### Standards to Determine Compliance with National Objectives

Each Activity must meet one of the three broad national objectives:

1. To benefit low to moderate-income persons.
2. To aid in the prevention or elimination of slums or blight.
3. To meet community development needs having a particular urgency.

Please ensure that the proposed project meets at least one of the following eligibility criteria:

**Low-Mod area benefit activities.** Monroe County's CDBG funds are intended to be used in the suburban towns and villages that comprise the Community Development Consortium. HUD determines the Upper Quartile ranking of eligible Census Block Groups based on the most recent Census and current consortium membership. CD staff will verify that the project location is in an eligible Low-Mod Area.

**Limited clientele activities.** Limited clientele activities benefit low to moderate-income persons without regard to the area being served. At least 51% of the persons participating in the activity must be low to moderate-income and the activity must meet one of the following criteria:

- **Presumption of low to moderate-income.** The activity may serve persons that are presumed to be low to moderate-income, such as abused children, battered spouses, elderly persons, disabled persons, homeless persons, illiterate adults, persons living with AIDS, migrant farm workers, etcetera; or,
- **Income guidelines.** Activities must have eligibility requirements which limit the activity exclusively to low to moderate-income persons; or,
- **Nature and location.** The activity must be of such a nature and in such a location that it may be concluded that the activity's clientele will primarily be low to moderate-income persons, i.e. public housing activities.

**Housing activities.** An activity carried out for the purpose of providing or improving permanent residential structures which, upon completion, will be occupied by low to moderate-income households.

**Job retention activities.** An activity designed to create or retain permanent jobs where at least 51% of which, computed on a full-time equivalent basis, involve the employment of low to moderate-income persons.

**Slum and blight.** Activities that aid in the prevention or elimination of slums or blight. This objective is generally not applicable to locations in suburban Monroe County.

**Urgent need.** Community development activities having an urgent need. This objective is rarely used and is reserved for alleviating emergency situations, such as natural disasters.

### Standards to Determine Project Eligibility

1. Describe the location of your project and how the area will benefit from the project. Include the boundaries, Census Block Group(s) and/or service area.

2. Describe the population/target group your project will serve and how low to moderate-income persons will benefit.

3. What evidence do you have that at least 51% of the persons to benefit from the proposed project are considered to be of low to moderate-income (LMI)? Please check the appropriate category below.

Income Survey     Census Data     Limited Clientele     Other (please explain)

4. In the table below, outline the major steps/activities your agency will undertake to complete the project.

Major Steps / Activities	Number of Clients Served
Example: Home buyer counseling session of 1.5 hours	20 potential home buyers

**Standards to Determine Budget Compliance**

Two separate budget forms are provided for your use, a Community Service & Planning Study Budget and a Public Works & Public Facility Improvement Budget. The forms are meant to act as a guide. You may provide your own budget in another format, if available.

Prior to completing the Budget Form, review the following limitations on the use of CDBG funds:

- CDBG funds may not be used for acquisition of property used for primarily religious purposes or to promote religious interests regardless of the use of the property.
- Requests for funds to undertake capital improvements to real property or open space development must include proof of legal ownership or authorization from the owner to perform the improvements.
- Renovation costs may include equipment provided the equipment is fixed and permanent and is not moveable.
- Lease or rental of capital equipment is generally advised because all assets acquired by a third-party contractor with CDBG funds have, upon termination of the contract, to be transferred to the County or the contractor must reimburse the CDBG program at the current per unit fair market value less the amount of depreciation previously agreed upon with the County.
- The following costs are not allowed: bad debts; contingencies; contributions and donations; entertainment costs (including meals for social events and awards/graduation banquets); gifts or incentive awards to individuals; fines and penalties resulting from violations of or non-compliance with Federal, State or Local laws; interest on borrowed capital; fundraising; investment management; losses on other awards; and, litigation expenses.

<b>Funding Sources</b>		
Please list all amounts and funding sources for the project, as required by HUD.

## **Monroe County Community Development**

### **CDBG/HOME Environmental Review Checklist Instructions**

In an effort to streamline the review process for all Community Development Block Grant (CDBG) and HOME Investment Partnership (HOME) Program applications, we have prepared the attached Environmental Review Checklist for use by applicants. This checklist captures all of the information required to begin an environmental review for any project and must be submitted with all applications for funding that involve any type of construction.

Applicants must provide the following:

- Project address, location description and tax ID number
- Legible project location map and site plan (11x17, minimum)
- Part 1 of the SEQR Short Environmental Assessment Form completed by the town or the applicant
- Letter from SHPO stating that the project will have no impact on historic or archaeological resources
- Copy of resolution approving rezoning, if applicable
- Copies of letter from SHPO, SEQR forms, etc. from previous applications if the current project is a continuation of a phased project previously funded

The following environmental issues may add time, tasks, cost and documentation to the review process:

- SHPO: Projects that include more than 4,000 square feet of new construction or buildings over 50 years old definitely require a letter from SHPO
- FLOODPLAIN: Projects in a 100-year floodplain trigger an eight-step public notification process. If the project includes a bridge, it impacts a 100-year floodplain.
- WETLAND: Projects that are near a federal or state wetland need to show that the wetland was delineated
- NOISE: Housing projects that are near a major highway, rail line or the airport may need a noise review. Results of the noise review may influence building design requirements.

If you have any questions regarding the preparation of this checklist or the provision of related documentation, please feel free to contact Rochelle Bell, Monroe County Environmental Planner, at 585-753-2034 or via email at: [rbell@monroecounty.gov](mailto:rbell@monroecounty.gov).
