Subject: Amending the 2021 Monroe County Budget to Authorize an Increase to the Veterans Service Agency Budget to Add an Additional County Service Worker Position and Implement a Pilot Ecotherapy Program for Veterans

Honorable Legislators:

Our community owes a debt of gratitude to the men and women who served in our armed forces. The freedoms and liberties we enjoy are due to the bravery of our service men and women, in particular, our combat veterans. Sadly, many veterans suffer from post-traumatic stress or other trauma related conditions. This can affect a person's ability to maintain employment, personal relationships, and unfortunately can lead to dire situations like homelessness and suicide.

According to a 2017 report from the U.S. Department of Veteran Affairs, an average of 17.5 of every 100,000 veterans in New York State commits suicide. Tragically, this number increases to 20.5 of every 100,000 when looking at data within Monroe County. According to the New York State Division of Veterans Services, in 2019 an estimated 1,270 veterans across the state are homeless on any given night. While there is no one-size-fits-all reason, many veterans either have trouble attaining, or have difficulty accepting assistance from healthcare professionals or veteran service organizations.

This legislation will facilitate the accomplishment of two objectives. The first, ensuring a full time Monroe County Veterans Service Agency employee be staffed with the Veterans Outreach Center. The second, to provide funding for the Monroe County Veterans Service Agency to launch a pilot program for ecotherapy, a cutting edge outdoor based counseling program that has shown outstanding success in helping those in the veteran community in need of counseling services.

The Monroe County Veterans Service Agency and the Veterans Outreach Center are both critical veteran resources in our region. However, each organization provides unique services. By having a Monroe County Veteran Service Agency staff member, specifically a Veterans Services Officer, assigned to the Veterans Outreach Center, there will be a trained liaison at the ready to offer help and direction to veterans. This will be most helpful for veterans who visit the Veterans Outreach Center looking for services from the Monroe County Veterans Service Agency, as being told help is at a different office is often a barrier to seeking assistance. Having a Veterans Service Agency representative on site at the Veterans Outreach Center will reduce the number of individuals failing to connect with the Veterans Service Agency in order to acquire the services they were originally seeking.

A leading resource for veterans struggling with post-traumatic stress or simply re-integrating with society either in the workplace or socially is counseling. While traditional therapy programs are often helpful, sometimes they are unsuccessful. Ecotherapy is a form of counseling that incorporates nature into its counseling methods, offering a new option that integrates counseling services with a team-based outdoor setting that many veterans are accustomed to from their military service. Monroe County is home to Trybe Ecotherapy, which offers this innovative approach to supporting veterans in our community. Outdoor therapy programs similar to Trybe Ecotherapy have been implemented in several west coast states with success and has garnered federal government support through the “Accelerating Veterans Recovery Outdoors Act” signed into law in December 2020. Bringing this cutting-edge therapy program to our veterans will ensure that those who sacrificed so much for us, and may be suffering with lingering trauma, can receive the help they deserve to continue to contribute to and reintegrate with society at home.

Veterans have long been a source of security and support within our community and throughout our entire country. It is critical that these courageous individuals receive the programs, services and safeguards to protect their well-being beyond their time of service. In order to make meaningful and effective steps towards ensuring veterans have access to crucial resources, we propose that this Honorable Body allocate additional funding for the Veterans Service Agency to provide for the addition of staff and an ecotherapy pilot program. It should be noted, a successful pilot ecotherapy program can be applied in the future to any resident with PTSD symptoms such as battered women and abused children.

The specific legislative actions required are:

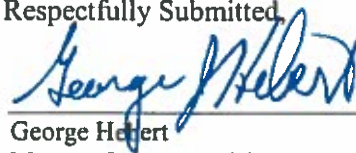

1. Authorize the transfer of \$172,446 from general fund 9001, fund center 1001020000, Community Contingency Fund, to make available sufficient appropriations for the addition of one (1) full-time County Service Worker and launch an ecotherapy pilot program.
2. Authorize the creation of one (1) additional full-time County Service Worker, Group 12, in the Veterans Service Agency.
3. Amend the 2021 operating budget of the Veterans Service Agency by appropriating the sum of \$47,446 within general fund 9001 from fund center 1001020000, Community Contingency Fund to funds center 7401010000, Veterans Service Agency for the express purpose of funding one (1) newly created County Service Worker position to work in collaboration with the Veterans Outreach Center.
4. Amend the 2021 operating budget of the Veterans Service Agency by appropriating the sum of \$125,000 within general fund 9001 from fund center 1001020000, Community Contingency Fund into funds center 7401010000, Veterans Service Agency, Professional Services for the express purpose of implementing a pilot ecotherapy program.

Monroe County shall comply with all applicable provisions of the Monroe County Procurement Policy prior to awarding any contracts authorized in this referral.

The newly created position of County Service Worker shall be subject to classification by the Civil Service Commission. Funding appropriated for this position is contemplated on a tentative March 1, 2021 hire date and includes funding for salary, retirement, social security contribution, medical insurance, and dental insurance. Full-year funding for this position is estimated to be \$56,535, not accounting for any contractual pay increases or cost of living adjustments.

The provisions of the New York State Environmental Quality Review Act shall be complied with prior to the undertaking, funding, or approving the action in this referral.

Subject: Amend the 2021 Operating Budget to Transfer Appropriations from the Legislature's Community Contingency Fund to the Department of Diversity, Equity and Inclusion to Fund a Language Access Position

Honorable Legislators:

In 2020, Monroe County dealt with the biggest public health crisis in over a century. The Covid-19 pandemic has proven to be a challenge to our community, but one that we have weathered with a sustained community-wide effort. The administration has provided strong leadership, guidance, and up-to-date information. However, rising COVID-19 cases in Monroe County recently led the Governor to designate parts of the region an "Orange Zone" in the midst of the holiday season. As community leaders, we have followed the guidelines about COVID-19 in Monroe County closely. Yet, throughout the pandemic we have seen the intensification of racial disparities in communities of color, especially those within the Limited English Proficient community.

Monroe County is home to over 30,000 residents in the Limited English Proficient (LEP) community and even more in the Deaf or Hard of Hearing community. This referral would increase the County's capacity to provide translation and interpretation services, including with respect to COVID-19, for the LEP and Deaf or Hard of Hearing communities in Monroe County to ensure they receive critical information in a format that they can understand. There is a crucial need for this kind of support in Monroe County, especially during the pandemic, where Limited English Proficient (LEP) communities have missed out on critical information because it was not provided in their native language and interpretation services have not been readily available at agencies providing services.

This is a challenging time for local governments. This referral would prevent further gaps in information and guidance regarding COVID-19 and county services to these communities. The burden of information sharing should not disproportionately fall on the shoulders of providers in the LEP, Deaf and Hard of Hearing communities. This referral will further the goal of achieving greater equity for all.

This Honorable Body and the administration have a long history of collaboration. This proposal would utilize funds from the Legislature's Community Contingency Fund to fund salary and benefits for a position in the Department of Diversity, Equity and Inclusion dedicated to providing language access services. The newly created position will be subject to classification by the Civil Service Commission. This employee would begin with a focus on communications related to COVID-19 and other emergency situations and then expand their focus to include other county services, ensuring a language access plan.

The specific legislative action required is:

Amend the 2021 operating budget to transfer \$90,000 from the Legislature, general fund 9001, funds center 1001020000, Community Contingency Fund to the Department of Diversity, Equity and Inclusion, general fund 9001, funds center 2201010000, Diversity, Equity and Inclusion for the purpose of funding one full time position, (FTE) including benefits, dedicated to language access services.

The legislative action requested in this referral is not an "Action," as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

No additional net County support is required in the current Monroe County Budget.

Re: Memorializing Governor Andrew M. Cuomo to Expand Long-Term Care Facility Visitation for Essential Caregivers

Honorable Legislators:

The COVID-19 pandemic has changed the lives of every New Yorker. However, perhaps none more-so than the most vulnerable population to the virus: long-term care patients. In New York, long-term care facilities such as nursing homes have been subject to some of the strictest restrictions and regulations in the Country. With new data available, access and visitation for long-term care facilities should be reevaluated.

To long-term care patients/residents, visitation is not simply a visit from a loved one or family member, but rather a crucial aspect of their care. In some cases, family involvement has been linked to longevity, increased quality of life, and greater satisfaction with life from those residing in long-term care facilities. These family members and loved ones should be properly recognized as the essential caregivers they are. From performing needed care such as washing their face and trimming their nails to simple face-to-face interaction, these times of visitation and care are necessary. The last years of our neighbors' lives should not and cannot be spent alone without family or loved ones, wondering when and if they will be able to see them again.

The professionals working in these facilities are allowed to perform their necessary duties in a safe and reasonable fashion, there is no reason why essential caregivers cannot do the same. Scientifically speaking, there is no difference in risk between interacting with a medical professional, who has met CDC, WHO and other health and safety guidelines, and interacting with an essential caregiver who has done the same.

Now almost a year into the COVID-19 pandemic, we can and must utilize the data that we have gathered. This data can in turn be used to make informed decisions allowing for safe and reasonable revisions to be made to previously enacted restrictions, and have long-term positive effects on the lives of those living in these facilities. Therefore, I urge you to join me in calling upon Governor Andrew M. Cuomo and the New York State Department of Health to revise long-term care facility visitation guidelines to remove essential caregivers, most

commonly one family member, and include them among medical and care professionals currently allowed within these facilities.

Re: Memorializing the New York State Legislature and Governor Andrew M. Cuomo to End the Practice of Diverting Local Sales Tax in Order to Supplant the State's Own Funding for Longstanding State Responsibilities

Honorable Legislators:

New York State has recently implemented a practice of diverting local sales tax to fund state designed and controlled programs. These programs have been the responsibility of the state for decades. Local sales tax has become the primary source of revenue for New York State Counties and other local governments. Often revenue from sales tax has been the catalyst for decreasing property taxes as well as reducing other fiscal burdens on residents.

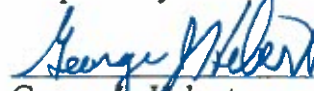

Elected local leaders in New York State have prioritized controlling and lowering property taxes in effort to reduce the tax burden for small businesses and homeowners. This is also an effort to lower New York State's ranking as one of the highest property tax burdened states in the nation. With the Governor and State Legislature moving to divert, local sales tax dollars to be used for specific state purposes, they're taking away more than \$484 million annually that local governments will use to operate and potentially decrease taxes elsewhere for residents.

The COVID-19 pandemic has burdened counties and citizen across the state. Record revenue loss has been reported from numerous counties including record state reimbursement cuts and payments delays; there has been no reform of state mandated programs. Diversion of local revenues for state needs ultimately results in higher property taxes, damaging New York's economic competitiveness and harming homeowners and small business. The diversion of these dollars will simply act as a bail out for state programs, when what really needs to be done is a systematic overhaul of New York State government's reckless spending and fiscal mismanagement.

In recent years, New York State has seen record numbers of residents choosing to relocate out of state due to high taxes with no relief in sight; this must end. Therefore, I ask you to join me in urging the New York State Legislature and Governor Andrew M. Cuomo to end the practice of diverting local sales taxes for state budget purposes. Furthermore, we ask them to abide by the two-year sunset for the diversion of sales tax that is currently scheduled to begin

this year to replace state funding for distressed health care providers or go directly into the state general fund.

Subject: Authorize the Initiation of the Process for Making Additions to Monroe County Agricultural Districts

Honorable Legislators:

I recommend that Your Honorable Body authorize the initiation of the process for making additions to Monroe County's Agricultural Districts.

Section 303-b of the Agriculture and Markets Law requires Your Honorable Body establish an annual 30-day period during which landowners can submit proposals to include land that is predominantly viable agricultural land within a certified agricultural district. Monroe County would begin this addition process by publishing a general notice to make landowners aware of the 30-day submission period. At the end of the 30-day submission period all requests for inclusion will be referred to the Monroe County Agricultural and Farmland Protection Board (AFPB) for its recommendations. The AFPB then has 30 days to make a recommendation to Your Honorable Body concerning any proposed additions to the state-certified agricultural districts. Upon receipt of the recommendation, Your Honorable Body must hold a public hearing before taking action to adopt or reject the addition of any parcels to any district. A second referral will be submitted to Your Honorable Body after the report of the AFPB to schedule the public hearing and recommend adoption or rejection of the addition of parcels to any district.

The specific legislative actions required are:

1. Authorize the Clerk of the Legislature to publish and post notice of the 30-day submission period for requests to include land, which is predominantly viable agricultural land, within state-certified Monroe County agricultural districts.

2. Direct the Monroe County Agricultural and Farmland Protection Board to prepare and submit a report, within 30-days of the termination of the submission period, with its recommendations as to whether inclusion of each piece of land proposed to be included in the certified agricultural districts a) consists predominantly of viable agricultural land and b) would serve the public interest by assisting in maintaining a viable agricultural industry within the certified agricultural districts.

This is a Type II Action pursuant to 6 NYCRR 617.5(c)(24) (“information collection including basic data collection and research, water quality and pollution studies, traffic counts, engineering studies, surveys, subsurface investigations and soils studies that do not commit the agency to undertake, fund or approve any Type I or Unlisted action”) and is not subject to further review under the State Environmental Quality Review Act.

This initiation of process will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Subject: Acceptance of a Grant from the New York State Division of Criminal Justice Services for the Livescan Equipment Grant Program and Authorize Intermunicipal Agreements with Eight Municipalities within Monroe County

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body accept a grant from the New York State Division of Criminal Justice Services in the amount of \$135,000 for the Livescan Equipment Grant Program, for the period of December 1, 2020 through November 30, 2021, and authorize intermunicipal agreements with eight (8) towns and villages within Monroe County which have local police departments.

This grant will fund the partial purchase of Livescan equipment for eight (8) police departments within Monroe County to include the Village of Brockport, Town of Brighton, Town/Village of East Rochester, Village of Fairport, Town of Gates, Town of Greece, Town of Irondequoit and Town of Webster. The County is currently implementing a new County-wide Police Records Management System that will include the arrest module for all County police agencies. Therefore, on behalf of all the aforementioned police agencies, the Sheriff's Office applied for the grant to replace old and outdated equipment. 4. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
