Not to be removed from the Office of the Legislature Of Monroe County
Committee Assignment
<b>ENV. &amp; PUB. WORKS-L</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for Leasing Commercial Space for the Board of Elections in Monroe County

**Honorable Legislators:**

I recommend that Your Honorable Body determine whether leasing commercial space for the Board of Elections in Monroe County may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The Premises will be located at 400 West Avenue, Rochester, NY 14611 in the City of Rochester and will enable the Board of Elections to consolidate all of its leases and locations into one to serve the residents and provide office and warehouse space for staff.

Leasing commercial space for the Board of Elections in Monroe County has been preliminarily classified as an Unlisted action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

1. Determine that leasing commercial space for the Board of Elections is an Unlisted action.
2. Make a determination of significance regarding leasing commercial space for the Board of Elections pursuant to 6 NYCRR § 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The Environmental Mapper indicates that the subject property, or an adjoining property, has been the subject of remediation. The Environmental Mapper also indicates the site is located in an archeologically sensitive area. The action is for the lease of the property and does not include the physical alteration nor disturbance of the property. Therefore, there will be no significant adverse impact to archeologically sensitive areas.

Lease of office space at 400 West Avenue is an existing commercial space. All renovations will be interior and/or signage related and will be in accordance with City of Rochester zoning and building codes. Build out of existing interior space will not impact surrounding commercial space, which is of similar office/service delivery use. The facility is within one block of public transit and dedicated bicycle lanes and abundant surface parking and transportation options are available. As this expansion is into existing commercial space it will not impact the character, aesthetics, or historic resources of the area; it will not impact or increase the potential for erosion, flooding, drainage problems; nor will it create a hazard to human health or environmental health.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
