Scented Serenity Candles	Charlene Hall	585-502-9274	info@scentedserenitycandles.com	www.scentedserenitycandles.com
---------------------------------	----------------------	---------------------	--	--

Products/Services:	Scented Serenity Candles was born out of a personal journey of healing and connection. During the difficult period of the COVID-19 pandemic, I began making candles as a way to cope with the stress and challenges of life. It was a time of reflection, and through creating scents, I found a way to deal with the grief I had carried since losing my dad in 2012. Creating candles and crafting unique scents helped me find comfort and peace, reminding me of cherished family memories and providing an outlet for my emotions. In 2023 the name became official.
MWBE	Each scent tells a story, inspired by moments of joy, love, and even loss. For example, the Nook's Kitchen Collection pays homage to my mother and the delicious treats she used to bake, while fragrances like Kaleigh's Rose and Rue Bear honor my precious grand babies, who bring light and love into my life. Even scents like Her Favorite are deeply tied to memories of my father, evoking the aroma of his favorite tobacco.
	Scented Serenity Candles is not just a business—it's a way for me to share my journey with others, offering products that bring relaxation, emotional connection, and even healing to my customers. With a commitment to mental well-being, Scented Serenity Candles donates a portion of proceeds to the Loveland Foundation, making each purchase a contribution to a greater purpose.
	The brand's mission is to provide not just candles but meaningful experiences, combining craftsmanship and storytelling to create products that resonate deeply with the heart and soul. Through Scented Serenity Candles, I turn personal stories into something universal—offering moments of serenity to all who light our candles.
