Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The Part 1 of the EAF indicates the sites contain or are near the following: archaeological resources, wetlands and a remediation site.

This project involves the Acceptance of an Offer and Payment for Appropriation by the State of New York for Temporary and Permanent Easements at Brooks Avenue in the Town of Gates and the City of Rochester. No ground disturbance will occur as these are permanent and temporary easements.

No archaeological resources, wetlands or remediation sites will be affected at the project locations. No ground disturbance will occur at the site locations. Mapped archaeology areas are coexistent with the riparian area of the Genesee River.

For the above reasons the Acceptance of an Offer and Payment for Appropriation by the State of New York for Temporary and Permanent Easements at Brooks Avenue in the Town of Gates and the City of Rochester will not result in any significant adverse environmental impacts. Accordingly, the proposed action will not result in any significant adverse environmental impacts.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
<input checked="" type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
