**Subject:** Increase and Improvement of Facilities in the Rochester Pure Waters District – General Collection System and Treatment Plant Improvements and Amend the Proposed 2017 Capital Budget and Bond Resolution 47 of 2016

Honorable Legislators:

I recommend that the Administrative Board of the Rochester Pure Waters District approve a request to establish an Increase and Improvement of Facilities in the Rochester Pure Waters District (District), in the amount of \$2,500,000, consisting of a capital project entitled "General Collection System and Treatment Plant Improvements," and amend the proposed 2017 Capital Budget and Bond Resolution 47 of 2016.

The total Increase and Improvement of Facilities in the District is comprised of the "General Collection System and Treatment Plant Improvements" project (\$2,500,000), the "Pure Waters Lighting Replacement – Phase II" project (\$2,036,000), and the "Combined Sewer Overflow Abatement Program (CSOAP) Tunnel System Improvements" project (\$2,000,000) for a total estimated cost of the Increase and Improvement of Facilities in the amount of \$6,536,000. All of the above projects are under consideration by Your Honorable Body as companion referrals.

This increase and improvement of facilities is necessary to provide additional funding for continuation of the "General Collection System and Treatment Plant Improvements" project (capital fund 1728). This project includes general improvements to various pump stations, collection system infrastructure and the Frank E. Van Lare Wastewater Treatment Plant including enhancements to appurtenant communication and data transmission systems. This project is necessary to maintain the reliability and continuity of services to District customers.

The estimated cost of the improvements is \$2,500,000. The actual debt service obligation for the additional cost of the project, as projected in future years, could potentially result in an increase of \$1.49 to the future annual charges of the average District ratepayer. However, the actual impact is typically reduced through retirement of previous debt and other offsets to the District's capital charge levy. Based on an average water consumption of 60,000 gallons, the total annual charge for both operation & maintenance and capital to the typical District ratepayer in 2017 is \$235.70.

**The specific Administrative Board action required is to submit a request to the Monroe County Legislature to approve an "Increase and Improvement of Facilities in the Rochester Pure Waters District" consisting of a capital project entitled "General Collection System and Treatment Plant Improvements," at an estimated cost of \$2,500,000, and amend the proposed 2017 Capital Budget and Bond Resolution 47 of 2016.**

Environmental assessments were completed for this action and it was determined that there would be no significant effect on the environment.

Funding for this project, consistent with authorized uses, will be available in capital fund 1728 once the additional financing authorization requested herein is approved and in any other capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by pure waters district user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter receive favorable action by the Administrative Board of the Rochester Pure Waters District.

Sincerely,

  
Cheryl Dinolfo  
Monroe County Executive
