COUNTY EXECUTIVE

# TRANSPORTATION NEWS

*This informational newsletter will provide periodic updates (as needed) on the status of the Calkins Road Rehabilitation Project and communicate upcoming construction activities to local residents.*

## CURRENT PROJECT STATUS

### ROAD WORK STARTING ON CALKINS ROAD (E HENRIETTA RD TO PINNACLE RD)

Beginning on, or around, **Monday, May 11th**, Monroe County DOT's contractor, Ramsey Constructors, will begin work on the "**Calkins Rd Highway Rehabilitation Project**". The limits of this project are from East Henrietta Rd (NY-15A) to Pinnacle Rd (refer to the back of this letter for a project location map).

The project work will include:

- Replacement of existing gas main and services (by RGE crews) *(this work is already underway)*
- Replacement of the entire storm sewer system and portions of the watermain and sanitary sewer system.
- Removal and replacement of a large diameter culvert located just east of Bard Ln.
  - Note that replacement of this culvert will require a week-long closure of Calkins Rd at the culvert site. This will occur later this summer, while school is not in session. Local traffic will be maintained to driveways up to the culvert, but through traffic will follow a posted detour via E Henrietta Rd, Lehigh Station Rd, and Pinnacle Rd.
  - Portable variable message boards will be installed on site prior to the road closure and a separate mailing will be sent out to residents and project stakeholders which will list the start date of the upcoming closure.
- Installation of new concrete gutter and restoration of driveway aprons to tie into new gutter.
- Replacement of asphalt area behind the gutters.
- Milling and paving of Calkins Road and installation of new pavement markings and signs.

Expect some delays as work will require shoulder closures and alternating one-way traffic using flaggers. As mentioned above, a road closure just east of Bard Ln will be implemented later this summer for a duration of approximately one week. Barring any unforeseen delays, we expect this work to be completed by November 2026. We apologize for any inconvenience this may cause, and ask for your patience during the project.

Additional information on this project, as well as other Monroe County Department of Transportation projects, is available at: <https://www.monroecounty.gov/dot-construction>

### PROJECT CONTACTS:

*If you have questions about the Project, you can contact David Kubiak of the Monroe County DOT. Once the project starts you can also contact the Resident Engineer, Joe Mancini, who will be on-site with the contractor.*
