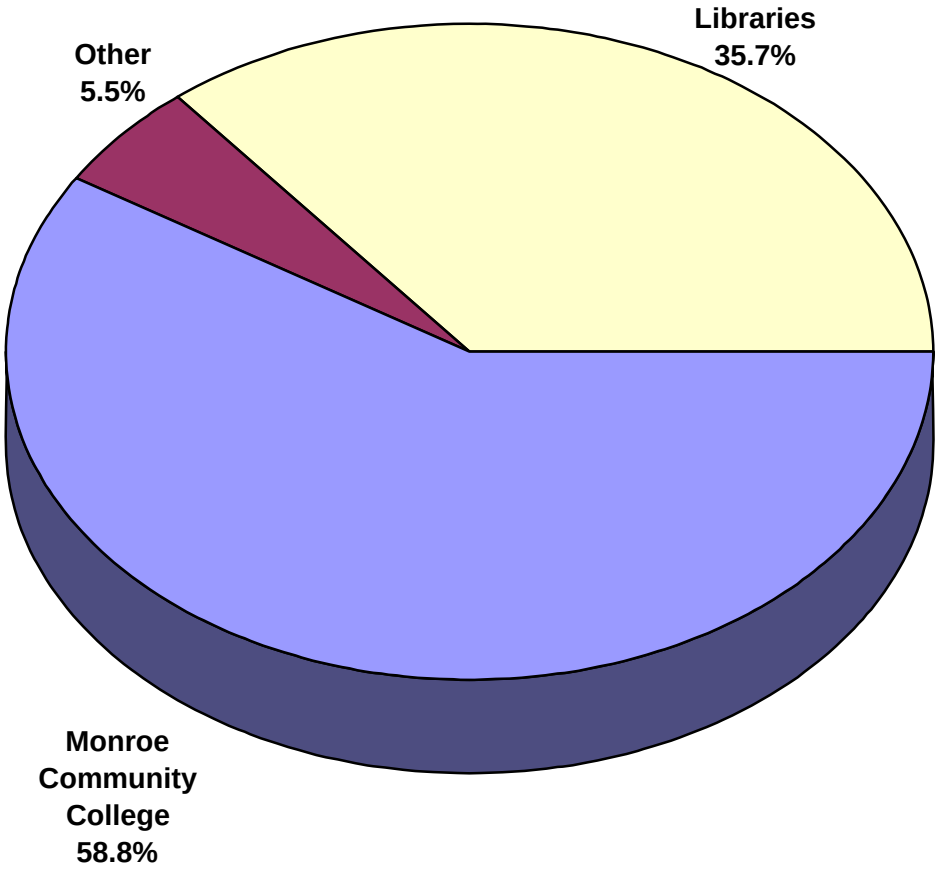
CULTURAL AND EDUCATIONAL SERVICES
2008 Budget - $32,410,614



DEPARTMENT: Cultural and Educational Services (89)
DIVISION: Monroe Community College (8901)

DIVISION DESCRIPTION

Established in 1960, Monroe Community College (MCC) is part of the statewide system of 30 community colleges. The primary mission of the community college system is to extend affordable higher education opportunities to citizens.

For the 2007-2008 school year, full time tuition increases by $100 to $2,800 for resident students. Tuition revenue now supports 42.9% of the net college budget. Monroe County and the State of New York are primary funders for the remainder of the budget. The county contribution increases $200,000 and the state base aid increases by $150 to $2,675 per student. The state aid level is 2% under the 40% state support levels contained in Community College funding regulations. MCC's projected enrollment for 2007-2008 is 14,000 full time equivalent (FTE) students: 12,641 FTEs are projected at the Brighton campus, which includes the Applied Technology Center and the Public Safety Training Facility students, and 1,359 FTEs are projected at the Damon City Center.

Each year there is an operating budget review process. The College Board of Trustees and the College President submit the operating budget to the Monroe County Executive and to the County Legislature for review and approval. Prior to the beginning of the college fiscal year, which begins in September, the budget is reviewed and final appropriations are authorized by the Legislature. **The county Contribution to MCC was approved by the Monroe County Legislature through Resolution #292 of 2007, which was adopted on August 14, 2007.**

Monroe County is also responsible for sponsor support associated with residents who attend other New York State Community Colleges outside of the county. Likewise, other counties sending students to MCC are obligated to support their students.

This cost center also includes debt service expenses generated by MCC capital projects authorized under the County Capital Improvement Program.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations			
Contribution to MCC		14,050,000	14,250,000

Net County Support		**15,520,708**	**1,880,242**

DEPARTMENT: Cultural and Educational Services (89)
DIVISION: Libraries (8904)

DIVISION DESCRIPTION

Monroe County funding for Libraries is tracked in two cost centers: the Monroe County Library System (MCLS) and the Rochester Public Central Library. The annual budget allocation is contained in a separate library fund.

Libraries in Monroe County are part of an independent federation united by a contract. The Monroe County Library System (MCLS) provides centralized services to all city, town and village libraries. MCLS was established in 1952 and is managed by an 11-member Board of Trustees and a Director under contract with the Board. The Rochester Public Library (RPL) and its Board share the same Director. The RPL includes the Central Library and city community branches. Monroe County provides the majority of the funding to support the Central Library. Under a 1968 agreement between Monroe County and the City of Rochester, RPL provides central library services to MCLS.

The Monroe County Library System and the Central Library have moved aggressively to utilize new technologies to expand the depth and breadth of access to quality information in the county. In the coming year, the scope and quality of the information that can be obtained on the LIBRA Information network will continue to be expanded.

2007 Major Accomplishments

- Increased storage capacity for digital library and the digitization of an additional 200,000 pages of local history documents
- Increased bandwith of internet service from 15 MB to 21MB
- Installed *Aquabrowser* to enhance the library search engine experience for both librarians and the public
- Installed self-check systems at the Central Library
- Installed web-based platform *OverDrive*, to enable library patrons to download audio books more easily

2008 Major Objectives

- Explore an expanded role for the Central Library in county-wide local history collaborations utilizing digitization expertise in archival storage and retrieval
- Expand collaboration between the Monroe County library system and area arts and cultural institutions
- Develop and promote the system's webcast education capabilities
- Increase programming and marketing of the Central Library and the Monroe County Library System with the objective of making it the center of the cultural community; we will expand efforts to bring in well-known authors and establish reading and literary events county-wide

SECTION DESCRIPTIONS

Monroe County Library System (8904010000)

This section funds services that are directly related to administration of activities with a system-wide impact. Included in the services funded are the implementation of an automated circulation system and administration of contracts and activities that provide technical services. These technical services include the centralized ordering, cataloging, and processing of library material and the management of the system-wide bibliographic data base.

Mission

The Monroe County Library System is a coalition of member libraries that provides materials and programs to meet the informational, educational and recreational needs of individuals, member libraries and local governments through: 1) collaborative ventures for cost effective delivery of quality services; 2) centralized delivery of selected services; and 3) the fostering of fast, accurate access to materials and services in a seamless, consistent and uniform manner.

Rochester Public Library Central Services (8904020000)

Under a 1968 agreement between Monroe County and the City of Rochester, RPL provides central library services to the Monroe County Library System (MCLS). The county reimburses RPL for the net costs of the services provided.

RPL's Central Services are available to all county residents through support and consultant services to all libraries in the county.

Public services provided at the Central Library include loan of library materials and information services to library users. The entire collection of books, periodicals, pamphlets, newspapers, films, recordings, art reproductions and other non-print materials of the Central Library are available to all residents of the county, either through direct use or via interlibrary loan to community libraries.

Mission

The Rochester Public Library enriches the quality of life in Rochester and Monroe County by providing educational, recreational, aesthetic, and informational materials, services and programs to help people follow their own lines of inquiry and enlightenment.

Through a partnership of public and private resources, the library assists the city and county in meeting the needs of the community by operating the central and branch libraries, conducting outreach programs and providing services to member libraries of the Monroe County Library System.

In all its endeavors, the library maintains and promotes the principles of intellectual freedom and equality of access.

DEPARTMENT: Cultural and Educational Services (89)
DIVISION: Cultural District Development (8905)

DIVISION DESCRIPTION

In 1979, as part of its effort to maintain and strengthen the county's economy, Monroe County joined with the City of Rochester and several private agencies in a venture to preserve and redevelop downtown Rochester. The city and county obtained special state legislation which permits joint sponsorship and establishment of a cultural district. The development involves renovation and construction of cultural and entertainment facilities, residential structures and various support facilities surrounding the Eastman Theatre.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations

DEPARTMENT: Cultural and Educational Services (89)
DIVISION: Authorized Agencies and Tourism (8902)

DIVISION DESCRIPTION

Section 224 of the New York State County Law permits counties to support the services of specified types of non-profit organizations, corporations, associations and agencies provided that services are rendered within the supporting county. County support for the maintenance and operation of cultural organizations, such as orchestras, art galleries and museums, is specifically authorized.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations			
Mid-Sized Arts Support		45,000	45,000
Rochester Philharmonic Orchestra		160,000	160,000
Geva Theatre		15,000	15,000
Memorial Art Gallery		60,000	60,000
Genesee Country Village and Museum		30,000	30,000
George Eastman House		30,000	30,000
Rochester Museum and Science Center		900,000	900,000
WXXI		20,000	20,000
Tourism		9,016	9,016
	Total	**1,269,016**	**1,269,016**
Revenue			
Hotel Room Occupancy Tax		1,203,401	1,256,925
	Total	**1,203,401**	**1,256,925**
Net County Support		**65,615**	**12,091**

AGENCY DESCRIPTIONS

Mid-Sized Arts Support (8902010000)

The budget includes a county contribution for arts and cultural organizations with annual budgets between $95,000 and $1.6 million.

Rochester Philharmonic Orchestra (8902020000)

The Rochester Philharmonic Orchestra (RPO) ranks among the top 20 major American symphony orchestras. The central mission of the RPO is to present symphonic and other music of the highest artistic quality and the presentation of educational concerts. Monroe County funding provides a series of free educational concerts for area school students in addition to underwriting a series of free concerts in county parks for the enjoyment of the community.

Geva Theatre Center, Inc. (8902030000)

Geva Theatre Center, Monroe County's non-profit professional theatre and the most attended producing theatre outside of Manhattan in New York, presents a season of six Mainstage productions and one holiday production each year. Selections include dramas, comedies, classics, musicals, and both regional and world premieres. In addition, Geva Theatre Center produces plays and musicals in The Nextstage (2 productions for adult audiences and 2 Big Theatre for Little People plays for elementary school children). Geva provides sign-interpreted performances for the deaf and hard of hearing, and audio-described performances for the blind and visually impaired members of the audience. Geva maintains a strong commitment to educational programs, community outreach, and new play development. Funding from Monroe County significantly helps Geva Theatre Center maintain its strong cultural leadership in the community.

Memorial Art Gallery (8902040000)

The Memorial Art Gallery maintains a valuable collection of over 11,000 art objects spanning 5,000 years and representing diverse cultures and periods of art history. In addition to exhibiting its own collection, the Gallery also hosts important traveling exhibitions organized by its own staff and by other institutions. The Gallery provides guided tours of the collection and special exhibitions, maintains a 30,000+ volume art reference library and provides teacher training and curriculum consultation for public and private schools. In addition, the Gallery offers public programs of interest to the community's diverse audiences. Monroe County funding helps the gallery maintain its facility and extensive art collection and offer reduced price admission on Thursday evenings.

Genesee Country Village and Museum (8902050000)

Genesee Country Village and Museum, the largest living history museum in New York State and one of the largest in the nation, preserves and presents the lifestyles, customs, trades and crafts, horticulture and foodways, and sport and recreation of the 19th century in the Genesee Valley region. The Historic Village includes 68 historic structures, with trained staff interpreters in period clothing to demonstrate and describe the daily life in the 1800s. Monroe County funding provides essential operational and programming support, which allows the museum to continue to conserve, curate and interpret the history and heritage of Western New York and the Genesee Valley region for the benefit of this and future generations.

George Eastman House (8902060000)

The George Eastman House is located at the historic, restored house and gardens of George Eastman and contains the world's leading collection devoted to the art, history and science of photography and motion pictures.

Rochester Museum and Science Center (8902070000)

The Rochester Museum and Science Center (RMSC) is a premier educational and cultural institution, serving Monroe County children and families, schools and community groups through exhibitions and programs that explore science and technology, the natural environment and our region's cultural heritage. The RMSC's East Avenue campus includes the Museum, with major permanent and topical hands-on exhibitions, programs and theater presentations; the Strasenburgh Planetarium, with a state of the art Challenger Learning Center; the Gannett Building, housing the fully accredited RMSC Preschool, Science Linkages and the Genesee Community Charter School; the Eisenhart Auditorium, host to many community events; and herb and flower gardens that provide a refreshing urban greenspace.

WXXI Public Broadcasting Council (8902080000)

WXXI Public Broadcasting Council operates six television stations, which includes WXXI-TV21 (cable 11), City 12, and four digital channels: WXXI-HD, WXXI-Q, WXXI-Create and WXXI-DT. WXXI's radio services include four radio stations: FM 91.5, FM 90.3, FM 88.5, AM 1370; three HD radio channels: FM-HD 91.5-1, FM-HD 91.5-2, and FM 91.5-3; and Reachout Radio, a closed-circuit 24-hour reading radio service for those who are visually impaired. WXXI's television and radio stations broadcast educational, cultural, news and public affairs, instructional, and childrens programming for viewers and listeners in the greater Rochester area. WXXI hosts a robust web site (WXXI.org), where visitors can stream the radio stations online, view TV and radio schedules, download educational materials, find play lists, access podcasts and stay current with local and national news. WXXI's Education and Interactive Services (E&IS) deliver education and information to the community through instructional programming, Ready to Learn, GED Connections, EdVideo Online, college telecourses, outreach initiatives, and local educational productions. E&IS also provides professional development offerings for teachers, including Online Courses from PBS Teacherline New York and from the WXXI Mid-West Regional Adult Education Net.

Tourism (8902090000)

Monroe County receives funds from Hotel Room Occupancy Tax revenues in order to promote and enhance tourism. Appropriations provide for the county's participation in local promotional activities.

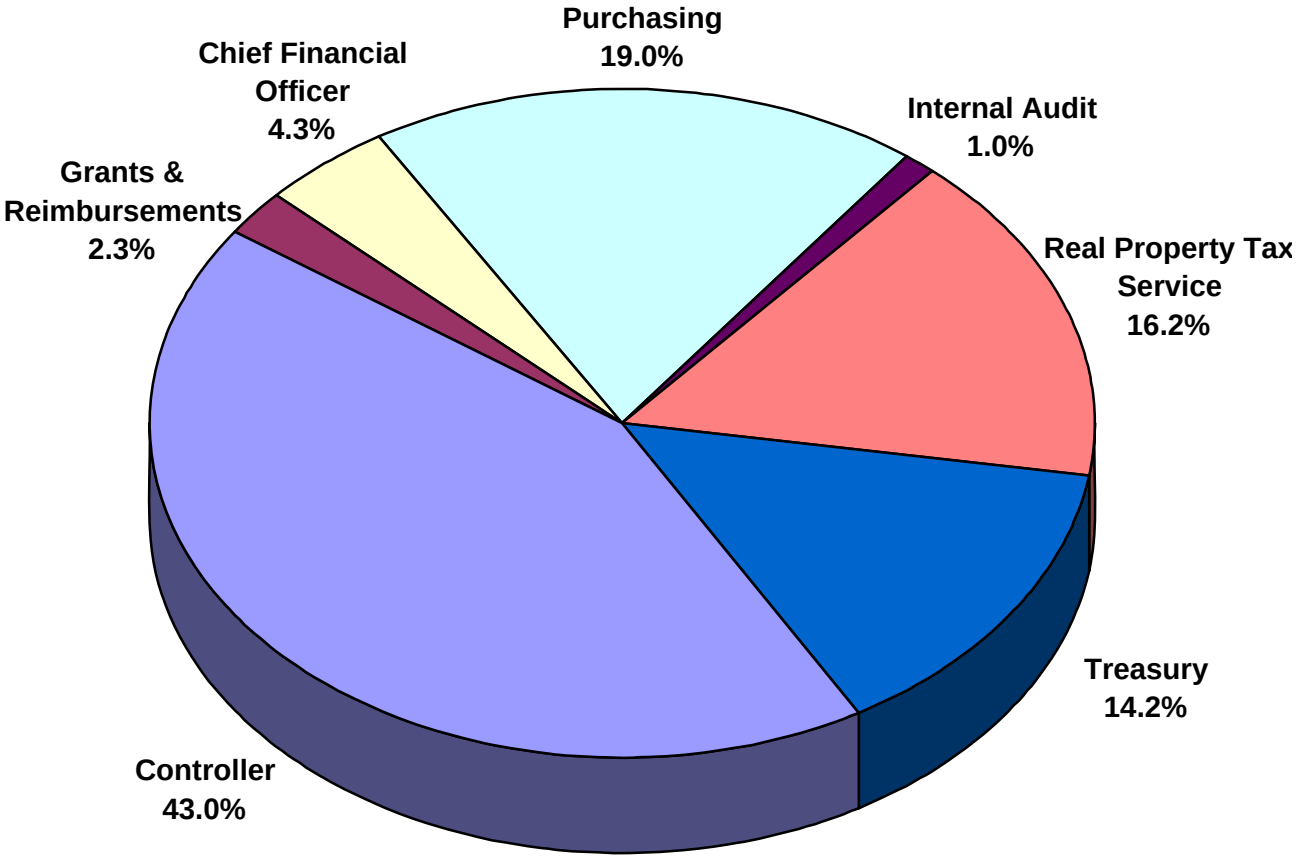
The Offices of the Chief Financial Officer, Controller, Grants & Reimbursements, and the divisions of Treasury, Purchasing and Internal Audit are non-mandated.

The functions performed by Real Property Tax Service, excluding Real Estate, are mandated by New York State. A subdivision of the Controller's Office provides staff support for state and federally mandated services in the Department of Human Services and the Department of Public Health.

FINANCE
2008 Budget - $6,741,307



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Finance (12)

DEPARTMENT DESCRIPTION

Under the administration of the Director of Finance - Chief Financial Officer, the department serves to supervise and control the financial affairs of the county. This includes coordinating and managing the functions of the Office of the Controller, the Office of Grants & Reimbursements, Treasury, Real Property Tax Service and Purchasing as well as Debt Management and Internal Audit.

Mission

To maximize the ability of Monroe County government to promote the social and economic well being of the community in a financially responsible and sustainable fashion, minimizing the reliance on county taxpayer resources.

2007 Major Accomplishments

- Issued $75,885,000 of Public Improvement Bonds and $10,070,000 in Public Improvement Bond Anticipation Notes
- On time issuance of the Comprehensive Annual Financial Report, which documents and communicates Monroe County's performance for the year ended December 31, 2006
- Adopted Governmental Accounting Standards Board Statement No. 44, "Economic Condition Reporting the Statistical Section – an amendment of NCGA Statement 1", No. 46, "Net Assets Restricted by Enabling Legislation – an amendment of GASB Statement No. 34 and No. 47, Accounting for Termination Benefits"
- Continued implementation of a new Tax Billing and Collection software system (Hamer EZ-Tax) for use by all Monroe County tax receivers
- Centralized the Agency and Professional Services Contract process within Purchasing
- Standardized solicitation/procurement documents for the Agency and Professional Services Contract development process
- Developed policies and procedures for posting bids and requests for proposals on the new Purchasing web site
- The Real Property Portal of the Citrix Server Version of the State Real Property System was launched, giving property owners and real estate professionals access to current county-wide property data
- Addition of Pictometry images to the GIS file provides a visual assessment of properties to assessors
- Began scanning subdivision maps allowing engineering and surveying professionals on-line access to these maps

2008 Major Objectives

- Major upgrading of the Real Property Tax Service CITRIX application
- Complete implementation of Hamer EZ-Tax collection software system
- Complete Contract Management System Project
- Implement a "P-Card" system that will reduce administrative costs and improve productivity
- Initiate new vendor performance program
- Begin next phase of SAP implementation to allow electronic quotations

DIVISION DESCRIPTIONS

Office of the Chief Financial Officer (1201010000)

The Office of the Chief Financial Officer is responsible for formulating, evaluating and examining financial policies; directing investment, cash flow and borrowing programs; and supervising and coordinating the operations of the department. Assistance is given to other departments in order to improve their financial operations.

The Office of the Chief Financial Officer will implement and/or continue the fundamental strategies of financial management as articulated in the Financial Strategies section of the 2008 Monroe County Budget document.

Office of Grants & Reimbursements (1202010000)

The Office of Grants & Reimbursements is the county's point of contact for the application and management of grants and reimbursements. The office was established in 2004 pursuant to a recommendation of the County Executive's Budget Advisory Team. The office monitors, advises, and supports county departments as they manage their grant and reimbursement budgets. The office ensures the continued flow of government formula grants and facilitates the development of competitive grants in order to strengthen existing services and reduce the county taxpayer support necessary to deliver services.

Controller (1203010000-1203040000)

The Office of the Controller is responsible for the accounting of all fiscal affairs of the county, and for providing financial statements in accordance with accounting principles generally accepted in the United States. This division is responsible for monitoring and safeguarding county assets through effective internal controls. The Controller's Office maintains and operates the county's central financial information system, disburses county funds including payroll, and monitors county revenue and cash flow. The office assists and works jointly with other departments within the county to accomplish the overall goals and objectives of the county's Finance Department.

Internal Audit (1204010000)

Internal Audit is an independent appraisal function established within the Finance Department. Internal Audit evaluates the adequacy of the county's internal control environment, the operating environment, related accounting, financial, and operational policies, and reports the results accordingly.

Treasury (1205010000)

Treasury is responsible for collection of county taxes in the City of Rochester and town and county taxes in the county's twenty towns. Specific activities are designed for the efficient collection of delinquent taxes, interest and in lieu of tax payments. Tax foreclosure proceedings and a public auction of foreclosed property occur annually.

All county revenues are received, posted and deposited on a daily basis. Treasury administers county trust funds as well as more than 240 court trust funds. Additionally, tax information is provided on a daily basis to the general public at the information counter, Internet and by phone.

Treasury also has agreements with all suburban school districts for the preparation of school tax bills and collection of school taxes from September through November.

Real Property Tax Service (1206010000-1206030000)

Real Property Tax Service (RPTS) maintains assessment rolls, apportions the county levy among the 21 assessing jurisdictions in the county, advises local assessors on procedural and legal changes, updates tax maps, processes title change data and reviews both new subdivision and re-subdivision maps for filing. RPTS also investigates applications for correction of assessment errors as well as refunds, calculates tax rates on behalf of the towns, special benefit districts, Pure Waters Districts and various special or delinquent charges. RPTS calculates the apportionment of the semi-annual mortgage tax distribution, prepares tax warrants, state mandated reports, and participates in the training of local assessors. RPTS supports an on-line assessment processing system for the local assessors. RPTS processes Certificates of Residency for annual community college chargebacks to towns.

Real Estate activities, formerly within Environmental Services, are administered by the Director of Real Property Tax Service. Functions include: space allocation and utilization, leasing of space and facilities, lease management, and acquisition and disposition of real estate.

DIVISION DESCRIPTIONS

Purchasing (1207010000,1285010000,1290010000)

Purchasing is responsible for buying supplies, materials, equipment and services for all county departments in accordance with the requirements of competitive bidding and advertising as contained in the county's Administrative Code and New York State Law. Through the Monroe County Web Site, Purchasing provides information regarding upcoming and current bids, how to do business with the county and contract information for local municipalities and political subdivisions participating in the county's cooperative purchasing program. Purchasing establishes specifications and standards and identifies appropriate suppliers for the goods and services. It ensures that receiving departments have sufficient appropriations available to pay for their purchases.

Central Services, also budgeted within Purchasing, is administered by the Purchasing Manager. It provides funding and management for the County Office Building and CityPlace mailrooms. Expenses for these services are entirely charged back to user departments.

Purchasing also includes the Contracts Office, which coordinates the execution of over 600 contracts for the Department of Public Health and Department of Human Services.

FINANCE UNALLOCATED DEPARTMENT
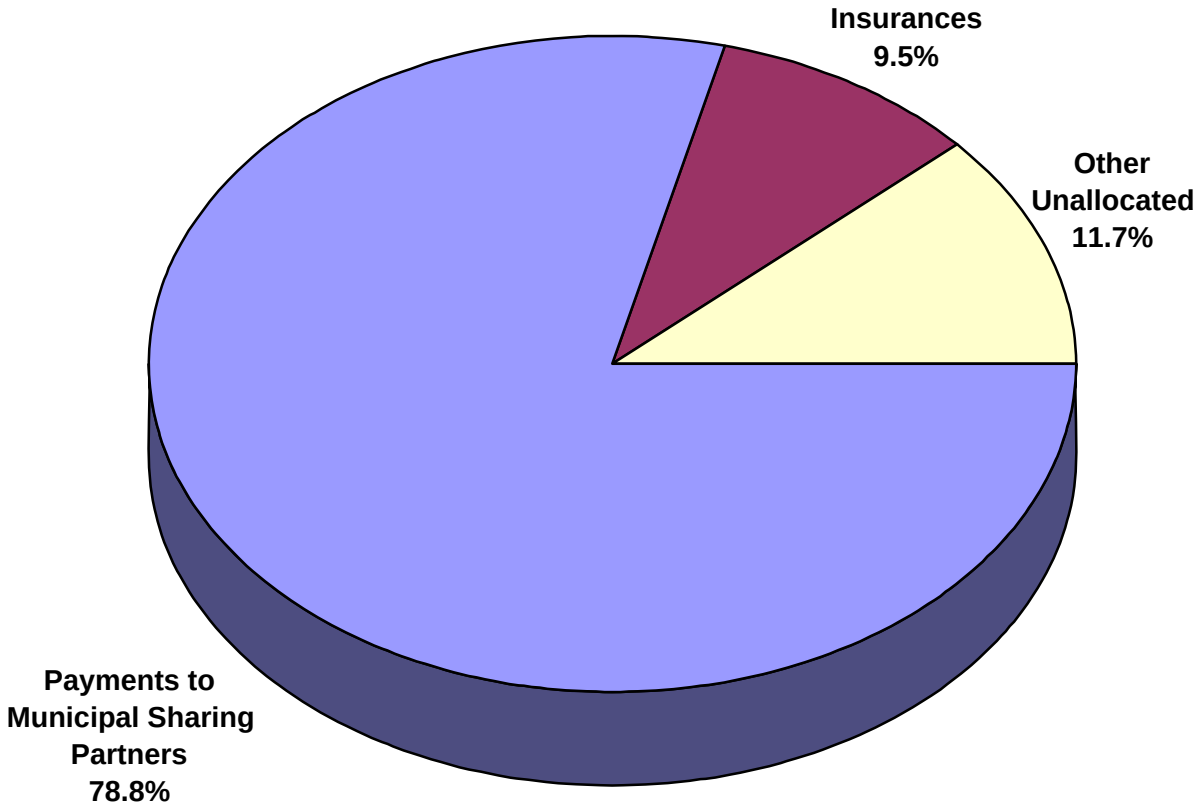
2008 Budget - $104,075,859



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Finance – Unallocated Expense & Revenue (12)

DEPARTMENT DESCRIPTION

The Unallocated budget records expenses and revenues that are not attributable to specific operating departments.

Items are segregated into two divisional areas:

- Unallocated - County General
- Unallocated - Insurances

In total, the "Net County Support" and the Real Property Tax Levy presented here equals the “Net County Support” total which appears in the Budget Summary of each department.

SECTION DESCRIPTIONS - APPROPRIATIONS

County General (1209020000)

These appropriations include the Contingency Account, erroneous assessments and other miscellaneous expenses. The Contingency Account provides for unexpected expenses which may arise during the year. The account is established and administered in accordance with Article IV of the County Administrative Code. Expenditures against this account require approval by the County Legislature. Funding will remain the same in 2008 ($100,000). Erroneous Assessments are repayments of property tax that result from factual or recording errors or failures to comply with certain legal requirements and are budgeted in this expense object along with successful challenges to assessments.

For 2008, expenses include payments to towns, villages and the City of Rochester as part of an intermunicipal agreement whereby the county will distribute the same dollar amount of funding these municipalities would have received had New York State distributed the entire revenue from the 4% Sales Tax Levy to the County.

Other miscellaneous expenses include costs for memberships by the county in organizations, the costs associated with the issuance of bonds and notes, taxes and assessments paid on county-owned properties acquired after the taxable status date and costs to administer the employee benefit parking program, flexible spending program and the prescription drug program.

Contribution to Other Funds (1209030000)

The Facilities Management Division provides office space, building maintenance, and utilities to operating departments. Each building charges user departments for the above services based upon a percentage of space occupied by the users. Generally, revenues to the buildings from user departments do not support the entire cost of operating every building. Therefore, a contribution from the general fund is required to balance these Internal Service funds.

Contribution to the Rochester-Genesee Regional Transportation Authority (1209050000)

The county provides assistance to support the operating costs of the Authority's subsidiary, the Regional Transit Service. The level of county assistance is mandated under Article 2, Section 18-b of the New York State Transportation Law as the local match to operating assistance provided by the State of New York.

Debt Service - Water Authority (1209060100)

In 1969, the County Legislature agreed to issue $27 million in bonds on behalf of the Monroe County Water Authority to finance construction projects. Since that time, the Water Authority annually submits project proposals to the county for inclusion in the Capital Improvement Program. The county has been able to borrow at interest rates lower than the Water Authority would have been able to obtain. The Water Authority repays the county the amount of debt principal and interest costs paid each year by the county on the Authority's behalf, this reimbursement is budgeted as revenue in this division. This agreement helps reduce the cost of providing water treatment and distribution facilities in the county.

Debt Service - Medical Examiner/Lab Building (1209060300)

The Medical Examiner facility was completed in the fall of 1993. The Medical Examiner's Office is the focal point for the investigation, collection, analysis and dissemination of "medicolegal" information for Monroe County and several surrounding counties. The facility provides an improved level of support to meet the needs of physicians, other health care professionals, law enforcement officials, and family members of decedents.

Note: Revenues associated with the use of the facility by the Medical Examiner are budgeted as miscellaneous revenue in this division.

Debt Service - Resource Recovery Facility (1209060400)

The Resource Recovery Facility has ceased operation and is no longer an active part of the county's solid waste management program. Debt service on the construction fund is included in a separate account as an unallocated expense rather than as a solid waste program expense because the facility is inactive. The county's auditor recommended this change in the audit of the 1992 financial statements. Appropriated fund balance from the debt service reserve is budgeted to offset the expense.

Debt Service - Greater Rochester Outdoor Sports Facility (1209060600)

The county has incurred debt service expenses for a share of the total cost of construction of the Frontier Field outdoor stadium used primarily by the Rochester Red Wings baseball team. The agreement with the non-profit organization, Rochester Community Baseball, Inc., provides for repayment of this cost from revenues generated by events at the facility. This debt service expense also includes the cost of the purchase of the former outdoor sports facility, Silver Stadium.

Debt Service – Other (1209060200, 1209060500, 1209060700)

Other debt service funding is provided for the Civic Center garage relating to the construction and repair of the garage, Geographical Information System projects and County General account borrowings.

SECTION DESCRIPTIONS - REVENUE

Real Property Tax

This is the tax levied on real estate owners for county purposes. See the Tax Analyses part of the budget for more information on the real property tax.

Property Tax Penalties

This represents the interest charges collected on overdue taxes as well as the interest, penalties and other charges attached to the original tax amount at the tax sale date (precedent to tax foreclosure action). As a result of the anticipated sale of tax liens, no revenue is budgeted for 2008.

Payments in Lieu of Tax

The county receives designated payments, instead of taxes, from two major sources; Urban Development Corporation (UDC) subsidized housing projects and County of Monroe Industrial Development Agency (COMIDA) contract agreements. Payments in lieu of taxes serve as an incentive for industrial development and special types of residential construction. The payments change from year to year with the number of COMIDA contracts and the aging of existing contracts for which higher payments are required.

Sales Tax

The current county sales tax levy is 4%. The first 3% is allocated through a complex formula (Morin/Ryan Sales Tax Adjustment Act of 1985) to the county, the City of Rochester, towns, villages and suburban school districts. Effective September 1, 1992 the county, as authorized by state law, increased the sales tax rate in Monroe County by 0.5%. An additional 0.5% was authorized effective March 1, 1993, bringing the rate of increase to a full 1%. Under the current law, authorization for this 1% increase needs to be renewed every two years by the state. The additional 1% is also distributed to all sharing partners, based on prescribed formulas.

Total sales tax receipts are estimated to increase approximately 2.0% above the estimated receipts for 2007, net of prior period adjustments. Beginning in 2008, sales tax revenue remitted to the county, by the state, is impacted by the implementation of the Medicaid Sales Tax Swap. The estimated county revenue for 2008 (prior to distribution to sharing partners) is $82.9 million.

See the Tax Analyses portion of the budget for more information on the sales tax.

OTB Distributed Earnings

The Western Regional Off-Track Betting Corporation distributes 50% of its net revenues among participating counties on the basis of wagering originating in the respective counties. The remaining 50% is distributed based on population.

Refund Prior Year Expense

This generally results from the cancellation of expense liabilities from prior years. Examples include balances which become available when a prior year purchase order is canceled or when a reserve of prior year funds is liquidated. Actual receipts from this revenue source can vary considerably from year to year. Refunds from New York State for prior year's claims for Social Services are recorded in the Department of Human Services.

Interest and Earnings - General Fund

This is interest earned on the investment of funds received prior to the time they are needed to meet current operating expenses. Funds available for investment are provided by revenues such as the property tax and sales tax. The income from the temporary investment of funds is a function of both prevailing interest rates and the amount of cash available for investment.

Earnings on Capital Funds

This represents interest earned on the investment of funds borrowed for capital projects. Borrowed funds are invested until they are needed to pay project costs. The income from the temporary investment of funds is a function of both prevailing interest rates and the amount of cash available for investment.

Interest & Earnings on Reserve for Bonded Debt

This represents interest earned on investment of Reserve for Bonded Debt balances.

Medicare Part D Reimbursement

Reimbursements from the Federal Government relating to Medicare Part D.

Other Revenue

This category includes revenue from rental of county property, commissions from minor sales not applicable to any specific department and revenue associated with the recovery of municipal tax refunds for erroneously assessed property.

DEPARTMENT: Finance - Unallocated Expense & Revenue (12)
DIVISION: Unallocated – Insurances (1265-1280)

DIVISION DESCRIPTION

The Insurances division serves as a cost center for the financial management of the county's four self-insurance programs: Workers' Compensation, Unemployment, Liability and Dental. These programs are part of a modified self-insured approach used by the county which combines direct payment of judgments and claims with the purchase of certain policies that afford coverage against extraordinarily high claims. The insurance budgets are composed of estimates for direct payments of claims, premiums for policies against "excess claims" and other specific types of liability coverage such as property damage, and administrative costs including professional service contracts. While there are no personnel directly assigned to this division, there is a charge from the Law Department for staff time required for the administration of insurance policies and the litigation of cases. The cost of maintaining the county's insurance programs is distributed to departments through interdepartmental charges.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations			
Workers' Compensation		4,220,000	4,600,000
Unemployment Insurance		500,000	500,000
Liability Insurance		2,147,725	1,865,000
Dental Insurance		3,423,241	3,902,269
Risk Management Fund		65,000	65,000
Service Chargebacks		(10,278,966)	(10,855,269)
	Total	**77,000**	**77,000**
Revenue			
Participant Contribution to Dental Plan		77,000	77,000
	Total	**77,000**	**77,000**
Net County Support		**0**	**0**

SECTION DESCRIPTIONS

Dental Insurance (1260010000)

Since January 1980, all county employees are able to receive dental insurance coverage as a fringe benefit. In 1996, the maximum annual benefit was increased to $1,000 per employee and each employee's dependents. This program is self-insured and the cost is charged to each county department as a cost per employee.

Unemployment Insurance (1265010000)

In 1976, amendments to the Federal Unemployment Tax Act extended eligibility for unemployment compensation to government employees. The county has chosen to meet these costs by reimbursing the state for the actual costs for benefits paid to former employees rather than paying the state system a 4.4% premium on the first $7,000 earned by each county employee. The costs of the unemployment benefit self-insurance program are charged back to each county activity based on its share of the total county payroll.

Workers' Compensation (1270010000)

Monroe County is self-insured for routine compensation claims from county employees who have been injured on the job. In addition to the annual appropriation to cover the estimated expense for these claims, the county maintains an insurance policy to meet the expenses of extraordinary claims. The cost of the Workers' Compensation self-insurance program is charged to each department on the basis of the relative cost of claims which each department has experienced in the recent past.

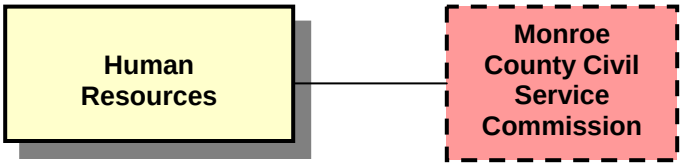
Liability Insurance (1275010000)

Monroe County is self-insured against routine general and vehicle liability claims, and it maintains an insurance policy which covers only extraordinary claims. This program is administered by the Law Department with the administrative costs charged back to the program. County departments are charged their share of the cost of the total liability program in proportion to their share of the total county payroll.

Risk Management Fund (1280010000)

The county maintains a risk management fund for payment of tort claims and judgments for which it is self insured. The budget reflects the estimated insurance premium expense.

HUMAN RESOURCES (17)



HUMAN RESOURCES

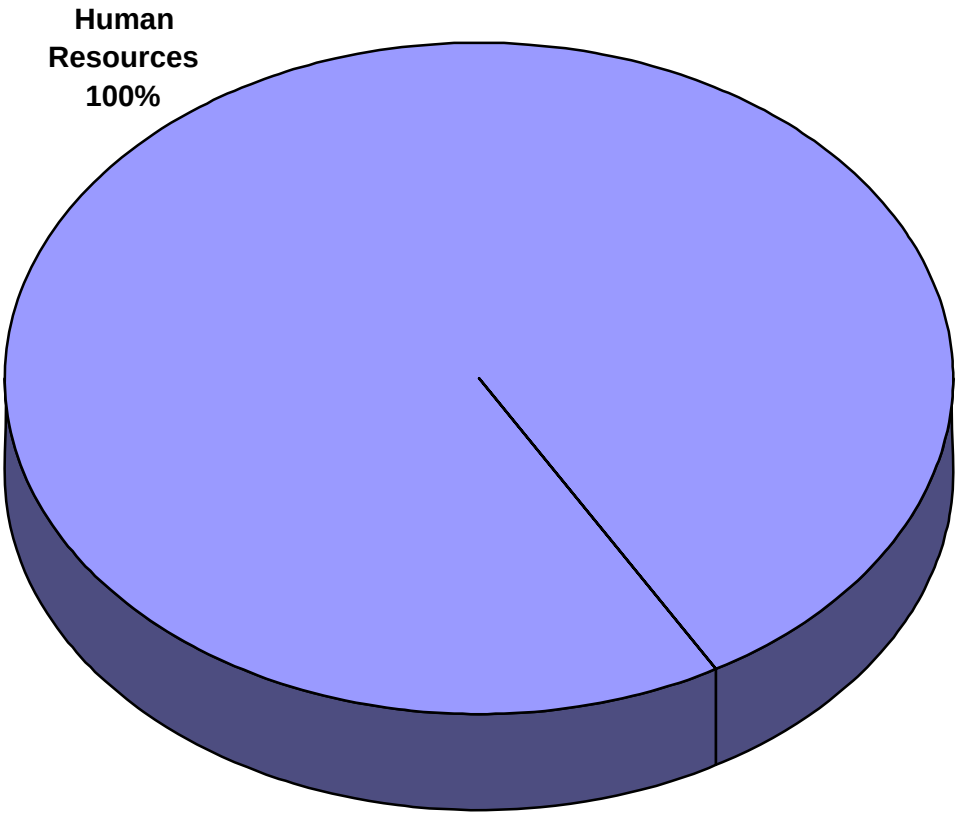
DEBT SERVICE		**0**
SERVICE CHARGEBACKS		**(745,112)**
	TOTAL BUDGET	**2,167,725**

The Human Resources department manages the State Civil Service process for the county and most local municipalities. It coordinates hiring, training, payroll, labor relations and Federal Equal Opportunity requirements.

HUMAN RESOURCES
2008 Budget - $2,167,725



DEPARTMENT: Human Resources (17)

DEPARTMENT DESCRIPTION

The Department of Human Resources is responsible for the personnel function for Monroe County government as well as the civil service function for all local governmental units within the county, except for the City of Rochester. Additionally, the department administers county labor relations, employee safety, benefits, affirmative action and employee training and staff development.

Mission

Human Resources is a department of county government that provides services including employee and retiree benefits, labor relations, payroll, employee relations, training, employee safety, recruitment, affirmative action and civil service administration for all county departments to assist in the recruitment and retention of a productive work force. In addition, we provide civil service administration to other county jurisdictions and the public.

2007 Major Accomplishments

- Successfully negotiated collective bargaining agreements with remaining employee labor unions which helped control medical and salary expenses
- Initiated a comprehensive wellness program to improve the health of Monroe County employees and ultimately control health insurance costs
- Successfully transitioned to a new 457 deferred compensation administrator, providing an enhanced product for employees at no additional cost to the county
- Launched the County Leadership Academy, a comprehensive supervisory skills training program designed to meet the needs of supervisors and departments
- Expanded a successful flexible compensation program at Monroe Community Hospital to enhance recruitment and retention of qualified nursing staff
- Administered Civil Service and Personnel training seminars to all 66 appointing authorities
- Maintained SAP, an Enterprise Response Planning (ERP) payroll and personnel administration system that is fully integrated with county financial systems and successfully completed first year tax reporting process
- Met required goals and objectives for Project Civil Access agreement with the Department of Justice

2008 Major Objectives

- Develop and implement an on-line Civil Service examination application and fee payment system
- Develop and implement an electronic fingerprint background check protocol for new hires
- Initiate a retiree health insurance buy down/out plan to reduce county expense
- Obtain grant funding for health care initiatives that reduce overall cost of employee/retiree healthcare without compromising quality of care
- Begin collective bargaining process prior to expiration of collective bargaining agreements
- Work with departments to assess impact of Baby Boomer accelerated retirement, and develop a strategy for knowledge transfer and systems redesign
- Conduct comprehensive internal review of benefits package for savings, efficiency and recruitment and retention of high performing employees

- Execute a benefits education plan to increase employee comprehension of existing benefit plans and the ways in which they can save money for both themselves and the county
- Administer Civil Service and Personnel training seminars to county departments
- Analyze clerical hierarchy for database testing

FEES AND CHARGES

Applicants for Civil Service examinations incur a $25 per application charge for uniformed services and a $15 per application charge for all other positions to cover mandated costs for the preparation and scoring of such examinations.

An exception to the processing fee will be made for persons receiving Supplemental Social Security payments or public assistance (Family or Safety Net Assistance), certified as Workforce Investment Act (WIA) eligible or for those who are unemployed and primarily responsible for the support of a household. Employees covered by certain union contracts may also be eligible for a different processing fee as outlined in the agreements between the county and the respective unions. For example, employees eligible for county promotional examinations have a fee schedule of $0.

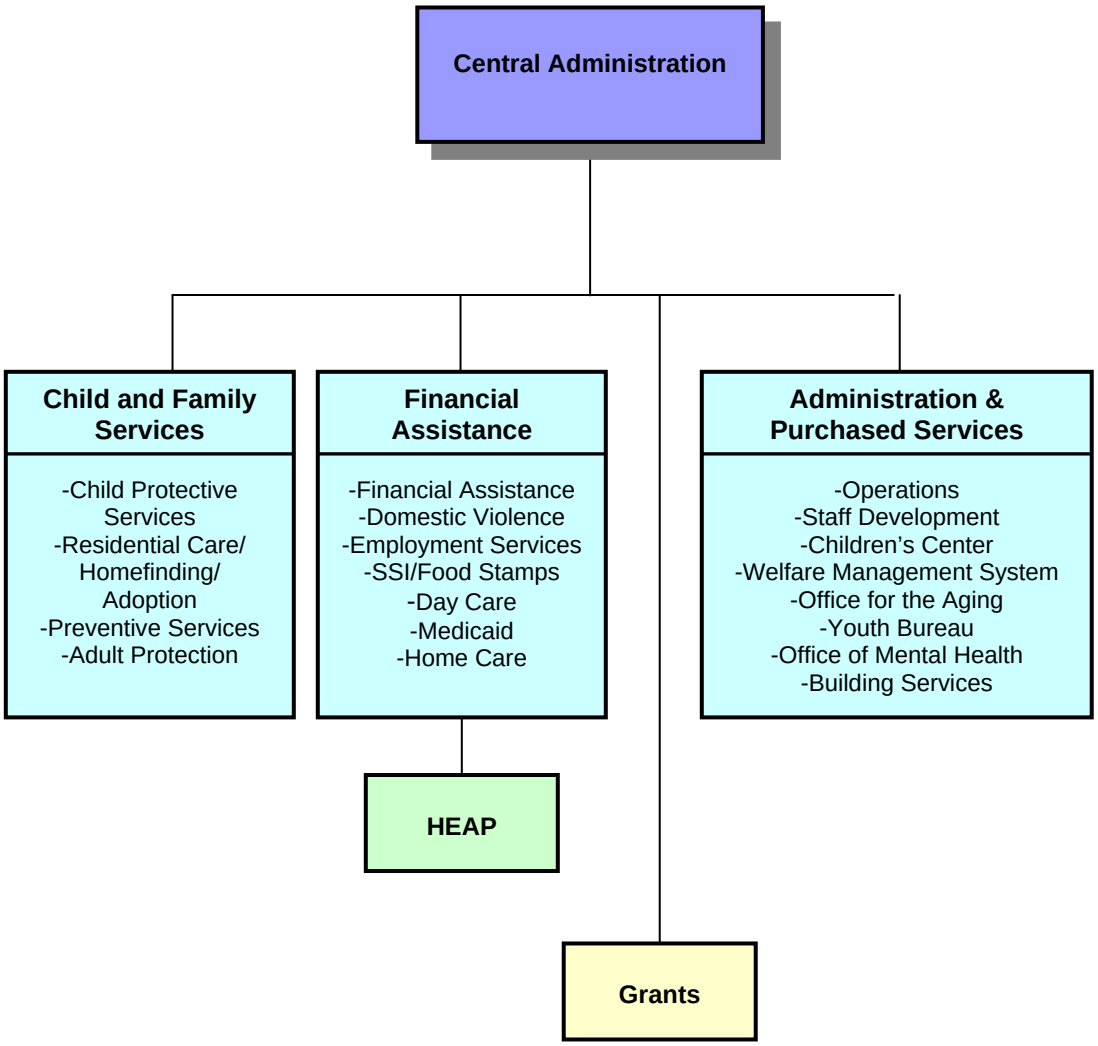
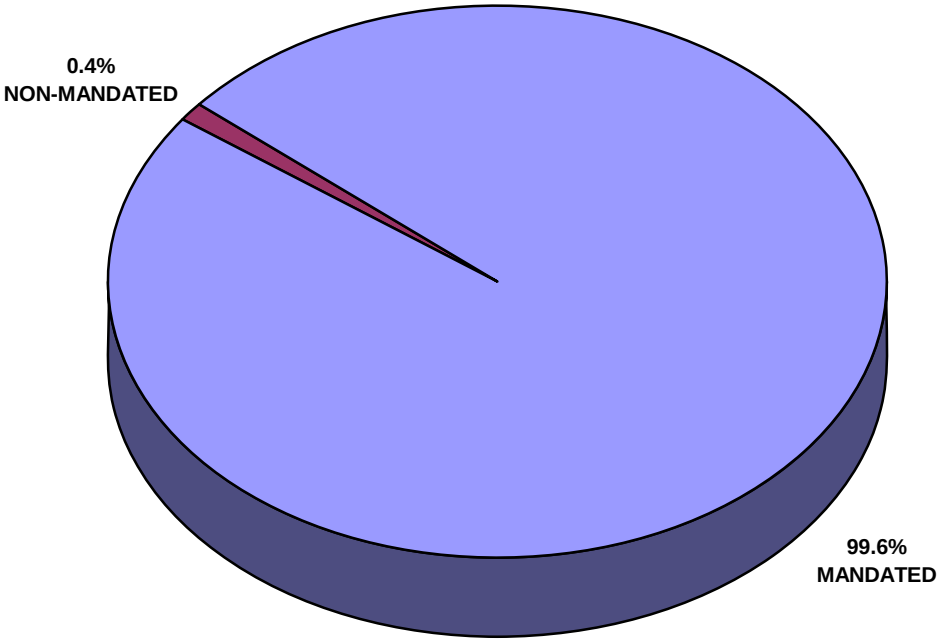
DEPARTMENT OF HUMAN SERVICES (51)



DEPARTMENT OF HUMAN SERVICES
2008 MANDATED/NON-MANDATED



The percentages above do not reflect the deduction of Service Chargebacks.

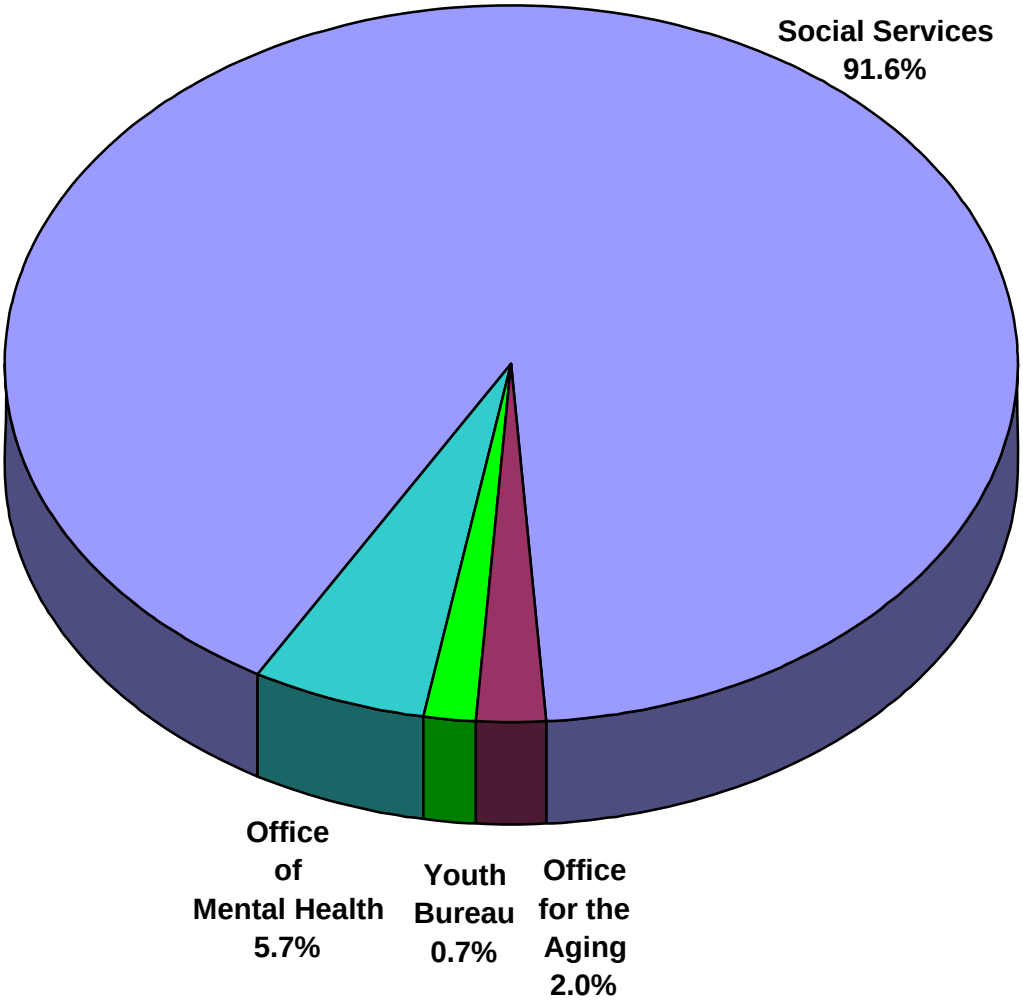
NON-MANDATED		**1,514,541**
MANDATED		**367,229,631**
	SUBTOTAL	**368,744,172**
DEBT SERVICE		**11,159**
SERVICE CHARGEBACKS		**(1,497,041)**
	TOTAL BUDGET	**367,258,290**

The Department of Human Services is almost entirely classified as mandated services through state and federal regulation. Although the services themselves are mandated, some programs have flexibility in the amount of service given.

The main service classified as non-mandated is the Building Services Division which is charged back to all users of the building.

HUMAN SERVICES

2008 Operating Budget - $236,723,128
2008 Grant Budget - $130,535,162



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Human Services (51)

DEPARTMENT DESCRIPTION

The Department of Human Services (DHS) has as its goal a common sense human service delivery system that is comprehensive, responsive, coordinated and based on measurable results. DHS provides various forms of assistance and intervention to citizens of Monroe County to assist them in maximizing independence, safety and physical and emotional well-being.

The Department is comprised of child, youth and adult development, welfare and mental health services. Mandated and non-mandated offices, services and programs are organized under one leadership and organizational structure to optimize Monroe County's ability to meet and exceed required outcomes and our core priorities: Safety, Self-Sufficiency and Healthy Development, and Effective and Efficient Utilization of Limited Resources. DHS is organized into three supervisory divisions: Child and Family Services; Financial Assistance; Administration & Purchased Services.

Mission

The Monroe County Department of Human Services develops, provides and coordinates services for eligible Monroe County residents to assist them in maximizing independence, safety and physical and emotional well-being.

2007 Major Accomplishments

Child and Family Services

- An updated practice manual was completed for Child Protective Services along with a major training initiative
- The Family Access and Connections Team, a component of the Persons In Need of Supervision (PINS) Redesign, began operation and was successful in substantially reducing the numbers of PINS petitions filed
- Building Healthy Children, a new primary/secondary prevention program was implemented in July through the use of donated funds

Financial Assistance

- Designed and implemented a pilot for Fair Hearings. The pilot involved co-locating Fair Hearing representatives with Intake teams. This led to improved communications, which resulted in better eligibility determination decisions, better case record documentation, and improved Fair Hearing outcomes
- Redistributed the disabled caseload to aggregate them all on one team. By aggregating the disabled caseload, we reduced the number of case transfers between teams, reduced the length of time cases remained work-exempt, and improved our referrals to Supplemental Security Income (SSI)
- Redesigned our approach to managing alcohol and substance abuse case assessments. Our new approach included taking on direct management of the contract for Certified Alcohol and Substance Abuse Counselor (CASAC) services, adopting a new assessment tool to evaluate employability, and establishing follow-up protocols for reviewing treatment plans. The result was an increase in employability determinations and an increase in successful treatment completions

Administration & Purchased Services

- Enacted the Disqualification Agreement Program to combat Public Assistance Fraud and streamline administrative penalties
- Reorganized and enhanced our education program with the addition of a Rochester City School District (RCSD) Special Education Teacher and one other additional RCSD teacher. Immediate outcomes included improved attendance and increased participation, along with fewer classroom incidents
- Collaborated with community providers to develop Monroe County NYConnects, a comprehensive long term care service provider database for use by consumers and service professionals; linked to monroecounty.gov

- Collaborated with Finger Lakes Health Systems Agency to complete a service gaps/needs analysis for long term health care

- Aided the County Executive in hosting the 2007 SEARCH Institute International Conference "Transforming Relationships: For the Common Good" in Rochester, November 8-10, 2007

- Researched, developed and launched a "Linking Research to Practice" information guide on the Monroe County Youth Bureau website that provides information and links to evidence-based, research-based programs and practices

- Implemented Monroe County ACCESS (Achieving Culturally Competent Effective Services and Supports), a system of care for children with serious emotional disturbances and their families, including conversion of case management to care coordination and the expansion of care coordination capacity

- Implementation of a Physical Health / Mental Health integration pilot project with The Monroe Plan to provide medical care for individuals with a serious mental illness

2008 Major Objectives

Child and Family Services

- Further reduce the number of PINS placements and use of non-secure detention

- Shorten the length of stay in foster care, particularly residential care

- Evaluate program-specific outcomes and performance measures for all preventive contracts

Financial Assistance

- Establish a collaborative with the Child & Family Services division to improve communication and cooperation with respect to child-only Temporary Assistance Cases

- Implement new initiatives currently under design in our Employment Unit to achieve a Temporary Assistance for Needy Families (TANF) work participation rate of at least 40%

- Evaluate opportunities to expand the Fair Hearing pilot to the Employment Unit and the Rehabilitation teams as a means to improve Fair Hearing outcomes in those areas

Administration & Purchased Services

- Continue with aggressive anti-fraud measures and increase number of criminal prosecutions

- Implement strategies identified through the technical assistance offered by the Vera Institute to reduce use of detention

- Plan and execute a media campaign to inform individuals about NYConnects

- Support and develop the partnership with Nazareth College in its launch of a Youth Development minor program through the College of Arts and Sciences in 2008, as well as their research and development of a Certificate in Youth Development

- Continue working with the Monroe Community Asset Partner Network on sustainability plans within each municipality and development of asset building through positive youth development in multiple sectors

- Development of more flexible, individualized services for children and adults that are peer/family/youth driven

- Development of sustainability strategy for continuation of efforts to transform to a system of care for children with serious emotional disturbances and their families

DEPARTMENT: Human Services (51)
Social Services (5100)

DESCRIPTION

This reflects accounting at the department level and consolidates revenues received from the state and federal government in the form of block grants or capped allocations designated to fund various children and family services. These funds support both administrative and programmatic activities, and as a result, most of the allocations are distributed as revenue to multiple budget accounts. Budget accounts receiving revenue from one or more of these sources include: Central Administration (5101), Child and Family Services (5102), Financial Assistance (5103), Operations (5105), Staff Development (5107), Welfare Management System Support (5109), Day Care (5113), Adolescent Care (5114), Child Welfare (5115) and Purchase of Services (5116). The distributed revenue is identified in the Budget Summary of each account in italics as revenue shifted to Division (5100). This represents the sum of all the Federal and State Allocation amounts. The Protective/Preventive 65% funding is included. Although it is not a fixed allocation amount, it is received in one payment rather than specified to each reimbursed account. The Local Administrative Fund has similar state treatment.

BUDGET SUMMARY

	Amended Budget 2007	Budget 2008
Federal Allocations		
TANF Fund for Family Services	17,011,381	22,902,351
Title XX	2,624,686	2,087,170
Title IV-B Preventive Services	1,350,000	1,350,000
Preventive Services	100,000	100,000
Total	**21,086,067**	**26,439,521**
State Allocations		
Foster Care Block Grant	13,200,327	16,367,662
Child Care Block Grant	37,116,065	38,028,809
Protective/Preventive 65% Funding	21,459,201	26,740,503
Local Administrative Fund	6,441,133	6,666,024
Total	**78,216,726**	**87,802,998**
Grand Total	**99,302,793**	**114,242,519**

DEPARTMENT: Human Services (51)
DIVISION: Central Administration (5101)

DIVISION DESCRIPTION

Staff in this division provide upper management and administrative support services to the Department of Human Services. The Commissioner of Human Services supervises the planning and delivery of all department programs, provides central policy direction, and manages department personnel. Staff in this division also perform financial analysis and develop the department's annual budget request. Charges to DHS for staff located in the Finance Department (12) are located in this division.

Administrative revenues which are received in one payment have been budgeted as one amount. For accounting purposes they are located in Division 5102, Child and Family Services and Division 5103, Financial Assistance. For the Budget presentation they are distributed to the divisions they support and displayed as revenue shifted with the appropriate divisions noted. This is similar to the ongoing treatment of allocations at the department level 5100.

DEPARTMENT: Human Services (51)
DIVISION: Child and Family Services (5102)

DIVISION DESCRIPTION

The Child and Family Services division provides direct and purchased services to increase safety and well-being, ensure permanency, and enhance development for vulnerable children and families. The federal Adoption and Safe Families Act (ASFA) was the most comprehensive child welfare legislation in two decades and is having profound impacts on Child Protective Services, Foster Care, and Adoption. Three themes are central to ASFA. The first is that every decision about whether to keep a child at home, place him in foster care, or return him home from foster care must be based on careful review and documentation of safety. The second theme is that every child has the right to a permanent, loving home whether with biological parents, other relatives, or in an adoptive home. Child and Family Services is obligated to work toward this goal for all children. The third theme is timeliness. By creating tight timelines, ASFA requires that efforts to achieve safety and permanency be infused with a sense of urgency. As a result of both ASFA and major new permanency legislation that took effect in late 2005, services to children are now subject to more frequent administrative and legal reviews.

For 2008, Adult Protective Services has been moved back to this division.

BUDGET SUMMARY

SECTION DESCRIPTION

Administration (5102010000)

This section is responsible for directing programs and personnel dedicated to the delivery of social services to eligible families, children, and individuals. The Director of Child and Family Services has responsibility for coordinating with other community public and private agencies to ensure that human service needs are being met efficiently, to reduce service gaps, and to minimize duplication of efforts.

Program Support (5102020000)

This section monitors relevant input into three distinct state data bases, interprets and distributes reports from the state, provides staff training, and functions as a liaison between the county and state including management of federal, state and local program audits. It ensures accuracy of all foster care payment authorizations. It also maintains adoption subsidy cases and makes determinations of eligibility for federal reimbursement for foster care expenses, and monitors internal claiming to maximize federal funding.

Residential Care/Homefinding/Adoption (5102040000)

Staff working in this section provide a variety of specialized foster care services. They are responsible for recruiting, training, certifying and monitoring foster homes. They are also responsible for arranging and monitoring placements in residential care facilities for Persons in Need of Supervision (PINS) and Juvenile Delinquents who are placed in voluntary child care agencies. Finally, they are responsible for locating adoptive homes, monitoring pre-adoptive placements and completing the adoption process for children who have been freed for adoption.

Preventive Services (5102050000)

Preventive services are provided to children identified as being at risk of foster care placement, to children whose length of time in foster care can be shortened with this assistance, and to children recently returned home from foster care to prevent their replacement into care. The staff in this section screen all preventive services cases, track the progress of children being served and monitor program effectiveness. Services to the families may be either purchased or provided directly by DHS staff. Day care can also be provided as an additional supportive service as part of the case plan.

Child Protective Intake and After-Hours (5102060000)

Child Protective Services maintains a local hotline, and is also responsible for taking child abuse calls reported to New York State twenty-four hours per day, seven days a week. Staff in this unit screen calls to see if they meet the standards for a CPS report, assign them to the appropriate investigative unit, and initiate immediate investigations when necessary on weekends and late at night.

Child Protective Investigation (5102070000)

Staff in this section investigate reports of child abuse and neglect. These investigations must be initiated within 24 hours of receipt. Investigations include contacts with parents, children and collateral sources (e.g. doctors, schools), as well as with the source of the report. Families are referred to preventive services or community based service organizations, where appropriate. Children at imminent risk may be placed in foster care or with fit and willing relatives. CPS cases where there are serious concerns about the ability of the family to provide safe, appropriate care for the children are “indicated” cases. If a report is indicated a decision is made whether or not there needs to be family court involvement; if the court is petitioned, the case is then transferred to Child Protective Management.

Child Protective Management (5102080000)

Once cases are indicated and a court petition filed, they are the responsibility of the Child Protective Management teams. Families, most of whom DHS is ordered by family court to supervise, are provided with supportive and rehabilitative services. Children may be placed in foster care, with relatives, or remain at home depending on the severity of the parents’ needs and the availability of other family members to care for them. The goal of these teams is to provide safe, permanent homes for children either with their own parents, with relatives, or by freeing them for adoption, if necessary.

Adult Protective (5102090000)

Adult Protective Services are provided to individuals 18 years of age or older who have physical or mental impairments and are unable to manage their own resources, carry out the activities of daily living or protect themselves from neglect or abusive situations. Staff provide counseling as needed, help obtain appropriate legal and medical care and arrange for financial help and alternate living arrangements as necessary. This area was moved from Adult Older-Adult Services (5106).

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Planning

DEPARTMENT: Human Services (51)
DIVISION: Financial Assistance (5103)

DIVISION DESCRIPTION

The Financial Assistance Division is responsible for the delivery of Temporary Assistance, Medicaid, Food Stamps and day care and for ensuring that only persons eligible for public assistance services are provided such aid. This division also includes employment, domestic violence and managed health care services.

For 2008, Chronic Care and Home Care have been moved back to this division.

The decrease in Net County Support results from an increase in state and federal support for both department staff and contracted employment services. Expenses for the administration of Medicaid located in this division are reimbursed at 100%.

BUDGET SUMMARY

SECTION DESCRIPTIONS

Financial Assistance Administration (5103010000)

This section plans and directs the programs which provide Temporary Assistance, Medicaid, Food Stamps, day care and other assistance to individuals and families eligible for public assistance.

Financial Assistance Operations (5103020000)

This section is responsible for processing applications for Temporary Assistance, Medicaid, Food Stamps, income eligible child care, providing case management to certify continued client eligibility, and for executing grant changes in response to changing circumstances. Determining eligibility for emergency services including the payment of fuel and utility bills, temporary housing, household furnishings, clothing and food are other major responsibilities carried out by this section. Also included are alcohol and substance abuse assessments. Eligibility assistance is provided to community Medicaid applicants 65+ and Chronic Care Medicaid applicants utilizing Alternate Level of Care (ALC) beds or in a nursing home. Chronic Care activities were moved from Adult Older-Adult Services (5106).

Emergency Shelter Program (5103040000)

This program provides a single point of entry for the homeless seeking shelter placements. Staff liaisons work with provider agencies to maximize the use of available beds, assist residents in securing financial assistance, and locate safe housing and/or relocation services. Staff periodically inspect emergency housing providers to ensure that safe and sanitary housing is being provided.

Homeless/MICA Program (5103050000)

Staff in this program work with homeless individuals who have a mental illness and/or chemical addiction, and also manage the county's portion of four HUD Shelter Plus Care grants.

Employment Services (5103060000)

The Employment Services Unit administers the state work rules for public assistance clients who require appropriate applicants/recipients to seek work and/or participate in employability development programs. The work performed by this unit directly affects the public assistance caseloads. Employment services are also provided for Food Stamp applicants and recipients.

Food Stamp Employment and Training (5103070000)

Staff in this section provide mandatory job readiness training, job placement and job retention services for Food Stamp recipients.

Supplemental Security Income (SSI) Food Stamps (5103080000)

This group authorizes food stamp benefits for SSI beneficiaries and handles any incidental Medicaid issues for SSI recipients.

Fair Hearing (5103100000)

New York State Social Services regulations mandate that an applicant or recipient of any Social Services program may appeal an unacceptable decision or action and be provided an opportunity to have a hearing concerning the appeal.

The applicant or recipient may make the request for a Fair Hearing directly to New York State officials who in turn refer the applicant or recipient to the local Social Services district. Every applicant or recipient of Social Services programs must be informed in writing at the time of application or at the time of any departmental action affecting his or her receipt of assistance or services of the right to Fair Hearing.

Child Care Block Grant (5103110000)

Day care is provided to enable low-income parents to maintain employment. The staff in this section provide day care placement services to children beginning at six weeks of age and continuing through age 12. Staff for the Child Care Facilitated Enrollment Project (Child Care $$) are also located here. This project expands access to child care subsidies for working families with income up to 275% of state income standards.

Family Violence Option Program (5103150000)

The New York State Welfare Reform Act of 1997 included this program in its legislation to address the safety needs of victims of domestic violence and their children. This program funds a Domestic Violence Program Coordinator to coordinate existing domestic violence services provided by other county departments. This liaison function has the responsibility to ensure that all Family Assistance applicants have access to domestic violence support services.

MA Managed Care (5103520000)

Medicaid Managed Care is a mandatory program to enroll Medicaid recipients in pre-paid, cost saving Health Maintenance Organizations (HMO) as an alternative to fee-for-service Medicaid. Services are also provided to assist in locating medical providers for pregnant women through the Prenatal Care Assistance Program (PCAP) and for Medicaid recipients under age 21 through the Child/Teen Health Plan (C/THP). The Disability Review Program gathers medical information and makes determinations of disability based on Social Security definitions in order to secure retroactive federal Medicaid reimbursement. It also assists Safety Net recipients with the Supplemental Security Income (SSI) application process. The Third Party function monitors Medicare and private health insurance policies as a means of reducing Medicaid payments. A Medicaid recovery process is also conducted to collect improperly paid claims.

Home Care Unit (5103530000)

The Home Care Unit authorizes the home care services funded through a variety of program sources. The programs include the Long Term Home Health Care Program, the Personal Care Aide Program, Meals on Wheels, Independent Living for Seniors, Continuing Care Networks and the Homemaker/Housekeeper Program. Service authorizations include aid services, cleaning services, meals and long term care benefits to individuals and families at risk of more costly placement. Home Care also manages the Medicaid Restricted Recipient Program, which monitors recipients with unreasonable utilization of Medicaid services. This area was moved from Adult Older-Adult Services (5106).

Performance Measures

DEPARTMENT: Human Services (51)
DIVISION: Child and Family Services
Special Children's Services (5104)

DIVISION DESCRIPTION

Special Children's Services are state-mandated preschool programs for children who are diagnosed with or at risk of developmental delays. Through early intervention the functional abilities of the children are maximized, and the need for costly services later in childhood is reduced.

The two programs in this division were the Early Intervention (EI) Program, for children ages birth up to three years of age, and the Education for Children with Disabilities (ECD) Program, for children three to five years of age.

This division has been transferred to the Department of Public Health (5807).

DEPARTMENT: Human Services (51)
DIVISION: Administration and Purchased Services Operations (5105)

DIVISION DESCRIPTION

The Division of Administration and Purchased Services is comprised of the Office for the Aging, Office of Mental Health, Youth Bureau, Children's Center, Operations including Welfare Fraud Special Investigations Unit, Welfare Management System Support, Staff Development and Building Services. This division is designed to ensure coordination and maximization of limited resources throughout the entire department through improved business process, utilization of technology and management of key cross-systems initiatives.

SECTION DESCRIPTIONS

Special Programs Administration (5105010000)

The Special Programs area coordinates with the Family Assistance Services Division and the Child and Family Services Division. This section houses costs shared by fraud investigations, special client services, publication services, records management, customer service, internal security and the overall operations area of the department.

Special Investigations Unit (5105020000)

The Special Investigations Unit performs services relating to client use of public assistance. The unit conducts validation checks of active cases and new applications to verify eligibility (close or open case decisions), investigates charges of fraud or misuse of public funds, and claims of lost or stolen checks. The unit operates the Automated Finger Imaging System utilized by New York State to prevent individuals from receiving duplicate assistance. The unit also works with the Law Department and the District Attorney in all legal issues resulting from fraud investigation.

Records Management (5105030000)

This section is responsible for coordinating and storing case files and retrieving required files for use by all divisions, primarily Child and Family Services and Financial Assistance. Additionally, this section manages the elimination of files the department is no longer required to keep.

DEPARTMENT: Human Services (51)
DIVISION: Adult Older-Adult Services (5106)

DIVISION DESCRIPTION

The Adult Older-Adult Services Division assists those individuals at risk by providing protective and preventive services as well as financial services. Chronic Care Medicaid processes applications for those individuals who are aging (65+) and/or in a nursing home. Adult Protective serves adults (18+) who are at risk of neglect or abuse, while the Home Care Unit implements the waivered service programs, which include long term home health care programs, consumer directed care, care at home and other programs that allow individuals who would typically require residential care to remain in their homes.

The funds centers in this division have been moved to areas with similar services and where their supervision is located. Home Care and Chronic Care Medicaid are now in the Financial Assistance Division (5103) and Adult Protective is in the Child and Family Services Division (5102).

SECTION DESCRIPTIONS

Home Care Unit (5106020000)

The Home Care Unit authorizes the home care services funded through a variety of program sources. The programs include the Long Term Home Health Care Program, the Personal Care Aide Program, Meals on Wheels, Independent Living for Seniors, Continuing Care Networks and the Homemaker/Housekeeper Program. Service authorizations include aid services, cleaning services, meals and long term care benefits to individuals and families at risk of more costly placement. Home Care also manages the Medicaid Restricted Recipient Program, which monitors recipients with unreasonable utilization of Medicaid services. This area is supervised by Financial Assistance and has been moved to (5103530000).

Chronic Care Medicaid (5106030000)

Chronic Care Medicaid is responsible for processing applications for medical and food stamp assistance for Community Medicaid applicants 65+ and Chronic Care Medicaid applicants utilizing Alternate Level of Care (ALC) beds or in a nursing home; cases are certified to determine continued eligibility and for executing grant changes in response to changing circumstances. This area is supervised by Financial Assistance and has been moved to (5103020000).

Adult Protective (5106040000)

Adult Protective Services are provided to individuals 18 years of age or older who have physical or mental impairments and are unable to manage their own resources, carry out the activities of daily living or protect themselves from neglect or abusive situations. Staff provide counseling as needed, help obtain appropriate legal and medical care and arrange for financial help and alternate living arrangements as necessary. This area is supervised by Child and Family Services and has been moved to (5102090000).

DEPARTMENT: Human Services (51)
DIVISION: Administration and Purchased Services
Staff Development (5107)

DIVISION DESCRIPTION

Orientation and training of Human Services staff is required under New York State law Part 386. Staff Development plans, develops, coordinates, and delivers program specific in-service training programs for employees. Staff Development provides an agency orientation for all new Financial Assistance and Child and Family Services staff. Trainers from this division interview and recommend for hire caseworker and examiner staff and assist with coordination and monitoring of all related Civil Service and personnel activities. The unit assists the administration with organizational development and staffing and performance management projects.

This unit also coordinates and monitors continuing education and degree-oriented programs for staff to enhance their professional and managerial skill development.

DEPARTMENT: Human Services (51)
DIVISION: Administration and Purchased Services
Children's Center (5108)

DIVISION DESCRIPTION

The Monroe County Children's Center is a secure regional detention facility that provides housing and care for Juvenile Delinquent and/or Juvenile Offender children who are awaiting Family Court action or transfer to other institutions. New York State reimburses the county 50% for Monroe County children and 100% for any out-of-county children.

The Children's Center also administers a contract to provide group home, non-secure foster homes and in-home detention for PINS and JD children who are awaiting Family Court action. The contract is budgeted in Adolescent Care (5114030000).

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations

SECTION DESCRIPTIONS

Administration and Overhead (5108010000)

The administrative staff manage the Children's Center (secure detention) and administer the contract for the operation of non-secure detention (see section 5114030000).

Child Care (5108020000)

Child Care Workers provide 24-hour care and supervision to the children placed in the secure detention facility. A child's daily routine includes meals, school, sports, recreation, and household chores.

Supportive Services (5108030000)

The staff in this section provide or arrange for appropriate counseling, medical, psychiatric, educational, recreational and spiritual programs and activities for the children in secure detention. Case files are maintained, and medical coverage is established for children in secure and non-secure detention.

Performance Measures

DEPARTMENT: Human Services (51)
DIVISION: Administration and Purchased Services
Welfare Management System Support (5109)

DIVISION DESCRIPTION

The Welfare Management System (WMS) Support group maintains the four major state Social Service computer systems: 1) Office of Temporary and Disability Assistance Welfare Management System, 2) Department of Health WMS/Electronic Eligibility Determination Subsystem, 3) Office of Children and Family Services Child Welfare Connections System and 4) NYS Benefit Issuance and Control System (BICS). In addition, this group supports locally developed personal computer applications and the department's voice/data infrastructure.

The increase in Supplies and Materials is the purchase of state computers.

BUDGET SUMMARY

SECTION DESCRIPTION

Systems Support Group (5109010000)

The Systems Support Group is a team of analysts whose primary responsibility is to provide ongoing support for four major state computer applications. In addition, this staff works closely with various state entities to develop and implement enhancements to the existing systems and applications. The Systems Support Group provides management analysis functions for Human Services administrators and implements automated processes for on-line staff.

Benefit Issuance Control System (BICS) (5109020000)

The Benefit Issuance and Control System (BICS) is operated and maintained by a team of computer operators. The BICS staff receives files created by data fed into state applications from the Social Services program on a daily basis. From these files, BICS staff generates eligibility documents and accompanying reports for on-line staff each month. The BICS staff also produces vouchers and rosters each month for the Finance Department. The BICS staff produces monthly state reports in printed and electronic formats for staff at all Human Services sites.

Technical Support Group (5109030000)

The Technical Support Group is a team of technicians that is responsible for ensuring the daily availability of state and county networks and for the initial trouble shooting of personal computers, printers and servers at all Human Services sites. This staff is also responsible for the inventory, user and system security, installations, relocations and hardware and software upgrades for this equipment.

Completed Help Desk Requests	5,095	5,800	5,800

DEPARTMENT: Human Services (51)
DIVISION: Safety Net Assistance (5110)

DIVISION DESCRIPTION

Safety Net Assistance is a state program that provides assistance to individuals not eligible for federal assistance such as Family Assistance or Supplemental Security Income. Although primarily for childless adults, Family Assistance participants who exceed the five year limit can receive non-cash benefits under this program. Safety Net Assistance recipients are limited to two years for cash assistance. After two years, non-cash assistance can be provided. The state and the county share equally in the costs of this program.

As shown on the caseload bar graph that follows, the Safety Net caseload declined each year from 1997 to 2001. At the end of 2001, approximately 1,400 Family Assistance cases reached the 5-year limit and transitioned to Safety Net. Through further Family Assistance transition and growth of regular Safety Net, the caseload increased from 2002 to 2004. Efforts continue to complete appropriate medical assessments and assist clients in the application and hearing process for receipt of Supplemental Security Income (SSI). Efforts began in 2007 to increase the variety and volume of employment assistance programs. The Safety Net caseload is projected to decline.

The increase in funding is a result of the need to recalculate payments made on cases with a family member who receives SSI.

BUDGET SUMMARY

		Amended Budget 2007	*Grant Budget 2008*	*Operating Budget 2008*	Budget 2008

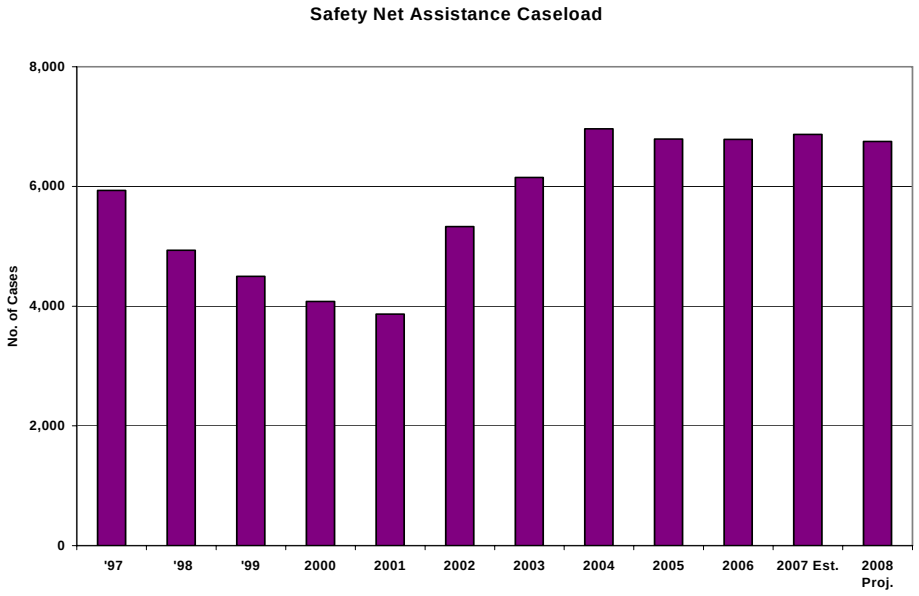
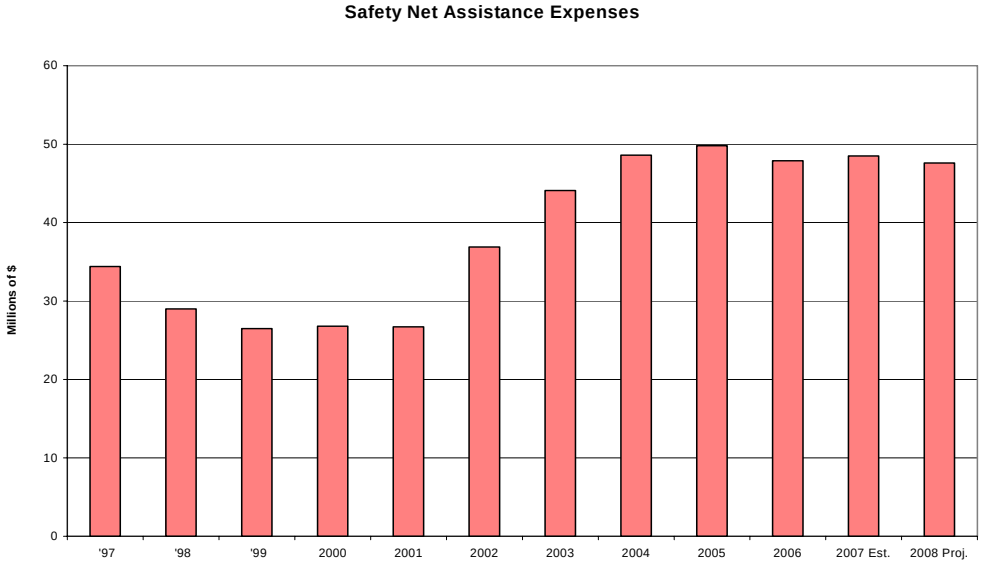
SAFETY NET ASSISTANCE CASELOAD TRENDS

The graph below shows the average monthly caseload for Safety Net Assistance over the past ten years and the projected caseload for 2007 and 2008. In the Safety Net public assistance category, the caseload is projected to reach an estimate of 6,869 in 2007. The average monthly caseload assumed in the 2008 budget is 6,750.



SAFETY NET ASSISTANCE EXPENSE TRENDS

The graph below shows the total annual expenses for Safety Net Assistance over the past ten years and projected expenses for 2007 and 2008. The years beginning 2000 include a blended rate for Burials. The shift of cases from Family Assistance to Safety Net took effect in 2002. Expenses depend on caseload levels and the cost per case. New York State did not change benefit levels in its 2007-2008 budget, however, the cases transferred from Family Assistance have a slightly higher cost per case.



DEPARTMENT: Human Services (51)
DIVISION: Family Assistance (5111)

DIVISION DESCRIPTION

Family Assistance is a state program for needy families funded through the Temporary Assistance to Needy Families (TANF) federal block grant. The major components of Family Assistance include: maximum five year lifetime participation, job assessments and mandatory work activities for recipients with children over three months of age, domestic violence screening, standardized drug screening, and the requirement for teen parents to live at home. In addition, employed Family Assistance recipients will be able to retain more of their earned income. Although federal TANF funding is distributed to the states as a block grant, it is anticipated that there are sufficient funds to fund Family Assistance at the historical rate. Therefore, revenue estimates are based on the traditional formula driven methodology: 50% federal, 25% state, 25% local.

As shown in the caseload bar graph that follows, the Family Assistance caseload declined each year from 1997 to 2002, including the beginning of the shift of cases to Safety Net in 2002. With slight caseload increases in 2003 and 2004, the caseload began to decline again in 2005. The caseload is projected to continue to decline for 2008, due to the shift of cases to Safety Net and the continued increase in the variety and volume of employment assistance programs. The increase in funding is a result of the need to recalculate payments made on cases with a family member who receives SSI.

BUDGET SUMMARY

		Amended Budget 2007	*Grant Budget 2008*	*Operating Budget 2008*	Budget 2008
Appropriations					
Family Assistance		50,700,600	*37,626,000*	*13,742,000*	51,368,000
Emergency Assistance to Families		1,000,000	*975,000*	*325,000*	1,300,000

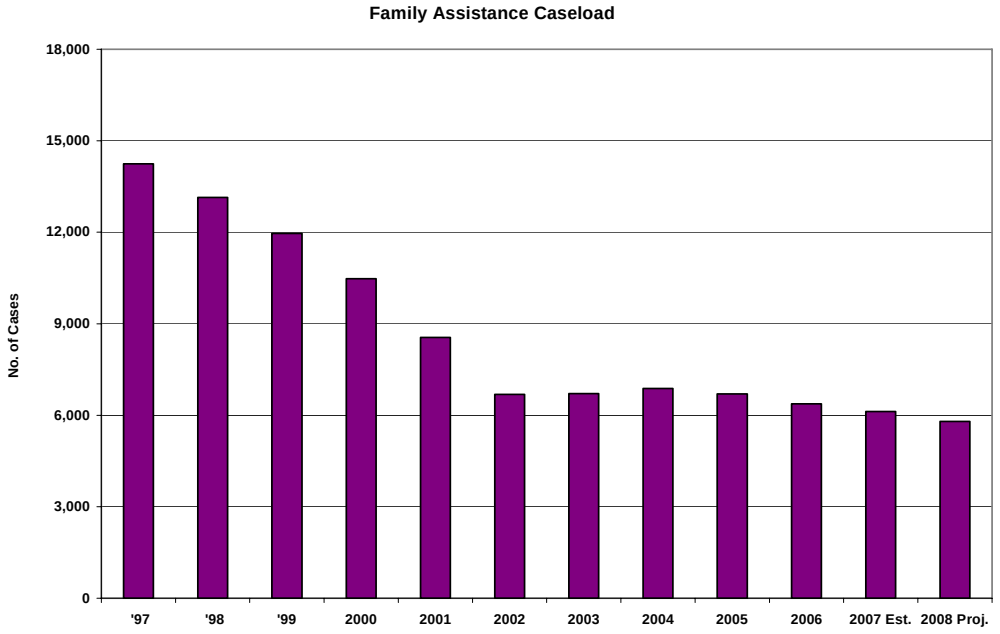
Net County Support		**11,475,150**	***0***	***11,867,000***	**11,867,000**

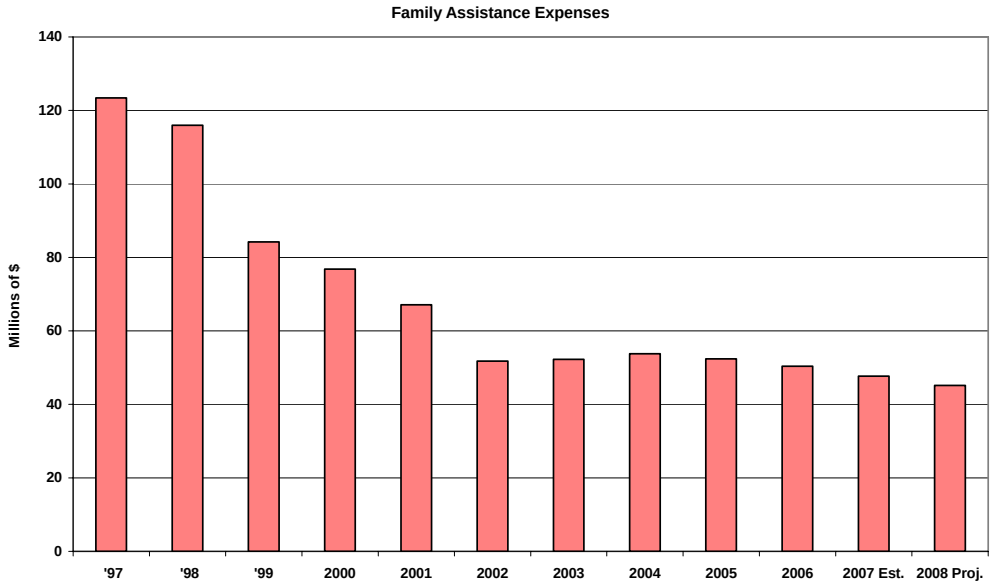
FAMILY ASSISTANCE CASELOAD TRENDS

The graph below shows the average monthly caseload for Family Assistance over the past ten years and the projected caseload for 2007 and 2008. The Family Assistance caseload is projected to reach an estimated 6,121 in 2007. The average Family Assistance monthly caseload assumed in the 2008 budget is 5,800.



FAMILY ASSISTANCE EXPENSE TRENDS

The graph below shows the total annual expenses for Family Assistance over the past ten years and the projected expenses for 2007 and 2008. Expenses depend to a large degree on caseload levels but changes in the cost per case also affect expenses. New York State did not change benefit levels in its 2007-2008 budget. The shift of cases from Family Assistance to Safety Net begins in 2002. In 1999, the graph shows day care expenses for Family Assistance recipients transferred to the Day Care division.



DEPARTMENT: Human Services (51)
DIVISION: Medicaid (5112)

DIVISION DESCRIPTION

The Medicaid program provides medical services for those elderly, physically and mentally disabled recipients, and for qualifying children and adults who cannot afford to purchase health care services for themselves.

In New York State, up until 2008, Medicaid costs were shared by the federal, state and county governments. Prior to 2006, the share paid by each level of government varied according to the type of service provided. Overall, the county's local share represented approximately 18% of total Medicaid costs, with local expenditures increasing proportionately as total expenditures rose. From 1999 through 2005 the local costs rose over 70%. Beginning in 2006, local Medicaid payments were no longer based on a percentage of expenditures. The controlled growth Medicaid "Cap" formula limited local Medicaid payments to the 2005 calendar year level of costs plus an annual increase of approximately 3% per year.

For the 2008 and future year costs, Monroe County has elected the Medicaid Sales Tax Swap Option to relieve local taxpayers of the Medicaid cost burden. The county's Medicaid obligation will be fulfilled by the Medicaid Sales Tax Swap which totals 1.61% of the 4% sales tax levy. This is described in the Tax Analyses section.

The county will continue to be responsible for the direct payment of certain services and for the administration of the Medicaid program. In addition, Monroe County participates in the New York State Demonstration Program that authorizes Monroe County to identify provider fraud, waste and abuse. All these costs are 100% reimbursed through New York State. The only county net cost is the local share of the Intergovernmental Transfer which benefits Monroe Community Hospital (MCH); this has been budgeted at $212,500.

DEPARTMENT: Human Services (51)
DIVISION: Day Care (5113)

DIVISION DESCRIPTION

Day care is purchased from all types of legal child care providers for children beginning at six (6) weeks of age and continuing through age 12. The funds in this division provide child care for Family Assistance recipients so they can work or participate in required employment activities, for families that are making the transition from public assistance to self-sufficiency and for low income working parents. Day care is also provided when it is needed as part of a child services plan for children who have been abused or maltreated or whose caretaker is seriously ill in order to allow a child to remain at home rather than entering foster care.

Day care is primarily funded through the New York State Child Care Block Grant (NYSCCBG). The NYSCCBG allocation reimburses 75% of the cost of Family Assistance day care and 100% of Transitional and Low Income day care up to the level of the block grant allocation amount. Protective/Preventive day care is not included in the NYSCCBG funding mechanism but continues to be funded through a combination of other federal and state revenue sources and local funding.

The 2007 Budget estimated the number of children to be served at 9,734. The current projection for 2007 is 8,523. The estimated need for 2008 is 8,550. During 2007, Monroe County increased the market rate paid to providers.

BUDGET SUMMARY

		Amended Budget 2007	*Grant Budget 2008*	*Operating Budget 2008*	Budget 2008

DEPARTMENT: Human Services (51)
DIVISION: Adolescent Care (5114)

DIVISION DESCRIPTION

This division includes the costs of the care, housing, and instruction/training of persons involved in the following programs: Persons in Need of Supervision (PINS) and Juvenile Delinquent (JD) Care, New York State Juvenile Justice Facilities, and Non-Secure Detention. See Child Welfare (5115) for additional program efforts.

The increase to the Juvenile Justice Facilities is a result of retroactive rate increases back to 2001. The state has structured a five year repayment plan for counties. Full implementation of the PINS Redesign initiative continues to reduce the number of children in residential care.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations			
JD/PINS Care		4,977,000	6,468,000
Juvenile Justice Facilities		7,900,000	8,501,265

	Total	**6,832,000**	**8,468,000**
Net County Support		**9,555,000**	**9,601,265**

SECTION DESCRIPTIONS

JD/ PINS Care (5114010000)

A **Person in Need of Supervision** (PINS) is a youth, up to age 18, whose behavior is incorrigible and who is beyond lawful parental control. A **Juvenile Delinquent** (JD) is a youth between the ages of 7 and 16 years who has committed an act, which if it had been committed by an adult, would be considered criminal. Children are placed at various levels of care depending on the severity of the crime and individual circumstances.

In general, Family Court, upon recommendation from the Office of Probation-Community Corrections, places PINS children into various levels of care including foster homes, group homes, and residential treatment centers/institutions. These youth and their families usually have been served by a diversion program prior to placement. Where the diversion has not been successful or when a judge believes the problem is too severe to attempt diversion, a placement is ordered.

JD youth are typically placed in a juvenile justice facility run by the NYS Office of Children and Family Services. However, they may be placed by Family Court in a lower level of care when an environment appears either too restrictive or the child's emotional needs would be better served through a child welfare residential institution.

Juvenile Justice Facilities (5114020000)

Children who have been adjudicated as juvenile delinquents or juvenile offenders by Family Court become the responsibility of the Office of Children and Family Services (OCFS) for placement. There are seven levels of care within the structure. Children with severe behavioral or management problems - generally visible through the crime they have committed - are placed in secure facilities. Those with less severe problems or those who have benefited from higher levels of care can be placed in the least restrictive option - family foster care.

Non-Secure Detention (5114030000)

This category includes the county's contract with Hillside Children's Center to provide group and family situations for children requiring temporary placement pending a Family Court appearance. Youth are placed in group situations at Hillside. This contract is administered by staff of the Children's Center which is also responsible for temporary placement of JDs.

DEPARTMENT: Human Services (51)
DIVISION: Child Welfare (5115)

DIVISION DESCRIPTION

This division includes the costs of services to children who need out of home assistance because of family problems, illness, neglect or abuse. Services include foster family care placements, adoption subsidies, and care in institutions such as St. Joseph's Villa and the Hillside Children's Center. Additional services to children and their families, to prevent residential foster care placement, are located in the Purchase of Service Division (5116). The Monroe County Youth and Family Partnership is a collaborative effort between Human Services, including Mental Health, and Probation to provide a system of intensive, in-home, community based services.

Full implementation of the PINS Redesign initiative continues to reduce the number of children in residential care. Foster Care appropriations include an increase in the average cost per child as a result of projected residential rate increases and a rise in the proportion of children requiring more specialized care. The reduction in Net County Support results from a combination of overall expense reductions and an increase in the Foster Care Block Grant.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008

Net County Support		**22,884,864**	**17,193,335**

SECTION DESCRIPTIONS

Adoption Subsidy (5115010000)

Human Services is the public agency responsible for placement of children in permanent, adoptive homes, once they are freed for adoption. Subsidies are available for families wishing to adopt special needs children and hard to place children. Medical subsidies are also available to help families adopt children with on-going medical or psychiatric needs.

Foster Care (5115020000/5115030000)

Temporary residential care for children is provided in foster family homes, group homes and residences, and in institutions. Over half of the placements are child abuse or neglect-related. Although family foster care is substantially less expensive than institutional care, for some children with multiple problems, family care is not appropriate.

Transitional and Residential Care (5115040000)

Transitional care is available to mentally or developmentally disabled persons in foster care who have reached the age of 21 and have no other appropriate placement alternative. Mentally ill youth between the ages of 5 and 21 requiring fully integrated longer-term mental health treatment services may be placed in a residential treatment facility.

Independent Living Program (5115050000)

Youth leaving foster care receive intensive preparation and follow-up services designed to prevent the need to return to foster care. An agency works with youth on independent living skills, and with the youth and his/her parents where necessary to help with preparation from care to independent living arrangements.

Special Children's Services - Maintenance (5115060000)

Payment of maintenance costs (room and board) for school-age children placed by school districts in residential facilities is the responsibility of counties. Rates are established by New York State. The county's role is restricted to payment and claims for reimbursement.

DEPARTMENT: Human Services (51)
DIVISION: Purchase of Services (5116)

DIVISION DESCRIPTION

Human Services enters into contracts for those services beyond its capacity or expertise to deliver. These services primarily involve preventive and protective services for both adults and children. There is ongoing expansion and diversification of programming to prevent foster care placement. The Monroe County Youth and Family Partnership and collaborations with Probation and Mental Health are cornerstones of the division. Donated funds are utilized to leverage state reimbursement and opportunities have been expanded for 2008. Programs with community donations are supported 35% by the donation, in miscellaneous revenue below, and 65% by the state.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008

SECTION DESCRIPTIONS

Homemaker/Housekeeper (5116010000)

Homemaker services and housekeeping services are purchased to help families and individuals remain in their own homes and avoid foster care placements or some level of out-of-home adult care, including hospitalization. Trained homemakers perform home and personal care tasks for clients.

Adoption (5116030000)

Human Services is the public agency responsible for placement of children in permanent, adoptive homes, once they are freed for adoption. Adoption programs promote permanency planning and prevention of long-term foster care placement. Adoptive services include: evaluation of placement needs, identifying and securing adoptive homes, training and counseling prospective parents and instituting necessary legal proceedings.

Information and Referral (5116040000)

Information and Referral Services are purchased to assist various community members in locating supports and services to meet their needs.

Preventive and Protective Services (5116020000/5116050000/5116060000)

Preventive services for children consist of supportive and rehabilitative services provided to children and their families to prevent foster care placement or to enable a child to return to the family from foster care. The assumption underlying these efforts is that a child's best interest is staying with the biological family rather than in foster care if the family can resolve their problems with community based services. A family may receive preventive services alone or as part of a child services plan accompanying other services, such as day care or foster care. **Protective** services are provided on behalf of a child who has been neglected, abused or maltreated and consist of counseling, therapy, emergency shelter, legal representation, etc. **Preventive and Protective** services for adults assist persons, often the elderly, who are unable to protect their own interests and/or have problems that prevent them from functioning effectively in the community.

Title XX - Other (5116080000)

This category provides interpreter services and transportation services to families in need, in order for them to attend preventive and/or day care services..

Domestic Violence (5116090000)

Funding for this program provides residential and non-residential services to victims of domestic violence. The program serves residents not eligible for public assistance.

DEPARTMENT: Human Services (51)
DIVISION: Home Energy Assistance Program (5117)

DIVISION DESCRIPTION

This division distributes funds available for relief from excessive energy costs to eligible low income households in Monroe County. Human Services works in conjunction with the Office for the Aging and other community agencies to certify applicants and to provide administrative services for allocation of funds. The program is 100% federally funded. Beginning with the federal grant year 2007-2008, the Public Assistance Benefits payments will be made by the state. Localities will continue to budget for the administration of the program. While it is not known at what level the program will be funded in 2008, staff continue to be authorized so that no delays in service will occur. Additional funding for this grant will be appropriated when received.

DEPARTMENT: Human Services (51)
DIVISION: Grants (5118)

DIVISION DESCRIPTION

The number of grants administered by the department varies annually depending on federal/state funding levels and initiatives. Monroe County has been fortunate to be the recipient of a number of grants designed to improve the quality of life for its residents.

In general, grants require no local revenues although occasionally some matching funds may be necessary. Most grants span specific time frames, generally one year. Grant funding for 2008 is partially appropriated and will be amended when fully received. All grants active in 2007 are listed below.

GRANT DESCRIPTIONS

Day Care Registration & Compliance Grant

This 100% state grant will be used to process applications for family day care registration and conduct home inspections as required by New York State. Funding also provides orientation and training of all family day care providers.

Child Welfare Caseworker Education Program

This state grant provides graduate social work education for child welfare staff working in New York State's inner cities. Monroe County's social services district is one of several districts in the state that met the criteria established by state legislation.

Food Stamp Nutrition Education Project

This grant enables Food Stamp recipients to manage their food resources more effectively, increase their consumption of plant food, adopt safe food handling techniques, and incorporate healthy eating practices into their lifestyle.

Families First / Project to Reunite Families

This federal program was developed in response to Welfare Reform legislation requiring homeless youth and teen parents, ages 16 to 21, to reside with a relative or responsible adult in order to receive Temporary Assistance benefits. The department will assist homeless youth in locating an adult willing to care for them or provide housing in a “Second Chance Home”.

Safety Net Assistance Project

SNAP funds are used to support the Paths to Recovery program, which is an intensive case management program for Safety Net individuals with dual diagnoses of chemical dependency and mental health or physical disabilities who have been active on public assistance for at least 12 months. The program combines small monthly facilitated group meetings with individual case management to assist clients in setting goals for themselves and providing a support system so they can achieve those goals. The group curriculum includes financial literacy, responsibility for child support, parenting, dealing with a criminal history, becoming employable and applying for SSI.

Juvenile Reporting and Tracking Program

The purpose of this grant is to support Monroe County’s efforts to create a framework of alternatives to detention services which will ensure that youth appear for all required court appearances and do not re-offend while pending case disposition, thereby reducing the likelihood of a court disposition for placement.

A Partnership for Youth Grant

The purpose of this grant is to help local programs better meet the workforce development needs of youth and improve youth program outcomes by aligning the workforce and youth development systems. Through a statewide partnership, the NYS Office of Children and Family Services and the NYS Department of Labor joined forces to ensure youth development principles were integrated into workforce development programs to better prepare young people to successfully transition from youthful dependency to economic self-sufficiency.

NY Connects Grant

This grant provides a single point of entry for clients to access long term care services.

Child Protective Services Staff to Client Ratio Improvement Program

This grant funded a temporary increase in per diem casework staff to support Child Protective Investigations.

Intensive Case Services

This program provides case management, assessments and home visits for Temporary Assistance Families to assist them in becoming compliant with state and federal welfare-to-work requirements. It also funds individualized job development, job coaching and support groups for Safety Net families with under-employed adults.

Enhanced Engagement Investment

This grant provides a Welfare to Work program through the Rochester City School District’s Careers Program to combine supervised work experience with education.

DEPARTMENT: Human Services (51)
DIVISION: Administration & Purchased Services
Office for the Aging (5500)

DIVISION DESCRIPTION

The Office for the Aging has the responsibility to plan, coordinate, fund and advocate for a comprehensive system of services that reflect the needs of older county residents. Each year a service plan is developed with services targeted to persons with the greatest economic and social need, and with emphasis placed on serving minority individuals. An 18-member Council for Elders, appointed by the County Executive, assists in determining funding and programmatic priorities.

PROGRAM DESCRIPTION

The Office for the Aging receives funding from a variety of sources including federal, state, local and participant contributions to provide services in various program areas. Local sources include county, corporate, United Way and foundation funds. The county's administrative expenses are included within program areas. A brief description of the programs sponsored through this office and their funding sources follows:

Administration & Program Management (5501010000)

This section is responsible for the fiscal and programmatic planning and administration of all operations included within the strategic framework of the Office for the Aging. The program management includes support in management and service monitoring, and providing information, assistance and technical support to subcontractors and constituents. In addition, this section provides health advocacy surrounding a variety of health care topics including Medicare, Medicaid, and private health insurance programs. The section also provides direct services in nutrition and counseling education, senior center sanitation training and weatherization assistance.

Aging Contract Services (5501020000)

Nutrition Services for the Elderly

This program is responsible for the Congregate and Home Delivered Meal Programs. The Congregate Meal Program provides hot, nutritious meals in a group setting to persons age 60 years and older and their spouses. The Home Delivered Meal Program funds the provision of at least one home delivered meal, seven days a week, to eligible homebound persons age 60 years and older.

Education and Training

This program is responsible for providing, through sub contractors, a variety of health, education and caregiver training, subsidized employment and job training, and health promotion and disease prevention programming.

Wellness and Assistance

These programs provide funding in order to assist seniors with numerous activities that facilitate and promote the overall wellness of our elderly population. Services include: legal and financial counseling, weatherization services, care management, personal care, respite, escorted transportation services and information and assistance.

DEPARTMENT: Human Services (51)
DIVISION: Administration & Purchased Services
Youth Bureau (5600)

DIVISION DESCRIPTION

The Rochester-Monroe County Youth Bureau plans for and administers comprehensive youth services dedicated to improving the lives of children and youth. Among the services funded are youth development programs, risk prevention programs, juvenile justice diversion programs, homeless youth services, recreational services and an annual Youth Conference. A three year Child and Family Services Plan recommending funding level priorities is developed and submitted to the State. It's also used by the Youth Board and staff to evaluate programs. The board is appointed by the Monroe County Executive and the Mayor of the City of Rochester.

SECTION DESCRIPTIONS

Administration (5601010000)

The Administration section provides contract management, monitoring and assessment, capacity building and technical assistance, and supports the citizen member Youth Board. It networks and partners with other funding agencies and planning groups and oversees the development of the every-three-year Child and Family Services Plan for youth services. Additionally, this organization seeks out external funding sources, coordinates program development, and performs financial and clerical functions for the Bureau.

Youth Contracts (5603010000)

Appropriations fund city and county contracts for recreational and youth services in accordance with New York State Office of Children and Family Services (NYS OCFS) regulations. These projects provide constructive use of leisure time activities, crisis counseling, case management, school and neighborhood based services, housing for runaways, shelters, youth advocacy, positive youth development and asset building, after school programs, cultural and educational programs and municipal employment services. Funding levels for Youth Contracts are consistent with the state's level of support. Funding for the Community Asset Partnership Network program supports asset-based initiatives and positive youth development within communities throughout the city and the county.

Runaway and Homeless Youth Services (5602010000)
HUD Supported Housing Services Program (5604010000)

Runaway/Homeless Youth (RHY) funds provide for the coordination, planning and monitoring of a continuum of community-based services targeted toward youth, in accordance with the RHY Act. The Youth Bureau oversees and monitors current program services, as well as plans for the development of enhanced/new services to address gaps/obstacles to service the target population. Through this funding, the county contracts with not-for-profit agencies to provide 24-hour crisis counseling, shelter, case management, transitional housing and support services.

The Youth Emergency Housing Project provides older homeless youth with needed services to encourage youth to access independent living sites and permanent housing.

Special Delinquency Prevention (5605010000)

Appropriations within this section fund contracts with non-profit agencies for projects meeting delinquency prevention and risk reduction criteria as defined by the NYS OCFS. Programs provided by these projects include housing for homeless youth, prevention/education programs, crisis intervention, violence prevention and positive youth development. Delinquency Prevention also allows the Youth Bureau to facilitate the development and implementation of youth/adult partnerships through the Youth As Resources Project, a youth-led approach to community solutions, and also provides implementation of asset based actions.

Positive Youth Development (5606010000/5606020000)

Appropriations within this section fund capacity building efforts within the city and county that support the creation of youth-adult partnerships; increased supports and opportunities provided by community members, organizations and institutions; and improved practices and approaches to working with youth to engage youth as active participants in creating community solutions and improvements. Project funds come through a state-federal partnership.

Included is the Assets Coming Together (ACT) for Youth Initiative to implement comprehensive and integrated systems of positive youth development and asset building which improve healthy outcomes for youth. This will strengthen both the Monroe County Asset Initiative and an asset building focus in the City. Funds are through the New York State Department of Health.

DEPARTMENT: Human Services (51)
DIVISION: Administration & Purchased Services
Office of Mental Health (5700)

DIVISION DESCRIPTION

The Office of Mental Health is responsible for the planning, oversight and administration of a comprehensive community mental hygiene system for all residents of Monroe County. Activities include: community-wide assessment of mental hygiene service needs, service development, coordination and integration of voluntary, county and state mental hygiene services, coordination and integration of the mental hygiene services system with other service delivery systems, allocation of state and local funds, system oversight and encouragement of programs aimed at the prevention and treatment of mental illness, mental retardation, developmental disabilities, and alcohol and other substance abuse.

Agency Contracts is primarily grant funded and the full amount will be appropriated into the 2008 budget when received.

SECTION DESCRIPTIONS

Administration (5701010000)

This section is responsible for the fiscal and programmatic planning of all operations included in the network of mental hygiene services. In an effort to develop services which address the priority needs of the community, on-going planning is conducted in collaboration with consumers, state representatives, families, providers, and other service delivery systems that evaluate the mental hygiene needs of the community. The Director of Mental Health makes funding level and service development recommendations based on this evaluation process.

The Office of Mental Health contracts with Coordinated Care Services, Inc. (CCSI) for the management and coordination of community mental health, alcoholism and substance abuse, and developmental disabilities services in accordance with the local mental hygiene services plans. CCSI maintains subcontracts with community agencies for a comprehensive range of services within each of the mental hygiene disability areas.

Coordinated Children's Services Initiative (5701020000)

The Coordinated Children's Services Initiative is an interagency initiative that supports localities in creating systems of care to ensure that children who are at risk of residential placement remain at home with their families and in their communities. This principle guides a process of cooperative interagency planning that develops and delivers individualized services to children and their families.

Socio-Legal Center (5701030000)

The Socio-Legal Center provides a variety of mental health related services and supports to both the criminal justice system and to individuals with mental illness involved in the criminal justice system and their families. Contracts are maintained with psychiatrists to provide competency to stand trial and court-ordered psychiatric evaluations and testimony to the courts as needed. The Center also offers consultation and training to the courts, other criminal justice agencies and support to the Mental Health Court. The Socio-Legal Center serves as a community collaborative, drawing upon partnerships with other agencies serving a forensic mental health population to better meet the needs of this population. The Center is also responsible for monitoring admissions to the forensic mental health unit, appropriateness of discharge plans and in setting quality indicators and standards across the forensic mental health system.

The Assisted Outpatient Treatment (AOT) program (also known as "Kendra's Law) is operated at the Center. The AOT program serves individuals with serious mental illness who, due to noncompliance with outpatient treatment, may require supervision in the community. The AOT program seeks to link individuals with mental health treatment in the community on a voluntary basis if possible. If voluntary linkage is not possible, the AOT program may seek court-ordered outpatient treatment for those who meet the criteria for an AOT order. Transition management is available to individuals with serious mental illness, to ensure that necessary services (e.g., mental health treatment, medications, basic needs) are available upon release from incarceration. A Medication Grant Program, administered by the Center, makes psychiatric medications available at no cost to individuals until public benefits are in place.

Mental Health Services (5702010000)

CCSI maintains subcontracts with numerous community agencies for the provision of a range of emergency, crisis, outpatient treatment, residential and community support programs for adults, children and youth. Community support programs include a wide range of service options such as vocational support, respite, family support, self-help, consumer initiatives, socialization and recreation opportunities. There are a number of specialized mental health programs, targeting specific populations such as children, older adults, multicultural populations, persons with co-occurring disorders (MICA), homeless and those involved in the criminal justice system. Community mental health services are aimed at offering individuals and families, treatment and support services that assist them in recovery and successful living in the community, avoiding unnecessary hospitalization or out-of-home placement. Mental Health services are funded through state aid, county support, United Way matching dollars, and agency voluntary contributions. Additional funding in this section will be appropriated when received.

Priorities for 2008 include enhancement of services for adults with serious mental illness and children with a serious emotional disturbance and their families.

SECTION DESCRIPTIONS

Mental Retardation/Developmental Disabilities Services (5702020000)

CCSI maintains subcontracts with several not-for-profit community agencies for the provision of Mental Retardation/Developmental Disabilities (MR/DD) services to residents of Monroe County. Local assistance funding, which consists of state aid, county support and voluntary match dollars, supports pre-vocational and vocational day services and a variety of family and community support programs.

Pre-vocational and vocational services include day training, sheltered workshop and supported employment programs. These programs provide a range of skills training, work opportunities and support services according to individual needs and preferences, aimed at assisting individuals in maximizing their individual vocational potential. Support services are provided for individuals with disabilities and their families, including information and referral, advocacy, public education and awareness, assistance in ensuring client rights, counseling and case management. Specialized clinical support services are also provided. A number of programs target specific population groups such as persons with epilepsy, older adults, children with severe handicaps and Hispanic individuals and families.

Alcohol and Other Drug Services (5702030000)

CCSI maintains subcontracts with numerous community agencies for the provision of alcoholism and substance abuse services. Programs offered by these subcontractor agencies include inpatient, outpatient and residential treatment, community residential living, prevention, intervention, education and information and referral services. Funding for these services includes state aid, county support and voluntary match contributions.

Residential and inpatient services include, detoxification, inpatient rehabilitation, residential treatment homes, halfway houses and supportive apartments. A number of these programs include specialized services which target females (pregnant and/or with children), individuals with co-occurring disorders (MICA), deaf/hard of hearing, HIV positive, criminal justice and monolingual Spanish-speaking populations. Outpatient treatment services target a number of these populations as well. Funded outpatient programs service a high percentage of Medicaid and uninsured clients.

Prevention, intervention, education, and information and referral programs are provided for both adults and youth. These services range from general community education and awareness activities to intervention programs designed to reach specific target populations such as youth, children of alcoholics, deaf/hard of hearing, and multicultural populations. Prevention/intervention services are offered at a variety of school and community sites.

Criminal Court Ordered Cases (5703010000)

The Criminal Court Ordered Cases division funds the county share of costs for criminal court or family court ordered inpatient hospitalization for mental health evaluation and treatment.

The New York State Office of Mental Health and Office of Mental Retardation and Developmental Disabilities bills counties for forensic incarceration of inmates. A psychiatric evaluation, rather than a court order, determines whether an inmate requires treatment and should be transferred to a psychiatric facility.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Number of individuals in need accessing services:			
Office of Mental Health	33,338	34,000	34,700
Alcohol & Substance Abuse	14,921	15,000	15,100
Mental Retardation, Developmental Disabilities	22,924	23,000	23,100

DEPARTMENT: Human Services (51)
DIVISION: Administration & Purchased Services
Building Services (5191)

DIVISION DESCRIPTION

Building Services functions as an inter-departmental cost area. This area is capable of serving the Departments of Human Services and Public Health due to the dual occupancy of buildings, but also reaching out to other county departments via the courier service, mailroom, stockroom and commercial services.

BUDGET SUMMARY

Total	**0**	**0**
Net County Support	**0**	**0**

SECTION DESCRIPTIONS

Administration (5191010000)

This section coordinates and manages Building Services activities. In addition to the supervision of division personnel, specific duties include the monitoring of changes in telephones and office space assignments. This section serves as a cost center for interdepartmental charges.

Switchboard (5191020000)

This section coordinates the central telephone system at 111 Westfall Road and 691 St. Paul Street.

Stockroom (5191030000)

Central stockroom activities include the ordering, receiving, storage, and distribution of supplies and equipment.

Mailroom (5191040000)

Mailroom operations staff receive and distribute all incoming and outgoing mail for pickup by the United States Postal Service. The staff also process interdepartmental mail for county-wide distribution.

Inter-Building Services (5191050000)

This section transports mail, supplies, and other materials to sites throughout Monroe County.

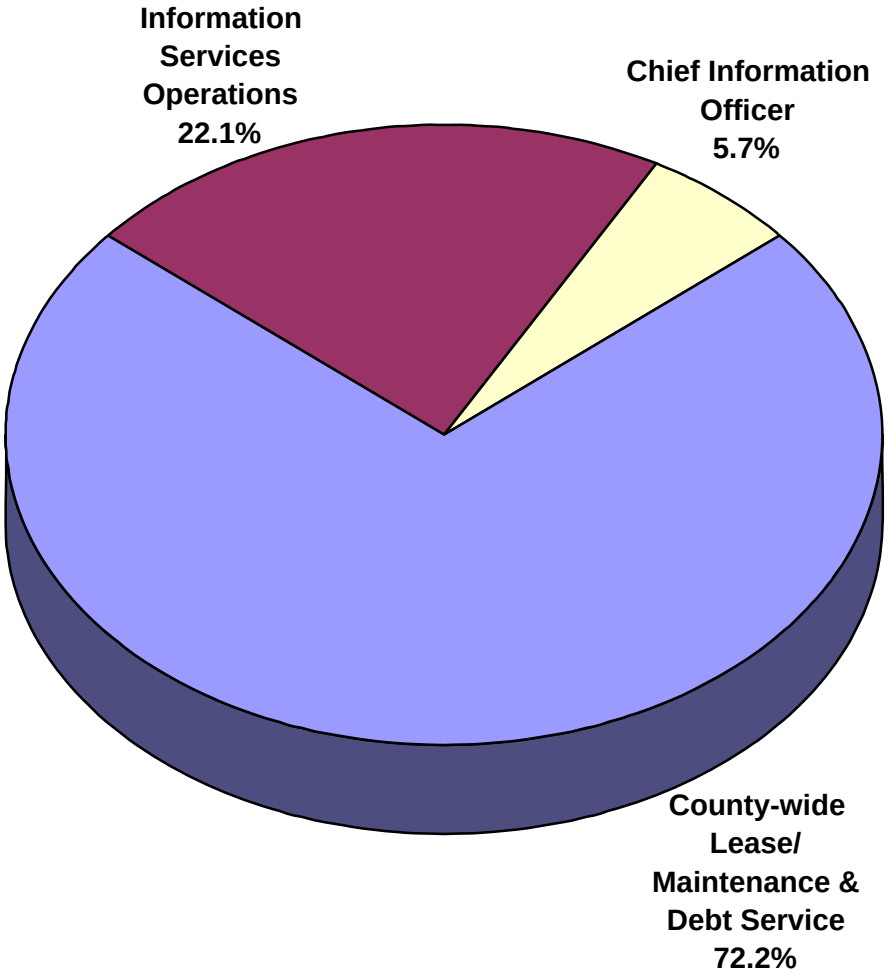
Information Services is a non-mandated service that supports all of the various county departments in technology areas, including computer systems and telephone operations.

INFORMATION SERVICES
2008 Budget - $0



The percentages above do not reflect the deduction of Service Chargebacks.

The department's gross appropriations are 100% offset by charges to user departments.

DEPARTMENT: Information Services (19)

DEPARTMENT DESCRIPTION

Information Services provides solutions to meet the county's requirements for information for both internal departments and external customers such as towns, villages, the city and citizens. The department performs business process re-engineering and user needs assessments, then matches information requirements with cost-effective information technology. Information Services coordinates the installation, operation and maintenance of county mainframe, mid-range, and micro-computers. It is also responsible for monitoring and evaluating technological developments and formulating standards and guidelines for computing within Monroe County government.

Departments are charged for their use of information services resources. The charges include telephone connections and use, information systems consulting services, network access and leases of computing equipment, such as personal computers, terminals, printers and multifunction devices. Costs for general-use applications, such as payroll, are also allocated to other departments via utilization-based charges.

Mission

Monroe County will use information technology to simplify and streamline government operations, enable county employees to provide quality services to our customers, and deliver information and services to citizens at home, at work and in the community.

2007 Major Accomplishments

- Increased Enterprise disc storage capacity
- Implemented county-wide end user visibility into help desk call system
- Upgraded the District Attorney's case tracking application to a web-based version
- Completed plan for county-wide migration of Novell network operating system from version 6 to version 6.5
- Began Multifunction Management Project
- Upgraded Lotus Domino Server from version 6.5 to version 7
- Completed County Executive's Technology Improvement Strategy (Enterprise Resource Planning System for HR-Finance-Procurement, Telecommunication, Network Systems, Desktop/Mobile/Server Systems Upgrades, Website Redesign)
- Completed back scanning of County Clerk records from 1940 and made them available to the public
- Software Upgrade to Office 2003
- Completed migration of Pure Waters application which tracks water consumption, water quality, etc. from the main frame
- Completed implementation of a new Tax Collection System for the Treasury Office
- Completed implementation of server consolidation methodology
- Investigated historical data repository for mainframe
- Assisted DES in moving Greece Department of Motor Vehicle office telephone system to new location
- Implemented Frontier contract for private switch automatic location identification (PSALI-e911 database management)
- Audited Frontier billing and reduced costs by eliminating unused lines/circuits found

- Continued the migration of our bulk accounts, Department of Environmental Services, Department of Transportation, Monroe County Sheriff's Office onto the new Frontier billing platform for remaining Frontier Services
- Provided accurate and up to date Phone Book listings for our new numbering scheme with a sole point of contact
- Revamped/updated telephone system and cellular support documentation on County Intranet
- Revamped/updated county cellular ordering and delivery process
- Implemented on-site notification of 911 calls
- Migrated Monroe Community Hospital onto county Nortel PBX system

2008 Major Objectives

- Begin planning for next technology refresh
- Complete implementation of Windows 2003 server
- Continue to investigate historical data repository for mainframe
- Begin the replacement of the 911/Public Safety applications, including CAD, RMS,JMS and field reporting
- Implement Landata's Record Management Software for County Clerk's Office
- Implement Lintech's ERP software for Monroe Community Hospital
- Implement a Environmental Health Management System for the Health Department
- Migrate IBM Enterprise Data Storage system to IBMDS4700 platform
- Investigate migration of network drives from Netware to Microsoft networking
- Investigate county needs for Disaster Recovery (DR) of Critical Computer systems
- Develop plans for becoming a DR site for all towns

DIVISION DESCRIPTIONS

Office of the Chief Information Officer (1901010000)

The Chief Information Officer oversees the strategic planning and implementation of departmental initiatives, provides central policy direction for county departments, and manages IS department personnel and budget. Staff members identify information requirements that span the boundaries of departmental jurisdictions and perform administrative functions such as equipment ordering, hardware and software inventory management, and equipment maintenance negotiations with service providers.

The Chief Information Officer plays a major leadership role in advising the County's Information Technology Steering Committee which oversees the implementation of the County Executive's Technology Improvement Strategy.

County-Wide Lease and Maintenance (1902010000)

This is a holding account for the costs of county-wide hardware leases, contracts for all hardware and county-wide software maintenance, telephone services and common computer supplies which are used by other county departments. It was established to separate the costs of support to other departments from the costs of operating the central Information Services department.

Computer leases for county-wide hardware, maintenance and data lines are centrally budgeted in this account and charged back to the respective departments receiving the services. This allows better control of expenditures and increased flexibility to meet the rapidly changing information technology environment.

The Department of Information Services initiated a multiyear County Government Communications Infrastructure Project. This project provides infrastructure for voice, data and video communications. It will encompass all Monroe County offices at all locations. Debt service associated with the capital cost of this project, in addition to Year 2000 (Y2K) compliance and Storage Area Network (SAN) is budgeted in this account.

Operations (1903010000)

The Operations division provides end user support services, information technology solutions, consulting services and project management for other departments. They also assist in locating solutions to satisfy business requirements and maintain the existing base of county-wide information systems used throughout the county.

Staff in this division investigates new technology and developments in existing technology in order to develop standards for county hardware, software and connectivity. They manage and operate the mainframe computer and smaller computers of various client locations throughout the county. They install new equipment, troubleshoot problems with existing equipment, provide Help Desk support for county computer users and provide management of telephone services.

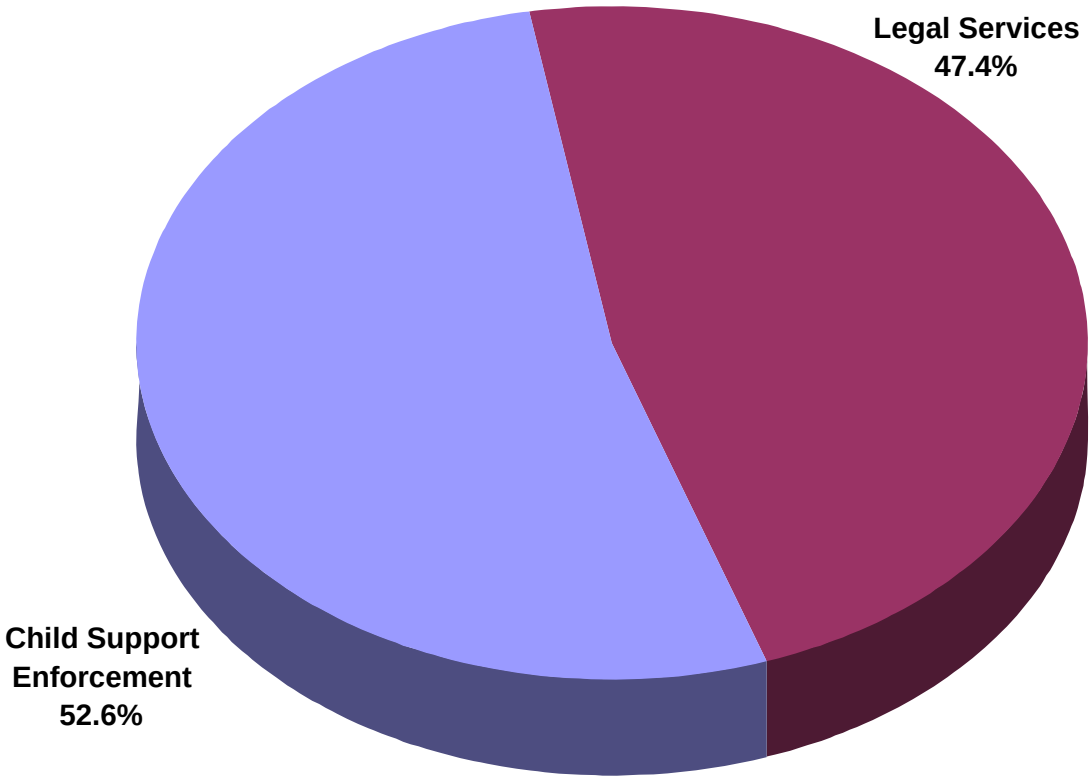
	TOTAL BUDGET	**7,971,022**

State law mandates that Monroe County provides legal services in all aspects of Social Services, ranging from Medicaid and Public Assistance to all child welfare matters including Family Court, Foster Care and the Child Support Enforcement Unit. Mandated services also include Litigation/Collections.

The non-mandated portion of the Law Department provides legal services in the areas of General Law, Real Property/Tax Foreclosure and the Juvenile Prosecutor's Office.

LAW
2008 Budget - $7,971,022



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Law (16)

DEPARTMENT DESCRIPTION

The Monroe County Law Department provides to county departments and residents high quality legal representation and counsel that are of value to the community at large. These services meet client and public needs, are delivered expeditiously and inspire client and public confidence.

Mission

The Law Department shall deliver responsive, efficient, effective legal representation and counsel to county departments and residents, in order to assist in providing the highest return to the community on their investment. The Law Department provides quality legal services to enable Monroe County government to assure a safe, healthy, prosperous and stimulating environment which results in a world class place to live, work and enjoy life.

2007 Major Accomplishments

- Juvenile Prosecution Office worked with the Vera Institute of Justice to implement recommendations aimed at improving the local Persons in Need of Supervision (PINS) system and drastically reducing the number of PINS filings in Family Court

- Child Support Enforcement Unit implemented an automated appointment scheduling system that reduced waiting times for appointments by 35%

- Children's Services Unit made significant progress in reducing the backlog in court order preparation for orders arising out of child abuse and neglect cases by (1) working with Family Court Clerk's Office staff on improved procedures and (2) reorganizing the office process for preparing "permanency hearing" orders, the volume of which has dramatically increased due to legislative changes

- Children's Services Unit achieved a major reduction in the large backlog of Fair Hearings conducted by the New York State Office of Children and Family Services to hear appeals of founded reports to the Central Registry of Child Abuse. The backlog is now within normal and expected operational parameters

- Social Services Unit partnered with the county's Medicaid "Czar" to support the county's efforts to audit and investigate medical services providers and pharmacies for potential fraud, waste and abuse in submitting Medicaid claims

- The Supplemental Security Income (SSI) Advocacy Office assisted public assistance recipients in gaining approval of benefits from the Social Security Administration in over 150 cases, thus allowing the county to terminate their Safety Net benefits, resulting in significant savings to Monroe County

2008 Major Objectives

- With the assistance of the District Attorney's Office, establish a new procedure to resolve Department of Social Services fraud cases on an expedited basis, utilizing consent agreements with court approval, thereby avoiding the need for administrative hearings

- Reduce Child Support Enforcement Unit caseload through the utilization of system generated reports to eliminate duplicate cases, thus improving efficiency

- Improve the process for establishing paternity for putative fathers in child abuse and neglect cases where no father has been legally established in order to minimize the negative impact of the necessity to establish paternity at a later point in the proceedings

- Implement electronic filing of Child Support petitions in Family Court proceedings

- Implement automated Child Support Enforcement Unit referral and appointment system for Department of Human Services cases

DIVISION DESCRIPTIONS

Administration (1601)

The County Attorney directs the activities of all divisions of the Law Department, develops policies and procedures and supervises the staff. Administrative support staff perform personnel/payroll, budgetary and office management functions.

General Law - Legal Services (1602)

The goal of this division is to provide legal advice and analysis and litigation support to the County Executive, all county departments and offices, the County Legislature and all bodies created or authorized by the County Legislature and all county officers and employees on county related matters in order to support county operations. This division also renders legal opinions, drafts state and local legislation, reviews legislative communications, reviews contracts, specifications and other legal documents and is responsible for special legal projects.

General Law - Social Services (1603)

The goals of this division are: 1) to provide professional legal representation to Social Services in order to advocate within the confines of the law, for results that maximize the delivery of their services (Public Assistance, Medicaid, conservatorships) at the lowest cost; and 2) to maximize the collection of monies owed Social Services at the lowest cost. Outcome measures include the decrease in the percentage of lawsuits brought against Social Services that result from allegations that Social Services violated the law.

Litigation/Insurance/Collections (1604)

The goal of this division is to provide litigation, collection and insurance services to the County of Monroe and all its officers and employees in litigation matters, in order to maximize recoveries and minimize payments. This division also represents the county in human rights cases and administrative hearings. The division is also responsible for administering the county's self-insurance program and procures insurance coverage in those areas for which the county is not self-insured. Outcome measures include the percentage of cases concluded within reserved values.

Real Property Transactions/Tax Foreclosure (1605)

This division is responsible for all real property transactions involving the county. These transactions include acquisition of real property, sale of real property, easements, negotiation and drafting of leases involving the county and condemnation actions for the acquisition by the county of interests in real property. This division also conducts all tax foreclosure actions.

Family Court - Juvenile Prosecutor's Office (1606)

The Juvenile Prosecutor’s Office (JPO) is responsible for prosecuting youth under the age of 16 who commit an act that would constitute a crime if committed by an adult. The goals of this division are to protect the community, address the needs of crime victims, hold delinquent youth accountable for their actions, and develop the competencies of delinquent youth in an effort to reduce their risk of re-offending. In addition to prosecuting juvenile delinquency cases, the JPO attorneys present evidence in violation of probation cases, assist crime victims, provide advice to law enforcement agencies and appear as required in Juvenile Drug Treatment Court and Domestic Violence Court. The JPO attorneys also have a strong presence in the community, contributing to the planning and implementation of strategies to reduce juvenile crime.

Child Support Enforcement Unit (1607)

The CSEU seeks to establish paternity for children born out of wedlock. The unit also establishes and enforces support orders issued by the Family and other Courts for the benefit of families in receipt of public assistance benefits and for other custodians of children in this community and elsewhere. Representation in court proceedings is provided to the Department of Human Services and to other custodians upon request. Outcome measures include the percentage of children for whom paternity is established, the percentage of cases in which a support order is obtained and the percentage of accounts on which a support collection is achieved.

Family Court - Children's Services (1608)

The goal of this division is to provide legal services to Social Services on all child welfare matters to protect the children of Monroe County. This division provides legal support in matters before the Family Court seeking relief on behalf of children who have been the victims of abuse or neglect. They also review the status of children voluntarily placed in foster care and termination of parental rights through guardianship actions or surrenders; appear in juvenile delinquency and Persons in Need of Supervision (PINS) proceedings affecting Social Services; advise Social Services staff in non-support matters affecting children; represent Social Services in administrative fair hearings regarding child protective, foster care and day care issues; and prosecutes and defends appeals.

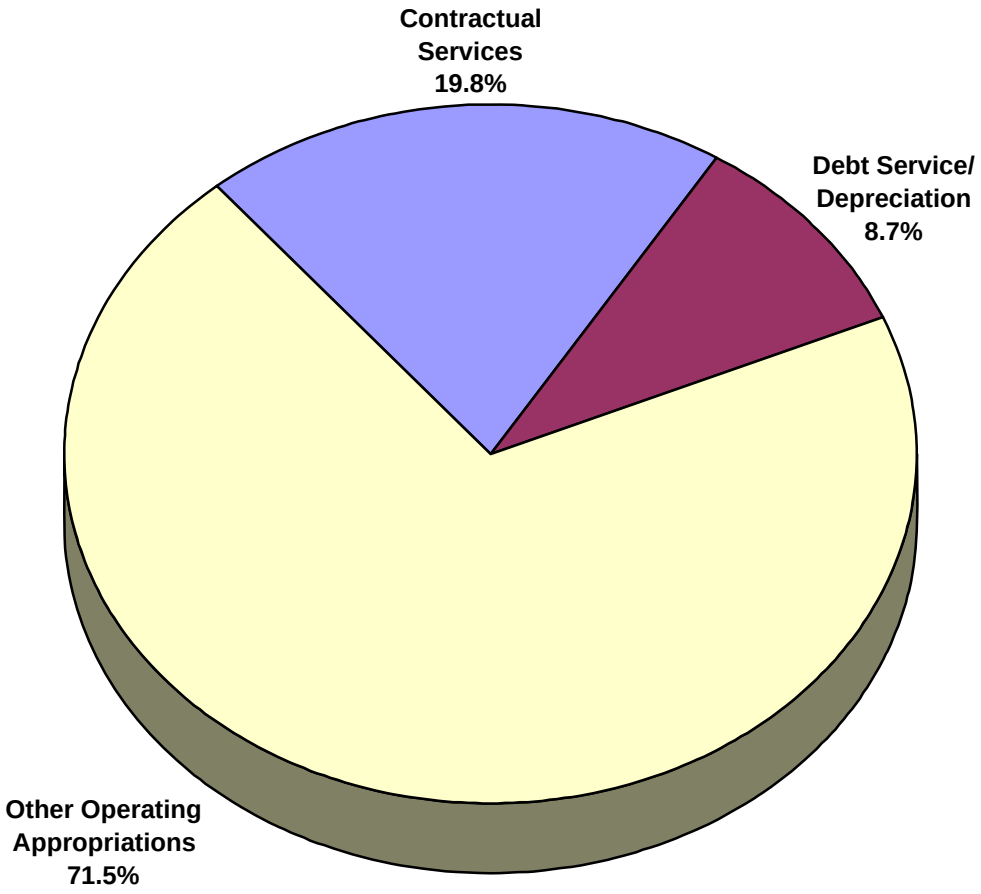
Monroe Community Hospital, a residential health care facility providing quality long-term care to individuals with chronic and complex health conditions, is non-mandated.

MONROE COMMUNITY HOSPITAL

2008 Budget - $65,790,986



DEPARTMENT: Monroe Community Hospital (62)

DEPARTMENT DESCRIPTION

Monroe Community Hospital (MCH) provides multi-disciplinary services for the extended care and treatment of the aged and chronically ill patient. The primary mission of the facility is to provide high-quality, comprehensive patient-centered care with the emphasis on functional restoration. Physicians and dental staff are provided for the hospital by a medical affiliation contract with the University of Rochester.

Patients are assessed prior to admission and periodically after admission to determine the nursing/rehabilitation services they require. The 566 bed Residential Health Care Facility (RHCF) attends to all levels of residents' needs.

The 2008 budget includes an increased funding stream from New York State to public nursing homes to promote quality health care, quality operation and updated technology.

Mission

Monroe Community Hospital is a health care organization that provides specialized long-term care for the most medically complex cases, serving as a unique and vital part of the healthcare system.

2007 Major Accomplishments

- Identified a Dialysis Services provider and worked toward implementation of this needed community service to be housed at MCH
- Maintained Facility Compliance with the New York State Department of Health (NYSDOH) Long Term Care Survey Process
- Continued advancement of the Medicare Part D Prescription Drug Program
- Continued implementation of the facility-wide clinical and financial software platform
- The Monroe Community Hospital – T.F. Williams, MD Foundation raised over $290,000 cash and $146,000 in-kind contributions. This amount includes $46,000 proceeds from the annual golf tournament, and $18,000 from the wine tasting event
- Developed an energy conservation and HVAC modernization project and received approval for implementation from NYSDOH
- MCH staff participated on several regional planning committees. MCH continued to serve as a vital resource for hard to place patients from the regions overcrowded acute care hospitals.

2008 Major Objectives

- Continue to facilitate opening of Dialysis Services at MCH
- Begin implementation of energy conservation and HVAC modernization of physical plant
- Maintain facility compliance with the NYSDOH Survey process
- Maintain a 97.5% occupancy level in the nursing home
- Expand the Foundation's outreach and donor base to enhance MCH's programs
- Fully implement improved cost-saving computerized clinical and financial software systems

DIVISION DESCRIPTIONS

Administrative/Fiscal Services

Administrative and financial management of the Hospital is the primary responsibility of Administrative/Fiscal Services. This division directs personnel and training programs, maintains patient information, performs admission and discharge functions and operates the Hospital's management information systems. Other responsibilities include patient billing, reimbursement analysis, purchasing, and the storing and issuing of supplies and equipment. This division is also responsible for developing Hospital goals in conjunction with the medical staff and other health care providers to meet present and future needs of the community and to ensure the quality of life for Hospital residents.

Administrative priorities in 2008 include: 1) continue operation of the Acute Unit; 2) continue implementation of a Quality Improvement Approach towards Patient Care and Services; 3) develop realistic staffing patterns to safely deliver care; 4) continue to offer quality programs to our residents and the community; and 5) maintain a Corporate Compliance Program.

Nursing/Professional Services

Nursing and other direct services to patients are provided through this division. Additional responsibilities include directing and organizing the nursing staff in carrying out supportive and restorative nursing care; operating the acute care unit, the residential health care facilities, outpatient clinic and rehabilitation programs; and developing ongoing training programs for all nursing staff.

Other activities included are:

Cardiac Consultation and Specialized Diagnostic Testing
Respiratory Therapies
Rehabilitation Therapies
X-Ray Services
Laboratory Services
Pharmacy Services
Medical Social Services
Medical Records Management
Medical Specialty Units
Religious Services
Food Service Operations
Wellness Center

Support Services

Support Services provides buildings and grounds maintenance, environmental, laundry, safety and security, and communications services essential to the operations of the Hospital. Support Services ensures that the physical complex is maintained in a safe, clean and code-compliant manner and that adequate communications are maintained for the facility.

Special Expense

Appropriations in the Special Expense include: 1) Depreciation expense for the Hospital plant and major equipment; 2) Interest Expense to reflect the borrowings for Hospital additions and renovations accomplished in prior years.

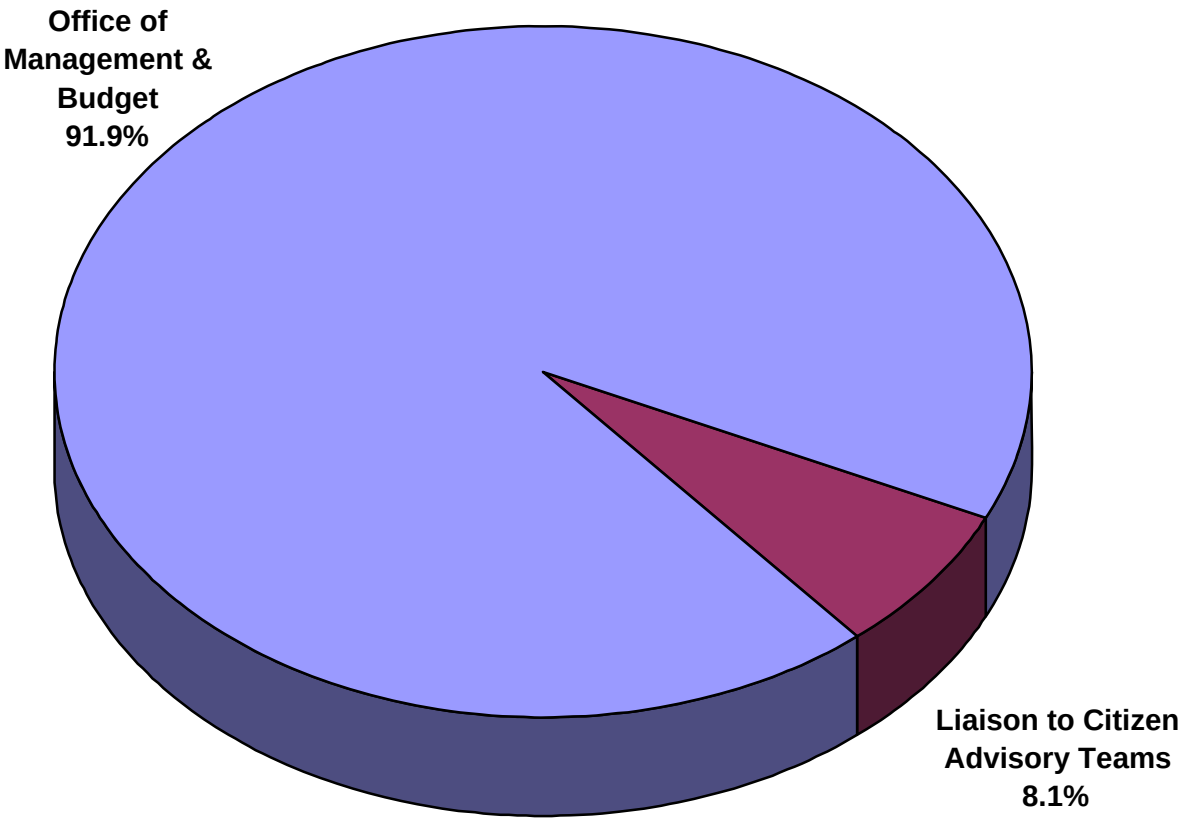
OFFICE OF MANAGEMENT AND BUDGET

2008 Budget - $761,839



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Office of Management and Budget (30)

DEPARTMENT DESCRIPTION

The Office of Management and Budget (OMB) prepares, publishes and administers the annual budget and assists in the preparation of the Capital Improvement Program. The department monitors expenditures and revenues and conducts analyses of county operations for the purpose of improving efficiency and effectiveness. A typical annual work plan also includes the preparation of multi-year budget forecasts, analyses of the effect of the New York State budget on the county budget, preparation of financial information and analyses for presentation to the credit rating agencies, administration of the Sales Tax and Hotel Room Occupancy Tax, and review of recommendations to the County Legislature and contracts for services to ensure consistency with county financial and management objectives and policies. OMB also interfaces with citizen advisory teams (CASE Commission/Center for Civic Entrepreneurship) to identify and implement efficiencies.

Mission

The Monroe County Office of Management and Budget is a multifaceted fiscal team that prepares, analyzes and monitors county-wide budgets, performs management studies, conducts long range fiscal planning and evaluates policy issues for fiscal impact for the County Executive to ensure the efficient and effective use of resources for the citizens of Monroe County.

2007 Major Accomplishments

- Designed and installed permanent software application for the Office of Management and Budget in order to integrate with the SAP financial system and enhance reporting, monitoring and forecasting capabilities
- Worked closely with departments to gain an understanding of departmental operations and improve monitoring capabilities in specific areas
- Produced the 2007 Budget Document on CD (and the Internet), marking the 6th consecutive year that the budget has been made available in this format, thus saving county dollars

2008 Major Objectives

- Continue to enhance new software application with additional functionality to improve reporting, monitoring and forecasting capabilities
- Develop and implement supervisory training course dealing with budgeting issues for Monroe County Leadership Academy, an initiative of the Department of Human Resources
- Continue to maintain staff support for the Center for Civic Entrepreneurship in order to incorporate recommendations into future budget documents

DIVISION DESCRIPTIONS

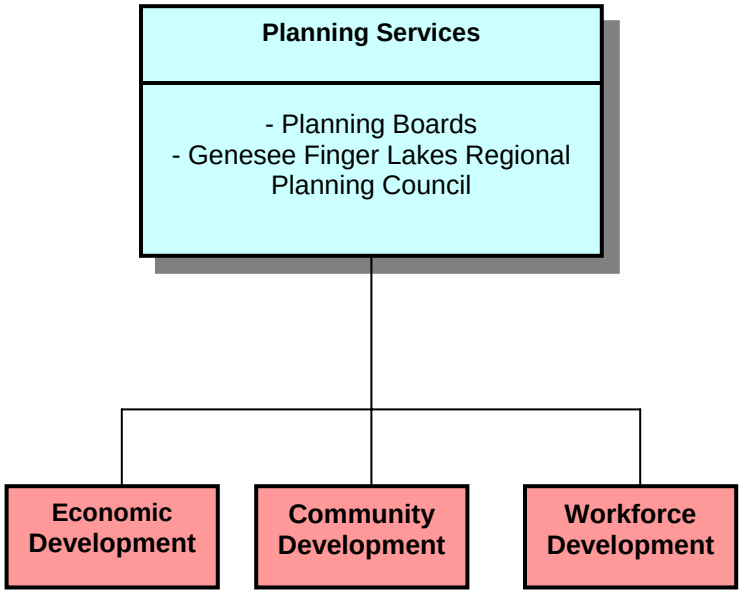
Budget Preparation and Administration (3001010000)

Staff produces the annual budget, monitors expenses and revenues throughout each fiscal year and reports quarterly to the County Legislature, monitors events and trends in federal and state governments which affect the county budget, analyzes the debt service implications of capital projects, forecasts county expenses and revenues, and analyzes the financial aspects of management decisions.

Citizen Advisory Teams (3002010000)

This division serves as liaison between the county administration and citizen advisory teams such as the CASE Commission/Center for Civic Entrepreneurship.

PLANNING AND DEVELOPMENT (14)



PLANNING & DEVELOPMENT
2008 MANDATED/NON-MANDATED

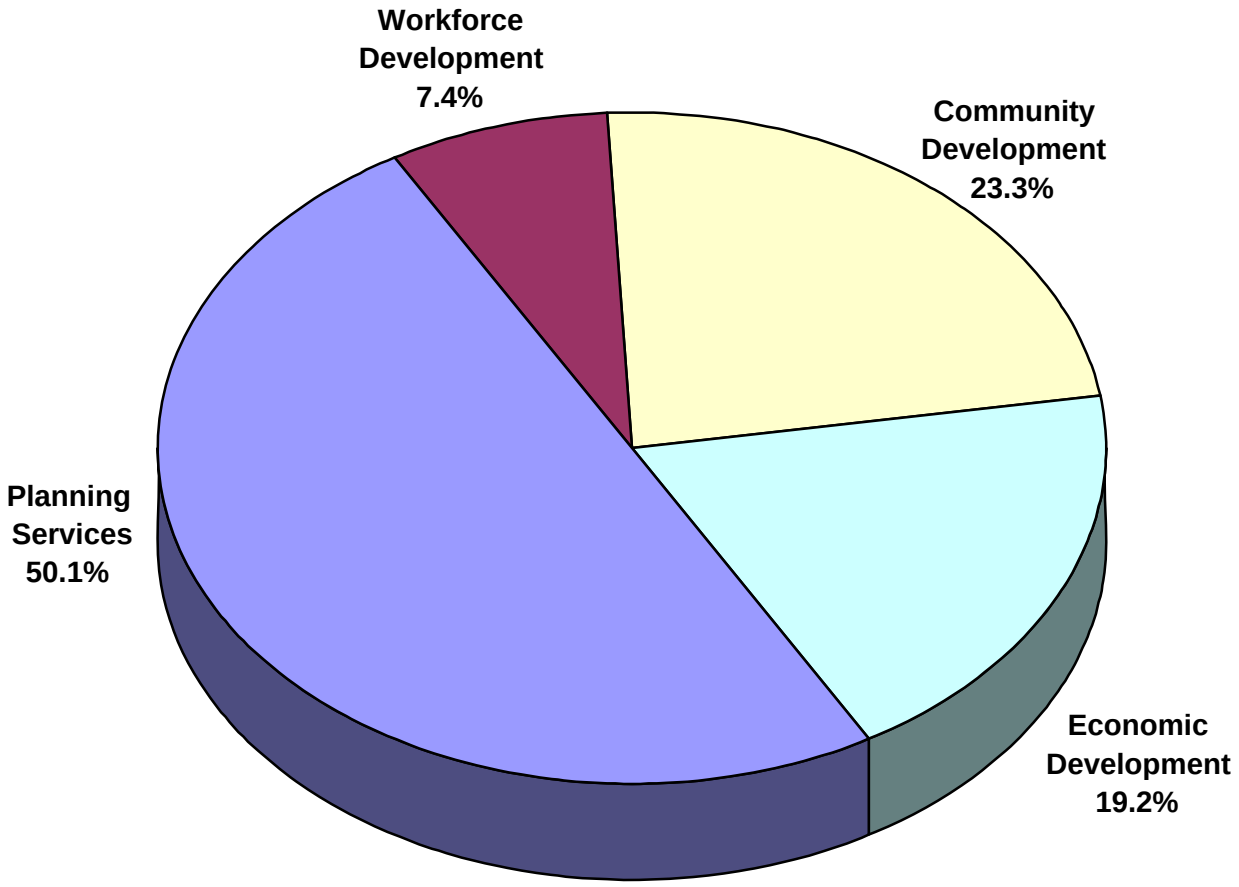
Non-mandated services include the divisions of Planning Services and Economic Development.

PLANNING AND DEVELOPMENT

2008 Budget - $2,729,715



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Planning and Development (14)

DEPARTMENT DESCRIPTION

The Planning and Development Department provides and coordinates a broad range of programs focusing on job retention and creation, employment and training services, land use planning and resource conservation as well as housing and neighborhood preservation. The department integrates planning services with economic and community development activities through partnerships with local governments and the private sector.

Mission

We provide planning and development information and assistance, project administration and employment services that improve the quality of life for county residents through public and private sector cooperation.

2007 Major Accomplishments

Planning Division:

- Developed GIS applications for the Airport including a storm sewer management mapping system for spill response and environmental compliance, and an Airport Lease Management System with a continuously updated Airport lease data set. Completed construction of the wetland mitigation project at Black Creek Park

- Assisted municipalities with GIS mapping, zoning code revisions, parking standards, and updates of comprehensive plans, including the Town of Gates Master Plan Update. Trained 350 persons in 15 program sessions in planning and zoning matters as well as provided customized training for the Environmental Management Council and Town of Gates Conservation Board

- Provided services to county departments, outside agencies and organizations by combining the Northeastern and Southeastern Agricultural Districts into the Eastern Agricultural District and processing annual additions to three agricultural districts

- Prepared the 2008-2013 Capital Improvement Program adopted by the County Legislature

Economic Development Division:

- Approved 132 projects in 2006 and 75 in the first half of 2007, which will result in the investment of $665 million in the community within three years, leveraged over 99% in private funds, created 1,857 new jobs in 2006 and retained 9,688 existing jobs in 2006

- Improved economic development incentives: enhanced benefits for the GreatRate and GreatRebate programs for companies to purchase locally; since inception, 207 companies have utilized the EquiPlus exemption on sales tax on qualified purchases of equipment resulting in an investment of over $46.7 million in new equipment; reconfigured Empire Zones according to new state requirements and approved three regionally significant projects; created and implemented a new Manufacturing Rewards program which offers cash rebates to manufacturers that invest in qualified manufacturing equipment; adopted a Green Building property tax abatement program to encourage energy efficient, sustainable design in LEED certified construction and renovation projects; and adopted a City Housing property tax abatement program to encourage residential development within the City of Rochester

- Integrated the US Department of Defense Rochester Procurement Technical Assistance Center (PTAC) which provides free government contract consulting to diverse business concerns into the Economic Development Division

- Monroe County Sports Development Corporation (MCSDC) brought new visitors to the county by assisting events such as the USA Wrestling Northeast Regional Championships, the Rochester Speedskating Competition, The Rochester Marathon, USA Hockey Development Camps and the 2006 Empire State Games

Community Development Division:

- 33 families received down payment or closing cost assistance, totaling $129,800 allowing them to purchase their first home and achieve the American dream of home ownership

- Completed 91 housing rehabilitation projects totaling $686,432, which improved housing conditions for low to moderate-income homeowners

- Completed 21 community public works and facilities projects in participating towns and villages, 13 of which improved accessibility for persons with disabilities and the elderly

Workforce Development Division:

- 45 Monroe County employers received $889,412 in WIRED training scholarships

- 11,760 job seekers were enrolled in employment services

2008 Major Objectives

Planning Division:

- Assist the Greater Rochester International Airport in maintaining the storm sewer and lease management systems and creating a mapping application for the lighting and signage systems as well as spill management; undertake a Brownfield opportunity area study which will identify potential contamination issues associated with county tax foreclosure parcels and properties located near the airport; and monitor the status of the wetland mitigation project created at Black Creek Park

- Provide the public, developers, other county departments and community agencies with planning related information and training by expanding GIS applications to an internet based application; conducting Spring and Fall Land Use Decision-Making Training Programs, reviewing the Northwestern Agricultural District

- Preparation of the 2009-2014 Capital Improvement Program

Economic Development Division:

- Maintain or increase number of job creation/retention projects

- Increase number of companies that receive GreatRate subsidy, GreatRebate incentive program, Manufacturing Reward and the EquiPlus program; increase awareness of the Empire Zone benefits to service providers (accountants, attorneys, bankers)

- Continue joint calling efforts with the City of Rochester Economic Development staff and Greater Rochester Enterprise and Procurement Technical Assistance Center (PTAC)

Community Development Division:

- Complete 23 public works and facilities projects in participating towns and villages, 12 of which will improve accessibility for persons with disabilities and the elderly

- Increase the number and dollar value of housing rehabilitation projects

- Partner with City of Rochester to address housing foreclosures and other housing issues of mutual concern

Workforce Development Division:

- Increase awareness of employment services to businesses

- Educate the emerging workforce on the importance of science and math

DEPARTMENT: Planning and Development (14)
DIVISION: Planning Services (1401)

DIVISION DESCRIPTION

The principal role of the Planning Services Division is to assist the County Executive, other county departments and local governments in setting, evaluating and achieving the long term objectives of the community. Planning Services provides data and information, issue and policy analysis and alternatives and solution evaluation to decision makers. Planning Services also undertakes special studies related to zoning and land use matters.

SECTION DESCRIPTIONS

Planning Services (1401010000)

Planning Services provides services to customers through prepared technical and census tract data reports, assists municipalities in the review of development proposals and the preparation of master plans, zoning and subdivision codes, provides planning and development education, and prepares the annual county Capital Improvement Program. Funding is also provided for support of the Monroe County Council of Governments.

County Planning Board (1402010000 & 1402030000)

County Planning Board advises the County Administration, Legislature and other municipal officials on planning matters. They coordinate plans and planning programs among all levels of government in Monroe County by providing forums for public discussion, education and participation in resolving planning issues and concerns. Funding is also included for Agricultural and Farmland Protection.

Genesee Finger Lakes Regional Planning Council (1402040000)

GFLRPC provides technical assistance on development programs which have regional impact. Representatives from nine member counties (Monroe, Genesee, Livingston, Ontario, Orleans, Seneca, Wayne, Wyoming and Yates) participate in this program. GFLRPC provides a forum to discuss matters of regional concern, formulates development plans and provides technical assistance to maximize understanding of regional development programs.

DEPARTMENT: Planning and Development (14)
DIVISION: Economic Development (1403)

DIVISION DESCRIPTION

Through private, state, federal and county financial resources and technical assistance, the Economic Development Division supports businesses, developers, units of local government and major county facilities such as the Airport in economic development activities. The division provides administrative support to the County of Monroe Industrial Development Agency (COMIDA) and the Monroe County Industrial Development Corporation (MCIDC).

Division staff provide for community leadership and outreach by coordinating and guiding development to achieve maximum public benefit, seeking ways to address major economic issues facing the county and developing strong working relationships with other economic development agencies in the region. Other services include a business outreach program, loan packaging services, administration of business financing programs, technical assistance to businesses interested in undertaking expansion or relocating to the area, site analysis and identification, coordination of project reviews and permits, implementation of tax incentives and other programs and coordination of job training/education resources.

DEPARTMENT: Planning and Development (14)
DIVISION: Workforce Development (1405)

DIVISION DESCRIPTION

The Monroe County Workforce Development Division provides fiscal and programmatic oversight of RochesterWorks, Inc. (RWI) by monitoring monthly expenditure reports, quarterly performance reports and annual audits. The division also provides on-site performance reviews of contracted vendors to ensure programs are meeting enrollment, fiscal and performance standards; participates in on-site file reviews at career centers; negotiates and oversees contract with system operator; researches and recommends best practice models; develops programs; markets the system to employers; and serves on all Workforce Investment Board subcommittees.

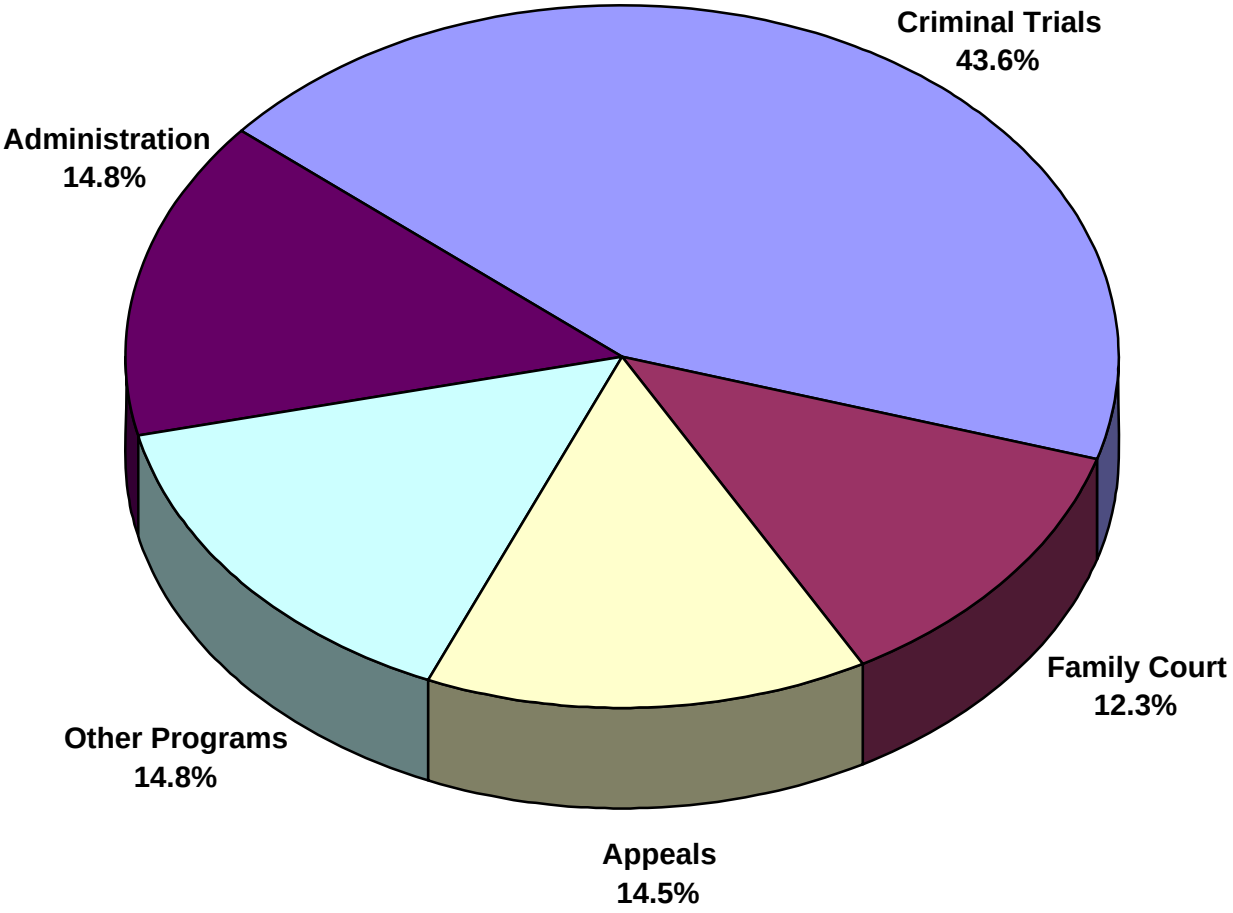
100%
MANDATED

NON-MANDATED		**0**
MANDATED		**7,516,479**
	TOTAL	**7,516,479**

Services provided by the Public Defender's Office are mandated by state and federal law, with the county having limited control over service levels.

PUBLIC DEFENDER

2008 Operating Budget - $6,881,190
2008 Grant Budget - $635,289



DEPARTMENT: Office of Public Defender (26)

DEPARTMENT DESCRIPTION

The Public Defender is appointed by the County Legislature for a two-year term. The Public Defender's Office represents indigent individuals in criminal court proceedings, Family Court, and Surrogate Court. Services are mandated by state and federal law, but are subject to some county control. The Public Defender heads a professional staff which includes attorneys and support staff.

Mission

In compliance with federal and state constitutions, the Monroe County Public Defender's Office is a legal service component of Monroe County government which: provides quality legal representation to its clients; advocates for the protection of the constitutional rights of its clients; contributes to the efficient and effective operation of the criminal justice system in Monroe County; advocates and works toward achieving results that have the greatest likelihood to help rehabilitate clients and prevent committing new crimes; and creates a work environment that supports the empowerment and teamwork of its employees.

2007 Major Accomplishments

- With help of additional staff acquired through a grant from the State of New York, this office filed almost 200 appellate briefs, subsequently avoiding an unacceptable backlog of pending appellate cases that would have resulted in a 3-year delay in perfecting our clients appeals
- Improved security within the office for our staff and office visitors

2008 Major Objectives

- Continuation of county funding aimed at maintaining efforts to reduce the backlog of pending appellate cases, an initiative that was previously grant funded
- Continue to provide quality legal services to our clients while facing caseloads that far exceed national standards and goals

DIVISION DESCRIPTIONS

Administration (2601)

The Public Defender, with the support of administrative staff, develops policy alternatives and operating procedures, and provides direction, coordination and planning for all department activities. Specific administrative tasks include payroll, personnel, records management, technology support, facilities management and budget functions.

Criminal Trials (2602)

This division defends persons who are charged with crimes but cannot afford private counsel. Clients are represented at arraignments, preliminary hearings, trials and other court proceedings. Specific activities include: the processing of bail applications, the investigation of cases (interviews with defendants, witnesses and victims), and the preparation of motions and supporting legal memoranda.

Family Court (2603)

This division represents indigent persons in all phases of Family Court proceedings as required by Section 262 of the Family Court Act. When appropriate, clients are referred to various agencies for counseling and other services.

Appeals (2604)

The Appeals division represents indigent persons who appeal the judgments, dispositions, or orders of the trial court, Family Court or Surrogate Court. Attorneys assigned to this division prepare the legal briefs which are necessary to perfect a case on appeal.

Alternatives to Incarceration (2605)

This division reflects the integration of a social work/case manager component into the public defense function and is directly supervised by the Public Defender.

Public Defender Grants (2606)

Enhanced Defense Program

This program has enabled the department to hire additional attorneys and support staff to better represent the increasing caseload of drug arrests in Monroe County. Federal Anti-Drug Abuse block grant funding is distributed to certain localities by the State of New York.

Aid to Localities

The state provides funding for attorneys and support staff in the Public Defender's Office through the Aid to Localities Program. Specific activities include researching cases, preparing briefs, motions, and other elements of cases, and representing clients at arraignments, preliminary hearings, trials and all other court proceedings.

Indigent Parolee Program

The state provides funding for attorneys who provide state mandated legal representation of individuals accused of violating the terms and conditions of parole.

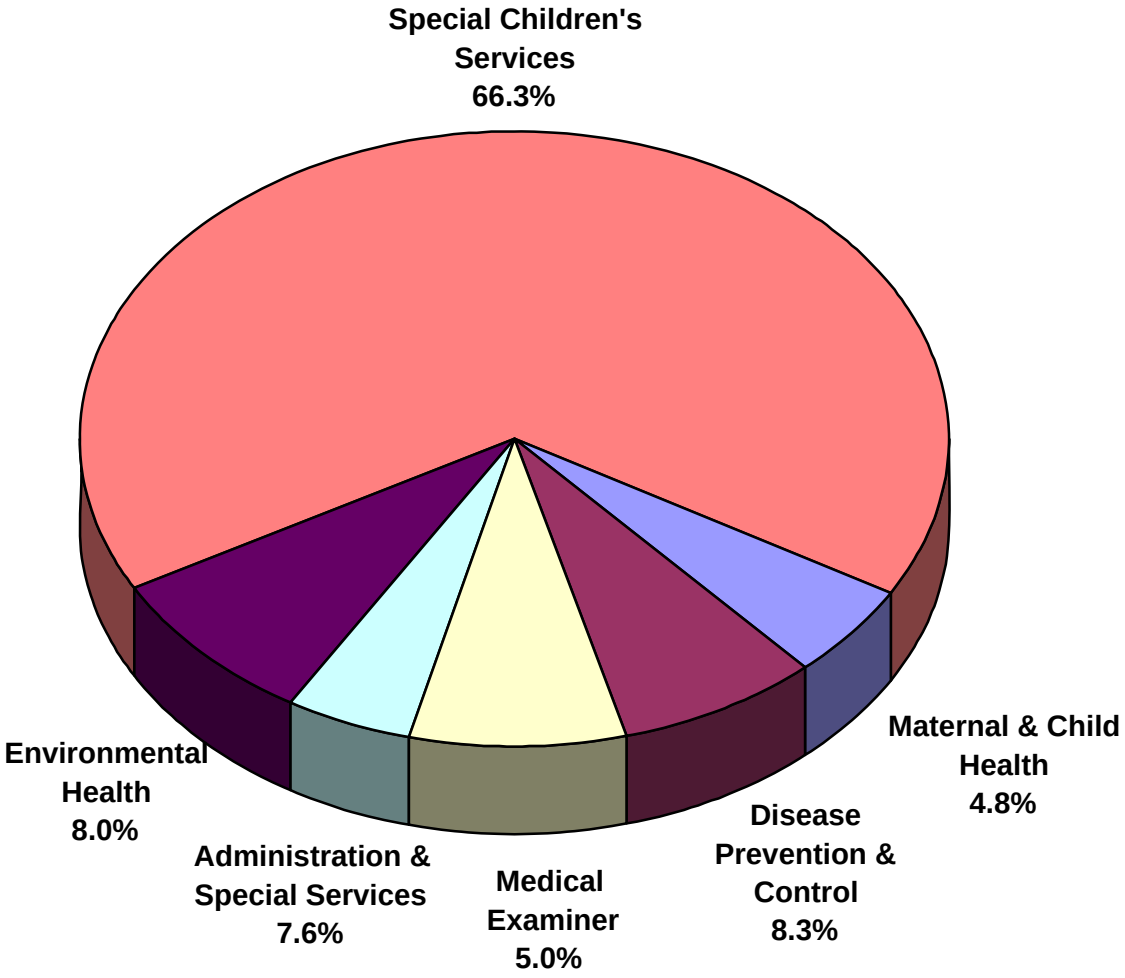
	TOTAL BUDGET	**64,059,371**

Categories of service mandated by the state include Maternal and Child Health, Environmental Health, Communicable Disease Prevention and Control, Medical Examiner and Special Children's Services.

Non-mandated services include Emergency Medical Services Support and a portion of Environmental Quality Planning and Monitoring.

PUBLIC HEALTH

2008 Operating Budget - $62,338,641
2008 Grant Budget - $1,720,730



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Public Health (58)

DEPARTMENT DESCRIPTION

The Department of Public Health provides a wide range of services designed to promote health and protect the public from disease and environmental hazards. Services focus on prevention of health problems through education, preventive services and enforcement of health codes and medical policies. Categories of service include maternal and child health, environmental health, communicable disease prevention and control (including clinic services), and medical examiner services.

In 2008, the Special Children's Services Division has been transferred from Department of Human Services to this Department.

Mission

The Health Department provides direct public health services and leadership to assure improved health status of individuals, families, the environment and the community. The department strives to achieve excellence in its performance to advance Monroe County as a leader in the field of public health, collaborate with community partners to achieve optimum health status in the community, and interact proactively with the changing health care environment to assure that public health issues are recognized and addressed.

2007 Major Accomplishments

Administration and Special Services

- Published 2006 Adult Health Survey
- Conducted 2007 Youth Risk Behavior Survey
- Selected Adolescent Health priority areas for Health Action
- Successfully conducted Point of Distribution Exercise for mock rapid mass immunization of Monroe County residents during a Pandemic Influenza scenario

Communicable Disease Prevention and Control

- Increased completion rates for treatment for Latent Tuberculosis (TB) from 80% to 85%
- Improved the accuracy of screening for Latent TB infection among foreign born RIT students through the use of the Quanti-Feron TB Gold blood test; more accurate diagnosis resulted in smaller numbers of patients, saving staff time, contractor time, x-ray costs, medications and mileage costs
- Increased rate of immunization among children in Foster Care Pediatric Clinic to more than 90%, exceeding the year 2010 goal
- Collaborated with local physicians and the Monroe County Medical Society in providing workshops as part of the Center for Disease Control / New York State Department of Health initiative to improve immunization rates through provider-to-provider feedback

Maternal and Child Health Services

- Completed successful implementation of the Nurse Family Partnership Program

Environmental Health

- Developed a water quality model, sampling protocol, and operating criteria for Durand Beach
- Awarded a grant from New York State Department of Environmental Conservation to continue work on storm water efforts

- Awarded a grant from the US Environmental Protection Agency for Rochester Embayment Remedial Action Plan implementation including a river and embayment sediment study and Rochester (Westside) PCB tracking

- Implemented a $3 million HUD Lead Hazard Control grant that provides direct lead hazard control funding for 370 housing units, funding for EPA-certified Risk Assessor and Lead Abatement Worker training, and lead safe work practices training. Funding is also provided for a Lead Awareness Media Campaign

Medical Examiner's Office

- Completed first step toward National Association of Medical Examiners (NAME) accreditation by providing required training to field staff

2008 Major Objectives

Administration

- Publish Adult/Older Adult Health Report Card

- Select Adult Health priority areas for Health Action

- Conduct public health performance standards assessment of departmental programs

- Develop a public health workforce resilience strategy to ensure that essential public health programs can be maintained during an emergency and/or disaster

Communicable Disease Prevention and Control

- Participate with the Immunization Program and Department of Public Health partners in strategies to promote vaccination of appropriate populations in an effort to prevent the transmission of Pertussis

- Increase/expand the use of new blood tests to improve efficiency of diagnosis and treatment of Latent TB Infection in high risk groups

Environmental Health

- Increase Food Worker Certification training in all Medium and Low Risk Food Service Establishments to meet compliance guidelines effective May 2008

- Provide support and guidance to the City of Rochester to develop a Compliance Schedule as part of an Administrative Action to meet the federal requirements of the Long Term 2 Enhanced Surface Water Treatment Rule

- Implement an Ultraviolet Radiation Device licensing and inspection program following the promulgation of regulations for Article 35-A of the New York State Public Health Law

Maternal Child Health

- Increase the number of participants in the Nurse Family Partnership Program to 200 by 7/1/08

- Expand the Waring Plaza WIC office by approximately 1,200 square feet to allow WIC caseload at this location to increase proportionate to unmet needs in the service area

Medical Examiner's Office

- Complete additional steps towards National Association of Medical Examiners (NAME) accreditation

- Incorporate bar coding technology into case evidence handling and processing

DEPARTMENT: Public Health (58)
DIVISION: Administration & Special Services (5801)

DIVISION DESCRIPTION

Working directly with the County Executive and the Board of Health, the Administration and Special Services Division ensures that disease prevention, health promotion and environmental protection activities are effectively employed to maintain and improve the health of the community. Division staff provide leadership in the department and in the community in developing goals, policies, programs and strategies to address public health issues and improve the health status of the community.

SECTION DESCRIPTIONS

Public Health Director (5801010000)

The Director of Public Health articulates public health policy and provides the technical information that citizens need for health protection. The Director of Public Health is responsible for overall management of the Health Department and ensures services are appropriate and consistent with department goals and state requirements.

The Public Health Preparedness and Response to Bioterrorism Grant is also included in this section. The purpose of this grant is to assist local health departments to be better prepared to respond to public health emergencies, such as communicable disease outbreaks and bioterrorism events.

Community Health Improvement (5801030000)

Staff in this section prepare **HEALTH *ACTION*** report cards and provide staff support to Board of Health **HEALTH *ACTION*** committees and community partnerships. Staff also respond to approximately 500 requests each year for health data and assist in special studies carried out by the department such as the Youth Risk Behavior Survey and the Adult Health Survey.

Vital Records (5801040000)

Vital Records is responsible for processing and issuing birth, death and related certificates, recording statistical data and interacting with federal, state and local agencies, hospitals, funeral directors, physicians, attorneys and the general public.

Emergency Medical Services Support (5801050000)

Emergency Medical Services Support is involved in planning for ambulance and other emergency medical services in the county with the goal of enhanced program coordination and quality assurance monitoring of emergency medical services provided to the community.

Debt Service (5801060000)

This section includes debt payments for equipment replaced in the Medical Examiner's Office.

Health Education Program (5801070000)

The Health Education Program provides public health information/education and referral on diverse health topics of concern in Monroe County.

Various grants are obtained throughout the year to implement small scale public health education campaigns. These grants will be accepted and appropriated as they are received.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Vital Records Events Filed			
Births	10,647	10,300	10,300
Deaths	6,920	7,000	7,000

DEPARTMENT: Public Health (58)
DIVISION: Communicable Disease Prevention and Control (5802)

DIVISION DESCRIPTION

The goal of this division is to provide essential health care services to the residents of Monroe County in the areas of disease surveillance, clinical services and preventive health education in order to prevent and control the spread of communicable disease and to provide preventive care and treatment to children in the care of Monroe County's Foster Care Boarding Home Program.

Employment Required PPD	$30	$30

*Plus cost of vaccine(s) received.

SLIDING FEE SCHEDULE

Although the majority of the Immunization and TB Clinics' clients are covered under Medicaid or private insurance, the above fees may be adjusted for those clients whose incomes fall within certain limits based on the federal poverty level and who have no other reimbursement or payment source.

Family income percentage of the federal poverty level	<150%	151-200%	201-250%	251-299%	>300%
Percentage of fee to be charged	0%	25%	50%	75%	100%

SECTION DESCRIPTIONS

Clinic Administration (5802010000)

This section's responsibilities include ensuring regulatory compliance for licensure as a Diagnostic and Treatment Center; HIPAA compliance; community consultation and leadership; program planning, administration, and leadership; staff supervision; and administration of budgets, contracts, grants and special projects.

Tuberculosis Control Programs (5802020000)

The goal of these programs is to provide effective TB screening, education, outreach, treatment, follow-up, referrals and preventive medicine to Monroe County residents to decrease the incidence of tuberculosis. Programs are partially supported by grants from the New York State Department of Health. Outcome measures include the rates of tuberculosis in the community and the rates of treatment completion.

STD Control Programs (5802030000)

The goal of these programs is to provide confidential, high quality STD/HIV prevention services, behavioral counseling, disease surveillance and interventions to reduce the rates of STDs in the community. Outcome measures include rates of STD among residents of Monroe County. Several grants from the New York State Department of Health partially support these programs.

AIDS Program Coordination and Education and Surveillance (5802040000)

This program area works to leverage community resources related to HIV and AIDS and to encourage science based prevention and intervention strategies related to this area. In addition, the program is responsible for HIV Partner Notification. The Partner Notification Assistance Program (PNAP) helps HIV+ patients let their partners know they need to be tested. Education, technical assistance and support are given to providers around issues related to reporting and notification. Partial support for these programs is provided by grants from the New York State Department of Health.

Immunization Programs (5802050100)

The goals of the Immunization Program are to reduce or eliminate vaccine preventable diseases and to be an educational resource regarding immunization for health care providers and residents of Monroe County. To accomplish these goals, the program provides weekly immunization clinics for adults and children, offsite outreach clinics to vaccinate at-risk populations throughout the community, daily immunization information by phone and email to physicians, schools and the general public and immunization audits of provider practices related to immunization rates and practices. Outcome measures include immunization rates in private provider offices, immunization and disease rates in targeted at-risk populations and provider participation in the NYS Immunization Registry.

Disease Control (5802060000)

The goal of this program is to prevent the transmission of reportable communicable disease by means of surveillance, investigations, intervention, education and research. Outcome measures include rates of reportable communicable disease among residents of Monroe County.

Foster Care Pediatric Clinic (5802070000)

The goal of this program is to provide coordinated, pediatric health care services to the children in Foster Care in Monroe County in order to ensure continuity of medical and preventive services to this high-risk population. This program improves children’s access to quality health care and provides medical case management. These efforts promote placement stability and permanency, reduce lengths of stay, and help prevent residential placements. Outcome measures include the percent of children in the program who are up to date with well child-care visits and immunizations.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Clinic and Outreach Visits			
Tuberculosis	17,054	17,100	17,100
STD	14,560	13,600	13,180
Immunization	4,233	4,500	4,500
Foster Care	3,241	3,250	3,550

Cases of Hepatitis A	4	<7	<7

DEPARTMENT: Public Health (58)
DIVISION: Maternal and Child Health Services (5803)

DIVISION DESCRIPTION

The goal of this division is to provide public health services to children and families in order to ensure healthy births and improve health and developmental outcomes for all children. Services include WIC and community health outreach activities for high-risk pregnant women and their families. Administrative staff in this division oversees all of the child and family health services in the department including those in the Child and Family Health Grant division (5805) and Special Children's Services division (5807).

BUDGET SUMMARY

Net County Support		**683,044**	**387,870**

SECTION DESCRIPTIONS

Maternal and Child Health Services (5803010000)

This section is responsible for overall management of the Maternal and Child Health Division, the Child and Family Health Grant and Special Children's Services (programs transferred from the Department of Human Services). Staff also work closely with community agencies involved with maternal and child issues to achieve common goals.

Physically Handicapped Children's Services (5803020000)

This section includes medical support funding which is provided to children with special health care needs. This program is 50% funded through state aid.

Opening Doors Two (5803030000)

This program is designed to provide services to high risk newborns and preschool children in the City of Rochester to ensure optimal readiness for school entry. Funding from the Monroe Plan provides the local match necessary to draw down Medicaid dollars.

Early Intervention Administration (5803040000)

A portion of Early Intervention expenses are eligible for Article 6 Public Health State Aid. In 2008, this revenue stream is budgeted in the Special Children's Services division (5807).

Nurse Family Partnership (5803050000)

The Nurse Family Partnership is a nurse home-visitation program serving low-income, first-time mothers and their families. Visits begin early in the pregnancy and continue through the child's second birthday. Goals of the program are to improve prenatal health, infant health and child development and to promote life-prospects for mothers and their children. Funding comes from two sources: the NYS Office of Children and Family Services – Community Optional Preventive Services and the Children's Agenda.

Perinatal Home Visiting Program (5803060000)

This program provides services to high risk pregnant women and their infants to ensure optimal birth outcomes, improve child development and promote maternal life and health status. Funding from the United Way of Greater Rochester provide the local match necessary to draw down Community Optional Preventive Services funding from New York State for paraprofessional home visitors who are the primary providers of services for these families.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Percent of clients who enter prenatal care in the first trimester	87%	88%	89%

DEPARTMENT: Public Health (58)
DIVISION: Medical Examiner (5804)

DIVISION DESCRIPTION

The Medical Examiner's Office is responsible for the investigation and certification of all suspicious and unattended deaths in the community. To these ends, advances in forensic science have been incorporated into the work process to provide the most accurate and efficient results possible. The Medical Examiner and staff may provide court testimony on the results of these investigations. The office also provides forensic autopsies on a contractual basis for several counties in the region. The goal of the Medical Examiner's Office is to perform forensic death investigations for Monroe and several surrounding counties to aid in the administration of criminal and civil justice and to provide data that can be utilized for public health and educational ends. The Medical Examiner's Office also maintains an educational component, speaking with various community groups and offering educational programs to various schools in the area. The Medical Examiner's office has also been involved in the planning process in working to mitigate any potential public health emergency, especially significant fatalities associated with a pandemic flu event. Outcome measures include case turn-around time.

Cannabinoids: screen and confirmation-urine	$100	$100
Carboxyhemoglobin	$45	$45
Cocaine screen (EIA)	$30	$30
Cocaine: screen and confirmation	$100	$100
Opiate screen (EIA)	$30	$30

Item	2007 Fee	2008 Fee
Opiate screen (GC/MS)	$60	$60
Opiate: screen and confirmation	$120	$120
Single drug quantitative analysis (GC or LC)	$80	$80
Single drug quantitative analysis (GC or LC) additional sample fee	$40	$40
Single drug quantitative analysis (GC/MS or LC/MS)	$100	$100
Single drug quantitative analysis (GC/MS or LC/MS) additional sample fee	$60	$60
Discovery Package Preparation (per page)	$3	$3
Paternity Testing sample prep	$25	$25

SECTION DESCRIPTIONS

Forensic Pathology and Administration (5804010000)

Comprehensive, sophisticated medical-legal death investigation services, forensic pathology, toxicology and other ancillary expert services are provided in over 2,000 investigations per year. Additionally, this section is responsible for all administrative and policy setting activities of the Medical Examiner's Office.

Medical Examiner grants, primarily from the New York State Division of Criminal Justice Services and the United States Department of Justice Office of Justice Programs, will be accepted and appropriated as received. They typically provide funding for staff and instrumentation upgrades for the Forensic Toxicology Laboratory as well as technology improvements and training for the Autopsy and Field Service sections.

Forensic Laboratory (5804020000)

The Forensic Toxicology Laboratory is responsible for screening blood and other body tissues for the presence of drugs or other foreign chemicals and for determining the amount of drugs present once they have been identified. These laboratory results are then interpreted as to their contributory role in a death. The laboratory also tests the blood submitted by police agencies from individuals who are believed to have been operating a vehicle while under the influence of drugs or alcohol. The results of these tests are then used in criminal proceedings associated with traffic stops.

Autopsy (5804030000)

The autopsy section prepares bodies and tissues and then performs physical examinations to determine a cause of death. Items of evidence are also secured and processed to ensure proper issues of custody are maintained.

Medical Examiner Field Services (5804040000)

The Field Services section responds to a death location and initiates investigations to determine the cause of death. These death locations can vary from in-house scenes to detailed skeletal excavations in remote areas of the county. Cases requiring further investigation are transported to the morgue for more detailed inquiry. In addition, staff interact with the community by providing lectures/demonstrations to schools and other organizations as requested. Data is obtained and can be provided to the community to help plan and implement programs to limit or reduce mortality.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Case Investigations w/o Autopsies	1,943	1,900	1,900
Total Monroe County Autopsies	543	540	540
Contractual Autopsies	355	325	325

DEPARTMENT: Public Health (58)
DIVISION: Child and Family Health Grant (5805)

DIVISION DESCRIPTION

The Child and Family Health Grant consolidates several categorical grants from the New York State Health Department providing service to women, infants, children and their families. This grant is based on a work plan that promotes integration of services including a single point of entry for clients, a centralized computer registry, a common assessment tool and co-training of staff. The grants included are Childhood Lead Poisoning Prevention, WIC, Early Intervention, the Immunization Action Plan and the Immunization Registry. The goal of this approach is to be more visible, accessible and responsive to high risk children and families.

SECTION DESCRIPTIONS

Child & Family Health Administration (5805010000)

This section provides grant support for administration of the Child and Family Health grant.

Grant Components

WIC Program Grant

The Women, Infants and Children (WIC) Program targets high risk, low-income, pregnant and breastfeeding women as well as their infants and children up to the age of five years. The goal of this program is to provide nutrition education, vouchers for nutritious food and referrals to other services to improve the nutritional intake and health status of pregnant or lactating women, infants and children. An additional grant supports a Breastfeeding Peer Counseling Program.

Childhood Lead Poisoning Prevention

The goal of this program is to protect young children (0-6) from exposure to lead hazards by providing leadership for activities within the county by serving as a resource for current information; educating health professionals and the community at large; providing case management and ensuring professional adherence to lead regulations; and providing environmental assessment and enforcement of lead hazard reduction measures to ensure a lead safe environment for children in Monroe County. Outcome measures for this program include the percent of children screened who have a confirmed elevated blood lead level. Separate grant funding allows for education and the temporary relocation of families with children having elevated blood lead levels while hazards are being removed from their permanent homes.

Immunization Action Plan

The Immunization Action Plan grant makes immunizations available to all residents of Monroe County, including community immunization clinics for school-age children.

Immunization Registry & Adult Initiative

The goal of this program is to develop and maintain a regional immunization registry in order to provide parents and providers up to date information and to increase and sustain rates of childhood immunization. Outcome measures include the percent of children who are fully immunized by age 2. The Immunization Registry has moved out of the development phase and into the deployment of the software application - Healthy Shot - into physician offices in the Finger Lakes Immunization Registry (FLAIR) region. The overall goal of the statewide program is to establish a database of immunizations for all children in New York State.

Early Intervention (EI) Grant

The goal of this program is to identify and evaluate children birth to 3 who are at high risk for developmental delay or suspected or confirmed diagnosis of developmental disability. EI offers a variety of therapeutic and support services to children who qualify. Developmental monitoring is offered for children who are found ineligible for services. Outcome measures include the percent of children at risk who receive developmental surveillance through their health care provider. Additional activities include providing information and referral services to families of children up to age 21 who have special health care needs.

WIC Breastfeeding Peer Counseling

The Women, Infants and Children (WIC) Breastfeeding Peer Counseling Program targets high risk, low-income pregnant and breastfeeding women who participate in the Monroe County WIC Program. The goal of this program is to provide breastfeeding education and support through paraprofessional peer counselors.

Child & Family Health-County Support (5850200000)

This section provides county support for administrative costs not reimbursed by the Child and Family Health Grant.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
WIC Program			
Percent of WIC Caseload Achieved	103.8%	100%	100%
Child and Family Health Grant			
Percent of WIC infants who are breast fed on hospital discharge	54.4%	56.0%	56.0%

DEPARTMENT: Public Health (58)
DIVISION: Environmental Health (5806)

DIVISION DESCRIPTION

The division of Environmental Health promotes the improved health status of the community including individuals, business and industry, institutions and government by providing information and education; inspection of facilities or conditions that affect public health and the environment; enforcement of provisions of the Public Health Law, Environmental Conservation Law, the New York State Sanitary Code and the Monroe County Sanitary Code; emergency response to incidents that threaten public health and the environment; and coordination of program planning for county activities that protects public health and the environment.

Note: Government or charitable, non-profit organizations with annual operating budgets of $50,000 or more are assessed a fee equal to fifty percent (50%) of the standard fee. Government or charitable, non-profit organizations with annual operating budgets of less than $50,000 will be exempt from Environmental Health fees.

LATE PAYMENT FEE:

In the event the payment of any fee is not made within 30 days of the invoice date, the following late payment fee schedule will apply and be added to the original fee due:

	TIME PERIOD	ADDITIONAL CHARGE
1.	Payment Within 30 Days of Invoice Date	No Additional Fee
2.	Payment Within 31-60 Days of Invoice Date	1.5% of Original Fee
3.	Payment Within 61-90 Days of Invoice Date	3.0% of Original Fee
4.	Payment After 90 Days of Invoice Date	3.0% of Original Fee Plus 1.5% Per Month or Part Thereof for any Time after 90 Days

SECTION DESCRIPTIONS

Environmental Health Administration (5806010000)

This section is responsible for program administration, budget control, staff development and planning. Additionally, the Administrative section provides consultation and technical assistance to private groups and local governments concerning environmental matters and serves as the Records Access Office for all Freedom of Information requests directed to the Monroe County Department of Public Health.

Grants that are budgeted in this section include Water Supply Enhancement, Healthy Neighborhoods and Adolescent Tobacco Use Prevention. The 2008 Grant Budget will be amended as additional funding is received during the year.

Water Supply and Bathing Facilities (5806020000)

The Water Supply and Bathing Facilities programs monitor public water supplies, swimming pools, and bathing beaches. The staff also reviews and approves plans for main extensions and replacements, cross connection prevention devices, and public bathing facilities.

Plan Review / On-Site Wastewater Treatment (5806030000)

This program regulates the review and approval of new on-site wastewater treatment systems for residential properties, realty subdivisions and commercial projects. Staff perform site evaluations, soil testing and construction inspections. Staff review, approve, and inspect repairs to all on-site wastewater treatment systems. Plans are also reviewed and approved for public sanitary sewer extensions for realty subdivisions, commercial properties and for new and replacement sanitary sewer projects.

Temporary Residences and Institutions (5806050000)

Migrant labor camps, children's camps, day care centers, temporary residences and mobile home parks are inspected, and permits issued where required, to ensure housing and sanitation standards are followed. Violations are recorded and enforcement actions are taken to correct any deficiencies. Additionally, this section also handles complaint response for smoking violations at work sites and public places and the enforcement of New York's Adolescent Tobacco Use Prevention Act.

Food Protection Service (5806060000)

The goal of this program is to reduce the incidence of foodborne illness through activities that eliminate or decrease significant public health hazards and improve sanitary conditions in food service establishments. Outcome measures include the number of confirmed outbreaks/cases of foodborne illness in regulated facilities per year.

Food Worker Certification Program (5806070000)

This food worker certification program is designed to ensure at least one trained food handler on record for all food service establishments to oversee the food handling practices of employees. An implementation of a phased-in expansion has now begun to include a two-level training requirement for Food Handlers in Charge (Level 1) and Food Workers (Level 2). New operators are now required to have trained workers present at all times during the operation of the kitchen and bar facilities.

Sanitation, Housing and Rodent Control (5806080000)

The general Sanitation and Housing section investigates complaints and initiates actions to ensure that housing and commercial sanitation violations are corrected. Additionally, this section responds to animal bite complaints, and if required, has samples analyzed for rabies. Rabies clinics for household pets are also conducted annually. Rabies and animal bite activities have significantly increased in Monroe County since the arrival of raccoon rabies. Rodent complaints are also investigated and rodent bait packs are provided to the Department of Environmental Services for baiting the combined sewer catch basins in the City of Rochester.

West Nile Virus Control (5806090000)

In 2000 the West Nile Virus (WNV) spread to western New York counties. The Department of Public Health will continue surveillance and initiate additional prevention activities as necessary. The goal of this program is to protect Monroe County residents from the threat of WNV by using risk reduction, including education, outreach and surveillance.

Environmental Assessment (5806100000)

The goal of this program is to analyze and provide information on health impacts related to indoor and outdoor air quality, releases of hazardous materials and exposure to toxic substances, guidance during and reporting of incidents, sewage discharges, public bathing facilities and public and private water systems for Monroe County residents.

Lead Programs-County Support (5806110000)

This section includes county funding in order to screen children for possible lead poisoning and ensure that medical and environmental follow-up occurs as required. Supplemental grant funding is represented within the Child and Family Health Grant (division 5805). The goals of this program are to protect young children from exposure to lead hazards by providing leadership for activities within the county by: serving as a resource for current information; educating health professionals and the community at large; providing case management and ensuring professional adherence to lead regulations; and providing environmental assessment and enforcement of lead hazard reduction measures to ensure a lead safe environment for children of Monroe County Outcome measures for this program include the percent of children screened who have a confirmed elevated blood lead level.

Grants include the federally funded Lead Based Paint Hazard Control Grant. Other grants will be appropriated as received.

Environmental Quality Planning and Monitoring (5806120000)

The goal of this program is to improve and protect the quality of the environment in Monroe County. Staff included in this section support the Environmental Management Council, the Water Quality Coordinating Committee, Water Quality Management Agency, Ontario and Durand Beach Monitoring and Monroe County Watershed groups.

Grants including the Bathing Beach Grant, the Rochester Embayment Remedial Action Plan Grant and the Finger Lakes-Lake Ontario Watershed Protection Alliance Grant are used to support water quality programming. Additional grant funds will be appropriated during 2008 as received.

DEPARTMENT: Public Health (58)
DIVISION: Special Children's Services (5807)

DIVISION DESCRIPTION

Special Children's Services are state-mandated preschool programs for children who are diagnosed with or at risk of developmental delays. Through early intervention the functional abilities of the children are maximized, and the need for costly services later in childhood is reduced.

The two programs in this division are the Early Intervention (EI) Program, for children ages birth up to three years of age, and the Education for Children with Disabilities (ECD) Program, for children three to five years of age.

The 2007 Amended Budget is presented in the Department of Human Services, Child and Family Services (5104).

BUDGET SUMMARY

SECTION DESCRIPTIONS

Early Intervention Program (5807010000)

The goal of this program is to ensure that families of infants and toddlers with suspected or confirmed developmental delays receive services appropriate to their needs through the provision of service coordination and development of Individual Family Service Plans.

Staff provide initial service coordination and municipal oversight to children and families eligible for the program to ensure that the child's and the family's needs are met and that the Early Intervention services provided are effective and appropriate. Outcome measures include the percent of children with an Individualized Family Services Plan developed within 45 days and who receive services within 3 weeks of the plan date.

Education for Children with Disabilities Program (5807500000)

The goal of this program is to ensure that children ages 3 - 5 with disabilities receive special education services appropriate to their needs in a cost effective manner.

Ages 3 - 5

Under section 4410 of the Education Law, school districts are responsible for eligibility and placement determinations for preschool children. Committees on Preschool Special Education (CPSEs) have been established in each school district. Evaluations are conducted and service recommendations are made by preschool program providers. Based on changes in federal law, emphasis is now being placed on serving children in "the least restrictive environment" that will meet their needs. Based on their needs, children are served along a continuum, beginning with community-based related services and moving toward a special class, five days a week, for the most involved children.

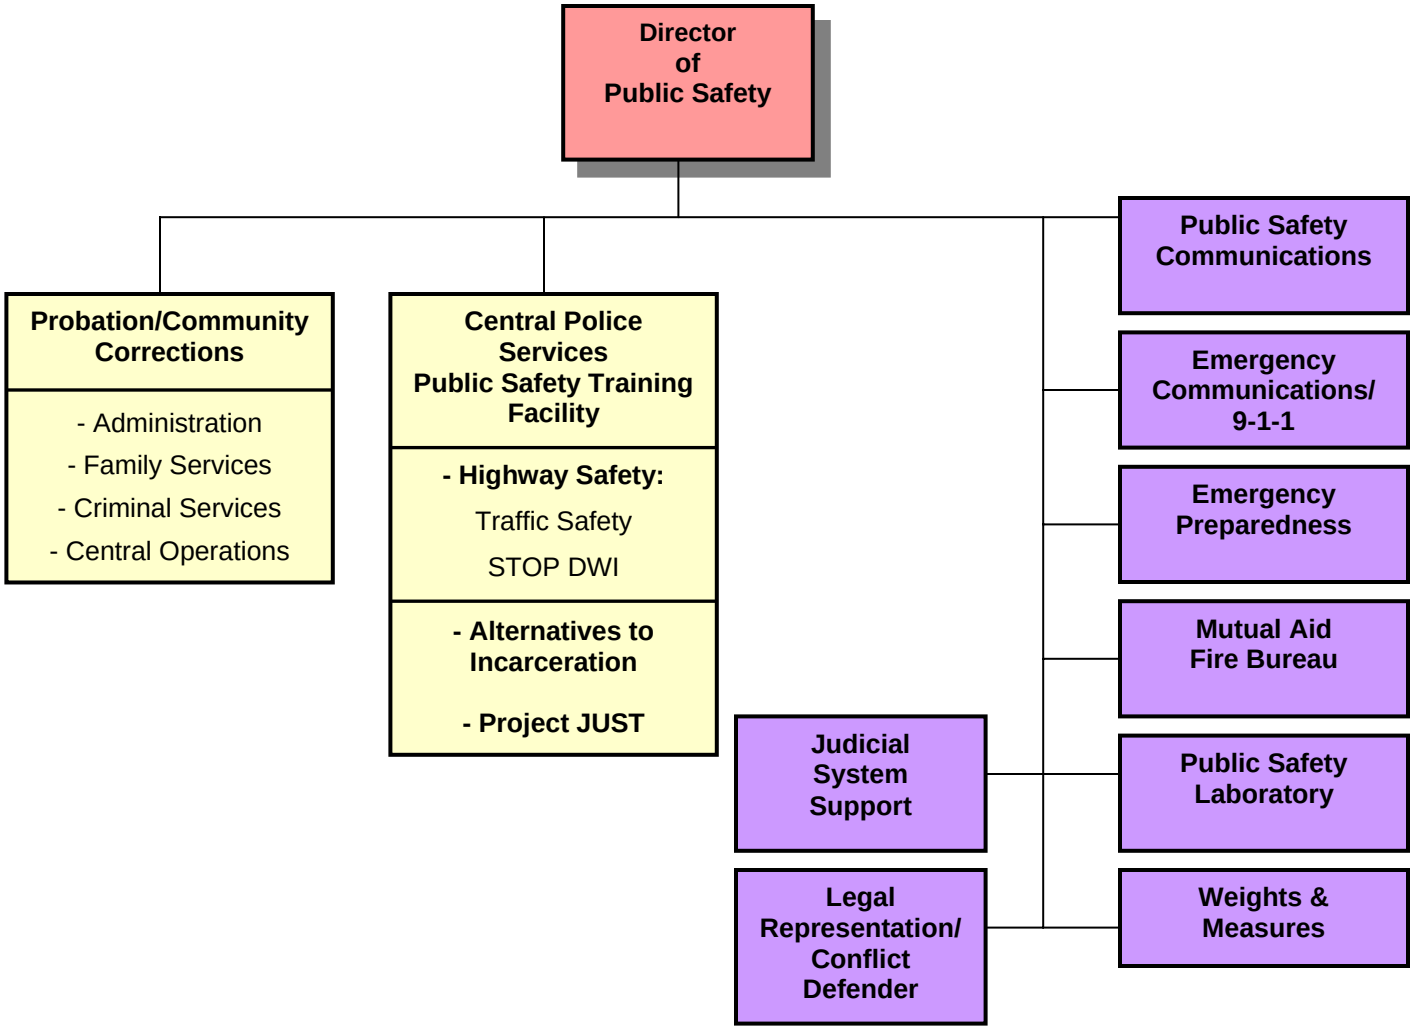
Ages 5 - 21

School-age children receiving special education may be eligible for the summer program as determined by the school district Committee on Special Education (CSE). On an annual basis, 10% of these costs are charged back to the county by the State Education Department.

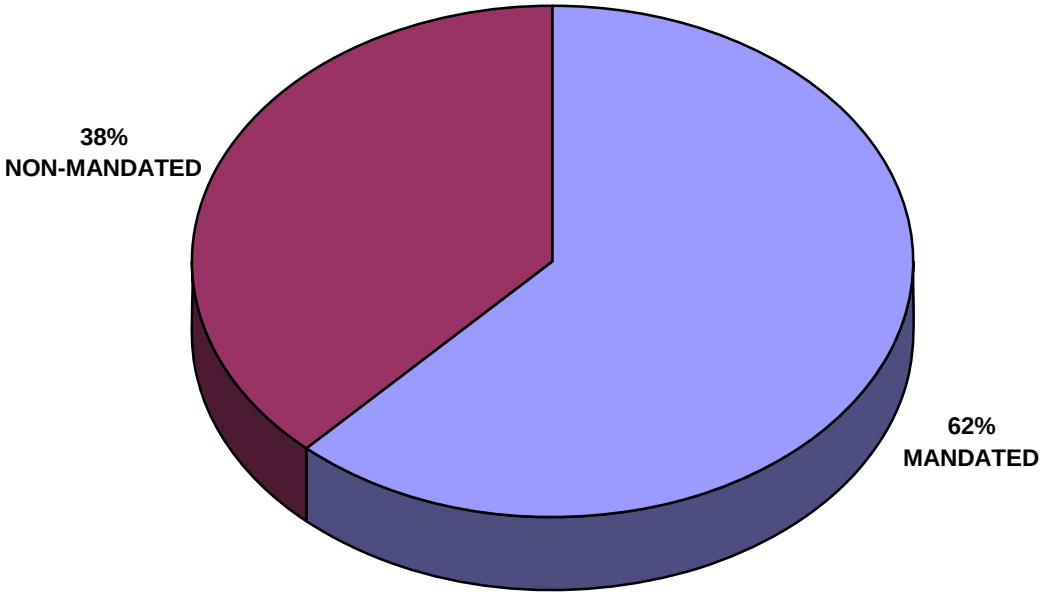
Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Percent of infants/toddlers in EI with an Initial Family Services Plan (IFSP) completed within 45 days of referral	59%	80%	80%
Percent of infants/toddlers who receive services within 3 weeks of the service plan	88%	85%	85%

PUBLIC SAFETY (24)



PUBLIC SAFETY
2008 MANDATED/NON-MANDATED



The percentages above do not reflect the deduction of Service Chargebacks.

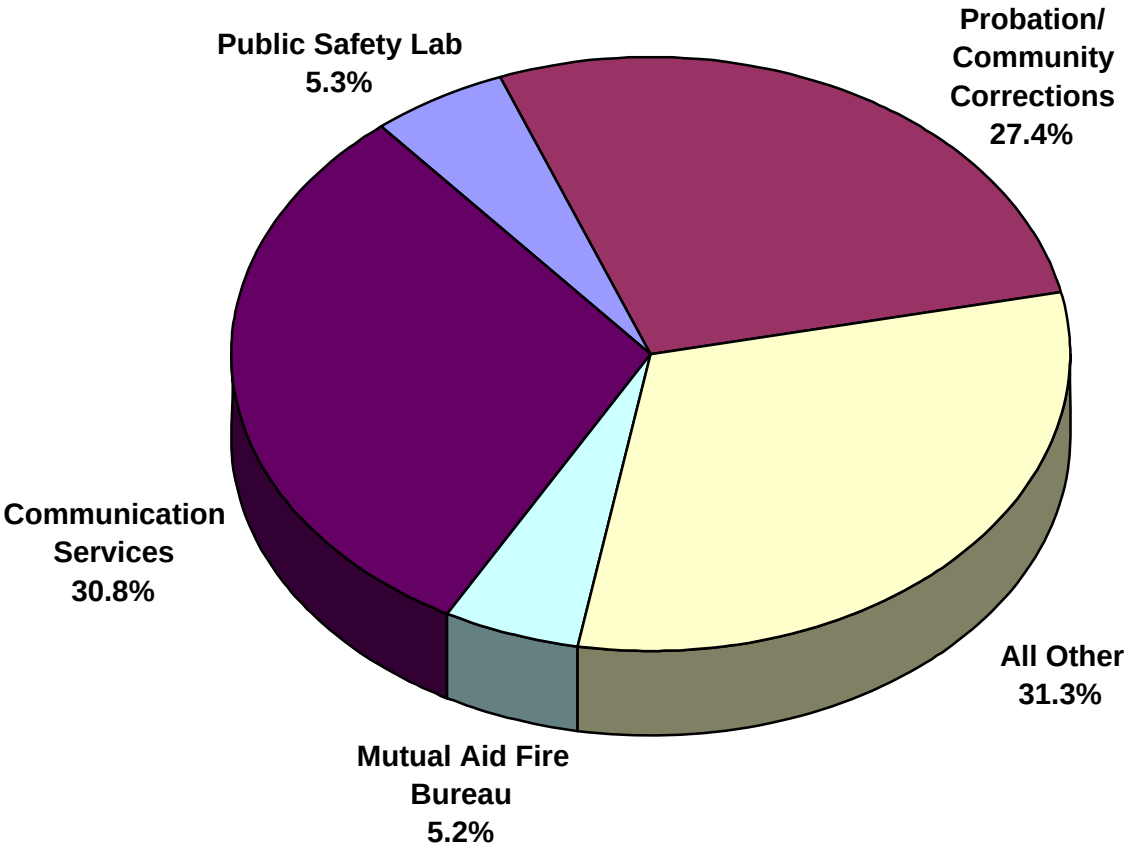
NON-MANDATED		**22,243,457**
MANDATED		**35,703,048**
	SUBTOTAL	**57,946,505**
DEBT SERVICE		**3,725,058**
SERVICE CHARGEBACKS		**(1,868,305)**
	TOTAL BUDGET	**59,803,258**

Public Safety incorporates the State mandated services for: Judicial System Support, Legal Representation, Probation, Alternatives to Incarceration, Emergency Services, and Weights & Measures. The Federal Highway Safety Program is also in this department.

As local, non-mandated services Public Safety provides: Jail Utilization Systems Team (Probation), STOP-DWI, Public Safety Communications, 9-1-1 Emergency Communications, Central Police Services, Mutual Aid Fire Bureau and Public Safety Laboratory (Crime Lab).

PUBLIC SAFETY

2008 Operating Budget - $54,149,758
2008 Grant Budget - $5,653,500



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Public Safety (24)

DEPARTMENT DESCRIPTION

The Department of Public Safety consolidates and manages functions related to the provision of public safety services. The offices of the Sheriff, District Attorney and Public Defender, which are headed by elected or County Legislature-appointed officials, are managed as separate departments.

The Public Safety department has as its largest component the division of Probation/Community Corrections. Other Public Safety services include: 9-1-1 Emergency Communications, Office of Emergency Preparedness, the Mutual Aid Fire Bureau, the Public Safety Laboratory, Weights and Measures, Public Safety Communications and Central Police Services which includes Traffic Safety, STOP-DWI and Alternatives to Incarceration. The Assigned Counsel/Conflict Defender unit and Judicial System Support for the Unified Court System and the State Appellate Court are also included.

The Public Safety Department provides support services and tools to the first responders through coordinated efforts with all agencies and disciplines to ensure their protection in serving the entire community.

Mission

The Monroe County Department of Public Safety, through the effective, dedicated efforts of its divisions, contractors, employees, volunteers and the community, provides education, prevention, technical support, inter-agency coordination and direct services that meet or exceed the expectations of the courts, individuals, and the public and private agencies receiving these services in order to enhance the quality of life in Monroe County.

2007 Major Accomplishments

- Emergency Communications/911 was selected as the Outstanding 911 Call Center of the Year by the United States E-911 Institute
- Emergency Communications has replaced all of the 'back-up' TTY machines and has coordinated the use of the Shot Spotter system to detect gun shots and triangulate their location
- Mutual Aid Fire Bureau implemented a transition plan to re-organize the county Fire Investigation Unit
- Mutual Aid Fire Bureau formed a partnership with Rochester Fire Department to coordinate the Emergency Training and Information Network
- Coordinated and conducted training efforts to ensure compliance with National Incident Management System (NIMS), a national standard that establishes uniformity and nationwide consistency for prevention, preparation, response and recovery for domestic incidents, regardless of cause, size or complexity
- Crime Laboratory implemented a data sharing network with the District Attorney's Office to avoid evidence analysis for cases that will not go to trial
- Crime Laboratory Master Plan was developed in conjunction with Monroe County Environmental Services and LaBella Engineering for planning for new lab construction by County Executive Maggie Brooks
- Public Safety Communications coordinated the installation of antenna towers for the replacement of law enforcement voice communications system to provide effective, reliable communications to responders and to comply with Federal Communications Commission (FCC) narrowband regulations
- Public Safety Communications staff installed infrastructure and programmed user equipment for the final phase of the new digital two-way paging system installation. This technology allows the responder to acknowledge a message with a variety of responses, enabling an Incident Commander to know which resources will be available on scene
- Developed and updated a Communications Strategy jointly with Information Services and Environmental Services to ensure current and future procurements are consistent with the vision; an Interoperability Communications Plan has been initiated and drafted to encompass a consistent mutual aid responder network, terminology, protocol, and procedure
- Public Safety Communications procured trailers for towers and generators via a grant for cost-effective mobility

- Central Police Services worked jointly with the police agencies in research, testing, and potential funding opportunities for mobile application technology

- Through a Byrne Justice Department Grant, the County Executive hosted a conference entitled "Delete On-Line Cruelty: A Community Summit on Cyber-Bullying" which hosted professionals from school districts, law enforcement, and preventive agencies, parents and children to educate and inform on the issue of cyber-bullying, the impact on youth and families, and how a community can address cyber-bullying and keep children safe

- STOP DWI secured a Responsible Beverage Service Program grant to reduce alcohol related crashes involving serious injury and death by providing training to problem establishments noted for continuing to serve alcohol to already intoxicated persons

- Monroe County Executive Maggie Brooks launched the county's first ever Prom Safety Campaign aimed at students and parents to make the right choices about alcohol and other drugs on prom night

- Probation continued to participate in "Project IMPACT", a joint effort in law enforcement to combat gang violence and activity

- Conflict Defenders' Office relocated to Irving Place to avoid conflicts as the Sheriff's Office will be moving into the County Public Safety Building

- A consultant was selected for the Computer Aided Dispatch replacement project

- The County Executive authorized the Monroe County Animal Emergency Response Plan as an appendix to the Comprehensive Emergency Preparedness Plan to achieve compliance with Federal and State mandates

2008 Major Objectives

- All Public Safety divisions will strive to reduce the backlog of services

- Mutual Aid Fire Bureau plans to expand the goals of the Special Operations (weapons of mass destruction, hazardous materials) Unit to include and encourage more inter-agency cross training with the City of Rochester, Kodak Fire, Xerox, and other community responders

- Mutual Aid Fire Bureau will explore the potential partnership with New York State Office of Fire Prevention to provide regional fire training initiatives at the Public Safety Training Facility (PSTF) for out-of-county fire departments and will also pursue building a regional technical Search and Rescue Training Site at the PSTF

- Public Safety Communications will complete full deployment and implementation of the new digital law enforcement voice communications system

- Computer Aided Dispatch (CAD) Replacement project team, consisting of members from the Sheriff's Office and Information Services, will work with the consultant to complete the assessment, design, request for proposal development and review, recommendation and procurement phase of the system replacement

- Public Safety will finalize and institute a county-wide interoperability communications plan

- STOP DWI will appoint a consultant to perform surveys, produce data and analysis to complete the requirements of the Responsible Beverage Service program grant

- Probation will explore the opportunity to convert data operations to the new Case Load Explorer software for integration of information across New York State Probation agencies

- Monroe County will continue Homeland Security and NIMS efforts, obligations and standards that establish uniformity and nationwide consistency for prevention, preparation, response and recovery for domestic incidents

- Monroe County will continue to work with Public Safety agencies to develop and staff a consolidated Incident Management Team (IMT) to support community response to increase effectiveness and efficiency of local trained personnel. An Incident Support Team for organizing community resources and expertise for centralized emergency notification and deployment will be designed to support the IMT

- Weights and Measures will conform to the recently enacted New York State Pricing Accuracy Law which will verify the shelf tag to the price scanned at the register

- Monroe County will explore regionally expanding public safety communications and other potential resource sharing opportunities with surrounding counties to enhance interoperability by using the most prudent method of providing services through the centralization of functions

- Public Safety Executive Committees will update and structure policies related to communications systems

- Comprehensive Public Safety Communications Project Team will explore options and plan for mobile data communications system infrastructure, including further research into the types and uses of technology and use of Automatic Vehicle Location software

- Public Safety Mobile Communication Unit will be available to supply mobile interoperable communications

- Continuation of lobbying efforts to pursue funding for construction and site selection of a new Crime Laboratory

- STOP DWI funds, as approved by the Technical Advisory Panel, will be used to purchase an Enforcement Van for DWI check points and blood alcohol breath analysis for the Monroe County Sheriff's Office to be utilized by all law enforcement agencies upon request

DEPARTMENT: Public Safety (24)
DIVISION: Office of the Director of Public Safety (2401)

DIVISION DESCRIPTION

Created by County Charter, Section C6-18, the Director of Public Safety administers the county's provision of public safety services with the exception of those services provided by the Sheriff, District Attorney and Public Defender. The Director develops county public safety policy and promotes cooperation among county, municipal and state public safety agencies and officials. The Director also chairs the Monroe County Criminal Justice Council and co-chairs the Public Safety Sector Team. The Office of the Director provides budgetary review, grant coordination, technical assistance, planning guidance, training services and management for all divisions of the department.

DEPARTMENT: Public Safety (24)
DIVISION: Legal Representation/Conflict Defender (2402)

DIVISION DESCRIPTION

The Legal Representation division was conceptually developed through collaboration with the Monroe County Bar Association reflecting an enhanced effort by the county to coordinate and fund the work of private attorneys who are appointed by the courts to represent indigent clients. While the Public Defender's Office usually provides legal services to indigent persons, occasions often arise in which two or more such individuals are accused of involvement in the same crime. Providing representation to more than one co-defendant can result in a conflict of interest for the Public Defender's Office. To avoid that possibility, the courts assign private attorneys who receive compensation as regulated by state law. This is a state mandated program.

To better serve the client community and to reduce the increased costs associated with an increase in rates paid to private counsel effective January 1, 2004, the county and the Monroe County Bar Association amended the Joint Plan for Conflict Assignments to create a Conflict Defender Office. This office employs attorneys to represent clients in conflict cases in Family Court, misdemeanor cases in Rochester City Court and all Appellate Courts. Other expenditures involve payment of attorney fees, preparation costs for legal transcripts, and expenses associated with providing expert testimony (psychiatric evaluations, etc.).

Beginning January 1994, expenditures from the Legal Representation account also involve payment to foreign language and hearing impaired interpreters for services rendered in the local criminal courts. Under Judiciary Law, the county is responsible for payment of these expenses.

DEPARTMENT: Public Safety (24)
DIVISION: Office of Probation - Community Corrections (2403)

DIVISION DESCRIPTION

The Office of Probation - Community Corrections (Probation) provides a multitude of state mandated services. Among the activities performed are preliminary services and investigations of all eligible clients of Family Court, investigation services to the Criminal Courts and supervision and treatment services to all clients sentenced to probation. All Probation efforts have the underlying objective of identifying services and programs that encourage the offender to become a law-abiding citizen.

Probation is dedicated to assisting the courts in rendering decisions and then enforcing the orders of the Court. Officers are responsible for client screening, initial risk and needs assessment and recommendations prior to final court disposition. Officers enforce the conditions of the probation sentence, refer clients to treatment and monitor progress and report violations to the sentencing court. For appropriate persons, programs exist as alternatives to traditional Court processing. Staff collaborates extensively with the state regulatory agency, NYS Division of Probation and Correctional Alternatives, along with law enforcement agencies, victims, community/neighborhood organizations, governmental entities, judges, schools, treatment agencies and offenders and families to enhance the public safety of Monroe County.

Probation staff is employed in various units: Administration, Family Services, Criminal Services and Central Operations. Probation Officers and other staff perform field work with offices located at 80 West Main Street, the Hall of Justice, Monroe County CityPlace, 1099 Jay Street, and various schools, neighborhood centers and police stations.

SECTION DESCRIPTIONS

Administration (2403010000)

Responsibilities of the Administration Office include financial planning, staff training, personnel administration, contract and grant administration and the collection and distribution of restitution, court-ordered fines, surcharges and fees.

Family Services (2403020000)

Family Services Officers provide a variety of services to judges, families and youth relating to Juvenile Delinquency (JD) arrests (ages 7-16) or Persons In Need of Supervision (PINS) complaints and petitions (ages 7-18). Probation is designated as Monroe County's PINS lead agency to assist families, schools and police in seeking help for ungovernable or truant youth. Through a collaborative Probation/Human Services/Mental Health team, referred to as the Family Access and Connection Team (FACT), officers and staff provide assessment, triage and diversion/supervision services in lieu of Family Court petitions to avoid costly and ineffective detention and institutional placement. A Diversion Unit provides similar court/detention/placement alternatives for JD youth and more intensive intervention with PINS youth. Probation officers conduct pre-dispositional investigations on adjudicated JD and PINS youth, assisting Family Court judges in making educated decisions relating to institutionalization or community based dispositions.

Juvenile Intensive Supervision Program (JISP) officers, through a cooperative agreement with the Monroe County Department of Human Services, provide in-home, community-based intensive supervision for JD and PINS youth placed on probation as an alternative to institutional placement. Other specialized services include Alternative to Placement Program, similar to JISP, which provides intensive services to youth and their families residing in the northeast quadrant of the City of Rochester. An Aftercare Supervision team provides discharge planning and intensive supervision of certain JDs released from the State Office of Children and Family Service placement. Enhanced Supervision Program Officers provide intensive supervision to adjudicated JDs, while the Substance Abuse Specialist offers intensive service to substance abusing juveniles. The Juvenile Justice/Mental Health team identifies special needs and provides services to ultimately avoid formal court intervention or out-of-home placement. Numerous probation officers are out-stationed at Rochester City Schools.

The Domestic Violence Intervention Unit provides intake services and assists victims of domestic violence with the preparation of Family Court Orders of Protection. Probation staff also manage the Juvenile Justice Initiative, a collaborative venture with the local detention facility and the state Industry school, aimed at reducing recidivism. Efforts are concentrated on providing continuity in education, mentoring, counseling and vocational training. The Youth and Family Partnership (YFP) is a joint Probation/Human Services/Mental Health effort that engages care coordination techniques to handle high risk, mentally ill PINS youth who would otherwise be placed in residential care at significant county cost.

Criminal Services (2403030000, 2403040000)

Criminal Services consists of investigation units which conduct investigations and prepare pre-sentence reports based on court orders from Supreme, County, City or Town/Village Courts for all defendants convicted of a felony, all defendants whose sentence would exceed 90 days incarceration, all persons sentenced to probation and those convicted as an eligible youth prior to a determination of Youthful Offender status. Officers contact crime victims to assess their losses and report sentencing options and interview offenders to investigate legal, social, employment, mental health and substance abuse factors. Courts may also order pre-sentence investigations on any case they deem appropriate as judges rely on the information to make critical prison/jail/probation sentencing decisions. Jail pre-sentence investigations are completed within two weeks as part of the Project JUST (Jail Utilization Systems Team) initiative, expediting case processes and potentially the transfer of certain offenders from local incarceration to state prison (saving considerable county expense).

The Supervision Unit probation officers enforce the orders and conditions of probation as imposed by the sentencing courts. Most caseloads are generic and include a large and diverse group of offenders with varying levels of risk and need. One officer works exclusively with Mentally Ill & Chemically Addicted (MICA) offenders and the state's Mental Health Part of the state court system. Other probation officers specialize in welfare fraud and Youthful Offender supervision. The Rochester City School District provides classroom instruction within the Probation office to probationers who have been suspended from high school.

The state funded Intensive Supervision Program Unit (ISP) supervises high-risk felony offenders who have been diverted from commitment at the NYS Division of Correctional Services (DOCS). A similar program for misdemeanor offenders, Misdemeanor ISP, provides intensive monitoring and supervision of offenders who might be convicted of lower crimes, but nonetheless present a high risk to the community.

The DWI Unit supervises and conducts surveillance on multiple drinking-driver offenders who undergo an alcohol abuse assessment and are referred to treatment resources. Specialized teams provide intensive supervision of both sex offenders and domestic violence batterers with some subjected to Global Position System electronic monitoring.

Central Operations (2403050000, 2403060000)

This division provides services to both adult and juvenile offenders and supports operations of both the Family and Criminal Services divisions. The Electronic Monitoring team provides traditional monitoring (alerting an officer if the offender leaves an assigned location) and Global Position System monitoring (where probation officers constantly monitor the offender's location with PCs, laptops and hand held computers), allowing for swift response to any entry in an 'exclusionary zone'. Warrant officers specialize in locating and apprehending those juvenile and adult probationers who violate judicial orders and present a high risk to the community.

The Community Service Sentencing Unit provides positive alternatives to incarceration for non-violent offenders by requiring sentenced defendants and JDs to perform work without pay for public and non-profit agencies. An arson probation officer provides special expertise to this difficult offender population, working closely with preventive programs and arson investigators. The Project Safe Neighborhoods officer coordinates Probation's search protocol, enhancing Probation's ability to find and secure firearms and other dangerous contraband.

Probation has direct involvement with various programs to reduce violent crime and intervene with violent gang activity through collaborative law enforcement efforts such as the Governor's Operation IMPACT initiative, Operation Ceasefire, Operation Nightwatch and Project Exile. A probation field intelligence officer leads the agency efforts to gather information about probationer activity and shares it with police partners in an effort to prevent violence.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Amount of Restitution Collected	$557,686	$620,400	$620,400

DEPARTMENT: Public Safety (24)
DIVISION: Alternatives to Incarceration (2404)

DIVISION DESCRIPTION

Alternatives to Incarceration (ATI) programs are designed to provide safe options to costly jail detainment and are partially funded by state grants.

Services provided by Pre-Trial Service Corporation include:
Pre-Trial Release offers an alternative to money bail for defendants held in custody in the Monroe County Jail by determining eligibility and assisting released defendants in attending court. As an alternative to prosecution and incarceration for defendants at risk of cycling through the criminal justice system, the Pre-Trial Diversion Program offers assessment, counseling and referral services to eligible defendants, monitors client progress and provides reports to the court. The Enhanced Pre-Trial Services Program expands resources to provide staff for universal screening of all pretrial options, including bail expediting by monitoring defendants and sustaining court appearance rates. Graduated Restrictions serves defendants not released at arraignment through any other means by providing an array of supervised release programs including increased contact, urinalysis testing, monitoring treatment intervention, pretrial electronic home confinement and a Day Reporting Center. Some graduated restriction services for pretrial defendants are available to sentenced offenders as graduated sanctions.

Treatment Assessment Services for Courts (TASC)/Court Based Advocacy (CBA) provide case management services for appropriate pretrial and presentenced clients to participate in community-based alcohol, drug, mental health treatment programs and/or other necessary services in lieu of incarceration in jail or state prison.

The “Domicile Restriction Program” through Electronic Monitoring, is a sentencing alternative to incarceration for selected jail-bound offenders who are observed daily with electronic transmitters/monitors, random telephone calls and face-to-face home contacts.

BUDGET SUMMARY

*Measurement based on state's newly defined criteria; Jail Days Saved no longer applies to time spent on Electronic Monitoring (EM), but only time spent on EM if no jail time was included as part of the sentence

**Does not include cases managed by the Public Defender/Defender Based Advocacy Program

DEPARTMENT: Public Safety (24)
DIVISION: Highway Safety – STOP DWI/Traffic Safety (2405)

DIVISION DESCRIPTION

Monroe County's Special Traffic Options Program-Driving While Intoxicated (STOP-DWI) seeks to reduce the number of deaths and injuries resulting from traffic crashes caused by intoxicated drivers. The program emphasizes DWI enforcement, prosecution, and treatment for felony DWI defendants, public information and prevention education, and DWI data collection.

The Felony Diversion program is a voluntary, deferred prosecution program offering an opportunity to earn a reduced plea to defendants charged with Felony DWI. Clients are assessed, qualified and recommended for diversion, then referred, monitored and evaluated in treatment. The Pre-Trial Day Reporting program offers a sentencing option for those convicted of DWI through an intervention-focused approach via structured weekend classes addressing issues such as alcohol abuse, personal responsibility and reducing risk-taking behaviors.

The goal of the STOP-DWI unit is to educate residents of the county to understand the impact of intoxicated driving on their lives and the community by disseminating information to diverse audiences to help prevent intoxicated driving crashes.

The Traffic Safety Education grant provides funding for public information, education and enforcement programs to promote highway safety in Monroe County. The Office of Traffic Safety seeks to promote occupant restraint use, motorcycle, railroad crossing, bicycle, school bus and pedestrian safety. The goal of this program is to help the residents of our county understand the impact of traffic safety on their lives. Information is distributed among diverse audiences with the goal of preventing traffic crashes and resulting injuries and deaths.

DEPARTMENT: Public Safety (24)
DIVISION: Public Safety Communications (2406)

DIVISION DESCRIPTION

Public Safety Communications is responsible for the planning, operation, and maintenance of radio, data and microwave communications systems used by Monroe County departments, the City of Rochester, all municipal law enforcement agencies and most of the fire protection and emergency medical services in the county. Technicians routinely respond to service calls on user equipment and infrastructure, along with calls for on-scene communications during emergencies and special events. This division works comprehensively with Emergency Communications /911 and all public safety agencies to ensure the safety of the general public and responders through their most important tool: Communications. Public Safety Communications is responsible for the public safety community "Communications Infrastructure" 24 hours per day/7 days per week/365 days per year.

DEPARTMENT: Public Safety (24)
DIVISION: 9-1-1 Emergency Communications (2407)

DIVISION DESCRIPTION

The county funds the 9-1-1 Emergency Communications System and oversees the operation of the Emergency Communication Department (ECD). The ECD is the point of central reception and response to 9-1-1 dialed calls, dispatch of emergency equipment and relay or transfer of service calls to the appropriate public service agencies. Over one million dispatches are made to police, fire and emergency services each year. The City of Rochester operates the ECD under a contractual agreement with the county.

Through the Director of Public Safety, Emergency Communications administers the operating contract with the city, coordinates the participation of other public service agencies and administers subscriber agreements. They develop long range plans for system development and enhancement and utilize the 9-1-1 Operating Practices Board (consisting of government, public safety, private sector and citizen representatives) for advisory policy recommendations.

DEPARTMENT: Public Safety (24)
DIVISION: Proceeds of Forfeited Property (2409)

DIVISION DESCRIPTION

In 1987, the United States and New York State Forfeiture Acts established means by which property obtained through the commission of a felony may be forfeited to a governmental authority. The goal of both laws is to reduce the financial incentive for crime by depriving the criminal of the profits generated by illegal activities. The Monroe County Legislature adopted a resolution in 1987 for the receipt and disbursement of these funds.

Proceeds are deposited into specific trust funds in order to account for authorized expenditures. Those funds are then used to augment the annually budgeted law enforcement resources of the department involved in the seizure.

BUDGET SUMMARY

DEPARTMENT: Public Safety (24)
DIVISION: Judicial System Support (2410)

DIVISION DESCRIPTION

Judicial System Support includes funding for court-related services and programs. Under state law, the cost associated with housing the court system which includes building maintenance, utilities and other indirect charges, is a local responsibility. The state also requires that the county pay a fee to town justices for services related to the arraignment and preliminary hearing of felony cases.

DEPARTMENT: Public Safety (24)
DIVISION: Central Police Support Services (2411)

DIVISION DESCRIPTION

The Principal Central Police Services Administrator provides support services to assist the Law Enforcement Council to develop policies and coordinate strategies for the county's municipal police agencies: Rochester City Police; the Monroe County Sheriff's Office; Brighton, Gates, Greece, Irondequoit, Ogden and Webster Town Police; and Brockport, East Rochester and Fairport Village Police. Services include program evaluation, contract administration, joint purchasing, communication coordination, centralized information sharing and police officer training. All basic police recruit, in-service, management, supervisory, technical and specialized police training is performed for the local law enforcement agencies through State of New York University (SUNY) accredited Monroe Community College at the Public Safety Training Facility, located at 1190 Scottsville Road.

DEPARTMENT: Public Safety (24)
DIVISION: Mutual Aid Fire Bureau (2412)

DIVISION DESCRIPTION

The Mutual Aid Fire Bureau trains over 3,000 firefighters and officers in the 37 town, village and suburban fire districts outside the City of Rochester. Highly specialized volunteers are trained as members of the county's Hazardous Material (HAZMAT) Response Team, which is available twenty four hours per day, seven days per week. This HAZMAT Team is fully equipped and certified to respond to any chemical, nuclear or biological incident and conducts Weapons of Mass Destruction training with the Sheriff's Bomb/Hazardous Devices Unit and SWAT team, the FBI and US military. The county HAZMAT team has the distinction of being recognized by New York State as a regional response team in Western New York.

The Fire Bureau Administrator reviews and updates the Mutual Aid Fire Plan and responds to major fires and disasters with manpower, equipment and command post operations in compliance with the National Incident Management System (NIMS). The Fire Bureau assists Incident Commanders and Command Post operations in local community Fire Districts as Monroe County Fire Departments answer over 36,000 emergencies each year.

The Fire Bureau oversees the implementation of the county's Arson Control Plan, which was adopted pursuant to state law. This plan allows for development of public awareness programs to educate residents on the effects of arson on the community. The Fire Bureau provides support for fire investigation services, such as the Juvenile Fire Setter Intervention Program, along with positions in the District Attorney's Office, Sheriff's Office and Public Safety Laboratory, to investigate and prosecute arson crimes.

Expenses for the Mutual Aid Fire Bureau are reimbursed through the Local Government Services Charge, a component of the county property tax bill. Monroe Community College reimburses the county for Fire Instructor Training at the Public Safety Training Facility.

DEPARTMENT: Public Safety (24)
DIVISION: Emergency Services (2413)

DIVISION DESCRIPTION

In accordance with State Executive Law 2-B, the Office of Emergency Preparedness (OEP) executes Emergency Management services within Monroe County. The office delivers an all-hazards, comprehensive program of mitigation, readiness, response and recovery functions in accordance with professional Emergency Management standards. Program components are coordinated with towns, villages, the City of Rochester, county departments, Public Safety providers and non-government agencies.

State law (Chapter 708 of the Laws of New York State, 1981) requires utilities that operate nuclear reactors to pay fees that are used to enhance county resources. Emergency Services receives this funding to support public safety activities related to federal regulatory requirements for local government. Federal revenue supports both general Emergency Management program costs and specific initiatives.

DEPARTMENT: Public Safety (24)
DIVISION: Public Safety Laboratory (2414)

DIVISION DESCRIPTION

This Public Safety Lab is a regional crime laboratory serving an eight county area (Monroe, Genesee, Livingston, Ontario, Seneca, Wayne, Wyoming, Yates). The laboratory provides analytical and physical examination of a wide variety of material to be used as evidence in criminal cases, including all controlled drugs seized in the region. Testing and analysis done by the lab is divided into the following areas: Biology/DNA, criminalistics/trace evidence, drug and chemistry, firearms and fire debris. The staff gives technical aid and provides expert testimony to law enforcement agencies, the courts, and other governmental agencies in the region. This division also includes partial funding through the State Aid to Localities Program.

DEPARTMENT: Public Safety (24)
DIVISION: Weights and Measures (2415)

DIVISION DESCRIPTION

Weights and Measures performs the state-mandated service of consumer protection within Monroe County under the marketing laws of New York State. The objective of Weights and Measures is to verify that all commercial measuring devices including scales, petroleum/gasoline meters and taxi meters, conform to the standards certified by the National Institute of Standards and Technology. This division is also responsible for collecting samples of motor fuel for testing under the New York State petroleum-testing program and checking pre-packaged commodities.

The monitoring of commercial business enterprise standards requires frequent inspection and testing of all weighing and measuring devices within the county. Inaccurate measuring devices and meters are reported and ordered for repair by the inspectors. Civil penalties are imposed for non-fraudulent violations while fraudulent cases are referred to the County Attorney for prosecution.

In September 2006, the Retail Pricing Accuracy Law was enacted to expand enforcement duties to ensure establishments that use scanner devices for purchases that shelf tag and registered price match correctly.

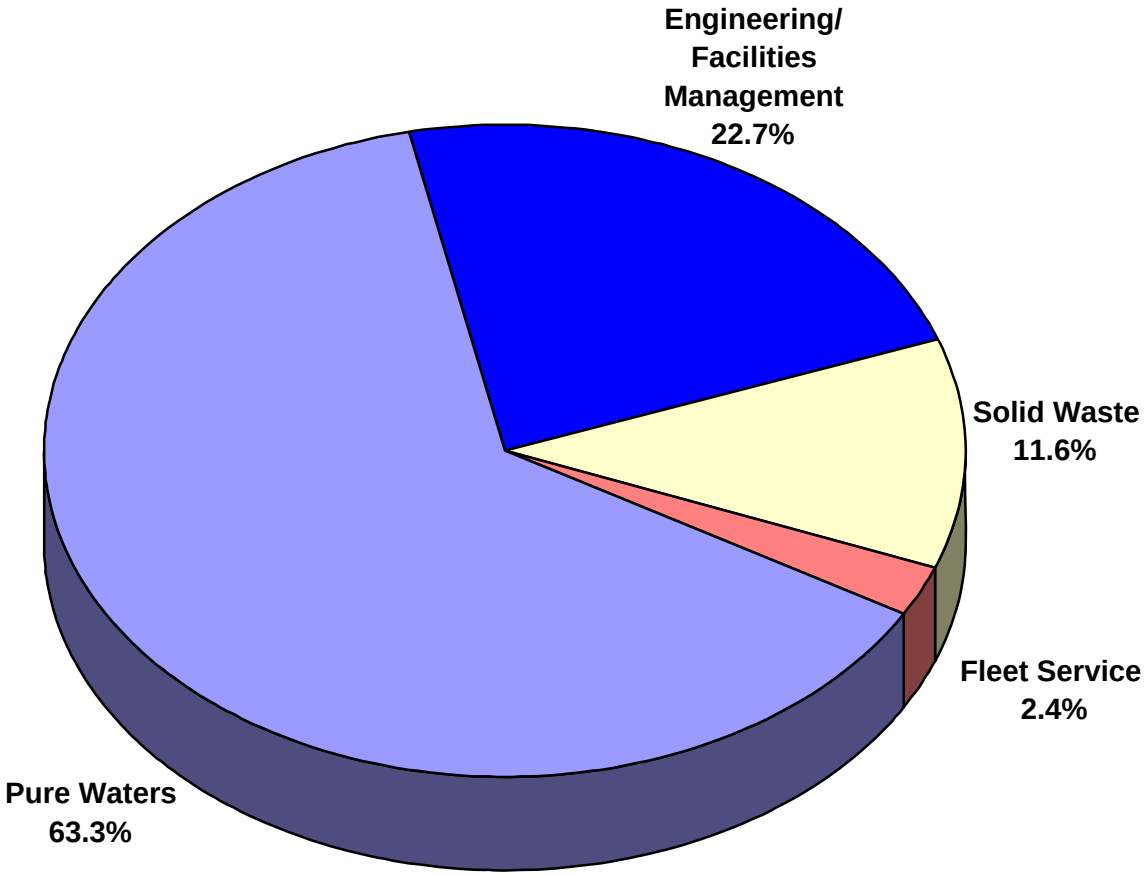
	TOTAL BUDGET	**85,038,864**

Mandated services for the Department of Environmental Services are the Division of Pure Waters and the Division of Solid Waste-Recycling. These are mandated per state and federal laws.

The non-mandated services provided are the Division of Engineering and Facilities Management, the Division of Solid Waste (with the exception of Recycling) and the Division of Fleet Services.

ENVIRONMENTAL SERVICES

2008 Budget - $85,038,864



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Public Works Sector - Environmental Services (84)

DEPARTMENT DESCRIPTION

In 1992, Solid Waste Management and Pure Waters were combined to form the Department of Environmental Services.

During 1996, the Division of Engineering was created as a result of the decentralization of the Department of Engineering. As a part of the county's cost saving measures for 2003, the Department of Facilities Management and the Division of Engineering were merged. This consolidation results in reduced administrative and overhead costs. Centralizing these services provides greater flexibility in providing the necessary services associated with building operations and capital project management.

Proper disposal and management of waste materials from water and solid waste are the most basic aspects of environmental protection. The sheer magnitude of the wastes generated by our society from residences and industries demands a coordinated, comprehensive approach to the problem. The Monroe County Department of Environmental Services' total concept approach to waste management combines advanced wastewater and solid waste management in one sophisticated organization. The department's progress is the result of dedicated individual effort and close cooperation on the part of industry, federal, state and local governments.

The Division of Pure Waters' treatment plants produce wastewater effluent which has consistently met state and federal standards for water quality. The department's mission is to protect the environment through effective programs of waste management and abatement. The department strives toward a standard of excellence for clean water, pollution control and effective solid waste management.

The department's wastewater treatment system and solid waste programs stand as evidence of the area's commitment toward a clean environment and economic stability. The benefits of these investments are obvious as sport fishing returns to Lake Ontario and tributary creeks.

The future role of the department will be to continue to provide dependable wastewater treatment and solid waste disposal for area homes and businesses at the lowest possible cost.

Effective toxic reduction in both the wastewater and solid waste streams will become increasingly important for the success of the department programs.

The department will be challenged in the coming years. Meeting new environmental standards with existing facilities will require careful planning for new processes and construction. An aging sewer infrastructure is being given the attention it deserves. The department's ongoing effort in inflow and infiltration reduction planning and efficient collection operation has laid the ground work for future efforts.

The success of department programs will be a reflection of our efforts to communicate the environmental and economic needs of our community.

Mission

The Department of Environmental Services manages a viable infrastructure to enhance the environment, to preserve natural resources and to protect the public health of our community. This is accomplished by effectively and efficiently using the waste disposal facilities under our charge, providing programs of environmental education and public awareness, evaluating and implementing new technologies that are cost effective and environmentally beneficial, recruiting and training an enthusiastic and competent work force and ensuring that infrastructure, services, and resources meet the demands of economic growth.

2007 Major Accomplishments

- Implemented a comprehensive Energy Performance Contract at Monroe Community Hospital
- Completed and began operation of the Mill Seat Power Plant Landfill Gas Facility while securing a 30-month power sales agreement with NEPOOL (New England Power Pool) to purchase electricity
- Implemented an Energy Improvement Program for all county operated buildings to meet reduction targets of the County Executive, and adopted a County Green Building Policy
- Completed the first phase of Frontier Field structural improvements and initiated the field replacement phase which will be completed in 2008
- Designed and awarded contracts for improvements at Monroe Community College's (MCC) Wolk and PAC Centers
- Executed an inter-municipal agreement with Spencerport to facilitate the construction of a pump station and forcemain project which will divert village wastewater flows from the Village to Pure Waters
- Initiated major Pump Station Improvement projects to upgrade Riverton, Clinton / Keeler, McEwen, Pattonwood, Riverdales, and Trolley Pump Stations (PS)
- Installed 800 feet of new storm sewer on Kendrick Road
- In partnership with Kodak, rehabilitated of 15,000 feet of sewers in Kodak Park South area and finalized public dedication to the Northwest Quadrant Pure Waters District
- Constructed new communications towers for Public Safety
- Initiated projects to restore the Lamberton Conservatory House and Warner Castle
- Created additional wetlands at Black Creek Park and completed clean up of Brewer Street Rock Ledge
- Developed and implemented an Illicit Discharge Detection and Elimination Program, including the mapping of the county's stormwater discharges
- Conducted comprehensive I/I Studies in Trolley Blvd Basin and Culver/Clifford Basins
- Constructed improvements to the Resource Recovery Facilities (RRF) Transfer Station implementing a unattended weigh scale system, and, in conjunction with Metro Waste, conducted an electronics recycling collection at the facility
- Implemented new education outreach curriculums and conducted numerous workshops dealing with waste reduction, water quality, energy conservation and green energy, and also held a "Careers in Construction" Day at Fleet Center
- Relocated the Grit Forcemain and constructed new piping and structural improvements at the Odor Abatement Building at F.E. VanLare Treatment Facilities (FEV), and installed a biofilter piping system at the Northwest Quadrant treatment facility (NWQ)
- Completed a Master Plan Study for the Crime Lab project
- Completed the Irondequoit Lakeside Multi-Use Trail Project
- Installed a Green Living Roof at the Zoo Admin Building

2008 Major Objectives

- Complete Frontier Field Playing Field Replacement Project in time for 2008 season
- Complete the Energy Performance Contract at Monroe Community Hospital
- Implement a Budget Process and work activity tracking mechanism in the Hansen maintenance management system for the Facilities Construction Services Division
- Construct and begin operation of the new Ethanol Plant at High Falls Brewery
- Relocate Building 13 from the Rochester Operation Center (ROC) to Fleet
- Complete Phase II construction at the county's Public Safety Bldg.
- Install the auxiliary centrifuge at the NWQ Wastewater Treatment Plant
- Begin phased Replacement of the Aeration Equipment at the FEV Treatment Facility
- Complete the Modifications to the Pattonwood Pump Station
- Evaluate and design upgrades for the Sludge Thickeners at FEV Treatment Facility
- Install a new Bar Raker system at the FEV Wastewater Treatment Facility
- Install Sprinklers and complete the renovations to reception housing project at the Monroe County Jail
- Complete building improvements at the MCC PAC Center (Athletic Field House) and the MCC Wolk Center (Excellence in Nursing)
- Complete construction and begin operation of the Spencerport Pump Station and Force Main
- Complete Riverton Pump Station and Force Main Improvements
- Complete Clinton/Keeler, McEwen, Pattonwood, Riverdales, and Trolley PS Improvements
- Design major upgrades at the Airport, Central Gates, and Southwest Pump Stations
- Complete Demolition and Rehabilitation of Densmore Chlorination Building, Panorama Chemical Feed Building, Tryon Park PS, Maplewood PS, and Glenwood Screen House
- Restore Lamberton Conservatory House and Warner Castle Restoration
- Develop and implement a I/I Abatement Task Force with the Town of Greece
- Install and bring on line 2 additional 800 KW Generators at the Mill Seat Landfill (MSL) LFG Energy Facility
- Investigate uses of Waste Recovery Heat from generators at the MSL LFG Energy Facility
- Update Solid Waste Management Plan and Continue to explore MSL Brew Road economic development feasibilities

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Solid Waste Management (8200)

DIVISION DESCRIPTION

Responsibilities of the division include the planning, development, operation, and maintenance of county solid waste handling facilities; the management of solid waste disposal and recycling operations; and coordination of the implementation of the county-wide Solid Waste Management Plan.

In 1992, the Department of Public Works was reorganized into four (4) separate departments. The Division of Pure Waters and the Division of Solid Waste Management were organizationally joined to form the Department of Environmental Services. The operations of both divisions are administered by the Director of Environmental Services. That position appears in account 8572010000, Pure Waters Administration.

BUDGET SUMMARY

SECTION DESCRIPTIONS

Administration (8201010000)

The Division of Solid Waste staff is responsible for implementing the "Monroe County Solid Waste Master Plan" (SWMP) and "Comprehensive Recycling Analysis" (CRA) which detail an environmentally sound and cost-effective plan for managing the county's solid waste through the year 2010. The CRA is performed every year and reports the county's progress, both public and private, towards a 40% recycling goal to the New York State Department of Environmental Conservation. The staff monitors industry trends, private facility development and regulatory changes, gathers waste generation data from facilities for reporting by the county, administers recycling operations including the contract for operating the county's Recycling Center, and provides customer service and billing.

Transfer/Haul/Disposal (8202010000)

This section deals with all expenses associated with transfer operations, hauling of solid waste to disposal sites and disposal tipping fees. The county is responsible for the disposal of refuse collected by the City of Rochester and also accepts refuse from local municipalities, private collectors operating in area towns and villages and individuals. All solid waste received at the Resource Recovery Facility (RRF) Transfer Station on Emerson Street is loaded onto hauling vehicles and taken to the Mill Seat Landfill. The county charges a tipping fee at the RRF Transfer Station which is utilized to pay for solid waste transfer, haul and disposal.

Mill Seat Landfill (8203010000)

The Mill Seat Landfill is designed and operated to preserve our natural resources and improve the quality of life in our community. On January 15, 2002, Waste Management of New York began operating the Mill Seat Landfill. Under the lease agreement, Waste Management assumed all the existing county debt, engineering and construction of additional liner, daily operations, honoring existing county host agreements and closure responsibility. In the event Waste Management meets a specific threshold, the county will receive a royalty. This section includes the expenses associated with host community agreements that the county must pay which are reimbursed by Waste Management. The permit will remain in the county's name.

Recycling (8204010000)

This section includes all expenses associated with recycling activities to meet the goals of the county's Solid Waste Master Plan. The county's Recycling Center has been operating since December 1992 to process recyclables and prepare them for market. Curbside recycling programs and drop-off centers will continue to operate to divert paper, glass, metal, and plastic from the waste stream to comply with the 1992 mandatory county-wide recycling programs. Recyclable markets are expected to remain stable; however, private facilities will continue diverting materials away from the county's Recycling Center. The economic feasibility of collecting and marketing additional materials is being studied in an effort to increase the percentage of materials recycled from the waste stream. The county will continue to assist local businesses, industry and institutions to reduce their waste with waste minimization and recycling plans; conduct a public education campaign to encourage residents and businesses to reduce their waste, increase recycling participation and reduce yard waste through grasscycling and composting; and increase recycling participation through compliance and enforcement of local recycling and reuse laws.

Municipal Solid Waste Processing Center (8205010000)

The Monroe County Resource Recovery Facility (MCRRF), designed to extract refuse derived fuel and other marketable materials from the solid waste stream, operated on a limited basis from 1979 until 1984, when those operations were suspended and the facility began operating strictly as a transfer station. Besides its use as a transfer station, it is also used to receive tires for reuse/disposal. In 2003, the Monroe County Legislature approved a service agreement with Metro Waste Paper Recovery U.S., Inc. for the Operation and Maintenance of the MCRRF. In addition to the Solid Waste Transfer-Haul Operation, the agreement included a Recyclables Processing Operation within the MCRRF. These operations consist of processing source separated recyclables, dry targeted industrial, commercial and institutional waste, construction and demolition debris, wood and pallets. The Metro Waste Paper Recovery U.S., Inc. agreement enhances recycling to the private sector and decreases direct county operational costs through diversion of materials that otherwise would be landfilled.

Debt Service (8204010000)

This section contains the payment of debt service on borrowings associated with the Household Hazardous Waste Facility, the Recycling Center and services related to the planning of other solid waste management facilities and programs identified in the county's Solid Waste Master Plan.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Recycling:			
Monroe County Recycling Center			
Commodities Marketed (Tons)	75,000	85,000	85,000
Private Recycling			
Commercial and Industrial (Tons)	680,000	675,000	675,000
Total Waste Recycled (As % Of Total Waste Stream)	51%	51%	51%

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Engineering (8300) and Facilities Management (8600)

DIVISION DESCRIPTION

As part of the county's cost saving measures for 2003, the Department of Facilities Management and the Division of Engineering were merged. This consolidation resulted in reduced administrative and overhead costs. Centralizing these services has provided greater flexibility in providing the necessary services associated with building operations and capital project management. A new computer-aided facilities management system is being used in conjunction with the other divisions of the Department of Environmental Services, to provide a central location for service calls, work order management, asset management and preventative maintenance.

The division also manages county-owned buildings and provides security, code enforcement, building maintenance, fire alarm and security maintenance, custodial, and office refurbishing services in the County Office Building, the Hall of Justice, the County Public Safety Building and the Health and Social Services Building. Heating, ventilation, and air-conditioning services are provided to the County Office Building, the Monroe Community Hospital, the Civic Center, the Blue Cross Arena, the Monroe Community College, the Monroe County Jail, the Monroe County Correctional Facility and the Greater Rochester International Airport.

While organizationally a division of the Department of Environmental Services, Engineering and Facilities Management operate as a central county resource. All expenses for management of leased and owned buildings are charged back to the residing departments. A portion of the cost of this division is billed to the operating budgets of customer departments and various capital funds.

BUDGET SUMMARY

SECTION DESCRIPTION

Engineering Administration (8301010000)

Engineering Administration provides professional services to county departments that require technical support in the areas of capital planning, design, construction, code compliance and surveying for capital improvements to county facilities and infrastructure.

Building Operations (8600010000)

This section provides supervision and administrative support for Building Operations, including Code Enforcement and Architect Services for the division. This section also oversees the county and contracted security forces. They also assist with the design of fire, intrusion, card access and CCTV systems.

Security (8605010000)

Security functions are budgeted under one unit. This provides for all contracted guards under one management structure, centralized cost accounting and control for security expenses, uniform procedures and increased flexibility in responding to emergency situations.

Fire Alarm/Security Maintenance (8610010000)

The Fire Alarm/Security Maintenance section provides repairs and maintenance to the county facilities that have card access, fire alarm and CCTV systems.

Record Retention (8615010000)

The Record Retention section is an off-site record storage facility that provides daily pick-up and delivery of records. The administration of this section is included in the Engineering and Facilities Management budget. All expenses associated with this budget line are charged back to the user departments by interdepartmental charges.

Maintenance and Construction (8670010000)

This section provides major repairs and renovations to county buildings. Specific undertakings include the repair of major systems such as plumbing, electrical, heating, ventilation, and air conditioning; the maintenance of interior areas; and the work required to provide alterations based upon changes in office space assignments.

Building Section Descriptions

Civic Center Complex (8620010000)

The Civic Center Complex consists of the Hall of Justice, County Public Safety Building and an underground parking garage. It is served by a central utility plan, which distributes electric power and water, and provides heat, ventilation, air conditioning, and fire protection. The Civic Center Complex also provides chilled water for air conditioning of the Blue Cross Arena.

Hall of Justice (8625010000)

The Hall of Justice is located in the County Civic Center at 99 Exchange Street in Rochester. It contains state, county, and city courtrooms and Judges' Chambers and other offices related to the judiciary.

Watts Building (8630010000)

The Watts Building, including the Ebenezer Watts House, was built between 1825 through 1827 and is located at 49 South Fitzhugh Street. It is the oldest surviving residence structure in downtown Rochester. This building contains part of the Sheriff's Office, the District Attorney's Office and the Ebenezer Watts Conference Center.

County Office Building (8635010000)

The County Office Building is located at 39 West Main Street in Rochester. This historic building was constructed from 1894 to 1896 as the third Monroe County Courthouse. It now houses the central administrative offices of county government. These include the offices of the County Executive, County Legislature, County Clerk, Board of Elections, Communications and Special Events, Human Resources, Finance, Law and Office of Management and Budget.

CityPlace (8640010000)

CityPlace is located at 50 West Main Street in Rochester. This historic building was constructed in 1904 through 1907 as the Duffy-McInnerney Retail Dry Goods Store. This building is leased by the county and contains several county offices including the Department of Transportation, Department of Environmental Services, administrative offices of Public Safety, Probation, and the Planning Department.

Iola Complex (8645010000)

The Iola Complex consists of a group of buildings located at the intersection of Westfall and East Henrietta Roads in Rochester, which houses the Children's Detention Center.

Iola Powerhouse (8645020000)

In 2003, the Iola Powerhouse was purchased under an agreement with Monroe Newpower. The budget consists only of remaining debt.

Health and Social Services Building (8650010000)

The Health and Social Services Building is located at 111 Westfall Road in Rochester. It contains the departments of Public Health and Human Services.

County Public Safety Building (8655010000)

In 2000, Monroe County purchased the City's Public Safety Building which allowed the city to construct a new Public Safety Building with frontage on Exchange Street. In June of 2002, the city vacated the former City Public Safety Building and the county began renovations. Now known as the County Public Safety Building, it is located at 85 Exchange Street. Currently, Parts I and II of City Court, portions of the Monroe County Jail and the Public Safety Laboratory are located in the County Public Safety Building. Once renovations are completed, the consolidated Sheriff's Headquarters and portions of the Probation Office will also be located there.

691 St. Paul St. (8660010000)

In 2003, the Department of Human Services offices at 255 N. Goodman St and 50 Genesee Street were consolidated at 691 St. Paul Street. Engineering and Facilities Management will provide the property management services for the building services.

150 E. Main St. & 37 S. Fitzhugh St. (8665010000)

These buildings were acquired through donation in 2003 and the county is responsible for maintaining these buildings until future use is determined.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)

DIVISION DESCRIPTION

Pure Waters was established by the County Legislature to implement the Pure Waters Master Plan to reduce the levels of pollution of Irondequoit Bay, the Genesee River, areas of Lake Ontario, and other waters of Monroe County to safe health levels. It consists of four geographic districts containing over 100 miles of major interceptor, 35 miles of deep tunnels, two wastewater treatment plants (Northwest Quadrant, and VanLare), 45 pump stations and the sewer collection systems for the Rochester and Gates-Chili-Ogden districts. Collection sewers in the other districts are operated, maintained, and funded by local municipalities.

The County Legislature, which also serves as the Pure Waters Administrative Board, oversees the districts, approves contracts, holds public hearings, establishes the annual rates and approves the division's annual operating budget. Support services, such as finance, personnel and purchasing, are provided by other county departments and expensed as interdepartmental charges. Engineering services, including project design, construction supervision, and operation and maintenance improvements, are provided by the county Division of Engineering either directly or through contractual services with private engineering firms. Debt service in each district repays the notes and bonds used to finance construction projects.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008

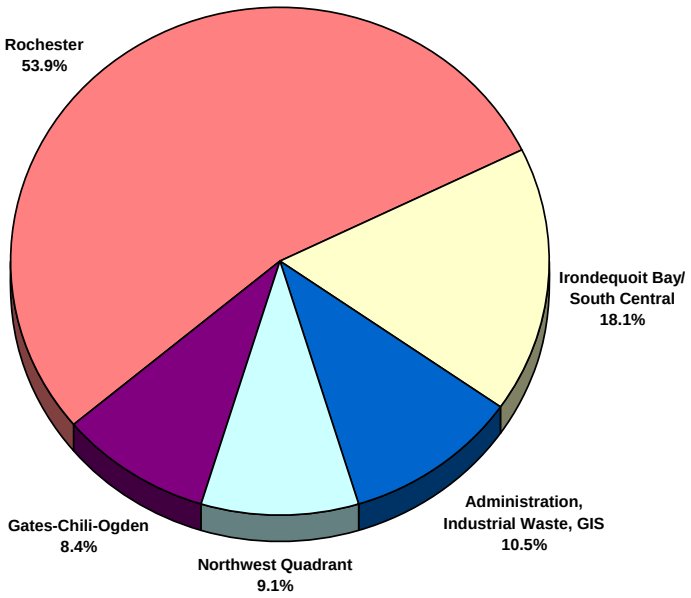
Rochester Pure Waters	2.47	1.34*	N/A	2.47	1.34*	N/A

*Per $1,000 Assessed Value
[A] Cents/1000 gallons of water consumption
[B] Rate per unit (single family house) or per $1,000 of assessed value in the City of Rochester
[C] Amount per parcel or tax account

Pure Waters includes four separate districts. The districts obtain the majority of their revenue from user charges. Suburban district charges have three components. The first component is the charge for operation and maintenance (O&M) in the district. This charge is in terms of cents per 1,000 gallons of water consumption. The second component is a charge to cover debt service (capital) costs in the district. This charge is in terms of a rate per unit, where a unit is equivalent to a single-family house. The final component is an amount charged per parcel or tax account. The Rochester Pure Waters District has only two types of charges. One is a water use charge which is in terms of cents per 1,000 gallons of water consumption. The capital component is a charge per $1,000 of assessed value.

APPROPRIATIONS BY PURE WATERS FUND
by Percent



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Administration (857201)

SECTION DESCRIPTION

Administration plans, controls, and directs the county's comprehensive sewage collection and treatment program. It develops and implements system-wide improvements to maximize efficiency while operating within state and federal regulations. The administrative staff also maintains over 225,000 customer files for revenue collection; receives and reviews all requisitions and the resulting purchase orders for supplies and materials; functions as liaison between Pure Waters operational units, vendors, and county support departments; develops the annual budget, monitors projected to actual results throughout the year, maintains required accounting records, and performs personnel and payroll functions for all districts.

Expense appropriations for department support services from county departments such as Finance, Human Resources, Information Services, and Law are reflected in interfund transfers. These and the other administrative expenses are proportionately charged back to the districts.

BUDGET SUMMARY

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Industrial Waste and Laboratory (857202)

SECTION DESCRIPTION

Industrial Waste enforces the Monroe County Sewer Use Law which regulates industrial discharges into the sewer system. The section has a federally approved pre-treatment program designating it as the control authority. The laboratory provides technical support and laboratory services to the two wastewater treatment plants: Frank E. VanLare and Northwest Quadrant, plus the pre-treatment program. This section also manages the Household Hazardous Waste Collection Program. Expenses in this section are supported by service charges to the user districts.

BUDGET SUMMARY

UNIT DESCRIPTIONS

Industrial Waste (857202010000)

This section has the responsibility to implement and provide enforcement of the local Sewer Use Law and Rules and Regulations as well as the USEPA Pretreatment Program, as required by the operating permits of the two wastewater treatment plants. This section permits, monitors, and inspects industrial users of the sewer system to assure compliance with local and federal regulations. This activity helps protect Monroe County employees, facilities and the receiving waters from potentially dangerous and toxic wastewater discharges. This section also performs sampling and monitoring activities associated with the operation of the Mill Seat Landfill and closure conditions for the Northeast Quadrant Landfill. This section is responsible for the operation of the Household Hazardous Waste Collection Facility.

Environmental Laboratory (857202020000)

This section provides central laboratory technical support and analytical capability to the two wastewater treatment plants, the Monroe County Health Department, the industrial waste control section, and the Mill Seat and Gloria Drive Landfills. The laboratory performs a variety of determinations on influent and full-treated wastewater, industrial discharges, groundwater, leachate, sludges, ash and other materials. The Lab also tests underground and surface water with special surveillance given to public and private drinking water supplies, public bathing beaches and closed landfills. Underground and surface water monitoring includes the Irondequoit and Lake Ontario West drainage basins, as well as the Genesee River and the New York State Barge Canal. The analysis is required by the operating permits of the treatment plants and landfill. This activity is permitted and regulated by the New York State Department of Health. The laboratory has the ability to determine pollutant levels of nutrients, heavy metals, purgeable organics and other pollutants for the department. The output of the laboratory documents the high levels of treatment and control the department is providing to protect and preserve our natural resources.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Geographic Information Services (GIS) (857203)

DIVISION DESCRIPTION

This division was created to develop and maintain a county-wide Geographic Information System. GIS promulgates standards for the development and distribution of data. It provides support to county departments and other agencies in the areas of GIS implementation, operation and applications development. In 2004, GIS was consolidated with Pure Waters.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Northwest Quadrant District (8573)

SECTION DESCRIPTION

The Northwest Quadrant Pure Waters District includes forty miles of interceptor sewers which collect sewage from municipal sewer systems, three major pump stations and a wastewater treatment plant. The treatment plant has an average capacity of sixteen million gallons per day (MGD) with a peak capacity of 45 MGD. The system serves a population of 150,000 in an area of 222 square miles including the towns of Clarkson, Greece, Hamlin, Parma, Sweden, and northwestern Gates.

The treatment plant continues to achieve a degree of pollutant removals higher than the standards established by state and federal health laws. Continuous process improvement controls operational costs and ensures process equipment is well maintained to assure that the plant continues to meet high standards.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008

UNIT DESCRIPTIONS

Special Expense Administration (8573010000)

This unit provides an accounting of district appropriations to pay for debt incurred for building sewage treatment facilities, for personnel of other districts assigned to jobs in the Northwest Quadrant District, and for interfund transfers.

Maintenance (8573020000)

The staff of this unit maintain the operational systems and the buildings and grounds of the treatment plant and pump stations. Through daily inspections and a preventive maintenance program, they seek to minimize the time during which equipment and systems are out of service.

Operations (8573030000)

Wastewater treatment plant operations involve two major processes: liquid handling and solids handling. The liquid process removes solid matter from raw sewage and produces sludge and treated water effluent. The solids process involves chemical treatment, dewatering and disposal at the mill seat landfill.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Environmental Indicators (Pollutant Removals)*:			
BOD (Biological Oxygen Demand) (25 ppm/85% efficiency)	7/92%	6/93%	10/92%
TSS (Total Suspended Solids) (30 ppm/85% efficiency)	8/94%	8/94%	12/92%
Phosphorus (1.0 ppm)	.9	.8	.9
Other Indicators:			
Flow Million Gallons/Day Treated	16.23	16.3	17.0
Tons Processed (Sludge) Metric Tons	4,350	4,560	4,600
Commodities Indicators:			
Electrical Cost per Million Gallons	$92.57	$92.75	$93.00
Natural Gas Cost per Million Gallons	$16.78	$17.71	$18.00
Polymer Cost per Million Gallons	$33.88	$30.16	$35.00
Sodium Hypochlorite Cost per Million Gallons	$10.86	$10.54	$11.00
Ferrous Chloride Cost per Million Gallons	$17.81	$17.67	$18.00
Bioxide Cost per Million Gallons	n/a	$3.75	$3.71

*Facility permits require a certain degree of removals in the concentration (parts per million-ppm) and percent removals. The indicator description at the left shows degree of removals required by the plant operating permit. The concentration shown is the upper allowable limit, and the percent removal is the lower allowable limit. Self-imposed standards for treatment are higher than those required by the permit.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Irondequoit Bay/South Central District (8574)

SECTION DESCRIPTION

In 1997, the South Central Pure Waters District was combined with the Irondequoit Bay Pure Waters District. Encompassing the Towns of Brighton, Irondequoit, Penfield, Perinton, Pittsford and Henrietta, this district provides for the conveyance of wastewater for a population of more than 260,000 residents. The district's infrastructure consists of the Cross-Irondequoit Pump Station, the Cross-Irondequoit Tunnel and 50 miles of interceptor sewers. Enhancements to the control scheme and grit handling facilities of the 280 million gallons per day Irondequoit Bay Pump Station began over the past few years. Work will continue to improve pump performance and control, and energy management.

UNIT DESCRIPTIONS

Special Expense Administration (8574010000)

This unit provides an accounting of district appropriations for payment of debt incurred for the construction of sewage collection facilities and of the debt remaining on town facilities the district has taken over. Personnel of other districts assigned to jobs in the Irondequoit Bay District and other interfund expenses are also charged here. The district pays the Rochester District for treatment of its sewage at the VanLare Treatment Plant. The amount is a percentage of the plant's operating and debt service expenses based on sewage flow to the plant. This arrangement has eliminated the need for separate treatment facilities in the Irondequoit Bay District.

Pump Station Operations (8574030000)

The Cross-Irondequoit Pump Station controls the rate of flow into the VanLare treatment plant by regulating pumping and storage of wastewater in the interceptor system to avoid overburdening the plant. Staff regularly inspect the pump stations and interceptor sewers, and perform preventive maintenance on the equipment.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Rochester District (8575)

SECTION DESCRIPTION

The Rochester Pure Waters District operates the Frank E. VanLare Treatment plant in the City of Rochester. The facility serves the GCO and Irondequoit Bay/South Central District as well as the Rochester District. Costs are distributed among the two districts according to the volume of sewage contributed by each. The plant services an estimated population of 481,000 in an area of 196 square miles and has an average treatment capacity of 135 million gallons per day (MGD). The treatment plant continues achieving a high degree of efficiency of pollutant removals; higher than the standards established by various state and federal health laws. This is accomplished by engaging in continuous process improvement. The plant has the ability to treat 200 MGD through the conventional process and an additional 400 MGD during excess wet weather flows. In 1999 a permit was issued which stresses the need to control metals and other organic pollutants as well as to monitor excess weather flows.

BUDGET SUMMARY

UNIT DESCRIPTIONS

Debt Service and Interdistrict Charges (8575010000)

This unit provides accounting of district appropriations to pay for construction debt, charges from other districts for use of their facilities, special construction project costs, special services, and for personnel of other districts assigned to special jobs at the VanLare Treatment Plant.

Sewage is sent from southeastern portions of the Rochester District into the Irondequoit Bay system for transmission to the VanLare Treatment Plant. The Rochester District pays a share of the Irondequoit Bay District operating and debt service costs in proportion to its use of the Irondequoit Bay system.

Sewer bills are added to the Monroe County and town tax system and are prepared by utilizing water consumption data supplied by the City of Rochester.

Maintenance (857502010000)

The staff of this unit maintain the mechanical, electrical, and instrumentation systems, and the buildings and grounds of the treatment plant and pump stations. Through daily inspections and a preventive maintenance program, they seek to minimize the time during which equipment and systems are out of service.

Operations (857502020000)

Wastewater treatment operations at the Frank E. VanLare plant involve two major processes: liquid handling and solids handling. The liquid process removes solid matter from raw sewage and produces sludge and treated water effluent. The solids process involves drying and disposing of the sludge, through landfilling.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Environmental Indicators (Pollutant Removals)*:			
BOD (Biological Oxygen Demand) (25 ppm/85% efficiency)	16/92%	13/90%	14/92%

*Facility permits require a certain degree of removals in the concentration (parts per million-ppm) and percent removals. The indicator description at the left shows degree of removals required by the plant operating permit. The concentration shown is the upper allowable limit, and the percent removal is the lower allowable limit. Self-imposed standards for treatment are higher than those required by the permit.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Rochester Collection System (857503)

SECTION DESCRIPTION

This section operates and maintains the sewer system in the City of Rochester. The system includes 572 miles of combined sewers, 128 miles of separate sanitary and storm sewers, 7 sewage pump stations, and 2 screen facilities.

The Rochester and Gates-Chili-Ogden Collection Systems share personnel and equipment. The expenses are charged to each system on the basis of actual use as determined from payroll and equipment records.

BUDGET SUMMARY

	Amended Budget 2007	Budget 2008
Appropriations

UNIT DESCRIPTIONS

Rochester Field Maintenance (8575030100)

The personnel of this unit maintain the mechanical, electrical, and instrumentation systems of the pump stations, chlorine feed equipment, and other equipment installations.

Rochester Field Operations (8575030200)

This unit services house laterals, manholes, and catch basins of the Rochester and Gates-Chili-Ogden collection systems. It seeks to clean 25% of the system or about 300,000 feet of main sewers per year.

Rochester Engineering Support (8575030300)

Construction crews repair house laterals, replace deteriorated or damaged sewers, catch basins and manholes, and install new sewer connections.

Performance Measures

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Gates-Chili-Ogden District (8571)

SECTION DESCRIPTION

The Gates-Chili-Ogden Pure Waters District includes the G-C-O pump station and forcemain and sewer system. This section operates and maintains the Gates-Chili-Ogden pump station plant in the Town of Chili. The pump station transmits sewage from the towns of Gates, Chili, and Ogden and the western Henrietta portion of the Irondequoit Bay/South Central Pure Waters District. It serves an area of 99 square miles with a population of approximately 55,000. It has an average capacity of 15 million gallons per day (MGD) with a peak capacity of 30 MGD.

In 1999, the G-C-O treatment plant was shut down and converted into a pump station and forcemain. The sewage formerly treated at G-C-O is transmitted to the Frank E. VanLare treatment plant for processing.

UNIT DESCRIPTIONS

Debt Service and Interdistrict Charges (8571010000)

This unit provides an accounting of district appropriations to pay for debt incurred for constructing sewage collection systems, treatment facilities and charges for personnel of other districts who are assigned to jobs in the Gates-Chili-Ogden District, and for interfund transfers.

The district sends approximately 20% of sewage collected to the Northwest Quadrant treatment plant and the remainder to the Frank E. VanLare treatment plant, and pays the appropriate share of the plant operating and debt service costs in proportion to its use of these facilities.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Pure Waters (8500)
SECTION: Gates-Chili-Ogden Collection System (857103)

SECTION DESCRIPTION

Sewage in the Gates-Chili-Ogden Pure Waters District is collected through a system of 265 miles of sewers and 23 pump stations. This section funds the operation and maintenance of that collection system.

The Rochester and Gates-Chili-Ogden collection systems share personnel and equipment. Staff based primarily in the Rochester District perform the functions of administration, pump station operation and maintenance, cleaning, and construction. Expenses are charged to this district through interfund transfers on the basis of actual use as determined from payroll and equipment records.

DEPARTMENT: Public Works Sector - Environmental Services (84)
DIVISION: Fleet Services (8675)

DIVISION DESCRIPTION

This division maintains and repairs all licensed motor vehicles, construction and snow removal equipment, firefighting and other motor equipment, except for vehicles and equipment that are assigned to the Sheriff's Office. It operates a central fueling facility located at the Iola Complex, and it also includes funding for the acquisition of county vehicles. Vehicles are purchased or leased from this account and charged to departments through interfund transfers. Repairs to medium, lightweight and heavy equipment are performed at the fleet maintenance garage.

DEPARTMENT: Public Works Sector - Parks (88)

DEPARTMENT DESCRIPTION

Parks in Monroe County were established in 1888 with the creation of the Rochester Parks Commission and the dedication of Highland Park. In 1926, the county began to assume direct responsibility for the management of local parklands. Today the Parks Department operates 20 parks totaling more than 11,200 acres. Almost all 20 county parks have picnic and hiking areas and most are equipped with sports facilities, shelters and lodges.

Mission

The Parks Department is comprised of dedicated staff working with community partners in effectively and efficiently providing an array of park services. This assures that everyone may enjoy recreational and educational opportunities while treasuring the natural, zoological, horticultural, historical and geological features of the Monroe County Parks System.

2007 Major Accomplishments

- Hosted numerous special events in the parks including theatrical performances, summer concert series and movie series
- 2007 Programs/Events included the Lilac Festival, McQuaid Invitational, Shakespeare in the Bowl, Movies in the Bowl and at the Beach, Ten Ugly Men, Gay Alliance Picnic, Operation Patriot and the Head of the Genesee Regatta
- Completion of the Lakeside Trail
- Maintained eight ball diamonds, two soccer fields, one cricket pitch, and several general use field areas
- Improved turf maintenance, aerated all turf areas, and fertilized all playing surfaces
- Installed new play structures at Genesee Valley Park
- Installed new roof on Roundhouse Shelter
- Added several new benches and numerous trees and shrubs through the Memorial Program in Highland Park
- Operated ice rink, ball field and multiple use fields in Highland and Genesee Valley Parks
- Rejuvenated spirea beds, pruned viburnum beds, and pruned approximately 400 lilacs in Highland Park
- Worked with numerous volunteer groups maintaining park areas
- Provided forestry services for all county parks as well as for other county divisions
- Provided forestry services in the Buffalo area after an ice storm
- Grew and supplied annuals for park plantings
- Grew plants for the Lamberton Conservatory
- Provided plants and horticultural services for several other county departments
- Installed a display at Gardenscape to promote Monroe County Parks (won 5 awards)
- Provided horticultural services and planting at Black Creek wetland, installing over 5,000 trees and shrubs
- Continued noxious plant removal program, addressing areas in Ellison Park, Irondequoit Bay Park West and Oatka Creek Park for hogweed; and in Highland Park, Genesee Valley Park and Northampton Park for poison ivy
- Began construction of the elephant pool at Seneca Park Zoo

- Began construction of the baboon exhibit at Seneca Park Zoo
- Renovated tortoise exhibit into meerkat exhibit at Seneca Park Zoo
- Installed working educational honey bee hive at Seneca Park Zoo
- Upgraded emergency backup generator for main zoo building
- Installed a new boiler for main zoo building
- Remodeled zoo gift shop
- Achieved first-time birth of the critically endangered golden lion tamarin at Seneca Park Zoo
- Acquired young male sea lion at Seneca Park Zoo
- Acquired male white rhinoceros at Seneca Park Zoo
- Installed playgrounds at Genesee Valley and Ellison Park
- Made ADA Improvements at various parks

2008 Major Objectives

- Continue to coordinate special events held within the county parks system
- Continue to provide recreational opportunities (i.e. swimming)
- Continue our regular maintenance program for trees, shrubs and turf areas, including fertilization, watering, pruning and aeration
- Complete capital projects involving road, parking and building improvements
- Continue to develop, collect plant data and expand computerized database system for tracking plant collections in our Arboreta (Highland and Durand-Eastman)
- Construct and open Off-Leash Dog Areas
- Pursue contributions for expansion of Highland Park's Louisiana Iris collection
- Continue installation of vandal-proof, plant identification tags
- Continue to promote historic horticulture through signage, plant tagging and self-guided tours
- Continue to promote horticulture by offering one-on-one interaction, lectures and workshops featuring staff as well as volunteer resource personnel
- Continue to develop relationships with volunteers and organizations that can aid with operational and capital programming and projects
- Partner with the Monroe County Sheriff Department's prison program to grow greenhouse crops for floral displays
- Develop and implement plans for Cancer Survivor's Memorial
- Continue to upgrade the building structures, electrical, plumbing fixtures and roofing
- Upgrade the underground water lines and frost-free water hydrants
- Repair and improve roads and parking lots
- Continue to work with Landmark Society to promote Olmsted parks

- Continue to work with numerous neighborhood groups
- Remodel White House at Webster Park
- Continue work with Olmsted Task Force to develop a new memorial policy and signage plan
- Install playgrounds at Churchville and Webster parks
- Complete planting at Black Creek wetland
- Increase number of tours and seminars provided. Promote horticulture programs through interaction with schools, retirement homes, and garden clubs
- Continue to improve labeling and interpretive signage throughout the parks
- Install propagation chamber and ventilation system at Highland greenhouse
- Increase plant and gift shop sales at Conservatory
- Repair masonry on historic Warner Castle
- Attract new volunteers. Work with volunteer groups and special interest groups, including:
    - Vietnam Memorial Group
    - AIDS Remembrance Group
    - Conservatory docents
    - Highland Park Conservancy
    - Rochester garden clubs
- Rebuild historic Lamberton Conservatory dome
- Expand lilac collection to section in Highland Park South. Expand number and diversity of specimens
- Open elephant pool at Seneca Park Zoo
- Open baboon exhibit at Seneca Park Zoo
- Receive AZA Accreditation at Seneca Park Zoo

DEPARTMENT: Public Works Sector - Parks (88)
DIVISION: Parks Administration (8801)

DIVISION DESCRIPTION

Parks Administration includes management and support personnel who coordinate and administer all departmental activities. Parks Administration plays a central role in the planning of all capital improvements and expansion, as well as the maintenance of acceptable operational standards for all parks. The goal of Parks Administration is to provide administrative services to staff operating departments, vendors and the general public in order to maximize resource use and park utilization while remaining within the budget limits.

DEPARTMENT: Public Works Sector - Parks (88)
DIVISION: Parks Operations (8802)

DIVISION DESCRIPTION

Parks Operations is an administrative grouping of 15 Monroe County park areas. This division includes developed parks with ball fields, tennis courts, playgrounds, lodges and shelters, as well as undeveloped parklands which offer camping, boating and fishing. The parks in this group also offer access to Irondequoit Bay, the Genesee River, Lake Ontario and several other ponds, creeks and streams. Ontario Beach and Tryon Parks are owned by the City of Rochester but maintained and operated by Monroe County through the Parks Operating Agreement of 1961, and as amended in 1975. The goal of Parks Operations is to provide parks services to Monroe County residents in order to meet conservation, education and recreational needs. Outcome measures include the percentage of parkland set aside for active conservation and the percentage increase in the use of park facilities.

SECTION DESCRIPTIONS

Administration (8802010000)

This section includes the Administration staff and clerical support staff. It serves as a cost center for particular district-wide administrative expenses such as workers' compensation benefits and various interfund transfers. Management objectives focus on maintaining standards of appearance, cleanliness, safety, security and performance for all recreational facilities and equipment. The wide range of activities in Parks Operations requires a high level of coordination in order to provide efficient and effective management.

Churchville Park (8802030000)

Churchville Park occupies 724 acres of land in southwestern Monroe County with a portion of the park located in the Village of Churchville. Facilities include four tennis courts, playground areas, a disc golf course, softball fields, five soccer fields, five lodges, eight picnic areas, an ice skating rink, and fishing and canoe access to Black Creek. Churchville Golf Course is operated under a contractual agreement with Jack Tindale, Inc.

Black Creek Park/Oatka Creek Park (8802040000)

Black Creek Park, situated in the Towns of Chili and Riga, features 1,505 acres of rolling hills, wetlands and forests. Facilities include hiking, bridle and cross-country ski trails, picnic areas and two small ponds. Black Creek Park also offers two lodges, picnic shelter and playground.

Oatka Creek Park, comprising 461 acres of undeveloped land in the Town of Wheatland, offers a natural and undisturbed setting providing for excellent trout fishing in Oatka Creek. Facilities include a lodge, and hiking and cross-country ski areas.

Northampton Park (8802050000)

Located in the Towns of Sweden and Ogden, this 973 acre park includes hiking, bridle and cross-country ski trails, two lodges, special permit camping area, playgrounds, two soccer fields, two softball fields, a model airplane field and a lighted downhill ski hill. Springdale Farm, a demonstration farm operated under contract by Heritage Christian Services, is located in Northampton Park.

Ontario Beach Park (8802060000)

The central feature of this park is its supervised natural sand beach located on Lake Ontario. Its 39 acres also include a boat launch to the Genesee River, an antique carousel, soccer field, two softball fields, seven picnic shelters and a performance pavilion. Ontario Beach Park is owned by the City of Rochester, but maintained and operated by Monroe County through the Parks Operating Agreement of 1961.

Webster Park (8802070000)

Located in the Town of Webster on the shore of Lake Ontario, Webster Park's 550 acres include five lodges, eight shelters, playgrounds, tennis courts, ball fields, hiking and cross-country ski trails and special permit youth and family campgrounds. Also available is a fishing pier and access to Lake Ontario.

Ellison/Tryon/Devils Cove/Irondequoit Bay Parks (8802080000)

Ellison Park, in the Towns of Brighton and Penfield, offers 447 acres with tennis courts, softball fields, four lodges, eight picnic shelters, playgrounds and hiking, bridle and cross-country ski trails and a disc golf course.

Tryon Park contains 82 undeveloped acres on the western shore of Irondequoit Bay within the City of Rochester. The park is owned by the City of Rochester, but maintained and operated by Monroe County under a 1975 amendment to the Parks Operating Agreement of 1961. It offers hiking and natural scenic areas.

Irondequoit Bay Parks (East and West) consist of 292 natural undeveloped acres offering woodlands and access to the Irondequoit Bay shoreline.

Powder Mills Park (8802090000)

Located in the Town of Perinton, Powder Mills Park contains 380 acres which include five shelters, seven lodges, hiking and cross-country ski trails, picnic areas, playgrounds, volleyball courts, a fish hatchery and a lighted downhill ski hill.

Mendon Ponds Park (8802100000)

The largest county park is Mendon Ponds located in the Towns of Pittsford and Mendon. Its 2,462 acres have been designated as a National Natural Landmark by the United States Department of the Interior due to its unique geological glacial landforms. Facilities include hiking, bridle and cross-country ski trails, boat launch, fishing and picnic areas, two softball fields, eight picnic shelters and six lodges.

Greece Canal Park (8802110000)

Greece Canal Park's 577 acres are located in the Town of Greece with facilities for picnics and hiking. Development of the park has occurred in phases over a period of years. This park includes softball fields, a soccer field, tennis courts, two lodges, picnic shelter, playgrounds and special permit youth camping.

DEPARTMENT: Public Works Sector - Parks (88)
DIVISION: Support Services (8803)

DIVISION DESCRIPTION

The Parks Support Services undertakes department capital projects, major repairs, construction and general maintenance. Support Services is involved in the improvement of roads, parking areas, water lines, drainage systems, as well as electric and plumbing systems. This group also undertakes building improvement projects including new buildings, major renovations of existing structures, roof replacements, window and door replacement and masonry upgrades. These services are provided to all park areas, including the Seneca Park Zoo. Support Services also receives park work orders, and responds promptly with professional service.

DIVISION: Seneca Zoological Park (8804)

DIVISION DESCRIPTION

Located on the eastern bank of the Genesee River in the City of Rochester, Seneca Park Zoo is owned by the city, but maintained by the county under the Parks Operating Agreement of 1961. The goal of this division is to provide a quality zoo experience to the visiting public. Outcome measures include the percentage increase in zoo attendance compared to the Statistical Metropolitan Area, the percentage increase in return zoo visits and percentage increase in the Species Survival Program.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations			
Personnel Services		1,200,906	1,209,347
Contractual Services		583,275	562,800
Supplies and Materials		197,908	198,695
Employee Benefits		255,620	339,385
Interdepartmental Charges		118,131	185,443
Service Chargebacks		(15,000)	(15,000)
	Total	**2,340,840**	**2,480,670**
Revenue			
Park Fees		978,450	974,000
Miscellaneous		40,000	80,000
	Total	**1,018,450**	**1,054,000**
Net County Support		**1,322,390**	**1,426,670**

SECTION DESCRIPTIONS

Administration (8804010000)

The Administrative staff supervises and coordinates all field operations within the division. Staff establish programs, conduct research projects and ensure compliance with all governmental regulations pertaining to zoological activities.

Animal Management (8804020000)

The Animal Management section exhibits zoological species in a safe and where possible, natural setting. It has responsibility for the construction and refurbishment of exhibits, the care and feeding of animals and the protection of all specimens from vandalism.

Animal Health (8804030000)

The Seneca Zoo maintains a comprehensive veterinary hospital which functions with one zoologist and veterinary attendant and additional contracted professional veterinary services. Zoo staff are trained to implement recommendations of the zoo's veterinary team and to conduct behavioral observations. This section strives to improve animal health and longevity and increase the animal birth/hatching rate.

Buildings and Grounds (8804050000)

The Buildings and Grounds section is responsible for the beautification of the zoo park land as well as the maintenance of the buildings.

Performance Measures

	Actual 2006	Est. 2007	Est. 2008
Zoo Attendance	329,163	360,000	350,000
Educational Program Attendance	61,409	62,500	64,000

DEPARTMENT: Public Works Sector - Parks (88)
DIVISION: Horticultural Division (8805)

DIVISION DESCRIPTION

The Horticultural Division is responsible for the planting and care of plants, shrubs, and trees. It provides the horticultural resources used to beautify and maintain landscaping throughout the parks system.

Maintenance and oversight is provided for four Parks: Durand Eastman, Highland, Genesee Valley and Seneca. Additional responsibilities include the coordination of Highland Park - Lamberton Conservatory programs, preservation of the arboreta located in Durand Eastman and Highland Parks and assessment of tree planting and trimming requirements throughout the parks system. The goal of the Horticultural Division is to provide a diverse horticultural collection to the general public parks and other governmental agencies to maintain our unique horticultural heritage, as well as providing recreational and educational opportunities. Outcome measures include the percentage increase in visitor attendance to Conservatory shows, the percentage increase in Horticultural educational program attendance and the percentage increase in plants labeled.

BUDGET SUMMARY

		Amended Budget 2007	Budget 2008
Appropriations

Net County Support		**1,333,542**	**1,469,906**

SECTION DESCRIPTIONS

Administration (8805010000)

The Administration section supervises and directs the division's horticulturists and support staff. It is responsible for maintaining efficiency and productivity within the division and it encourages professional enrichment through seminars and training programs.

Arboretum (8805020000)

The Arboretum, begun in the 1880's, is one of the oldest and largest municipal arboreta in the United States. Arboretum staff collect and nurture plants, trees and shrubs for the Monroe County Parks System, performing horticultural research and offering public service education through workshops, guided tours and publications. Among its specific activities is the care and maintenance of the world's largest lilac collection located at Highland Park. The arboretum section includes not only the arboreta located in Highland and Durand Eastman Parks, but also the Lamberton Conservatory at Highland Park which offers seasonal and permanent displays of flowers.

Forestry (8805030000)

The Forestry staff is responsible for the maintenance of healthy and desirable trees and shrubs throughout the park system. Forestry personnel regularly survey park areas to assess existing conditions. Trees and plant life which are diseased or have become hazardous to the public are replaced with new specimens by Forestry staff. The The also identify park areas which are appropriate settings for new plantings. Additional tree and plant life is continually propagated and developed for the beautification and conservation of the county's parklands.

Highland/Genesee Valley Parks (8805040000)

Highland Park is the horticultural showcase of the Parks Department. Its 150 acres contain the Garden Center of Rochester headquartered in the historic Warner "Castle", the Lamberton Conservatory, a portion of the county's Arboretum, and various botanical and floral collections. Highland Park supports the world's largest lilac collection and attracts thousands of visitors to the annual Lilac Festival occurring during May. Located on the southern edge of Rochester, its facilities include hiking paths, an ice skating rink, and a softball field. Highland Park is owned by the City of Rochester but maintained and operated by the county through the Parks Operating Agreement of 1961.

Genesee Valley Park offers fishing and boating facilities, as well as playing fields for soccer, cricket and softball. It contains eight picnic shelters in addition to trails for hiking, biking and cross-country skiing. Genesee Valley Park is owned by the City of Rochester but maintained and operated by the county through the Parks Operating Agreement of 1961. Genesee Valley Golf Course is operated under a contractual agreement with Jack Tindale, Inc.

Durand Eastman Park (8805050000)

Situated on the shore of Lake Ontario, Durand Eastman contains botanical collections, steep wooded slopes, small lakes and scenic vistas. Recreational facilities include hiking, bridle and cross-country ski trails, eight picnic shelters and playground areas. Durand Eastman Park is owned by the City of Rochester (with the exception of several county owned portions) but is maintained and operated by the county through the Parks Operating Agreement of 1961. Durand Eastman Golf Course is operated under a contractual agreement with Jack Tindale, Inc. The county also operates the boat launch at the Irondequoit Bay Outlet.

Seneca Park (8805060000)

Seneca Park offers a scenic view of the Genesee River Gorge. The lower park has the focal point of the pond and is bordered by three rustic shelters. There is also a trail system for hiking, which parallels the steep river gorge terrain. Park Operations is generally responsible for park maintenance outside the immediate area of the zoo. Activities include groundskeeping, landscaping and building maintenance.

Performance Measures

Arboretum Educational Programs	164	225	275

DEPARTMENT: Public Works Sector - Parks (88)
DIVISION: Recreation and Education Programs (8806)

DIVISION DESCRIPTION

The goal of the Division of Recreation and Education programs is to provide coordination, promotion, scheduling and production services to park visitors in order to meet recreation and education needs in the park system. Outcome measures include the percentage increase in the amount of special event permits issued, Nature Center attendance and department program participants.

BUDGET SUMMARY

SECTION DESCRIPTIONS

Administration (8806010000)

The Recreation and Education Division supervises and coordinates various services within the Parks Department, including reservations for lodges, shelters, camping and weddings, web page updates, special events, rentals of athletic facilities, various recreational tournaments, downhill skiing programs and festivals.

Swimming (8806030000)

The Parks Swimming Program provides safe swimming and recreation at Ontario Beach.

Interpretive Services (8806040000)

Interpretive and educational services are also coordinated in this division in the areas of nature programming, historic features, field trips and exhibit formulation and maintenance.

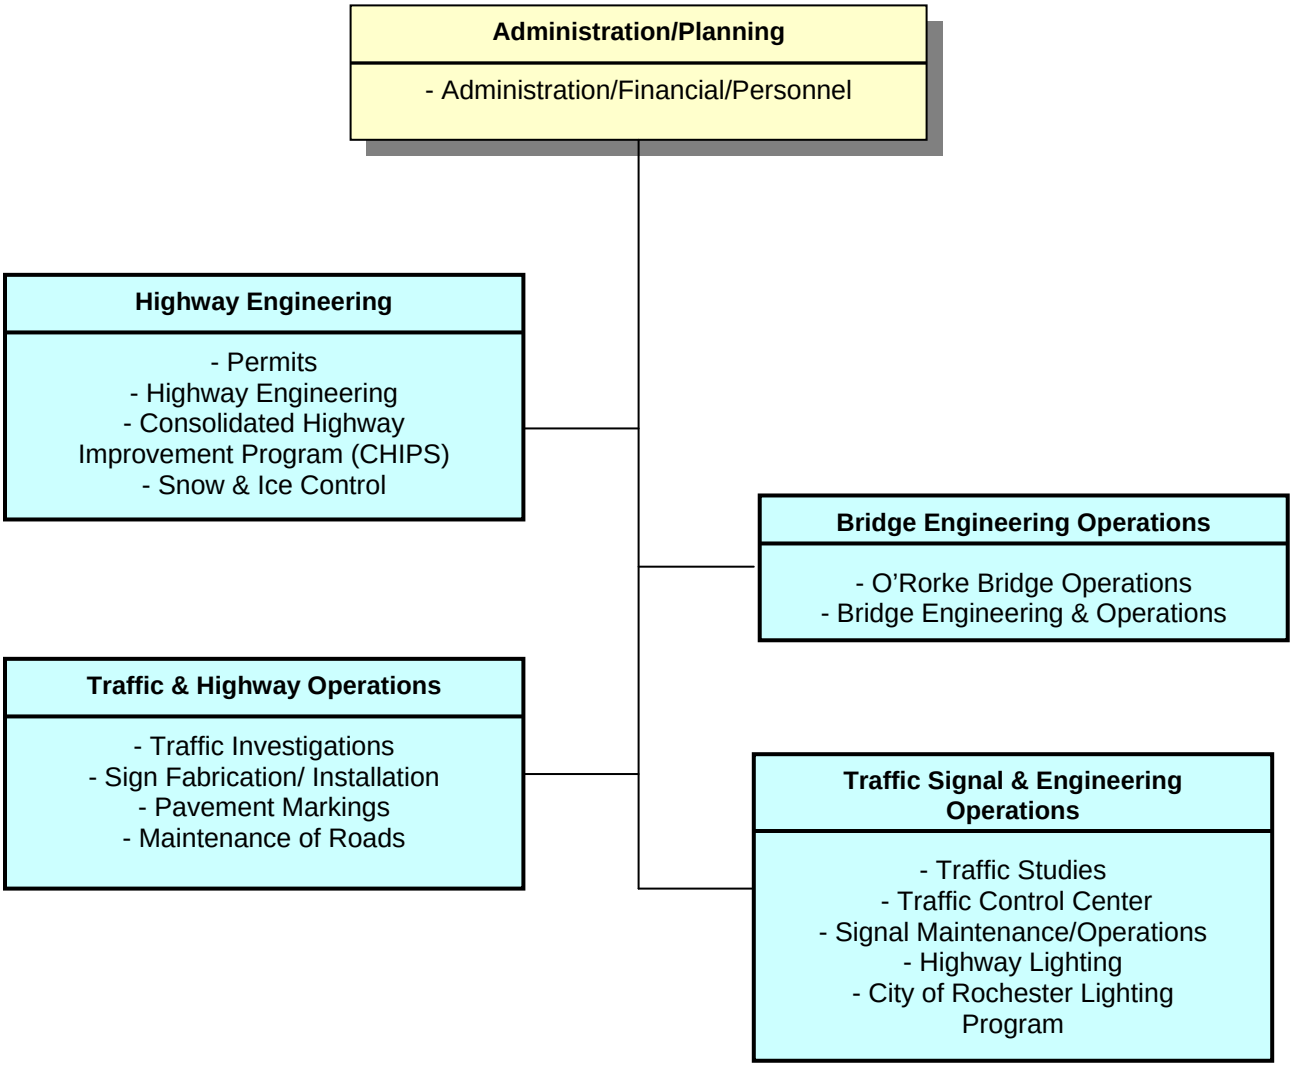
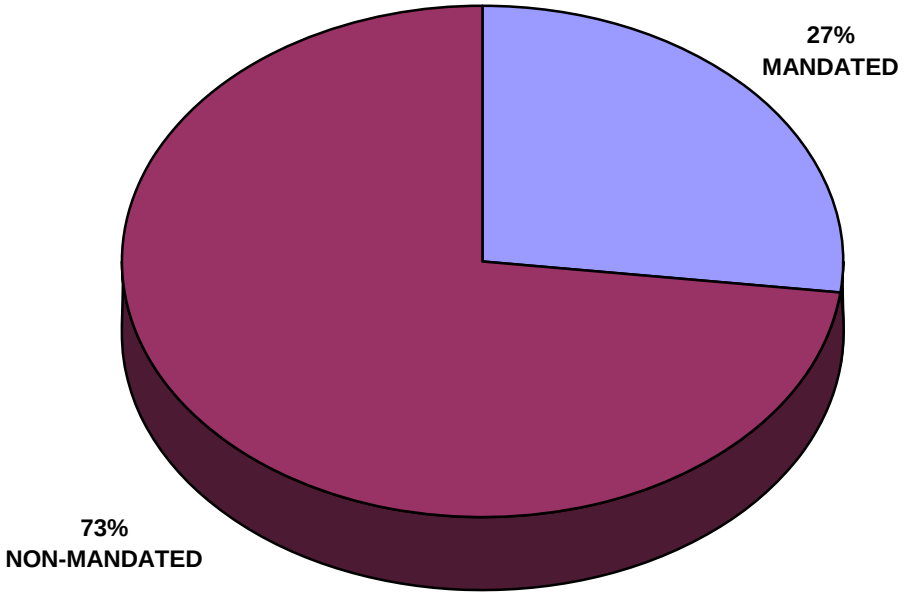
TRANSPORTATION (80)



TRANSPORTATION
2008 MANDATED/NON-MANDATED



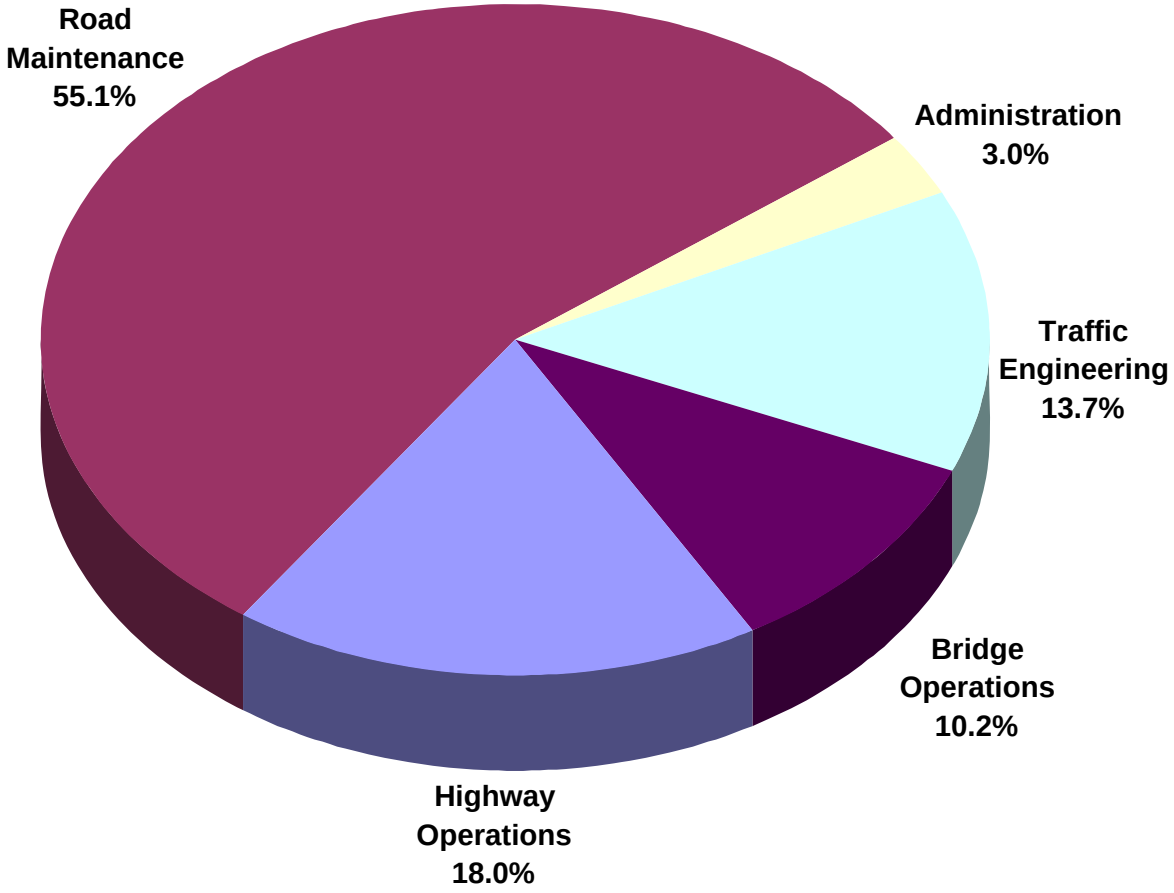
The percentages above do not reflect the deduction of Service Chargebacks.

NON-MANDATED		**12,836,507**
MANDATED		**4,743,000**
	SUBTOTAL	**17,579,507**
DEBT SERVICE		**14,507,246**
SERVICE CHARGEBACKS		**(1,322,900)**
	TOTAL BUDGET	**30,763,853**

The Department of Transportation's mandated services as regulated by NYS are the Permits Office and the Consolidated Highway Improvement Program (CHIPS). The Federal Government mandates the operation of the Colonel Patrick O'Rorke Bridge.

Non-mandated services provided include a portion of Highway Engineering, Traffic & Highway Operations, Traffic Signal & Engineering Operations, and Bridge Engineering Operations.

TRANSPORTATION
2008 Budget - $30,763,853



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Public Works Sector- Transportation (80)

DEPARTMENT DESCRIPTION

The Department of Transportation is responsible for the safe and efficient operation of approximately 1,496 lane miles of county highways, 177 bridges and 289 culverts. It is also responsible for the installation, operation and maintenance of all traffic control devices on county highways and on the streets within the City of Rochester including 780 traffic signal devices, as well as the operation of the Colonel Patrick O'Rorke Bridge.

Mission

We construct, operate and maintain a safe and efficient highway, bridge and traffic network to move people and goods throughout the county to enhance community growth, economic well-being and the quality of life.

2007 Major Accomplishments

- Completed highway sealing and resurfacing projects covering approximately 159 lane miles of highway
- Reduced the number of deficient bridges and culverts by completing major rehabilitation or reconstruction of 3 bridges and 3 culverts
- Completed the public participation advisory group process for 4 highway projects and the design of 3 highways, 2 bridges and 4 culverts
- Provided pavement marking services and sign fabrication services for county, town, city roads and other county departments
- Utilized a leased spray injection patch truck for 3 months to repair county roads
- Processed 950 highway permits and issued and resolved 3,500 service requests for signals, signs and highways
- Initiated the installation of 32 traffic monitoring cameras and new central video processing switch
- Converted 20 traffic signals on our system from coaxial cable to fiber optic cable communications, thereby improving reliability
- Completed UPWP studies (safe passing zone survey, accident rate database) and made significant progress on high accident location program and overhead sign study
- Worked with our lobbyists to enhance our opportunity and were successful in receiving federal highway funding

2008 Major Objectives

- Complete highway sealing and resurfacing of 170 lane miles of county highways and bridge/culvert maintenance programs
- Initiate the reconstruction of 3 capital highway, 2 bridge and 4 culvert projects
- Initiate/complete the planning and design phases of capital highway and bridge projects that are programmed in the Capital Improvement Plan
- Complete the design of 5 bridges and 4 culverts
- Transfer the ownership of the Colonel Patrick O'Rorke Bridge and the jurisdictional swap of highways to the NYSDOT
- Complete installation of 32 additional traffic monitoring cameras (including new central video processing switch) on city/county arterials to enhance traffic management on arterials
- Complete the high accident location and overhead sign UPWP studies

- Working with DES and NYSDOT, expand the fiber optic cable plant into new service areas and add traffic signals in these areas onto the centralized traffic signal system
- Convert from thermo-powder to paint as the primary material for our crosswalks and stop lines
- Initiate UPWP studies to identify locations/priorities for audible/tactile devices to service the visually impaired and initiate our regional traffic data collection program

---

SECTION DESCRIPTIONS

Administration/Planning (8001010000)

This division is responsible for the management of administrative activities of the department. Specific responsibilities include the development of policy alternatives and work procedures, the supervision and planning of all transportation activities, and the administration of some financial and personnel activities.

This division also manages the planning phase of department capital highway projects, and moderates the public participation component of capital highway projects. It prepares the department Capital Improvement Program and solicits and coordinates county, state and federal funding. This division is also responsible for preparing the department's legislative referrals. Division responsibilities include the review and coordination of traffic features (signs, striping and traffic signals) for all city projects.

Traffic Investigations (8002010000)

The goal of this program is to review, conduct and update traffic information to ensure appropriate traffic control devices are in place on a city or county roadway. This division investigates the need for additional and modified traffic signs in response to citizen requests, and it processes all traffic regulatory device changes for city streets and county highways. Outcome measures for this program include the percent reduction in accidents and the percent investigations completed within two business days.

Sign Fabrication/Installation (8002020000)

The goal of this program is to fabricate and install traffic sign control devices to ensure a safe road network throughout the county. This division manufactures all road signs that are installed along county highways and city streets, and upon request, for the towns, villages and other county departments. Also, the division installs and maintains approximately 60,000 traffic signs on county highways and city streets. Outcome measures for this program include the percent of sign fabrications completed within thirty days and the percent of sign installations completed on time.

Pavement Markings (8002030000)

The goal of this program is to install and maintain traffic pavement marking control devices to ensure a safe road network throughout the county. This division schedules and performs work required to maintain lane delineation, passing zones, stop bars, crosswalks and railroad crossing symbols on county, city and town roads as well as installation of markings on airport runways and county parking lots. County highways require the application of pavement markings every one to six years depending on traffic flow and the type of marking. Outcome measures for this program include the percent of pavement marking installations completed per specification.

Maintenance of Roads (8002040000)

The goal of this program is to improve the condition of county highways by constructing and maintaining a safe and efficient road network in order to move people and goods throughout the county. This division maintains a safe and serviceable highway system. It is responsible for the day-to-day maintenance of the 1,496 lane mile Monroe County Highway System. Major activities include drainage improvements, crack filling, pothole patching, spray patching, hot grader patching and shoulder improvements. Outcome measures for this program include the percent of lane miles with a pavement quality index greater than 7.0.

State Supported Highway Capital Program (8002050000)

The goal of this program is to improve the condition of county roads by constructing and maintaining a safe and efficient road network in order to move people and goods throughout the county. This division collects the state-aid for capital expenditures under provisions of the Consolidated Local Street and Highway Improvement Program (CHIPS). The state allocates a specific sum of aid for capital projects with greater durability (highway resurfacing, recycling, reconstruction, bridge rehabilitation and replacement) and longevity (minimum useful life of ten years) than might be expected from routine maintenance efforts. Outcome measures for this program include the percent of lane miles with a pavement quality index greater than 7.0.

Permits (8003010000)

The goal of this program is to issue and inspect permits for work in the county right-of-way to ensure a safe and efficient roadway system, while allowing for economic and community growth. This division conducts design reviews of proposed highway developments, issues highway permits, inspects the highway work performed by the permittee, maintains records and collects permit fees and ensures contractor conformance with county requirements during construction. Outcome measures for this program include the percent of permitted work meeting current standards.

Highway Engineering (8003020000)

The goal of this program is to improve the condition of county roads by constructing and maintaining a safe and efficient road network in order to move people and goods throughout the county. This division is responsible for operating and capital highway improvement projects. It is also responsible for the planning, design and management (or construction supervision) of highway maintenance work performed by town and contractor forces. The in-house design section produces the designs for the milling, resurfacing and guide rail contracts as well as design and drafting assistance for various projects.

The Capital Highway Design and Construction Section is responsible for the administration of the capital highway and spot safety program, including planning, design and construction supervision activities.

Snow and Ice Control (8003030000)

This division funds the cost of snow and ice removal and snow fence installation, to ensure safe travel on the county highway system during the winter season. The county enters into agreements with each town for the provision of snow and ice control services. Contract amounts reflect prevailing wage agreements in the towns, equipment rental rates determined by the state, current state bid prices for salt, and the number of highway lane miles plowed and cleared in each town. Outcome measures for this program include the percent of contract standards met.

Traffic Studies (8004010000)

The goal of this program is to review, conduct and update traffic information to ensure appropriate traffic control devices are in place on a city or county roadway. This division conducts traffic engineering studies and analyses, as well as maintains an ongoing traffic count program and a high accident identification program on county highways and city streets. Outcome measures for this program include the percent reduction in accidents and the percent studies completed within two months.

Traffic Control Center (8004020000)

The goal of this program is to operate traffic signals throughout the city and county and to ensure the safe and efficient movement of the public and goods. This division, housed in the Regional Traffic Control Center, continuously monitors 449 traffic signals primarily located along major city streets (309), on selected county highways in the towns of Brighton, Gates, Greece, Henrietta, Irondequoit and Penfield (67), and on selected New York State highways (73). This computerized system monitors traffic flow and adjusts signal-timing patterns to meet traffic flow conditions. In addition, calls are received, dispatched and phasing and timing modifications are made for the remaining 331 signals and flashers not on the system. Outcome measures for this program include percent reduction in vehicle stops, delay, and emissions due to signal coordination.

Signal Maintenance/Operations (8004030000)

The goal of this program is to operate and maintain traffic signal control devices to ensure a safe road network throughout the county. This division is responsible for the construction and maintenance of 621 traffic signals and 159 flasher devices located on county highways and city streets. Work also includes the testing and repair of all signal components. Included in this division is the maintenance responsibility for all components of the computerized signal system. Outcome measures for this program include; the percent of change in signal flash calls, bulb calls, communications related calls and repeat calls.

Highway Lighting (8004040000)

The goal of this program is to operate, maintain and upgrade county/city-based expressway lighting systems in order to have safe, efficient and reliable lights. The county currently maintains 4,644 light fixtures on the expressways, including 3,139 outside the city and 1,505 within the city limits. This division funds the cost of operating and maintaining the lighting system on some state arterial highways (780 fixtures) and some county highways (253 fixtures). (The state installs the new poles and electric service conduits on the state highways.) This division contains the costs of energy, maintenance and capital acquisition for operating the county highway lighting system on both expressway and arterial highways. Outcome measures for this program include the percent of luminaires operating properly.

City of Rochester Programs (8004050000)

County-funded programs which support expressway lighting in the city (1,505 fixtures) and the rehabilitation and reconstruction of the city arterial street system include:

<u>131 K-Debt Service</u> (Debt service on city street and bridge capital projects which the county has undertaken in accordance with the New York State Highway Law, Section 131)

<u>Expressway Lighting</u> (County cost for operating the expressway lighting system within the city)

Bridge Engineering and Operations (8005010000)

The goal of this program is to improve the condition of county bridges and culverts by programming, pursuing funding options, constructing, maintaining and operating a safe and efficient bridge and culvert network to move people and goods throughout the county. This division is responsible for the planning, engineering, inspection and maintenance of 177 bridges (including the Irondequoit Bay Outlet bridge) and 289 culverts. This division designs bridges, reviews plans, inspects, inventories, programs and monitors bridges and culvert construction projects in the Capital Improvement Program. Outcome measures for this program include the percent of deficient bridges and culverts.

O'Rorke Bridge Operations (8005020000)

The goal of this program is to operate a safe and efficient bridge in order to move people and goods across the Genesee River. The bridge operates 24 hours per day, 7 days per week from April 1st through December 15th, and other times with advance notice. It is estimated that 900 bridge lifts will be required in 2008 and that the vehicle traffic count will be approximately 20,000 per day. The lower part of the Genesee River is classified by the U. S. Coast Guard as a navigational channel. Federal law requires that the waterway be unobstructed (CFR 117.785). This division is reimbursed by NYSDOT for the operation and maintenance of the Col. Patrick O'Rorke Bridge. Outcome measures for this program include the percent of bridge lifts without problems.

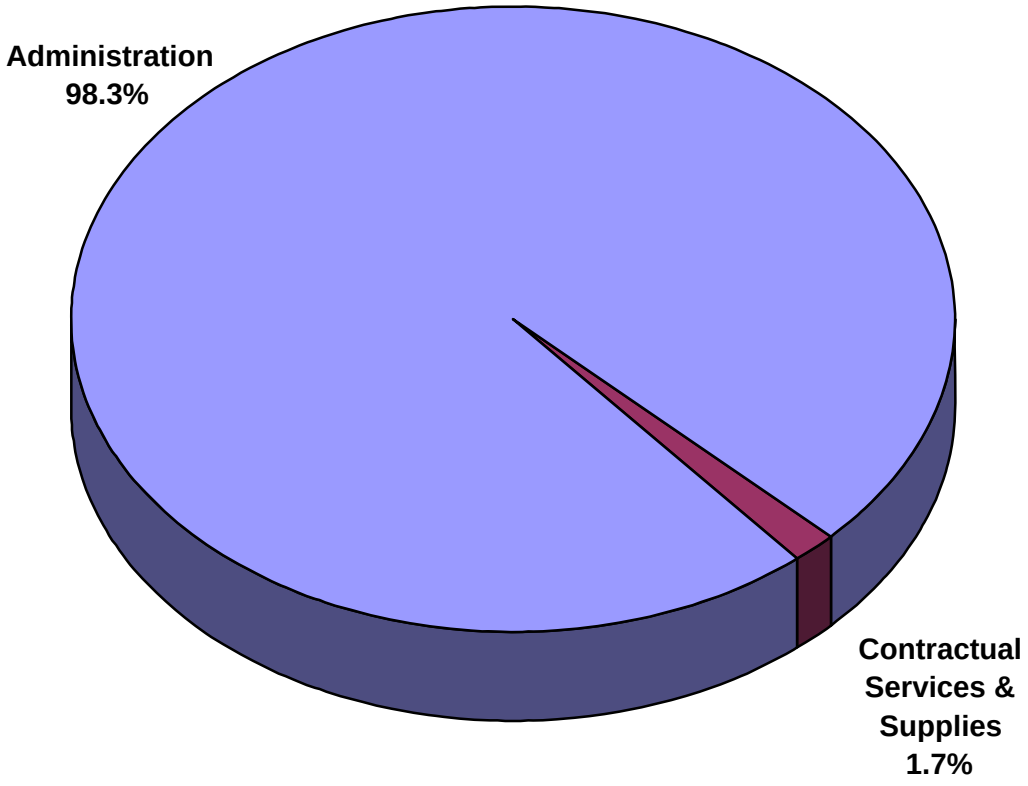
The Veterans Service Agency is a mandated department as outlined by New York State guidelines.

VETERANS SERVICE AGENCY

2008 Budget - $391,179



DEPARTMENT: Veterans Service Agency (74)

DEPARTMENT DESCRIPTION

The County Veterans Service Agency counsels and assists veterans and their dependents in areas such as pension and compensation, health and medical, rehabilitation, educational and life insurance services. The agency advocates on behalf of all Monroe County veterans to ensure they receive the maximum benefits to which they are entitled under federal, state and local law. Service Officers actively assist veterans in pursuing claims for burial benefits, disability compensation, pension benefits, real property tax exemptions and other benefits. Presentations to veterans organizations and civic groups keep veterans informed of agency functions and new laws affecting their benefits. Agency staff assist with activities associated with memorial decorations and services honoring veterans.

Service Officers are certified by the Department of Veterans Affairs as Accredited Representatives in accordance with USC Title 38.

Mission

The Monroe County Veterans Service Agency advocates on behalf of all Monroe County veterans and their eligible dependents to ensure that they have the opportunity to apply for and receive maximum entitlements under federal, state and local law.

2007 Major Accomplishments

- Continued to deliver exemplary level of service to veterans
- Developed partnerships with the Veterans Administration and the Vet Center under Vietnam Veterans of America sponsored VETNET Program

2008 Major Objectives

- Continue high level of service to all customers
- Maximize federal benefit payments for which veterans and their dependents are eligible

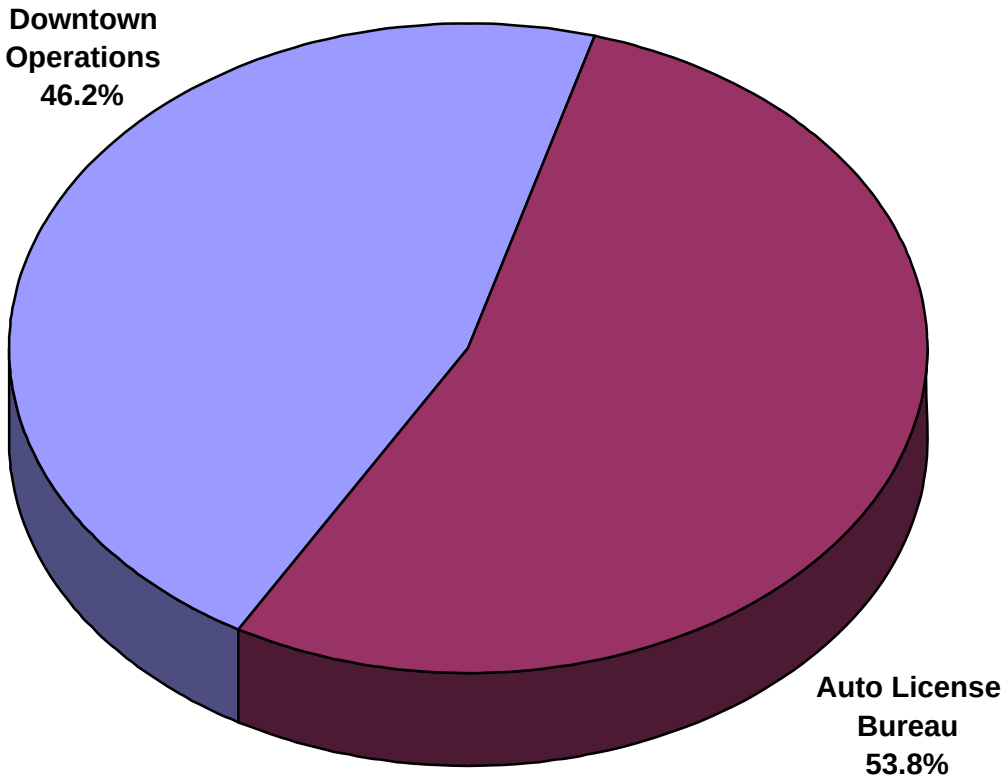
The Monroe County Clerk is the County Registrar and Clerk of the Supreme and County Courts and acts as an agent for state government as mandated by the state.

MONROE COUNTY CLERK

2008 Budget - $6,863,550



DEPARTMENT: Monroe County Clerk (21)

DEPARTMENT DESCRIPTION

The Monroe County Clerk is the County Registrar and Clerk of the Supreme and County Courts. The Clerk is responsible for filing, recording and storing official documents and acts as agent for state and federal governments for passports, pistol permits, sporting licenses and motor vehicle related transactions.

The County Clerk's Office is comprised of the Downtown Operations Division, located in the County Office Building, and the Auto License Bureau with several branches strategically located throughout the county.

Mission

The Office of the County Clerk provides accurate and timely processing of transactions, delivery of information and responsible records management to the public in a customer-friendly atmosphere to ensure the fulfillment of federal, state and county laws.

2007 Major Accomplishments

Downtown Operations

- Expanded "Renew Monroe" to encourage residents to process their passport transactions locally
- Successfully ensured that all passport customers who contacted the Clerk's Office received their documents in time to travel
- Began upgrades of the Office's records indexing and imaging viewing software to provide enhanced record security, increased accessibility of our records and more efficient workflow throughout the office
- Began installation of software for an improved Online Office of the County Clerk with enhanced navigation and search features as well as enhancement to further protect customer's personal information
- Clerk Dinolfo was honored by the New York State Association of County Clerks for her leadership in moving forward efforts to implement true e-filing for court records in New York State
- Secured State Archives grant funding to continue expansion of the Online Office of the County Clerk, one of the largest internet-accessible databases of public records in the state
- Continued a comprehensive redaction policy to prevent the filing and release of constituents' social security numbers
- Continued partnership with the Integrated Domestic Violence Court providing faster filing and service of Orders of Protection, enhancing the safety of victims of domestic violence
- Continued a permanent Passport Saturday program on the last Saturday of every month and Passport Express in partnership with the Towns of Greece and Pittsford to make obtaining the "gold standard of identification" easier than ever before
- Completed a partnership with the New York State (NYS) Office of Court Administration to improve filing and accessibility of older court records
- Continued to expand partnerships with local businesses, schools and the County Legislature to bring passport services to constituents
- Installed a power door device to allow easier access by handicapped customers
- Re-cataloged and re-boxed over 5000 rolls of microfilm into acid free boxes and stored them in secure facility

Auto License Bureau

- Opposed efforts to provide illegal immigrants with driver's licenses in Monroe County, protecting public safety and the local economy of our community
- Expanded car dealers access to local Department of Motor Vehicles (DMV) services through the creation of a dealer window at the Greece DMV
- Opened a new Greece Auto License Bureau (ALB) office in The Mall at Greece Ridge to draw customers to this important community retail center and strengthen the local economy
- Expanded "Renew Monroe" by working with car dealers to ensure local sales transactions are processed here in Monroe County and not by third parties in other communities
- Partnered with State DMV to implement online learner permit testing in area high schools and hosted the first ever regional training session for this important program
- Continued to encourage residents to do business locally and keep up to an additional $500,000 from vehicle registration renewals in Monroe County
- Wait times at our permanent branch offices have dropped 38% since Monroe County Clerk Dinolfo took office
- Expanded Mobile DMV outreach events at snowmobile shows, in partnership with the NYS Snowmobile Association, to encourage snowmobile enthusiasts to join a local club and help maintain trails and the local environment, improving safety for all involved in this important wintertime activity
- Maintained expanded service hours at each of the Mobile Units, improving customer access to DMV services in their own neighborhoods
- Installed new computer hardware and software in Auto License Bureau (ALB) offices to improve transaction speed and security for our customers
- Processed registration transactions and increased awareness of the Mobile Unit through a two-day outreach visit to Fairport Canal Days

2008 Major Objectives

Downtown Operations

- Seek additional outreach opportunities to provide passport services to schools, business and community partners
- Launch an enhanced Integrated Records Management System that will serve as a model for Clerks throughout New York State
- Partner with Kodak & Xerox to increase awareness and implementation of their anti-counterfeiting solutions for government documents
- Gain statewide approval of a XML specification for e-filing of court records developed with the New York State Association of County Clerks
- Explore additional opportunities to display historical artifacts held by the County Clerk's Office to enhance the public's understanding of our local history
- Enhance our customized data query offerings to allow customer driven access to our database and reports along with an automated billing system
- Expand our map scanning and printing capabilities
- Provide additional hardware redundancy to our application software, document image database and on-line web product

- Implement enhanced Pistol Permit record processing
- Provide database integration with county Geographic Information Services (GIS) and Tax systems for greater ease of use by on-line customers
- Extend capabilities of county department users to allow them the ability to search/print the information they need without relying on our office

Auto License Bureau

- Open a renovated and improved Irondequoit ALB Office to provide an enhanced customer experience while keeping costs stable for taxpayers
- Continue to oppose the issuance of driver licenses to applicants without Social Security numbers to protect the public safety of our community and the strength of our local economy
- Continue to lobby the New York State Legislature to allow county run Auto License Bureaus to keep more of the revenue they generate, in order to maintain the current level of customer service they provide
- Continue fraud detection efforts with enhanced training curriculum for all staff
- Partner with State DMV to serve as a test site for interactive kiosks to process basic transactions
- Prepare for the possible implementation of the Federal Real ID program in New York State

DEPARTMENT: Monroe County Clerk (21)
DIVISION: Downtown Operations (2101)

DIVISION DESCRIPTION

The Downtown Operations division is responsible for overall administration, recording, filing and storage of official documents, issuance of passports, permits and naturalization of new citizens.

SECTION DESCRIPTIONS

Administration (2101010000)

This section is responsible for policy development and the coordination of management, personnel, financial, purchasing and other central services of the Clerk's Office as well as preparation of required county, state and federal reports.

Recording, Filing and Licensing (2101020000)

This section's responsibilities include intake, indexing, preservation and retrieval of official documents as required by law. Items processed, recorded and filed by this section include mortgages, deeds and civil, criminal and divorce actions.

The County Clerk additionally acts as agent for the state and federal governments for issuance of passports, pistol permits and conservation licenses. The County Clerk also administers the Oath of Allegiance at naturalization ceremonies for new citizens.

Performance Measures

DEPARTMENT: Monroe County Clerk (21)
DIVISION: Auto License Bureau (2102)

DIVISION DESCRIPTION

As agent for New York State Department of Motor Vehicles, the Auto License Bureau operates three branch offices and three Mobile Units which process vehicle registrations, driver license renewals and other motor vehicle related transactions.

SECTION DESCRIPTIONS

Henrietta Auto License Bureau (2102020000)

The Henrietta Auto License Bureau provides public counter service for motor vehicle and license transactions, primarily serving residents in the southern portion of the county. Bulk processing of work for auto dealers from throughout the county is provided and funded within this section. The Henrietta Bureau additionally provides training for all Auto License Bureau staff and is the base of operations for the Metro Mobile Unit, serving the City of Rochester.

Greece Auto License Bureau (2102030000)

The Greece Auto License Bureau provides public counter service for motor vehicle and license transactions, primarily serving residents in the northwestern portion of the county. Additionally, the Greece Bureau is the base of operations for the Westside Mobile Unit, which makes stops in the towns of Chili, Clarkson, Gates, Ogden and Parma.

Irondequoit Auto License Bureau (2102040000)

The Irondequoit Auto License Bureau provides public counter service for motor vehicle and license transactions, primarily serving residents in the northeastern portion of the county. The Irondequoit Bureau additionally is the base of operations for the Eastside Mobile Unit, which makes stops in the towns of Penfield, Perinton, Pittsford, Webster and the Village of East Rochester.

Performance Measures

DIVISION DESCRIPTIONS

Legislature and Legislature Clerk (1001)

The Legislature Clerk staff prepares legislative calendars, records legislative activities and publishes official records to provide an accurate and timely account of all legislative and committee meetings. Staff maintains office hours when the Legislature is not in session and answers public requests for information. Salary expenses for most of the Legislators are budgeted in this division.

Legislature President's Office (1002)

The President of the Legislature is elected by a majority of the Legislature as set forth in the County Charter. The President supervises the Clerk of the County Legislature and other Legislative staff, presides at meetings of the Legislature, can participate in committees as a voting member and appoints members and chairpersons of committees, commissions, task forces or other such groups created by the Legislature.

Republican Staff (1011)

The Republican Staff division provides its party's legislators with independent research personnel skilled in public policy and financial analysis. They collect data on public policy matters and identify policy options. Staff members prepare critical reviews and analyses of proposed legislation, programs, the annual operating and capital budgets and the Capital Improvement Program to identify cost containment options.

Democratic Staff (1021)

The Democratic Staff division provides its party's legislators with independent research personnel skilled in public policy and financial analysis. They collect data on public policy matters and identify policy options. Staff members prepare critical reviews and analyses of proposed legislation, programs, the annual operating and capital budgets and the Capital Improvement Program to identify cost containment options.

DISTRICT ATTORNEY

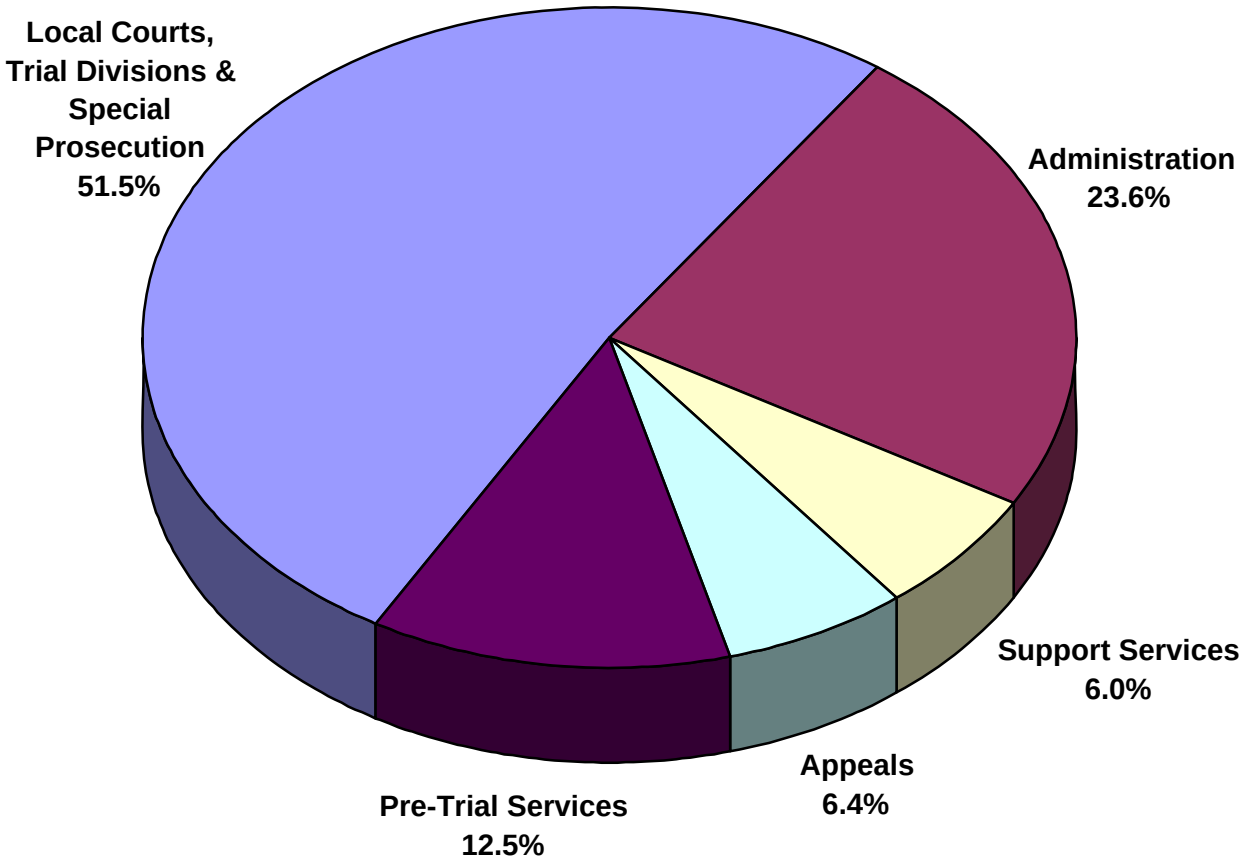
2008 Operating Budget -$11,432,883
2008 Grant Budget - $1,913,491



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Office of District Attorney (25)

DEPARTMENT DESCRIPTION

The District Attorney is a constitutional officer elected to a four-year term as Chief Prosecutor for Monroe County. The office oversees the prosecution of all crimes committed in the county. The work performed by this department is mandated by state law, but the County exercises some control over service levels. The operating divisions in the department are grouped according to functional objectives reflected in the department's organizational chart.

The District Attorney's Office will continue to pursue established priorities such as the delivery of specialized services to the victims and witnesses of crime and the enhancement of prosecutorial efforts in cases involving violent felonies, drug abuse and homicide.

Mission

With the efficient utilization of limited resources, the Monroe County District Attorney's Office provides effective prosecution services which enhance our community's respect for the rule of law and secure the appropriate disposition of cases while ensuring the rights of victims.

2007 Major Accomplishments

- 35 homicide convictions in 2006; 19 homicide convictions through June 30, 2007
- 198 felony trials in 2006; 104 felony trials through June 30, 2007
- Closed over 4,900 felony cases in 2006; over 2,300 closed through June 30, 2007
- Secured a 44% increase in funding for the Operation IMPACT and Cease-fire programs operated in conjunction with other law enforcement agencies and the City of Rochester in an effort to reduce the homicide and violent crime rate, and to curb gang-related violence
- Continuation of the Motor Vehicle Theft and Insurance Fraud Prosecution Program, which included the operation of several VIN etching workshops with Monroe County residents, and was partially responsible for a 26% decrease in the number of reported motor vehicle thefts in Monroe County from 2004 to 2006
- Continuation of the Road to Recovery Program in conjunction with the New York State Office of Alcoholism and Substance Abuse Services and the Rochester City Drug Treatment Court
- Continuation of the expansion of the asset forfeiture program to include funds being held by state and local law enforcement agencies
- Obtained additional funding for the continuation of the Crimes Against Revenue Prosecution Program to prosecute individuals and businesses that fail to pay sales, employment and NYS income tax, and to recover from them the taxes they owe to Monroe County and New York State
- Continued the Project Step UP partnership with the Boys and Girls Club of Rochester, a summer program that helped nearly 200 at-risk youth to resist peer pressure to get involved with guns, drugs and gang activities

2008 Major Objectives

- Continue to vigorously prosecute violent felons, drug dealers, and those that possess and traffic in illegal firearms
- Bring 200 felony cases to trial
- Continue to increase the percentage of violent felons who receive state prison sentences after conviction
- Continue working with the Monroe County Sheriff’s Office, the Rochester Police Department, Monroe County Probation and federal and state law enforcement agencies on the Operation IMPACT and Cease-fire programs

- Continue the PROJECT EXILE Gun Interdiction Program in cooperation with the US Attorney's Office
- Continue the Motor Vehicle Theft and Insurance Fraud Prosecution Program
- Continue to seek out grant funding for new crime-fighting initiatives, and pursue additional funding to expand existing programs like Operation IMPACT
- Continue aggressive asset forfeiture program aimed at confiscating the proceeds of illegal drug dealing activities while using the funds obtained to reduce county support for expanded anti-crime activities
- Continue to fund the Project Step UP Program with the Boys and Girls Club and seek out additional partners to expand this type of educational effort

DIVISION DESCRIPTIONS

Monroe County District Attorney's Office

The Monroe County District Attorney's Office is charged with prosecuting felony and misdemeanor crimes and violations perpetrated against the citizens of Monroe County. With a staff of over 80 authorized attorney positions, the DA's Office is one of the largest law firms in Monroe County. Based on caseload (nearly 5,000 felony arraignments and over 25,000 non-felony arraignments in 2006), the Monroe County District Attorney's Office ranks in the top ten offices in counties statewide.

The District Attorney is a constitutional officer elected to a four-year term as Chief Prosecutor for Monroe County. The work performed by the DA's Office is mandated by state law. The First Assistant District Attorney is appointed by the District Attorney and is responsible for general office administration, as well as overseeing all homicide prosecutions, evaluating each homicide arrest to determine the best prosecution strategies to ensure a conviction, and assigning a number of such cases to other experienced Assistant District Attorneys (ADAs) on staff based upon their individual strengths and the intricacies of each case.

The office is structured into a number of specialized bureaus, with each bureau overseen by a bureau chief.

Administration/Support Services (2501)

Administration manages the DA budget, undertakes grant writing and grant management, oversees personnel procedures, provides all clerical support, data entry, and other support services. Expenses involving the operation of the entire District Attorney's Office, including infrastructure support (phones, computers, and duplication services for example) are funded within this organizational unit. Additional support services funded within this division include the **Victim Witness Unit,** the **Clerical Support Services Unit,** and the **District Attorney Investigators Unit.**

Victim Witness Unit staff work with crime victims, helping them cope with the demands of the criminal justice system. They also make referrals to counseling programs, arrange rides to and from court, provide interpreters when needed, assist in the preparation of victim impact statements, and in making referrals for assistance to the NYS Crime Victims Board. Victim witness advocates also work with ADAs and Probation staff to obtain court orders for restitution for losses.

District Attorney Investigators locate additional witnesses to enhance the prosecution of cases, interview witnesses, and transport victims and witnesses to court appearances. The investigators also undertake sealed investigations under the direction of ADAs and provide assistance to other police and government agencies in auto theft, insurance fraud, and domestic violence investigations. In 2006, investigators assigned to this unit served nearly 25,000 subpoenas involving witnesses in felony case prosecutions (including material witness orders), and helped to locate over 1,900 victims and witnesses.

Staff assigned to the Clerical Support Services Unit provide secretarial support to the trial attorneys assigned to the various specialized prosecution bureaus, and are also charged with updating and maintaining all case records tracked by the office's information management system.

Grand Jury Bureau (2502)

Grand Jury administrative staff assist all felony attorneys in scheduling cases for Grand Jury presentation, and works with the Office of the Commissioner of Jurors to ensure the smooth operation of the several Grand Juries that are empanelled each court term in Monroe County. The ADA who supervises the bureau also advises prosecutors on presentation procedures and techniques, and coordinates the work of Grand Jury Stenographers, as well as personally presenting hundreds of cases to the Grand Jury each year.

Appeals Bureau (2503)

Staff respond to all appeals made in felony cases and make appellate motions on behalf of prosecutors assigned to the other bureaus. The Appeals Bureau handles all fugitive matters, extradition cases, Federal Habeas Corpus requests, and Freedom of Information Act inquiries. Attorneys argue cases before all appellate courts, including the US Supreme Court. Appeals Bureau ADAs also work with and advise prosecutors during trial when legal issues arise which may effect the ultimate disposition of a case.

DWI Bureau (2504)

Staff prosecutes all defendants charged with felony DWI, vehicular assaults and homicides, and related cases (Aggravated Unlicensed Operation of a Vehicle 1st for example). In 2006, 67.5% of those convicted in both felony and misdemeanor DWI cases were convicted of DWI, the highest rate of any large county in New York.

Domestic Violence/Child Abuse Bureau (2505)

Staff prosecutes all felony child abuse and domestic violence cases. ADAs assigned to this bureau also work closely with law enforcement, the Domestic Violence Consortium, the Bivona Child Advocacy Center, and other interested community groups to prevent and reduce the incidence of domestic violence. The Domestic Violence and Child Abuse Bureau Chief also supervises the prosecution of Elder Abuse cases where the victim is age 65 or older and has been subjected to physical abuse by a relative. The bureau has increased its use of evidence-based prosecution strategies in attacking domestic violence, which reduces the need for the eyewitness testimony of the often traumatized and intimidated victims and witnesses who are frequently involved in this type of crime.

Local Courts Bureau (2506)

Staff prosecutes all misdemeanors and violations in city, town, and village courts, and handles traffic matters in the village and town courts. Those assigned to this bureau staff nine City Courts, as well as Drug Court and the Integrated Domestic Violence Court and the forty-six judges who preside over cases in the various Monroe County town and village courts. The ADAs assigned to the Local Court Bureau prosecuted over 25,000 misdemeanors and violations in 2006, as well as overseeing the majority of City Court felony arraignments and traffic prosecutions in many of the town and village justice courts.

Financial Crimes/Technology/Non-Violent Felony Bureau (2507)

Financial Crime and Technology ADAs prosecute cases of major fraud (generally involving amounts of $10,000 or more) on the part of individuals, businesses, or their employees. They also investigate and prosecute county-wide check fraud schemes, all cases of felony insurance fraud, Welfare fraud, bank robberies not involving the use of firearms, prevailing wage cases under the labor law, and identity theft. Non-Violent Felony Bureau ADAs prosecute felony burglary cases, grand larceny, felony criminal mischief and fraud cases not prosecuted by the other more specialized bureaus. A new sub-unit of this Bureau, the Motor Vehicle Theft and Insurance Fraud Prosecution Program, began targeting the twin problems of motor vehicle theft and auto insurance fraud through a grant from the State of New York beginning in 2004. Partially as a result of this effort, the New York State Division of Criminal Justice Services has reported a 26% decrease in the number of reported motor vehicle thefts in Monroe County in 2006, in comparison to 2004. The Financial Crimes Bureau Chief shares responsibility for supervising the prosecution of felonies involving elder abuse with the Domestic Violence Bureau Chief.

In 2005, the District Attorney's Office received a new grant from the State of New York to create another sub-unit of the Financial Crimes Bureau that would pursue the prosecution of those individuals and businesses who violate New York State income, sales, excise and employment tax laws, with a goal of recovering lost revenue for the State's citizens. The cases that have so far been successfully prosecuted under this new Crimes Against Revenue Program have resulted in restitution being ordered in the amount of $140,000 from those convicted. This program was renewed in 2007.

Major Felony/Gun Violence Bureau (2508)

Staff prosecutes career criminals and violent felony offense categories of robbery, burglary, assault, rape, sexual abuse, and cases involving the use of firearms in the commission of a felony. The Major Felony Bureau Chief supervises the ADAs assigned to two additional sub-units (the Gun Bureau/Project EXILE Program and the Arson Bureau) and shares supervision with the Special Investigations Bureau Chief of the Operation IMPACT Program described below.

The ADAs assigned to **Project EXILE** specialize in prosecuting felonies involving the illegal possession and sale of firearms, and work with the US Attorney's Office to prosecute some of these cases in Federal Court in order to obtain longer prison sentences than State Courts may allow.

Special Investigations Bureau (2509)

Staff prosecutes all felony drug possession and sale cases, obtains court orders for wiretaps when required, and works with arresting agencies to seize the assets of convicted drug dealers. This bureau is also responsible for initiating the majority of the Asset Forfeiture cases in which the District Attorney's Office has a claim. The Special Investigations Bureau Chief shares responsibility with the Major Felony Bureau Chief in supervising the prosecution component of the Operation IMPACT program, described below.

Operation IMPACT

Beginning in 2004, ADAs assigned to the Major Felony and Special Investigations units began working together with the Rochester Police Department, Monroe County Sheriff's Office, New York State Police, United States Attorney's Office, Probation Office, Parole Office, the Mayor's Office and other agencies in a comprehensive effort to reduce homicides, street violence, and related drug trafficking. The implementation of this program involved restricting and eliminating plea bargaining on armed violent felonies, gun possession cases and drug dealers and instituting other changes to keep felons in custody while cases are pending. This initiative has resulted in a sharp increase in the number of violent felons receiving stiff state prison sentences for their crimes in 2005 and 2006. ADAs funded through this program are assigned to the Major Felony/Gun Violence Bureau and the Special Investigations Bureau. The District Attorney's Office portion of the funding for this program was increased over 40% for the 2006-2007 grant year by the NYS Division of Criminal Justice Services. This amount was increased once again by over 25% for the 2007-2008 grant year. The $2,029,861 combined City of Rochester/County of Monroe 2007-2008 IMPACT grant award was the largest given to any county outside of New York City.

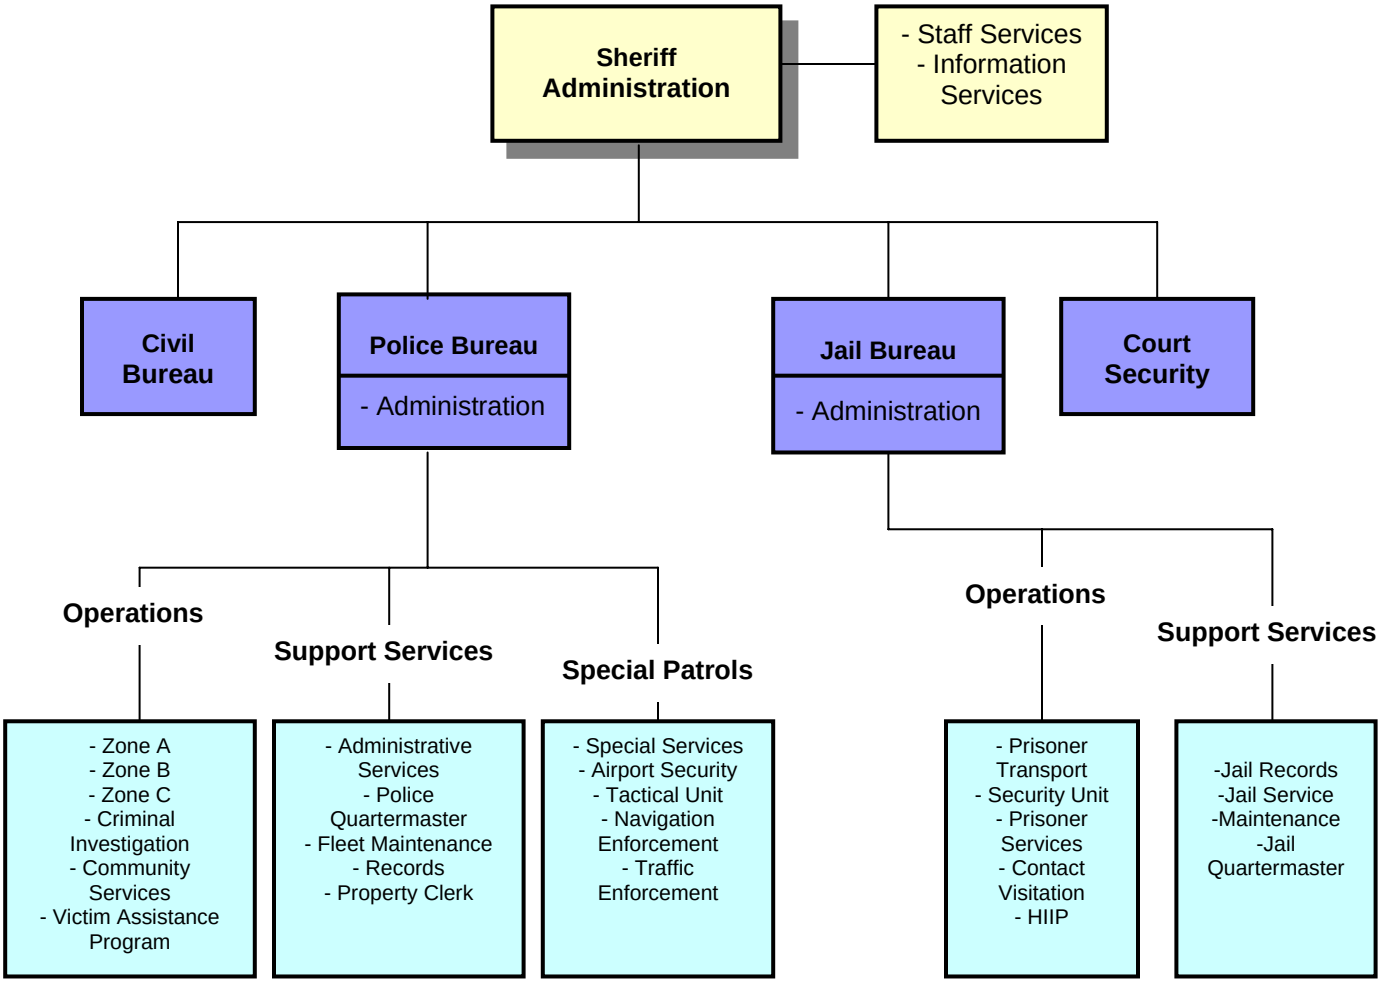
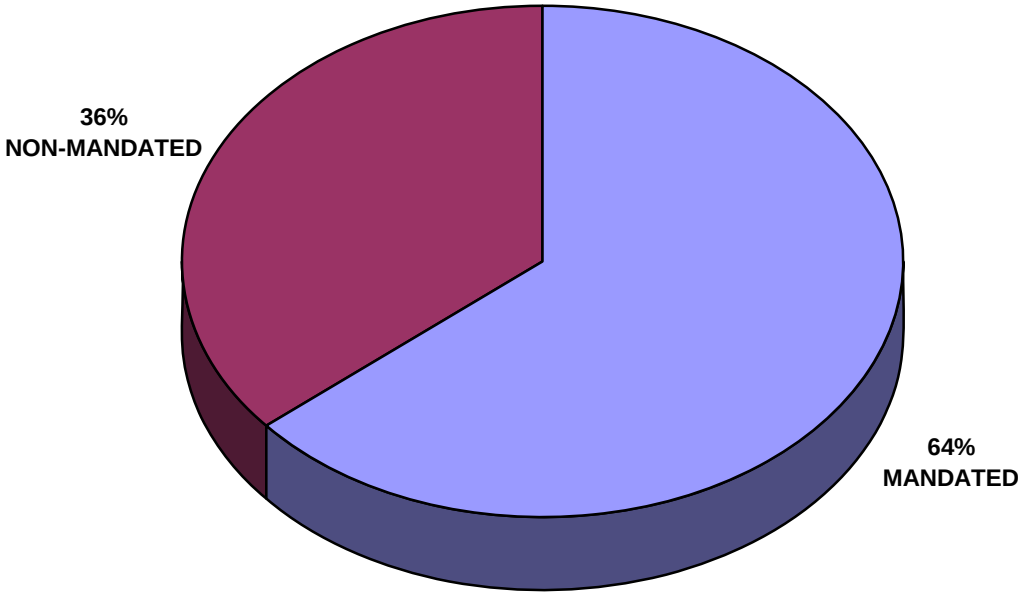
OFFICE OF THE SHERIFF

OFFICE OF THE SHERIFF (38)



OFFICE OF THE SHERIFF
2008 MANDATED/NON-MANDATED



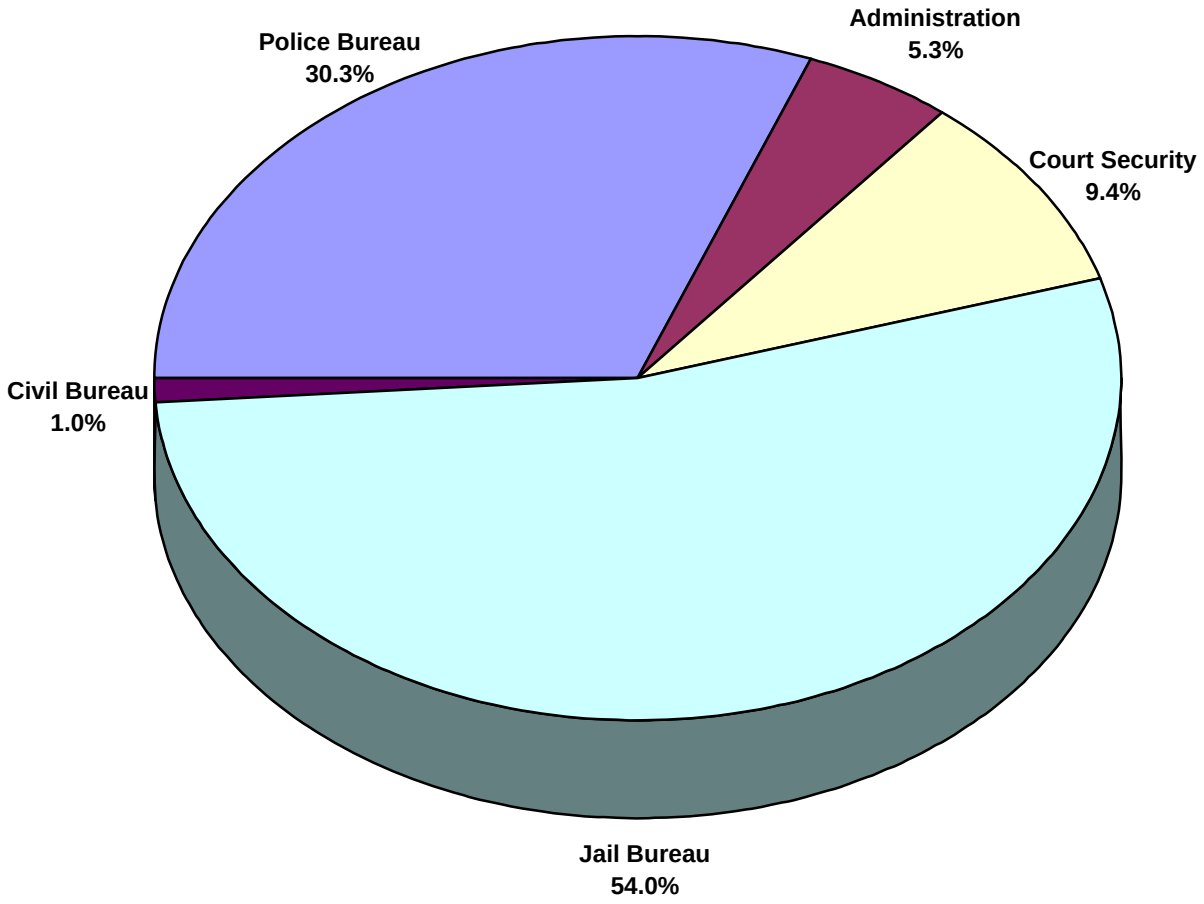
The percentages above do not reflect the deduction of Service Chargebacks.

NON-MANDATED	**41,021,460**
MANDATED	**72,639,254**
SUBTOTAL	**113,660,714**
DEBT SERVICE	**3,688,402**
SERVICE CHARGEBACKS	**(2,517,000)**
TOTAL BUDGET	**114,832,116**

The Sheriff provides the state mandated Jail and Civil Bureau as well as supporting a contract with the state for Court Security. The Road Patrol is considered a non-mandated service due to the flexibility and options included in its operation.

OFFICE OF THE SHERIFF

2008 Operating Budget - $104,079,641
2008 Grant Budget - $10,752,475



The percentages above do not reflect the deduction of Service Chargebacks.

DEPARTMENT: Sheriff (38)

DEPARTMENT DESCRIPTION

The Office of the Sheriff consists of an administrative division and four bureaus - Civil, Police, Jail, and Court Security. The Civil Bureau is the enforcement arm of the courts in all civil matters. The Police Bureau provides law enforcement services to the county outside the City of Rochester, and operates specialized patrols at the airport, in county parks, and on navigable waterways. The Jail Bureau provides housing for inmates remanded by the courts. It also transports prisoners to and from courts and to state correctional institutions. Court Security provides safety and protection in the courtrooms of the Hall of Justice and the Appellate Court Building on East Avenue.

Mission

The Monroe County Sheriff's Office is committed to securing a safe community and maintaining the trust and respect of those we serve by providing exemplary law enforcement and correctional services.

2007 Major Accomplishments

- Focused additional resources to the Internet Crimes Against Children initiative to include both traveler and peer to peer investigations
- Expanded the activities of the Warrant Impact function through weekly task force efforts and targeted Impact-funded details
- Completed training for all police bureau members in active shooter response protocols
- Instituted LiveScan fingerprinting for booking prisoners at each substation and at the Monroe Correctional Facility
- Completed Supervisory Leadership training for police bureau supervisors and managers
- Created a Sheriff's intranet to promote better communication and access to information, policies, forms and agency announcements
- Deployed new radio and paging communication systems in the Jail Bureau in conjunction with the Public Safety Communications Center
- Instituted security screening procedures and installed security screening equipment to enhance safety and security procedures for individuals entering both the Monroe County Jail and Monroe Correctional Facility
- Completed a security upgrade project in the mainframe of the Monroe County Jail and installed a vertical channel on all mainframe cells to reinforce and enhance the security and integrity of the cells
- Completed a review and catalog of all inmate rehabilitative programs, and established a protocol for ongoing review and approval of groups and individuals who enter the jail facilities (religious groups, community agencies, and other pertinent individuals)
- Researched and implemented Civil View, a web-based component of Softcode's Civil Serve, to enable customers to access case information
- Conducted an additional 96 hours firearms training for Court Security Bureau

2008 Major Objectives

- Coordinate active shooter training for participating Monroe County Law Enforcement Agencies
- Participate in the Monroe County Intelligence Center Initiative and enhance agency intelligence reporting and analysis
- Provide mobile wireless MDT (Mobile Data Terminal) capability to the Road Patrol and Civil Bureau with access to computer systems in the field

- Purchase and acquire a new STOP-DWI Van for mobile processing of DWI offenders
- Pursue and retain National Re-accreditation from Commission on Accreditation for Law Enforcement Agencies, Inc.
- Utilize strategic planning to identify capital improvement projects for both jail facilities
- Research and develop needs assessment and recommendation for upgrade/replacement of the Jail Management computer system
- Pursue and upgrade an enhanced radio infrastructure at both the Monroe County Jail and the Monroe Correctional Facility and connect to the Office of 911 Emergency Communications
- Expand the Sheriff's Office Jail Intelligence Unit into a more integrated Intel Center for the Jail, Road Patrol, District Attorney, and other law enforcement partners
- Implement wireless data feed from deputies in the field to Civil View to provide real-time information on cases
- Reconfigure design of the Hall of Justice Weapon Screening Station, with emphasis on improving building security and officer safety
- Transition all Police and Jail evidence photography collection and storage to a digital system

DEPARTMENT: Sheriff (38)
DIVISION: Sheriff's Administration (3801)

DIVISION DESCRIPTION

The Sheriff is a constitutional officer elected to a four-year term and serves as an officer of the court and conservator of the peace in Monroe County. He administers the Civil, Police, Jail, and Court Security bureaus. The Sheriff's administrative staff perform financial, budgetary, personnel, strategic planning and legal advisory functions for the department. The all-bureau Internal Affairs and Inspectional Services units are based in this division. Staff in this division also oversee the long-term state and national accreditation programs, which enhance the Office's quality of service. Several administrative chargebacks for the Sheriff's Office are consolidated within this division's budget.

SUPPORT SERVICES

Staff Services (3801020000)

The Staff Services unit performs the following administrative functions for the entire Sheriff's Office: recruiting, training, planning and research, long term state and national accreditations programs, policy development, facilities management, internal inspections, information services and health and safety. Their work includes seeking and testing candidates for employment, coordinating background investigations of new employees, scheduling instructors and facilities for training, instructing and monitoring health issues, and securing grant funds and programs.

Information Services (3801030000)

Information Services provides funding for software and hardware not included in the County Information Services budget. This unit is responsible for the budget, management and maintenance of the Sheriff’s software systems such as MoRIS, ILEADS, JMS, TraCS and the Xerox Digital Repository Services system.

DEPARTMENT: Sheriff (38)
DIVISION: Civil Bureau (3802)

DIVISION DESCRIPTION

The Civil Bureau is authorized by statute to act as the enforcement officer for all courts within the County of Monroe. The responsibilities delegated to this bureau are in two distinct areas. One is the service of process such as summons, subpoenas, notices, petitions, and orders. The second area, enforcement, involves evictions, executing on personal and real property, sales of personal or real property seized by the Sheriff, orders and warrants of arrest for civil contempt. The Sheriff is mandated by law to perform these services with a productive, dedicated and accountable work force.

Revenue is attained through receipt of fees and mileage for service and/or executing and poundage, the retention of 5 percent of every dollar collected via an execution. The Civil Bureau also must perform service of process and other acts at no charge by mandate of law. Examples are orders of protection, process for other Sheriff's departments and governmental agencies and the Legal Aid Society.

Through consistent internal review and audit, and proactive marketing of services, the Civil Bureau continually strives to maximize revenue received from the public and private sector.

DEPARTMENT: Sheriff (38)
DIVISION: Police Bureau (3803)

DIVISION DESCRIPTION

The Police Bureau includes the two primary law enforcement activities of road patrol and criminal investigations. Staff also conduct associated support functions and specialized police activities at the County Office Building, county parks, the airport, and on navigable waterways. Police Bureau Administration directs and oversees all operations from its temporary location at Irving Place at the corner of West Broad and Fitzhugh Streets. The uniformed road patrol activities, which are decentralized into zones, operate from three substations.

SECTION DESCRIPTIONS

Administration (3803010000)

Management personnel in this section supervise Patrol division staff and Tactical Unit activities, respond to public inquiries concerning the division, and maintain liaisons with other police and emergency units throughout the county. Information Services costs, building space charges, insurance expenses and other administrative chargebacks to the Police Bureau are consolidated in this section's budget.

Road Patrol Zone A (3803020000)
Road Patrol Zone B (3803030000)
Road Patrol Zone C (3803040000)

The uniformed deputies of the Road Patrol's three zones are the largest and most visible segment of the Police Bureau. Working primarily in municipalities that have no police force of their own, the Road Patrol enforces traffic laws, patrols neighborhoods, investigates complaints and crimes, and conducts community education programs.

Criminal Investigation (3803050100)

The Criminal Investigation section investigates all felony and violent crimes reported to the Sheriff's Office, investigates all criminal complaints within the Jail, and performs other investigative duties as required. Upon request from local police departments, this section also renders specialized investigative services for solution of major crimes.

Community Services (3803060000)

This section performs the community outreach functions for the Police Bureau which include developing and implementing crime prevention and safety programs, communicating with county residents on police-community matters, coordinating and teaching the county's DARE and conflict resolution programs, and providing juvenile counseling. Community Services programs enhance positive community attitudes toward law enforcement and instill a sense of community security.

Tactical Unit (3803070000)

Five special police activities make up the Tactical Unit. The Special Weapons and Tactics (SWAT) unit responds with special techniques and weapons to critical situations. The Hazardous Devices Squad perform the technical functions necessary to handle and neutralize explosives. The SCUBA Squad locates and retrieves drowning victims, submerged vehicles, weapons and other evidence. The K-9 Unit uses trained dogs for searches and in situations where the life of an officer might be placed in jeopardy. A Hostage Recovery Team works to free those held against their will. No staff is permanently assigned to the Tactical Unit. When an adverse situation develops, specially trained deputies from throughout the department are called upon for their expertise. Funding reflects the cost of equipment, supplies and materials associated with these activities.

Navigation Enforcement (3803080000)

The navigable waterways in Monroe County are patrolled by the Sheriff's Office during the summer boating season. These deputies enforce laws and speed limits, render assistance to boaters in distress, and provide safe boating instruction. Most expenses related to this activity are 65% state reimbursable.

Traffic Enforcement (3803100000)

The Sheriff's Traffic Enforcement Unit is a combination of STAR and the newly created day-time Traffic Unit. The day-time traffic unit is an expansion of the STAR Unit with patrol during the day-time hours. This unit directs the county effort to reduce the occurrence, frequency, and severity of traffic accidents, especially when alcohol is a contributing factor. The effort involves identification of high-risk accident locations, intensified patrol and enforcement activities, and evaluation of the impact of stricter enforcement on the incidence of traffic accidents. Commercial Vehicle deputies have been moved from Zone level to the Traffic Unit.

Victim Assistance Program (3803110000)

The Sheriff's Victim Assistance Program is a comprehensive program that engages victims at the scene or immediately thereafter, and walks them through the criminal justice system as needed. Direct services provided by this program include: crisis support; outreach through the home, work place, and hospital; information and referrals; case status information; short term counseling for victims and their families; advocacy; court procedure information and accompaniment; assistance with property recovery, and reimbursement assistance for lost wages and medical bills.

Administrative Services (3803120100)

Administrative functions relative to the activities of fleet maintenance, community services, 911 liaison, staff services, property management and quartermaster are performed by this section. These functions also include the formalization of department directives and monitoring of vehicle assignments.

Fleet Maintenance (3803120200)

The fleet consists of over 200 cars, trucks, vans and motorcycles plus an assortment of scooters, boats, trailers, and small motors. The budget for this section includes funds for the purchase of replacement vehicles, as well as repair and replacement of parts and lubricants.

Records (3803120300)

The Records section performs the central records retention and control functions of the department. Files are maintained on all complaints to which Sheriff's personnel respond and on all traffic summonses, persons arrested and pistol permit applicants. Criminal record checks are provided through fingerprint comparisons, photos, and computer database searches.

Property Management Unit (3803120400)

The Property Clerk's Office secures all property (excluding prisoner property) taken or received into custody by the Sheriff's Office. When no longer needed by the department, property is returned to its owners, auctioned off, or legally disposed.

Special Services (3803120500)

This section supervises the operations and personnel of the marine, parks, and Human Services security programs. Staff patrol select Human Services buildings as well as county parks during the summer season, enforcing laws and maintaining peace and order. Remote park areas are patrolled on horseback to provide increased security. To segregate expenses for purposes of reimbursement, the Navigation Enforcement staff is in a separate account (3803080000).

Police Quartermaster (3803130000)

The Quartermaster operates as the central receiving and distribution center for equipment and supplies. Inventories of office supplies, uniforms, weapons and ammunition are maintained for departmental use.

Airport Security (3803140000)

The Airport Security Unit patrols the Greater Rochester International Airport complex, provides law enforcement support to the pre-board screening process, and directs the flow of traffic on airport roadways.

DEPARTMENT: Sheriff (38)
DIVISION: Jail Bureau (3804)

DIVISION DESCRIPTION

The Jail Bureau is responsible for the care and custody of inmates confined by the courts, the New York State Division of Parole, and by the U.S. Marshal. The inmate population of the Monroe County Jail and the Monroe Correctional Facility consists of non-sentenced inmates awaiting trial or sentencing, sentenced prisoners serving a maximum one-year sentence, parole violators, and federal detainees. The Jail Bureau provides staff and facilities for security, prisoner transport, medical care, inmate rehabilitation, and support activities.

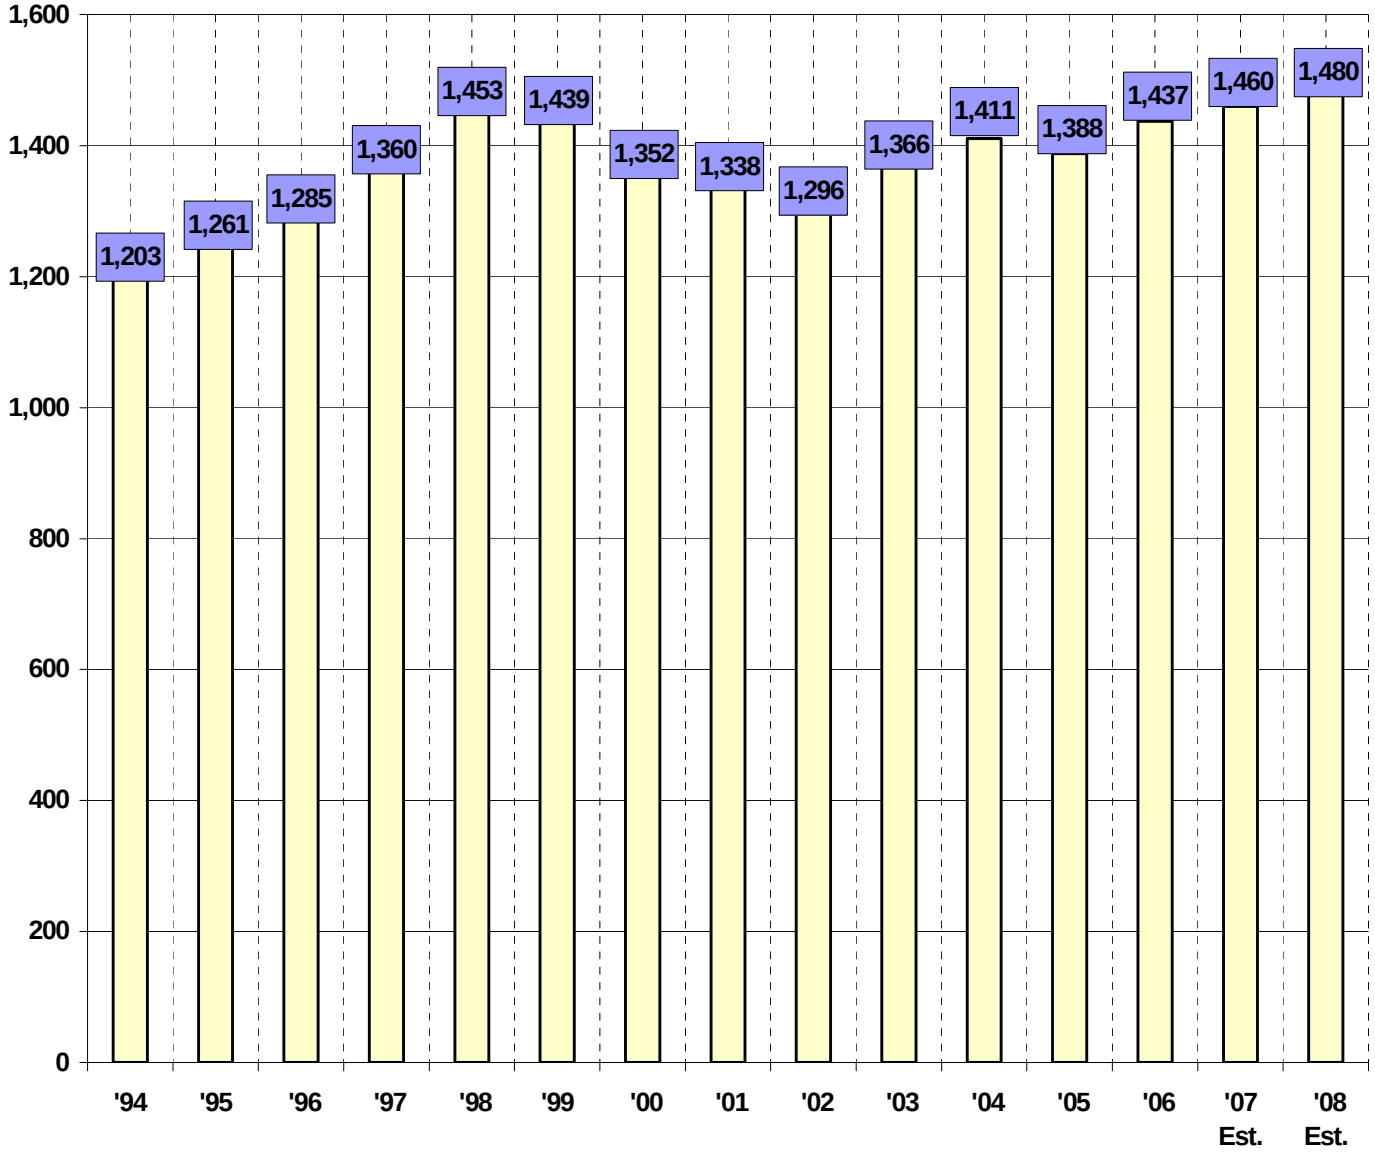
Average Daily Jail Population



SECTION DESCRIPTIONS

Administration (3804010000)

The Jail Bureau functions under the supervision of the Jail Superintendent who ensures that the jail is operated in compliance with state laws and minimum standards established by the State Commission of Correction. Command staff, reporting to the Superintendent, are responsible for the daily operation of the sentenced and non-sentenced facilities. The Superintendent, assisted by sworn officers and civilian personnel, supervises jail personnel, and is responsible for the safety, security and efficient operation of both facilities. Staff perform budgetary, payroll and other administrative functions. Information Services costs and building space charges for the jail facility are consolidated in this section's budget.

Prisoner Transport (3804020000)

Jail Bureau staff transports inmates from both facilities to and from courts, medical facilities, and other penal institutions, and guard inmates while in courtrooms and hospitals.

Prisoner Services (3804030000)

Prisoner Services develops and coordinates programs and services to help inmates adjust to incarceration and prepare for re-entry into the community. The staff provides and arranges for academic and vocational instruction, recreational activities, religious services, job placement, and work release programs. A comprehensive chemical dependency program for the sentenced population aggressively combats this prevalent inmate problem.

High Impact Incarceration Program (3804040000)

The High Impact Incarceration Program (HIIP) enables the Sheriff's Office to provide carefully screened technical parole violators access to chemical dependency treatment services. Inmates who are deemed eligible for participation in this program are housed together in a therapeutic community where they receive intensive drug abstinence programming. The jail also facilitates the placement of these inmates in aftercare services where their progress toward a drug-free re-entry to the community is monitored closely until completion of the program.

Security Unit (3804050000)

This section guards inmates and maintains security within the jail. Activities of security personnel include monitoring inmate housing areas, booking inmates, processing unarraigned inmates, and supervising inmate activities.

Jail Visitation Program (3804060000)

Closely supervised visits promote inmate morale and maintain important ties with family and friends.

Food Services (3804080000)

A contracted vendor produces three meals a day for the jail inmates. Special meals are prepared for those requiring medical, religious, or vegetarian diets.

Medical Unit (3804090000)

Physical, mental health, and dental needs of inmates are contractually provided while they are in custody. Daily sick calls are provided with further treatment, where appropriate.

Jail Records (3804100000)

The maintenance of documents related to prisoner commitment and discharge is performed by Jail Records. Bail money is also collected in this area.

Jail Service Maintenance (3804110000)

This section maintains the jail buildings, equipment, and operating systems for the health and safety of inmates and the jail staff. This includes maintenance of all HVAC, plumbing, electrical, and jail security and control systems.

Quartermaster (3804120000)

The staff of the Quartermaster orders and distributes equipment and supplies required by the Jail Bureau. They also maintain life-saving and fire fighting equipment, riot control equipment, and the department's weapons.

DEPARTMENT: Sheriff (38)
DIVISION: Court Security (3805)

DIVISION DESCRIPTION

Under state law, the county must provide security services to County Court, Supreme Court, City Court, Family Court and Surrogate Court. In addition, an agreement is now in place to provide security services for the Appellate Court Building. Although court operations are a state function, the security of the courts remains a local responsibility with costs reimbursed by the State. Under supervision of the Monroe County Sheriff, Court Security personnel maintain security and enforce the laws in the courtroom and adjoining areas, provide for the protection of judges and all court participants, screen for weapons by operating metal detectors at all building entrances, guard and transport juries, place persons into custody on order of a judge, and are responsible for all emergency responses at the Hall of Justice and the Appellate Court Building on East Avenue.

MULTI YEAR BUDGET FORECAST

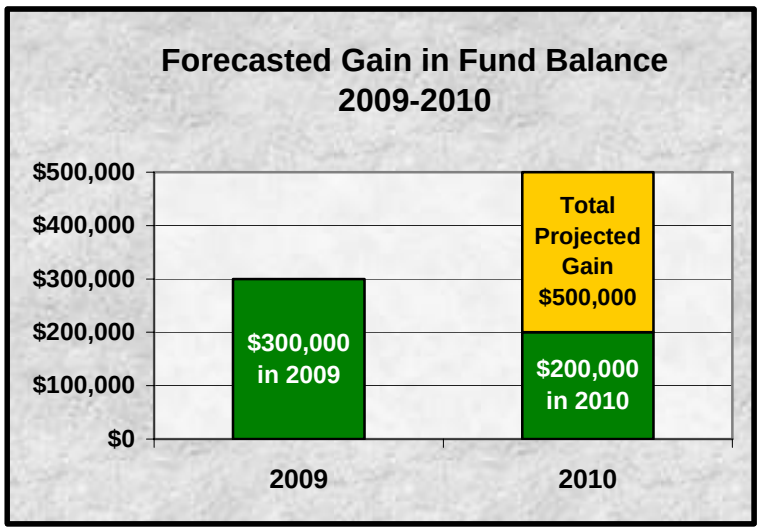
OVERVIEW

Since County Executive Brooks took office, her budgets have included the Multi Year Budget Forecast section. Until this year her budgets included it to implement the recommendation of the Budget Advisory Team as found in their 2004 report, *From Crisis to Stability*. With recent passage of a change in local law, this section is now required by County Charter.

The purpose of the Multi-Year Budget Forecast is to provide an analysis of what the future financial picture looks like. Any forecast is based on assumptions since it is trying to predict the results from events that have not occurred. The model used for this Forecast does not predict changes in current service mandates or the funding for them at the federal, state or local level. The costs of existing services are forecasted forward, and revenue growth, based on history, is compared to determine the gap.

While the multi-year projection is based on the most current data available, changes in economic conditions, federal and state funding sources and changes in employee compensation are among the many factors that can affect the forecast assumptions made in this presentation. In addition the model does not presume to surmise or speculate what changes the County Legislature or County Executive will make that might impact expenses or revenues. Current programs and their impacts are included in the model.

Given the assumptions noted, it is projected that the County's cumulative gap of expenses versus revenues for 2009-2010 will be favorable by $500,000. This compares with the 2008-2009 forecasted deficit of ($100,100,000). The elimination of the structural deficit that was in place when County Executive Brooks entered office is a result of the F.A.I.R. Plan. The elements of the F.A.I.R. Plan include a lower property tax rate, innovation in the way Monroe Community College costs and road/bridge repairs are funded and the implementation of the Medicaid Sales Tax Swap. The 2009-2010 forecast includes no Medicaid expense because the program costs have been eliminated through the Medicaid Sales Tax Swap. The forecast shows that expense and revenue changes are nearly in balance with each other, with a small favorable gap the result in both 2009 and 2010.



FORECAST TRENDS/ASSUMPTIONS

Medicaid

In the Multi Year Forecast for 2008-2009, Medicaid costs exceeded Sales Tax revenues by $73.4 million. Through the implementation of the Medicaid Sales Tax Swap, Medicaid program costs are eliminated. There are no Medicaid program costs included in the 2008 Budget nor the 2009-2010 Multi Year Forecast.

Public Assistance Benefits

Public Assistance Benefits include several programs. Family Assistance and Safety Net provide families and individuals with monthly support. These are projected to have a 2% cost per case increase to address cost of living adjustments. Adolescent Care and Child Welfare which contains Foster Care and Adoption includes a 3% cost per case increase. Resulting from Project SAVE, the forecast includes caseload reductions for Family Assistance, Safety Net, Adolescent Care and Child Welfare. Special Children's Services, consisting of Early Intervention and Education for Children with Disabilities, is forecast at a 3% increase. Other programs are Day Care and the Purchase of Services Division which includes Preventive and Protective Services for children and adults. These programs are all forecast at the 2008 level.

Personal Services/Employee Benefits

The County negotiates with various unions with regard to wage increases and benefit packages for employees. The economic climate and the current financial condition of the county weigh heavily during negotiations. Medical and retired medical expenses have significantly increased in recent years. The County has made significant efforts to control these costs by negotiating for an experience rated insurance product, increasing the employee share of the benefit and standardizing on lower cost health plans. Pension costs which dramatically increased over the past few years are now trending down from these high levels. Additional increases at historical levels are forecasted for dental, workers compensation and liability insurances.

Expenses (equipment, contractual, supplies, services)

Expenses for equipment and supplies constitute a very small percentage of the total appropriations. The majority of appropriations in this category are for contracts and services required to maintain the activities of the department. The forecast assumes a maintenance of effort budget with a nominal increase of 1.5% to 2.5% to reflect increases in the Consumer Price Index. Included in this category is the funding for certain Intermunicipal agreements.

Municipal Sharing Partners Expense

Included in this category is the funding for certain Intermunicipal agreements. These agreements with the City of Rochester, all towns and all villages were put in place so that the revenues received by the municipalities, now that Monroe County has implemented the Medicaid Sales Tax Swap, is the same amount compared with what would have been received if New York State had returned the full 4% Sales Tax levy.

Debt Service

Debt Service reflects primarily the principal and interest payments required for borrowings on capital projects. Capital projects are approved by the County Legislature as part of the Capital Improvement Program and the Capital Budget. The forecast reflects existing debt service schedules as well as anticipated borrowing needs for authorized projects and projects listed in the 2008-2013 Capital Improvement Program.

Departmental Revenues

Components of this category include the attributable revenues of the department to support the department's appropriations. Revenues come from a variety of sources such as federal and state aid, fees and intergovernmental revenues. In some cases the forecasted revenues are expense driven, while others are projected at historical levels.

Non-Departmental Revenues

Components of this category include sales tax revenue, property tax revenue and other non-departmental, miscellaneous revenues. Sales tax revenues have increased in the past decade at an average rate of 1.92%. The forecast assumes a rate of growth of approximately 2% per year. The Property Tax rate of $9.10 per thousand of assessed property value used in the 2008-2009 Multi Year Forecast has been lowered to the $8.99 Property Tax rate used in the 2008 Budget. Non-departmental, miscellaneous revenue includes interest income, penalties, fees, charges for services, etc. These revenues are projected at historical levels. No one time revenue measures are assumed in this Multi Year Forecast.

CLOSING

After years of crisis with Monroe County Budgets, a Multi Year Forecast that reflects the stability that has been achieved may cause some to become complacent. No final victory has been attained. There is an ongoing need to lower the cost of government. The accomplishment of structurally stable County finances will allow for strategic planning for future opportunities. The focused efforts to attain stability will be engaged toward funding a Tax and Service Stabilization Fund. The purpose of this fund is to allow stable tax and service levels during times of increasing costs. The projected results through 2010 do not afford measurable contributions to this fund. Continued innovation and belt tightening will be necessary.

As a result of the F.A.I.R. Plan, County Executive Brooks has accomplished what she stated she would. Her continued leadership of County Government offers great hope for stronger economic development and government that lives within its means. Her leadership encourages collaboration and innovation. The opportunities and possibilities are very positive.

FORECAST DETAIL

($millions)

The amounts presented by category reflect the gross appropriations (add to gap) and gross revenues (reduce gap) by category.

2008-2013 CAPITAL IMPROVEMENT PROGRAM
AND
2008 CAPITAL BUDGET

On March 22, 2007, the Monroe County Planning Board transmitted recommendations concerning the 2008-2013 Monroe County Capital Improvement Program (CIP) to the County Executive. The County Executive submitted the proposed Capital Improvement Program to the County Legislature on June 12, 2007 and it was adopted on July 10, 2007. The adopted program proposed $518.9 million to finance the costs of projects over the six-year period. $298.6 million will come from federal, state and special district sources. The remaining $220.3 million will be contributed by the county, with $30.2 million of that contributed by enterprise funds. Full details of the adopted CIP are published in the 2008-2013 Capital Improvement Program Report, which may be obtained from the Monroe County Department of Planning and Development. (Call 753-2037 if you need more information.)

Table 1, "2008-2013 CIP Summary", summarizes annual planned expenditures by funding source, over the six-year period.

In accordance with Resolution 272 of 1978 and Section 411 of the County Charter, in which the County Legislature defined and established policy for the development of the Capital Budget, the Planning Board prepared a list of capital projects by priority. Table 2, “2008 Capital Projects", details the projects, their costs, and those portions of the costs to be met by county funds and outside aid. This list represents the capital budget for the first year of the six-year program. The 62 projects listed require a total of $149,032,000 to finance; $24,536,000 from net county sources and $124,496,000 from all other sources.

THIS PAGE INTENTIONALLY LEFT BLANK

PART I - DEBT SERVICE AND CONTRACTED DEBT

DEBT SERVICE

Each year, Monroe County undertakes numerous capital projects to increase and improve the public facilities which it provides to the community. These projects include expansion and enhancement of recreational areas, reconstruction of highways and bridges, and improvements at the Greater Rochester International Airport, Monroe Community Hospital, and Monroe Community College. They also include projects which improve the environment such as the pure waters program and major renovations and improvements to existing structures at the Civic Center Complex and other County owned buildings. This protects and improves the investments which have been made in these facilities. Additional projects have been undertaken to provide facilities to effectively manage solid waste disposal and provide improved public safety and correctional facilities.

The cost of the above described projects are normally financed by the issuance of debt obligations which are then repaid over several years along with the interest incurred on the borrowings. An amount is included in each year's budget to make these payments, which when combined, are defined as debt service. The amount included in the 2008 Budget for capital projects is $63,567,073 and is included in the following operating budgets along with $1,567,500 to finance General Fund operations and $287,000 for Monroe Community Hospital operations.

FUND	2006 ACTUAL	2007 ADOPTED BUDGET	2008 BUDGET
GENERAL FUND			
Capital Projects	$ 14,195,202	$ 15,862,455	$ 19,385,850

TOTAL ALL FUNDS	**$** 57,839,910	$ 60,727,882	$ 65,421,573

CONTRACTED DEBT SERVICE SUMMARY

Some of the categories of debt service are self-supporting. In each of these, sufficient revenue is expected to be generated from sources other than general revenues of the County including the real property tax (i.e. state aid, federal aid, commissions, fees, etc.) to meet all operating costs and debt service. No general revenues of the County (including real property tax levy) are expected to be used to finance debt service for these areas. The self-supporting debt categories are those relating to the Airport, Water Improvements, Pure Waters Districts, Solid Waste (exclusive of the Resource Recovery Facility) and Monroe Community Hospital.

Debt service included in the General Fund has been shown by its major components. This has been done to identify the amount included for Water Facilities Improvements which is fully reimbursed by the Monroe County Water Authority under the terms of a lease agreement and the amount necessary for debt related to General Fund operations.

The 2008 Budget for the Greater Rochester International Airport assumes self-supporting operations, including all debt service costs. Major improvements to the facility such as terminal reconstruction, construction of a parking garage and runway rehabilitation are completed and have been financed and carried out by the Monroe County Airport Authority, an independent entity, without support from the County.

Pure Waters debt service is supported from special assessments, public sewer rents, and other revenues generated by Pure Waters. Monroe Community Hospital debt service is provided for by the capital cost portion of its reimbursement rates pursuant to Medicare and Medicaid legislation. Debt service related to the Solid Waste Fund is expected to be funded from tipping fees and other revenues of the Fund.

CONTRACTED DEBT

Monroe County and its Pure Waters Districts have entered into agreements and leases for the use of facilities. These agreements generally call for rental payments to be made by the County equal to the debt service incurred by the lessor for the facilities. These payments are considered contractual obligations since the County has not issued any direct debt instruments (notes or bonds).

A. Pure Waters

The Rochester Pure Waters District has assumed an obligation to reimburse the City of Rochester for certain payments made by the City for City indebtedness on sewer facilities leased by the Rochester District. Other Pure Waters Districts have similar agreements for the use of facilities of other districts, such as treatment plants or interceptor sewers.

B. Solid Waste

The construction of the County's Recycling Center was financed by the issuance of Certificates of Participation which require the County to make payments annually to retire the Certificates and pay the interest on them. The County also has an agreement with the Monroe County Water Authority which requires payments by the County to the Authority in connection with the cost of providing water facilities to certain portions of the Town of Riga. This agreement was entered into in conjunction with the construction of the Mill Seat Landfill. Certain costs associated with the gas to energy facility at the Mill Seat Landfill, payable pursuant to a contract, are also accounted for in contracted debt.

CONTRACTED DEBT SERVICE SUMMARY

	2006 ACTUAL	2007 ADOPTED BUDGET	2008 BUDGET

2026	1,790,000	106,531	1,896,531
2027	1,540,000	33,688	1,573,688
	$495,118,751	$155,349,419	$650,468,170

The preceding Schedule of Bonded Debt Service does not take into consideration the defeasance and/or future payment of certain bond principal as the result of monies received or to be received by the County in conjunction with a lease agreement entered into as of January 15, 2002 relating to the Mill Seat Landfill.

Amounts may not add due to rounding.

PART VII - CONSTITUTIONAL DEBT LIMIT

The Debt Limit of the County is computed in accordance with the provisions of Article VIII of the State Constitution and Title 9 of Article 2 of the Local Finance Law. These provisions limit the amount of debt which can be incurred to 7% of the five-year average full value of taxable real property. The amount of indebtedness outstanding and subject to the debt limit is the total indebtedness outstanding less certain exclusions such as debt incurred for water facilities improvements and debt for sewers subject to the approval of the State Comptroller.

Debt Limit	$2,267,477,036
Total Net Indebtedness (as of September 30, 2007)	408,057,981
Debt Margin	$1,859,419,055

EMPLOYEE BENEFITS OVERVIEW

RETIREMENT

Major changes in the New York State Retirement System in recent years have significantly affected the county's annual pension costs. In 1992, a New York State court decision was rendered which disallowed the continued use of the "Projected Unit Credit" (PUC) method of determining actuarial pension liability within the New York State Retirement System. As a result of that decision, the New York State Retirement System phased in over several years a return to the traditional aggregate cost method of pension funding. The 2008 budget for retirement is $26.4 million.

MEDICAL BENEFITS

The medical insurance cost for each employee varies with the type of coverage. Medical benefits for retired employees are budgeted in the department to which they were last assigned. The total county cost for medical benefits for both active and retired employees is estimated at $46.2 million for 2008. Employees may choose from a variety of plans and coverage options. Cost to the employee and county depends on the type of coverage chosen, employee's hire date and whether they are covered under union contracts.

SOCIAL SECURITY

A two-tier calculation system is used to determine the county's share of Social Security costs, based on rates specified under federal law. A rate of 7.65% is applied to each employee's salary up to a maximum salary amount of $97,500. Any salary amount over $97,500 is subject to a rate of 1.45%. For example, FICA for a position with an annual salary of $100,000 would be calculated as follows:

$97,500 X 7.65%	=	$7,459
$2,500 X 1.45%	=	$36
Total FICA	**=**	**$7,495**

The 2008 budget also includes coverage for temporary county employees. Beginning July 1, 1991, federal regulations have required that all local government employees must be covered by Social Security whether or not they are members of a public employee retirement system. Temporary employees not in the NYS Retirement System are included in FICA estimates. The total estimated cost for Social Security in 2008 is $17.5 million.

WORKERS COMPENSATION AND UNEMPLOYMENT

Workers Compensation covers the cost of claims against the county by employees who have been injured while on the job. The cost is budgeted to each department on the basis of the relative cost of claims which the department has experienced. Unemployment insurance provides federal and state-mandated unemployment coverage to former county employees. The cost is budgeted to departments primarily on the basis of each department's share of the county's total payroll cost. The county is self-insured for these two benefits. It pays routine claims from current funds and maintains insurance policies only to cover extremely large claims. For 2008, the county has budgeted $4.6 million for Workers' Compensation and $500,000 for Unemployment.

DENTAL INSURANCE

This coverage provides maximum annual payments of $1,000 per family member. The county is self-insured, and the program is administered by contract. Claims are paid by current operating funds. The 2008 budget for Dental insurance is $3.7 million.
