Intro. No. \_\_\_\_\_

RESOLUTION NO. \_\_\_\_\_ OF 2022

**CLASSIFICATION OF ACTION, DESIGNATION OF INTENT TO SERVE AS LEAD AGENCY, AND DETERMINATION OF SIGNIFICANCE PURSUANT TO STATE ENVIRONMENTAL QUALITY REVIEW ACT FOR CREATION OF AN ADA ACCESSIBLE CANOE AND KAYAK LAUNCH AT CHURCHVILLE PARK**

BE IT RESOLVED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. The Monroe County Legislature determines that the creation of an ADA accessible canoe and kayak launch at Churchville Park is an Unlisted action.

Section 2. Monroe County is hereby designated as Lead Agency for a coordinated review of the project.

Section 3. The Monroe County Legislature has reviewed and considered the Short Environmental Assessment Form dated July 18, 2022 and has considered the potential environmental impacts of the creation of an ADA accessible canoe and kayak launch pursuant to the requirements of State Environmental Quality Review Act and has found that the proposed action will not result in any significant adverse environmental impacts. The Monroe County Legislature hereby issues and adopts the Negative Declaration attached hereto and made a part hereof and determines that an environmental impact statement is not required.

Section 4. The County Executive, or his designee, is hereby authorized to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution, and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

Section 5. This resolution shall take effect in accordance with Section C2-7 of the Monroe County Charter.

## Short Environmental Assessment Form

### Part 1 - Project Information

#### Instructions for Completing

**Part 1 - Project Information.** The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

<b>Part 1 - Project and Sponsor Information</b>			
Monroe County Parks Department			
Name of Action or Project:			
Installation of an ADA Accessible Canoe / Kayak Launch			
Project Location (describe, and attach a location map):			
The Project is located off of Park Road within Churchville Park in the Village of Churchville.			
Brief Description of Proposed Action:			
The project consists on one location located off of Park Rd., within Churchville Park in the Village of Churchville. The project seeks to install an ADA accessible canoe / kayak launch at the existing canoe kayak launch thus allowing individuals with differing needs the ability to enter and exit the Black Creek. The existing conditions on site are a denuded shoreline where patrons launch and retrieve their canoe / kayaks on Black Creek, a Class B waterbody			
Name of Applicant or Sponsor:		Telephone: 585-753-7279	
Monroe County - Robert W. Kiley, Deputy Director		E-Mail: robertkiley@monroecounty.gov	
Address:			
171 Reservoir Rd			
City/PO:		State:	Zip Code:
Rochester		NY	14620
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation?			
If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			
			NO YES
			<input checked="" type="checkbox"/> <input type="checkbox"/>
2. Does the proposed action require a permit, approval or funding from any other government Agency?			
If Yes, list agency(s) name and permit or approval: Environmental permitting from NYS-DEC, USACE			
			NO YES
			<input type="checkbox"/> <input checked="" type="checkbox"/>
3. a. Total acreage of the site of the proposed action? _____ 0.1 acres			
b. Total acreage to be physically disturbed? _____ 0.1 acres			
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? _____ 792.50 acres			
4. Check all land uses that occur on, are adjoining or near the proposed action:			
<input type="checkbox"/> Urban <input type="checkbox"/> Rural (non-agriculture) <input type="checkbox"/> Industrial <input type="checkbox"/> Commercial <input type="checkbox"/> Residential (suburban) <input type="checkbox"/> Forest <input type="checkbox"/> Agriculture <input type="checkbox"/> Aquatic <input type="checkbox"/> Other (Specify) <input checked="" type="checkbox"/> Parkland			

5. Is the proposed action:		NO	YES	N/A
a. A permitted use under the zoning regulations?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Consistent with the adopted comprehensive plan?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YES	
		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?		NO	YES	
If Yes, identify: _____		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?		NO	YES	
b. Are public transportation services available at or near the site of the proposed action?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
9. Does the proposed action meet or exceed the state energy code requirements?		NO	YES	
If the proposed action will exceed requirements, describe design features and technologies: _____		<input type="checkbox"/>	<input type="checkbox"/>	
N/A				
10. Will the proposed action connect to an existing public/private water supply?		NO	YES	
If No, describe method for providing potable water: _____		<input type="checkbox"/>	<input type="checkbox"/>	
N/A				
11. Will the proposed action connect to existing wastewater utilities?		NO	YES	
If No, describe method for providing wastewater treatment: _____		<input type="checkbox"/>	<input type="checkbox"/>	
N/A				
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?		NO	YES	
		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?		<input checked="" type="checkbox"/>	<input type="checkbox"/>	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?		NO	YES	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____		<input type="checkbox"/>	<input checked="" type="checkbox"/>	
The Project is located in NYS Wetland RG-14 and Federal Wetland R2UBH. The project will disturb 0.01 acres currently denuded shrubland to advance the project. All Work will be in accordance with the permit requirements.				

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

☒ Shoreline ☐ Forest ☐ Agricultural/grasslands ☐ Early mid-successional

☒ Wetland ☐ Urban ☐ Suburban

15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?

	NO	YES
16. Is the project site located in the 100-year flood plan?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes,	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a. Will storm water discharges flow to adjacent properties?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)? If Yes, explain the purpose and size of the impoundment:	<input type="checkbox"/>	<input checked="" type="checkbox"/>
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe:	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**Short Environmental Assessment Form**  
**Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:		
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project seeks to install an ADA accessible canoe / kayak launch at the existing boat launch at Churchville Park. The floating dock will be installed and removed seasonally allowing individuals with differing needs the ability to enter and exit Black Creek. At the project location, Black Creek (ONT-117-19) is a protected Class B waterbody. Further the project is proposed within NYS-DEC Wetland RG-14 and USFWS Wetland R2UBH. Environmental permitting from the NYS- Department of Environmental Conservation (DEC) and United States Army Corps of Engineers (USACE) will be required to ensure that the project will be sited in a way to ensure environmental stewardship on site while providing access to the general public. It is anticipated that the NYS - DEC will take jurisdiction on the project, with 401 Water Quality Certification, disturbance of the bed and banks of protected waterbody, and temporary construction within a regulated wetland permitting being necessary to advance the project. The USACE will also be consulted as a result of this project with nationwide 404 permitting being needed as there is a potential fill within a navigable waters and work within the USFWS wetland. The project will disturb the bed and banks of the waterbody and thus erosion and sediment control must be utilized to mitigate any adverse impacts to the waterbody. At project completion, the shoreline will be vegetated, a condition that today is absent due to use. Therefore, there would be no significant impacts to land. During construction it is anticipated that the bed of the Black Creek will be disturbed. To ensure that those suspended sediments does not impact downstream, a turbidity curtain will be used. Therefore, there would be no significant impact to waterbodies. The NYS-DEC Environmental Resource Mapper was reviewed and there were no listed species noted. Work will occur within the wetland and wetland buffer, thus there will be an emphasis on replanting the existing denuded and disturbed shoreline area with native wetland plants. This effort will afford a long term sustainable vegetation plan, potentially eliminating sources of sediment transport to the waterbody while also improving the wetland flora and fauna diversity. The re-vegetation of this area is a net positive to the environment. As a result of the aforementioned, there are no significant impacts to flora/fauna anticipated.

- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- ☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

**Disclaimer:** If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.

## Office of the County Executive

Monroe County, New York

**Adam J. Bello**  
*County Executive*

August 5, 2022

<b>OFFICIAL FILE COPY</b>
No. <u>220270</u>
Not to be removed from the Office of the Legislature Of Monroe County
Committee Assignment
<b>ENV. &amp; PUB. WORKS-L</b>

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

**Subject:** Classification of Action, Designation of Intent to Serve as Lead Agency, and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Creation of an ADA Accessible Canoe and Kayak Launch at Churchville Park

Honorable Legislators:

I recommend that Your Honorable Body determine whether the creation of an ADA accessible canoe and kayak launch at Churchville Park may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project, a component of the proposed \$9.4 million in Phase II Monroe County Parks system-wide improvements, would provide a brand-new adaptive sport experience for individuals with disabilities on a portion of Black Creek that is extremely popular for recreational boating.

The creation of this canoe and kayak launch has been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

**The specific legislative actions required are:**

1. Determine that the creation of this canoe and kayak launch is an Unlisted action.
2. Designate Monroe County as Lead Agency for a coordinated review of the project.
3. Make a determination of significance regarding creation of this canoe and kayak launch pursuant to 6 NYCRR 617.7.

4. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello  
Monroe County Executive

## Short Environmental Assessment Form Part 2 - Impact Assessment

**Part 2 is to be completed by the Lead Agency.**

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:		
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project seeks to install an ADA accessible canoe / kayak launch at the existing boat launch at Churchville Park. The floating dock will be installed and removed seasonally allowing individuals with differing needs the ability to enter and exit Black Creek. At the project location, Black Creek (ONT-117-19) is a protected Class B waterbody. Further the project is proposed within NYS-DEC Wetland RG-14 and USFWS Wetland R2UBH. Environmental permitting from the NYS- Department of Environmental Conservation (DEC) and United States Army Corps of Engineers (USACE) will be required to ensure that the project will be sited in a way to ensure environmental stewardship on site while providing access to the general public. It is anticipated that the NYS - DEC will take jurisdiction on the project, with 401 Water Quality Certification, disturbance of the bed and banks of protected waterbody, and temporary construction within a regulated wetland permitting being necessary to advance the project. The USACE will also be consulted as a result of this project with nationwide 404 permitting being needed as there is a potential fill within a navigable waters and work within the USFWS wetland. The project will disturb the bed and banks of the waterbody and thus erosion and sediment control must be utilized to mitigate any adverse impacts to the waterbody. At project completion, the shoreline will be vegetated, a condition that today is absent due to use. Therefore, there would be no significant impacts to land. During construction it is anticipated that the bed of the Black Creek will be disturbed. To ensure that those suspended sediments does not impact downstream, a turbidity curtain will be used. Therefore, there would be no significant impact to waterbodies. The NYS-DEC Environmental Resource Mapper was reviewed and there were no listed species noted. Work will occur within the wetland and wetland buffer, thus there will be an emphasis on replanting the existing denuded and disturbed shoreline area with native wetland plants. This effort will afford a long term sustainable vegetation plan, potentially eliminating sources of sediment transport to the waterbody while also improving the wetland flora and fauna diversity. The re-vegetation of this area is a net positive to the environment. As a result of the aforementioned, there are no significant impacts to flora/fauna anticipated.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input checked="" type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Park Road Ext, Churchville, New York, 14428

County: Monroe  
Town: Riga  
USGS Quad: CHURCHVILLE

Old or Potential Records (Not displayed on the map)

Common Name: Blackchin Shiner  
Scientific Name: *Notropis heterodon*  
Date Last Documented: 1948-10-29  
Location: Black Creek Churchville  
NYS Protected: Unlisted

Site Information

ID: RG-14  
Class: 1  
Size (Acres): 101

Freshwater Wetlands Checkzone

This location is in the vicinity of one or more Regulated Freshwater Wetlands.

**National Wetlands Inventory**

Attribute: R2UBH

Type: Riverine

Acres: 1672.468639649

For more information about the National Wetlands Inventory wetlands visit <http://www.fws.gov/wetlands/>

If your project or action is within or near an area with a rare animal, a permit may be required if the species is listed as endangered or threatened and the department determines the action may be harmful to the species or its habitat.

If your project or action is within or near an area with rare plants and/or significant natural communities, the environmental impacts may need to be addressed.

The presence of a unique geological feature or landform near a project, unto itself, does not trigger a requirement for a NYS DEC permit. Readers are advised, however, that there is the chance that a unique feature may also show in another data layer (ie. a wetland) and thus be subject to permit jurisdiction.

Please refer to the "Need a Permit?" tab for permit information or other authorizations regarding these natural resources.

**Disclaimer:** If you are considering a project or action in, or near, a wetland or a stream, a NYS DEC permit may be required. The Environmental Resources Mapper does not show all natural resources which are regulated by NYS DEC, and for which permits from NYS DEC are required. For example, Regulated Tidal Wetlands, and Wild, Scenic, and Recreational Rivers, are currently not included on the maps.
