**Re: Memorializing the New York State Legislature to Withdraw or Not Support A9395/S7855
As It Relates to the Composition of the Western Regional Off Track Betting Corporation**

Honorable Legislators:

Western Region Off-Track Betting Corporation (WROTB) is an established corporation and is "a body corporate and politic constituting a public benefit corporation. WROTB is administered by a board of directors consisting of one member from each participating county who are appointed by the county governing body; WROTE has fifteen [15] Western New York county directors, as well as directors for the cities of Rochester and Buffalo.

Since its inception, WROTB has generated over \$250 million in operating and surcharge revenues to the taxpayers of those participating municipalities. Throughout its long history of serving the 15 counties and two cities that comprise the corporation, the enabling legislation provided that the Board of Directors of WROTB would be comprised of one representative from each of the 17 affected municipalities. In 1973, pursuant to such enabling legislation, the Monroe County Legislature passed enabling legislation, Resolution 241 of 1973 that authorized and empowered Monroe County to participate in the WROTB as had been created by the state. Pursuant to Resolution 241 of 1973 specifically provided that it was "subject to permissive referendum and shall become effective in accordance with Section 24 of the Municipal Home Rule Law of the State of New York."

Bills A9395/S7855, an act to "amend the racing, pari mutuel wagering and breeding law, in relation to the membership of the Board of Directors of the Western Regional Off-Track Betting Corporation," would violate nearly 50 years of statutory precedent in the statutory formation of WROTB and attempt to destroy the equal representation held by the local municipalities, including Monroe County, who have contributed to the success of WROTB. In 2021, Batavia Downs, with more than 625,000 attendees, wagering nearly \$700 million this past year alone, lead to record earnings distributions for the 17 municipalities that have come to rely on their WROTB distributions to balance their local budgets while reducing the property tax burden for businesses and homeowners. Senate Bill S7855 not only violates Resolution 241 of 1973, adopted by this Honorable Body, but will remove Monroe County's equal and fair representation and have a destabilizing effect upon the organizational structure of WROTB. Therefore, I ask you to join me in calling upon the New York State Legislature to Withdraw or Not Support A9395/S7855 as it relates to the composition of the Western Regional Off Track Betting Corporation.

Sincerely,

Sabrina LaMar

Re: Memorializing the New York State Legislature to Adopt and Governor Kathy Hochul to Sign A1276/S4414 as It Relates to the Authorization of Expansion to Local School District Transportation Limits

Honorable Legislators:

Transportation remains a major challenge for urban school districts like ours across the State. Our students rely heavily on District transportation, not only as a result of our larger school zone configuration, but also to take advantage of safe passage.

Within the past few months our District has experienced an increase in acts of violence in our schools and communities. As a result, we have been actively working to address concerns around school safety. It is evident that the current mileage limits under transportation aid do not align with circumstances in large cities and fail to provide exceptions where it is unsafe for students to walk.

Bill A1276/S4414 would allow school boards the ability to authorize resolutions to provide transportation for kindergarten through grade 12 students living one-half mile or more from school due to safety concerns. This provision will provide additional and much needed supports for Rochester City School District (RCSD) students and families. This Bill would also benefit the RCSD as progress is made to optimize zone configurations to retain and entice new families to join our school community. It would afford parents the option to send their children to a school closer to home with transportation, while also providing more school options, as there are many instances where parents select schools based on ensuring their child will be transported rather than walking in unsafe conditions.

Therefore, I ask you to join in calling upon the New York State Legislature to adopt and Governor Hochul to sign A1276/S4414 into law for the betterment and safety of our students.

Re: Memorializing Governor Kathy Hochul and the New York State Legislature to Alleviate Taxpayers of the Unfair Financial Burden Placed Upon Them by the Local Share of Medicaid Costs

Honorable Legislators:

When it was created by the federal government in 1966, the Medicaid health insurance program for the poor and disabled was intended to be fully funded by the Federal and State governments. However, at the time of its creation, New York State inappropriately forced local governments to pay half of the State's Medicaid costs. Despite these efforts bi-partisan efforts, local costs of Medicaid funding paid in New York State continue to be greater than local costs paid in all other states combined. For example, in 2021, Allegany County spent 28.39% of its total tax levy on Medicaid, or 8.6% of its total budget.

The amount of money local governments must contribute to Medicaid in New York is excessive and places an unfair burden on the local taxpayers. Furthermore, counties with a greater proportion of poor and disabled residents bear a greater financial burden to cover the program's costs, highlighting the inequality of forcing local taxpayers to foot the bill. Therefore, I call on Governor Hochul and the New York State Legislature to give counties the authority to do the following: audit the Medicaid program, control the cost of prescription drugs, set provider reimbursement rates, modify eligibility, and benefit levels, adjust to changing demographics in State, control provider contracts.

Previous suggestions such as taking county governments' federal enhanced Medicaid match savings, diverting local sales tax revenues to pay local shares, and eliminating the STAR exemption do not truly alleviate the burden placed upon local taxpayers and instead simply shift costs and continue to strain local governments. It is our duty to protect our County from further and continued unnecessary spending shifted upon local governments at the expense of our taxpayers. Therefore, I ask you to join me in calling upon Governor Hochul and the New York State Legislature to alleviate taxpayers from the unfair burden placed upon them by the Medicaid local share, either through legislation, sound budgeting; greater efficiencies in the program's administration, or any combination thereof.

Re: Memorializing the Congress of the United States to Support the Designation of the Finger Lakes as a National Heritage Area

Honorable Legislators:

The Finger Lakes form a unique and diverse region in Upstate New York. All of them encompass a patchwork of cultures and history, as well as spectacular natural, scenic and recreational resources that reflect a unique contribution to the collective American identity. They are distinguished by eleven pristine lakes formed over 19,000 years ago at the end of the "Ice Age." Additionally, they hold Native American histories and landmarks, rich agricultural lands that inspired settlement, villages and small towns, a world-renowned wine industry, which have together have truly formed a unique and distinctive landscape.

The Congress of the United States has the authority to designate National Heritage Areas. For consideration, an area must encompass a region where natural, cultural, historic and recreational resources combine to form a cohesive, nationally distinctive landscape shaped by geography and cultural traditions. A Finger Lakes National Heritage Area Feasibility Study was authorized by the John D. Dingell, Jr. Conservation, Management, and Recreation Act of 2019, which directed the Secretary of the Interior to evaluate the natural, historic, cultural, educational, and recreational resources of the Finger Lakes.

Legislation identified the following counties to be considered as part of the study: Cayuga, Chemung, Cortland, Livingston, Monroe, Onondaga, Ontario, Schuyler, Seneca, Steuben, Tioga, Tompkins, Wayne, and Yates. Monroe County is within the Finger Lakes Tourism Region, as designated by New York State law and the National Heritage Area study area. It has a plethora of natural, cultural, historic, agricultural and recreational resources pertinent to the study.

The Finger Lakes Tourism Alliance, founded in 1919, has worked since 2014 with regional and area civic organizations, local jurisdictions and local governments, business community and numerous other stakeholders and non-profit groups in submitting the original request to the National Park Service. This resulted in the Feasibility Study funding in 2019 and they continue to work with the National Park Service to gather input from the public regarding the creation of a national heritage area in the Finger Lakes.

Monroe County supports the Finger Lakes National Heritage Area designation and the inclusion of all fourteen counties including Cayuga, Chemung, Cortland, Livingston, Monroe, Onondaga, Ontario, Schuyler, Seneca, Steuben, Tioga, Tompkins, Wayne, and Yates counties in the National Heritage Area. It also supports the Finger Lakes Tourism Alliance in their current and future leadership role in administering the National Heritage Area. Therefore, we ask to join us in calling upon the United States Congress to designate the Finger Lakes Region as a National Heritage Area.

Re: Memorializing Governor Kathy Hochul and the New York State Legislature to Oppose Any Decrease to the Farm Labor Overtime Threshold

Honorable Legislators:

The Farm Laborers Wage Board has recently proposed to decrease the farm labor overtime threshold from 60 to 40 hours. While this seems innocuous, it could have a detrimental effect on New York State’s largest industry. Farms are critical components of our regional economy and are necessary to ensure supermarkets are stocked with food and other products. From the outset of the COVID-19 pandemic, farmers have stepped up and ensured their operations continued and were responsible for donating thousands of pounds of food to local food banks at a time of significant need. Western New York farmers face a tremendous number of challenges outside of their control including changes in consumer demand that lead to price change, obtaining labor, the environment, land management policies, foreign market competition, and livestock and crop disease. In addition to the practical issues related to growing and selling food products, New York farmers have to contend with wavering levels of government regulations including changes in wages and overtime threshold.

One of the more pressing issues for the farming community has been mandated overtime requirements since the 2019 Farm Laborers Fair Practice Act, which currently gives farmworkers a right to overtime after sixty (60) hours of work each week. Western New York farmers are reliant on migratory work forces during the short growing season here in Western New York as workers are here for only a few months in the spring and summer – workers depend upon these hours and wages and farmers depend upon the extra help during busy season.

Any decrease to the overtime threshold will negatively impact the farming community by increasing costs to farmers, who are already operating under very tight margins and will potentially cut into work opportunities for migrant workers. Cutting budgeted support levels and drastically increasing costs through government interference should be avoided whenever possible. Therefore, I urge Governor Hochul and the New York State Legislature to support farmers and migrant workers who do not want their hours reduced and oppose the lowering of the farm laborer overtime threshold.

RE: Memorializing the New York State Legislature and Governor Kathy Hochul to Invest \$5 billion in the child care sector in the Fiscal Year 2023 enacted budget to ensure that all families have access to child care and providers are compensated accordingly

Honorable Legislators,

New York State Senate Bill S7595 and NYS Assembly companion bill A8623 call for a system in which all families in New York State have access to child care, and all child care workers are paid fairly as educators. The Universal Child Care Act will provide “for the establishment and funding of universal child care in the state of New York; [will] relate to the effectiveness of the child care availability taskforce and make an appropriation [for same].” This State legislation has been introduced with the goal of creating a free and universal child care system that is available to all, in the same manner as the public school system, without the burdens of means-testing.

New York State's child care sector is facing an economic crisis. In 2018, the NYS legislature created a Child Care Availability Task Force. In 2021, that Task Force issued its final report, finding that the current crisis "requires a dramatically different approach to child care: one that recognizes that high-quality child care is a public good and that provides the necessary public investment" to implement a system of high-quality universal child care. There also exists a crisis in the availability and quality of child day care in NYS, and this crisis poses a danger to both the welfare and safety of the children and to the productivity of the workforce.

The extremely high turnover rate has interfered with the ability of day care centers to comply with regulatory requirements and to properly serve the children in their care. Due to these extraordinary circumstances, the state must intervene and provide assistance for recruitment and retention of child care workers. The Senate and Assembly bills outline appropriations. Funds would also be allocated to

local social services districts for grants to support the retention and recruitment of teaching and supervisory staff.

Therefore, I ask you to join me in thanking our State Delegation for supporting A8623 and S7595, and to urge passage of both bills. We also request Governor Hochul invest \$5 billion in the child care sector in the Fiscal Year 2023 enacted budget to ensure that all families have access to child care and providers are compensated accordingly

**Short Environmental Assessment Form
 Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed action is for the acquisition of interests in properties and improvements to an existing roadway. Improvements consist of remedying asphalt condition, improving roadside drainage, cross slopes, and increasing width and condition of paved shoulders, all of which are consistent with Type II roadway maintenance (617.5(c)(5)) and has been found categorically to not have significant adverse impacts on the environment. Accordingly, roadway maintenance will not result in a significant adverse environmental impact.

The acquisition of interests in properties is limited to permanent and temporary easements related to roadway maintenance and improvements that by themselves are classified as a Type II action. The acquisition of temporary and permanent property interests are ancillary to necessary roadwork and are minor, but are an unlisted action. However, such property acquisitions are minor and ancillary to roadwork will not result in a significant adverse environmental impact.

Considering both actions together the main environmental concerns are impacts to wetlands. The scope of work does include shoulder improvements which may widen the impermeable surface. However, shoulder improvements are minimal, will be constrained by environmental and physical features and will include drainage channels that will allow runoff to infiltrate and filter into the ground or into storm sewers before reaching adjacent wetlands. Additionally, should a wetland delineation determine encroachment on existing wetlands Monroe County will seek appropriate permits with required mitigation efforts from the New York State Department of Environmental Conservation consistent with the Freshwater Wetlands Act.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject: Amend the 2022-2027 Capital Improvement Program and the 2022 Capital Budget to Add a Project Entitled "Parks Forestry Heavy Equipment" and Authorize Financing for the Project

Honorable Legislators:

I recommend that Your Honorable Body amend the 2022-2027 Capital Improvement Program and the 2022 Capital Budget to add a project entitled "Parks Forestry Heavy Equipment" in the amount of \$300,000 and authorize financing for the project.

In late 2021, the 1998 bucket truck used by the Parks Department's Forestry team, Horticulture division, failed a periodic safety inspection of the hydraulic systems used by the lift and was taken out of service. The County's Fleet Services division has been notified by Altec, the manufacturer of the truck's hydraulic lift accessory, that due its age and condition, Altec will no longer service the equipment or certify it for further use. Due to the age and condition of the truck body, complete replacement of the entire unit is warranted.

The Parks Department intends to replace the bucket truck with a functionally equivalent modern unit and supplement it with a smaller "crawler lift" that, instead of being self-propelled, can be moved from site to site by a trailer and then unloaded and deployed into much tighter spaces than any bucket truck. This lift will also be of benefit to the skilled tradesmen employed in the Parks Department's Support Services division for access to roofs and lighting enclosures on a variety of projects.

The Department's budget estimate for these purchases, based on similar bucket trucks recently bought by other County departments and quotes obtained on a few different models of crawler lifts, is:

Table with 2 columns: Item and Amount. Rows include Bucket Truck (\$150,000), Crawler Lift (\$125,000), Transport Trailer for Crawler (\$25,000), and Total (\$300,000).

The specific legislative actions required are:

1. Amend the 2022-2027 Capital Improvement Program to add a project entitled "Parks Forestry Heavy Equipment" in the amount of \$300,000.
2. Amend the 2022 Capital Budget to add the project entitled "Parks Forestry Heavy Equipment" in the amount of \$300,000.
3. Authorize financing for the project entitled "Parks Forestry Heavy Equipment" in the amount of \$300,000.

This is a Type II action pursuant to 6 NYCRR 617.5(c)(31) ("purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be included in the capital fund to be created, and in any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Amend Resolution 167 of 2019 to Increase the Contract Amount with T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. for Engineering Services for the English Road Culverts Project over Round Pond Creek Tributary and over Kirk Creek in the Town of Greece

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 167 of 2019 to increase the contract with T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. for engineering services from an amount not to exceed \$210,350.84 to an amount not to exceed \$480,048.91 for the English Road Culverts Project over Round Pond Creek Tributary and over Kirk Creek in the Town of Greece.

This project involves replacement of two (2) existing culverts on English Road with new precast concrete box culverts, with soldier pile wing walls. The project will also consist of water main relocation, guiderail, and pavement improvements in the immediate project areas. The roadway will be closed to traffic, and detours posted. The current schedule is to start work in spring 2022 with an anticipated completion by fall 2022.

Pursuant to Resolution 167 of 2019, Your Honorable Body awarded a contract to T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. in the amount of \$210,350.84 for engineering services for the English Road Culverts Project. Due to additional engineering services being required for the project, the contract amount needs to be increased by \$67,729.65 for additional design services and \$201,968.42 for construction inspection services, for a total contract amount of \$480,048.91. \$56,288.46 of the additional design services is for costs associated with design of timber retaining walls to protect town-owned pedestrian structures in the immediate vicinity of both culvert structures, additional utility relocation design and coordination, and revision to the work zone traffic control plans to accommodate pedestrian access during construction. The remaining \$11,441.19 for additional design services is associated with coordination with the Monroe County Water Authority and the New York State Department of Environmental Conservation for watermain relocation and guiderail design and details at both culvert locations.

The specific legislative action required is to amend Resolution 167 of 2019 to increase the contract with T.Y. Lin International Engineering, Architecture & Land Surveying, P.C. for engineering services from an amount not to exceed \$210,350.84 to an amount not to exceed \$480,048.91 for the English Road Culverts Project over Round Pond Creek Tributary and over Kirk Creek in the Town of Greece.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(2) (“replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in the 2022 operating budget of the Department of Transportation, fund 9002, funds center 8002050000, Consolidated Local Street and Highway Improvement Program (CHIPS). No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Due to a clerical error, omitting the wholly exempt status, the property's assessed value was not adjusted after the Board of Assessment Review meeting. This resulted in an incorrect assessment value being utilized on the 2022 Town/County tax bill.

The necessary procedure to be followed by the Monroe County Legislature regarding this refund is for that body, by resolution, to approve this application, to authorize and direct the Controller to draw an order on the Director of Finance payable from the Erroneous Assessment Account for the heretofore stated sums and to authorize and direct the County Director of Real Property Tax Services to mail a duplicate copy of the approved application to said taxpayer.
