AGENDA/CHARTER - L

PUBLIC SAFETY

Subject: Enact a Local Law Entitled "Regulating Sale of Used Catalytic Converters"

Honorable Legislators:

Throughout the past several weeks and months, there has been a noticeable increase in the theft and subsequent scrapping for cash profit of Catalytic Converters throughout Monroe County. These devices, found on almost any automobile, have increased in value dramatically due to the precious minerals contained within them. One mineral, rhodium was valued at \$14,500 per ounce by December of 2020, palladium is currently valued at \$2,336 per ounce, making these easily removable devices welcome targets for theft.

These devices are being stolen from personal vehicles sitting in driveways, businesses that maintain a fleet of trucks or vans, and even school districts where several were stolen from school busses. This is not just a local trend, across the country there is a dramatic increase in the thefts of these devices. Typically, these items are scrapped for a quick cash profit to fund drug addictions, drug distribution organizations and other criminal activity. This local law will address both the quick cash turnaround incentive for criminals trading in stolen catalytic converters and will require individuals and scrap yards to present and maintain records of the proper documents proving a scrapped catalytic converter came from a legally owned or traded in car and not acquired through a theft.

In order to scrap a catalytic converter, the individual trading in the item must provide documentation such as a vehicle registration, title, or bill of sale, as well as a copy of their valid government I.D., illustrating that the catalytic converter being scrapped came from a legally owned vehicle. Licensed automotive garages must also provide proof that a catalytic converter being scrapped came from a vehicle that was being serviced by their business. To aid law enforcement agencies in the investigations of stolen catalytic converters, scrap yards must maintain copies of these records for a minimum of 3 years, in the event a stolen catalytic converter was scrapped at their business and police need to follow up in the course of their investigation.

The main incentive for these thefts is the ability to make large sums of cash quickly. To address this, scrapyards will now be mandated to wait no fewer than 14 days to issue payment for a scrapped catalytic converter. By eliminating the quick cash incentive for this crime, as was done with high valued items in a similar law passed by this Honorable Body in 2013 pertaining to Pawn Shops, the prevalence of this type of theft is expected to decrease dramatically.

In addition to the new requirements for scrapping and cashing catalytic converters, the penalties for scrapping an illegally obtained catalytic converter will be increased. Under this new law, violators will be charged with a class A misdemeanor, receive a fine of no more than \$300 for the first offense, \$500 for the second offense, and \$1,000 for each subsequent offense.

This local law is an effective and prudent way to deter the theft and scrapping of illegally obtained catalytic converters. In order to repair and replace one of these devices, depending on the size of the vehicle, the cost can range from \$500 to \$2,000. Monroe County residents and businesses should not have to bear the costs of these thefts. Legislation similar to this proposed law has been passed in West Virginia, South Carolina, and numerous other locations throughout the United States and led to a lower number of catalytic converter thefts. It is our hope that this Honorable Body passes and the County Executive enacts this law expeditiously.

The specific legislative actions required are:

1. Schedule and hold a public hearing on the proposed local law.
2. Adopt the attached Local Law entitled, "Regulating Sale of Used Catalytic Converters" as written.

The legislative action requested in this referral is not an "Action," as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.

Respectfully Submitted,

Paul Dondorfer

LOCAL LAW NO. ____ OF 2021

ENACT A LOCAL LAW ENTITLED "REGULATING SALE OF USED CATALYTIC CONVERTERS"

BE IT ENACTED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. Part IV, General Local Laws of Monroe County, is hereby amended to add a new chapter to include the following Local Law:

CHAPTER 385, REGULATING SALE OF USED CATALYTIC CONVERTERS

§ 385-1. Title.

This Chapter shall be known as the law "Regulating Sale of Used Catalytic Converters."

§ 385-2. Legislative Intent.

- A. This Legislature hereby finds that the County of Monroe has experienced an increase in thefts of used catalytic converters from vehicles in our community and their resale to scrap metal recyclers.
- B. This Legislature finds that requiring scrap metal recyclers doing business in Monroe County to delay payments to sellers of used catalytic converters for at least 14 days after receipt will allow law enforcement additional time to investigate the theft of used catalytic converters and discourage criminal conduct.
- C. This Legislature also finds that requiring scrap metal recyclers to maintain records of the purchase of used catalytic converters will aid law enforcement in the investigation of thefts of such devices.

§ 385-3. Purpose.
