Committee Assignment
ENV. & PUB. WORKS-L
WAYS & MEANS

June 6, 2025

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Authorize a Contract with Barton & Loguidice, D.P.C. for Professional Design Services for the Northeast Quadrant (Gloria Drive) Landfill Improvements Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Barton & Loguidice, D.P.C. in the amount of \$37,300 for professional design services for the Northeast Quadrant (Gloria Drive) Landfill Improvements Project ("Project").

Monroe County is responsible for managing the inactive former Northeast Quadrant (Gloria Drive) Landfill in the Town of Penfield. The County requires engineering assistance in preparing environmental, geologic and groundwater assessments, and the design of a cap to mitigate the impacts of precipitation on the landfill. Your Honorable Body approved funding for the Project by Resolution 382 of 2024.

Several consultants were considered with Barton & Loguidice, D.P.C. rated as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with Barton & Loguidice, D.P.C., 11 Centre Park, Suite 203, Rochester, New York 14614, in the amount of \$37,300 for professional design services for the Northeast Quadrant (Gloria Drive) Landfill Improvements project, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes, unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in capital fund 2122 and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Barton & Loguidice, D.P.C., nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are John F. Brusa, President; Matthew J. Schooley, Secretary; Richard J. Maxwell, CFO.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Part 2: Impact Assessment

Part 2 is to be completed by the County Legislative Body ("CLB") as Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted to the CLB for the proposed modification, consolidation or termination of a county-adopted, State-certified agricultural district or otherwise available to the reviewer.

In providing responses to each of the questions, the reviewer should keep in mind that the action proposed is the modification, consolidation or termination of an agricultural district(s). The action is not the land use or activity which will, or may, take place in the district(s). For example, it is not appropriate to consider the effects of management actions that may be taken by individual operators in conducting farming. Agricultural farm management practices, including construction, maintenance and repair of farm buildings, and land use changes consistent with generally accepted principles of farming are listed as Type II actions in 6 NYCRR §617.5(c)(3), and these actions have been determined not to have a significant impact on the environment.

2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Part 3: Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur," or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short term, long-term and cumulative impacts.

This action consists of the modification and consolidation of the Eastern District No. 6 into the Western District No. 5, to be known as Monroe County Agricultural District No. 5. Doing so will increase the efficiency of the 8-year review process for County Staff, Land Owners, and the Towns and Villages of Monroe County while also reducing the confusion that occurs from multiple district reviews within Monroe County. As part of the eight-year review, twenty-five parcels have been submitted for addition and three parcels have been submitted for removal from the existing Agricultural Districts No. 5 and No. 6. These parcels are distributed throughout the County in the municipalities of Chili, Clarkson, Gates, Greece, Sweden, Parma, and Wheatland (Western Dist. No. 5); and Pittsford, Rush, Henrietta, Penfield, and Mendon (Eastern Dist No. 6).

This action includes the modification of Districts No. 5 and No. 6 by adding and removing parcels. Additionally, the action involves the consolidation of Monroe County Agricultural District No. 6 into District No. 5, resulting in a unified district to be known as Monroe County Agricultural District No. 5. The parcels affected are currently used for agricultural purposes and reflect the existing and historic agricultural character of their respective areas. This character is expected to remain unchanged. The action is not anticipated to result in increased traffic, population density, or demand on existing water or wastewater infrastructure.

This action will not result in significant adverse impacts to on-site or nearby national or state register of historic places, or state eligible sites, or archaeological sites; wetlands or other regulated water-bodies; 100 year flood plain (s), or remediation sites.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	<input checked="" type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
