Section 2. The Monroe County Legislature has reviewed and considered the Short Environmental Assessment Form dated June 29, 2023 and has considered the potential environmental impacts of the acquisitions of real property identified above located in the Town of Perinton pursuant to the requirements of State Environmental Quality Review Act and has found that the proposed action will not result in any significant adverse environmental impacts. The Monroe County Legislature hereby issues and adopts the Negative Declaration attached hereto and made a part hereof and determines that an environmental impact statement is not required.

Section 3. The County Executive, or his designee, is hereby authorized to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution, and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

Section 4. This resolution shall take effect in accordance with Section C2-7 of the Monroe County Charter.

Part 1 - Project Information

Instructions for Completing

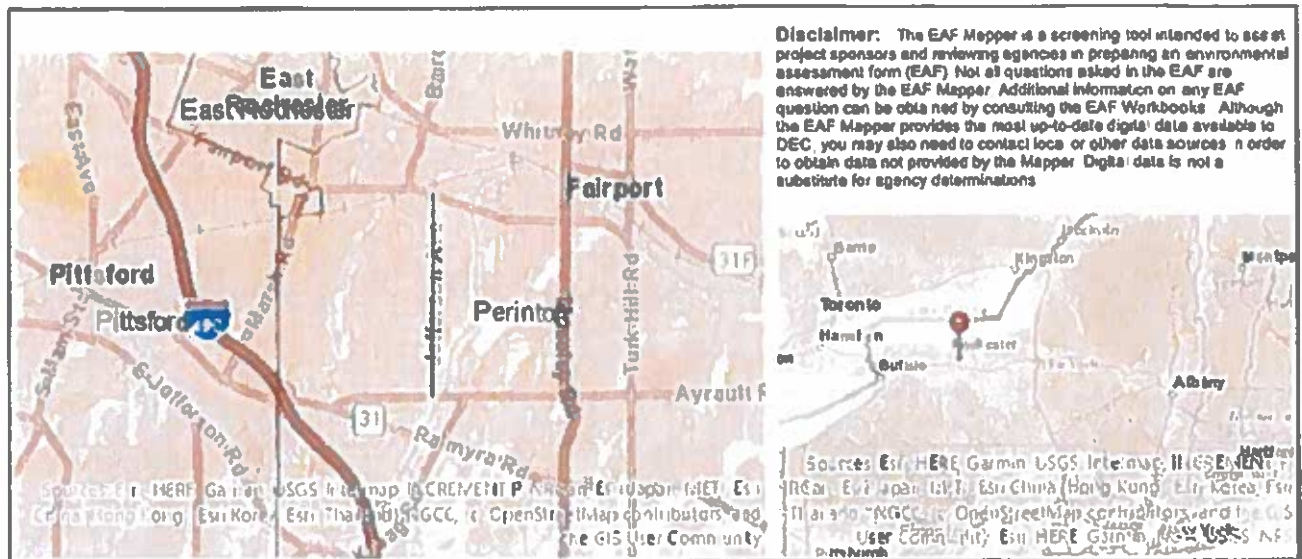

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information			
Name of Action or Project: Acquisition of Permanent Easements along Jefferson Avenue, (Village of Fairport) Perinton, NY			
Project Location (describe, and attach a location map): Jefferson Avenue, Fairport-Address (Town of Perinton), NY - Multiple properties (map attached).			
Brief Description of Proposed Action: Monroe County is acquiring permanent easements (PEs) in multiple properties along Jefferson Avenue in Fairport, New York. The PEs will be acquired as a result of road maintenance completed in conjunction with the New York State Department of Transportation. The permanent easements are necessary for routine road maintenance, including: constructing, reconstructing, and maintaining thereon a stream channel, drainage ditch and drainage structures along with appurtenances necessary to such work and facilities. Such easements do not limit the parcel owners use beyond that which is necessary to effectuate the above construction, maintenance, and drainage.

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 2 did not indicate any moderate to large impacts may occur due to this action. The action being reviewed is the transfer of easements from NYS DOT to Monroe County. Monroe County is acquiring permanent easements as a result of road maintenance completed in conjunction with the New York State Department of Transportation. The permanent easements are necessary for routine road maintenance, including: constructing, reconstructing, and maintaining thereon a stream channel, drainage ditch and drainage structures along with appurtenances necessary to such work and facilities. Such easements do not limit the parcel owners use beyond that which is necessary to effectuate the above construction, maintenance, and drainage.

Part 1 indicated that a remediation site is on or adjacent to the project area. The site is adjacent to, but not involved in this proposed action. The site is part of the Brownfield Cleanup Program (BCP C828185) and has numerous contaminants of concern. New York State Department of Environmental Conservation ("DEC") has determined that the site is a significant threat. A significant threat determination indicates that the site poses a significant threat to public health and/or the environment. With the significant threat determination at this site, the State shall select the remedy to be implemented to address the contamination.

Although BCP C828185 has been determined to be a significant threat, it will not be impacted by easements for road maintenance on nearby properties. The remediation site is removed from the proposed action. The proposed action, easements, are limited to roadway and roadway drainage maintenance. Roadway drainage ensures that runoff flows to appropriate channels, thus reducing runoff that overflows or spills on to roads or nearby properties. Accordingly, after review of relevant materials and consideration the proposed action will not result in any significant adverse environmental impacts.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
<input checked="" type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

The acquisition of easements located at the addresses defined above in the Town of Perinton have been preliminarily classified as an Unlisted Action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that the acquisition of easements located at the above listed addresses in the Town of Perinton is an Unlisted action.
2. Make a determination of significance regarding the acquisitions of real property identified above in the Town of Perinton pursuant to 6 NYCRR 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Part 2 - Impact Assessment**

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 2 did not indicate any moderate to large impacts may occur due to this action. The action being reviewed is the transfer of easements from NYS DOT to Monroe County. Monroe County is acquiring permanent easements as a result of road maintenance completed in conjunction with the New York State Department of Transportation. The permanent easements are necessary for routine road maintenance, including: constructing, reconstructing, and maintaining thereon a stream channel, drainage ditch and drainage structures along with appurtenances necessary to such work and facilities. Such easements do not limit the parcel owners use beyond that which is necessary to effectuate the above construction, maintenance, and drainage.

Part 1 indicated that a remediation site is on or adjacent to the project area. The site is adjacent to, but not involved in this proposed action. The site is part of the Brownfield Cleanup Program (BCP C828185) and has numerous contaminants of concern. New York State Department of Environmental Conservation ("DEC") has determined that the site is a significant threat. A significant threat determination indicates that the site poses a significant threat to public health and/or the environment. With the significant threat determination at this site, the State shall select the remedy to be implemented to address the contamination.

Although BCP C828185 has been determined to be a significant threat, it will not be impacted by easements for road maintenance on nearby properties. The remediation site is removed from the proposed action. The proposed action, easements, are limited to roadway and roadway drainage maintenance. Roadway drainage ensures that runoff flows to appropriate channels, thus reducing runoff that overflows or spills on to roads or nearby properties. Accordingly, after review of relevant materials and consideration the proposed action will not result in any significant adverse environmental impacts.

- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- ☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
