RE: Enact a Local Law Entitled “Gantt’s Law for Utilization of Minority and Women-Owned Businesses”

Honorable Legislators:

Over the years, minority and women-owned business enterprises have struggled to achieve equitable representation in County procurement. Although Monroe County has made good-faith efforts to hold itself to the state and federal guidelines for minority and women-owned business enterprises, there seems to be a lack of follow-through, especially in the area of professional service contracts.

In 2020 alone, this Honorable Body has undertaken several legislative initiatives to expand and promote diversity in County government, including the Diversity Action Plan, which seeks to encourage diverse representation in all County Departments. However, achieving diversity in the County’s workforce is only one part of diversifying County operations. With an over $1 billion dollar budget, Monroe County must also achieve diversity in the money it spend on contracts.

Monroe County must facilitate the elimination of discrimination and racism while providing opportunities to minority and women-owned business enterprises. Monroe County needs to be the leader in the community by taking an active approach to promote opportunities for minority and women-owned business enterprises to bid on County projects and participate in procurement. The County Executive must actively be working with the Chief Diversity Officer, Division of Purchasing and Central Services, and newly created Diversity Action Plan Advisory Committee to ensure that these opportunities are being presented, and that the County is promoting inclusivity in all facets.

Therefore, in the interest of promoting diversity in Monroe County government, we recommend that this Honorable Body enact a Local Law entitled “Gantt’s Law for Utilization of Minority and Women-Owned Businesses.” The purpose of this Local Law is to establish clear guidelines for what constitutes a minority and women-owned business enterprise, create a directory of minority and women-owned business enterprises for use by the County and contractors, expand the use of minority and women-owned business enterprises in all areas of County procurement, institute reporting guidelines, conduct training for minority and women-owned business enterprises, and set new goals for the use of minority and women-owned business enterprises in County procurement.
Much of the language used in this proposed local law was adapted from best practices already established by the State of New York, Suffolk County, and Erie County.

**The specific legislative actions required are:**

1. Schedule and hold a public hearing on the proposed local law.

2. Enact a Local Law entitled “Gantt’s Law for Utilization of Minority and Women-Owned Businesses.”

This is a Type II Action pursuant to 6 NYCRR 617.5(c) and is not subject to review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.

Intro No. ______

LOCAL LAW NO. ____ OF 2020

ENACT A LOCAL LAW ENTITLED "GANTT'S LAW FOR UTILIZATION OF MINORITY AND WOMEN-OWNED BUSINESSES"

BE IT ENACTED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. Resolutions 240 of 2014 and 69 of 1989 are hereby rescinded.

Section 2. Part III, Administrative Local Laws of the Administrative Code and Charter of Monroe County, is hereby amended to add a new chapter to include the following Local Law:

CHAPTER 26, UTILIZATION OF MINORITY AND WOMEN-OWNED BUSINESSES

§ 26-1. Title.

This chapter shall be known as the "Gantt's Law."

§ 26-2. Legislative Intent.

A. This Legislature hereby finds and determines that a need exists within the County of Monroe to recognize and encourage the growth of business enterprises that are owned and operated by women and minorities.

B. This Legislature also finds business enterprises that are owned and operated by women and minorities have struggled to achieve equitable representation in procurement by the County of Monroe.

C. This Legislature also finds that previous policies enacted by the County of Monroe regarding business enterprises that are owned and operated by women and minorities only pertained to construction activities.

D. This Legislature also finds that the County's economy will benefit from the utilization by the County of business enterprises that are owned and operated by women and minorities.

E. This Legislature further finds that both the state and federal governments have instituted programs that facilitate participation in government contracts by business enterprises that are owned and operated by women and minorities.

F. Therefore, the purpose of this article is to ensure that minority- and women-owned business enterprises have sufficient opportunity to participate both directly and indirectly in contracting opportunities with Monroe County.
§ 26-3. Purpose.

e. the County file a complaint with the Director, or the Committee, in the event a contractor is failing or has failed to comply with the minority- and women-owned business enterprise participation requirements set forth in the County contract and no waiver has been granted pursuant to Subsections E and F of this section.

The County may require a contractor to indicate, within a utilization plan, what measures and procedures he or she intends to take to comply with the provisions of this article, but may not require, as a condition of award of or compliance with a contract, that a contractor utilize a particular enterprise in performance of the contract.

D. Without limiting other grounds for the disqualification of bids or proposals on the basis of nonresponsibility, the County may disqualify the bid or proposal of a contractor as being nonresponsible for failure to remedy noted deficiencies in the contractor's utilization plan within a period of time specified in regulations promulgated by the Director, in conjunction with the Committee, after receiving notification of such deficiencies from the County. Where failure to remedy any noted deficiency in the utilization plan is a ground for disqualification, that issue and all other grounds for disqualification shall be stated in writing by the County. Where the County states that a failure to remedy any noted deficiency in the utilization plan is a ground for disqualification, the contractor shall be entitled to an administrative hearing, on a record, involving all grounds stated by the County. Such hearing shall be conducted by the appropriate authority of the County to review the determination of disqualification. A final administrative determination made following such hearing shall be reviewable in accordance with law.

E. Where it appears that a contractor, after making its best efforts, cannot comply with the minority and women-owned business enterprise participation requirements set forth in a particular County contract, a contractor may file a written application with the County requesting a partial or total waiver of such requirements setting forth the reasons for the contractor's inability to meet any or all of the participation requirements and an explanation of the efforts undertaken, by the contractor to obtain the required minority and women-owned business enterprise participation. In implementing the provisions of this section, the County shall consider the number and types of minority and women-owned business located in the County, the total dollar value of the County contract, the scope of work to be performed and the project size and term. Based on such considerations, if the County determines there is not a reasonable availability of contractors on the list of certified businesses to furnish services for the project, it shall issue a waiver of compliance to the contractor. In making such determination, the County shall first consider the availability of other business enterprises located in the County and shall thereafter consider the financial ability of certified businesses located in the County to perform the County contract.

F. For purposes of determining if a contractor has used best efforts to comply with the requirements of this section or is entitled to a waiver, the County shall consider:

1. Whether the contractor has advertised in general circulation media, trade association, and minority-focus, women-focus, and in such event:
a. whether or not certified businesses which have been solicited by the contractor exhibited interest in submitting proposals for a particular project by attending a pre-bid conference; and
b. whether certified businesses which have been solicited by the contractor have responded in a timely fashion to the contractor’s solicitations for timely competitive bid quotations prior to the County’s bid date; and

2. Whether there has been written notification to appropriate certified businesses that appear in the directory of certified businesses prepared pursuant to § 26-5 of this article; and

3. Whether the contractor can reasonably structure the amount of work to be performed under subcontracts in order to increase the likelihood of participation by certified businesses.

G. In the event that the County fails or refuses to issue a requested waiver to a contractor within 30 days of the application therefor pursuant to Subsection E of this section, or if the County denies such application in whole or in part, the contractor may file a complaint with the Director, or the Committee, setting forth the facts and circumstances giving rise to the contractor’s complaint together with a demand for relief. The contractor shall serve a copy of such complaint upon the County by personal service or by certified mail, return receipt requested. The County shall be afforded an opportunity to respond to such in writing.

H. If, after the review of a contractor’s utilization plan or review of a periodic compliance report and after such contractor has been afforded an opportunity to respond to a notice of deficiency issued by the County in connection therewith, it appears that a contractor is failing or refusing to comply with minority and women-owned business enterprise participation requirements as set forth in the County contract and where no waiver from such requirements has been granted, the County may file a written complaint with the Director, or the Committee, setting forth the facts and circumstances giving rise to the County’s complaint together with a demand for relief. The County shall serve a copy of such complaint upon the contractor by personal service or by certified mail, return receipt requested. The contractor shall be afforded an opportunity to respond to such complaint in writing.

§ 26-11. Enforcement

Upon receipt of a complaint by that a contractor has violated the provisions of a County contract, which have been included to comply with the provisions of this article, the Director, in conjunction with the Committee, shall attempt to resolve the matter giving rise to such complaint within 30 days of receipt of the complaint. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the matter shall be immediately referred to the Department of Law for appropriate action, including, but not limited to, withholding payment due under the contract, or cancellation, termination or suspension of the contract in whole or in part.

§ 26-12. Report

The County Executive, or their designee, shall file a report with the County Legislature no later than April 1st of each year, which details the levels of participation for minority and women-owned business enterprise businesses in County contracts for the prior year. The report shall include the name of each project funded, the total dollars spent for the project, and total dollars spent with minority and women-owned businesses, respectively.

If any clause, sentence, paragraph, section or article of this local law shall be adjudged by any court of competent jurisdiction to be invalid, such determination shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or article thereof directly involved in the proceeding in which such adjudication shall have been rendered.

Section 3. This local law shall take effect sixty-days after filing with the Secretary of State pursuant to Section 27 of the New York State Municipal Home Rule Law.

RE: A Local Law to Establish a Temporary Limit on the Charges Imposed by Third-party Delivery Services on Restaurants during the Covid-19 Pandemic

Honorable Legislators:

The Covid-19 pandemic has had a devastating impact on the food service industry, resulting in closures, loss of revenue, layoffs and reduced work hours. This legislation would help restaurants maximize their revenue by temporarily capping commission fees charged by third-party delivery services.

On March 7, 2020 the Governor of the State of New York declared a state of emergency due to the threat posed by Covid-19. On March 14, the Monroe County Executive declared a local state of emergency in response to Covid-19. As of November 4, 2020, New York State has had more than 500,000 cases and nearly 26,000 deaths. Monroe County has had more than 7,000 cases and more than 300 deaths.

The Governor’s “New York State on Pause” executive order identified food service establishments as essential businesses and their employees as essential workers. The social distancing measures required to mitigate the spread of Covid-19, including limited on-premises dining, mean that delivery and takeout options from restaurants are critical to their ability to survive and the public’s access to food.

Due to the Covid-19 pandemic, the public increasingly relies on third-party food delivery service platforms to facilitate online ordering of food from restaurants. These third-party food delivery services charge commission fees to restaurants based on the purchase price of food ordered. The commission fees charged to restaurants can be up to 30 percent or more of the
purchase price. Restaurants, particularly small independently-owned businesses, have little negotiating power to lower commission fees because few third-party food delivery companies exist in the market. Restaurants are faced with a difficult choice: participate in the platforms at a high price or lose out on potential business.

To protect public health, it is critical that restaurants remain open and offer takeout and delivery services. This Local Law, if enacted, would do the following:

- Cap the delivery fee from third-party food delivery services to food service establishments at 15 percent of the purchase price for each online order.
- Cap the third-party food delivery service’s fee for use of their service to 5 percent of the purchase price for an online takeout order or when the food establishment uses their own driver.
- Prohibit third-party food delivery services from reducing the compensation rate paid to a delivery service driver or garnish gratuities in order to comply with the fee caps.

This Local Law would only apply during a declared emergency and for a period 90 days after the end of a declared emergency and only when there are restrictions on on-premises dining at food service establishments.

Third-party food delivery services argue caps on commissions hurt their ability to market the restaurants on their platforms and will lead to reduced business for participating restaurants. However, there is no independent study proving this is true. Furthermore, the caps have the support of restaurant industry associations.

The legislation accomplishes the goal of protecting the health, safety and welfare of Monroe County residents by ensuring restaurants remain open to provide the public with access to food. It also protects small businesses and their workers during a difficult time in our local economy.

The specific legislative actions required are:

1. Schedule and hold a public hearing.
2. Adopt the local law as attached.

This proposal will have no impact on the revenue and/or expenditures of the current Monroe County Budget.

Rachel Barnhart

Intro. No. ______

LOCAL LAW NO. ______ OF 2020

LOCAL LAW ENTITLED "Local Law to Establish a Temporary Limit on the Charges Imposed by Third-party Delivery Services on Restaurants during the Covid-19 Pandemic"

BE IT RESOLVED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. Title
This local law shall be known as the law "To Establish a Temporary Limit on the Charges Imposed by Third-party Delivery Services on Restaurants during the Covid-19 Pandemic."

Section 2. Definitions
"Declared emergency" shall mean the period during which the state disaster emergency has been declared by the Governor of the State of New York or a state of emergency has been declared by the County Executive, such declaration is in effect in the County, and there are restrictions on on-premises dining at restaurants in the County.

"Delivery fee" shall mean a fee charged by a third party food delivery service for providing a restaurant with a service that delivers food from such restaurants to customers. The term does not include any other fee that may be charged by a third-party food delivery service to a restaurant, such as fees for listing or advertising the restaurant on the third-party food delivery service platform or fees related to processing the online order.

"Restaurant" shall have the same meaning as provided in §569-50 of the Monroe County Code.

"Online order" shall mean any order placed by a customer through or with the assistance of a platform provided by a third-party food delivery service, including a telephone order.

"Purchase price" shall mean the total price of the items contained in an online order that are listed on the menu of the restaurant where such order is placed. Such term does not include taxes, gratuities and any other fees that may make up the total cost to the customer of an online order.

"Third-party food delivery service" shall mean any website, mobile application or other internet service that offers or arranges for the sale of food and beverages prepared by, and the same-day delivery and same-day pickup of food and beverages from, restaurants located in the County that are owned and operated by different persons.
Section 3. Fee Limits during Declared Emergencies

1. It shall be unlawful for a third-party food delivery service to charge a restaurant a delivery fee that totals more than 15 percent of the purchase price of each online order.

2. It shall be unlawful for a third-party food delivery service to charge a restaurant any fee or fees other than a delivery fee for the use of their service greater than 5 percent of the purchase price of each online order. Any fees or other charges from a third-party food delivery service to a restaurant beyond such maximum 5 percent fee per order, and a delivery fee collected pursuant to subdivision (1) of this section, are unlawful, provided that such a cap shall not apply to a credit card fee that is charged to a third-party food delivery service and is charged in the same amount by the third-party food delivery service to such restaurant.

3. It shall be unlawful for a person to cause a third-party food delivery platform to reduce the compensation rate paid to a delivery service driver or garnish gratuities in order to comply with this section.

4. The requirements of this section only apply during a declared emergency and for a period of 90 days after the end of a declared emergency.

Section 4. Enforcement

If a third-party food delivery service charges a restaurant fees that violate this Local Law, the restaurant shall provide written notice to the third-party food delivery service requesting a refund within seven days. If the third-party food delivery service provider does not provide the refund requested within seven days or the third-party food delivery service continues to charge fees in violation of this Local Law after the initial notice and seven-day cure period, a restaurant may enforce this Chapter by means of a civil action seeking injunctive relief. The prevailing party in any such action shall be entitled to an award of reasonable attorney fees.

Section 5. Severability

If any clause, sentence, paragraph, section, subdivision or other part of this Local Law or its application shall be adjudged by a Court of competent jurisdiction to be invalid or unconstitutional, such order or judgment shall not affect, impair, or otherwise invalidate the remainder of this Local Law which shall remain in full force and effect except as limited by such order or judgment.

Section 6. Preemption

This section shall be null and void on the day statewide legislation goes into effect, incorporating either the same or substantially similar provisions as are contained in this law, unless state law specifically exempts from preemption earlier enacted local laws in this area. The County Legislature may determine via resolution whether or not identical or substantially similar statewide legislation or pertinent preempting state or federal regulations have been enacted for the purposes of triggering the provisions in this section.
Section 7. **Effective Date**

This Local Law shall take effect in accordance with the provisions of the Municipal Home Rule Law and the Monroe County Charter.

Re: Memorialsing the NYS Assembly, the NYS Senate to Pass A11063 and S9012 respectively, and Governor Andrew Cuomo to Sign and Authorize the “Establish the Child Poverty Reduction Advisory Council to Effectuate a Reduction of Child Poverty in the State”

Honorable Legislators,

There are nearly 3 million people living in poverty in New York State, of whom nearly one third are children. In the city of Rochester, 52% of children live below the poverty line, which is $26,200 for a family of four. Since March, the COVID-19 pandemic has exacerbated the issue with rising unemployment. According to research from the United Hospital Fund, an additional 10,000 children in Monroe County, and 325,000 across New York, fell into poverty between March and July. The virus has hit poor, non-white communities the hardest.

This legislation entitled, “Establish the Child Poverty Reduction Advisory Council to Effectuate a Reduction of Child Poverty in the State” shall allow an advisory council to research policy, ideas, develop best practices and monitor benchmarks to ensure that New York remains on pace to successfully reduce child poverty by fifty percent in ten years. In addition, the advisory council shall develop and publish a timeline, expand and strengthen the state’s earned income tax credit to align with the state’s minimum wage; cover individual taxpayer identification filers, childless adults, include young children, and to eliminate the minimum income threshold. It is expected the advisory council will work to expand work training and employment programs, expand access to subsidized housing vouchers and expand access to subsidized child care. The advisory council shall include the cost to the state in relation to the implementation of such policies, as well as the projected savings in both the short and long term that the state will realize by reducing poverty. The advisory council will also take into consideration the impacts that such
policies would have on racial injustice in New York, mindful that such proposals would not add to current racial disparities.

Therefore, I ask you to join me in memorializing the NYS Assembly, the NYS Senate to pass A11063 and S9012 respectively, and for Governor Andrew Cuomo to sign and authorize the "Establish the Child Poverty Reduction Advisory Council to Effectuate a Reduction of Child Poverty in the State".

Subject: Acceptance of a Grant from the New York State Governor's Traffic Safety Committee for the Comprehensive Toxicology Testing in Driving Under the Influence and Driving Under the Influence of Drugs Program (Office of the Medical Examiner)

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the New York State Governor's Traffic Safety Committee in the amount of $52,545 for the Comprehensive Toxicology Testing in Driving Under the Influence and Driving Under the Influence of Drugs Program for the period of October 1, 2020 through September 30, 2021.

The purpose of this grant is to improve highway safety by expanding the forensic toxicology services provided by the Office of the Medical Examiner's Forensic Toxicology Laboratory ("Tox Lab") in alcohol and drugged driving impairment cases. The Tox Lab provides alcohol and comprehensive drug testing as well as expert testimony in driving impairment cases. This grant will also allow the Tox Lab to perform the research, method development, and validation necessary to expand the scope of its drugged driving testing to include many of the new synthetic opioids and other novel compounds currently being widely abused and to analyze regional trends in drugged driving. In addition, the grant provides training funds to enhance the expertise of analysts when testifying regarding the effects of drugs on driving performance. This will be the ninth year the County has received this grant. This year's funding represents a decrease of $7,125 from last year.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a $52,545 grant from, and to execute a contract and any amendments thereto with, the New York State Governor's Traffic Safety Committee for the Comprehensive Toxicology Testing in Driving Under the Influence and Driving Under the Influence of Drugs Program for the period of October 1, 2020 through September 30, 2021.

2. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
3. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this grant is included in the proposed 2021 operating budget of the Department of Public Health, general fund 9001, funds center 5804020100, Forensic Lab/DUI.

This grant is 100% funded by the New York State Governor’s Traffic Safety Committee. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Amend Resolution 111 of 2016 to Increase the Contract with URMC Labs, a Division of the University of Rochester, for Laboratory Services at Monroe Community Hospital

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 111 of 2016 to increase the contract with URMC Labs, a Division of the University of Rochester, from a total amount not to exceed $240,000 to a total amount not to exceed $1,040,000 to provide COVID-19 testing and laboratory services for residents of Monroe Community Hospital (“MCH”) for the period of April 1, 2020 through March 31, 2021.

Due to the COVID-19 State of Emergency, MCH must adhere to the resident COVID-19 testing regulations set forth by U.S. Centers for Medicare & Medicaid Services. All residents (more than 500) must be tested every three to seven days, for a minimum of fourteen days, after a single positive COVID-19 case within the facility, whether a resident, staff member, or contractor. To ensure appropriate care of its residents, it is necessary that MCH contract with a provider that is able to perform these tests with timely and accurate results.

In addition, the provider must supply a laboratory and technologists who are certified and licensed. URMC Labs has been the provider of laboratory services for MCH residents since 1988. Their past performance with MCH has been exemplary and they have proven their ability to continue the comprehensive laboratory services required by Public Health Law and MCH.

A Request for Proposals was issued for this contract and URMC Labs was the sole respondent.

The specific legislative action required is to amend Resolution 111 of 2016 to increase the contract with URMC Labs, a Division of the University of Rochester, to provide COVID-19 testing and laboratory services for residents of Monroe Community Hospital, from a total amount not to exceed $240,000 to a total amount not to exceed $1,040,000 for the period of April 1, 2020 through March 31, 2021.
This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Subject: Amend Resolution 168 of 2020 to Increase the Contract with Quest Diagnostics Incorporated to Provide Employees and Contractors of Monroe Community Hospital with COVID-19 Testing to Comply with the New York State Governor’s Executive Order 202.30 as it Relates to the COVID-19 State of Emergency

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 168 of 2020 to increase the contract with Quest Diagnostics Incorporated from a total amount not to exceed $1,500,000 to a total amount not to exceed $2,700,000 to provide employees and contractors of Monroe Community Hospital (“MCH”) with COVID-19 testing to comply with the New York State Governor’s Executive Order 202.30, any extensions or modifications thereof pursuant to the COVID-19 State of Emergency, and any other federal, New York State, or local testing requirements for the period of May 20, 2020 through December 31, 2020.

The Governor’s Executive Order 202.30 provides that nursing home employees must be tested twice weekly to help stop the spread of COVID-19 to its vulnerable population. That Executive Order has been amended to require employee testing to once per week. MCH also must comply with U.S. Centers for Medicare and Medicaid Services regulations requiring employee testing, with call for Quest Diagnostics Incorporated to handle the frequency of MCH staff test submissions, currently at approximately 750 tests weekly. MCH must maintain a certain level of staffing to ensure proper resident care and safety.

Funding for 2021 represents a net increase of $172,806 from 2020. The increase is the result of changes in funding among disabilities. In addition, the New York State Office of Addiction Services and Supports increased CFC’s residential programs. For Office for People With Developmental Disabilities New York State decreased funding for workshop programs.

Numerous Requests for Proposals were solicited for these services and the chosen vendors were selected as the most qualified to provide these services.

2. Authorize the County Executive to appropriate any subsequent years of these funds, any returned contractor funds, or any deferred revenue, in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

3. Should funding of these programs be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program(s) and where applicable, to terminate or abolish some or all positions funded under such program(s). Any termination or abolishment of positions shall be in accordance with the New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

Subject: Authorize Contracts with Atlantic Testing Laboratories, Ltd. and Terracon Consultants – NY, Inc. for Material Testing Term Services

Honorable Legislators:

I recommend that Your Honorable Body authorize contracts with Atlantic Testing Laboratories, Ltd. and Terracon Consultants – NY, Inc. in a total annual aggregate amount not to exceed $150,000 for material testing term services for the period of January 1, 2021 through December 31, 2021, with the option to renew for two (2) additional one-year extensions, with escalations for the extensions to be limited to an amount equal to the increase in the previous year’s Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

These contracts will provide Monroe County with material testing and inspection services when it is necessary to determine the quality of the work being performed or subsurface soil conditions. These contracts establish an agreed upon rate for a variety of material testing and inspection services so that when services are required, the County is assured of a timely response to projects. These services will be made available to all County departments.

Monroe County’s Minority and Women-Owned Business Enterprise (“M/WBE”) Policy is set by the Monroe County Legislature pursuant to Resolution 69 of 1989, as amended by Resolution 240 of 2014. M/WBE utilization was not a selection criteria. However, Atlantic Testing Laboratories, Limited, which was one of the two (2) entities rated most qualified to provide these services, is a Women Business Enterprise and listed in New York State’s M/WBE Directory of Certified Firms. Terracon Consultants - NY, Inc., the other entity rated most qualified, is not listed in New York State’s M/WBE Directory of Certified Firms, but will partner with the following M/WBE certified firms pursuant to its contract: Foi Albert Associates Architecture, Engineering and Surveying, P.C. and 3rd Rock, LLC.

The specific legislative action required is to authorize the County Executive, or his designee, to execute contracts, and amendments thereto, with Atlantic Testing Laboratories, Ltd. 3495 Winton Place, Bldg. B, Suite 4A, Rochester New York 14623, and Terracon Consultants – NY, Inc. 15 Marway Circle, Suite 2B, Rochester, New York 14624, for material testing term services in a total annual aggregate amount not to exceed $150,000 for the period of January 1, 2021 through December 31, 2021, with the option to renew for two (2) additional one-year extensions, with escalations for the extensions to be limited to an amount equal to the increase in the previous year’s Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).
This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part"); (26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment"); and (27) ("conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action") and is not subject to further review under the State Environmental Quality Review Act.

Funding for these contracts, consistent with authorized uses, is included in various capital fund(s), and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Atlantic Testing Laboratories, Ltd., Terracon Consultants – NY Inc., nor any of their principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firms are:

Atlantic Testing Laboratories, Ltd
Marie Jean B. Remington, CEO
James J. Kuhn, President
Scott M. McCasland, Vice President

Terracon Consultants – NY Inc.
David R. Gaboury, CEO
Swaminthan Srinivasan, President

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize a Contract with Clean Harbors Environmental Services, Inc., to Collect, Transport, and Dispose of Household Hazardous Waste to Support the Monroe County Pure Waters Industrial Waste Program

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Clean Harbors Environmental Services, Inc. in an annual amount not to exceed $350,000 to collect, transport, and dispose of household hazardous waste ("HHW") to support the Monroe County Pure Waters Industrial Waste Program for the period of January 1, 2021 through December 31, 2021, with the option to renew for two (2) additional one-year extensions, with escalations for the extensions to be limited to an amount equal to the increase in the previous year's Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

The Department of Environmental Services has operated a HHW collection program since 1991. The collection program provides residents of Monroe County with an economical, convenient, and environmentally sound disposal option for their unwanted, out-dated, or banned pesticides, solvents, cleaners, oil base paints and other materials that contain potentially harmful constituents. Since 1991, nearly 6,109 tons of household hazardous waste have been collected and approximately 142,900 County residents served. The HHW collection program is operated at the Ecopark on 10 Avion Drive.

This contract will provide the services needed to continue the HHW collection program including the following components: applicable local, state, and federal permitting and reporting requirements, furnishing of all equipment and supplies to package wastes for transport and disposal; technical staff to operate the facility on collection days to determine chemical hazards; and provide for final disposal of wastes by environmentally sound methods in full compliance with all local, state, and federal laws.

Monroe County's Minority and Women-Owned Business Enterprise ("M/WBE") Policy is set by the Monroe County Legislature pursuant to Resolution 69 of 1989, as amended by Resolution 240 of 2014. A Request for Proposals ("RFP") was issued for this contract. M/WBE utilization was not a selection criteria under this RFP, but I have directed the Division of Purchasing and Central Services and all Department Heads to include M/WBE utilization as a selection criteria in all RFPs, Requests for Qualifications, and Expressions of Interest going forward. Clean Harbor Environmental Services, Inc. was rated the most qualified, but is not listed in New York State's M/WBE Directory of Certified Firms. However, Clean Harbor supports a Corporate Small Business Supplier Development Program, through which it set an annual goal of over $22 million in projected subcontracting with Woman Owned Small Businesses and $32 million in projected subcontracting with Small Disadvantaged Businesses in 2020.
The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Clean Harbors Environmental Services, Inc., 6057 Corporate Drive, East Syracuse New York 13057, to collect, transport, and dispose of household hazardous waste to support the Monroe County Pure Waters Industrial Waste Program in an annual amount not to exceed $350,000 for the period of January 1, 2021 through December 31, 2021, with the option to renew for two (2) additional one-year extensions, with escalations for the extensions to be limited to an amount equal to the increase in the previous year’s Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

Subject: Authorize a Contract with Clean Harbors Environmental Services, Inc. to Collect, Transport, and Dispose of Household Hazardous Waste to Support the Monroe County Pure Waters Industrial Waste Program

Honorable Legislators:

I recommend that the Administrative Boards of the Gates-Chili-Ogden Sewer District, Irondequoit Bay South Central Pure Waters District, Northwest Quadrant Pure Water District and the Rochester Pure Waters District authorize a contract with Clean Harbors Environmental Services, Inc., in an annual amount not to exceed $350,000 to collect, transport, and dispose of household hazardous waste ("HHW") to support the Monroe County Pure Waters Industrial Waste Program for the period of January 1, 2021 through December 31, 2021, with the option to renew for two (2) additional one-year extensions, with escalations for the extensions to be limited to an amount equal to the increase in the previous year's Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

The Department of Environmental Services has operated a HHW collection program since 1991. The collection program provides residents of Monroe County with an economical, convenient, and environmentally sound disposal option for their unwanted, out-dated, or banned pesticides, solvents, cleaners, oil base paints and other materials that contain potentially harmful constituents. Since 1991, nearly 6,109 tons of household hazardous waste have been collected and approximately 142,900 County residents served. The HHW collection program is operated at the Ecopark on 10 Avion Drive.

This contract will provide the services needed to continue the HHW collection program including the following components: applicable local, state, and federal permitting and reporting requirements; furnishing of all equipment and supplies to package wastes for transport and disposal; technical staff to operate the facility on collection days to determine chemical hazards; and provide for final disposal of wastes by environmentally sound methods in full compliance with all local, state, and federal laws.

Monroe County's Minority and Women-Owned Business Enterprise ("M/WBE") Policy is set by the Monroe County Legislature pursuant to Resolution 69 of 1989, as amended by Resolution 240 of 2014. A Request for Proposals ("RFP") was issued for this contract. M/WBE utilization was not a selection criteria under this RFP, but I have directed the Division of Purchasing and Central Services and all Department Heads to include M/WBE utilization as a selection criteria in all RFPs, Requests for Qualifications, and Expressions of Interest going forward. Clean Harbor Environmental Services, Inc. was rated the most qualified, but is not listed in New York State's M/WBE Directory of Certified Firms. However, Clean Harbor supports a Corporate Small Business Supplier Development Program, through which it set an annual goal of over $22 million in projected subcontracting with Woman Owned Small Businesses and $22 million in projected subcontracting with Small Disadvantaged Businesses in 2020.

Subject: Authorize a Contract with Bergmann Associates, Architects, Engineers, Landscape Architects & Surveyors, D.P.C. for Professional Design Services for the Monroe County Climate Action Plan

I recommend that Your Honorable Body authorize a contract with Bergmann Associates, Architects, Engineers, Landscape Architects & Surveyors, D.P.C. in the amount of $97,820 for professional design services for the Monroe County Climate Action Plan ("CAP") for the period of January 1, 2021 through December 31, 2021, with the option to extend for one (1) year at no additional cost.

Monroe County has long been a leader in innovative sustainability policy that has been both environmentally friendly and cost effective. The County has demonstrated its environmental leadership in the areas of green buildings, green fleet, solar/alternative power, LED lighting, resource recovery, and public education and outreach.

Protecting our environment is key to maintaining our quality of life and preserving our natural resources for future generations. Many communities across the country have developed CAPs to coordinate and centralize environmental policy, projects and initiatives. Per Resolution 167 of 2020, Your Honorable Body created the Climate Action Plan Advisory Committee with the charge of developing a CAP for the County. The next step in developing a CAP for Monroe County is to retain a consultant to perform project tasks and generate project deliverables in a phased approach. Phase I will focus on County operations only. Phase II will encompass the County’s boundary with broad community engagement.

Monroe County’s Minority and Women-Owned Business Enterprise ("M/WBE") Policy is set by the Monroe County Legislature pursuant to Resolution 69 of 1989, as amended by Resolution 240 of 2014. Funding for this contract, consistent with authorized uses, is included in the proposed 2021 operating budget of the Department of Environmental Services, general fund 9001, funds center 8301010000, Engineering Administration. No additional net County support is required in the current Monroe County budget.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the sale of the property and does not include the physical alteration nor disturbance of the property. Although wetlands exist on the site, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for Wetlands from state and federal regulatory bodies. It has been determined that no significant adverse environmental impacts from this action will occur.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

PURE WATERS ADMINISTRATIVE BOARD OF THE
GATES-CHILI-OGDEN SEWER DISTRICT

Intro. No. ___

RESOLUTION NO. ___ OF 2020

ESTABLISHING SCALE OF CHARGES FOR GATES-CHILI-OGDEN SEWER DISTRICT,
COUNTY SEWER DISTRICT FOR COUNTY OF MONROE, NEW YORK

WHEREAS, the Administrative Board of the Gates-Chili-Ogden Sewer District has, pursuant to §266 of the County Law of the State of New York, established a scale of charges for the operation and maintenance of facilities of the District and setting proportionate factors of surcharge for the treatment of industrial wastes and sewerage received by the District; and

WHEREAS, the Administrative Board of the Gates-Chili-Ogden Sewer District has, pursuant to §266 of the County Law of the State of New York, and Resolution Nos. 417 and 418 of 1973, and Resolution No. 449 of 1976, called a public hearing, said hearing having been held on the ___ day of December, 2020, at ___ p.m. ET.

NOW, THEREFORE, BE IT RESOLVED BY THE PURE WATERS ADMINISTRATIVE BOARD OF THE GATES-CHILI-OGDEN SEWER DISTRICT, as follows:

Section 1.

SCALE OF CHARGES

These Scales of Charges shall be effective commencing January 1, 2021.

GATES-CHILI-OGDEN SEWER DISTRICT
Operation and Maintenance Charge

$2.865 per 1,000 gallons of water consumption (see Notes 1-3).

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2021 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2020 will be billed at 60,000 gallons per unit for the user charge commencing January 1, 2021. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.
**NEW USER CONNECTION FEES**

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Gates-Chili-Ogden Sewer District:
- $300.00 per connection - residential
- $400.00 per connection - non-residential

**SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS**

The owner or lessee of any parcel of real property connected with the District's Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

\[
\text{S.F.} = \frac{a(BOD-300)}{300} + \frac{b(SS-300)}{300} + \frac{d(P-10)}{10}
\]

**Definitions:**

- **S.F.** = Surcharge Factor.
- **BOD** = Milligrams per liter of Biochemical Oxygen Demand, as defined in Section 2.12 of the Monroe County Sewer Use Law.
- **SS** = Milligrams per liter of Suspended Solids, as defined in Section 2.55 of the Monroe County Sewer Use Law.
- **P** = Milligrams per liter of Phosphorus, as defined in Section 2.33 of the Monroe County Sewer Use Law.
- **a** = Proportionate cost to treat a lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.
- **b** = Proportionate cost to treat a lb. of Suspended Solids (SS) and is established at 0.505.
- **d** = Proportionate cost to treat a lb. of Phosphorus (P) and is established at 0.025.

**OTHER CHARGES - WHERE APPLICABLE**

**A. Application Fees for Licenses or Permits under the Sewer Use Law**

1. Initial Application for License or Permit (3 Year) $125.00
2. Renewal License or Permit Applications (3 Year) $75.00

<tr>
<td>Many of the systems in the existing jail are original to the facility's construction and are over 45 years old, operating well beyond their life expectancy. There have also been recent changes in State Legislation such as bail reform, centralized arraignment and Raise the Age. These potential physical limitations and regulatory requirements, as well as recent public health issues such as COVID-19, in addition to a renewed national focus on social justice, drive the need to ensure that outdated facilities do not limit the Sheriff's and County's ability to adapt and align incarceration and criminal justice programming with contemporary and constantly evolving expectations.</td>
</tr>
</tbody>
</table>

This project will progress through several phases, commencing with a pre-planning effort, which will assess physical and programmatic needs, population projections, and stakeholder requirements. Upon acceptance by the Sheriff's Office of a conceptual plan for Jail Mainframe Reconstruction, facilities, design, construction, commissioning and occupancy will occur. This phase of the project involves the development of a needs assessment, project definition, stakeholder engagement, an implementation plan, site review processes and preparation of conceptual plans.

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency’s reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:
- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “Yes” to a numbered question, please complete all the questions that follow in that section.
- If you answer “No” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form

Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact.
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The project is anticipated to include replacing, rehabilitating, and/or reconstructing the jail mainframe, which is approximately 270,000 square feet, on the same site as the current jail mainframe. Based upon review and consideration of Parts 1 and 2 of the Full Environmental Assessment form, the New York State Cultural Resource Information System (CRIS), and City of Rochester zoning code and maps, this proposed action will not result in any significant adverse environmental impacts based on the following reasons.

First, if the jail mainframe is replaced and/or reconstructed, the construction may involve physically altering the land. However, this impact, if any, would be small because there is already a structure located on this site and the soil is previously disturbed urban fill. Alternatively, if the jail mainframe is rehabilitated, there will no impacts to land.

Second, although the site is located across the street from historic buildings and a historic district and is within an archaeological sensitive area (a designation which includes a majority of the City of Rochester), the Monroe County Civic Center was surveyed as part of the Rochester Historic Resources Survey: Southwest Quadrant & Downtown in 2019, which determined that the Civic Center is not eligible for listing on the New York State or National Registers of Historic Places. Moreover, the project site was previously disturbed, including during the construction of the current jail mainframe, and therefore is unlikely to yield archaeological resources. In the event archaeological resources are discovered during construction, however, construction will be suspended until any substantial adverse impact is avoided or mitigated.

Last, because the project is anticipated to include replacing, rehabilitating, and/or reconstructing the jail mainframe that is currently located on the site, the project will have small or no impacts on geological features, surface water, groundwater, flooding, air, plants and animals, agricultural resources, aesthetic resources, open space and recreation, critical environmental areas, transportation, energy, human health, and community plans/character. The project may have temporary impacts to noise, odor, and/or light during the construction period, but these impacts, if any, will be limited to typical construction hours and therefore will have a minor, if any, impact on the environment.

Determination of Significance - Type 1 and Unlisted Actions

| SEQR Status: | ☑ Type 1 ☐ Unlisted |

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the Monroe County

☐ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

RESOLUTION NO. ___ OF 2020

ESTABLISHING SCALE OF CHARGES FOR ROCHESTER PURE WATERS DISTRICT, COUNTY SEWER DISTRICT FOR COUNTY OF MONROE, NEW YORK

WHEREAS, the Administrative Board of the Rochester Pure Waters District has, pursuant to §266 of the County Law of the State of New York, established a scale of charges for the operation and maintenance of facilities of the District and setting proportionate factors of surcharge for the treatment of industrial wastes and sewerage received by the District; and

WHEREAS, the Administrative Board of the Rochester Pure Waters District has, pursuant to §266 of the County Law of the State of New York and Resolution No. 502 of 1971, as amended by Resolution No. 337 of 1974, called a public hearing, said hearing having been held on the ___ day of December, 2020, at ___ p.m. ET.

NOW, THEREFORE, BE IT RESOLVED BY THE PURE WATERS ADMINISTRATIVE BOARD OF THE ROCHESTER PURE WATERS DISTRICT, as follows:

Section 1.

SCALE OF CHARGES

These Scales of Charges shall be effective commencing January 1, 2021.

ROCHESTER PURE WATERS DISTRICT

Operation and Maintenance Charge

$2.4700 per 1,000 Gallons of water consumption (see Notes 1-3).

CHARGES FOR RPWD ZONE 2: No Charge - Operation and Maintenance not provided.

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2021 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2020 will be billed at 60,000 gallons per unit for the user charge separately commencing January 1, 2021. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.
NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Rochester Pure Waters District:

$300.00 per connection – residential *

$400.00 per connection – non-residential *

* For the RPWD a storm and sanitary sewer connection will be considered one connection when made at the same time.

SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS

The owner or lessee of any parcel of real property connected with the District’s Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

\[ \text{S.F.} = \frac{a(BOD-300)}{300} + \frac{b(SS-300)}{300} + \frac{d(P-10)}{10} \]

Definitions:

S.F. = Surcharge Factor.

BOD = Milligrams per liter of Biochemical Oxygen Demand, as defined in Section 2.12 of the Monroe County Sewer Use Law.

SS = Milligrams per liter of Suspended Solids, as defined in Section 2.55 of the Monroe County Sewer Use Law.

Per Resolution 6 of 2020, Your Honorable Body accepted a grant from the New York State Division of Criminal Justice Services for the Finger Lakes Regional Youth Justice Team Grant Program. Coordinated Care Services, Inc. was rated the most qualified to provide trauma informed training, but is not listed in New York State’s M/WBE Directory of Certified Firms.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with the Board of Regents of the University of Oklahoma Health Sciences Center, 865 Research Parkway, Suite 450, Oklahoma City, Oklahoma 73104 for the Oklahoma Model Treatment Modality Training in the Problematic Sexual Behavior – Cognitive Behavior – Adolescent Treatment Program in an amount not to exceed $70,000 for the period of January 1, 2021 through December 31, 2021.

2. Authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Coordinated Care Services, Inc., Water Tower Park, 1099 Jay Street, Building J, Rochester, New York 14611 for trauma informed training, in an amount not to exceed $70,000 for the period of January 1, 2021 through December 31, 2021.
This action is a Type II Action pursuant to 6 NYCRR § 617.5(c) and is not subject to review under the State Environmental Quality Review Act.

Funding for these contracts is included in the 2020 operating budget of the Department of Public Safety, general fund 9300, funds center 2403010000 Probation/Community Corrections Administration. No additional net County support is required in the current Monroe County budget.

Coordinated Care Services, Inc. is a not-for-profit agency and the records in the Office of the Monroe County Treasury have indicated that it does not owe any delinquent Monroe County property taxes.

Subject: Classification of Action, Designation of Lead Agency, and Determination of Significance, Pursuant to State Environmental Quality Review Act for Jail Mainframe Reconstruction Project

Honorable Legislators:

I recommend that Your Honorable Body designate Monroe County as Lead Agency for the Jail Mainframe Reconstruction Project and determine whether the action may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act (SEQRA).

The jail mainframe was originally constructed in 1968 and is approximately 270,000 square feet. Many of the systems in the jail mainframe are original and beyond their useful life. There have also been recent changes in State Legislation such as bail reform, centralized arraignment and Raise the Age. These potential physical limitations and regulatory requirements, as well as recent public health issues such as COVID-19, in addition to a renewed national focus on social justice, drive the need to ensure that outdated facilities do not limit the ability of the Sheriff’s Office to adapt and align incarceration and criminal justice programming with the changes in State Legislation.

This project will progress through several phases, commencing with a pre-planning effort, which will assess physical and programmatic needs, population projections, and stakeholder requirements. Upon acceptance by the Sheriff’s Office of a conceptual plan for Jail Mainframe Reconstruction, facilities, design, construction, commissioning and occupancy will occur.

The Jail Mainframe Reconstruction Project has been preliminarily classified as a Type I action pursuant to 6 NYCRR § 617.4(b)(6)(iv). The SEQRA regulations found at 6 NYCRR Part 617 requires that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.
The specific legislative actions required are:

1. Determine that the Jail Mainframe Reconstruction Project is a Type I Action.

2. Designate Monroe County as Lead Agency for a coordinated review of the Jail Mainframe Reconstruction Project.

3. Make a determination of significance of the Jail Mainframe Reconstruction Project pursuant to 6 NYCRR § 617.7.

4. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This designation will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

**Tips for completing Part 2:**
- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “Yes” to a numbered question, please complete all the questions that follow in that section.
- If you answer “No” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form

Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:
To complete this section:
- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact.
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The project is anticipated to include replacing, rehabilitating, and/or reconstructing the jail mainframe, which is approximately 270,000 square feet, on the same site as the current jail mainframe. Based upon review and consideration of Parts 1 and 2 of the Full Environmental Assessment form, the New York State Cultural Resource Information System (CRIS), and City of Rochester zoning code and maps, this proposed action will not result in any significant adverse environmental impacts based on the following reasons.

First, if the jail mainframe is replaced and/or reconstructed, the construction may involve physically altering the land. However, this impact, if any, would be small because there is already a structure located on this site and the soil is previously disturbed urban fill. Alternatively, if the jail mainframe is rehabilitated, there will no impacts to land.

Second, although the site is located across the street from historic buildings and a historic district and is within an archaeological sensitive area (a designation which includes a majority of the City of Rochester), the Monroe County Civic Center was surveyed as part of the Rochester Historic Resources Survey; Southwest Quadrant & Downtown in 2019, which determined that the Civic Center is not eligible for listing on the New York State or National Registers of Historic Places. Moreover, the project site was previously disturbed, including during the construction of the current jail mainframe, and therefore is unlikely to yield archaeological resources. In the event archaeological resources are discovered during construction, however, construction will be suspended until any substantial adverse impact is avoided or mitigated.

Last, because the project is anticipated to include replacing, rehabilitating, and/or reconstructing the jail mainframe that is currently located on the site, the project will have small or no impacts on geological features, surface water, groundwater, flooding, air, plants and animals, agricultural resources, aesthetic resources, open space and recreation, critical environmental areas, transportation, energy, human health, and community plans/character. The project may have temporary impacts to noise, odor, and/or light during the construction period, but these impacts, if any, will be limited to typical construction hours and therefore will have a minor, if any, impact on the environment.

Upon review of the information recorded on this EAF, as noted, plus this additional support information
CRIS, City of Rochester Zoning Code,

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
Monroe County as lead agency that:

☐ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact
statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or
substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative
declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact
statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those
impacts. Accordingly, this positive declaration is issued.

Subject: Authorize a Contract with LaBella Associates, D.P.C. for Professional Design Services for the Jail Mainframe Reconstruction Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with LaBella Associates, D.P.C., in the amount of $217,795, for professional design services for the Jail Mainframe Reconstruction Project.

The jail mainframe was originally constructed in 1968. Many of the systems in the jail mainframe are original and beyond their useful life. There have also been recent changes in State Legislation such as bail reform, centralized arraignment and Raise the Age. These potential physical limitations and regulatory requirements, as well as recent public health issues such as COVID-19, in addition to a renewed national focus on social justice, drive the need to ensure that outdated facilities do not limit the ability of the Sheriff’s Office to adapt and align incarceration and criminal justice programming with the changes in State Legislation. Your Honorable Body approved the capital project entitled Jail Mainframe Reconstruction per Resolution 254 of 2019.

This project will progress through several phases, commencing with a pre-planning effort, which will assess physical and programmatic needs, population projections, and stakeholder requirements. Upon acceptance by the Sheriff’s Office of a conceptual plan for Jail Mainframe Reconstruction, facilities, design, construction, commissioning and occupancy will occur. This phase of the project will involve the development of a needs assessment, project definition, stakeholder engagement, an implementation plan, site review processes and preparation of conceptual plans. LaBella Associates, D.P.C. proposes to provide basic design services for this phase in the amount of $217,795.

Monroe County’s Minority and Women-Owned Business Enterprise (“M/WBE”) Policy is set by the Monroe County Legislature pursuant to Resolution 69 of 1989, as amended by Resolution 240 of 2014. M/WBE utilization was a selection criteria. None of the three (3) respondents were a M/WBE certified firm, but each respondent’s project team included both Women and Minority Owned Business Enterprises. Accordingly, all three (3) respondents scored a two (2) for M/WBE utilization. LaBella Associates, D.P.C., which was rated the most qualified to provide these services, will partner with the following M/WBE certified firms pursuant to this contract: Ravi Engineering & Land Surveying, P.C.; Popi Design Group; D2D Green Architecture, PLLC; and Environmental Design & Research, Landscape Architecture, Engineering & Environmental Services, D.P.C.
The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with LaBella Associates, D.P.C., 300 State Street, Suite 201, Rochester, New York 14614, in the amount of $217,795 for professional design services for the Jail Mainframe Reconstruction Project, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

The provisions of the New York State Environmental Quality Review Act shall be complied with prior to Your Honorable Body undertaking, funding, or approving the action requested in this referral.

Funding for this contract, consistent with authorized uses, is included in capital fund 1940 and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither LaBella Associates, D.P.C., nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Steven Metzger, Chief Executive Officer
Jeffrey Roloson, President
Robert Pepe, Chief Financial Officer

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Subject: Amend the 2020-2025 Capital Improvement Program and the 2020 Capital Budget to Add a Project Entitled “Monroe Community College Combined Heat and Power Plant Improvements” and Authorize Financing for the Project

Honorable Legislators:

I recommend that Your Honorable Body amend the 2020-2025 Capital Improvement Program and the 2020 Capital Budget to add a project entitled “Monroe Community College Combined Heat and Power Plant Improvements,” in the amount of $1,300,000; and authorize financing for the project in the amount of $1,300,000.

The Combined Heat and Power (“CHP”) Plant, also known as a Cogen Plant, was constructed at Monroe Community College’s Brighton Campus in 2003. Major components of the CHP, specifically the generators, are at approximately fifty percent of their useful life. Comprehensive overhauls are required to ensure continued reliable operation of the electrical generation equipment. In addition, the supervisory control and data acquisition system is obsolete, with hardware components no longer being manufactured. Improvements will include upgrades to the electronic modular control panels, switchgear upgrades, equipment monitoring hardware, engine and generator overhauls, inspections, testing and commissioning.

Partial reimbursement for project costs will be provided by SUNY and partial reimbursement for annual debt service will be provided by Monroe Community College.

This project is scheduled to be considered by the Monroe County Planning Board on October 29, 2020.

The specific legislative actions required are:

1. Amend the 2020-2025 Capital Improvement Program to add a project entitled “Monroe Community College Combined Heat and Power Plant Improvements,” in the amount of $1,300,000.

2. Amend the 2020 Capital Budget to add a project entitled “Monroe Community College Combined Heat and Power Plant Improvements,” in the amount of $1,300,000.

3. Authorize financing for the project entitled “Monroe Community College Combined Heat and Power Plant Improvements,” in the amount of $1,300,000.
This action is a Type II Action pursuant to 6 NYCRR §617.5(c) and is not subject to review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be included in the capital fund to be created and any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Section 1. For the object or purpose of financing the cost of MCC combined heat and power plant improvements in and for the County of Monroe, New York (the "County"), there are hereby authorized to be issued $1,300,000 bonds of the County, pursuant to the provisions of the Local Finance Law. Such bonds or notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Director of Finance - Chief Financial Officer, consistent with the provisions of the Local Finance Law. The Director of Finance - Chief Financial Officer may, in the event it is determined to issue variable rate bonds or notes, enter into such agreements as said officer finds reasonable to facilitate the issuance, sale, resale and repurchase of such bonds or notes, as authorized under Section 54.90 of the Local Finance Law.
The Director of Finance - Chief Financial Officer is also authorized to enter into such agreements and take such other action as may be necessary or appropriate and lawful to assure that, to the extent possible, (i) interest on the bonds and notes authorized hereby will not be includable in the gross income, for federal income tax purposes, of the recipients thereof; and (ii) to enable the purchaser thereof to comply with Securities and Exchange Commission Rule 15c2-12. The Director of Finance - Chief Financial Officer is hereby further delegated all powers of this County Legislature with respect to agreements for credit enhancement, derived from and pursuant to Section 168.00 of the Local Finance Law, for such bonds or notes, including, but not limited to the determination of the provider of such credit enhancement facility or facilities and the terms and contents of any agreement or agreements related thereto.

Section 5. All other matters, except as provided herein, relating to such bonds or notes, including prescribing whether manual or facsimile signatures shall appear on said bonds or notes, prescribing the method for the recording of ownership of said bonds or notes, appointing the fiscal agent or agents for said bonds or notes, providing for the printing and delivery of said bonds or notes (and if said bonds or notes are to be executed in the name of the County by only facsimile signatures, providing for the manual countersignature of a fiscal agent or of a designated official of the County), the date, form, denominations, maturities, interest rate or rates, terms of and manner of sale and interest payment dates, place or places of payment, and also including the consolidation with other issues, shall be determined by the Director of Finance - Chief Financial Officer. Such bonds or notes shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals, in addition to those required by Section 52.00 of the Local Finance Law, as the Director of Finance - Chief Financial Officer shall determine.

Section 6. The validity of such bonds and bond anticipation notes, as authorized by this resolution, may be contested only if:

1) such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or

2) the provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with, and an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or

3) such obligations are authorized in violation of the provisions of the Constitution.

Section 7. This resolution shall constitute a statement of official intent for purposes of Section 1.150-2 of the Treasury Regulations. Other than as specified in this resolution, no monies are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the objects or purposes described herein.

The purpose of this grant award is for testing, staffing and PPE in response to coronavirus, essential for protecting frontline healthcare workers and ensuring continued maintenance of operations. The grant award agreement calls for Monroe Community Hospital, in connection with receiving the grant funds, to agree that it will not use the payments to reimburse expenses that have been reimbursed from other sources, or that other sources are obligated to reimburse.

2. Amend the 2020 operating budget of Monroe Community Hospital by appropriating the sum of $830,700 into hospital fund 9012, funds center 6201010000, MCH Administration.

3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within grant guidelines to meet contractual commitments.

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c) and is not subject to review under the State Environmental Quality Review Act.

This grant is 100% funded by the U.S. Department of Health and Human Services, CARES Act Provider Relief Fund – HHS Stimulus, August Distribution. No net County support is required in the current Monroe County budget.

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Honorable Legislators:

I am submitting for your consideration and approval the proposed 2021 operating budget for Monroe County.

This is the first budget that I am submitting as Monroe County Executive, and one that is presented amidst the COVID-19 pandemic and all the challenges that continue to confront our community. Nevertheless, we have put together a responsible, realistic budget that tackles our financial issues head-on, is responsive to lingering uncertainties and positions us better for our future. The budget complies with the Monroe County Taxpayer Protection Act and the New York State property tax cap.

Overall, the 2021 proposed budget calls for $1.237 billion in spending, an increase of just $4.7 million or 0.4% over the adopted 2020 budget, well below the 1.4% rate of inflation. Additionally, the proposed budget reduces the tax rate by $0.26 to $8.53 per $1,000 assessed value, which is the largest decrease in the County tax rate in almost 20 years.

We have done all this while also changing budgetary tactics used by previous administrations. We will no longer include the “Snow Tax,” a below-the-line fee that removed the cost for snow and ice removal on County roads, from the general levy. Instead, it has been returned to the tax levy where it belongs. Additionally, we are phasing out the sale of delinquent tax liens, which were once used to bolster revenue during difficult budget years but worsened problems with vacant homes in neighborhoods throughout Monroe County.

The 2021 County budget makes new and critical investments in vital County services and programs while remaining mindful of the lingering effects of COVID-19. Many of our priorities in this year’s spending plan were outlined in the Monroe County Transition Report. Released on February 11, 2020, the Transition Report was the first community-stakeholder driven effort for County government in over 30 years. It represents the input of over 130 committee members who helped to identify critical issues for my administration to confront and features 235 recommended strategies to address those issues.

As part of my commitment to creating a more equitable and diverse County government, the proposed budget fully funds the newly created Department of Diversity, Equity and Inclusion, which will be led by a Chief Diversity Officer. This department will assist all other County departments and offices with recruitment and retention of employees from historically underrepresented communities. It will also work to improve our MWBE selection procedures, and investigate internal complaints of discrimination, harassment, hostile work environment, and unequal treatment.
We are also making a significant investment in our efforts to combat the opioid crisis and addiction services throughout Monroe County. We recently hired Monroe County’s first ever Addiction Services Director to lead the Improving Addiction and Coordination Team (IMPACT). The eight-member IMPACT team will operate out of the Monroe County Department of Public Health, and will coordinate services and care for this multi-faceted program.

Lastly, we are ensuring that our children and families have the resources they need to succeed in our community. We have expanded the Early Intervention services program staff to provide more support for children with special needs, improved transportation services for pre-school special education students and fully funded all child protective service staff positions.

We remain mindful of the continued effects the COVID-19 pandemic will have on our local economy in 2021. The proposed budget appropriates $11.6 million in fund balance to help cover some of the anticipated revenue losses for next year, with the anticipation that revenue sources like sales tax and state aid will rebound.

As you can see, the 2021 County budget will serve as our blueprint as we continue to respond and recover from the COVID-19 pandemic, while also responding to the call of action from the Monroe County Transition Report. While being mindful of our uncertainties, we have still been able to make new and critical investments in vital County services and programs.

I am incredibly proud of the work my administration has done in the face of uncertainty. The 2021 proposed Monroe County budget not only embraces fiscal discipline, it also puts the needs and priorities of our community at the forefront. I am confident that our community will be stronger and better as we continue to respond to and recover from the COVID-19 pandemic and the impact it has had on our entire community.

The specific legislative actions required are:

1. Pursuant to Section C4-3 of the Monroe County Charter, schedule a public hearing on the 2021 Monroe County Budget and direct the Clerk of the Legislature to cause notice of said public hearing to be published at least once in one or more daily newspapers of general circulation in the County at least five (5) days before the date of said hearing and to cause a summary of said budget, as attached hereto, to be published with said notice.

2. Pursuant to Section C4-4 of the Monroe County Charter, adopt the Monroe County 2021 Budget after said public hearing having been held.

3. Establish the 2021 Classification, Compensation and Salary Schedule for employees of the County of Monroe, as contained in the 2021 Monroe County Budget.

I recommend that this matter receive favorable action by Your Honorable Body.

Sincerely,

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Honorable Legislators:

I am submitting for your consideration and approval the proposed 2021 operating budget for Monroe County.

This is the first budget that I am submitting as Monroe County Executive, and one that is presented amidst the COVID-19 pandemic and all the challenges that continue to confront our community. Nevertheless, we have put together a responsible, realistic budget that tackles our financial issues head-on, is responsive to lingering uncertainties and positions us better for our future. The budget complies with the Monroe County Taxpayer Protection Act and the New York State property tax cap.

Overall, the 2021 proposed budget calls for $1.237 billion in spending, an increase of just $4.7 million or 0.4% over the adopted 2020 budget, well below the 1.4% rate of inflation. Additionally, the proposed budget reduces the tax rate by $0.26 to $8.53 per $1,000 assessed value, which is the largest decrease in the County tax rate in almost 20 years.

We have done all this while also changing budgetary tactics used by previous administrations. We will no longer include the "Snow Tax," a below-the-line fee that removed the cost for snow and ice removal on County roads, from the general levy. Instead, it has been returned to the tax levy where it belongs. Additionally, we are phasing out the sale of delinquent tax liens, which were once used to bolster revenue during difficult budget years but worsened problems with vacant homes in neighborhoods throughout Monroe County.

The 2021 County budget makes new and critical investments in vital County services and programs while remaining mindful of the lingering effects of COVID-19. Many of our priorities in this year's spending plan were outlined in the Monroe County Transition Report. Released on February 11, 2020, the Transition Report was the first community-stakeholder driven effort for County government in over 30 years. It represents the input of over 130 committee members who helped to identify critical issues for my administration to confront and features 235 recommended strategies to address those issues.

As part of my commitment to creating a more equitable and diverse County government, the proposed budget fully funds the newly created Department of Diversity, Equity and Inclusion, which will be led by a Chief Diversity Officer. This department will assist all other County departments and offices with recruitment and retention of employees from historically underrepresented communities. It will also work to improve our MWBE selection procedures, and investigate internal complaints of discrimination, harassment, hostile work environment, and unequal treatment.
We are also making a significant investment in our efforts to combat the opioid crisis and addiction services throughout Monroe County. We recently hired Monroe County’s first ever Addiction Services Director to lead the Improving Addiction and Coordination Team (IMPACT). The eight-member IMPACT team will operate out of the Monroe County Department of Public Health, and will coordinate services and care for this multi-faceted program.

Lastly, we are ensuring that our children and families have the resources they need to succeed in our community. We have expanded the Early Intervention services program staff to provide more support for children with special needs, improved transportation services for pre-school special education students and fully funded all child protective service staff positions.

We remain mindful of the continued effects the COVID-19 pandemic will have on our local economy in 2021. The proposed budget appropriates $11.6 million in fund balance to help cover some of the anticipated revenue losses for next year, with the anticipation that revenue sources like sales tax and state aid will rebound.

As you can see, the 2021 County budget will serve as our blueprint as we continue to respond and recover from the COVID-19 pandemic, while also responding to the call of action from the Monroe County Transition Report. While being mindful of our uncertainties, we have still been able to make new and critical investments in vital County services and programs.

I am incredibly proud of the work my administration has done in the face of uncertainty. The 2021 proposed Monroe County budget not only embraces fiscal discipline, it also puts the needs and priorities of our community at the forefront. I am confident that our community will be stronger and better as we continue to respond to and recover from the COVID-19 pandemic and the impact it has had on our entire community.

The specific legislative actions required are:

1. Pursuant to Section C4-3 of the Monroe County Charter, schedule a public hearing on the 2021 Monroe County Budget and direct the Clerk of the Legislature to cause notice of said public hearing to be published at least once in one or more daily newspapers of general circulation in the County at least five (5) days before the date of said hearing and to cause a summary of said budget, as attached hereeto, to be published with said notice.

2. Pursuant to Section C4-4 of the Monroe County Charter, adopt the Monroe County 2021 Budget after said public hearing having been held.

3. Establish the 2021 Classification, Compensation and Salary Schedule for employees of the County of Monroe, as contained in the 2021 Monroe County Budget.

I recommend that this matter receive favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614  

Honorable Legislators:

I am submitting for your consideration and approval the proposed 2021 operating budget for Monroe County.

This is the first budget that I am submitting as Monroe County Executive, and one that is presented amidst the COVID-19 pandemic and all the challenges that continue to confront our community. Nevertheless, we have put together a responsible, realistic budget that tackles our financial issues head-on, is responsive to lingering uncertainties and positions us better for our future. The budget complies with the Monroe County Taxpayer Protection Act and the New York State property tax cap.

Overall, the 2021 proposed budget calls for $1.237 billion in spending, an increase of just $4.7 million or 0.4% over the adopted 2020 budget, well below the 1.4% rate of inflation. Additionally, the proposed budget reduces the tax rate by $0.26 to $8.53 per $1,000 assessed value, which is the largest decrease in the County tax rate in almost 20 years.

We have done all this while also changing budgetary tactics used by previous administrations. We will no longer include the "Snow Tax," a below-the-line fee that removed the cost for snow and ice removal on County roads, from the general levy. Instead, it has been returned to the tax levy where it belongs. Additionally, we are phasing out the sale of delinquent tax liens, which were once used to bolster revenue during difficult budget years but worsened problems with vacant homes in neighborhoods throughout Monroe County.

The 2021 County budget makes new and critical investments in vital County services and programs while remaining mindful of the lingering effects of COVID-19. Many of our priorities in this year’s spending plan were outlined in the Monroe County Transition Report. Released on February 11, 2020, the Transition Report was the first community-stakeholder driven effort for County government in over 30 years. It represents the input of over 130 committee members who helped to identify critical issues for my administration to confront and features 235 recommended strategies to address those issues.

As part of my commitment to creating a more equitable and diverse County government, the proposed budget fully funds the newly created Department of Diversity, Equity and Inclusion, which will be led by a Chief Diversity Officer. This department will assist all other County departments and offices with recruitment and retention of employees from historically underrepresented communities. It will also work to improve our MWBE selection procedures, and investigate internal complaints of discrimination, harassment, hostile work environment, and unequal treatment.
We are also making a significant investment in our efforts to combat the opioid crisis and addiction services throughout Monroe County. We recently hired Monroe County’s first ever Addiction Services Director to lead the Improving Addiction and Coordination Team (IMPACT). The eight-member IMPACT team will operate out of the Monroe County Department of Public Health, and will coordinate services and care for this multi-faceted program.

Lastly, we are ensuring that our children and families have the resources they need to succeed in our community. We have expanded the Early Intervention services program staff to provide more support for children with special needs, improved transportation services for pre-school special education students and fully funded all child protective service staff positions.

We remain mindful of the continued effects the COVID-19 pandemic will have on our local economy in 2021. The proposed budget appropriates $11.6 million in fund balance to help cover some of the anticipated revenue losses for next year, with the anticipation that revenue sources like sales tax and state aid will rebound.

As you can see, the 2021 County budget will serve as our blueprint as we continue to respond and recover from the COVID-19 pandemic, while also responding to the call of action from the Monroe County Transition Report. While being mindful of our uncertainties, we have still been able to make new and critical investments in vital County services and programs.

I am incredibly proud of the work my administration has done in the face of uncertainty. The 2021 proposed Monroe County budget not only embraces fiscal discipline, it also puts the needs and priorities of our community at the forefront. I am confident that our community will be stronger and better as we continue to respond to and recover from the COVID-19 pandemic and the impact it has had on our entire community.

The specific legislative actions required are:

1. Pursuant to Section C4-3 of the Monroe County Charter, schedule a public hearing on the 2021 Monroe County Budget and direct the Clerk of the Legislature to cause notice of said public hearing to be published at least once in one or more daily newspapers of general circulation in the County at least five (5) days before the date of said hearing and to cause a summary of said budget, as attached hereto, to be published with said notice.

2. Pursuant to Section C4-4 of the Monroe County Charter, adopt the Monroe County 2021 Budget after said public hearing having been held.

3. Establish the 2021 Classification, Compensation and Salary Schedule for employees of the County of Monroe, as contained in the 2021 Monroe County Budget.

I recommend that this matter receive favorable action by Your Honorable Body.

Sincerely,

[Signature]

Adam J. Bello
Monroe County Executive
