What is Youth As Resources?....(YAR)

Rochester-Monroe County YAR is sponsored by the **Department of Human Services Rochester-Monroe County Youth Bureau** and is a community based philanthropy program that provides small grants to young people to design and carry out community service projects that address social issues or problems and contribute to change in the community.

Youth As Resources seeks to empower and engage youth as partners with adults in creating positive community change and development. The youth and adult members govern the YAR Board that provides mini grants to local youth in order to develop and carry out service projects that address a clear community need.

Youth and adult Board members strive to make their community healthier and improved. The youth Board members range from ages 14-21 and have diverse backgrounds that reflect varied socioeconomic status, live in city or suburban areas, have experience in community service projects, and/or are new in the area of volunteerism. The adult Board members also come from an array of different backgrounds that include schoolteachers, parents, community development representatives, businessmen and women, community members and others.

YAR assists in increasing participants (Board members and recipients) connectedness to their community, neighborhood and adults through participation in the YAR activities. Thus YAR contributes to “social capital development” which refers to the levels of connectedness, involvement, trustworthiness, and reciprocity among people. Social capital is a barometer and foundation of the health, vitality, viability, and productivity of individuals, communities and society as a whole.

Youth As Resources is able to link youth and community development opportunities together. From YAR, communities benefit from the hard work, services and products youth provide. Youth are given the opportunity to change their lives while at the same time improving the lives of others. Adults also start to perceive youth as partners who can contribute to their community, and should be respected and trusted.

Youth As Resource of the Rochester-Monroe County Youth Bureau has been able to establish a partnership with Youth Venture, Inc. With this partnership, YAR has the opportunity to increase the pool of grant money that is currently being distributed to the community.

Youth Venture, Inc. will assist YAR in a grant-matching program. For example, if a group applies for a grant for their community service project for \$500, YAR will grant the group \$250 and Youth Venture, Inc. will grant the group \$250, totaling the \$500 that was asked. In order to qualify for the YAR/Youth Venture Grant, a project needs to be a sustainable project, meaning, once the grant cycle is complete, the project needs to continue so it can have a long-lasting impact on the community.

What is a YAR/Youth Venture Grant?

Youth As Resources and Youth Venture, Inc. have joined forces to offer you a choice as you develop your project. Youth Venture supports projects much like Youth As Resources. If you choose to apply for a YAR/YV grant, all the same requirements apply as with a traditional YAR grant. The main difference is to qualify for a YAR/YV grant; your project must be **ongoing and sustainable**.

Youth Venture¹ is a national movement of young people who are proving that their dreams, creativity and abilities make a positive difference to communities across the nation. A **Venturer** is a young changemaker who sees an opportunity to organize a team and leave a lasting improvement in his or her school or community. Funding priority will be given to projects that will continue (sustain themselves) beyond this grant period with documented, ongoing funding planning.

Youth Venture teams tutor children, prevent crime, assist senior citizens or clean up the environment. Some have started small businesses, selling a product or a service that people in their community need. Others have launched a club, like photography or radio club, or a sports league that allows young people to pursue their interests with their friends.

If you would like to expand your project idea and make it an ongoing venture, you can apply for a YAR/YV grant.

Advantages to a YAR/YV grant:

- You will have the opportunity to make an ongoing impact.
- You will be eligible to receive up to \$1,000 as seed capital for your venture (i.e. YAR will provide \$500 and YV will provide \$500)
- You will be linked to a national network of like-minded young people.
- You will be informed of scholarship opportunities, awards and special conference invites.
- You will be eligible for media opportunities.
- Providing for funding given to sustainable (ongoing) projects.

To apply for a YAR/YV grant, you will need to complete section 3 in addition to the rest of the application.

Budget Instructions:

(See Budget and timeline for YAR/YV applicants in Appendix A)

- Please review on pg. 4 what funds can and cannot be used for.
- Complete Budget Appendix A if planning a sustainable project and wish to apply for the YAR/YV grant (**Please remember Priority will be given to these projects**)
- Complete Budget Appendix B if applying for a traditional YAR Grant.

Detailed Directions:

Appendix A:

- The first block will help you determine your start-up expenses.
- In the activity/tasks column, write down all of the items or tasks that you need to get your project off the ground (ie: If your project was beautification, then you would need rakes, paint, flowers, etc.)
- In the numbers column, write down an estimated total cost of all of your items or the cost for each respective month (ie: printing off fliers, soil, etc.)
- Then write the total for the monthly expenses and tally it up in the Total Annual column.
- In the second block you are going to calculate your on-going expenses for the project.
- So you have to calculate how much each month is going to cost you for all the items/activities that you intend to do
- Now add them together for each total month to figure out the annual cost.
- The Third block will help you determine donations or revenue that you might receive throughout the year
- In the donations column, write down what the donation is or who gave it
- Then document the month and how much the donation was for in the number columns

Appendix B:

- Fill out this budget form even if you have already filled out Appendix A.
- Write down the items that you will be purchasing in the description column
- In YAR Funding column, write down how much the item is going to cost that you would like YAR to fund
- If you think you will be receiving donations or in-kind gifts, note that in the proper column and who you received it from.

Note: Use this form for sustainable Youth Venture projects.
