TRANSPORTATION NEWS

This informational newsletter will provide periodic updates (as needed) on the status of the Taylor Road Bridge Replacement Project and communicate upcoming construction activities to local residents.

CURRENT PROJECT STATUS

TAYLOR ROAD TO CLOSE JULY 23, 2026 FOR BRIDGE REPLACEMENT

Beginning on, **Thursday July 23, 2026 at 9:00 am**, the bridge on Taylor Road over Irondequoit Creek (approx. 200 feet east of Chamberlain Road) will be closed to all traffic. This closure will allow Keeler Construction Co., Inc, a contractor for Monroe County DOT, to replace the bridge.

Local traffic will be maintained to all driveways up to the bridge; however, the bridge itself will not be passable. Through traffic will continue to follow the signed detour via Chamberlain Road, Bulls Saw Mill Road, and West Bloomfield Road (refer to the back of this letter for a map of the detour route).

The project will involve removal of the existing bridge superstructure and substructure, prior to the installation of a new 3-sided precast concrete structure. The bridge and adjacent roadway will be widened to accommodate 11-foot travel lanes and 6-foot shoulders in both directions. Additional improvements will also include installation of new bridge railing and approach guide railing, as well as armoring of the stream channel. Lastly, pavement markings will be replaced prior to re-opening the bridge to traffic.

Barring any unforeseen delays, we expect this project to be completed in October 2026.

Additional information on this project, as well as other Monroe County Department of Transportation projects, is available at: <https://www.monroecounty.gov/dot-construction>

PROJECT CONTACTS:

If you have questions about the Project, you can contact Eric Tait of the Monroe County DOT. Once the project starts you can also contact the Resident Engineer, Lawrence Hall, who will be on-site with the contractor.
