

TURK HILL ROAD BRIDGE REHABILITATION PROJECT

OVER THOMAS CREEK TRIBUTARY (BIN 3317260, SIN 13-050-448)

TOWN OF PERINTON/VILLAGE OF FAIRPORT, MONROE COUNTY, NEW YORK

Project Description

- The project proposes to rehabilitate a structurally deficient bridge on Turk Hill Road, located approximately 140 feet north of Cobb's Lane, in the Town of Perinton/Village of Fairport.

Project Objective

- Address structural deterioration within the existing corrugated metal pipe arch structure by constructing a new structure within the existing, to preserve and prolong the service life of the bridge by an anticipated 50 additional years.

Proposed Improvements: Bridge Rehabilitation

- Installation of a new, 34-ft wide, 18'9"-ft tall, 164'-ft long, polymer coated, corrugated structural plate liner inside the existing structure.
- Placement of stone fill slope protection for prevention of erosion and scour.
- Repairs to the deteriorated concrete headwall/collar.
- Refer to the back of this letter for preliminary section through the proposed bridge structure.

Right of Way

- The acquisition of temporary easements along portions of the adjacent properties will be required.
- The easements will be needed for construction of the bridge.
- Affected property owners will be contacted during preliminary design.

Maintenance and Protection of Traffic

- The project will not require a closure of Turk Hill Road.
- Traffic will be maintained across the bridge.
- The access ramp between Turk Hill Road and the Empire State Trail – along the Erie Canal, will need to be temporarily closed during construction.
- Access to the Empire State Trail will remain open by utilizing the parking area on Cobb's Lane, adjacent to the Empire State Trail.

Tentative Schedule & Costs

- Preliminary Design: Ongoing
- Final Design: Fall 2026
- Start Construction: Spring 2027
- Complete Construction: Fall 2027
- Estimated Construction Costs: \$3.65 Million
- Project Funding: NYS "BridgeNY" program and Monroe County Funding
