185 Exchange Blvd.  
Rochester, NY 14614

Dear Lisa:

My name is Sigmund VanDamme and I am the founder of NimbleUser, Inc. Since 1992 NimbleUser has been a leading technology integrator and implementer of Web Sites, CMS systems, and CRM systems. In the past few years NimbeUser has made a major push into cloud based technologies and we are a Google Apps Reseller and a Salesforce.com Certified Partner.

I feel very strongly that Monroe County and the Greater Rochester Area is a great candidate for the Google Fiber for Communities for a variety of reasons including:

- The Rochester Metropolitan Area is the second largest economy in New York State
- Rochester is home to internationally recognized programs for the deaf at the National Technical Institute for the Deaf and at the University of Rochester
- The Rochester Region has 15 colleges and universities and offers a highly educated populace
- While we have many internet providers, high speed internet similar to what Google Fiber is offering it is far too costly for the average citizen and most businesses

Thank you for your consideration.

Sincerely,

Sig VanDamme  
Founder  
NimbleUser - technology. for people.
