TRANSPORTATION NEWS

This informational newsletter will provide periodic updates (as needed) on the status of the "Monroe County Traffic Signal Replacements - Group 1" Project and communicate upcoming construction activities to local residents.

CURRENT PROJECT STATUS

TRAFFIC SIGNAL REPLACEMENTS TO BEGIN ON DEWEY AVE AND ON RIDGEWAY AVE

Beginning in late April 2026, Monroe County DOT's contractor, M.L. Caccamise Electric, will begin work to replace five existing traffic signals on Dewey Avenue in the Town of Greece, and two existing traffic signals on Ridgeway Avenue in the City of Rochester (refer to the back of this letter for a map showing the traffic signal locations).

The project work will include:

- Replacement of the underground conduit system
- Installation of new mast arm traffic signal poles and foundations
- New traffic signal heads and overhead signs
- Replacement of existing street lighting on the new traffic signal poles
- New pedestrian signals and push buttons
- Installation of new video vehicle and bicycle detection systems

Typical work will require shoulder closures, single lane closures, lane shifts, and flagging operations. We apologize for any inconvenience this work may cause, and ask for your patience during the project.

Barring any unforeseen delays, we expect the project to be completed by spring 2027.

Additional information on this project, as well as other Monroe County Department of Transportation projects, is available at: <https://www.monroecounty.gov/dot-construction>

PROJECT CONTACTS:

If you have questions about the Project, you can contact David Kubiak of the Monroe County DOT. Once the project starts you can also contact the Resident Engineer, Jody Pagorek, who will be on-site with the contractor.
