Monroe County Legislature - November 9, 2021
To the Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Directing a Request for Qualifications for Monroe County Treasury and Liquidity Analysis

Honorable Legislators:

As County Legislators, one of our foremost duties is monitoring the budget and finances of Monroe County. Residents across Monroe County expect and deserve to know exactly how, why and when their hard-earned dollars are being spent. As a result of the trying times of the last two years, Monroe County has received an unprecedented amount of Federal funding from the CAREs 3.0 Act and American Rescue Plan Act.

Importantly included within the American Rescue Plan Act’s authorized spending guidance is allowances for State, local, and Tribal governments to use payments from the Fiscal Recovery Funds to engage in planning and analysis in order to improve programs addressing the COVID-19 pandemic, including improvements to data or technology infrastructure…impact evaluations…and data analysis.

We must ensure that we are utilizing Monroe County funds which, regardless of Federal, State or local sources, are all taxpayer dollars in the most efficient way possible. In accordance with the provisions of the American Rescue Plan Act (Public Law 117-2) and the Final Rule Interim Guidance pertaining to the same, we must use these funds for a data analysis of Monroe County Treasury and Liquidity to ensure we are responding and recovering to/from the COVID-19 pandemic as best and efficiently as possible.

The specific legislative actions required are:

1. Direct the Purchasing Manager, or her designee, the Monroe County Division of Purchasing and Central Services, to issue a Request for Qualifications for the purposes of retaining a treasury and liquidity analysis firm in accordance with American Rescue Plan Act of 2021 (Public Law 117-2).

2. Require that such Request for Qualifications be issued within seven days of the effective date of this resolution.
The legislative action requested in this referral is not an “Action,” as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

Funding for such contract is included in the 2021 operating budget of the County Legislature, funds center 100103000, Local Recovery Fund

Respectfully Submitted,

Re: Memorializing the New York State Department of Health to Acknowledge the Seriousness of Monroe County’s Overburdened Healthcare System, and to Dedicate Resources to Identify and Address Root Problems.

Honorable Legislators,

The world is now months away from two years since the COVID-19 Pandemic started. We are currently experiencing the many longstanding effects of the Pandemic, specifically in our Health Care Systems. In the County of Monroe, there are multiple major health care systems. Our region’s hospitals were hit hard during the entirety of the Pandemic but are now being directly impacted by Governor Hochul’s Vaccine Mandate for healthcare workers.

The overall results of this mandate are not harmful but effecting areas of healthcare staffing that are more than just the hospitals. Our hospitals have been understaffed and overwhelmed since far before the vaccine mandate on September 27th. Many of our local nurses are leaving hospitals due to their belief in the vaccine. This is causing hospitals to look for healthcare staff elsewhere, finding many replacement staff members to be from nursing homes, various outpatient facilities, and even EMS workers.

In Monroe County alone, nearly two dozen nursing homes were forced to stop accepting patients when the mandate was enacted. Patients usually sent to those facilities began to fill up hospital beds that could ordinarily be used for other cases.

One local hospital has gone to the extent of building “outside structures” to house ER patients while they wait for intake. These issues create a backlog of calls for already strained and understaffed medical first responders. The situation has been described as a "Bottleneck on Healthcare", by local medical professionals.

The current state of our healthcare system is not operating to its fullest capacity due to New York State controls, and therefore, we request that New York State allocate resources to ensure we are working at our fullest and highest levels possible to respond to crises across Monroe County appropriately.

Subject: Amend the 2021 Capital Budget and Bond Resolution 365 of 2020 to Provide an Increase in Funding and Authorize a Contract with Passero Associates, Engineering, Architecture & Surveying, D.P.C. for Design Services for the Access/Circulation Roadway Improvements Project at the Frederick Douglass – Greater Rochester International Airport

Honorable Legislators:

I recommend that Your Honorable Body amend the 2021 Capital Budget and Bond Resolution 365 of 2020 to provide an increase in funding in the amount of $200,000 and authorize a contract with Passero Associates, Engineering, Architecture & Surveying, D.P.C. in the amount of $140,000 for design services for the Access/Circulation Roadway Improvements Project at the Frederick Douglass – Greater Rochester International Airport.

This project will construct a new access/circulation roadway at the intersection of Airport Way and the Loop Road, at the roadway entrance to the Airport terminal facility. The objectives of the project are to provide a route from the Airport Loop Road to the Smart Phone Lot and to improve traffic flow and safety through the intersection of Airport Way and the Loop Road. Initial reviews of the traffic flow have indicated that vehicle speeds coming from the Loop Road “Jug Handle” are difficult to judge from the Airport Way intersection. The traffic circle concept should be easier to transverse for Airport Way traffic without significantly impeding the Jug Handle traffic.

The engineering design will incorporate geometrics in conformance with Federal Highway Administration recommendations, storm water management protocols, standard traffic markings, traffic control signs, wayfinding signs, pavement markings, roadway lighting, new concrete curbing, utility relocations as required, and a decorative center island detail.

The Department of Aviation recommends authorization of a contract with Passero Associates, Engineering, Architecture & Surveying, D.P.C., a designated airport consultant per Resolution 320 of 2020, to provide design services for the Access/Circulation Roadway Improvements Project in the amount of $140,000.

At the present time, this project will be funded by a Federal Aviation Administration grant of 90%, a New York State Department of Transportation grant of 5%, and a local share of 5%. If the Upstate Airport Economic Development and Revitalization Grant is awarded to Monroe County, then this project will be funded 100% from the grant.

This project is scheduled to be considered by the Monroe County Planning Board on November 18, 2021.
The specific legislative actions required are:

1. Amend the 2021 Capital Budget to increase funding for the Access/Circulation Roadway Improvements Project at the Frederick Douglass – Greater Rochester International Airport, in the amount of $200,000 from $500,000 to $700,000 for a total project authorization of $700,000.

2. Amend Bond Resolution 365 of 2020 to increase financing for the Access/Circulation Roadway Improvements Project at the Frederick Douglass – Greater Rochester International Airport, capital fund 1987, in the amount of $200,000 from $500,000 to $700,000 for a total project authorization of $700,000.

3. Authorize the County Executive, or his designee, to execute a contract with Passero Associates, Engineering, Architecture & Surveying, D.P.C., 242 West Main Street, Suite 100, Rochester, New York 14614, for design services for the Access/Circulation Roadway Improvements Project at the Frederick Douglass – Greater Rochester International Airport in the amount of $140,000 along with any amendments necessary to complete the project within the total capital fund(s) appropriation.

This action is a Type II action pursuant to 6 NYCRR § 617.5(c)(22) ("installation of traffic control devices on existing streets, roads, and highways") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project and contract, consistent with authorized uses, will be available in capital fund 1987 once the additional financing authorization herein is approved and any other capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by the Monroe County Airport Authority from Airport generated revenues. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Passero Associates, Engineering, Architecture & Surveying, D.P.C., nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Gary W. Passero, Founding Partner  
Jess D. Sudol, President, Civil Engineering Department Manager  
Andrew M. Holesko, Chief Executive Officer, National Director of Aviation Services  
David Passero, Chief Financial Officer

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the New York State Office of Indigent Legal Services in the amount of $2,610,417 for the Second Upstate Model Family Representation Office for the period of October 1, 2021 through September 30, 2024, and authorize the creation of four (4) new positions in the Public Defender’s Office as follows: one (1) Special Assistant Public Defender, Group 22 and three (3) Public Defender Assistant Grade I, Group 19.

This grant will establish the Family Representation Office in the Office of the Monroe County Public Defender. The Family Representation Office will use a holistic approach to provide clients who are under investigation by child protective services with continuous legal representation. The Family Representation Office will assess the legal, financial, and social determinants of health needs of each client and their family members, including the needs of the subject children, to develop a strategy that will maximize the likelihood the client’s children are not removed from the home, or if removal cannot be avoided, that the children are unified with the parent at the earliest possible time.

Additionally, acceptance of this grant will accomplish a recommendation of the Commission on Racial And Structural Equity (“RASE”) that called for fully funding the Monroe County Public Defender’s Office’s Family Court Section to ensure families are provided quality representation.

This grant will provide funding for all of the salary costs equivalent to one (1) Special Assistant Public Defender, Group 22 and three (3) Assistant Public Defender Grade I, Group 19 and additional support staff. We have been notified of the funding amount for the Family Representation Office of $2,610,417 over a three (3) year period. This is the first time the County has received this grant.

2. Amend the 2021 operating budget of the Office of the Public Defender by appropriating the sum of $870,139 into general fund 9300, funds center 2601010000, Public Defender Administration.

3. Authorize the County Executive, or his designee, to create four (4) new positions in the Public Defender’s Office as part of the Second Upstate Model Family Representation Office as follows: one (1) Special Assistant Public Defender, Group 22 and three (3) Public Defender Assistant Grade I, Group 19.

4. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

5. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

The legislative action requested in this referral is not an “Action,” as that term is defined in 6 by NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

PURE WATERS ADMINISTRATIVE BOARD OF THE
ROCHESTER PURE WATERS DISTRICT

Intro. No. ___

RESOLUTION NO. ___ OF 2021

ESTABLISHING SCALE OF CHARGES FOR ROCHESTER PURE WATERS DISTRICT, COUNTY SEWER DISTRICT FOR COUNTY OF MONROE, NEW YORK

WHEREAS, the Administrative Board of the Rochester Pure Waters District has, pursuant to §266 of the County Law of the State of New York, established a scale of charges for the operation and maintenance of facilities of the District and setting proportionate factors of surcharge for the treatment of industrial wastes and sewerage received by the District; and

WHEREAS, the Administrative Board of the Rochester Pure Waters District has, pursuant to §266 of the County Law of the State of New York and Resolution No. 502 of 1971, as amended by Resolution No. 337 of 1974, called a public hearing, said hearing having been held on the ___ day of December, 2021, at ___ p.m. ET.

NOW, THEREFORE, BE IT RESOLVED BY THE PURE WATERS ADMINISTRATIVE BOARD OF THE ROCHESTER PURE WATERS DISTRICT, as follows:

Section 1.

SCALE OF CHARGES

These Scales of Charges shall be effective commencing January 1, 2022.

ROCHESTER PURE WATERS DISTRICT Operation and Maintenance Charge

$2.52 per 1,000 Gallons of water consumption (see Notes 1-3).

CHARGES FOR RPWD ZONE 2: No Charge - Operation and Maintenance not provided.

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2022 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2021 will be billed at 60,000 gallons per unit for the user charge separately commencing January 1, 2022. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.
NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Rochester Pure Waters District:
$300.00 per connection — residential *
$400.00 per connection — non-residential *

* For the RPWD a storm and sanitary sewer connection will be considered one connection when made at the same time.

SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS

The owner or lessee of any parcel of real property connected with the District's Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

\[ S.F. = \frac{a(BOD-300) + b(SS-300) + d(P-10)}{300} \]

Definitions:

S.F. = Surcharge Factor.
BOD = Milligrams per liter of Biochemical Oxygen Demand, as defined in Section 2.12 of the Monroe County Sewer Use Law.
SS = Milligrams per liter of Suspended Solids, as defined in Section 2.55 of the Monroe County Sewer Use Law.
P = Milligrams per liter of Phosphorus, as defined in Section 2.33 of the Monroe County Sewer Use Law.
a = Proportionate cost to treat 1 lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.
b = Proportionate cost to treat 1 lb. of Suspended Solids (SS) and is established at 0.505.

LOCAL LAW NO. ___ OF 2021

ENACTING A LOCAL LAW ENTITLED "REGULATING SALE OF USED CATALYTIC CONVERTERS"

BE IT ENACTED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. Part IV, General Local Laws of Monroe County, is hereby amended to add a new chapter to include the following Local Law:

CHAPTER 385, REGULATING SALE OF USED CATALYTIC CONVERTERS

§ 385-1. Title.

This Chapter shall be known as the law "Regulating Sale of Used Catalytic Converters."

§ 385-2. Legislative Intent.

A. This Legislature hereby finds that the County of Monroe has experienced an increase in thefts of used catalytic converters from vehicles in our community and their resale to scrap metal recyclers.

B. This Legislature finds that requiring scrap metal recyclers doing business in Monroe County to delay payments to sellers of used catalytic converters for at least 14 days after receipt will allow law enforcement additional time to investigate the theft of used catalytic converters and discourage criminal conduct.

C. This Legislature also finds that requiring scrap metal recyclers to maintain records of the purchase of used catalytic converters will aid law enforcement in the investigation of thefts of such devices.

§ 385-3. Purpose.

The purpose of this Chapter to discourage the theft of catalytic converters from vehicles in Monroe County by requiring scrap metal recyclers doing business in Monroe County to delay payments to sellers of used catalytic converters for at least 14 days after receipt and requiring scrap metal recyclers to maintain records of the purchase of such devices for three years in order to aid law enforcement in the investigation of the theft of such devices.

§ 385-4. Definitions. As used in this section:

A. "Catalytic Converter" means a catalytic converter or other equipment or feature constituting an operational element of a motor vehicle's air pollution control system or mechanism required by federal or state law or by any rules or regulations promulgated pursuant thereto, as amended from time to time.

B. "Repair Shop" means a business enterprise that repairs vehicles and is certified by the New York State Department of Motor Vehicles.
C. “Scrap Metal Recycler” means a vehicle dismantler, salvage pool, mobile car crusher, itinerant vehicle collector or scrap processor doing business in Monroe County; but shall not include a dealer registered pursuant to section four hundred fifteen of the New York Vehicle and Traffic Law, an insurance company, a governmental agency, a person in whose name a certificate of title, registration or other ownership document has been issued for the vehicle from which the Used Catalytic Converter was removed, or a Repair Shop.

D. “Used Catalytic Converter” means a Catalytic Converter that was previously installed in a vehicle and which has been removed from such vehicle in whole or in part.

§ 385-5. Prohibition.

No Scrap Metal Recycler shall purchase or take possession of, including for purposes of recycling or rebuilding, a Used Catalytic Converter from any person or entity other than a dealer registered pursuant to section four hundred fifteen of the Vehicle and Traffic Law, an insurance company, a governmental agency, a person in whose name a certificate of title or other ownership document has been issued for the vehicle from which the catalytic converter was removed, a Repair Shop, or a person registered or certified or issued an identification number for the vehicle under the Vehicle and Traffic Law.

§ 385-6. Maintenance of Records by Scrap Metal Recycler.

A. Each Scrap Metal Recycler who purchases or takes possession of, including for purposes of recycling or rebuilding, a Used Catalytic Converter shall record the purchase of the Used Catalytic Converter documenting the date of purchase, the name of seller, the seller’s address or, in the case that the seller is an individual, the seller’s residence address by street, number, city, village or town, the seller’s driver’s license number or information from a government issued photographic identification card, if any, or by such description as will reasonably locate the seller, or, if the seller is a Repair Shop, the Repair Shop’s New York State Department of Motor Vehicles certification number. Such record shall be preserved by the Scrap Metal Recycler for a period of three years from the date of receipt of the Used Catalytic Converter. Such records shall be available for inspection by any law enforcement authority with jurisdiction over the Scrap Metal Recycler.

B. Each Scrap Metal Recycler shall cause the record of purchase of the Used Catalytic Converter to be signed by the seller or his or her agent. It shall be unlawful for any seller or agent to refuse to furnish such information or to furnish incorrect or incomplete information. The Scrap Metal Recycler shall make and retain a copy of the government issued photographic identification card used to verify the identity of the person from whom the Used Catalytic Converter was purchased or obtained and shall retain the copy in a separate book, register or electronic archive for three years from the date of purchase. Such records shall be available for inspection by any law enforcement agency having jurisdiction over the Scrap Metal Recycler.

§ 385-7. Payments.

Payments by any Scrap Metal Recycler to a business, agency or private citizen who turns in a catalytic converter for scrap will be issued through check, with a copy of the check being held by the Scrap Metal Recycler for three years from the date of disbursement. Such records shall be available for inspection by any law enforcement agency having jurisdiction over the Scrap Metal Recycler.
§385-8. Violations.

A. Any person that violates this Chapter shall: (i) be guilty of a class A misdemeanor; and (ii) upon conviction thereof, shall be punished by a fine not to exceed $300 for the first offense, $500 for the second offense, and $1,000 for each subsequent offense.

B. This Chapter shall be enforced by any local law enforcement agency having jurisdiction over the Scrap Metal Recycler.

If any clause, sentence, paragraph, section or chapter of this local law shall be adjudged by any court of competent jurisdiction to be invalid, such determination shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or chapter thereof directly involved in the proceeding in which such adjudication shall have been rendered. This local law shall not supersede any applicable state or federal laws or regulations with regard to the subject matters set forth herein.

Section 2. This local law shall take effect upon filing with the Secretary of State pursuant to Section 27 of the New York State Municipal Home Rule Law.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impacts, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the acquisition of a Fiber Optic Permanent Easement and does not include the physical alteration nor disturbance of the property. Although Part 1 of the EAF indicates there are archaeological resources and wetlands in the area, the proposed action does not include physical alteration of the site, and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for Wetlands from state and federal regulatory bodies. Accordingly, it has been determined that no significant adverse environmental impacts will occur from this action.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

RESOLUTION AUTHORIZING THE ISSUANCE OF $5,900,000 BONDS OF THE COUNTY OF MONROE, NEW YORK, TO FINANCE THE COST OF THE RECONSTRUCTION AND IMPROVEMENT OF PORTIONS OF SOUTH AVENUE, FROM ELMWOOD AVENUE TO BELLEVUE DRIVE AND ELMWOOD AVENUE, FROM MT. HOPE AVENUE TO SOUTH AVENUE PURSUANT TO SECTION 131-K OF THE HIGHWAY LAW, IN AND FOR SAID COUNTY, AT AN ESTIMATED MAXIMUM COST OF $5,900,000 AND SUPERSEEDING THE BOND RESOLUTION ADOPTED ON DECEMBER 11, 2018 (RESOLUTION NO. 293 OF 2018).

BE IT RESOLVED BY THE AFFIRMATIVE VOTE OF NOT LESS THAN TWO-THIRDS OF THE TOTAL VOTING STRENGTH OF THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. For the specific object or purpose of financing the cost of the reconstruction and improvement of portions of South Avenue, from Elmwood Avenue to Bellevue Drive and Elmwood Avenue, from Mt. Hope Avenue to South Avenue pursuant to Section 131-K of the Highway Law, in and for the County of Monroe, New York (the "County"), there are hereby authorized to be issued $5,900,000 bonds of the County, pursuant to the provisions of the Local Finance Law. The duly adopted current Capital Budget of the County, to the extent inconsistent herewith, is hereby amended to provide for the appropriation of an additional $500,000 to pay the cost of the aforesaid specific object or purpose ($5,400,000 having been heretofore appropriated from one or more Capital Budgets). The period of probable usefulness of the aforesaid specific object or purposes is fifteen (15) years, pursuant to subdivision 20(c) of paragraph a of Section 11.00 of the Local Finance Law.

Section 2. The maximum estimated cost thereof is $5,900,000, and the plan for the financing thereof is by the issuance of $5,900,000 bonds of said County herein authorized, provided, however, that to the extent any state and/or federal aid and/or grant and/or gift is received for the aforesaid purpose, such aid shall be used to redeem any outstanding indebtedness incurred for such purpose or shall be applied, dollar for dollar, to reduce the amount of bonds to be issued for such purpose.

Section 3. The faith and credit of the County are hereby irrevocably pledged for the payment of the principal of and interest on such obligations as the same respectively become due and payable. To the extent not paid from rates, rents, or charges, there shall annually be apportioned and assessed upon the several lots and parcels of land within said District, in the manner provided by law, an amount sufficient to pay the principal of and interest on such obligations becoming due and payable in such year, but if not paid from such source, all the taxable real property of said County shall be subject to a tax sufficient to pay the principal of and interest on such obligations as the same become due and payable.

Section 4. Subject to the provisions of the Local Finance Law, the power to authorize the issuance of and to sell the bonds and bond anticipation notes in anticipation of the issuance and sale of the bonds herein authorized, including renewals of such notes, is hereby delegated to the Director of Finance - Chief Financial Officer, the chief fiscal officer of the County under the Local Finance Law. The Director of Finance - Chief Financial Officer may sell such bonds or notes at public or private sale, at a discount or premium, at fixed or variable rates of interest or at no interest whatsoever, or as capital appreciation bonds,
and with such amortization of principal as the Director of Finance – Chief Financial Officer shall determine is most favorable to the County, and in compliance with any rules of the State Comptroller applicable thereto. Such bonds or notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Director of Finance - Chief Financial Officer, consistent with the provisions of the Local Finance Law. The Director of Finance - Chief Financial Officer may, in the event it is determined to issue variable rate bonds or notes, enter into such agreements as said officer finds reasonable to facilitate the issuance, sale, resale and repurchase of such bonds or notes, as authorized under Section 54.90 of the Local Finance Law. The Director of Finance - Chief Financial Officer is also authorized to enter into such agreements and take such other action as may be necessary or appropriate and lawful to assure that, to the extent possible, (i) interest on the bonds and notes authorized hereby will not be includable in the gross income, for federal income tax purposes, of the recipients thereof, and (ii) to enable the purchaser thereof to comply with Securities and Exchange Commission Rule 15c2-12. The Director of Finance – Chief Financial Officer is hereby further delegated all powers of this County Legislature with respect to agreements for credit enhancement, derived from and pursuant to Section 168.00 of the Local Finance Law, for such bonds or notes, including, but not limited to the determination of the provider of such credit enhancement facility or facilities and the terms and contents of any agreement or agreements related thereto.

Section 5. All other matters, except as provided herein, relating to such bonds or notes, including prescribing whether manual or facsimile signatures shall appear on said bonds or notes, prescribing the method for the recording of ownership of said bonds or notes, appointing the fiscal agent or agents for said bonds or notes, providing for the printing and delivery of said bonds or notes (and if said bonds or notes are to be executed in the name of the County by only facsimile signatures, providing for the manual countersignature of a fiscal agent or of a designated official of the County), the date, form, denominations, maturities, interest rate or rates, terms of and manner of sale and interest payment dates, place or places of payment, and also including the consolidation with other issues, shall be determined by the Director of Finance - Chief Financial Officer. The Director of Finance - Chief Financial Officer may elect to become the fiscal agent for the bonds or notes, or may contract on behalf of the County for this service pursuant to the Local Finance Law. Such bonds or notes shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals, in addition to those required by Section 52.00 of the Local Finance Law, as the Director of Finance - Chief Financial Officer shall determine.

Section 6. The validity of such bonds and bond anticipation notes, as authorized by this resolution, may be contested only if:

1) such obligations are authorized for an object or purpose for which said County is not authorized to expend money; or

2) the provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with, and

an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or

3) such obligations are authorized in violation of the provisions of the Constitution.

Section 7. This resolution shall supersede Resolution No. 293 of 2018, being a bond resolution dated December 11, 2018, except to the extent that any indebtedness shall have been contracted or encumbrances made thereunder. The purpose of this superseding bond resolution is to effect the following: to increase the maximum estimated cost of the purpose to $5,900,000, and to provide $5,900,000 bonds therefor, an increase of $500,000 over the $5,400,000 bonds authorized under Resolution No. 293 of 2018.

Mr. David Grant  
Clerk of the Legislature  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Dear Mr. Grant:

This is in response to your letter of September 17, 2021, in which you presented, among other matters, a Local Law entitled “Regulating Sale of Used Catalytic Converters” (Intro. No. 354 of 2021), which was certified by you to have been adopted by the Monroe County Legislature at its meeting on September 14, 2021. Pursuant to Municipal Home Rule Law § 21 and § C2-7(A)(3)(c) of the Monroe County Charter, with this letter I am providing notice to the Legislature that I have disapproved this Local Law and am returning it to you with my objections.

I am concerned that the Legislature adopted this Local Law without adequate consideration of its consequences. During the Legislature meeting at which the Local Law was passed, a representative of local scrap metal recyclers reported that he had attempted to engage in a substantive discussion with the Legislative sponsor, Legislator Dondorfer, but that Legislator Dondorfer declined to engage in such a discussion. After hearing from local scrap metal recyclers at the public hearing I conducted on this matter and reviewing the Local Law, I am concerned that the Local Law will have a negative impact on our economy while failing to achieve its primary goal.

Although the Local Law states that its primary purpose is to deter the theft of catalytic converters, it is highly unlikely that it will have a deterrent effect on such theft. This is because thieves targeting catalytic converters could simply transport the stolen goods to a neighboring county for sale.

The Local Law will, however, have negative consequences for legitimate businesses operating in Monroe County. Scrap metal recyclers in the County are likely to see a decrease in business because sellers of mixed automotive scrap will be unable to complete a sale in Monroe County and will therefore bring their business to a recycler operating in a neighboring County. For example, a vehicle repair shop will often come into possession of used catalytic converters in the normal course of their business. Rather than bringing a few pieces of scrap directly to a recycler, the repair shop is likely to sell the used catalytic

converters to a collector who would then bring them, along with other scrap they have collected, to sell to a recycler. Under this Local Law, however, the scrap metal recycler would be unable to accept such mixed scrap, because the collector would not have the required records. The result will be that owners of legitimately obtained scrap will simply bring the scrap to a recycling facility in a neighboring County, causing recyclers in Monroe County to lose business. The ultimate impact will be lost jobs for scrap metal recycling centers and related businesses in Monroe County.

Current state law does require scrap metal recyclers to maintain records of sales and make those records available to law enforcement. I am willing to support local or statewide efforts to strengthen such laws to deter criminal activity and ensure law enforcement has the resources necessary to address catalytic converter theft. I am not willing, however, to support an ill-considered measure that negatively impacts Monroe County businesses.

For the reasons stated above, I have disapproved the Local Law entitled “Regulating Sale of Used Catalytic Converters” (Intro. No. 354 of 2021).

Sincerely,

Adam J. Bello
Monroe County Executive

LOCAL LAW NO. ___ OF 2021

ENACTING A LOCAL LAW ENTITLED “REGULATING SALE OF USED CATALYTIC CONVERTERS”

BE IT ENACTED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1.  Part IV, General Local Laws of Monroe County, is hereby amended to add a new chapter to include the following Local Law:

CHAPTER 385, REGULATING SALE OF USED CATALYTIC CONVERTERS

§ 385-1. Title.

This Chapter shall be known as the law “Regulating Sale of Used Catalytic Converters.”

§ 385-2. Legislative Intent.

A. This Legislature hereby finds that the County of Monroe has experienced an increase in thefts of used catalytic converters from vehicles in our community and their resale to scrap metal recyclers.

B. This Legislature finds that requiring scrap metal recyclers doing business in Monroe County to delay payments to sellers of used catalytic converters for at least 14 days after receipt will allow law enforcement additional time to investigate the theft of used catalytic converters and discourage criminal conduct.

C. This Legislature also finds that requiring scrap metal recyclers to maintain records of the purchase of used catalytic converters will aid law enforcement in the investigation of thefts of such devices.

§ 385-3. Purpose.

The purpose of this Chapter to discourage the theft of catalytic converters from vehicles in Monroe County by requiring scrap metal recyclers doing business in Monroe County to delay payments to sellers of used catalytic converters for at least 14 days after receipt and requiring scrap metal recyclers to maintain records of the purchase of such devices for three years in order to aid law enforcement in the investigation of the theft of such devices.

§ 385-4. Definitions. As used in this section:

A. "Catalytic Converter" means a catalytic converter or other equipment or feature constituting an operational element of a motor vehicle’s air pollution control system or mechanism required by federal or state law or by any rules or regulations promulgated pursuant thereto, as amended from time to time.

B. “Repair Shop” means a business enterprise that repairs vehicles and is certified by the New York State Department of Motor Vehicles.
C. “Scrap Metal Recycler” means a vehicle dismantler, salvage pool, mobile car crusher, itinerant vehicle collector or scrap processor doing business in Monroe County; but shall not include a dealer registered pursuant to section four hundred fifteen of the New York Vehicle and Traffic Law, an insurance company, a governmental agency, a person in whose name a certificate of title, registration or other ownership document has been issued for the vehicle from which the Used Catalytic Converter was removed, or a Repair Shop.

D. "Used Catalytic Converter" means a Catalytic Converter that was previously installed in a vehicle and which has been removed from such vehicle in whole or in part.

§ 385-5. Prohibition.

No Scrap Metal Recycler shall purchase or take possession of, including for purposes of recycling or rebuilding, a Used Catalytic Converter from any person or entity other than a dealer registered pursuant to section four hundred fifteen of the Vehicle and Traffic Law, an insurance company, a governmental agency, a person in whose name a certificate of title or other ownership document has been issued for the vehicle from which the catalytic converter was removed, a Repair Shop, or a person registered or certified or issued an identification number for the vehicle under the Vehicle and Traffic Law.

§ 385-6. Maintenance of Records by Scrap Metal Recycler.

A. Each Scrap Metal Recycler who purchases or takes possession of, including for purposes of recycling or rebuilding, a Used Catalytic Converter shall record the purchase of the Used Catalytic Converter documenting the date of purchase, the name of seller, the seller’s address or, in the case that the seller is an individual, the seller’s residence address by street, number, city, village or town, the seller’s driver’s license number or information from a government issued photographic identification card, if any, or by such description as will reasonably locate the seller, or, if the seller is a Repair Shop, the Repair Shop’s New York State Department of Motor Vehicles certification number. Such record shall be preserved by the Scrap Metal Recycler for a period of three years from the date of receipt of the Used Catalytic Converter. Such records shall be available for inspection by any law enforcement agency with jurisdiction over the Scrap Metal Recycler.

B. Each Scrap Metal Recycler shall cause the record of purchase of the Used Catalytic Converter to be signed by the seller or his or her agent. It shall be unlawful for any seller or agent to refuse to furnish such information or to furnish incorrect or incomplete information. The Scrap Metal Recycler shall make and retain a copy of the government issued photographic identification card used to verify the identity of the person from whom the Used Catalytic Converter was purchased or obtained and shall retain the copy in a separate book, register or electronic archive for three years from the date of purchase. Such records shall be available for inspection by any law enforcement agency having jurisdiction over the Scrap Metal Recycler.

§ 385-7. Payments.

Payments by any Scrap Metal Recycler to a business, agency or private citizen who turns in a catalytic converter for scrap will be issued through check, with a copy of the check being held by the Scrap Metal Recycler for three years from the date of disbursement. Such records shall be available for inspection by any law enforcement agency having jurisdiction over the Scrap Metal Recycler.
§385-8. Violations.

A. Any person that violates this Chapter shall: (i) be guilty of a class A misdemeanor; and (ii) upon conviction thereof, shall be punished by a fine not to exceed $300 for the first offense, $500 for the second offense, and $1,000 for each subsequent offense.

B. This Chapter shall be enforced by any local law enforcement agency having jurisdiction over the Scrap Metal Recycler.

If any clause, sentence, paragraph, section or chapter of this local law shall be adjudged by any court of competent jurisdiction to be invalid, such determination shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or chapter thereof directly involved in the proceeding in which such adjudication shall have been rendered. NOW, THEREFORE, BE IT RESOLVED BY THE PURE WATERS ADMINISTRATIVE BOARD OF THE GATES-CHILI-OGDEN SEWER DISTRICT, as follows:

Section 1.

SCALE OF CHARGES

These Scales of Charges shall be effective commencing January 1, 2022.

GATES-CHILI-OGDEN SEWER DISTRICT

Operation and Maintenance Charge

$2.92 per 1,000 gallons of water consumption (see Notes 1-3).

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2022 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2021 will be billed at 60,000 gallons per unit for the user charge commencing January 1, 2022. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.
NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Gates-Chili-Ogden Sewer District:
$300.00 per connection - residential
$400.00 per connection - non-residential

SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS

The owner or lessee of any parcel of real property connected with the District’s Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

\[ S.F. = \frac{a(BOD-300) + b(SS-300) + d(P-10)}{300 + 300 + 10} \]

Definitions:

S.F. = Surcharge Factor.
BOD = Milligrams per liter of Biochemical Oxygen Demand, as defined in Section 2.12 of the Monroe County Sewer Use Law.
SS = Milligrams per liter of Suspended Solids, as defined in Section 2.55 of the Monroe County Sewer Use Law.
P = Milligrams per liter of Phosphorus, as defined in Section 2.33 of the Monroe County Sewer Use Law.
a = Proportionate cost to treat a lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.

NOW, THEREFORE, BE IT RESOLVED BY THE PURE WATERS ADMINISTRATIVE BOARD OF THE ROCHESTER PURE WATERS DISTRICT, as follows:

Section 1.

SCALE OF CHARGES

These Scales of Charges shall be effective commencing January 1, 2022.

ROCHESTER PURE WATERS DISTRICT
Operation and Maintenance Charge

$2.52 per 1,000 Gallons of water consumption (see Notes 1-3).

CHARGES FOR RPWD ZONE 2: No Charge - Operation and Maintenance not provided.

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2022 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2021 will be billed at 60,000 gallons per unit for the user charge separately commencing January 1, 2022. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.
NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Rochester Pure Waters District:
- $300.00 per connection – residential *
- $400.00 per connection – non-residential *

SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS

The owner or lessee of any parcel of real property connected with the District's Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

\[ S.F. = \frac{a(BOD-300)}{300} + \frac{b(SS-300)}{300} + \frac{d(P-10)}{10} \]

Definitions:

- S.F. = Surcharge Factor.
- BOD = Milligrams per liter of Biochemical Oxygen Demand, as defined in Section 2.12 of the Monroe County Sewer Use Law.
- SS = Milligrams per liter of Suspended Solids, as defined in Section 2.55 of the Monroe County Sewer Use Law.

- a = Proportionate cost to treat a lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.

Van Lare Water Resource Recovery Facility (FEV WRRF) Secondary Clarifier Improvements” project ($6,000,000) for a total estimated cost of the Increase and Improvement of Facilities in the amount of $8,500,000. The “Frank E. Van Lare Water Resource Recovery Facility (FEV WRRF) Secondary Clarifier Improvements” project is under consideration by Your Honorable Body as a companion referral.

This project includes general improvements to various pump stations, collection system infrastructure, and the FEV WRRF, including enhancements to appurtenant communication and data transmission systems. This project is necessary to maintain the reliability and continuity of services to District customers. The estimated cost of the improvements is $2,500,000, which shall be provided as cash capital.

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

The specific Administrative Board action required is to submit a request to the Monroe County Legislature to approve an “Increase and Improvement of Facilities in the Rochester Pure Waters District” consisting of a capital project entitled “General Collection System and Treatment Plant Improvements” at an estimated cost of $2,500,000 and amend the 2022 Capital Budget to add a project and authorize an appropriation transfer.

Funding for this project, consistent with authorized uses, will be available in capital fund 1925 and any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by Rochester Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

These Scales of Charges shall be effective commencing January 1, 2022.

**NORTHWEST QUADRANT PURE WATERS DISTRICT**

*Operation and Maintenance Charge*

*Operation and Maintenance Charge for properties Receiving Local Collection System Services*

$1.97 per 1,000 gallons of water consumption (see Notes 1-3).

1. This charge is based upon recent historic water consumption reflecting normal domestic water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

Accounts for which water consumption has not been calculated by November 1, 2021 will be billed at 60,000 gallons per unit for the user charge commencing January 1, 2022. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.
4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.

NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

Subject: Increase and Improvement of Facilities in the Northwest Quadrant Pure Waters District – General Pump Station, Interceptor and Treatment Plant Improvements and Amend the 2022 Capital Budget to Add a Project and Authorize an Appropriation Transfer

Honorable Legislators:

I recommend that the Administrative Board of the Northwest Quadrant Pure Waters District approve a request to establish an Increase and Improvement of Facilities in the Northwest Quadrant Pure Waters District (the “District”) in the amount of $950,000, consisting of a capital project entitled “General Pump Station, Interceptor and Treatment Plant Improvements,” and amend the 2022 Capital Budget to Add a Project and authorize an appropriation transfer.

This increase and improvement of facilities is necessary to provide funding for the “General Pump Station, Interceptor and Treatment Plant Improvements” project. This project includes general improvements to various pump stations and collection system infrastructure, and the Northwest Quadrant Water Resource Recovery Facility including enhancements to appurtenant communication and data transmission systems. This project is necessary to maintain the reliability and continuity of services to District customers. The estimated cost of the improvements is $950,000, which shall be provided as cash capital.

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

The specific Administrative Board action required is to submit a request to the Monroe County Legislature to approve an “Increase and Improvement of Facilities in the Northwest Quadrant Pure Waters District” consisting of a capital project entitled “General Pump Station, Interceptor and Treatment Plant Improvements” at an estimated cost of $950,000 and amend the 2022 Capital Budget to Add a Project and authorize an appropriation transfer.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.
Funding for this project, consistent with authorized uses, will be available in capital fund 1924 and any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter receive favorable action by the Administrative Board of the Northwest Quadrant Pure Waters District.

Sincerely,

Adam J. Bello
Monroe County Executive

To the Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Enact a Local Law Entitled “Regulating Sale of Used Catalytic Converters”

Honorable Legislators:

Throughout the past several weeks and months, there has been a noticeable increase in the theft and subsequent scrapping for cash profit of Catalytic Converters throughout Monroe County. These devices, found on almost any automobile, have increased in value dramatically due to the precious minerals contained within them. One mineral, rhodium was valued at $14,500 per ounce by December of 2020, palladium is currently valued at $2,336 per ounce, making these easily removable devices welcome targets for theft.

These devices are being stolen from personal vehicles sitting in driveways, businesses that maintain a fleet of trucks or vans, and even school districts where several were stolen from school busses. This is not just a local trend, across the country there is a dramatic increase in the thefts of these devices. Typically, these items are scrapped for a quick cash profit to fund drug addictions, drug distribution organizations and other criminal activity. This local law will address both the quick cash turnaround incentive for criminals trading in stolen catalytic converters and will require individuals and scrap yards to present and maintain records of the proper documents proving a scrapped catalytic converter came from a legally owned or traded in car and not acquired through a theft.

In order to scrap a catalytic converter, the individual trading in the item must provide documentation such as a vehicle registration, title, or bill of sale, as well as a copy of their valid government I.D., illustrating that the catalytic converter being scrapped came from a legally owned vehicle. Licensed automotive garages must also provide proof that a catalytic converter being scrapped came from a vehicle that was being serviced by their business. To aid law enforcement agencies in the investigations of stolen catalytic converters, scrap yards must maintain copies of these records for a minimum of 3 years, in the event a stolen catalytic converter was scrapped at their business and police need to follow up in the course of their investigation.

The main incentive for these thefts is the ability to make large sums of cash quickly. To address this, scrapyards will now be mandated to wait no fewer than 14 days to issue payment for a scrapped catalytic converter. By eliminating the quick cash incentive for this crime, as was done with high valued items in a similar law passed by this Honorable Body in 2013 pertaining to Pawn Shops, the prevalence of this type of theft is expected to decrease dramatically.
In addition to the new requirements for scrapping and cashing catalytic converters, the penalties for scraping an illegally obtained catalytic converter will be increased. Under this new law, violators will be charged with a class A misdemeanor, receive a fine of no more than $300 for the first offense, $500 for the second offense, and $1,000 for each subsequent offense.

This local law is an effective and prudent way to deter the theft and scrapping of illegally obtained catalytic converters. In order to repair and replace one of these devices, depending on the size of the vehicle, the cost can range from $500 to $2,000. Monroe County residents and businesses should not have to bear the costs of these thefts. Legislation similar to this proposed law has been passed in West Virginia, South Carolina, and numerous other locations throughout the United States and led to a lower number of catalytic converter thefts. It is our hope that this Honorable Body passes and the County Executive enacts this law expeditiously.

The specific legislative actions required are:

1. Schedule and hold a public hearing on the proposed local law.

2. Adopt the attached Local Law entitled, “Regulating Sale of Used Catalytic Converters” as written.

The legislative action requested in this referral is not an “Action,” as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.

Respectfully Submitted,

Mr. David Grant
Clerk of the Legislature
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Dear Mr. Grant:

This is in response to your letter of September 17, 2021, in which you presented, among other matters, a Local Law entitled “Regulating Sale of Used Catalytic Converters” (Intro. No. 354 of 2021), which was certified by you to have been adopted by the Monroe County Legislature at its meeting on September 14, 2021. Pursuant to Municipal Home Rule Law § 21 and § C2-7(A)(3)(c) of the Monroe County Charter, with this letter I am providing notice to the Legislature that I have disapproved this Local Law and am returning it to you with my objections.

I am concerned that the Legislature adopted this Local Law without adequate consideration of its consequences. During the Legislature meeting at which the Local Law was passed, a representative of local scrap metal recyclers reported that he had attempted to engage in a substantive discussion with the Legislative sponsor, Legislator Dondorfer, but that Legislator Dondorfer declined to engage in such a discussion. After hearing from local scrap metal recyclers at the public hearing I conducted on this matter and reviewing the Local Law, I am concerned that the Local Law will have a negative impact on our economy while failing to achieve its primary goal.

Although the Local Law states that its primary purpose is to deter the theft of catalytic converters, it is highly unlikely that it will have a deterrent effect on such theft. This is because thieves targeting catalytic converters could simply transport the stolen goods to a neighboring county for sale.

The Local Law will, however, have negative consequences for legitimate businesses operating in Monroe County. Scrap metal recyclers in the County are likely to see a decrease in business because sellers of mixed automotive scrap will be unable to complete a sale in Monroe County and will therefore bring their business to a recycler operating in a neighboring County. For example, a vehicle repair shop will often come into possession of used catalytic converters in the normal course of their business. Rather than bringing a few pieces of scrap directly to a recycler, the repair shop is likely to sell the used catalytic...
converters to a collector who would then bring them, along with other scrap they have collected, to sell to a recycler. Under this Local Law, however, the scrap metal recycler would be unable to accept such mixed scrap, because the collector would not have the required records. The result will be that owners of legitimately obtained scrap will simply bring the scrap to a recycling facility in a neighboring County, causing recyclers in Monroe County to lose business. The ultimate impact will be lost jobs for scrap metal recycling centers and related businesses in Monroe County.

Current state law does require scrap metal recyclers to maintain records of sales and make those records available to law enforcement. I am willing to support local or statewide efforts to strengthen such laws to deter criminal activity and ensure law enforcement has the resources necessary to address catalytic converter theft. I am not willing, however, to support an ill-considered measure that negatively impacts Monroe County businesses.

For the reasons stated above, I have disapproved the Local Law entitled “Regulating Sale of Used Catalytic Converters” (Intro. No. 354 of 2021).

Sincerely,

[Signature]

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Authorize Intermunicipal Agreements with Municipalities for Rochester-Monroe County Youth Bureau Programs in 2021

Honorable Legislators:

I recommend that Your Honorable Body authorize intermunicipal agreements with municipalities for Rochester-Monroe County Youth Bureau Programs related to the currently approved Child and Family Services Plan in a total amount not to exceed $184,056 for the period of January 1, 2021 through December 31, 2021. The list of municipalities, along with a description of the youth services each will provide and the breakdown of funding to each, is in Attachment A.

The Rochester-Monroe County Youth Bureau enters into approximately twenty (20) intermunicipal agreements each year. The New York State Office of Children and Family Services makes available recreation and youth services funds for all towns and villages via a pass through to local counties. Allocation ceilings are determined through a formula, based on the youth population of each town or village, provided by the state. The recreation and youth services programs to be provided are available to all youth that reside in the respective towns and villages. Recreational programs include a variety of athletic, social, artistic, and cultural events. Youth services programs include youth and family counseling, after-school programs, leadership development, and employment readiness workshops. This year’s funding remains unchanged from last year’s funding.

Programs will be evaluated consistently and continually through three methods utilized by the Youth Bureau, documented in its Monitoring and Evaluation Systems Procedures Manual. These methods include: 1) self-report, requiring agency submission of three (3) different self-report instruments; 2) yearly outcome evaluation assessment of contract outcomes; and 3) expenditure review. These contracts will allow for the provision of a comprehensive range of youth services and programs by the municipalities specified in Attachment A.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute intermunicipal agreements, and any amendments thereto, with each municipality listed in Attachment A for Rochester-Monroe County Youth Bureau Programs related to the currently approved Child and Family Services Plan in a total amount not to exceed $184,056 for the period of January 1, 2021 through December 31, 2021.

2. Authorize the County Executive, or his designee, to execute any applications, contracts, agreements and amendments thereto, with New York State and/or the municipalities listed in Attachment A to increase or decrease the agreement amount and to extend length of the agreement(s) in order to maximize state reimbursements for these purposes.
3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with the New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for these agreements is included in the 2021 operating budget of the Department of Human Services, Monroe County Youth Bureau, general fund 9001, funds center 5603010000, Youth Contracts.

Funding for these agreements is 100% reimbursable by the Office of Children and Family Services. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

The Rochester Monroe County Youth Bureau enters into approximately ten (10) contracts each year in amounts over $20,000, with matching funds required for Runaway and Homeless Youth providers only. Contracted services directly correspond to the assessed needs and service objectives of the Rochester-Monroe County Youth Bureau and as required and approved by the New York State Office of Children and Family Services. This year’s funding represents a decrease of $9,213 from last year’s funding.

The agencies were selected through a competitive request for qualifications process based on the New York State required County Child and Family Services Plan in which services to be contracted must directly correspond to the assessed needs, priority focus areas, and outcomes of the plan; State Executive Law procedures and criteria for selecting programs; and State certification requirements for runaway and homeless shelter programs.

Contract programs will be evaluated consistently and continually through three methods utilized by the Youth Bureau, documented in its Monitoring and Evaluation Systems Procedures Manual. These methods include: 1) self-report, requiring agency submission of three (3) different self-report instruments; 2) yearly outcome evaluation assessment of contract outcomes; and 3) expenditure review. These contracts will allow for the provision of a comprehensive range of youth services and programs by the not-for-profit agencies specified in Attachment A.

Please refer to the attached Purchase of Services Information Form for disclosure of information required pursuant to Resolution 223 of 2007, as amended by Resolution 11 of 2008.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute contracts, and any amendments thereto, with each approved agency as listed in Attachment A for youth services, in a total amount not to exceed $735,836 for the period of January 1, 2021 through December 31, 2021.

2. Authorize the County Executive, or his designee, to execute any applications, contracts and amendments thereto, with New York State and/or agencies listed in Attachment A, to increase or decrease the contract amount and extend the length of the contract(s) in order to maximize state reimbursements for these purposes.
3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with the New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for these contracts is included in the 2021 operating budget of the Monroe County Department of Human Services, Monroe County Youth Bureau, general fund 9001, funds centers 5602010000, Runaway Homeless Youth Services; and 5603010000, Youth Contracts. No additional net County support is required in the current Monroe County budget.

Each of these contractors has been reviewed for not-for-profit status and the records in the Office of the Monroe County Treasury have indicated that none of these agencies owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

OUTCOME ASSESSMENT METHODOLOGY:

All program activities are designed to promote goal achievement and be quantified, measured, and tracked. Routine (monthly, quarterly, annually) reviews of progress activities and outcomes allow modifications to be made as needed to support successful outcomes and goal achievement. Measurement tools are developed, and data is collected, reviewed and analyzed by program administrators and the agency Board of Directors, and is used to mark progress toward program goals and to make quality improvements. Measuring program performance is accomplished by querying the agency's Management Information System (which has been maintained for over 23 years) to generate utilization, outcome and impact reports no less than quarterly which is...
essential to planning, updating, revising and developing new procedures, protocols and services.

Reports compare actual outcomes to the projected outcomes and are used to inform service methodology or program objective modifications needed. These reports also identify emerging trends, changes in client demographics, geographic distribution, and service utilization. Program goals are quantified so that data can be collected and progress evaluated. The efficacy of services/activities is reflected in the impact (i.e., knowledge gained, skills developed, and behavior change) on the participant and by their direct feedback as to its relevancy. Service methodology is modified as needed to improve efficacy. In this way, services remain client-centered and directed. current and meaningful and successful services/activities are noted and replicated.

To The Honorable  
Monroe County Legislature  
407 County Office Building  
Rochester, New York 14614

Subject: Authorize Contracts with Not-For-Profit Agencies for Rochester-Monroe County Youth Bureau Programs in 2021

Honorable Legislators:

I recommend that Your Honorable Body authorize contracts with the agencies listed in Attachment A, in a total amount not to exceed $735,836 for Rochester-Monroe County Youth Bureau programs for the period of January 1, 2021 through December 31, 2021.

The Rochester Monroe County Youth Bureau enters into approximately ten (10) contracts each year in amounts over $20,000, with matching funds required for Runaway and Homeless Youth providers only. Contracted services directly correspond to the assessed needs and service objectives of the Rochester-Monroe County Youth Bureau and as required and approved by the New York State Office of Children and Family Services. This year’s funding represents a decrease of $9,213 from last year’s funding.

The agencies were selected through a competitive request for qualifications process based on the New York State required County Child and Family Services Plan in which services to be contracted must directly correspond to the assessed needs, priority focus areas, and outcomes of the plan; State Executive Law procedures and criteria for selecting programs; and State certification requirements for runaway and homeless shelter programs.

Contract programs will be evaluated consistently and continually through three methods utilized by the Youth Bureau, documented in its Monitoring and Evaluation Systems Procedures Manual. These methods include: 1) self-report, requiring agency submission of three (3) different self-report instruments; 2) yearly outcome evaluation assessment of contract outcomes; and 3) expenditure review. These contracts will allow for the provision of a comprehensive range of youth services and programs by the not-for-profit agencies specified in Attachment A.

Please refer to the attached Purchase of Services Information Form for disclosure of information required pursuant to Resolution 223 of 2007, as amended by Resolution 11 of 2008.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute contracts, and any amendments thereto, with each approved agency as listed in Attachment A for youth services, in a total amount not to exceed $735,836 for the period of January 1, 2021 through December 31, 2021.

2. Authorize the County Executive, or his designee, to execute any applications, contracts and amendments thereto, with New York State and/or agencies listed in Attachment A, to increase or decrease the contract amount and extend the length of the contract(s) in order to maximize state reimbursements for these purposes.
3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with the New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for these contracts is included in the 2021 operating budget of the Monroe County Department of Human Services, Monroe County Youth Bureau, general fund 9001, funds centers 5602010000, Runaway Homeless Youth Services; and 5603010000, Youth Contracts. No additional net County support is required in the current Monroe County budget.

Each of these contractors has been reviewed for not-for-profit status and the records in the Office of the Monroe County Treasury have indicated that none of these agencies owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

[Signature]

Adam J. Bello
Monroe County Executive

OUTCOME ASSESSMENT METHODOLOGY:

All program activities are designed to promote goal achievement and be quantified, measured, and tracked. Routine (monthly, quarterly, annually) reviews of progress activities and outcomes allow modifications to be made as needed to support successful outcomes and goal achievement. Measurement tools are developed, and data is collected, reviewed and analyzed by program administrators and the agency Board of Directors, and is used to mark progress toward program goals and to make quality improvements. Measuring program performance is accomplished by querying the agency’s Management Information System (which has been maintained for over 23 years) to generate utilization, outcome and impact reports no less than quarterly which is
essential to planning, updating, revising and developing new procedures, protocols and services.

Reports compare actual outcomes to the projected outcomes and are used to inform service methodology or program objective modifications needed. These reports also identify emerging trends, changes in client demographics, geographic distribution, and service utilization. Program goals are quantified so that data can be collected and progress evaluated. The efficacy of services/activities is reflected in the impact (i.e., knowledge gained, skills developed, and behavior change) on the participant and by their direct feedback as to its relevancy. Service methodology is modified as needed to improve efficacy. The Compeer Model is listed in the National Registry of Evidence-based Programs and Practices (NREPP), a searchable online database of mental health and substance abuse programs that have been rated for the quality of research supporting intervention outcomes and the availability of training and implementation materials. All interventions in the registry have met NREPP’s requirements for readiness for dissemination. The NREPP is a program of the Substance Abuse and Mental Health Services Administration (SAMHSA), a branch of the U.S.
Department of Health and Human Services. SAMHSA's mission is to reduce the impact of substance abuse and mental illness on America's communities. The purpose of NREPP is to help the public learn more about mental health and substance abuse programs and determine which of these may best meet their needs.

The Compeer Model includes thorough mentor screening, comprehensive training and ongoing monitoring of the mentor-mentee match. Fidelity to the Model maintains the integrity of the match and the increased likelihood that match goals will be achieved. Compeer Rochester is unique in our community because we provide the services of a bi-lingual (Spanish) Family Peer Advocate whose role is to assist families through challenges that arise that might have an offsetting impact on an otherwise effective mentoring relationship.

This second assessment measures the youths’ internal and external strengths and helps to provide a more complete picture of a young person’s life, which allows VOH to provide more effective interventions and programming. In addition, prior to job placement, each youth will work with VOH’s Vocational Counselor, to complete a vocational screening assessment and job interest survey - this will assess for readiness into the program.

94% of youth completing the program will demonstrate work readiness competencies; 100% of youth will create and 85% adhere to a financial management plan; 94% of surveyed participants completing the program will declare a broader understanding of career options and how to access them; 95% of youth enrolled in the WBL Program will successfully complete the program; 100% of youth will create career plans in youth portfolios; 95% of all sites employing Villa youth will have received training prior to and during orientation.

Subject: Amend the Monroe County Budget and Resolution 211 of 2020 to Increase Monroe County’s Contribution to Monroe Community College for the Payment of Tech Fees for the 2021-2022 School Year

Honorable Legislators:

Monroe Community College (MCC) is known throughout the country as a premiere community college when evaluating course variety, STEM Education Opportunities, facilities, athletics and affordability. With more students looking to pursue low cost college education with the rising price of traditional four year schools, and COVID-19 forcing more students to learn remotely, it only makes sense that an affordable community college education becomes a more attractive option for our residents.

It is the aim of the Monroe County Legislature to ensure that our residents are receiving the most affordable education possible. In light of that goal, it is our intention to fully fund the 2021-2022 Technology Fee increase levied on students during this academic year. These fees have increased dramatically in the past year due to necessary technology improvements throughout the facility. By covering the increase in fees, we will be making all students’ education more affordable during the financially challenging times of the COVID-19 pandemic.

The specific legislative actions required are:

1. Authorize the transfer of $700,000 from general fund 9001, fund center 1001020000, Community Contingency Fund, to make available sufficient appropriations for the payment of 2021-2022 Student Tech Fee increases at Monroe Community College.

2. Amend the 2021 Monroe County Budget and Resolution 211 of 2020 by transferring the sum of $700,000 from funds center 1001020000, Community Contingency Fund to funds center 8901010000, Monroe Community College for the express purpose of funding all student 2021-2022 Tech Fee increases at Monroe Community College.
The legislative action requested in this referral is not an "Action," as that term is defined in 6 NYCRR § 617.2(b), and is not subject to review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.

Subject: Authorize a Contract with LaBella Associates, D.P.C. for Professional Engineering Services for the Iola Combined Heat & Power Plant Improvements Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with LaBella Associates, D.P.C. in the amount of $355,000 for professional engineering services for the Iola Combined Heat & Power Plant Improvements Project.

The Monroe Community Hospital ("MCH") and 111 Westfall Road Building currently obtain utility services (electricity, steam, domestic hot water) from utility infrastructure that was constructed in 2002 at the former Iola complex. This project includes improvements to critical utility infrastructure (e.g., rehabilitate utility tunnel under East Henrietta Road, hardening of electrical switchgear room, and other electrical and mechanical improvements) to provide continued reliable, effective, and efficient utility services to MCH and the 111 Westfall Road Building.

Several consultants were considered, with LaBella Associates, D.P.C. rated the most qualified to provide professional engineering services for this project. LaBella Associates, D.P.C. will provide design services in the amount of $355,000.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with LaBella Associates, D.P.C., 300 State Street, Suite 201, Rochester, New York 14614, in the amount of $355,000 for professional engineering services for the Iola Combined Heat & Power Plant Improvements Project, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in capital fund 2006 and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.
The records in the Office of the Monroe County Treasury have indicated that neither LaBella Associates, D.P.C., nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Steven Metzger, CEO
Jeffery Roloson, President
Mark Kukuvka, Vice President

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract is included in the 2021 operating budget of the Office of the Sheriff, general fund 9001, funds center 3804030000, Prisoner Services.

This program is 100% funded by the New York State Office of Addiction Services and Supports. No net County support is required in the current Monroe County budget.

Subject: Amend the 2022-2027 Capital Improvement Program to Advance the Sheriff’s Incident Command Post Vehicle from 2023 to 2022

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I am requesting that Your Honorable Body amend the 2022-2027 Capital Improvement Program to advance the Sheriff's Incident Command Post Vehicle from 2023 to 2022 in the amount of $750,000.

The current 2022-2027 Capital Improvement Program includes the Sheriff's Incident Command Post Vehicle project; however, the Sheriff has requested that the project be advanced from 2023 to 2022. The Sheriff’s current Command Post is a converted 1998 40’ Featherlite racing trailer originally purchased for events such as golf tournaments and community festivals. The current Command Post lacks mobility and was not designed to be positioned close to critical incidents. The existing trailer’s size makes it difficult to transport which limits the Sheriff’s Office’s ability to deploy quickly and respond to emergency situations. Moreover, the trailer’s technology is out of date and not operational.

This project is scheduled to be considered by the Monroe County Planning Board on October 28, 2021.

The specific legislative action required is to amend the 2022-2027 Capital Improvement Program to advance the Sheriff's Incident Command Post Vehicle from 2023 to 2022 in the amount of $750,000.
This is a Type II Action pursuant to 6 NYCRR §617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Advancing this capital project from 2023 to 2022 will have no impact on the revenues or expenditures in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Subject: Authorize a Contract with Lawrence Kloner for Professional Services for Law Enforcement Subject Matter Expert Team Lead for Public Safety/Law Enforcement Technology Systems

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Lawrence Kloner in an amount not to exceed $35,000 for professional services for Law Enforcement Subject Matter Expert Team Lead for Public Safety/Law Enforcement Technology Systems for the period of October 1, 2021 through September 30, 2022, with the option to renew for two (2) additional one-year terms.

The highly regulated law enforcement records and specialized interfaces require a subject matter expert to serve as a central resource for the various multi-agency, high-impact, high-visibility Public Safety/Law Enforcement technology systems, including but not limited to the Law Enforcement Records Management System and the Fingerprint and Mugshot Capture and Data Exchange Software System. The new Law Enforcement Records Management System went live in July 2021. However, user go-live support, including training and process analysis for additional system functionality, are needed to meet agency needs and federal and New York State reporting requirements. Also, the County's new Fingerprint and Mugshot Capture and Data Exchange Software System will soon be implemented and requires extensive training as well as coordination with New York State Division of Criminal Justice Services. All local law enforcement agencies will share information utilizing the systems. Other federal and state law enforcement agencies will also be able to share information on the systems.

A Request for Qualification was issued for this contract with Lawrence Kloner being the sole responder.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with Lawrence Kloner, 208 Northfield Road, Rochester, New York 14617, in an amount not to exceed $35,000 for professional services for Law Enforcement Subject Matter Expert Team Lead for Public Safety/Law Enforcement Technology Systems for the period of October 1, 2021 through September 30, 2022, with the option to renew for two (2) additional one-year terms, and any amendments necessary to complete the project within the total capital fund(s) appropriation.
This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized, uses, is included in capital fund 1929 and in any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that Lawrence Kloner does not owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

The funds will be used to support a previously authorized vendor contract which provides the nurses who make home visits to all NFP clients. 4. Amend Resolution 270 of 2021 to amend and increase the contract with Community Care of Rochester d/b/a Visiting Nurse Signature Care, 2180 Empire Boulevard, Webster, New York, 14580, for support of the Monroe County Nurse-Family Partnership Program from an amount not to exceed $819,848 to an amount not to exceed $1,056,992 for the period of October 1, 2021 through September 30, 2022, with the option to renew for four (4) additional one-year periods in an amount not to exceed $1,056,992 per year.

5. Authorize the County Executive to appropriate any subsequent years of the grant awards in accordance with the grant terms, to reappropriate any encumbered balances during the grant periods according to the grantor requirements, and to make any necessary funding modifications with the grant guidelines to meet contractual commitments.

6. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the acquisition of a Fiber Optic Permanent Easement and does not include the physical alteration nor disturbance of the property. Although Part 1 of the EAF indicates there are archaeological resources and wetlands in the area, the proposed action does not include physical alteration of the site, and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for Wetlands from state and federal regulatory bodies. Accordingly, it has been determined that no significant adverse environmental impacts will occur from this action.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the acquisition of a Fiber Optic Permanent Easement and does not include the physical alteration nor disturbance of the property. Although Part 1 of the EAF indicates there are archaeological resources and wetlands in the area, the proposed action does not include physical alteration of the site, and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for Wetlands from state and federal regulatory bodies. Accordingly, it has been determined that no significant adverse environmental impacts will occur from this action.

Subject: Acceptance of a Grant from the United States Department of Agriculture Food and Nutrition Service for the Supplemental Nutrition Assistance Program Process and Technology Improvement Grant

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the United States Department of the Agriculture Food and Nutrition Service in the amount of $662,000 for the Supplemental Nutrition Assistance Program ("SNAP") Process and Technology Grant for the period of September 30, 2021 through September 30, 2024.

This award will be used to purchase and install an interactive voice response system for the Department of Human Services’ SNAP customer service phone lines. Funding will also be used to hire a technical consultant to ensure appropriate selection of the technology vendor and coordinate integration into our existing systems. Use of the interactive voice response system will reduce on-hold wait times for customers and will allow customers options for interactive self-service, eliminating the need to wait for a live person. This is the first year Monroe County has received this grant.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a $662,000 grant from, and to execute a contract and any amendments thereto with, the United States Department of Agriculture Food and Nutrition Service for the Supplemental Nutrition Assistance Program Process and Technology Improvement Grant for the period of September 30, 2021 through September 30, 2024.
2. Amend the 2021 operating budget of the Department of Human Services by appropriating the sum $662,000 into general fund 9300, funds center 5118010000, Social Services Grants.

3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grant requirements, and to make any necessary funding modifications within grant guidelines to meet contractual commitments.

4. Should funding for this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program, and where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment shall be in accordance with New York State Civil Service Law, and when applicable the terms of any labor agreements affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

This grant is 100% funded by the United States Department of Agriculture Food and Nutrition Services. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

SUPERSEDING BOND RESOLUTION DATED NOVEMBER 9, 2021

RESOLUTION AUTHORIZING THE ISSUANCE OF $5,900,000 BONDS OF THE COUNTY OF MONROE, NEW YORK, TO FINANCE THE COST OF THE RECONSTRUCTION AND IMPROVEMENT OF PORTIONS OF SOUTH AVENUE, FROM ELMWOOD AVENUE TO BELLEVUE DRIVE AND ELMWOOD AVENUE, FROM MT. HOPE AVENUE TO SOUTH AVENUE PURSUANT TO SECTION 131-K OF THE HIGHWAY LAW, IN AND FOR SAID COUNTY, AT AN ESTIMATED MAXIMUM COST OF $5,900,000 AND SUPERSEADING THE BOND RESOLUTION ADOPTED ON DECEMBER 11, 2018 (RESOLUTION NO. 293 OF 2018).

BE IT RESOLVED BY THE AFFIRMATIVE VOTE OF NOT LESS THAN TWO-THIRDS OF THE TOTAL VOTING STRENGTH OF THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. For the specific object or purpose of financing the cost of the reconstruction and improvement of portions of South Avenue, from Elmwood Avenue to Bellevue Drive and Elmwood Avenue, from Mt. Hope Avenue to South Avenue pursuant to Section 131-K of the Highway Law, in and for the County of Monroe, New York (the County), there are hereby authorized to be issued $5,900,000 bonds of the County, pursuant to the provisions of the Local Finance Law. The duly adopted current Capital Budget of the County, to the extent inconsistent herewith, is hereby amended to provide for the appropriation of an additional $500,000 to pay the cost of the aforesaid specific object or purpose ($5,400,000 having been heretofore appropriated from one or more Capital Budgets). The period of probable usefulness of the aforesaid specific object or purposes is fifteen (15) years, pursuant to subdivision 20(c) of paragraph a of Section 11.00 of the Local Finance Law.

Section 2. The maximum estimated cost thereof is $5,900,000, and the plan for the financing thereof is by the issuance of $5,900,000 bonds of said County herein authorized, provided, however, that to the extent any state and/or federal aid and/or grant and/or gift is received for the aforesaid purpose, such aid shall be used to redeem any outstanding indebtedness incurred for such purpose or shall be applied, dollar for dollar, to reduce the amount of bonds to be issued for such purpose.

Section 3. The faith and credit of the County are hereby irrevocably pledged for the payment of the principal of and interest on such obligations as the same respectively become due and payable. To the extent not paid from rates, rents, or charges, there shall annually be apportioned and assessed upon the several lots and parcels of land within said District, in the manner provided by law, an amount sufficient to pay the principal of and interest on such obligations becoming due and payable in such year, but if not paid from such source, all the taxable real property of said County shall be subject to a tax sufficient to pay the principal of and interest on such obligations as the same become due and payable.

Section 4. Subject to the provisions of the Local Finance Law, the power to authorize the issuance of and to sell the bonds and bond anticipation notes in anticipation of the issuance and sale of the bonds herein authorized, including renewals of such notes, is hereby delegated to the Director of Finance - Chief Financial Officer, the chief fiscal officer of the County under the Local Finance Law. The Director of Finance - Chief Financial Officer may sell such bonds or notes at public or private sale, at a discount or premium, at fixed or variable rates of interest or at no interest whatsoever, or as capital appreciation bonds,
and with such amortization of principal as the Director of Finance - Chief Financial Officer shall determine is most favorable to the County; and in compliance with any rules of the State Comptroller applicable thereto. Such bonds or notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Director of Finance - Chief Financial Officer, consistent with the provisions of the Local Finance Law. The Director of Finance - Chief Financial Officer may, in the event it is determined to issue variable rate bonds or notes, enter into such agreements as said officer finds reasonable to facilitate the issuance, sale, resale and repurchase of such bonds or notes, as authorized under Section 54.90 of the Local Finance Law. The Director of Finance - Chief Financial Officer is also authorized to enter into such agreements and take such other action as may be necessary or appropriate and lawful to assure that, to the extent possible, (i) interest on the bonds and notes authorized hereby will not be includable in the gross income, for federal income tax purposes, of the recipients thereof, and (ii) to enable the purchaser thereof to comply with Securities and Exchange Commission Rule 15c2-12. The Director of Finance - Chief Financial Officer is hereby further delegated all powers of this County Legislature with respect to agreements for credit enhancement, derived from and pursuant to Section 168.00 of the Local Finance Law, for such bonds or notes, including, but not limited to the determination of the provider of such credit enhancement facility or facilities and the terms and contents of any agreement or agreements related thereto.

Section 5. All other matters, except as provided herein, relating to such bonds or notes, including prescribing whether manual or facsimile signatures shall appear on said bonds or notes, prescribing the method for the recording of ownership of said bonds or notes, appointing the fiscal agent or agents for said bonds or notes, providing for the printing and delivery of said bonds or notes (and if said bonds or notes are to be executed in the name of the County by only facsimile signatures, providing for the manual countersignature of a fiscal agent or of a designated official of the County), the date, form, denominations, maturities, interest rate or rates, terms of and manner of sale and interest payment dates, place or places of payment, and also including the consolidation with other issues, shall be determined by the Director of Finance - Chief Financial Officer. The Director of Finance - Chief Financial Officer may elect to become the fiscal agent for the bonds or notes, or may contract on behalf of the County for this service pursuant to the Local Finance Law. Such bonds or notes shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals, in addition to those required by Section 52.06 of the Local Finance Law, as the Director of Finance - Chief Financial Officer shall determine.

Section 6. The validity of such bonds and bond anticipation notes, as authorized by this resolution, may be contested only if:

1) such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or

2) the provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with, and

an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Amend Resolution 426 of 2020 to Increase the Contract with HCCO, Inc. for Temporary Staffing Personnel for Information Technology Services

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 426 of 2020 to increase the contract with HCCO, Inc. for temporary staffing personnel for information technology services from an amount not to exceed $200,000 annually to an amount not to exceed $550,000 annually for the period of January 1, 2021 through December 31, 2023, with the option to renew for two (2) additional one-year periods in an amount not to exceed $550,000 annually.

The purpose of this increase is to provide desktop computer support for the County’s COVID-19 Vaccination PODs. The Vaccination PODs will require desktop computer support at each location for up to 12 hours per day, 7 days per week. The current funding for the contract with HCCO, Inc. is not sufficient to fund this additional level of support. Additionally, the Department of Information Services Help Desk support team is not currently staffed to provide this additional level of support. This contact increase will provide the resources needed to fulfill the required services for the Vaccination PODs.

The specific legislative action required is to amend Resolution 426 of 2020 to increase the contract with HCCO, Inc. for temporary staffing personnel for information technology services from an amount not to exceed $200,000 annually to an amount not to exceed $550,000 annually for the period of January 1, 2021 through December 31, 2023, with the option to renew for two (2) additional one-year periods in an amount not to exceed $550,000 annually.

This is a Type II action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract increase is included in the 2021 operating budget of the Department of Public Health, general fund 9001, funds center 5801090100, Pandemic Response. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize a Contract with CW Solutions Inc. d/b/a CW Solutions for Title and Lien Searches for the Fast Forward Monroe Programs

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with CW Solutions Inc. d/b/a CW Solutions in an amount not to exceed $400,000 for title and lien searches and related services for the County assistance programs to small businesses and the arts and cultural organizations for the period of August 11, 2021 through December 31, 2021.

By Resolution 134 of 2020, as amended, Your Honorable Body accepted funding under the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), of which providing financial assistance to businesses negatively affected by the COVID-19 pandemic is an authorized use. Monroe County successfully launched the Fast Forward Monroe program in 2020, providing $19,040,000 in financial assistance to distressed businesses, and has now replicated the program through Fast Forward Monroe 1.5, Fast Forward Monroe 2.0, and JumpstARTS programs.

These contracts for title and lien searches will provide County staff with additional resources to conduct due diligence and maintain program integrity during the application review and approval process to ensure small businesses and the arts and cultural organizations can receive CARES Act funding in a timely manner before the funding expires on December 31, 2021.

A request for proposals was issued for this contract with CW Solutions Inc. d/b/a CW Solutions the sole responder.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with CW Solutions Inc. d/b/a CW Solutions, 409 Joyce Kilmer Avenue, Suite 120, New Brunswick, New Jersey 08901, in an amount not to exceed $400,000 for title and lien searches for the Fast Forward Monroe 1.5, Fast Forward Monroe 2.0 and JumpstARTS programs for the period of August 11, 2021 through December 31, 2021.
This action is a Type II Action pursuant to 6 NYCRR § 617.5 (c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract is included in the 2021 operating budget of Department of Finance-Unallocated, general fund 9001, funds center 1209070100, State of Emergency. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither CW Solutions Inc. d/b/a CW Solutions, nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the company are:

Stacie Curtis, President  
Robert Weible, Vice President

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Amend Resolution 314 of 2021, “Authorizing Intermunicipal Agreement with Spencerport Fire District for Purchase of LUCUS Automated Chest Compression Device,” to Authorize Intermunicipal Agreements with All Local Fire Districts for Reimbursement of COVID-19 Related Expenses in Accordance with the CARES Act

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 314 of 2021, “Authorizing Intermunicipal Agreement with Spencerport Fire District for Purchase of LUCUS Automated Chest Compression Device,” to authorize intermunicipal agreements with all local fire districts and fire protection districts for reimbursement of COVID-19 related expenses in accordance with the CARES Act. These agreements will support all Monroe County fire districts by reimbursing expenses they have incurred in providing emergency medical responses to COVID-19 or purchasing medical or personal protective equipment to respond to COVID-19.

These expenses may be reimbursed to our community’s first responders using Coronavirus Aid, Relief, and Economic Security (“CARES”) Act funds. As you may recall, Your Honorable Body authorized intermunicipal agreements with fire districts last year to cover costs related to the COVID-19 pandemic incurred in 2020. This amendment will provide similar relief to all fire districts, rather than just one particular district, for the current year. Eligible expenses under the CARES Act include emergency medical response expenses, including emergency medical transportation, related to COVID-19 and the acquisition and distribution of medical and protective supplies in connection with COVID-19.

Once Your Honorable Body adopts the specific legislative actions below, I will enter into similar agreements with non-profit emergency medical services providers in Monroe County to reimburse eligible expenses in an amount not to exceed $20,000 so that all fire districts, fire protection districts, and non-profit emergency medical services that serve our community have the same opportunity to recover expenditures related to the COVID-19 virus.

The specific legislative actions required are:

1. Amend the title of Resolution 314 of 2021 to “Authorizing Intermunicipal Agreements with All Local Fire Districts for Reimbursement of COVID-19 Related Expenses in Accordance with the CARES Act.”
2. Amend Section 1 of Resolution 314 of 2021 to read: "The County Executive, or his designee, is hereby authorized to execute intermunicipal agreements with all fire districts and fire protection districts located in Monroe County for the purpose of reimbursing necessary expenditures related to the COVID-19 virus for which they have not previously been reimbursed in accordance with the requirements of the CARES Act, for the period January 1, 2021 through December 31, 2021, with the reimbursement under each agreement not to exceed $20,000."

This is a Type II Action pursuant to 6 NYCRR §617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for these agreements is included in the 2021 operating budget, general fund 9001, funds center 1209070100, State of Emergency.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

This increase and improvement of facilities is necessary to provide funding for the “General Pump Station and Interceptor Improvements” project. This project is necessary to maintain the reliability and continuity of services to District customers. The estimated cost of the improvements is $450,000, which shall be provided as cash capital.

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

The specific legislative actions required are:

5. Authorize the filing of applications and execution of Project Financing Agreements and any other necessary documents by the County Executive or the Director of Finance-Chief Financial Officer, as appropriate, for participation in the New York State Water Pollution Control Revolving Loan Fund under the applicable laws of New York State to finance all or a portion of the project.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be available in capital fund 1976 and any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

This project is necessary to maintain the reliability and continuity of services to District customers. The estimated cost of the improvements is $450,000, which shall be provided as cash capital.

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be available in capital fund 1976 and any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

Subject: Authorizing Allocation of Funding to Support Non-Profit Organizations in Monroe County

Honorable Legislators:

As elected officials, one of our highest priorities is to make sure that Monroe County citizens have resources to thrive. These resources can range from viewing and participating in cultural activities such as performing arts to receiving treatment and services that people would otherwise be lacking. The best places to find these resources are at nonprofits, who devote their time, effort, and assets to helping the community. However, these organizations are often underfunded, relying on generous donations to continue the good work they do. In last year’s budget, this Honorable Body created the Community Contingency Fund to help the community when we saw a need. It has been utilized by Legislators in both parties for the betterment of Monroe County and now we ask that money be drawn from the fund to help support non-profit organizations that provide services to our citizens that they otherwise may not receive.

The specific legislative action required is to authorize the County Executive, or his designee, to execute contracts, and any amendments thereto, with the organizations and in the amounts listed below for maintenance and operation of the following non-profit organizations pursuant to County Law § 224, for the period of January 1, 2021 through December 31, 2021.

This is a Type II Action pursuant to 6 NYCRR 617.5(c) (26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for these agreements is included in the 2021 operating budget of the Monroe County Legislature, Community Contingency Fund, general fund 9001, funds center 1001020000, Community Contingency Fund.
