Committee Assignment

ENV. & PUB. WORKS-L

July 7, 2023

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Conveyance of a Permanent Easement on County Owned Property to the Monroe County Water Authority for Utility Purposes at 637 Flynn Road in the Town of Greece

Honorable Legislators:

I recommend that Your Honorable Body determine whether the conveyance of a permanent easement on County owned property to the Monroe County Water Authority for utility purposes at 637 Flynn Road in the Town of Greece may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

Parcel	Gramee	Amount
Map 1		
Parcel 1 PE .089 Acre	Monroe County Water Authority	\$520
637 Flynn Road	475 Norris Drive	
T.A. # 033.02-3-21./HILT	Rochester, NY 14610	
Town of Greece		

The conveyance of a permanent easement located at the addresses defined above in the Town of Greece have been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

- 1. Determine that the conveyance of a permanent easement located at the above listed address in the Town of Greece is an Unlisted action.
- 2. Make a determination of significance regarding the conveyance of a permanent easement identified above in the Town of Greece pursuant to 6 NYCRR 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Adam J. Bello

Monroe County Executive

Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

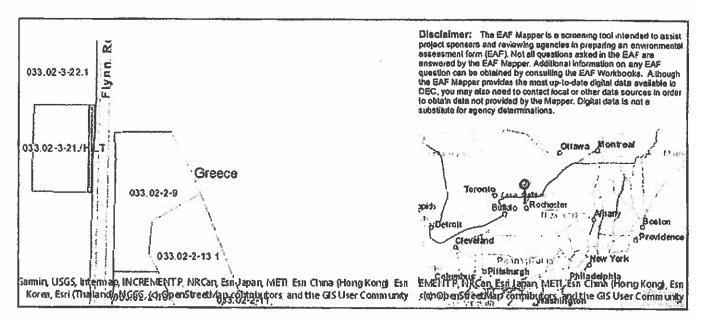

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information				
Name of Action or Project:		<u>.</u>	<u> </u>	
Proposed Permanent Easement for Utility Purposes at Flynn Road, Town of Greece				
Project Location (describe, and attach a location map):				
637 Flynn Road,Town of Greece				
Brief Description of Proposed Action:				
637 Flynn Road is a 1.00 acre parcel of land unimproved. A 0.25 acre Permanent Easement i extends North to South between the property lines along the existing highway boundary.	s proposed from this parcel.	The 15' w	vide easem	ient

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or smail impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	V	
2.	Will the proposed action result in a change in the use or intensity of use of land?	V	
3.	Will the proposed action impair the character or quality of the existing community?	V	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	V	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	V	
6.	Will the proposed action cause an increase in the use of energy and it falls to incorporate reasonably available energy conservation or renewable energy opportunities?	√	
7.	Will the proposed action impact existing: a. public / private water supplies?	V	
	b. public / private wastewater treatment utilities?	V	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	V	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	V	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	V	
11.	Will the proposed action create a hazard to environmental resources or human health?	V

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposal involves a 15' wide permanent utility easement along Flynn Road. The proposed easement is on the west side of Flynn Road. Northrup Creek is on the east side of Flynn Road. Additionally, there is a residential property on the east side of Flynn Road between the proposed easement and Northrup Creek. Impacts to Northrup Creek from the proposed easement is minimal to non-existent as this easement is limited to the use and access for utilities.

The proposed easement is along the road in an area previously disturbed from roadway construction and containing a drainage ditch, residential driveways and lawn. The permanent easement does not contemplate additional changes to the area.

The Environmental Resource Mapper indicates that there may be threatened or endangered species, bald eagle and black tern in the area. This is likely due to the proximity to Northrup Creek which likely has suitable marsh and wetland habitat for both species. The turf grass and drainage ditch located along the highway boundary would not be expected to support any threatened or endangered species. Minimal to no change to the existing property is expected. Due to the nature of the project, the previous disturbance and nature of the area the temporary disturbance is not expected to have any significant impact on the natural resources in the area.

that the proposed action may result in one or more pote environmental impact statement is required.	rmation and analysis above, and any supporting documentation, entially large or significant adverse impacts and an rmation and analysis above, and any supporting documentation, adverse environmental impacts.
