Subject: Authorize the Initiation of the Process for Making Additions to Monroe County
Agricultural Districts

Honorable Legislators:

I recommend that Your Honorable Body authorize the initiation of the process for making additions to Monroe County's Agricultural Districts.

Section 303-b of the Agriculture and Markets Law requires Your Honorable Body establish an annual 30-day period during which landowners can submit proposals to include land that is predominantly viable agricultural land within a certified agricultural district. Monroe County would begin this addition process by publishing a general notice to make landowners aware of the 30-day submission period. At the end of the 30-day submission period all requests for inclusion will be referred to the Monroe County Agricultural and Farmland Protection Board ("AFPB") for its recommendations. The AFBP then has 30 days to make a recommendation to Your Honorable Body concerning any proposed additions to the state-certified agricultural districts. Upon receipt of the recommendation, Your Honorable Body must hold a public hearing before taking action to adopt or reject the addition of any parcels to any district. A second referral will be submitted to Your Honorable Body after the report of the AFBP to schedule the public hearing and recommend adoption or rejection of the addition of parcels to any district.

The specific legislative actions required are:

1. Authorize the Clerk of the Legislature to publish and post notice of the 30-day submission period for requests to include land, which is predominantly viable agricultural land, within state-certified Monroe County agricultural districts.

2. Direct the Monroe County Agricultural and Farmland Protection Board to prepare and submit a report, within 30-days of the termination of the submission period, with its recommendations as to whether inclusion of each piece of land proposed to be included in the certified agricultural districts: a) consists predominantly of viable agricultural land, and b) would serve the public interest by assisting in maintaining a viable agricultural industry within the certified agricultural districts.

This is a Type II Action pursuant to 6 NYCRR 617.5(c)(24) ("information collection including basic data collection and research, water quality and pollution studies, traffic counts, engineering studies, surveys, subsurface investigations and soils studies that do not commit the agency to undertake, fund or approve any Type I or Unlisted action") and is not subject to further review under the State Environmental Quality Review Act.

This initiation of process will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive
