## Monroe County Department of Public Health COVID-19 Update

Friday, October 30, 2020

### Monroe County COVID-19 Dashboard

For more comprehensive data, please visit: [dashboard.monroecounty.gov](https://dashboard.monroecounty.gov)

### Statement from Dr. Michael Mendoza, Commissioner of the Monroe County Department of Public Health:

*Today, we are reporting the highest number of new cases of COVID-19 in Monroe County since the start of the pandemic in March.*

*Our contact tracing is revealing several concerning trends. We are finding more small and large gatherings where attendees are not observing essential precautions including social distancing and mask wearing. We believe this is now leading to transmission within workplaces, as we are experiencing a growing number of small clusters among employees of local businesses and institutions. We have interviewed numerous people who say they went to work with symptoms of COVID-19, brushing them off as a cold or allergies.*

*This is a very critical moment as we work to keep our community safe and our economy open. We must not give in to pandemic fatigue. Please stay home if you are sick, wear your mask at all times when in public or with people who are not part of your own household, practice social distancing and follow all guidelines designed to protect one another. We know these things are hard, but we ask you to recommit to doing them.*

### New Cases and 7-Day Rolling Average of New Cases

There are 136 new confirmed cases of COVID-19 since the last update. The 7-day rolling average of new cases is 73 new cases per day.
