# FREQUENTLY ASKED QUESTIONS

## **Q | Can I recycle all plastics marked #1- #7?**

**A |** *The recycling symbol that includes a number does **NOT** necessarily indicate recyclability curbside. Recycle plastics by their shape - empty bottles, jugs, jars and tubs. For more information visit: [www.monroecounty.gov/recycling](http://www.monroecounty.gov/recycling)*

## **Q | Should I separate my recyclables using plastic bags?**

**A | NO, keep recyclables unbagged and loose in container.** *Plastic bags, cords, ropes, etc. wrap around recycling machinery causing facility downtime and also contaminate recyclable paper. Plastic bags and product wrapping may be recycled at most large retail outlets.*

## **Q | Can I recycle caps and lids from containers?**

**A | Yes. After rinsing, caps and lids should be reattached.**

## **Q | Can Styrofoam™ egg cartons, coffee cups, and packing material with a #4 or #6 on it be recycled?**

**A | Foam cannot be placed in recycling bins.** *The ecopark will accept clean, white, block packaging foam only. Visit [ecoparkmcny.com](http://ecoparkmcny.com) for more information.*

## **Q | Can I place small electronics in my recycling bin or TVs and the like at the curb?**

**A | Electronics are not accepted curbside.** *Visit [ecoparkmcny.com](http://ecoparkmcny.com) for more information. Large metal appliances can be recycled by calling your waste collecting provider.*

## **Q | Can pizza boxes be recycled?**

**A | Yes, clean pizza boxes can be recycled.** *If the bottom of the box is covered in grease and food, tear off and dispose and only recycle the clean lid.*

## **Q | Should I place my recyclables at the curb on very windy days or if a storm is forecast?**

**A | Recyclables that blow around the neighborhood are litter.** *Use your good judgement on whether to delay your recycling.*

## **Q | Where can I get a new/replacement recycling container?**

**A | Contact your waste collection provider.** *Containers may be purchased at home improvement stores but always check with your recycling collector first to ensure program compatibility.*
