

Saving hundreds can be easy as 1-2-3.

If you're taking brand-name prescription drugs, you may be paying too much to treat your condition. Follow these steps to see how much you could save:

1. Check your medicine cabinet and use the space below to write down all the brand-name prescription drugs you are currently taking.
2. Go to go.excellusbcs.com/generics to see if there are generic alternatives or equivalents for the drugs on your list and write them down.
3. Share this list with your doctor and ask if a generic is right for you.

Brand-name prescription drug	Generic equivalent or alternative
