Subject: Enact a Local Law Entitled “Regulating Sale of Used Catalytic Converters”

Honorable Legislators:

Throughout the past several weeks and months, there has been a noticeable increase in the theft and subsequent scrapping for cash profit of Catalytic Converters throughout Monroe County. These devices, found on almost any automobile, have increased in value dramatically due to the precious minerals contained within them. One mineral, rhodium was valued at $14,500 per ounce by December of 2020, palladium is currently valued at $2,336 per ounce, making these easily removable devices welcome targets for theft.

These devices are being stolen from personal vehicles sitting in driveways, businesses that maintain a fleet of trucks or vans, and even school districts where several were stolen from school busses. This is not just a local trend, across the country there is a dramatic increase in the thefts of these devices. Typically, these items are scrapped for a quick cash profit to fund drug addictions, drug distribution organizations and other criminal activity. This local law will address both the quick cash turnaround incentive for criminals trading in stolen catalytic converters and will require individuals and scrap yards to present and maintain records of the proper documents proving a scrapped catalytic converter came from a legally owned or traded in car and not acquired through a theft.

In order to scrap a catalytic converter, the individual trading in the item must provide documentation such as a vehicle registration, title, or bill of sale, as well as a copy of their valid government I.D., illustrating that the catalytic converter being scrapped came from a legally owned vehicle. Licensed automotive garages must also provide proof that a catalytic converter being scrapped came from a vehicle that was being serviced by their business. To aid law enforcement agencies in the investigations of stolen catalytic converters, scrap yards must maintain copies of these records for a minimum of 3 years, in the event a stolen catalytic converter was scrapped at their business and police need to follow up in the course of their investigation.

The main incentive for these thefts is the ability to make large sums of cash quickly. To address this, scrapyards will now be mandated to wait no fewer than 14 days to issue payment for a scrapped catalytic converter. By eliminating the quick cash incentive for this crime, as was done with high valued items in a similar law passed by this Honorable Body in 2013 pertaining to Pawn Shops, the prevalence of this type of theft is expected to decrease dramatically.
In addition to the new requirements for scrapping and cashing catalytic converters, the penalties for scrapping an illegally obtained catalytic converter will be increased. Under this new law, violators will be charged with a class A misdemeanor, receive a fine of no more than $300 for the first offense, $500 for the second offense, and $1,000 for each subsequent offense.

This local law is an effective and prudent way to deter the theft and scrapping of illegally obtained catalytic converters. In order to repair and replace one of these devices, depending on the size of the vehicle, the cost can range from $500 to $2,000. Monroe County residents and businesses should not have to bear the costs of these thefts. Legislation similar to this proposed law has been passed in West Virginia, South Carolina, and numerous other locations throughout the United States and led to a lower number of catalytic converter thefts. It is our hope that this Honorable Body passes and the County Executive enacts this law expeditiously.

The specific legislative actions required are:

1. Schedule and hold a public hearing on the proposed local law.

2. Adopt the attached Local Law entitled, “Regulating Sale of Used Catalytic Converters” as written.

The legislative action requested in this referral is not an “Action,” as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.

§ 385-2. Legislative Intent.

A. This Legislature hereby finds that the County of Monroe has experienced an increase in thefts of used catalytic converters from vehicles in our community and their resale to scrap metal recyclers.

B. This Legislature finds that requiring scrap metal recyclers doing business in Monroe County to delay payments to sellers of used catalytic converters for at least 14 days after receipt will allow law enforcement additional time to investigate the theft of used catalytic converters and discourage criminal conduct.

§ 385-3. Purpose.

§ 385-6. Maintenance of Records by Scrap Metal Recycler.

A. Each Scrap Metal Recycler who purchases or takes possession of, including for purposes of recycling or rebuilding, a Used Catalytic Converter shall record the purchase of the Used Catalytic Converter documenting the date of purchase, the name of seller, the seller’s address or, in the case that the seller is an individual, the seller’s residence address by street, number, city, village or town, the seller’s driver’s license number or information from a government issued photographic identification card, if any, or by such description as will reasonably locate the seller, or, if the seller is a Repair Shop, the Repair Shop’s New York State Department of Motor Vehicles certification number. Such records shall be available for inspection by any law enforcement agency having jurisdiction over the Scrap Metal Recycler.

§ 385-7. Payments.

Payments by any Scrap Metal Recycler to a business, agency or private citizen who turns in a catalytic converter for scrap will be issued through check, with a copy of the check being held by the Scrap Metal Recycler for three years from the date of disbursement. Such records shall be available for inspection by any law enforcement agency having jurisdiction over the Scrap Metal Recycler.
§385-8. Violations.

A. Any person that violates this Chapter shall: (i) be guilty of a class A misdemeanor; and (ii) upon conviction thereof, shall be punished by a fine not to exceed $300 for the first offense, $500 for the second offense, and $1,000 for each subsequent offense.

B. This Chapter shall be enforced by any local law enforcement agency having jurisdiction over the Scrap Metal Recycler.

If any clause, sentence, paragraph, section or chapter of this local law shall be adjudged by any court of competent jurisdiction to be invalid, such determination shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or chapter thereof directly involved in the proceeding in which such adjudication shall have been rendered. Subject: Enacting a Local Law Entitled “Updating Code of Ethics of the County of Monroe”

Honorable Legislators:

Every member of this Honorable Body serves as an elected, or in some cases appointed, representative of our community. As representatives, we not only represent and advocate for the policies and laws our constituents seek from their government, but also their values, ethics, and moral standards. While ultimately it is our constituents who dictate and set these standards, it is incumbent there is accountability when these are not met and this necessitates the codification of such.

All residents of Monroe County expect and deserve a government that instills public confidence through a high standard of ethics. By setting out set standards and rules that public officials of our County must abide by, and holding individuals accountable when these codes are broken, our community can have the utmost confidence in their elected representatives and their government. These ethical standards must be clear, concise, and address the many facets pertaining to the topic of governmental ethics: conduct, process, and policy.

It is the purpose of this Local Law to revise and update the Monroe County Code of Ethics to ensure the highest standard of ethics is codified, and is executed, within our local government and to ensure accountability for those who fail uphold this degree. Once again, it is the duty of this Honorable Body to represent not only our direct constituents, but also our community as a whole – including the values, ethics and standards expected and deserved.

These reforms to the Monroe County Code of Ethics will strengthen the standards of our local government, ensure all officials, employees and officers of the County have clear standards to uphold, are held accountable for ethical misconduct and represent our community in good-faith and action. Monroe County has always been a leader and we must show this once again in our ethical government representation, processes and actions.

The specific legislative actions required are:

1. Schedule and hold a public hearing on the proposed local law.
2. Enact a Local Law entitled “Updating Code of Ethics of the County of Monroe.”
This is a Type II Action pursuant to 6 NYCRR 617.5(c) (26) ("routine of continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.
