*County Executive*

**Michael D. Mendoza, MD, MPH, MS**  
*Commissioner of Public Health*

## **Monroe County Department of Public Health COVID-19 Daily Case Update**

*Thursday, November 11, 2021*

**Statement from Monroe County Executive Adam Bello and Commissioner of Public Health Dr. Michael Mendoza:** *As much as we would all like to see an end to this pandemic, today's new caseload is a clear indication that COVID-19 is still very much a part of our lives. As we know, an increasing caseload will translate into increasing hospitalizations in the coming weeks if we cannot get the virus under control.*

*Fortunately, we know how to do that. According to the latest data, the rate of hospitalization for unvaccinated individuals is nearly ten times that of vaccinated people. We cannot stress that enough. You are ten times more likely to be hospitalized if you have not been fully vaccinated.*

*Vaccination and booster shots are critical to keeping people out of the hospital and preventing further strain on our health systems and their staff. Please take charge of your health and the health of our community, and get your shot as soon as possible.*
