RESOLUTION NO OF 2021				
CLASSIFICATION OF ACTION AND DETERMINATION OF SIGNIFICANCE PURSUANT TO STATE ENVIRONMENTAL QUALITY REVIEW ACT FOR SALE OF COUNTY OWNED TAX FORECLOSURE PROPERTY LOCATED AT 90 DUNBAR ROAD, PARMA, NEW YORK				
BE IT RESOLVED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:				
Section 1. The Monroe County Legislature determines that the County owned tax foreclosure property located at 90 Dunbar Road, Parma, New York is an Unlisted action.				
Section 2. The Monroe County Legislature has reviewed and considered the Short Environmental Assessment Form dated October 20, 2020 and has considered the potential environmental impacts of the sale of County owned tax foreclosure property located at 90 Dunbar Road, Parma, New York pursuant to the requirements of State Environmental Quality Review Act and has found that the proposed action will not result in any significant adverse environmental impacts. The Monroe County Legislature hereby issues and adopts the Negative Declaration attached hereto and made a part hereof and determines that an environmental impact statement is not required.				
Section 3. The County Executive, or his designee, is hereby authorized to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.				
Section 4. This resolution shall take effect in accordance with Section C2-7 of the Monroe County Charter.				
Committee of the Whole; December 15, 2020 - CV: 29-0 File No. 20-0428

## Short Environmental Assessment Form Part 1 - Project Information

#### Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

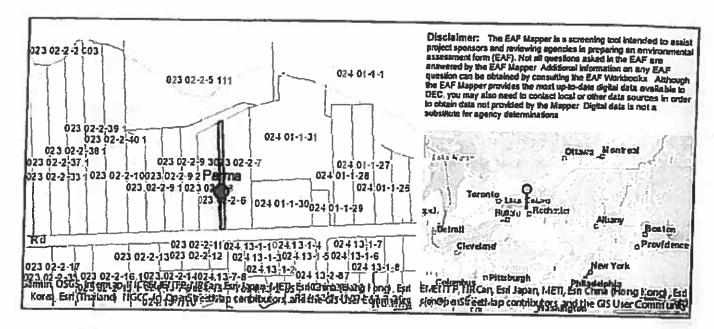

Name of Action or Project:				
Proposed Sale of County owned Tax Foreclosure Property located at 90 Dunbar				
Project Location (describe, and attach a location map):	Road in the Town of Parm	a		
Dunbar Road, Hillon, NY 14458 in the Town of Parma				
Brief Description of Proposed Action:

## Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lend Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?  2. Will the proposed action result in a change in the use or intensity of use of land?  3. Will the proposed action impair the character or quality of the existing community?  4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?  5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?  6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?  7. Will the proposed action impact existing:  a. public / private water supplies?  b. public / private water supplies?  b. public / private water supplies?  c. will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?  9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?  10. Will the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the potential for erosion, flooding or drainuge of the proposed action result in an increase in the pote	_			
2. Will the proposed action result in a change in the use or intensity of use of land?  3. Will the proposed action impair the character or quality of the existing community?  4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?  5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?  6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?  7. Will the proposed action impact existing:  a. public / private water supplies?  b. public / private water supplies?  b. public / private waterwater treatment utilities?  8. Will the proposed action impair the character or quality of important historic, archaeological. architectural or aesthetic resources?  9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?  10. Will the proposed action result in an increase in the potential for erosion, flooding or drainuge problems?		Will the proposed action conton and a material and	small impact may	impact may
3. Will the proposed action impair the character or quality of the existing community?  4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?  5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?  6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?  7. Will the proposed action impact existing: a. public / private water supplies? b. public / private wastewater treatment utilities?  8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?  9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		regulations:	V	
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?  5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?  6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?  7. Will the proposed action impact existing: a. public / private wastervater treatment utilities?  8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?  9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?  10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	2.			
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?  6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?  7. Will the proposed action impact existing:  a. public / private water supplies?  b. public / private water supplies?  b. public / private water treatment utilities?  8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?  9. # Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts:

The action is for the sale of the property and does not include the physical alteration nor disturbance of the property. Although wetlands exist on the site, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for Watlands from state and federal regulatory bodies. It has been determined that no significant adverse environmental impacts from this action will occur.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.  Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
