Monroe County Department of Public Health Issues Guidance for At-Home COVID-19 Test Result Reporting

As at-home COVID-19 test kits become increasingly available, the Monroe County Department of Public Health has developed an online portal for reporting positive test results. Regardless of test kit instructions, any positive result should be entered here:

<https://www.monroecounty.gov/health-covid19-reporting>

Individuals who enter a positive test result will be contacted by the Department of Public Health to be placed in isolation. This will ensure these individuals receive proper support and documentation for work absence, etc. It will also allow for Monroe County contact tracers to determine if others are at risk.

Individuals do not need to report negative at-home test results at this time.

For additional assistance, please contact the COVID-19 Hotline at (585) 753-5555 or COVID19@MonroeCounty.gov
