Monroe County Department of Public Health COVID-19 Update

Friday, March 26, 2021

Statement from Dr. Michael Mendoza, Public Health Commissioner

While Monroe County's COVID positivity rate remains relatively low, we have experienced a concerning upward trend over the past week. Nearly 20% of the cases being reported today are among young adults and children under 20 years old. I urge families to keep this in mind if they are planning to travel during Spring Break. While individuals may no longer be required to quarantine at the end of a trip, please consider doing so if you are able. In any case, while you are on vacation and upon your return, I urge you to strictly observe the precautions we know work. Limit your gatherings, wear a mask, maintain physical distance, wash your hands and call your doctor right away if you are not feeling well.
