Department of Finance

Monroe County, New York

Adam J. Bello
County Executive

Robert Franklin Chief Financial Officer

May 20, 2025

Taxpayers of Monroe County,
Honorable County Executive,
Members of the Monroe County Legislature, and
Employees of Monroe County

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the County of Monroe, State of New York (the County) for the year ended December 31, 2024, in accordance with the requirements of Article VI, Section C6-5C(2)(d)[1] of the County Charter. This report has been compiled and prepared by the Department of Finance, which assumes full responsibility for the completeness and accuracy of the financial data contained herein. We believe the information presented in this report fairly portrays the County's financial position and results of operations for 2024.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Pursuant to Article VI, Section C2-6C(11) of the Monroe County Charter, the basic financial statements of the County are independently audited each year by an independent Certified Public Accounting firm. Bonadio & Co., LLP has completed the independent audit for the year ended December 31, 2024 using auditing standards generally accepted in the United States of America. The audited financial statements are included in the Financial Section of this report in its entirety and without edit.

On an annual basis we strive to achieve an unmodified opinion (commonly referred to as a clean opinion) for the audited financial statements, which is the highest level of assurance that can be given by an independent auditor. Our independent auditors have issued an unmodified opinion, stating that the basic financial statements, "present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County as of December 31, 2024, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America."

The County is also required to undergo an annual audit in conformance with the provisions of the Federal Single Audit Act (as amended) and the United States Office of Management and Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this audit (including the schedule of expenditures of federal awards; summary of findings and questioned costs; the Independent Auditor's Report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*; and a report on compliance for each major program and on internal control over compliance required by the Uniform Guidance) is not provided in this report. This information is presented as a separate report.

39 West Main Street • Room 402 • Rochester, New York 14614 (585) 753-1157 • fax: (585) 753-1133 • www.monroecounty.gov • e-mail: mcfinance@monroecounty.gov

PROFILE OF MONROE COUNTY GOVERNMENT

Location

Monroe County is located in western New York State on the south shore of Lake Ontario, approximately 70 miles east of the Buffalo/Niagara Falls area. The County is the northernmost portion of the Genesee River valley and contains one city, 19 towns and 10 villages. The City of Rochester is the County seat and New York State's third largest industrial and commercial center next to New York City and Buffalo. The area is accessible via the Frederick Douglass Greater Rochester International Airport, CSX and Genesee & Wyoming, Inc. railroads, Amtrak, the New York State Thruway, the St. Lawrence Seaway, and the New York State Erie Canal System. Monroe County is within 400 miles of many major metropolitan areas such as New York City, Toronto, Boston, and Washington, D.C.

Government Structure and Reporting Entity

The County Executive is the Chief Executive Officer and the administrative head of the County with authority to approve or veto any local law, legalizing act, or resolution adopted by the County Legislature. The County Executive is elected in a general county-wide election to serve a four-year term. The County is divided into twenty-nine legislative districts with an elected legislator representing each district in the County Legislature. County Legislators may serve for two four-year terms and one two-year term during a ten-year cycle. The County Legislature is the legislative, appropriating, and governing body of the County.

The County's reporting entity is based on criteria set forth by the Governmental Accounting Standards Board as discussed in Note 1 to the Basic Financial Statements. The County reports the following: governmental activities, business-type activities, discretely presented and blended component units, general fund, capital projects, aggregate non-major governmental funds, five major enterprise funds, internal service funds, and fiduciary funds. The County's component units include Monroe Community College, Monroe County Airport Authority, Monroe County Water Authority, County of Monroe Industrial Development Agency, and Monroe Tobacco Asset Securitization Corporation.

The County provides its residents with diverse services and programs, including human services, public safety, public and mental health, wastewater management, public works, economic development, and cultural, educational, and recreational programs. Public facilities are also available and include an expansive parks system (with historical Olmstead designed parks), county run golf courses (with a Robert Trent Jones designed course), an AZA-accredited zoo, the Frederick Douglass-Greater Rochester International Airport (ROC), Monroe Community Hospital, and Monroe Community College.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

Overarching priority areas for county initiatives have focused on public health and wellness, public safety, workforce and economic development, and countywide infrastructure.

Public Health and Wellness

<u>Mental Health App</u> – The Office of Mental Health launched a new mental health app for Apple and Android platforms to provide essential wellness information, crisis resource contacts, and connections to nearby support

services at the tap of a button. Users have access to suicide prevention information, can create a safety plan, and can call / text for help directly on the app.

<u>Nature-Based Therapy</u> — The Veterans' Service Agency launched the first municipally-run clinical nature-based therapy program in the country. After contracting out a successful pilot initiative to reduce PTSD symptoms experienced by veterans, the county decided to offer this service directly. The county worked with a clinical psychologist to develop its program and hire clinical staff to expand service delivery to a minimum of four therapy cohorts.

<u>Age-Friendly Community</u> — Roughly one quarter of county residents are age 60 and older. To better serve this growing demographic, Monroe County's Aging Alliance created an action plan for an age-friendly and livable community, and received an Age-Friendly Community designation from AARP. County departments operate through an age-friendly lens to make positive impacts for the community. Since the plan's implementation, the Active Transportation Plan incorporates age-friendly recommendations, DOT implemented "Safe Streets 4 All" projects, and the Parks Department completed wheelchair-accessible beach mat installations at Ontario Beach Park and added new pickleball courts in county parks.

Public Safety

<u>3D Ballistics Technology</u> – The county's crime lab purchased high-resolution 3D imaging microscopes to replace their older 2D ballistics imaging system. This new technology allows examiners to use a bullet, casing, or both to provide more data points that can generate potential matches between illegal guns and ammunition used in crimes.

<u>School Bus Safety</u> – Monroe County partnered with a provider of stop-arm enforcement technology to improve the safety of children boarding or disembarking school buses. The provider installs camera systems on school buses that capture video of motorists who pass school buses when the red lights are flashing and the stop arms are down.

Workforce and Economic Development

<u>RETAIN</u> – The Rochester Emerging Talent and Innovations Network is a pilot initiative aimed at ensuring top-tier talent remains in our region after graduating from area universities. Bachelor-degreed graduates whose degrees are directly related to their position in advanced manufacturing, life sciences, optics, photonics, imaging (OPI) or information technology may be eligible to receive a \$4,000 grant if they live and work in Monroe County for at least one year post graduation.

<u>Small Business Loans</u> – The MicroAdvantage Small Business Loan Fund seeks to provide qualified small businesses with access to capital loans of up to \$50,000. The interest rate on such loans was reduced to a fixed 5%, or 4% for certified MWBE and SDVO businesses. Previously, loan rates were tied to the prime lending rate. Over two dozen small businesses have qualified for over \$1 million of these loans, and 70% of them are certified MWBE or SDVO businesses.

Community Infrastructure

<u>Frederick Douglass – Greater Rochester International Airport</u> – Named one of the 10 best small airports in the country by USA Today, the country's airport is undergoing terminal improvements such as a faster baggage system,

larger vestibules and doorways, extended canopy walkways, and the installation of a parking guidance system. The \$32 million renovation project has created 75 construction jobs.

<u>Multimodal Freight</u> – Plans for an inland multimodal freight infrastructure project aim to improve the movement of goods through Monroe County. Utilizing a cluster approach, the project will develop air, rail, and truck transit facilities, fostering private investment and leveraging state and federal funding.

ECONOMIC PROFILE AND OUTLOOK

Local Economy

A business-friendly infrastructure, a community centered on partnership and collaboration, nationally ranked colleges and universities, four-season weather, short commutes, and affordable housing are just a few of the many reasons people locate in Monroe County.

Monroe County is one of the least congested areas in the region with the City of Rochester offering an average commute of 21.1 minutes, which is 5 minutes less than the national average. Multi-modal transportation is also available in Monroe County at the Frederick Douglass — Greater Rochester International Airport (ROC), which averages 120 flights per day to 19 different cities. Rail service is available through Amtrak and Rochester-Genesee Regional Transportation Authority (RGRTA) provides bus service.

A strong industrial history, emerging technology sector, and an emphasis on high quality services, including higher education, ensure a technically sophisticated and reliable workforce.

Seven exceptional colleges and universities provide quality educational opportunities for students from throughout the Greater Rochester area, New York State, the nation, and the world. Area universities continue to be a driving force in the area's economic success. With more than 26,000 employees, The University of Rochester Medical Center is the largest component of the University of Rochester, and is the largest private sector employer based in Upstate New York and the seventh largest employer in the state. The direct and spillover impact of the University's employee wages and spending, purchases, capital investments, and visitor and student spending, generate approximately 56,000 jobs across Upstate New York.

Along with the University of Rochester/Strong Medical Center, the County is home to Wegmans Food Markets, L3Harris Technologies, Rochester Institute of Technology, Xerox and Paychex, as well as nearly 17,000 businesses with less than 100 employees.

<u>Population and Employment</u> – The County has a population of approximately 752,202 (US Census Bureau Quick Facts) as of July 2024, and is the central county in the Rochester Metropolitan Area which has a population of approximately 1,057,218 according to the U.S. Census Bureau (2024 estimate). In Monroe County, the labor force averaged 368,242 for calendar year 2024, with its economy drawing from a regional labor force of 522,600 (NYS DOL). As of December 2024, NYS DOL reported the unemployment rate in the Rochester Metropolitan Area at 3.4% and Monroe County at 3.4%, while the State unemployment rate was 4.4% and the national rate was 4.1%, according to the New York State Department of Labor.

<u>Industry Sectors</u> – Monroe County has a large, high-end manufacturing business base. There are more than 1,500 manufacturers in the Greater Rochester, NY region, and this sector represents over 12% of the local workforce. Greater Rochester's manufacturing base is primarily in high tech precision, with its largest employment sectors being machinery, computer & electronic products, printing equipment, and transportation equipment. An

additional significant force in the region's manufacturing base comes from food and beverage manufacturing (NYS DOL Q3 2022). The leading manufacturing employers in the region, among many others, are Eastman Kodak, L3Harris and Xerox. The leading precision manufacturing employers in the region are The Gleason Works, Alliance Precision Plastics and Lexington Machining.

Imaging history is unparalleled as the birthplace of Eastman Kodak Company, Xerox Corporation, and Bausch+Lomb. Today, Rochester is home to more than 120 leading businesses focused on optics, photonics, and imaging. Rochester's optics industry is diverse, including expertise in biophotonics, digital imaging, vision science, semiconductors, precision optics, lasers, and aerospace and defense applications. Approximately 19,000 people are employed in Rochester in the optics industry. In fact, roughly 60 percent of all optics degrees conferred in the US are conferred in the area's higher-education institutions.

With numerous life sciences companies and extensive research and development resources available in the Rochester area, including the University of Rochester's Medical Center and its Clinical and Translational Sciences Institute, discoveries can be readily advanced from the lab into new treatments and cures. Leveraging the capabilities and expertise among many precision manufacturers, software development firms, and research institutions, a diverse and highly skilled technical and engineering environment is readily available to collaborate in the development, prototyping, and commercialization of medical devices, biotech products, and healthcare IT applications.

Software, game design, and IT solutions companies represent a large sector of start-ups as well as larger companies in the Greater Rochester, NY region. These software companies support the development of solutions that enable device management, management of health information, and expense optimization software for telecommunication applications. Numerous IT solutions companies provide managed services, consulting, system integration, and software development services.

<u>Housing</u> – Homeownership is affordable in Monroe County, with a variety of urban and suburban neighborhoods which offer an array of housing options. In February 2024, U.S. News & World Reports ranked Rochester #9 on their list of Best Places to Live for Quality of Life in the U.S. in 2023-2024. Realtor.com sited affordability, a strong job market, and quality of life as factors that make Rochester an enticing market for home hunters in 2024. Realtor.com also reported that Rochester's median list price was 41.2% below the national median with a variety of housing options, making it an ideal choice for both first-time homebuyers and families. According to the National Association of Realtors, Monroe County averaged a median home price of \$240,074 during the fourth quarter of 2024, while the median home price in New York State was \$420,000 in December 2024 according to the New York State Association of Realtors, Inc.

Significant Community Announcements

Monroe County works in partnership with the County of Monroe Industrial Development Agency, Monroe County Industrial Development Corporation, Greater Rochester Enterprise, Greater Rochester Chamber of Commerce, RochesterWorks! and Monroe Community College's Applied Technologies Center. During 2024, many projects involved significant investment, renovations and upgrades to existing commercial stock for manufacturing, housing and services. The following are some examples:

<u>Constellation Brands</u> a leading beverage alcohol company and a Fortune 500 company relocated their global headquarters to Rochester in 2024, bringing 300 employees to the downtown core. This was a \$50 million

renovation to a 170,000 sq. ft. space in a historic building located on the river called the Aqueduct Building. There is room for an additional 100 FTEs.

<u>Topgolf USA RCH, LLC</u> is constructing an approximately 48,282 sq. ft. building in the Town of Brighton. Topgolf will provide a unique golf entertainment venue with high-tech golf driving range games, full-service restaurant and bar, and event space. The facility will have 80 hitting bays with a 205-yard-long outfield and is expected to draw over 250,000 visitors annually. The \$39.8 million project is projected to create 212 FTEs.

<u>DelMonte Development LLC</u> is constructing a new 114,000 sq. ft. hotel with 191 rooms in the City of Rochester. This new facility will be a dual brand hotel concept featuring the Element by Westin for extended stay and AC Hotels by Marriott to accommodate business travelers. This \$42.8 million project is located in the City Gate Development and aligns with the original concept for the complex. DelMonte Development LLC plans to create 33 new FTEs.

<u>Unither Manufacturing, LLC</u> is a pharmaceutical contract and manufacturing organization focused on premeasured single-use dosage forms located in the Town of Henrietta. Unither is developing a 65,000 sq. ft. expansion at their only U.S. manufacturing site in Monroe County. The expansion will host new sterile manufacturing areas and will allow for an increase in current capacity and additional production lines. The new facility will also house a state-of-the-art laboratory and warehouse. The \$14 million project is projected to create 50 FTEs in addition to the existing 303 FTEs.

<u>Waffle8er, LLC</u>, a food production manufacturer specializing in waffles and other frozen food, is renovating a 133,000 sq. ft. building in the Town of Greece. Renovations include conversion of the facility from a dry storage warehouse to food manufacturing plant. The \$8.6 million project plans to create 133 FTEs over the next three years.

<u>120 Main Hotel LLC</u> is proposing the renovation, reconstruction and rehabilitation of the former 14-story Rochester Riverside Hotel in the City of Rochester. The renovated facility will consist of a parking garage with 329 structured and surface parking spaces; a 123-room hotel with restaurants and retail space on floors 1, 2 and 3; banquet and meeting spaces on floor 4; and 171 residential units on floors 6-14. The \$61 million project is projected to create 27 jobs over three years.

<u>49 East Avenue, LLC</u>, a real estate holding company, is re-developing an unoccupied 65,000 sq. ft. office building in the City of Rochester. This facility will consist of approximately 54 residential units for medical students in residency at Rochester General and Unity Hospitals. Units will consist of 21 studios, 30 one-bedroom and 3 two-bedroom apartments. The \$19 million project plans to create 1 new FTE.

<u>Emerald Point Developers LLC</u>, a real estate holding company, is constructing a new 44,000 sq. ft. building in the Town of Ogden, for its tenant, Advantech Industries Inc., a related entity. Advantech Industries Inc. specializes in CNC, sheet metal fabrication, welding and assembly of building components made to customer supplied designs. Advantech outgrew its main facility and transferred its sheet metal capabilities to an existing building across the street where it will construct an addition to the existing building. The \$2 million project plans to create 15 new FTEs in addition to its existing 150 FTEs.

FINANCIAL INFORMATION

Policies and Practices

<u>Internal Controls</u> – The County Administration is responsible for establishing and maintaining internal controls capable of ensuring that the assets of the County are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for basic financial statement preparation in conformity with U.S. generally accepted accounting principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgment by management. The County's internal controls are monitored and evaluated by the Department of Finance, specifically the Office of the Controller and Internal Audit. As part of this effort, an annual internal auditing program to review and evaluate the adequacy and effectiveness of the County's internal controls is presented to an audit committee of the Legislature each April, with subsequent outcomes reported in the following October and April.

<u>Budgetary Controls</u> – The County maintains budgetary controls to ensure compliance with the operating budget as approved annually by the County Legislature. Control is exercised over expenditures at the commitment item class level for all departments. Activities in the governmental funds are funded and controlled through the annual operating budget. The County also maintains expenditure control via an encumbrance accounting system that provides that unencumbered, unexpended appropriations lapse at year-end unless explicitly reappropriated by the County Legislature. Encumbrances outstanding at year-end are recorded in order to reserve that portion of the applicable appropriation for expenditure in the ensuing year. The County Executive has the authority to transfer budget amounts of \$10,000 or less between departments within the same fund. The following governmental funds have annually adopted budgets: General, Road, Library and Debt Service. The following proprietary funds have annually adopted budgets: Pure Waters, Monroe Community Hospital, Airport, Solid Waste, and Internal Service.

<u>Capital Improvement Plan</u> — Capital projects are planned for in a six-year Capital Improvement Program. This program is updated annually with its first year becoming the County's Proposed Capital Budget for that year. Appropriations for each capital project are approved by the County Legislature and each project is accounted for in a separate capital fund.

The County administration's debt policy provides that debt shall be issued to finance capital projects where funding sources are not immediately available. The debt will be structured in the most efficient manner to limit the impact on the taxpayer and will take payment of existing debt obligations into consideration as well as the total projected operating cost of the county. The use of cash capital through the operating budget will be utilized on an increasing basis to reduce the need for borrowing and avoid the associated interest costs. Cash Capital will be used for annually recurring capital improvement projects, recurring information technology projects, projects with a short useful life, or for other projects with costs estimated at \$100,000 or less as financial and budgetary conditions permit without placing undue pressures on the taxpayers. Any and all debt issues will be structured and sold in accordance with sound debt management practices.

<u>Cash Management</u> – The County utilizes a pooled-cash concept to optimize its investment earnings. Earnings are allocated to the participating funds based upon their equity in the investment pool. All County investments are actively managed in accordance with New York State Law and the County Legislature's approved investment and deposit policy that emphasizes safety and liquidity above yield as management priorities.

<u>Fund Balance</u> – In accordance with Governmental Accounting Standards Board (GASB) Statement 54, governmental fund balances will be classified into the specifically defined categories of non-spendable, restricted, committed, assigned, and unassigned.

The County Legislature formalized a fund balance policy by passing Resolution 262 of 2023. The Resolution recognizes that the Legislature may commit fund balance for a specific purpose through adopted resolution, that the Director of Finance-Chief Financial Officer may assign fund balance for a specific intent, and that when fund balances of more than one category are available for a specific purpose, it is the County's practice to use the most restrictive fund balance first, in the following order: any non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance.

The resolution also requires the County to maintain an available general fund balance (the combined assigned and unassigned fund balance categories) to be within ten million dollars (\$10 million), plus or minus, of ten percent (10%) of the all-funds expenditures in the currently adopted operating budget. Available fund balances in excess of the maximum requirement may be used in subsequent budgets to provide property tax stability, capital project funding, and /or debt reduction, or for any other lawful purpose approved by the County Legislature.

In the event available fund balance falls below the minimum requirement, the Director of Finance-Chief Financial Officer shall prepare a plan to restore the available fund balance to the minimum requirement in the next budget year or other appropriate period of time.

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Monroe for its annual comprehensive financial report for the fiscal year ended December 31, 2023. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

The preparation of this report could not have been accomplished without the dedicated efforts of Christopher Kovacic, Erika Batz, Mohamed Bilal, Joseph Bragg, Anthony Macri, Teri Rabinowitz, Richard Ribis, Peter Shimshock, Carolyn Thompson and the entire Department of Finance.

We, therefore, transmit this report to you, the reader, in the spirit of accounting for our stewardship of the public's assets and interests.

Respectfully Submitted,

Robert Franklin

INDEPENDENT AUDITOR'S REPORT

May 20, 2025

To the County Executive and Members of the County Legislature County of Monroe, New York:

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Monroe, New York (the County), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the County of Monroe Industrial Development Agency (the Agency) and the Monroe County Water Authority (the Authority), which represent a combined 60%, 78%, and 35%, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units as of December 31, 2024, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Agency and the Authority, is based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As described in Note 1S to the financial statements, in 2024, the County adopted new accounting guidance, GASB Statement No. 101, *Compensated Absences*. Our opinions are not modified with respect to this matter.

171 Sully's Trail Pittsford, NY 14534 p (585) 381-1000 f (585) 381-3131

INDEPENDENT AUDITOR'S REPORT

(Continued)

Correction of an Error

As described in Note 1S to the financial statements, in 2023, the County incorrectly reported bond premium in the Capital Fund instead of the Debt Service Fund. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion
 is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of revenues, expenditures and changes in fund balances – general fund – budget and actual, the schedule of changes in total other postemployment benefits liability and related ratios, the schedule of proportionate share of the net pension liability (asset), and the schedule of contributions - pension plans be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit and the report of the other auditors, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections and budgetary information – debt service, road, and library funds but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

1. Introduction

This Management's Discussion and Analysis (MD&A) of the County of Monroe, New York (the County) financial statements provides an overview of the County's financial activities for the year ended December 31, 2024. Please read it in conjunction with the County's financial statements and footnotes, which follow this section.

The basic financial statements are arranged to take the reader from a general overview of the entire County to very detailed information about particular funds. First, the financial highlights are provided through the MD&A. Second, an overall picture of the entire County is provided through the government-wide financial statements. Third, details about the major funds are provided through the fund financial statements.

Data as of December 31, 2024 and comparative data from the year ended December 31, 2023 follows.

2. Financial Highlights

The County overall finished 2024 with a net position of \$202.8 million, a decrease of \$4.8 million during the year. The County's net position continues to be affected by two major factors: the blended component unit, Monroe Tobacco Asset Securitization Corporation (MTASC), and the liability for future retiree health insurance benefits. MTASC finished 2024 with a net deficit position of \$291.8 million, while the estimated present value of future retiree health insurance benefits was \$434.4 million. The County's net position is segregated into three components: (1) net investment in capital assets; (2) restricted; and (3) unrestricted.

The County's most significant asset classification is capital assets. The County reports capital assets, net of depreciation/ amortization, totaling approximately \$1.3 billion for the year ended December 31, 2024. This number increased \$57.4 million from year ended December 31, 2023. Of these capital assets, net of depreciation/amortization, infrastructure assets total approximately 28.8% and 31.7% for the years ended December 31, 2024 and 2023, respectively. Infrastructure assets primarily consist of the pure waters system, roads and bridges.

The County's most significant liability classification is bonds payable. The County reports bonds payable totaling approximately \$810.3 million and \$791.7 million for the years ended December 31, 2024 and 2023, respectively. For each of those respective years, the portion of bonds payable subject to the County's constitutional debt limit was \$444.5 million and \$375.0 million, respectively. As such, as of December 31, 2024, the County had exhausted 11.9% of its constitutional debt limit of \$3.7 billion, compared to 10.9% of its constitutional debt limit of \$3.4 billion as of December 31, 2023.

The County's governmental activities finished 2024 with a net position deficit of \$62.6 million, a \$42.8 million increase compared to last year's net position deficit of \$19.8 million. The net position of the County's governmental activities for 2024 is reported as \$560.4 million of net investment in capital assets, \$62.8 million of restricted and \$685.7 million of unrestricted deficit. The changes in each reported net position category are as follows: an increase of \$6.4 million in net investment in capital assets; an increase of \$6.4 million in restricted; and a decrease of \$55.5 million in the unrestricted deficit. The largest component of the unrestricted deficit is the other postemployment benefits (OPEB) liability which at December 31, 2024 was \$389.3 million.

In May 2021, the County was allocated \$144.1 million in American Rescue Plan Act (ARPA) funding from the Coronavirus Local Fiscal Recovery Fund to address pandemic response needs and rebuild a stronger, more equitable economy as the country recovered from the pandemic. Half was received in advance in calendar year 2021, while the balance was received in 2022. During 2022 the Public Health Department continued battling the COVID pandemic, but by the end of 2022 and early 2023 a shift was made to helping those most likely harmed by the effects of the pandemic. In December 2022 the County Legislature authorized contracts to a wide range of service providers totaling \$71.6 million. In 2023 and 2024 the County Legislature authorized contracts with first responders, town senior centers, housing search navigators, landlord incentive program, broadband infrastructure and various non-profit service providers obligating the balance of the \$144.1 million. Through December 31, 2024 the County has expended \$40.5 million in ARPA funds and recorded deferred revenue of \$103.6 million.

The County's business-type activities finished 2024 with a net position of \$265.3 million, an increase of \$15.6 million from the past year. The net position of the County's business-type activities for 2024 are reported as \$295.6 million of net investment in capital assets, \$688 thousand of restricted and \$30.9 million of unrestricted deficit. An explanation of each change by business-type activity is provided in the proprietary fund section of the MD&A on page 33.

As of the close of 2024, the County's governmental funds reported combined fund balances of \$349.4 million, a decrease of \$52.6 million from the prior year. An explanation of changes in the governmental funds is provided in the governmental fund section of the MD&A on page 31.

The County's general fund balance was \$307.5 million as of December 31, 2024, compared to the December 31, 2023 fund balance of \$334.2 million, a decrease of \$26.7 million.

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

The County's discretely presented component units finished 2024 with a net position of \$549.7 million; an increase of \$39.9 million over 2023. The total net position for each of the major component units are as follows: \$80.3 million for Monroe Community College (MCC); \$38.2 million for Monroe County Airport Authority (Airport Authority); and \$412.2 million for Monroe County Water Authority (Water Authority). The nonmajor component unit finished 2024 with a net position of \$19.0 million. For more detail regarding the County's component units, see pages 53 and 54 for the statement of net position and statement of activities and pages 55 through 57 of the footnotes.

The County elected to pay its annual New York State Retirement System bill on the early due date of December 15, 2024 rather than on the customary due date of February 1, 2025 saving taxpayers over \$389 thousand in interest.

3. Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements provide the financial condition and results of operations of the primary government along with its discretely presented component units. The statement of net position provides the financial condition of the County, while the statement of activities provides the results of operations. These statements focus on the two main types of activities carried out by the County: governmental and business-type.

Governmental activities include most of the County's basic services, such as public safety, culture, recreation and education, transportation, sanitation, economic development, health and welfare, and general government. These activities are financed mainly through property taxes, sales taxes, and state and federal grants. Business-type activities include Solid Waste, Airport, Hospital, Pure Waters, and Energy. These activities rely to a significant extent on user fees.

In addition to focusing on governmental and business-type activities, the government-wide financial statements also include the County's discretely presented component units: MCC, Airport Authority, Water Authority, and the County of Monroe Industrial Development Agency (COMIDA). Though these are separate legal entities, the County is financially accountable for their activities.

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, which requires that a transaction be recorded when it occurs, not when its related cash receipt or disbursement occurs. Since these financial statements include all economic resources of the County, such as capital assets including infrastructure, as well as all liabilities including debt, they provide a long-term view of the County's financial position.

Fund Financial Statements

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances or net position, revenues and expenditures or expenses as appropriate.

The County's funds are presented in separate fund financial statements. These funds are presented as governmental funds, proprietary funds and fiduciary funds. The County's major funds are presented in separate columns on the fund financial statements. The definition of a major fund is one that meets the following criteria:

Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10.0% of the corresponding total (assets, liabilities and so forth) for all funds of that category or type (that is, total governmental or total enterprise funds), and

Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least 5.0% of the corresponding total for all governmental and enterprise funds combined.

In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government's officials believe is particularly important to financial statement users may be reported as a major fund.

The funds that do not meet the criteria of a major fund are considered nonmajor funds and are combined into a single column on each of the fund's financial statements.

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

The County utilizes three fund types to group its respective funds:

Governmental Fund Types

Most of the County's basic services are reported in governmental funds, which focus on resource flows into and out of those funds. The governmental funds' statements provide a detailed short-term view of the County's general government operations and the basic services it provides. All governmental funds are accounted for using the modified accrual basis of accounting and current financial resources measurement focus. Under this basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" generally means collectible within the current period or within 60 days after year-end other than Federal or State aid. Reimbursements of expenditures due from other governments for Federal and State aid are recorded primarily when the qualifying expenditures have been incurred and all requirements have been met. Federal and State aid are generally considered available when collection within one year is anticipated. Expenditures are recognized under the modified accrual basis of accounting when the related fund liability is incurred except for certain expenditures and liabilities such as debt service, compensated absences and claims and judgments which are recorded when due for payment.

The County's major governmental funds are the General Fund and the Capital Projects Fund. All other governmental funds have been determined to be nonmajor and include Debt Service Funds and Special Revenue Funds.

General Fund - is the County's principal operating fund.

Capital Projects Fund - accounts for financial resources to be used for the acquisition of major equipment items and the construction of major capital facilities and other capital assets other than those accounted for in the proprietary funds and the discretely presented component units. Funds include capital project funds for general government, public safety and fire protection, transportation, culture, recreation and education.

Nonmajor Funds

Debt Service Funds - accounts for reserve funds established for the retirement of outstanding debt, as well as activities in the County's coupon trust accounts. The funds are used to record and appropriate payment of principal and interest on serial bonds, other than those accounted for in the proprietary funds and the discretely presented component units. This includes MTASC, a special purpose local development corporation organized under the laws of the State of New York. MTASC is blended as a nonmajor governmental fund (debt service).

Special Revenue Funds

Road Fund – accounts for all revenues and expenditures related to the maintenance of County roads and bridges, snow removal and construction and reconstruction of County roads not recorded in a capital project fund.

Special Grants Fund – accounts for grants authorized under the Housing and Community Development Act of 1974.

Green Space Initiative Fund – accounts for funds established through Local Law No. 3 - 2000 to finance a green space initiative program developed by the County.

Library Fund – accounts for the activities of the Monroe County Library System which exists to serve member libraries in the County.

County Park Funds:

Parkland Acquisition Fund – accounts for proceeds from sales of existing parkland to be used for future parkland development or acquisition.

Horticulture Division Fund – accounts for special projects within the County Parks department's horticulture division.

Highland Park Fund – accounts for funds from special events, granting agencies, and private donations. The funds are used for park improvements and recreation/educational opportunities. The funds provide an opportunity for private donors to make targeted donations for projects in Highland Park.

The Ontario Beach Park Fund – accounts for funds from granting agencies, special events, and private donations. The funds are used for park improvements and recreation/educational opportunities.

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

The funds provide an opportunity for private donors to make targeted donations for projects in Ontario Beach Park.

Mendon Ponds Park - accounts for funds from granting agencies, special events, and private donations. The funds are used for park improvements and recreation/educational opportunities. The funds provide an opportunity for private donors to make targeted donations for projects in Mendon Ponds Park.

Northampton Park Fund - accounts for funds from granting agencies, special events, and private donations. The funds are used for park improvements and recreation/educational opportunities. The funds provide an opportunity for private donors to make targeted donations for projects in Northampton Park.

Movies in the Park Fund – accounts for funds from granting agencies. The funds are used to provide for the presentation of films to the general public at Ontario Beach Park and Highland Park.

Jail Commissary Funds – accounts for jail commissary funds. The jail commissary fund exists pursuant to New York State (NYS) law requiring all profit realized on commissary jail sales be used to purchase items to benefit jail inmates.

Other Public Safety Funds – includes jail enhancement funds, asset forfeiture funds and the Hazmat team fund. The jail enhancement fund is supported through suspended inmate payments from the Social Security Administration benefits. This fund is used for jail projects, activities, programs and other initiatives not otherwise provided by other sources. The asset forfeiture fund is pursuant to the US Department of Justice's Asset Forfeiture program and equitable sharing agreement requiring expenditures for law enforcement purposes. The Hazmat Team fund accounts for all donation/payments and incurs expenditures to the team solely for the operational needs of the Hazmat Team.

Stormwater Coalition Dues Fund – accounts for fees paid by members of the coalition to support efforts to keep municipalities in compliance with storm water regulations.

The Excel Fund – accounts for corporate and private contributions for the Expanded Choices for Elder Lifestyles (Excel) program.

The NYS Urban Development Corporation Fund – accounts for a grant/loan from NYS Urban Development Corporation and the disbursing of funds for the KCPD (Clinical Products Division, Eastman Kodak) project.

The Pediatrics and Visitation Center Fund – accounts for contributions from private corporations for Monroe County's Pediatric and Visitation Center, a facility that co-locates the County's medical services for foster children with a supervised visitation center.

Monroe County DSS Childcare Fund – accounts for contributions from private individuals who wish to contribute to the cost of providing day care subsidies.

Library System Automation Fund – was established to record funds received from the member libraries of the Monroe County Library System for future automation projects.

In addition, the Governmental Funds balance sheet and statement of revenues, expenditures and changes in fund balance are reconciled to the governmental activities statement of net position and statement of activities due to the differing measurement focus and basis of accounting.

Proprietary Funds

When the County charges customers for the services it provides – whether to outside customers or to other funds of the County – these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and the statement of revenues, expenses and changes in net position. Proprietary funds use the economic resources measurement focus and accrual basis of accounting. The major funds comprising the proprietary funds include the following enterprise funds: airport, hospital, and pure waters. The proprietary funds also include internal service funds, which are reported separately because the nature of their activity is primarily governmental.

Fiduciary Funds

These funds are used to account for assets held by the County in a trustee or custodial capacity for individuals, private organizations, other governments or funds. They cannot be used to support the County's own programs. Fiduciary funds include

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

private purpose trust funds that are used to report trust arrangements (pension, investment and private-purpose) and custodial funds, which are utilized in situations where the County's role is purely custodial.

The fiduciary funds use the economic resources measurement focus and accrual basis of accounting.

4. Financial Analysis of the County as a Whole

A. Condensed Schedule of Net Position

In the government-wide financial statements, net position reports the financial condition for both the governmental and business-type activities.

The County's financial position related to each of these activities is summarized below (000's omitted):

Condensed :	Schedules of	f Net	Position

Total Net Position	\$	262,154	\$	(281,986)	\$	(19,832)	\$	249,764	\$	229,932

Restricted net position in the County's governmental activities for 2024 is \$62.8 million. This is comprised primarily of restrictions for debt service in the sum of \$19.4 million and restrictions for grants and trusts of \$43.8 million.

Unrestricted net position in the County's governmental activities shows a deficit of \$685.7 million at December 31, 2024 comprised primarily of the OPEB liability which at December 31, 2024 was \$389.3 million, compared to \$385.3 million at December 31, 2023, an increase of \$4.0 million. Also contributing to the unrestricted deficit is the \$314.8 million outstanding bond liability of MTASC used to refinance the purchase of the future right, title and interest to the tobacco settlement revenues. This is compared to the December 31, 2023 balance, when unrestricted net position in the County's governmental activities had a \$630.2 million deficit with MTASC recording a \$306.0 million bond liability.

The non-current liabilities include OPEB, accrued employee compensated absences, retirement costs and debt. These non-current liabilities will be funded in future budgets as they become due.

For governmental activities, net position decreased by \$15.4 million for the year ended December 31, 2024. Opening net position was restated, related to the implementation of GASB 101 compensated absences, increasing the deficit by \$27.3 million, for an overall net position decrease of \$42.7 million. The largest factor contributing to this decrease was the planned use of fund balance in the general fund. For 2024, \$44.3 million of fund balance was included in the adopted budget, the ultimate decrease to the overall net position was primarily offset by \$33.7 million in reduction of the OPEB deferred inflows. Business-type activities increased the County's net position by \$20.1 million for the year ended December 31, 2024. Opening net position was restated decreasing the net position by \$4.6 million, for an overall increase for the year ended December 31, 2024 of \$15.6 million. Net position increases were reported in all enterprise funds. See 5B of this MD&A for additional information.

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

C. Governmental Activities Net Cost

The following chart compares the net cost (defined as expenses less program revenues) of each County function/program within the governmental activities of the primary government (000's omitted):

Primary Government Governmental Activities - Net Cost Years Ending December 31, 2024 and 2023

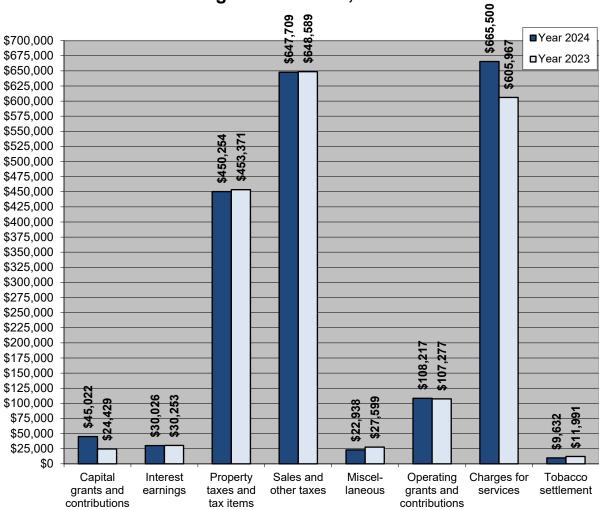

Functions/Programs

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

D. Revenues by Source

The following chart compares the revenue sources by category of the total primary government (governmental and business-type activities, 000's omitted):

Primary Government Revenues by Source Years Ending December 31, 2024 and 2023

Revenue Sources

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

5. Financial Analysis of the County's Funds

A. Governmental Funds

As of December 31, 2024, the County's governmental funds reported total governmental fund balances of \$349.4 million, compared to \$402.0 million as of December 31, 2023, a decrease of \$52.6 million. This decrease is a result of the County self funding Capital Projects outside of an annual borrowing cycle and a planned spenddown of fund balance.

The County's general fund balance was \$307.5 million as of December 31, 2024, compared to the December 31, 2023 fund balance of \$334.2 million, a decrease of \$26.7 million. The unassigned fund balance of the general fund was \$78.4 million as of December 31, 2024, a \$0.1 million increase from December 31, 2023. Combined assigned and unassigned fund balance was \$193.0 million as of December 31, 2024, compared to \$234.6 million as of December 31, 2023, a decrease of \$41.6 million.

The nonmajor governmental funds total fund balance was \$43.1 million as of December 31, 2024, compared to a total fund balance of \$67.8 million as of December 31, 2023, a decrease of \$24.7 million. This decrease is primarily a result of the Capital Projects fund changing from a Nonmajor to a Major fund. The remaining difference is primarily related to the debt service fund.

The different results of the governmental activities and governmental funds are due primarily to the basis of accounting and measurement focus of these accounting units. Items that result in differences are accounting for debt and other long term liabilities, capital assets, depreciation and inclusion of internal service funds at the governmental activities level of reporting. All of the differences are noted in detail in the reconciliations of the governmental funds balance sheet and the statement of revenues, expenditures and changes in fund balance to the statement of governmental activities.

The table below summarizes the changes in the fund balances of the County's governmental funds as follows (000's omitted):

Proprietary Funds - Changes in Net Position:

Airport Fund: Net position increased by \$7.0 million. The operating loss of \$16.6 million is \$6.0 million less than the 2023 operating loss of \$22.6 million. This loss is related to the reduced, but improving, air travel activity from the COVID-19 pandemic along with increases in personnel services, contractual, depreciation and other expenses. This year's operating loss was entirely offset by other nonoperating revenues (expenses) of \$23.7 million comprised primarily of federal and state aid and passenger facility charges.

Hospital Fund: Net position increased by \$5.7 million. The 2024 operating loss was \$16.0 million compared to the previous year's operating loss of \$19.5 million. Compared to 2023, operating revenues increased \$3.4 million primarily due to the agreement reached by the state and federal government and subsequent issue of Medicaid Upper Payment Limit funding. Operating expenses were consistent when comparing year-end 2024 results to year-end 2023, with 2024 operating expenses of \$83.5 million and 2023 operating expenses of \$83.6 million. This was mainly due to the annual valuation in pension resulting in \$6.0 million expense along with increases in salaries in line with collective bargaining agreements.

Pure Waters Fund: Net position increased by \$5.3 million. The 2024 operating income of \$6.8 million is \$600 thousand less than the 2023 operating income of \$7.4 million. Compared to 2023, operating revenues increased \$1.3 million and expenses increased \$1.9 million in 2024. This is primarily due to increased rates charged to users, operating expenses are an aggregate of changes across all categories.

Nonmajor Funds: Net position increased by \$2.1 million, which is mainly due to the Solid Waste fund's net position increasing by \$2.1 million. Operating income in the Solid Waste fund for 2024 was \$1.0 million compared to \$1.2 million in 2023. Nonoperating expenses for 2024 were \$514 thousand compared to nonoperating revenue of \$211 thousand in 2023.

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

The nonoperating decrease is primarily a result of the loss on disposal of capital assets and the overall increase is primarily a result of a \$1.6 million County contribution.

Internal Service Funds: Net position increased by \$1.5 million. The 2024 operating loss of \$2.7 million is \$3.7 million less than the 2023 operating income of \$1.0 million. The net position increase is primarily related to a \$4.2 million transfer from the general fund related to the ERP Replacement Project.

C. General Fund Budgetary Highlights

There are two primary components of the increase between the adopted budget and the modified budget. Those two components are: (1) newly awarded state and federal funded programs and grants; and (2) grant re-appropriations representing authorized grants from the prior year that will be expended in later years of multi-year funded federal and state grants. Additional details are provided in the notes to the Required Supplementary Information on the Budget Schedule. The table below summarizes and compares actual general fund revenue on a budgetary basis by category to the adopted and modified budgets (excluding interfund transfers), as follows (000's omitted):

Condensed Schedules of General Fund Revenue Budgetary Basis Budget vs. Actual

Dadgotally Daolo Dadgot vol Actual

On a budget basis, general government expenditure amounts do not reflect sales tax distribution to sharing partners.

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

6. Capital Assets and Debt Administration

A. Capital Assets

At the end of 2024, the County had invested \$1.3 billion in a broad range of capital assets, including \$378.9 million in infrastructure, net of depreciation/amortization, which includes bridges, culverts and sewers. This remains comparable to the \$1.3 billion amount invested at the end of 2023. The table below summarizes capital assets by classification as follows (000's omitted):

Management's Discussion and Analysis (Unaudited) Year Ended December 31, 2024

The County issued a total of \$70.0 million of debt obligations in 2024. This was comprised of a \$70.0 million public improvement bond. Additionally, the \$70.0 million public improvement bond was issued with \$3.7 million of premium. At December 31, 2024, \$450.0 million of debt remained authorized and unissued for various capital projects.

More detailed information about the County's debt obligations is presented in Note 10 to the financial statements.

8. Contacting the County's Financial Management

These financial statements are designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. If you have questions about this report, please contact the County of Monroe Department of Finance, 39 West Main St. Room 402, Rochester, New York 14614 or visit the website at https://www.monroecounty.gov/finance-index.php.

COUNTY OF MONROE, NEW YORK RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2024 (000'S Omitted)

Net change in fund balances - total governmental funds	\$	(52,618)
Amounts reported for governmental activities in the statement of activities are different because:		
The issuance of debt provides current financial resources to governmental funds. Also, governmental funds report the effect of refunding gain/loss, accreted interest and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
Proceeds of bonds	(37,460)	
Deferred refunding gain/loss, net	79	
Interest accreted on capital appreciation debt, net	(10,873)	
Net proceeds/additions		(48,254)
Repayment of bond principal and related activity is reported as an expenditure and an other financing use in governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. The principal payments reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
Principal retirement	36,009	
Premium/Discount on bond issuance	2,198	
Total repayments/deductions	2,100	38,207
Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net position of the internal service funds is reported in governmental activities.		1,530
Some revenues will not be collected for several months after the County's fiscal year end. They are not considered available revenues and are reported as deferred inflows of resources in the governmental funds. Deferred inflows of resources increased by this amount this year.		(2,146)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives.		
Capital outlays	89,786	
Capital grants and contributions	4,128	
Loss on retirement of capital assets	(807)	
Depreciation expense '	(45,290)	
Amortization expense	(5,123)	
Excess(deficiency) of capital outlays over depreciation expense		42,694
Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:		
Change in accrued bond interest	107	
Change in accrued lease interest	(13)	
Change in accrued SBITA interest	11	
Change in leases payable	(2,837)	
Change in SBITA payable	393	
Change in compensated absences	(1,390)	
Change in long-term retirement costs	(15,198)	
Change in postemployment benefits other than pensions	26,980	
Change in Federal, State and other liabilities	(2,858)	
Total additional expenditures		5,195
Change in net position of governmental activities	\$	(15,392)

Notes to Basic Financial Statements Year Ended December 31, 2024

1. Background and Summary of Significant Accounting Policies

A. Background

The County of Monroe (County) was established in 1821 and is governed by the County Charter, general laws of the State of New York, and various local laws. The County is New York State's third largest industrial and commercial center. The County Executive is the Chief Executive Officer and the administrative head of the County with authority to approve or veto any local law, legalizing act or resolution adopted by the County Legislature. The County Executive is elected in a general county-wide election to serve a four-year term, subject to a limit of three four-year terms. The County is divided into 29 legislative districts with an elected legislator representing each district in the County Legislature. County Legislators may serve for two four-year terms and one two-year term during a ten year cycle. The County Legislature is the legislative, appropriating and governing body of the County. The County provides its residents with diverse services. Programs provided are human services, public safety, public and mental health, wastewater management, public works, economic development, culture, education and recreation programs. Public facilities available are the Frederick Douglas Greater Rochester International Airport (ROC), Monroe Community Hospital (the Hospital), Monroe Community College (MCC), and County parks.

The County's financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB), which is the primary standard-setting body for establishing governmental accounting and financial reporting principles, is responsible for establishing GAAP for state and local governments through its Statements and Interpretations. The more significant accounting policies used by the County are discussed below.

B. Financial Reporting Entity

The financial reporting entity consists of the County (primary government) and organizations for which the primary government is financially accountable, and organizations where the nature and significance of their relationship with the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. Blended component units, although legally separate entities, are in substance, part of the government's operations and are therefore reported within the County's financial statements. Discretely presented component units, both major and nonmajor, are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government.

Based upon the foregoing criteria and the significant factors presented below, the following organizations, functions, or activities are included as blended component units of the primary government, discretely presented component units or related organizations and joint ventures:

<u>Monroe Community College</u> – Major Discretely Presented Component Unit

MCC was founded in 1961 with the County as the local sponsor under provisions of Article 126 of the New York State Education Law. MCC is administered by a Board of Trustees consisting of ten voting members; five are appointed by the County Legislature, four by the Governor, and one student is elected by the student body. MCC's budget is subject to the approval of the County Executive and the County Legislature, with the County providing funding for one-half of the capital costs and a portion of the operating costs for MCC. As a result, MCC, a legally separate entity, is included as a discretely presented component unit within the County's basic financial statements.

MCC has its own financial system, which is independent of the County's centralized financial system, which accounts for resources received and used. A fiscal year ending August 31 is mandated by state law for MCC. Certain amounts have been reclassified to conform to the County's presentation. Requests for financial statements may be made in writing to Monroe Community College, Controller's Office, 1000 East Henrietta Road, Rochester, New York 14623.

Notes to Basic Financial Statements Year Ended December 31, 2024

Monroe County Airport Authority - Major Discretely Presented Component Unit

The Monroe County Airport Authority (Airport Authority) is a public benefit corporation organized under the Public Authorities Law of the State of New York on October 1, 1989. The Airport Authority was created to finance, construct and develop aviation facilities. The oversight body is the Airport Authority board which is appointed by the County Legislature on the recommendation of the County Executive. The chairperson is appointed by the County Executive. Pursuant to a lease and operating agreement, the Airport Authority leases the properties comprising the Airport from the County. The lease expires thirty (30) days after repayment of any outstanding Airport revenue bonds. In October 2018, the Airport Authority issued \$2.0 million in Airport revenue bonds with a five-year life and a maturity date of October 1, 2023 that extended the term of the lease. In October 2023, the Airport Authority issued \$2.0 million in Airport revenue bonds with a five-year life and a final maturity date of October 1, 2028 that extends the term of the lease. A separate legal entity, the Airport Authority, is included as a discretely presented component unit within the County's basic financial statements due to the County's ability to impose will.

The Airport Authority reimburses the County for expenses incurred in the administration and operation of the Airport. The charges to the Airport Authority for the year ended December 31, 2024 were approximately \$23.6 million. Upon expiration or earlier termination of the lease term as noted above, the Airport reverts to the County and the County will continue to administer and operate the Airport. Separate financial statements may be obtained from the Monroe County Airport Authority, 1200 Brooks Avenue, Rochester, New York 14624.

Monroe County Water Authority - Major Discretely Presented Component Unit

The Monroe County Water Authority (Water Authority) was established in 1951 as a public benefit corporation created by and existing under Title 5 of Article 5 of the Public Authorities Law of the State of New York. The Water Authority is authorized under the act to acquire, construct, develop, operate and manage water supply and water distribution systems within the County and the State of New York. The Water Authority maintains primary responsibility for the construction of water facilities. The Water Authority's seven-member board, which is appointed by the County Legislature, has complete responsibility for its management and financial operations. The County does not provide operating assistance to the Water Authority. However, the County Legislature's approval is needed for the Water Authority to issue bonded debt. As the County must authorize all debt issuances of the Water Authority, the Water Authority is included as a discretely presented component unit within the County's basic financial statements.

The Water Authority has its own financial system, which is independent of the County's centralized financial system, which accounts for resources received and used. Requests for financial statements should be addressed in writing to the Director of Finance and Business Services, Monroe County Water Authority, 475 Norris Drive, Rochester, New York 14610.

County of Monroe Industrial Development Agency- Nonmajor Discretely Presented Component Unit

On June 6, 1972, the County of Monroe Industrial Development Agency (COMIDA) was established by a special act of the County Legislature under the New York State Industrial Development Act of 1969. COMIDA's purpose is to provide, develop, encourage and assist existing and new businesses to acquire, construct, reconstruct, improve, maintain, equip and furnish industrial facilities in the County. COMIDA is a New York State not-for-profit public benefit corporation. Based on the authority that the County Legislature has to appoint or remove COMIDA board members and significant influence the County can impose, COMIDA is included as a discretely presented component unit within the County's basic financial statements. COMIDA has its own financial system, which is independent of the County's centralized financial system, which accounts for resources received and used. Requests for financial statements from COMIDA should be addressed in writing to COMIDA, Business Office, 50 West Main Street, Suite 1150, Rochester, New York 14614.

Notes to Basic Financial Statements Year Ended December 31, 2024

Monroe Tobacco Asset Securitization Corporation - Blended Component Unit

Monroe Tobacco Asset Securitization Corporation (MTASC) is a special purpose, local development corporation organized under the laws of the State of New York. MTASC was established on May 11, 2000. MTASC is an instrumentality of the County, but is a separate legal entity from the County. MTASC will have not less than three nor more than five directors, consisting of two ex-officio positions including the County Executive and the Director of Finance, up to two additional directors selected by the member of MTASC (i.e. the County Executive, ex-officio, the "member") and one independent director appointed by the member of MTASC, and thus the County is able to impose its will on MTASC. Although legally separate from the County, MTASC is a component unit of the County and accordingly, is presented in the County's financial statements as a blended component unit due to the fact that it exclusively serves the County. MTASC is blended in the governmental activities and as a nonmajor governmental (debt service) fund. Separate financial statements may be obtained from the Monroe County Finance Department, 39 West Main Street, Rochester, New York 14614.

Related Organizations and Joint Ventures

Organizations for which a primary government is accountable because that government appoints a voting majority of the board, but is not financially accountable, are related organizations.

The Soil and Water Conservation District, which serves municipalities and landowners of the County, is considered a related organization of the County. Requests for financial statements from Monroe County Soil and Water Conservation District should be addressed in writing to: 1200A Scottsville Road Suite 160, Rochester, New York 14624.

C. Nonmajor Fund Deficits

No deficits existed in the nonmajor funds at December 31, 2024.

D. Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) concentrate on the County as a whole and do not emphasize fund types but rather a governmental or a business-type activities classification, which are presented in separate columns. The governmental activities and business-type activities comprise the primary government and are reported separately from the discretely presented component units for which the County is accountable. General governmental and intergovernmental revenues support the governmental activities, whereas the business-type activities are primarily supported by charges for services.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs.

The statement of activities reflects the expenses of a given function or segment and demonstrates the extent to which they are offset by program revenues. Administrative overhead charges are included in function expenses. Program revenues are defined as charges for services, operating grants and contributions (which would include reimbursement for debt payments) and capital grants and contributions directly associated within a given function. Taxes and other revenues not associated with a specific function are reported under general revenues.

The effect of interfund activity has been removed from the government-wide financial statements. However, the interfund services between functions are not eliminated. The internal service activity has been eliminated except for the outside activity and is combined with the governmental activities on the government-wide financial statements.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred inflows/outflows, fund equity/net position, revenues, and expenditures/expenses.

Notes to Basic Financial Statements Year Ended December 31, 2024

Governmental Fund Types

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers certain revenues (i.e. property taxes) to be available if they are collected within 60 days after the end of the current fiscal period. Amounts due for State and Federal aid are generally considered available if they are expected to be collected within one year after the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, and certain other long-term liabilities are recorded only when payment is due.

The County has the following major governmental funds:

General Fund - is the County's principal operating fund. It is used to account for all financial resources except those required to be accounted for in other funds.

Capital Projects Fund - accounts for financial resources to be used for the acquisition of major equipment items and the construction of major capital facilities and other capital assets other than those accounted for in the proprietary funds and the discretely presented component units. Funds include capital project funds for general government, public safety and fire protection, transportation, cultural, recreation and education.

Proprietary Fund Types

Proprietary fund types use the economic resources measurement focus and accrual basis of accounting. Internal Service funds are used to account for a government's business-type activities which are similar to those often found in the private sector. Major proprietary funds are comprised of:

Enterprise Funds - The enterprise funds are used to account for operations that provide services primarily to customers other than governments outside the financial reporting entity and are financed primarily by user charges. The major enterprise funds include:

Airport Fund - accounts for the operation and maintenance of the airport. The primary revenue source for the Airport fund is reimbursement from the Airport Authority.

Hospital Fund - accounts for the County's medical facility which provides for the care and treatment of the chronically ill and is comprised of a residential health care facility. It also provides out-patient services.

Pure Waters Fund - accounts for financing of wastewater related public improvements as well as operation and maintenance services deemed to benefit the properties against which user fees are charged.

Internal Service Funds - The internal service funds are used to account for special activities or services provided by one department of the County to other departments, to agencies of the primary government and its component units, or to other governments, on a cost reimbursement basis. The assets, liabilities and changes in net position of those funds are reported in governmental activities. Internal service funds include: Central Services, Building Accounts, Information Services, Fleet Management, and Risk Management.

Fiduciary Fund

Fiduciary funds are used to account for assets held by the County in a trustee capacity or as a custodian for individuals, private organizations or other governmental units. They cannot be used to support the government's own programs. The fiduciary fund is comprised of a single fund:

Custodial Fund - Fiduciary activities that are not required to be reported in pension and other employee benefit trust funds, investment trust funds or private-purpose trust funds. The County holds funds for various purposes including but not limited to: inmate commissary deposits, civil bureau execution fees, County Clerk fee collection on behalf of NYS, child support collection of non-custodial payments and mortgage tax fees.

E. Basis of Accounting/Measurement Focus

The accounting basis for each fund is determined by its measurement focus. The measurement focus for governmental funds is based upon determination of current financial resources. Proprietary funds and fiduciary trust funds are accounted for on a flow of economic resources measurement focus.

Notes to Basic Financial Statements Year Ended December 31, 2024

Modified Accrual Basis - All governmental funds are accounted for using the modified accrual basis of accounting. Under this basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. The three primary revenue sources which are treated as susceptible to accrual are: (1) property tax recorded when collected during the current period or within 60 days after year end; (2) reimbursements of expenditures due from other governments are recorded primarily when the qualifying expenditures have been incurred and all other grant requirements have been met and are expected to be collected within one year after the end of the current fiscal period; and (3) sales tax, which is recorded based on the date of sales. Expenditures are recognized when the related fund liability is incurred, except for principal and interest on long-term debt, which are recorded as expenditures when paid, and compensated absences and claims/judgments, which are recognized as a liability in the applicable fund if payable with current financial resources. Allowances have been provided for any receivables where collection is doubtful. In addition, revenues relating to property taxes in the governmental funds which are not available to finance current operations have been reported as deferred inflows of resources. At the government-wide level, these are recognized as revenues.

Accrual Basis – The government-wide, proprietary and fiduciary fund types are accounted for using the accrual basis of accounting. Under this method, revenues, including unbilled amounts, are recognized when earned; expenses are recorded when the liabilities are incurred, regardless of the timing of related cash inflows and outflows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all of the eligibility requirements have been met.

F. Cash and Cash Equivalents

Cash and cash equivalents include certificates of deposit, U.S. government securities and repurchase agreements with maturity dates of three months or less from the purchase date. Cash and cash equivalents are stated at cost which approximates fair value.

The County participates in the New York Cooperative Liquid Assets Securities System (NYCLASS) local government investment pool. NYCLASS measures its investments at fair value in accordance with Paragraph 41 of GASB Statement 79 and Paragraph 11 of GASB Statement 31, and therefore a participant's investment in NYCLASS is not required to be categorized within the fair value hierarchy for purposes of Paragraph 81a(2) of GASB Statement 72.

G. Investments

Investments include certificates of deposit, U.S. government securities and repurchase agreements with maturities of more than three months from the purchase date. Investments are stated at fair value.

H. Statement of Cash Flows

For the purpose of the statement of cash flows of the proprietary fund types, cash and cash equivalents include all unrestricted and restricted cash and cash equivalents of those funds. The statement of cash flows is presented using the direct method of reporting.

l. Leases

Lessee: The County is a lessee for various noncancellable leases. For lease arrangements with a maximum possible term of 12 months or less at commencement, the County recognizes expense based on the provisions of the lease contract. For lease arrangements greater than 12 months, the County recognizes a lease liability and an intangible right-to-use lease asset. At lease commencement, the County initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, less lease payments made at or before the lease commencement date. The lease asset is amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset. If the County is reasonably certain of exercising a purchase option contained in a lease, the lease asset will be amortized over the useful life of the underlying asset. The County has elected to use a discount rate commensurate with its discount rate for postemployment benefit obligations as the discount rate for leases unless the rate that the lessor/vendor charges is known. The lease term includes the noncancellable period of the lease, plus any additional periods covered by an option to extend for which it is reasonably certain to be exercised, or by an option to terminate for which it is reasonably certain not to be exercised.

Lessor: The County is a lessor for various noncancellable leases. For lease arrangements greater than 12 months that do not transfer ownership or represent an investment, the County initially recognizes a lease receivable at the present value of lease payments expected to be received during the lease term and recognizes a deferred inflow of resources at the amount of the initial measurement of the lease receivable, adjusted for any lease payments received prior to the commencement of the lease term.

Notes to Basic Financial Statements Year Ended December 31, 2024

J. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed by governmental funds only. Encumbrances do not constitute expenditures or liabilities.

In governmental funds, encumbrances outstanding at year-end are included in the restricted, committed, and assigned fund balance amounts. Governmental funds' encumbrances, as of December 31, 2024, included \$6.9 million restricted, \$46.2 million committed, and \$12.8 million assigned in the general fund and \$37.9 million restricted in the capital projects fund. Nonmajor governmental funds' encumbrances included \$149.3 thousand committed and \$593.7 thousand assigned.

K. Inventories and Prepaid Items

The County maintains inventories of various operational supplies for use throughout the County.

Inventories for both governmental and proprietary funds except as noted below are computed using the purchase method. Inventories are valued at cost using the first-in-first-out (FIFO) method.

Road and Pure Waters fund inventory are recorded as expenditures/expenses when consumed and valued using the moving average price method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenses/expenditures when consumed rather than when purchased.

L. Capital Assets

Primary Government

Capital assets purchased or acquired at an original cost of \$10,000 or more are reported at historical cost or estimated historical cost for all governmental and business-type activities. Donated capital assets, works of art and similar items are reported at acquisition value rather than fair market value. Any capital assets received in a service concession arrangement are reported at acquisition value rather than fair market value. Capital assets recognized under lease and subscription-based information technology arrangements are amortized over their expected useful life or the lease term, whichever is shorter. Capital assets which are used for general governmental purposes and are not available for expenditure are accounted for and reported in governmental activities in the government-wide financial statements. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for routine repairs and maintenance are expensed as incurred.

Depreciation on all assets is calculated using the straight-line method over estimated useful lives ranging from three to fifty-five years. The estimated useful lives for the major classes of depreciable capital assets include the following:

Class	Life in Years
Buildings	30-55
Improvements other than buildings	10-20
Infrastructure	35-50
Machinery and Equipment	3-15
Subscription-based Information Technology Arrangements	3

Hospital Fund (Monroe Community Hospital)

Capital assets are recorded at cost. Depreciation expense is computed on all depreciable assets based on the straight-line method utilizing estimated lives as established by the American Hospital Association, ranging from three to forty years.

M. Compensated Absences

At the governmental and business-type activities level, liabilities for compensated absences, such as vacation, unpaid overtime and sick time, are recorded when vested and earned by the employees and payment or use is not dependent upon a future event. The total compensated absence liabilities attributable to the proprietary fund types and

Notes to Basic Financial Statements Year Ended December 31, 2024

governmental funds at the government-wide level are recorded as an accrued liability in the respective funds. At the governmental fund level, liabilities for compensated absences are recorded when due and payable. The liabilities are recorded based on employees' rates of pay as of December 31, 2024 and include all payroll related liabilities. Primarily, the general fund and the road fund are used to liquidate the liability for compensated absences in the governmental funds.

N. Unamortized Bond Discounts, Premiums and Refunding Gain or Loss

Bond discounts, premiums and refunding gains or losses are amortized over the term of the respective bond issues for the governmental and business-type activities, and those funds reporting on the full accrual basis. Bond premiums and discounts are included in the outstanding bond liability, whereas the refunding gain or loss is reported as a deferred inflow or outflow of resources. In the governmental funds, bond discounts, premiums and refunding gain or loss are reported as other financing sources or uses in the year that the bonds are issued.

O. Deferred Inflows/Outflows of Resources

In addition to assets and liabilities, the financial statements report a separate section for deferred outflows and deferred inflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense) until that time. Deferred inflows of resources, represents a portion of net assets that also applies to a future period and so will not be recognized as an inflow of resources (revenue) until then.

P. Medicaid Claims

Physicians, hospitals, pharmacists, and others who provide services to public assistance recipients and other individuals enrolled in the Medical Assistance Program, are entitled to reimbursement of the defined cost of such services through the Federal, State and locally-funded Medicaid programs. The County participates in a state-wide system to process and pay such claims.

Q. Use of Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses/expenditures during the year. Actual results could differ from those estimates.

R. Net Position/Fund Balance

Net Position

Net Position in government-wide and proprietary fund financial statements are classified as net investment in capital assets; restricted and unrestricted. Net investment in capital assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and amortization, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, laws or regulations of other governments, or imposed by law through State statute.

As of December 31, 2024 these restrictions include:

Debt Service - represents resources that have been legally restricted for debt service payments that will be made in future periods.

Capital Projects – represents funds restricted for major capital acquisitions and construction activities through borrowings or contributions.

Nonexpendable - represents the net position whose use is subject to externally imposed conditions and the County must maintain them in perpetuity.

Expendable – represents the net position whose use is subject to externally imposed conditions that can be fulfilled by certain actions or by the passage of time.

Grants and Other Purposes - represents available grants and other funds which are restricted to meet legal State or Federal requirements and other purposes.

Passenger Facility Charges - represents the cumulative unexpended passenger facility charge amounts reflected as restricted net position to be used for Federal Aviation Administration approved projects.

When net position resources are available for a specific purpose in more than one classification, it is the County's practice to use restricted funds first.

Notes to Basic Financial Statements Year Ended December 31, 2024

Fund Balance

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable – amounts that are not in spendable form (such as inventory and prepaids) or are legally or contractually required to be maintained intact.

Restricted – amounts constrained to specific purposes by bondholders of County debt, and State and Federal grantors through constitutional provisions or by enabling legislation.

Committed – amounts constrained to specific purposes by the County Legislature through resolution; amounts cannot be used for any other purpose unless the County Legislature takes the same action to remove or change the constraint.

Assigned – amounts the County intends to use for a specific purpose; intent is expressed by the Director of Finance-Chief Financial Officer to whom the County Legislature has delegated the authority. This category of fund balance also represents the residual amounts not otherwise reported as non-spendable, restricted, or committed in governmental funds outside of the General Fund.

Unassigned – amounts that have not been assigned to another fund or are not restricted, committed, or assigned to specific purposes within the General Fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's practice to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The County has a formally adopted a fund balance policy via Resolution No. 262 of 2023. To maintain fund balance stability, the policy establishes the combined assigned and unassigned fund balance categories within the general fund to be within \$10 million dollars, plus or minus, of 10% of the all-funds adopted budget. Fund balances accumulating in excess of the upper threshold may be used in subsequent budgets to provide property tax stability, capital project funds and/or debt reduction.

Notes to Basic Financial Statements Year Ended December 31, 2024

As of December 31, 2024 Governmental Fund Balances were classified as follows:

			N	onmajor Fun	Total			
				Debt S	Service	Nonmajor	Total

Notes to Basic Financial Statements Year Ended December 31, 2024

S. Adjustments to and Restatements of Beginning Balances

The provisions of GASB Statement No. 101, Compensated Absences, have been applied to net position at January 1, 2024. The County has changed from the accounting and reporting requirements previously required under GASB Statement No. 16, Accounting for Compensated Absences, to the accounting and reporting requirements required under GASB Statement No. 101. GASB No. 101 replaces GASB No. 16 and provides a unified model of recognizing and measuring liabilities for all types of compensated absences, including those not previously considered under GASB No. 16, such as unvested sick leave.

For the year ended December 31, 2024 the Capital Projects fund met the quantitative threshold and is now considered a major fund.

For the year ended December 31, 2023 bond premium was incorrectly applied to the Capital Projects fund instead of the Debt Service fund.

The following is a reconciliation of the adjustments to and restatements of beginning balances previously reported at December 31, 2024.

Impacts of Adjustments to and Restatements to Beginning Balances

	Net position (deficit) or fund balances - beginning, as previously reported		Adoption of GASB 101: Compensated Absences		Change within the reporting entity		Correction of error - bond premium		Net position (deficit) or fund balances - beginning, as restated

Notes to Basic Financial Statements Year Ended December 31, 2024

2. Real Property Tax

Section 10 of Article VIII of the State Constitution dictates the amount which may be raised in the County by tax on real property, in any fiscal year, for County purposes. This amount may not exceed 1.5 percent of the five-year average full valuation of taxable real property of the County, less certain deductions as specified within.

The computation in accordance with the constitutional provision for the calendar year 2024 budget is (000's omitted):

Five-year average full valuation of taxable real property	\$53,308,252
Tax limit (1.5% of 5-year average full valuation of property)	799,624
Total Tax levy and charges subject to limit Less: Exclusions from tax limit Total tax levy subject to taxing power limit	445,991 (68,551) 377,440
Tax margin (Unused Taxing Power)	\$ 422,184

Real property taxes include the property tax levy, delinquent taxes, and sales tax attributable to the towns in consideration for credits given to the towns' residents on their property tax bills. County real property taxes are levied annually and become a lien on January 1. Taxes for County purposes are levied together with taxes for town and town special district purposes, and with user charges of the various Pure Waters districts. Pursuant to State Law, the County guarantees the collection of town and town special district property taxes.

Towns are empowered to collect both County and town property tax warrants, which initially expire on January 31, through June 1, after which collection and enforcement procedures revert to the County Treasurer. The Monroe County Tax Act also empowers the City Treasurer to collect County taxes and user fees, levied on property situated within the City of Rochester, through February 15. Unlike procedures in effect for the towns, the County Treasurer also collects County taxes and fees on property situated in the City concurrently with the City Treasurer. Full payments are due before February 10. After February 10, interest accrues at a rate of 1.5% per month. The County also allows for installment payments with accrued interest on February 28, March 31, and April 30.

On August 20 of each year, the County purchases the tax liens on all properties for which there are unpaid property taxes. The tax lien, if still unpaid upon the expiration of one year from the August 20 tax sale date, qualifies the subject property for tax foreclosure proceedings. Unpaid taxes resulting from tax levies, which are identified as tax sale certificates, are required to be reported as deferred inflows of resources on the basis that they are not available to finance current operations. Those collected within the first sixty days of the following year are recorded as revenue at the governmental fund level. For the governmental activities, all uncollected tax sale certificates are recorded as revenue in the year levied.

3. Sales Tax

The County and the State of New York each currently impose sales and use tax. The State of New York imposes a sales and use tax of four percent and the County imposes four percent making a total of eight percent imposed within the County. The County's sales and use tax is composed of an original three percent and an additional one percent authorized by State law. The current law provides for continuation of the additional one percent through November 30, 2025.

The County's original three percent tax is allocated through a complex formula among the City of Rochester (approximately 35.6 percent), the towns and villages (approximately 29.8 percent) and suburban school districts (approximately 18.1 percent) with the County retaining the balance (approximately 16.5 percent). The additional one percent tax is allocated through another sharing formula whereby the towns (3 percent), villages (1.25 percent) and school districts (5 percent) each receive a percentage share. The remaining balance of the additional one percent is divided between the City of Rochester and the County so that when added to the original three percent tax, the total share (4 percent) for the City of Rochester and the County is equal.

Notes to Basic Financial Statements Year Ended December 31, 2024

4. Deposits and Investments

A. Deposit and Investment Policies

The County maintains an investment and deposit policy, the overall objective of which is to adequately safeguard the principal amount of funds invested or deposited; conformance with federal, state and other legal requirements; provide sufficient liquidity of invested funds in order to meet obligations as they become due; and attainment of a market rate of return. Oversight of investment activity is the responsibility of the Director of Finance – Chief Financial Officer.

B. Interest Rate Risk

Interest rate risk is the risk that the fair value of investments will be affected by changing interest rates. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The County has no long-term investments that expose it to significant interest rate risk.

NYCLASS: The dollar weighted average days to maturity (WAM) of NYCLASS at December 31, 2024, was 43 days. Next interest rate reset dates for floating rate securities are used in the calculation of the WAM. The weighted average life (WAL) of NYCLASS at December 31, 2024, is 83 days.

C. Credit Risk

For investments, credit risk is the risk that in the event of a failure of a counterparty, the County may not be able to recover the value of its investments. New York State General Municipal Law and the County's Investment and Deposit Policy authorize the County to purchase the following types of investments:

- Obligations of the United States of America
- Obligations guaranteed by the United States of America where payment of principal and interest are guaranteed by the United States of America
- Obligations of the State of New York
- Special time deposit accounts
- Certificates of Deposits
- Repurchase agreements limited to obligations of the United States of America, or obligations whose principal and interest are fully guaranteed, or insured by the United States of America. The term of each agreement shall generally not exceed 180 days. The agreement shall be confirmed in writing by the seller, and each security purchased under the agreement shall be specifically identified, segregated from the assets of the seller and delivered for safekeeping into an account designated and controlled by the County. Also, each seller shall enter into a master Repurchase Agreement with the County which shall specify the rights and obligations of the County and the Seller in all transactions
- Obligations of public authorities, public housing authorities, urban renewal agencies, and industrial development agencies where the general State statutes governing such entities or whose specific enabling legislation authorizes such investments
- Obligations issued pursuant to New York State Local Finance Law Section 24.00 and 25.00 (with approval of the New York State Comptroller) by any municipality, school district or district corporation other than the County of Monroe, New York

NYCLASS is rated by S&P Global Ratings. The current rating is 'AAAm.'

The County has no investments that expose it to significant credit risk.

Notes to Basic Financial Statements Year Ended December 31, 2024

D. Custodial Credit Risk

Deposits

For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the County may not recover its deposits. In accordance with New York State General Municipal Law and the County's Investment and Deposit Policy, all deposits of the County including certificates of deposits and special time deposits, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act shall be secured by a pledge of securities with an aggregate value equal to the aggregate amount of deposits. The County restricts the securities to the following eligible items; (a) obligations issued, or fully insured or guaranteed as to the payment of principal and interest, by the United States of America, an agency thereof or a United States government sponsored corporation; (b) obligations issued or fully guaranteed by the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, and the African Development Bank; (c) obligations partially insured or guaranteed by any agency of the United States of America; (d) obligations issued or fully insured or guaranteed by the State of New York, obligations issued by municipal corporation, school district or district corporation of New York State or obligations of any public benefit corporation which under a specific State statute may be accepted as security for deposit of public monies; (e) obligations issued by states (other than the State of New York) of the United States rated in one of the two highest rating categories by at least one Nationally Recognized Statistical Rating Organization; (f) obligations of Puerto Rico rated in the highest rating category by at least one Nationally Recognized Statistical Rating Organization; (g) obligations of counties, cities and other governmental entities of a state other than the State of New York having the power to levy taxes that are backed by the full faith and credit of such governmental entity and rated in one of the two highest categories by at least one Nationally Recognized Statistical Rating Organization; (h) obligations of domestic corporations rated in one of the two highest rating categories by at least one Nationally Recognized Statistical Rating Organization; and (i) Zero coupon obligations of the United States of America marketed as "treasury strips".

As of December 31, 2024, \$181.2 million of the County's deposits of \$268.3 million, which are included in cash and cash equivalents, was exposed to custodial credit risk. This credit risk was uninsured and either collateralized by securities or money market funds held by the pledging bank's trust department not in the County's name or covered by a letter of credit agreement. The County has, as part of the working bank contract with Upstate National Bank, a letter of credit with the Federal Home Loan Bank of New York. Under which, the Bank has agreed to provide to the County the letter of credit in the amount of \$2.0 million. The agreement provides for collateralization of the County's uninsured cash balances at Upstate National Bank. As of December 31, 2024, \$2.0 million was unused and available. The difference of the above amounts is insured under the provisions of the Federal Deposit Insurance Act.

2. Investments

For investments, custodial credit risk is the risk that a government will not be able to recover the value of investments or collateral securities that are in the possession of an outside party if the counterparty to the transaction fails. The County's Investment and Deposit Policy requires that all investments be registered or insured in the County's name and held in the custody of the bank or the bank's trust department. The County requires that all repurchase agreements be limited to obligations of the United States of America or obligations whose principal and interest are fully guaranteed, or insured by the United States of America. At year end, the County had no custodial credit risk related to repurchase agreements since no repurchase agreements were purchased or outstanding during 2024.

3. NYCLASS

The U.S. Treasuries within the NYCLASS portfolio are backed by the full faith and credit of the United States Government and therefore do not require collateral. New York State Municipal Bonds within the portfolio are backed by the full faith and credit of the State of New York and therefore do not require collateral. The other permissible investment security types are collateralized in accordance with NYS GML Section 10 and the NYCLASS Investment Policy. Repurchase Agreements (repo) are collateralized 102% by either U.S. Treasuries or U.S. Agencies. Certificates of Deposit (CD) also require full collateral; currently NYCLASS CDs are being collateralized by Federal Home Loan Bank (FHLB) Letters of Credit (LOC).

Notes to Basic Financial Statements Year Ended December 31, 2024

E. Concentration of Credit Risk

The County places no limit on the amount that may be invested in any one issuer. At year end the County only had investments in U.S. Treasury obligations.

F. Fair Value of Investments

The County's investments are recorded at fair value. Investments held at the end of 2024 are as follows:

Investment Type	Fair value	Wit	thin 1 Year	Total		
U.S. Treasury obligations	\$ 104,078	\$	104,078	\$ 104,078		
Total Investments	\$ 104,078	\$	104,078	\$ 104,078		

United States Treasury obligations are considered level 1 investments. The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

5. Custodial Accounts

Custodial assets refer to cash and cash equivalents held by the County for a third party. The Hospital holds \$1.2 million of funds owned by its patients and residents at the end of 2024.

6. Due to Other Governments

In the 2024 government-wide and fund financial statements, the category "due to other governments" balance of \$127 million includes primarily sales tax collections of \$86.8 million and school tax collections of \$25 million that are due to other municipalities within the County. The remaining amount is mostly comprised of \$12.7 million Social Services and Public Health dollars due to New York State and the Federal Government.

Notes to Basic Financial Statements Year Ended December 31, 2024

7. Restricted Cash and Cash Equivalents

Certain County cash and cash equivalents, excluding funds custodial accounts, securities and retained percentages as of December 31, 2024 are restricted to the following uses:

Restricted Cash	and Cash	Equivalents
	Capital	Debt

	Capital	Debt	Other	Total
	Projects	Service	Other	Total
Governmental Activities:				
Capital Projects	\$ 50,251	\$ -	\$ -	\$ 50,251
Debt Service	-	18,949	-	18,949
Internal Service	19,134	39		19,173
Total Governmental Activities	69,385	18,988		88,373
Business-type Activities:				
Major Business-type Funds				
Hospital	781	-	-	781
Pure Waters	6,004	391		6,395
Total Major Business-type Funds	6,785	391		7,176
Nonmajor Business-type Funds				
Solid Waste	746	1		747
Total Business-type Activities	7,531	392		7,923
Fiduciary Funds:				
Custodial			23,250	23,250
Total Fiduciary Funds			23,250	23,250
Total Restricted Cash and Cash				
Equivalents	\$ 76,916	\$ 19,380	\$ 23,250	\$ 119,546

Restrictions for capital projects mainly represent funds raised through debt issuances for this purpose. Restrictions for debt service represent interest earned, unexpended proceeds and/or other assets specifically required under New York State's Local Finance Law to reduce future debt service payments. Restrictions for custodial funds are primarily composed of mortgage tax monies.

Notes to Basic Financial Statements Year Ended December 31, 2024

8. Receivables and Payables

A. Accounts Receivable

As of December 31, 2024 receivables are summarized as follows (000's omitted):

Accounts Receivable										
		Taxes and essments	Returned School Taxes	Other Accounts Receivable		Allowance for Doubtful Accounts			Total	
Governmental Activities:										
Major Governmental Funds										
General Fund	\$	23,665	\$ 23,264	\$	25,683	\$	-	\$	72,612	
Capital Projects		-			428				428	
Total Major Governmental Funds		23,665	23,264		26,111		-		73,040	
Nonmajor Governmental Funds										
Special Revenue		-	-		13,175		(607)		12,568	
Debt Service		-			10,228				10,228	
Total Nonmajor Governmental Funds		_			23,403		(607)		22,796	
Internal Service		-			40		-		40	
Total Governmental Activities		23,665	23,264		49,554		(607)		95,876	
Business-type Activities: Major Business-type Funds										
Airport		-	-		505		-		505	
Hospital		-	-		9,392		(1,839)		7,553	
Pure Waters					457				457	
Total Major Business-type Funds		-			10,354		(1,839)		8,515	
Nonmajor Business-type Funds Solid Waste					1,711				1,711	
Total Business-type Activities		-			12,065		(1,839)		10,226	
Total Accounts Receivable, net	\$	23,665	\$ 23,264	\$	61,619	\$	(2,446)	\$	106,102	

The nonmajor governmental funds receivable of \$22.8 million is comprised primarily of Tobacco Settlement Revenues due to MTASC of \$10.1 million, and community development loans issued of \$11.9 million, net of \$607 thousand which is estimated to be not collectable as some loans may be converted to grant awards. Business-type activity accounts receivable are comprised primarily of \$1.7 million for solid waste user fees, and \$7.6 million, net relating to patient accounts and third-party settlements in the Hospital.

Notes to Basic Financial Statements Year Ended December 31, 2024

B. Accounts Payable and Accrued Liabilities

The accounts payable and accrued liabilities balances in governmental activities include approximately 59 percent payable to vendors and 41 percent accrued salaries and benefits. The accounts payable and accrued liabilities in the business-type activities include approximately 70 percent payable to vendors and 30 percent accrued salaries and benefits. The accounts payable and accrued liabilities balances in governmental funds include approximately 91 percent payable to vendors and 9 percent accrued salaries and benefits. The accounts payable and accrued liabilities balances in proprietary funds approximate 34 percent payable to vendors and 66 percent accrued salaries and benefits.

C. Deferred Inflows

At the governmental fund level, revenues that are measurable but not available to finance current operations have been reported as deferred inflows of resources. Deferred inflows of resources in the general fund represent lease receivables, property tax receivables and opioid settlement receivables. Deferred inflows of resources for nonmajor governmental funds include community development program loans to be repaid to the County and MTASC tobacco settlement revenues.

D. Unearned Revenues

Unearned revenues in the general fund as of December 31, 2024 includes; American Rescue Plan Act of 2021, state grant funds for public safety improvements, and state aid advances for social services and mental health programs.

Notes to Basic Financial Statements Year Ended December 31, 2024

9. Capital Assets

Total Business-type Long-term Liabilities	\$	251,229	\$	32,160	\$	(45,012)	\$	238,377	\$	28,934

The current portion of compensated absences is included in accounts payable and accrued liabilities in the statement of net position.

The County borrows funds on a long-term basis for the purpose of financing acquisitions of land, equipment, construction of buildings and improvements. This policy enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. The liability for long-term debt for governmental funds appears on the government-wide statements, and is shown on the reconciliation between the fund level and the government-wide statements. The liability for long-term debt for proprietary funds is presented in the statement of net position. Interest expense for business-type activities that is directly related to the enterprise fund is included as a direct function expense.

The General Fund or applicable special revenue funds are the governmental funds that generally have been used in prior years to liquidate compensated absences, other postemployment benefits obligation and net pension liabilities.

Approximately \$333 million of the total principal is anticipated to be financed by user charges or tobacco settlement revenues. The remainder will be financed through the real property tax levy, general County revenues or existing reserves available for the retirement of debt. All proprietary fund debt is secured by the County's full faith and credit. Starting in 2060, interest payments include the tobacco settlement capital appreciation bonds, which mature from 2060 through 2061.

Notes to Basic Financial Statements Year Ended December 31, 2024

11. Leases, Subscription-based Information Technology Arrangements and Public-Private/Public-Public Partnerships/Availability Payment Arrangements

A. Lessor Agreements

The County's leasing operations consist of office space to the City of Rochester and a baseball stadium to Rochester Community Baseball. The leases receivable were discounted to a net present value at December 31, 2024 using a 4.31% interest rate.

Activity of lease inflows for the year ending December 31, 2024 (000's omitted) are summarized as follows:

Lessor Aç	gree	ments				
		Goveri Acti				
	Ge	neral	Se	ervice

Notes to Basic Financial Statements Year Ended December 31, 2024

D. Public-Private/Public-Public Partnerships/Availability Payment Arrangements

The County is the transferor/operator in a Public-Private/Public-Public Partnership related to the Seneca Park Zoo (Zoo) which is reported in the General Fund. The County has two separate license and operating agreements with the Seneca Park Zoo Society (Society) and SSA Group. As these agreements only include variable payments, a receivable will not be recorded and the payments will be recognized as revenue in the period the payments relate.

Society: Agreement dates of October 1, 2021 to December 31, 2026, together with up to two additional five year renewals. The Society is a not-for-profit corporation chartered to cooperate with the County in the raising of funds for the benefit of the Zoo; to foster, develop, and promote interest and civic pride among the citizens of the County in their zoo and the animals therein; and to provide an organization dedicated to the advancement of scientific education and conservation knowledge of the members of the animal kingdom. The agreement is for the provision of publicity, educational events, and special events (including public events, private events, and fundraising events) at the Zoo. The Society remits to the County facility use fees, a percentage of membership revenue earned, fundraising collections and utilities. For 2024, these amounts totaled \$537 thousand.

SSA Group: Agreement dates of October 1, 2021 to December 31, 2026, together with up to two additional five year renewals. The agreement is for the Zoo concession (including catering), gift shop, and admission services. SSA Group remits to the County a share of concession, catering, gift shop, admission and attractions sales. 100% of educational school groups sales and gift card are remitted to the County. For 2024, these amounts totaled \$1.5 million.

12. Employee Pension

A. Employee Pension Plans

The County participates in the New York State and Local Employees' Retirement System (ERS) and New York State Police and Firefighters Retirement System (PFRS). Both ERS and PFRS are cost-sharing multiple-employer retirement plans that provide retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law (NYSRSSL). As set forth in the NYSRSSL, the Comptroller of the State of New York (Comptroller) serves as sole trustee and administrative head of ERS and PFRS. The Comptroller shall adopt and may amend rules and regulations for the administration and transaction of the business of ERS and PFRS and for the custody and control of their funds. ERS and PFRS issue publicly available financial reports that include financial statements and required supplementary information. These reports may be obtained by writing to the New York State and Local Retirement Systems, 110 State Street, Albany, NY 12244-0001.

ERS and PFRS are noncontributory except for employees who joined the New York State and Local Employee's Retirement System between July 28, 1976 and December 31, 2009 and have less than ten years of credited service. These members contribute 3% of their salary. Prior to October 2000, all County and MCC employees who joined between July 28, 1976 and December 31, 2009 were required to contribute 3%, but the laws were modified to forgive the 3% contribution for those with ten or more years of service time. All members who joined between January 1, 2010 and March 31, 2012 are required to contribute 3% of their salary for the duration of service. Effective April 1, 2012 all members joining the system are required to contribute 3% of their salary for the duration of service. This contribution rate remained in effect through March 31, 2013. Beginning April 1, 2013 those members having joined as of April 1, 2012 and subsequently have their contribution rates vary from 3% to 6% based on their level of annualized wages for the duration of service. Under the authority of the NYSRSSL, the Comptroller shall certify annually the rates expressed as proportions of payroll of members, which shall be used in computing the contributions required to be made by employers to the pension accumulation fund.

The County is required to contribute at an actuarially determined rate. The required contributions for the current year and two preceding years for ERS and PFRS were as follows (000's omitted):

Required Contributions for ERS and PFRS

Year	ERS	PFRS
2024	\$ 53,912	\$ 565
2023	\$ 40,262	\$ 467
2022	\$ 32,514	\$ 434

The County's contributions made to ERS and PFRS were equal to 100% of the contributions required for each year.

Notes to Basic Financial Statements Year Ended December 31, 2024

ERS and PFRS, effective with Chapter 260, Laws of 2004, changed the payment due date for participating employers from December 15th of the current year to February 1st of the subsequent year. In addition, the change in the Law provided participating employers alternative financing options. These options included: (1) amortizing a portion of the pension cost, based on a graduated scale, with the ERS or PFRS over 5 or 10 years, interest for the amortization is based on a rate established by the Comptroller using current market rates; and (2) allowing participating employers to bond the costs.

ERS and PFRS, effective with Chapter 57, Laws of 2010, initiated the employer contribution stabilization program. This provided the option of amortizing a portion of the pension cost over 10 years. The Chapter 57 Laws, in 2013, allowed for an alternate program allowing the option of amortizing the pension cost over 12 years. Interest for the amortization is based on a rate established by the Comptroller using current market rates.

The County elected to prepay the retirement system invoices of \$49.3 million on December 15, 2024. Due to this, \$12.6 million of the payment represents a prepaid expense as of December 31, 2024. This amount covers the period through March 31, 2025, which is the end of the State's fiscal year. By activity, the prepaid expense is allocated as follows: \$10.8 million in the governmental activities and \$1.8 million in the business-type activities.

B. Pension Liabilities (Assets), Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At December 31, 2024, the County reported a net pension liability (asset) of \$163.6 million and \$2.0 million for its proportionate share of the ERS and PFRS net pension liability (asset), respectively. Of the \$165.6 million total, \$130.1 million is attributable to governmental activities and \$35.5 million to business-type activities.

The net pension liability (asset) was measured as of March 31, 2024, and the total pension liability (asset) used to calculate the net pension liability (asset) was determined by the actuarial valuation as of April 1, 2023. The County's proportion of the net pension liability (asset) was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At December 31, 2024, the County's proportionate share was 1.11% and 0.04% for ERS and PFRS, respectively.

For the year ended December 31, 2024, the County recognized pension expense totaling \$71.1 million and \$0.8 million for ERS and PFRS, respectively.

The County reported deferred outflows/inflows of resources related to pensions from the following sources (000's omitted):

_	$\overline{}$

The County recognized \$38.4 million and \$427 thousand reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date of March 31, 2024 for ERS and PFRS respectively. These amounts will be recognized as a reduction of the net pension liability in the year ended December 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense for ERS and PFRS, respectively as follows (000's omitted):

Actuarial Assumptions

The total pension liability at March 31, 2024 was determined by using an actuarial valuation as of April 1, 2023, with update procedures used to roll forward the total pension liability to March 31, 2024.

The actuarial valuation used the following actuarial assumptions for both the ERS and PFRS:

Inflation rate 2.9%/2.9%
Salary increases 4.4%/6.2%
Investment rate of return (net of investment

expense, including inflation) 5.9%/5.9% Cost-of-living adjustments 1.5%/1.5%

Annuitant mortality rates April 1, 2015 – March 31, 2020 System experience, with adjustments

for mortality improvements based on MP-2021.

Long-term Rate of Return

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expect future real rates of return (expected returns, net of pension plan investment expense and inflation) for equities and fixed income as well as historical investment data and plan performance.

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2024 are summarized below:

	Target	Long-Term Expected
Asset Type	Allocations in %	Real Rate of Return in %*
Domestic Equity	32	4.00
International Equity	15	6.65
Private Equity	10	7.25
Real Estate	9	4.60
Opportunistic/ARS Portfolio	3	5.25
Credit	4	5.40
Real Assets	3	5.79
Fixed Income	23	1.50
Cash	1	0.25
	100	

^{*}Real rates of return are net of long-term inflation assumption of 2.9%.

Discount Rate

The discount rate used to calculate the total pension liability was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Basic Financial Statements Year Ended December 31, 2024

13. Other Postemployment Benefits

Plan Description

The County administers a single-employer defined benefit Other Postemployment Benefit (OPEB) plan. The plan provides certain healthcare, medical and dental insurance benefits for eligible retirees and their spouses. Eligibility requirements and benefit provisions are established through negotiations between the County and the various collective bargaining units and their employment agreements. The plan does not issue a stand-alone financial report since there are no assets legally segregated in a trust for the sole purpose of paying benefits under the plan. No assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4.

Benefits Provided

The obligations of the plan are negotiated between the County and the applicable union representatives. Healthcare benefits for non-union employees are similar to those of union employees. The retiree's share of the calculated premium cost ranges from 0% to 100%, depending on the retirement date and length of service. Based on collective bargaining agreements, the retiree and his or her beneficiaries receive this coverage in accordance with those agreements. The County currently contributes the amounts required to satisfy current obligations on a pay-as-you-go basis. In 2024, those costs were \$35.0 million and the costs of administering the plan are paid by the County.

Employees Covered by Benefit Terms

At December 31, 2024, the following employees were covered by the benefit terms:

Inactive employees and spouses

currently receiving benefits 3,652
Active Employees 4,169
Total Participants 7,821

Total OPEB Liability

The County's total OPEB liability of \$434.5 million, was recognized as \$389.3 million for the governmental activities and \$45.2 million for the business-type funds, and was measured as of December 31, 2024. The total OPEB liability was determined by an actuarial valuation as of December 31, 2024.

Actuarial Methods and Other Inputs

Projections of benefits for financial reporting purposes are based on the substantive plan as understood by the employer and plan members and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following methods and assumptions were used:

Actuarial Valuation Date January 1, 2024

Measurement Date December 31, 2024

Actuarial Cost Method Entry age normal

Discount Rate 4.28%
Inflation Rate 2.90%

Health Care Trend Rates 7.5%, decreasing by 0.5% each year until 2032; 4.5% thereafter

The discount rate was based on the yield for 20-year tax-exempt general obligation municipal bonds as of the valuation date, which represents the average of certain general obligation municipal bonds maturing in 20 years and having an average rating of AA/Aa or higher.

Mortality rates were based on SOA Pub-2010 Public Safety, General and Continuing Survivor Headcount Weighted Mortality Table fully generational using Scale MP-2021.

Notes to Basic Financial Statements Year Ended December 31, 2024

14. Interfund Activity

Interfund activity is reported as loans, services provided, and reimbursements or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near-market rates, are treated as revenues and expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and recognizes revenue. All other interfund transactions are treated as transfers.

A. Receivables and Payables

52 percent of the total amount of receivables and payables is a result of the overdraft of other funds' share of pooled cash, and 48 percent is a result of initial financing of capital projects. The following is a summary of interfund receivables and payables as of December 31, 2024 (000's omitted):

B. Transfers

One hundred percent of transfers to road and library funds were from revenues collected in the general fund to finance various programs within the road and library funds. One hundred percent of transfers to the debt service fund are the result of moving receipts restricted to debt service to fund debt service payments as they come due.

The following is a summary of interfund transfers for the year ended December 31, 2024 (000's omitted):

15. Miscellaneous Revenue

For the year ended December 31, 2024, the miscellaneous revenue for the primary government is \$22.9 million, consisting of \$20.7 million for governmental activities and \$2.2 million for business-type activities. Governmental activities include: \$2.2 million in provider contributions, \$13 million in opioid settlements, \$2.5 million in jail commissary sales, \$0.5 million from Department of Human Services income from the lottery intercept program and CPC income, \$0.5 million from Health Department items such as autopsy and consulting services provided to other Counties, \$0.6 million in marijuana dispensary tax and \$0.3 million in equipment sales. Business-type activities include: \$1.2 million in the hospital fund consisting primarily of supplier rebates, cafeteria income and space rental fees. Additionally there are \$0.9 million of Monroe County Recycling Center host and utility payments.

Notes to Basic Financial Statements Year Ended December 31, 2024

16. Federal and State Funded Programs

The County participates in a number of Federal and New York State grant and assistance programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the County expects such amounts, if any, to be immaterial. Expenditures disallowed by completed audits have generally been immaterial in nature and, accordingly, have been reflected as adjustments to revenues in the year the expenditure was determined to be unallowable.

17. Risk Management/Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The internal service fund (risk management fund) is used to account for and finance the County's uninsured risks of loss. Under this program, the risk management fund provides self-insurance coverage for up to a maximum of \$2 million for each Workers' Compensation claim. The County purchases commercial insurance for claims in excess of self-insurance coverage provided by the fund and all other risks of loss. The County is self-insured for medical claims.

In addition to the self-insured risks noted above, the County is also self-insured for any malpractice claims against the Hospital. The County is a defendant in various claims and litigation. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, it is not possible to determine an exact measure of claim liabilities. The County Attorney is responsible for analyzing the County's claims and providing an opinion regarding the County's ability to cover its liabilities in the self-insurance program. Based on the analysis for the year ending December 31, 2024, the County Attorney has determined that the County is adequately covered through its insurance and self-insurance programs described above.

All funds of the County participate in the self-insurance program and make payments to the internal service fund. Payments from other funds and the component unit are determined by two methods. The first method reimburses the risk management fund for "small claims" (those under \$10 thousand) and insurance premiums by assessment against County organizations based upon actual payroll. The second method results in charges to County organizations based upon their proportionate share of full-time positions.

The internal service fund records all claim liabilities when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. All liabilities are recorded at their value as of December 31, 2024.

The table below illustrates changes in the fund's liabilities for the last two years (000's omitted):

	Risk Management Fund									
				Current-Year						
				Claims and						
		Beginning		Changes In		Claim				
Year		of year		Estimates		Payments		End of year		
						-			_	
2024	\$	41,710	\$	99,293	\$	(100,671)	\$	40,332		
2023		41,828		94,791		(94,909)		41,710		
		,		,		(- ',)		,		

Of the \$40.3 million estimated accrued liabilities in the internal service fund, \$40.2 million is reported in accounts payable and accrued liabilities and \$0.1 million is reported in due to other governments. The \$40.3 million is comprised of \$0.7 million, which is the County Attorney's estimate of general liability claims which may likely settle, \$32.6 million representing Workers' Compensation claims already reported, and additional claims incurred but not yet reported, \$5.4 million for medical claims incurred but not yet reported and other liabilities amounting to \$1.6 million. The County utilizes a third party administrator who is responsible for processing claims and estimating liabilities under this coverage.

The County has evaluated its potential pollution remediation obligations as of December 31, 2024. The County is aware of other contamination sites and is working with the NYS DEC on remediation methods. The County expects, at this time, that costs associated with these remediation efforts, if any, would be immaterial.

Pollution remediation obligations are estimates and are subject to changes resulting from price increases or reductions, technology, or changes in applicable laws and regulations.

Notes to Basic Financial Statements Year Ended December 31, 2024

18. Tax Abatement

The County has over 300 real property tax abatement agreements entered into by COMIDA under Article 18-A of the General Municipal Law of the State of New York. These agreements provide for abatement of real property taxes in exchange for a payment in lieu of taxes (PILOT) and are under one of four possible programs:

JobsPlus Program

Under the JobsPlus program the recipient can be manufacturers, technology-based producer service companies, commercial projects which will increase the tax assessment with new construction and the rehabilitation of existing commercial buildings that have been vacant for a long period of time. They must meet a minimum of 10% job creation goal over impacted employment within three years. The project must use all local labor for the construction of new, expanded or renovated facilities.

Enhanced JobsPlus Program

Under the Enhanced JobsPlus program the recipient can be manufacturers or technology-based producer service companies. The requirements are an investment minimum of \$15 million in new plant, machinery and equipment or renovation of existing buildings, a minimum of 100 new jobs from new companies locating in Monroe County, or existing companies expanding operations within Monroe County within 3 years, and in the absence of a waiver permitting otherwise, the project must use all local labor for the construction of new, expanded or renovated facilities.

Green JobsPlus

Under the Green JobsPlus program the recipient can be manufacturers, technology-based producer service companies, or commercial projects which will increase the tax assessment with new construction. Requirements for this program are that the project must be rated as certified, gold, silver, or platinum by the United States Green Building Council's Leadership in Energy and Environmental Design Green Building Rating System must meet the minimum of 10% job creation in 3 years and must use all local labor.

LeasePlus Program

For the new building construction or renovation projects for Universities and medical related facilities in which a 501(c)3 entity leases from a for-profit entity. The requirements under this program are job creation of 10% within 3 years and the use of local labor.

In addition to the above programs, Shelter Rent Agreements are also available. Property tax abated under the Shelter rent program is for new building or renovation projects for student or affordable housing. This program requires job creation of a minimum of 10% within 3 years as well as the use of local labor for the construction of new or renovation of facilities. Payments are made to the City of Rochester or the Town municipality based on rents collected by the property owner. The County then receives its share of the rent collected.

If the property owner does not meet the requirements set forth in the PILOT Agreement, the exempted tax amount may be recaptured and repayment of the tax amount abated would be required.

The following information for year ended December 31, 2024 relates to the PILOT agreements entered into under the aforementioned programs:

Total Assessment Value: \$ 1.6 billion
Total Taxable Value: \$ 744.9 million
PILOTS Billed: \$ 7.3 million
County Taxes Abated: \$ 4.7 million

The following information relates to the Shelter Agreements entered into under the aforementioned programs:

Total Assessment Value: \$ 373.3 million
Total Taxable Value \$ 373.3 million
Shelter Rents Received \$ 1.5 million
County Taxes Abated: \$ 1.3 million

Of the \$6.0 million taxes abated, no single property represented more than 10% of the total tax abated.

The County is also subject to sales tax abatements granted by COMIDA in order to increase business activity and employment in the region. The amount of sales tax abated which reduced the County's share of sales tax revenue for the year ended December 31, 2024 was \$1.6 million.

REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)

COUNTY OF MONROE, NEW YORK REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED) SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES GENERAL FUND - BUDGET AND ACTUAL FOR THE YEAR ENDED DECEMBER 31, 2024 (000's Omitted)

COUNTY OF MONROE, NEW YORK

Notes to Required Supplementary Information (000's omitted) (Unaudited) Year Ended December 31, 2024

1. Budgetary Basis Reporting

The procedures governing the preparation, submission and adoption of the County's annual budget are stipulated in Article IV of the County Charter and in Article VI of the County Administrative Code.

The County Executive, with the assistance of the Office of Management and Budget (OMB), prepares the annual budget for submission to the County Legislature in a manner and form consistent with these articles. County departments and authorized agencies are required to submit their budget requests and revenue estimates to OMB. These requests are reviewed and analyzed, and the proposed budget is prepared for submission to the County Legislature.

The County Executive is required to submit the proposed budget to the Legislature on or before November 15th. The County Legislature must meet to deliberate on the budget and also must hold at least one public hearing prior to budget adoption. If the Legislature passes the budget as proposed, no further action is required on the part of the County Executive. If the Legislature changes the budget, the changes must be submitted to the County Executive for consideration. The County Executive then has 48 hours to approve or disapprove each of the Legislative changes. The Legislature can override a County Executive veto within the next 48 hours with a three-fifths majority vote.

If a budget has not been passed on or before the second Tuesday in December, the Legislature must meet daily until the budget is passed. If the budget is not passed by December 16th, then the budget as submitted by the County Executive, with any Legislative changes agreed to by the County Executive, becomes the adopted budget for the next year.

The legal level of budgetary control is established at the department level. Within departments, unless prohibited by law or contractual obligations, the County Executive, or designee, from time to time, may transfer unencumbered balances in appropriations within the object level of a department entirely within one (1) fund. Additionally, the County Executive, or designee, may transfer other unencumbered balances in appropriations between departments entirely within one (1) fund, although no such transfer for any purpose may increase the appropriation received in a sub-object more than ten thousand dollars (\$10,000).

The general fund is the only major fund with a legally-adopted budget. Appropriations for all budgets lapse at fiscal year-end. The general fund's budget is adopted on a departmental and object level of expenditure basis in which expenditures may not legally exceed appropriations.

On a budget basis, sales tax revenue amounts reflect only the County share of the sales tax distribution.

COUNTY OF MONROE, NEW YORK

Notes to Required Supplementary Information (000's omitted) (Unaudited) Year Ended December 31, 2024

A summary of legally-adopted budgetary activity for the County's general fund for the year ended 2024 follows (000's omitted):

Revenues and other Financing Sources

Original Adopted Budget	\$ 1,171,129
Budget Amendments and Transfers	154,868
Amended Budget	1,325,997
Grants Residual Budget Carryover	109,489
Modified Budget	\$ 1,435,486
Expenditures and other Financing Uses	
Original Adopted Budget	\$ 1,215,436
Budget Amendments and Transfers	179,176
Amended Budget	1,394,612
Prior Year Encumbrances and Grants Residual Budget Carryover	146,934
Modified Budget	\$ 1,541,546

The general fund budget includes grants awarded to the County from state and federal sources. The adopted budget reflects the budget originally approved by the County Legislature. The amended budget includes transfers and amendments approved during the current year including new grant awards not part of the original adopted budget. The amended budget includes a small carryforward of prior year grant expenses which will be offset by revenue received in the current year. The modified budget includes a carryover of prior year encumbrances affecting the expenditure budget only, as well as reappropriations of grants from the prior year that will be expended and received in later years of multi-year funded federal and state grants.

STATISTICAL SECTION (UNAUDITED)

This section contains the following:

- FINANCIAL TRENDS These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.
- REVENUE CAPACITY These schedules contain information to help the reader assess the County's most significant local revenue sources, property and sales taxes.
- DEBT CAPACITY These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.
- DEMOGRAPHIC AND ECONOMIC INFORMATION These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.
- OPERATING INFORMATION These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Notes:

The Constitutional tax limit is the maximum amount of real property tax that may be levied by the County in any fiscal year. The Constitutional limit for Monroe County purposes, exclusive of debt service, is 1.5% of the preceding five year-average full value of taxable property. Cash capital expenditures can also be excluded from the levy for purposes of calculating compliance with the tax limit, but the County does not engage in this practice. The limit can be increased to a maximum of 2% of the five year average full value.

¹Based on full valuation calculated for the referenced tax year and prior four years.

Notes:

The Constitutional debt limit is the maximum amount of indebtedness that may be incurred by the County, as outlined in the State Constitution. The Constitutional limit for Monroe County purposes is 7% of the preceding five-year average full value of taxable property, subject to certain allowable exclusions and deductions, including current debt service. The Debt Limit of the County is computed in accordance with the provisions of Article VIII of the State Constitution and Article 2 of the Local Finance Law.
