Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Town of Brighton Crittenden Road Sidewalk Project Funded Through the Monroe County Community Development Block Grant Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County Community Development Block Grant ("CDBG") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The Town of Brighton is proposing to install 1700 linear feet of concrete sidewalk within the right of way of Crittenden Road on the south side of the road from the corner of West Henrietta Road & Crittenden Road eastward approximately 1700 linear feet to East Squire Drive. These sidewalks will connect to the existing network of sidewalks that service Rustic Village Apartment Complex and surrounding businesses. The proposed sidewalks will improve overall safety for those who walk along Crittenden Road.

This project will not impact existing wetlands, or historical, cultural, or natural resources, nor will it alter the existing community character. The proposed action is consistent with existing land use and will increase the safety of nearby residents.

The Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County CDBG Program has been preliminarily classified as an Unlisted Action pursuant to 6 NYCRR § 617(b). The State Environmental Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that the Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County CDBG Program is an Unlisted Action.
2. Make a determination of significance of the Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County CDBG Program pursuant to 6 NYCRR § 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of SEQRA, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under SEQRA, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The Town of Brighton is proposing to install 1700 linear feet of concrete sidewalk within the ROW of Crittenden Rd. on the south side of the road. Along the south side of Crittenden Rd. from the corner of West Henrietta Rd. & Crittenden Rd. eastward approximately 1700 linear feet to East Squire Dr. These sidewalks will connect to the existing network of sidewalks that service Rustic Village Apartment Complex and surrounding businesses. The proposed sidewalks will improve overall safety for those who walk along Crittenden Road.

The project does not impact wetlands, the 100 year floodplain or any structures more than 50 years old. The new sidewalks will benefit the residents by improving the overall safety for those who walk frequently in the area. The project will not impact existing natural resources, wetlands, historical or cultural resources and will not alter the existing community character or increase traffic. The proposed action is consistent with existing land use. For the above reasons this project will not result in any significant adverse environmental impacts.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
