Monroe County Department of Public Health COVID-19 Update

Thursday, December 31, 2020

Statement from Monroe County Public Health Commissioner Dr. Michael Mendoza:

As we close out 2020, we have reason to hope. We have several vaccines that can help us end the pandemic in the coming months. However, we are not there yet.

On the last day of 2020, we are reporting yet another record-breaking number of new cases. While it is premature to call this the start of a post-holiday surge, it may very well be one. Small gatherings continue to be the main reason for community spread. People are visiting their parents and grandparents. They are having a few friends over for the Bills game.

If you haven't made plans for tonight, please consider staying home. If you have a small gathering with people outside of your household, keep it outside. Wear a mask and maintain social distance at all times. Be safe so we all can have a healthy and happy New Year.
