TRANSPORTATION NEWS

This informational newsletter will provide periodic updates (as needed) on the status of the Schlegel Road Culvert Project and communicate upcoming construction activities to local residents.

CURRENT PROJECT STATUS

SCHLEGEL RD TO CLOSE SEPTEMBER 21, 2026 FOR CULVERT REPLACEMENT

Beginning on **Monday, September 21, 2026**, at 7:00am, the culvert on Schlegel Road over Fourmile Creek Tributary (approx. 1/4 mile west of Basket Rd) will be closed to all traffic. This closure will allow for C.P. Ward, a contractor for the Monroe County Department of Transportation (DOT) to replace the culvert.

Local traffic will be maintained to all driveways and the side street Pipeline Way, up to the culvert; However, the culvert itself will not be passable. Through traffic will follow a posted detour route via Salt Road, Woodard Road, and Basket Road (refer to the back of this letter for a map of the detour route).

The project will involve the complete removal of the existing culvert, including the surrounding asphalt. The existing structure will be replaced with a new precast box structure. Watermain will be replaced to route around the culvert, asphalt shoulders at the culvert will be widened and pavement markings will be replaced before re-opening the culvert to traffic.

Barring any unforeseen delays, we expect this project to be completed in November 2026.

Additional information on this project, as well as other Monroe County DOT projects, is available at: <https://www.monroecounty.gov/dot-construction>

PROJECT CONTACTS:

If you have questions about the Project, you can contact Sam Giovino of the Monroe County DOT. Once the project starts you can also contact the Resident Engineer, Mike West, who will be on-site with the contractor.
