--------------------------------	---------------------------	---------------------	---	---

Products/Service	Jaedicke Consulting LLC provides clients with a rigorous approach to airport traffic forecasting and economic analysis based on extensive industry knowledge and a detailed understanding of aviation data sources. Elizabeth Jaedicke, the firm's founder and principal consultant, started the firm in 2018 after 14 years with top consulting firms serving airport, banking, and institutional clients on six continents. Jaedicke Consulting specializes in creating custom aviation traffic forecasts; we examine individual market drivers and tailor a forecast methodology to each airport. The ability to create a meaningful airport traffic forecast relies on knowing what approach to apply when and what data sources best serve as model inputs.

ReThinkit Strategies	Katia Chaban	585-202-9620	katchaban@gmail.com	www.rethinkitstrategies.com
Products/Service	Consulting Services: We help companies navigate the complexity of ESG and achieve sustainability goals. Combining our IT and Sustainability insights and experience, and through a circular lense, our goal is to help companies create the most effective sustainability strategies. We can execute a short or long-term engagement dependent on the unique journey of your business. This includes identifying the sustainability risks and issues facing your business, assessing your organization's value chain, including technology and supplier selections, determining what is material to the organization, and recommending the purposeful actions and strategies needed to meet your sustainability goals. Advisory Services: Drawing on diverse experiences and knowledge to provide guidance to support you in your sustainability journey to make you successful. Unlike a task-oriented consulting engagement, this role can be as involved in the organization as you need to help shape your goals, craft purposeful and impactful strategies, and work with you to create innovative solutions to challenges or barriers as sustainability becomes a norm in your organization.

Scented Serenity Candles	Charlene Hall	585-502-9274	info@scentedserenitycandles.com	www.scentedserenitycandles.com
Products/Service	Scented Serenity Candles was born out of a personal journey of healing and connection. During the difficult period of the COVID-19 pandemic, I began making candles as a way to cope with the stress and challenges of life. It was a time of reflection, and through creating scents, I found a way to deal with the grief I had carried since losing my dad in 2012. Creating candles and crafting unique scents helped me find comfort and peace, reminding me of cherished family memories and providing an outlet for my emotions. In 2023 the name became official.

VanDuser Electric LLC	Michelle VanDuser	585-727-8732	Michelle@vanduserelectric.com	www.vanduserelectric.com
Products/Service	VanDuser Electric, LLC specializes in upgrading outdated electrical panels in low-income homes—because safe, modern electricity shouldn't be a luxury. We're passionate about making homes safer, more efficient, and more reliable, especially for families who need it the most. As a family-owned business, we're dedicated to providing affordable, high-quality electrical upgrades. Our focus is on residential electrical panel upgrades that meet today's energy demands while ensuring all work is code-compliant, safe, and completed to the highest standards. Millions of families live in aging homes with outdated, overloaded panels that can't support modern appliances or energy use. These aren't just inconveniences—they're fire hazards. But for many, the cost of upgrades puts basic safety out of reach.

--	----------------------	---------------------	-----------------------------	---

Products/Service	Pinnacle Solutions Inc. (PSI) is a software and consulting company providing custom financial software to banks, corporate users and Government agencies, since 1992. Synergy is PSI's suite of secure, functionally rich, web-based banking and financial applications developed using Microsoft .Net technology. The Synergy Collateral Management Application is used by NYC Department of Finance to receive inbound files from every bank and to track all city bank account balances and corresponding collateral coverage. In addition, Synergy is being used for audit purposes, to address FOIL requests and to provide NYC DOF with complete historical data for additional analytics. Synergy web-pages are fully integrated with Windows and other Microsoft products (e.g., Excel, Outlook, Word, Acrobat and Crystal reports). The Synergy Dashboard alerts the users to conditions of the collateral portfolio that need to be addressed. Synergy 's robust inquiry and reporting functions give the user the ability view and report consolidated data and to create dynamic customized reports with user defined filters. Synergy client/server technology and n- tier design is completely scalable and internet enabled with complete secure user administration. Contact us today to see if our solutions can work for your organization.

Pick-up and Drop-off, LLC	Donovan McLean	585-910-9400	pickupanddropoffllc@gmail.com	<u>N/A</u>
----------------------------------	-----------------------	---------------------	--------------------------------------	----------------------------

Products/Service A courier service that focuses on the last mile part of logistics. We have worked with Amazon, Staples, UPS and various other master contractors that cater to logistics. P.A.D operates with a business to business format that helps solve logistics problems for businesses. Due to the raises of ecommerce the demand has increased which in return benefits the logistics industry. PAD believes that industry will continue to rise as demand increase and store front sales decrease.
