RESOLUTION NO. _____ OF 2025

CLASSIFICATION OF ACTION AND DETERMINATION OF SIGNIFICANCE PURSUANT TO STATE ENVIRONMENTAL QUALITY REVIEW ACT FOR CO-LOCATION OF RADIO COMMUNICATIONS EQUIPMENT ONTO EXISTING TOWERS LOCATED IN THE TOWN OF GREECE, CITY OF ROCHESTER, AND TOWN OF WEBSTER

BE IT RESOLVED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. The Monroe County Legislature determines that the co-location of radio communications equipment onto existing towers located in the Town of Greece, City of Rochester, and Town of Webster is an Unlisted Action.

Section 2. The Monroe County Legislature has reviewed and considered the Short Environmental Assessment Form dated October 7, 2025 and has considered the potential environmental impacts of the co-location of radio communications equipment onto existing towers located in the Town of Greece, City of Rochester, and Town of Webster pursuant to the requirements of State Environmental Quality Review Act and has found that the proposed action will not result in any significant adverse environmental impacts. The Monroe County Legislature hereby issues and adopts the Negative Declaration attached hereto and made a part hereof and determines that an environmental impact statement is not required.

Section 3. The County Executive, or his designee, is hereby authorized to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution, and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

Section 4. This resolution shall take effect in accordance with Section C2-7 of the Monroe County Charter.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is adding three additional radio communications sites across Monroe County. These sites are distributed throughout Monroe County to enhance coverage for first responders. These sites are approximately, 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester. 170 Payne Beach Road and 380 Lee Road are existing County-owned buildings with existing radio communications infrastructure on site and will be upgraded to meet the needs of the 7/800 mhz trunked system. The Webster location is a privately owned telecommunications tower that Monroe County will co-locate on. In addition to any radio tower equipment each site will have an approximately 10' x 20' equipment building and generator that will power the site in the event of a power outage.

Each of these sites is previously disturbed and hosts communications infrastructure currently. Accordingly, the proposed action will not result in any significant adverse environmental impacts at 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Co-location of Radio Communications Equipment onto Existing Towers Located in the Town of Greece, City of Rochester and Town of Webster

Honorable Legislators:

I recommend that Your Honorable Body determine whether the co-location of radio communications equipment onto existing towers in the Town of Greece, City of Rochester and Town of Webster may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA"). This action is described as follows:

The co-location of radio communications equipment onto existing towers located in the Town of Greece, City of Rochester and Town of Webster has been preliminarily classified as an Unlisted action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that the co-location of radio communications equipment onto existing towers located in the Town of Greece, City of Rochester and Town of Webster is an Unlisted Action.
2. Make a determination of significance regarding the co-location of radio communications equipment onto existing towers located in the Town of Greece, City of Rochester and Town of Webster pursuant to 6 NYCRR § 617.7.
3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

A handwritten signature in blue ink, appearing to read "Adam Bello", is written over the typed name.

Short Environmental Assessment Form

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	☒	☐
2. Will the proposed action result in a change in the use or intensity of use of land?	☒	☐
3. Will the proposed action impair the character or quality of the existing community?	☒	☐
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	☒	☐
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	☒	☐
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	☒	☐
7. Will the proposed action impact existing:	☒	☐
a. public / private water supplies?	☒	☐
b. public / private wastewater treatment utilities?	☒	☐
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	☒	☐
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	☒	☐
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	☒	☐
11. Will the proposed action create a hazard to environmental resources or human health?	☒	☐

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is adding three additional radio communications sites across Monroe County. These sites are distributed throughout Monroe County to enhance coverage for first responders. These sites are approximately, 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester. 170 Payne Beach Road and 380 Lee Road are existing County-owned buildings with existing radio communications infrastructure on site and will be upgraded to meet the needs of the 7/800 mhz trunked system. The Webster location is a privately owned telecommunications tower that Monroe County will co-locate on. In addition to any radio tower equipment each site will have an approximately 10' x 20' equipment building and generator that will power the site in the event of a power outage.

Each of these sites is previously disturbed and hosts communications infrastructure currently. Accordingly, the proposed action will not result in any significant adverse environmental impacts at 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
