No. 250152

Not to be removed from the Office of the Legislature Of Monroe County

Committee Assignment

ENV. & PUB. WORKS -L

May 9, 2025

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Sale of County Owned Tax Foreclosure Property Located at Main Street, Scottsville, NY 14546 in the Town of Wheatland

Honorable Legislators:

I recommend that Your Honorable Body determine whether the sale of County owned tax foreclosure property in the Town of Wheatland may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA"). This action is described as follows:

Parcel Offeror Offered Amount
Main Street CanAm Environmental Safety, Inc
TA # 200.38-1-22 42 Main Street
Town of Wheatland Scottsville, NY 14546

The sale of County owned tax foreclosure property located at Main Street, Scottsville, NY 14546 in the Town of Wheatland has been preliminarily classified as an Unlisted action. The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

- 1. Determine that the sale of County owned tax foreclosure property located at Main Street, Scottsville, NY 14546 with tax account number 200.38-1-22 in the Town of Wheatland is an Unlisted Action.
- 2. Make a determination of significance regarding the sale of County owned tax foreclosure property located Main Street, Scottsville, NY 14546 with tax account number 200.38-1-22 in the Town of Wheatland pursuant to 6 NYCRR § 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Adam J. Bello

Monroe County Executive

Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

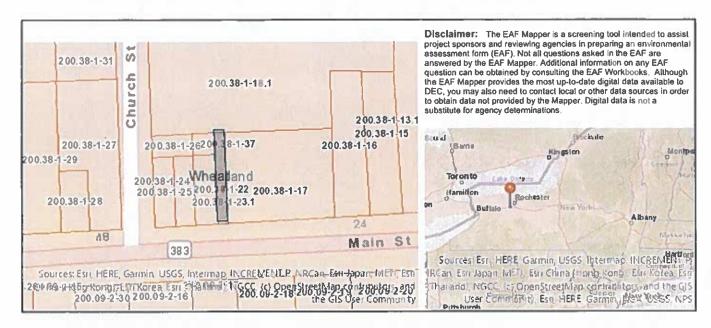

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part I based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	V	
2.	Will the proposed action result in a change in the use or intensity of use of land?	V	
3.	Will the proposed action impair the character or quality of the existing community?	V	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	V	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	~	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	V	
7.	Will the proposed action impact existing: a. public / private water supplies?	~	
	b. public / private wastewater treatment utilities?	V	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	V	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	V	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	~	
11.	Will the proposed action create a hazard to environmental resources or human health?	~

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is proposing to sell a Tax Foreclosed Surplus Property located on Main Street in the Town of Wheatland at Tax Account Number 200.38-1-22.

The Part 1 of the EAF indicates the site contains or are near the following: National or State Register of historic places, archeological Sites and wetlands.

No National or State Register of historic places, archeological sites or wetlands will be affected at the project location. The action is for the sale of the property and does not include the physical alteration nor disturbance of the property.

Accordingly, the proposed action will not result in any significant adverse environmental impacts.

Check this box if you have determined, based on the info that the proposed action may result in one or more potential impact statement is required.	rmation and analysis above, and any supporting documentation, entially large or significant adverse impacts and an

Committee Assignment

ENV. & PUB. WORKS.L WAYS & MEANS

May 9, 2025

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Authorize a Contract with LeChase Construction Services, LLC for Agency Construction

Management Services for the NWQ WRRF Electrical, Aeration and Preliminary

Treatment Improvements Projects

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with LeChase Construction Services, LLC in the amount of \$58,956 for agency construction management services for the NWQ WRRF Electrical, Aeration and Preliminary Treatment Improvements projects.

The Department of Environmental Services will commence with a systematic upgrade to several processes at the Northwest Quadrant Pure Waters District Water Resource Recovery Facility ("NWQ WRRF") including electrical infrastructure, biological aeration systems, and physical preliminary treatment systems. While the design of these individual process components may be completed by separate professional engineering firms, a single agency construction management firm will provide continuity in the logistics of planning and construction of these crucial improvements. Your Honorable Body approved funding for the Electrical Improvements project by Resolution 30 of 2025. The Department of Environmental Services anticipates that it will seek funding approval for the Aeration and Preliminary Treatment Improvements projects within the next year.

Several consultants were considered with LeChase Construction Services, LLC rated as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with LeChase Construction Services, LLC, 205 Indigo Creek Drive, Rochester, New York 14626, in the amount of \$58,956 for agency construction management services for the NWQ WRRF Electrical, Aeration and Preliminary Treatment Improvements projects, and any amendments necessary to complete the projects within the total capital fund(s) appropriation.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes, unless such action meets or exceeds any of the thresholds in section 617.4 of this Part"); and is not subject to further review under the State Environmental Quality Review Act.

Monroe County Legislature May 9, 2025 Page 2

Funding for this contract, consistent with authorized uses, is included in capital fund 2137 and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither LeChase Construction Services, LLC, nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

R. Wayne LeChase, Chairman William Goodrich, CEO William Mack, President

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Authorize a Contract with C&S Engineers, Inc. for Professional Design Services for the

MCC Downtown Campus Career Center Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with C&S Engineers, Inc. ("C&S") in the amount of \$244,300 for professional design services for the MCC Downtown Campus Career Center Project ("Project").

This Project intends to leverage the strengths of the many organizations within Monroe County's workforce system, such as the New York State Department of Labor, which has expressed an interest in co-locating its primary career center alongside RochesterWorks, Inc., which will lead to better outcomes for those seeking employment pathways. Monroe Community College and its partners seek to make the workforce development system more efficient and manageable for prospective workers and employers alike. Your Honorable Body approved funding for the Project by Resolution 284 of 2024.

Several consultants were considered with C&S Engineers, Inc. rated as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with C&S Engineers, Inc., 100 S. Clinton Avenue, Suite 2700, Rochester, New York 14604, in the amount of \$244,300 for professional design services for the MCC Downtown Campus Career Center project, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes, unless such action meets or exceeds any of the thresholds in section 617.4 of this Part"); and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in capital fund 2116 and any capital fund(s) created for the same intended purpose. No additional net County support is required in the Monroe County budget for this contract.

Monroe County Legislature May 9, 2025 Page 2

The records in the Office of the Monroe County Treasury have indicated that neither C&S Engineers, Inc., nor its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Aileen Maguire Meyer, President Matthew J Wenham, Secretary John T. Camp, Treasurer.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Adam J. Bello

Sincerely,

Monroe County Executive

Authorize a Contract with Popli, Architecture + Engineering & LS, DPC, dba Popli

Design Group for Professional Design Services for the County Clerk's Office

Renovations (COB) Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Popli, Architecture + Engineering & LS, DPC, dba Popli Design Group in the amount of \$29,945 for professional design services for the County Clerk's Office Renovations (COB) project.

This project will improve customer-facing systems (counters) and enhance staff security in the County Clerk's Office in the County Office Building. File storage capacity will be enhanced to provide denser capacity in order to free up storage space. Your Honorable Body approved funding for the project by Resolution 415 of 2024.

Several consultants were considered with Popli, Architecture + Engineering & LS, DPC, dba Popli Design Group rated as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with Popli, Architecture + Engineering & LS, DPC, dba Popli Design Group, 555 Penbrooke Drive, Penfield, New York 14526, in the amount of \$29,945 for professional design services for the County Clerk's Office Renovations (COB) project, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes, unless such action meets or exceeds any of the thresholds in section 617.4 of this Part"); and is not subject to further review under the State Environmental Quality Review Act.

Honorable Legislators:

I recommend that Your Honorable Body adopt the proposed 2026-2031 Capital Improvement Program as recommended by the Monroe County Planning Board. The proposed Capital Improvement Program is submitted to the County Legislature in accordance with Section C4-10 of Article IV and Section C5-7(c) of Article V of the Monroe County Charter.

This proposed program includes projects designed to address aging infrastructure while at the same time ensuring that Monroe County continues to grow and expand its job base and quality of life. Projects contained in the program are intended to improve and modernize public buildings, improve critical sewer and transportation infrastructure, and continue investments in voting equipment, public safety, the Frederick Douglass Greater Rochester International Airport, the County Parks System, the Monroe County Library System, the Monroe Community Hospital, and Monroe Community College.

The 2026-2031 Capital Improvement Program is the result of a collaborative effort involving the County Executive's Office, Departments of Planning and Development, Finance (Office of Management and Budget), Law, Transportation, Environmental Services, Parks, and Information Services. In addition, the Monroe County Planning Board put in many hours in reviewing and recommending this program. I want to thank all of those involved in the preparation of this program for their hard work and dedication.

The specific legislative actions required are:

1. Fix a public hearing on the adoption of the proposed 2026-2031 Capital Improvement Program.

- 2. Direct the Clerk of the Legislature to publish legal notice of such public hearing at least once in one daily newspaper of general circulation in the County at least ten (10) days before the date set for the hearing.
- 3. Adopt the proposed 2026-2031 Capital Improvement Program, as submitted, in its entirety.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(27) ("conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action") and is not subject to further review under the State Environmental Quality Review Act.

The adoption of the proposed 2026-2031 Capital Improvement Program will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Committee Assignment
ENV. & PUB. WORKS.1

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Midvale Commons Project Funded Through the Monroe County Home Investments Partnerships (HOME) Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Midvale Commons Project funded through the Monroe County Home Investment Partnerships ("HOME") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The proposed project, Midvale Commons, involves the new construction of 28 senior apartments for individuals aged 62 and older, located at 2770 Baird Road in the Town of Perinton. The plan includes the creation of 28 one-bedroom, bungalow-style units arranged across eight single-story buildings. Four of the buildings will each contain four side-by-side units, while the remaining four buildings will each include three units. Each apartment will offer a private entrance and range in size from 730 to 750 square feet. All units are designated to serve income-qualified senior households earning up to 30%, 50%, and 60% of the Area Median Income (AMI). The development is designed to meet New York State Homes and Community Renewal's (NYS HCR) Green Building and Stretch Sustainability Goals, with certification under LEED for Homes Gold and LEED Zero standards. This project is funded through the Monroe County Home Investment Partnerships (HOME) Program, which aims to promote the creation of affordable rental housing options across Monroe County.

The Midvale Commons Project funded through the Monroe County Home Investment Partnerships (HOME) Program has been preliminarily classified as an Unlisted Action pursuant to 6 NYCRR § 617(b). The State Environmental Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that the Midvale Commons Project funded through the Monroe County Home Investment Partnerships Program is an Unlisted Action.

- 2. Make a determination of significance regarding the Midvale Commons Project funded through the Monroe County Home Investment Partnerships Program pursuant to 6 NYCRR § 617.7.
- 3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

Part 1 — Project Information. The applicant or project spensor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part I. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	✓	
2.	Will the proposed action result in a change in the use or intensity of use of land?	✓	
3.	Will the proposed action impair the character or quality of the existing community?	✓	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	✓	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	✓	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	✓	
7.	Will the proposed action impact existing: a. public / private water supplies?	✓	
	b. public / private wastewater treatment utilities?	V	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	✓	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	V	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	V	
11.	Will the proposed action create a hazard to environmental resources or human health?	V	

Agency Use Only [If applicable]				
Project:	Midvale Commons			
Date:	4-9-25			

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed project Midvale Commons Phase 2, is the new construction of 28 senior (62+) apartments at 2770 Baird Road in the Town of Perinton. The site is located on the east side of Baird Road, just west and adjacent to Midvale Commons Phase 1. Development Plans involve the creation of 28 one-bedroom Bungalow-style units in eight one-story buildings. All apartments are planned to serve households earning up to 30%, 50%, and 60% of the Area Median income. This Project is the second and final phase of development on this site. The Monroe County Division of Community Development is providing CDBG funding to promote affordable rental housing options throughout Monroe County.

Based on review of the site, the project does not impact wetlands, the 100 year floodplain or any structures more than 50 years old. The project will not impact existing natural resources, wetlands, historical or cultural resources and will not alter the existing community character. The proposed action is consistent with existing land use. Accordingly, the proposed action will not result in any significant adverse environmental impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required. Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Balinsky Gardens Project Funded Through the Monroe County Home Investments Partnerships (HOME) Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Balinsky Gardens Project funded through the Monroe County Home Investment Partnerships ("HOME") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The proposed project involves the construction of a 104-unit, five-building multi-family residential development by Providence Housing, located on a 9.2-acre parcel situated behind 2590 Culver Road. The site is positioned along Culver Road in an area characterized by a mix of residential and commercial uses. The development will include 32 townhouse-style units, each offering three bedrooms, and 72 apartment-style units within a low-rise elevator building. The apartment building will feature 32 one-bedroom units and 40 two-bedroom units. The first floor of the elevator building will house various resident-focused amenities, including bicycle storage, resident service offices, leasing offices, maintenance facilities, and shared community space. Additional common areas will feature a community room with kitchenette, on-site laundry, a library, restrooms, secure package drop-off, and mechanical rooms. This project is funded through the Monroe County Home Investment Partnerships (HOME) Program, which aims to promote the creation of affordable rental housing options across Monroe County.

The Balinsky Gardens Project funded through the Monroe County Home Investment Partnerships (HOME) Program has been preliminarily classified as an Unlisted Action pursuant to 6 NYCRR § 617(b). The State Environmental Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

1. Determine that Balinsky Gardens Project funded through the Monroe County Home Investment Partnerships Program is an Unlisted Action.

- 2. Make a determination of significance regarding the Balinsky Gardens Project funded through the Monroe County Home Investment Partnerships Program pursuant to 6 NYCRR § 617.7.
- 3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of SEQRA, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under SEQRA, and any other actions to implement the intent of this resolution.

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section I allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1is accurate and complete.

Date

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- · Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- . If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency
 checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- · Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) If "Yes", answer questions a - j. If "No", move in to Section 2.	∏ио	Z	YES
2 - Land Land Control of the Control	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	621	Ø	
e. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a	Ø	
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	()2a	[2]	
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	Die		Ø
f. The proposed action may result in increased crosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2c, D2q	Z	
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	Bli	Ø	
h. Other impacts:			

Page 1 of 10

	-1645-0355-		
2. Impact on Geological Features The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g) If "Yes", answer questions a - c. If "No", move on to Section 3.	<u>√</u> NO		YES
	Relevant Part 1 Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g	D 	ť)
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	1:3c	ľ, í	n
c. Other impacts:		CI	lii
3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water hodies (e.g., streams, rivers, ponds or lakes). (See Part I. D.2, E.2.h)	NO) []	YES
If "Yes", answer questions a - l. If "No", move on to Section 4.	Relevant Part f	No, or small	Moderate
	Question(s)	inibact	to large impact may secur
a. The proposed action may create a new water body.	1	impact	impact may
a. The proposed action may create a new water body. b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	Question(s)	กาลง occur	impact may
h. The proposed action may result in an increase or decrease of over 10% or more than a	Question(s)	inipact may occur	impact may
 b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water. c. Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sofficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

Please see attachment

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
 there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
 environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that
 no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	✓	
2.	Will the proposed action result in a change in the use or intensity of use of land?	V	
3.	Will the proposed action impair the character or quality of the existing community?	V	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	V	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	✓	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	✓	
7.	Will the proposed action impact existing: a. public / private water supplies?	✓	
	b. public / private wastewater treatment utilities?	✓	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	V	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	V	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	V	
11.	Will the proposed action create a hazard to environmental resources or human health?	V

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

This proposed project is the construction of a 104 unit 5 building multi-family residential development by Providence housing. The subject property is a 9.2 acre site along Culver Rd. The site is a former tandfill, is vacant and enrolled in the Brownfield Cleanup Program (BCP). Comprehensive investigative and remediation plans are in place to address contamination and site cleanup including a Remedial Action Work Plan (RAWP) pursuant to the BCP in New York State DEC regulations. As part of the BCP the applicant adheres to the RAWP protocols for the removal of contaminated soil in the design of a vapor medication system is part of the remediation process. Site remediation will be conducted under state regulations, ensuring that the contamination is addressed prior to site occupancy. The Monroe County Division of Community Development is providing CDBG funding to promote affordable rental housing options throughout Monroe County.

The 9.2 acre site is accessible through Culver Road and is in an area with a mix of residential and commercial uses. Rezoned from R1 to R5 residential it is currently vacant but was previously a landfill and agricultural market. The site contains undocumented film material including construction debris up to 20 feet deep, primarily in former ravine. It was accepted into the Brownfield Cleanup Program in November 2023 as site number C828226. Hobby Creek lies 500 feet north with groundwater generally flowing northeast. A 2024 study found no wetlands, streams, or habitats for endangered species on the site. Based on review of the site, the project does not impact wetlands, the 100 year floodplain or any structures more than 50 years old. The project will not impact existing natural resources, wetlands, historical or cultural resources and will not alter the existing community character. The proposed action is consistent with existing land use. Accordingly, the proposed action will not result in any significant adverse environmental impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.						
Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

No. 250164

Not to be removed from the Office of the Legislature Of Monroe County

Committee Assignment

ENV. & PUB. WORKS-L

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act Regarding the Acquisition Rehab Resale Program Funded Through the Monroe County Home Investment Partnerships (HOME) Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Acquisition Rehab Resale Program funded through the Monroe County Home Investment Partnerships ("HOME") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project develops affordable housing opportunities by providing a direct subsidy for income eligible first time home buyers purchasing their first home in suburban Monroe County. A sub recipient acquires a single family home, develops works specifications for rehab, selects a contractor to complete the work and bring home up to minimum standards for resale to individuals purchasing homes, which are still subject to existing municipal building and zoning codes.

This program has no direct effects on the environment, all property involved in this program are privately owned and still subject to the New York State Building Code and municipal zoning laws. This program will not result in construction that results in the expansion of the original footprint; encroachment on wetlands, Critical Environmental Areas, floodplains; encroachment on a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.

The Acquisition Rehab Resale Program funded through the Monroe County Home Investment Partnerships has been preliminary classified as an Unlisted Action pursuant to 6 NYCRR Part 617. The State Environmental Review Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEORA.

The specific legislative actions required are:

- 1. Determine that the Acquisition Rehab Resale Program is an Unlisted Action.
- 2. Make a determination of significance regarding the Acquisition Rehab Resale Program pursuant to 6 NYCRR § 617.7.
- 3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Adam J. Bello

Monroe County Executive

Committee Assignment

ENV. & PUB. WORKS!

May 9, 2025

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act Regarding the Rochester Housing Development Fund Corporation Program Funded Through the United States American Rescue Plan

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Rochester Housing Development Fund Corporation Program funded through the United States American Rescue Plan may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project develops affordable housing opportunities by providing a direct subsidy for income eligible first time home buyers purchasing their first home in Monroe County and the City of Rochester. A sub recipient acquires a single family home, develops works specifications for rehab, selects a contractor to complete the work and bring home up to minimum standards for resale to individuals purchasing homes, which are still subject to existing municipal building and zoning codes.

This program has no direct effects on the environment, all property involved in this program are privately owned and still subject to the New York State Building Code and municipal zoning laws. This program will not result in construction that results in the expansion of the original footprint; encroachment on wetlands, Critical Environmental Areas, floodplains; encroachment on a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.

The Rochester Housing Development Fund Corporation Program funded through the United States American Rescue Plan has been preliminary classified as an Unlisted Action pursuant to 6 NYCRR Part 617. The State Environmental Review Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

- 1. Determine that the Rochester Housing Development Fund Corporation Program is an Unlisted Action.
- 2. Make a determination of significance regarding the Rochester Housing Development Fund Corporation Program pursuant to 6 NYCRR § 617.7.
- 3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The Rochester Housing Development Fund Corp is a program that provides grants to income-eligible first time home buyers who purchase homes in the Monroe County and the City of Rochester. This program has no direct effects on the environment, all property involved in this program is privately owned and subject to the New York State Building Code and municipal zoning laws. This program will not result in construction that results in the expansion of the original footprint; encroachment on wetlands, Critical Environmental Areas, floodplains; encroachment on a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places. This program will not have any significant adverse environmental impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.					
Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Committee Assignment
ENV. & PUB. WORKS-L

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act Regarding the First Time Home Buyers Program Funded Through the Monroe County Home Investment Partnerships Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the First Time Home Buyers ("FTHB") Program Funded through the Monroe County Home Investment Partnerships ("HOME") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project develops affordable housing opportunities by providing a direct subsidy for down payment or closing cost assistance for income eligible first time home-buyers purchasing their first home in suburban Monroe County. This is an administrative program that will aid individuals purchasing private homes that are still subject to existing municipal building and zoning codes.

The First Time Home Buyers Program funded through the Monroe County Home Investment Partnerships has been preliminary classified as an Unlisted Action pursuant to 6 NYCRR Part 617. The State Environmental Review Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEORA.

The specific legislative actions required are:

- 1. Determine that the First Time Home Buyers Program is an Unlisted Action.
- 2. Make a determination of significance regarding the First Time Home Buyers Program pursuant to 6 NYCRR § 617.7.

3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Adam J. Bello

Monroe County Executive

Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information				
Name of Action or Project:				
First Time Home Buyers Program (FTHB)				
Project Location (describe, and attach a location map):				
Monroe County, with the exception of the City of Rochester.				
Brief Description of Proposed Action:

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	✓	
2.	Will the proposed action result in a change in the use or intensity of use of land?	✓	
3.	Will the proposed action impair the character or quality of the existing community?	✓	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	✓	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	V	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	✓	
7.	Will the proposed action impact existing: a. public / private water supplies?	✓	
	b. public / private wastewater treatment utilities?	✓	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	✓	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	✓	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	V	
11.	Will the proposed action create a hazard to environmental resources or human health?	V	

Agen	cy Use Only [If applicable]

Date:	April 10, 2025

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The First-Time Home Buyer Program is a Monroe County program that provides one-time grants for down payment and closing assistance to income-eligible first time home buyers who purchase homes in the suburban towns and villages of Monroe County. This program has no direct effects on the environment, all property involved in this program is privately owned and still subject to the New York State Building Code and municipal zoning laws. This program will not result in construction or other physical projects; encroachment on wetlands, Critical Environmental Areas, floodplains; encroachment on a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places. This program will not have any significant adverse environmental impacts.

Committee Assignment

ENV. & PUB. WORKS-L

May 9, 2025

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Town of Brighton Crittenden Road Sidewalk Project Funded Through the Monroe County Community Development

Block Grant Program

Honorable Legislators:

I recommend that Your Honorable Body determine whether the Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County Community Development Block Grant ("CDBG") Program may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

The Town of Brighton is proposing to install 1700 linear feet of concrete sidewalk within the right of way of Crittenden Road on the south side of the road from the corner of West Henrietta Road & Crittenden Road eastward approximately 1700 linear feet to East Squire Drive. These sidewalks will connect to the existing network of sidewalks that service Rustic Village Apartment Complex and surrounding businesses. The proposed sidewalks will improve overall safety for those who walk along Crittenden Road.

This project will not impact existing wetlands, or historical, cultural, or natural resources, nor will it alter the existing community character. The proposed action is consistent with existing land use and will increase the safety of nearby residents.

The Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County CDBG Program has been preliminarily classified as an Unlisted Action pursuant to 6 NYCRR § 617(b). The State Environmental Quality Review Act regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The specific legislative actions required are:

- 1. Determine that the Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County CDBG Program is an Unlisted Action.
- 2. Make a determination of significance of the Town of Brighton Crittenden Road Sidewalk Project funded through the Monroe County CDBG Program pursuant to 6 NYCRR § 617.7.
- 3. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of SEQRA, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under SEQRA, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Adam J. Bello

Sincerely,

Monroe County Executive

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	V	
2.	Will the proposed action result in a change in the use or intensity of use of land?	✓	
3.	Will the proposed action impair the character or quality of the existing community?	V	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	✓	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	V	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	V	
7.	Will the proposed action impact existing: a. public / private water supplies?	\checkmark	
	b. public / private wastewater treatment utilities?	V	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	✓	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	V	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	V	
11.	Will the proposed action create a hazard to environmental resources or human health?	1

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The Town of Brighton is proposing to install 1700 linear feet of concrete sidewalk within the ROW of Crittenden Rd. on the south side of the road. Along the south side of Crittenden Rd. from the corner of West Henrietta Rd. & Crittenden Rd. eastward approximately 1700 linear feet to East Squire Dr. These sidewalks will connect to the existing network of sidewalks that service Rustic Village Apartment Complex and surrounding businesses. The proposed sidewalks will improve overall safety for those who walk along Crittenden Road.

The project does not impact wetlands, the 100 year floodplain or any structures more than 50 years old. The new sidewalks will benefit the residents by improving the overall safety for those who walk frequently in the area. The project will not impact existing natural resources, wetlands, historical or cultural resources and will not alter the existing community character or increase traffic. The proposed action is consistent with existing land use. For the above reasons this project will not result in any significant adverse environmental impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.			
Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts. Monroe County

No. 250189

Not to be removed from the Office of the Legislature Of Monroe County

Committee Assignment

REC & ED -L

ENV. & PUB. WORKS

To The Honorable Monroe County Legislature 407 County Office Building Rochester, New York 14614

Subject:

Amend Resolution 329 of 2023 to Accept Additional Grant Funding from the Dormitory Authority of the State of New York; Amend the 2025 Capital Budget to Increase Funding for the Project Entitled "Construction of a 9/11 First Responders Memorial at Highland Park;" and Amend Bond Resolution 330 of 2023 to Increase Financing for the Project

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 329 of 2023 to accept additional grant funding from the Dormitory Authority of the State of New York ("DASNY") in the amount of \$100,000; amend the 2025 Capital Budget to increase funding for the project entitled "Construction of a 9/11 First Responders Memorial at Highland Park" by \$100,000 for a total project authorization of \$350,000; and amend Bond Resolution 330 of 2023 to increase financing for the project by \$100,000, from \$250,000 to \$350,000.

These additional grant funds would bring the total grant allocation for this project to \$350,000.

The proposed 9/11 First Responders Memorial will be located in Beikirch Park, the park formerly known as "Highland Park South," that is currently home to the War on Terror and Vietnam Veterans Memorials, among others. The concept for the proposed memorial includes two (2) eleven-foot-tall granite towers and one (1) 9-foot-tall brick structure surrounded by walkways, lighting, plaques, flagpoles, benches and landscaping. The total project cost is estimated to be \$350,000. The County was originally awarded a grant of \$250,000 for this project from DASNY, which is now being modified to \$350,000. The DASNY grant is sponsored by State Assemblymember Harry B. Bronson.

The specific legislative actions required are:

- 1. Amend Resolution 329 of 2023 to accept an additional \$100,000 from, and to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto with, the Dormitory Authority of the State of New York for the project entitled "Construction of a 9/11 First Responders Memorial at Highland Park," bringing the total award to \$350,000.
- 2. Amend the 2025 Capital Budget to increase funding for the project entitled "Construction of a 9/11 First Responders Memorial at Highland Park" by \$100,000, from \$250,000 to \$350,000, for a total project authorization of \$350,000.
- 3. Amend Bond Resolution 330 of 2023 to increase financing for the project entitled "Construction of a 9/11 First Responders Memorial at Highland Park," capital fund 2085, in the amount of \$100,000, from \$250,000 to \$350,000, for a total authorization of \$350,000.

Monroe County Legislature May 9, 2025 Page 2

This is a Type II action pursuant to 6 NYCCR §617.5(c)(9) ("construction or expansion of a primary or accessory/appurtenant, non-residential structure or facility involving less than 4,000 square feet of gross floor area and not involving a change in zoning or a use variance and consistent with local land use controls, but not radio communication or microwave transmission facilities") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be included in capital fund 2085 once the additional financing authorization herein is approved, and in any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Adam J. Bello

Monroe County Executive
