Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Aldrich Road Sidewalk Project in the Town of Perinton

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Aldrich Road Sidewalk Project in the Town of Perinton may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA"). The Monroe County Department of Transportation is undertaking a project that involves the rehabilitation or replacement of the Aldrich Road culvert over White Brook Tributary along with highway approach work, stream channel improvements, and the proposed installation of approximately 4,975 feet of five (5) foot-wide sidewalk and curbing along the length of Aldrich Road between Ayrault Road and Aldrich Glen.

The Aldrich Road Sidewalk Project has been preliminarily classified as an Unlisted action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that Aldrich Road Sidewalk Project in the Town of Perinton is an Unlisted Action.
2. Make a determination of significance regarding the Aldrich Road Sidewalk Project in the Town of Perinton pursuant to 6 NYCRR § 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 1 of the EAF indicates the site contains or is near wetlands. Based on further review, there are no wetlands on or adjacent to the easements being sought. Accordingly, no wetlands will be impacted from this sale and the action will not result in any significant adverse environmental impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
