ReThinkit Strategies	Katia Chaban	585-202-9620	katchaban@gmail.com	www.rethinkitstrategies.com
-----------------------------	---------------------	---------------------	----------------------------	---

Products/Services: Consulting Services: We help companies navigate the complexity of ESG and achieve sustainability goals. Combining our IT and Sustainability insights and experience, and through a circular lense, our goal is to help companies create the most effective sustainability strategies. We can execute a short or long-term engagement dependent on the unique journey of your business. This includes identifying the sustainability risks and issues facing your business, assessing your organization's value chain, including technology and supplier selections, determining what is material to the organization, and recommending the purposeful actions and strategies needed to meet your sustainability goals. Advisory Services: Drawing on diverse experiences and knowledge to provide guidance to support you in your sustainability journey to make you successful. Unlike a task-oriented consulting engagement, this role can be as involved in the organization as you need to help shape your goals, craft purposeful and impactful strategies, and work with you to create innovative solutions to challenges or barriers as sustainability becomes a norm in your organization.

Community Development

Community Development

Hallmark Planning & Development	Arthur Hall Jr.	716-486-9763	art@thehallmarkfirm.com	www.thehallmarkfirm.com
Products/Services:	Public Engagement - Hallmark works with clients to customize robust public engagement strategies to elevate ideas and solutions across diverse projects. We begin by determining the breadth of stakeholders, identifying their influence, and creating an engagement plan that matches different techniques to different audiences. The engagement experience is uniquely facilitated to generate optimum interaction that translates to maximum data extraction and productivity.			
MBE	Placemaking - Hallmark works with partners to strategically shape the physical and social character through public art and cultural engagement activities. Creative placemaking animates streetscapes and public spaces, improves public safety, and brings diverse people together to maintain a healthy, safe environment. Creative placemaking is the intersection of arts and culture with community and economic development. These elements are vital to improving urban neighborhoods' quality of life, mobility, and socioeconomic development. Community Planning—Hallmark helps identify community priorities through a comprehensive planning process. This process is generally composed of vision casting sessions, data collection, a Community conditions Report, and an analysis of Strengths, Weaknesses, Opportunities, and Threats (SWOT) throughout the strategic planning facilitation. It also includes long-range planning. Commercial Real Estate - As a licensed commercial real estate professional, we offer comprehensive solutions customized to meet your needs. We are familiar with the properties, developers, and demographics of western and upstate New York. We'll help you locate the commercial property that meets your specifications, prepare a detailed analysis of each listing, and coordinate site visits.
