

Monroe County Influenza Surveillance 2009-2010

Week Ending October 24, 2009

Laboratory Surveillance: Positive influenza tests are reported on the NY State Health Information Network (HIN) by all diagnostic laboratories. The figure shows the number and type of positive tests from Monroe County residents, and the percent of all tests performed that were positive for flu.

Emergency Room Surveillance: All 5 Monroe County Hospitals report to the HIN the total number of visits each day. ILI cases are those that have fever or fever and respiratory symptoms as chief complaint.
