

# VINTAGE LANE BRIDGE REPLACEMENT PROJECT

## OVER ROUND POND CREEK (BIN 3367000, SIN 05-267-006)

### TOWN OF GREECE, MONROE COUNTY, NEW YORK

#### Project Description

- The project proposes to replace a structurally deficient bridge on Vintage Lane, located approximately 300 feet east of Long Pond Road, in the Town of Greece.

#### Proposed Improvements: Bridge Replacement

- Complete removal of the existing bridge.
- Installation of a new precast concrete arch bridge structure
- Installation of new concrete headwalls at both ends of the bridge.
- Placement of stone fill slope protection for prevention of erosion and scour.
- Full reconstruction of the roadway pavement section immediately adjacent to the bridge. Replacement of existing sidewalk over the bridge.
- Installation of new guiderail over the bridge designed to current standards.
- Refer to the back of this letter for preliminary plan layout of the proposed bridge structure.

#### Maintenance and Protection of Traffic

- The project will require closure of Vintage Lane at the bridge. A detour utilizing Long Pond Road, English Road and Fetzner Road will be posted, as shown on the above map. Vintage lane will remain open to local traffic up to the bridge, but the bridge will not be passable. This closure will need to be in place for the duration of the bridge replacement project which is estimated to be approximately 6 months.

#### Right of Way

- The acquisition of Easements will be needed at both ends of the bridge .
- The easement areas are needed for construction and for future maintenance of the bridge.
- Affected property owners will be contacted in the coming months regarding the needed easements.

#### Tentative Schedule & Costs

- Preliminary Design: Ongoing
- Final Design: Fall 2026
- Utility Company relocation work: Fall & Winter 2026
- Start Construction: Spring 2027
- Complete Construction: Fall 2027
- Estimated Construction Costs: \$3.5 Million
- Project Funded: New York State "BridgeNY" program and Monroe County Funding
