Re: Memorialize the Environmental Protection Agency and the Army Corps of Engineers to rescind its request to expand federal control under the Clean Water Act

Honorable Legislators:

Monroe County has a longstanding commitment to environmental stewardship and consistently seeks ways to improve in this area. In this capacity, the protection of natural resources is often enhanced through the blending of municipal programs and services with the intent and objectives of the Clean Water Act (CWA).

When Congress authorized the CWA, the Federal Government was given the authority to manage pollution levels and maintain the integrity of all navigable waters within the United States. The Environmental Protection Agency (EPA) and the Army Corps of Engineers are currently attempting to change the definition of “navigable waters” to include any and all waters in the United States. This definition, if interpreted broadly, creates greater uncertainty rather than clarity and would encapsulate a large number of public works activities and transportation infrastructure that would be subject to the CWA and its costly and time-consuming permitting and regulatory protocols.

The CWA was not intended to protect ditches and other channels through which water flows intermittently nor was it intended to capture seeps, wet areas and isolated man-made ponds. The proposed change seeks to incorporate these waters into the regulatory purview of the CWA. The expansion of the CWA’s jurisdiction would have an enormously detrimental effect on landowners and businesses, especially in the agricultural sector.

These additional regulations, beyond significant costs and delays to taxpayers of Monroe County, have little, if any, substantive environmental benefit while diverting limited resources from other programs that do provide environmental protection. For this reason, Monroe County believes that any alterations to the CWA should originate in Congress and not in the overreach of the Administration.

Therefore, I urge you to join me in urging EPA and the Army Corps of Engineers to withdraw the proposed CWA regulation, and work collaboratively with states and local
governments to clarify federal jurisdiction that is reasonable, environmentally responsible and respects the authority of state and municipal governments in ensuring the protection of our resources. Additionally, Monroe County supports federal legislation consistent with the above recommendations and urges its Congressional and State representatives to intercede with EPA and request that EPA report to them on their response and adaptations regarding the aforementioned concerns.

RE: Memorializing the United States Congress to Pass, and President Barack Obama to Sign DISCLOSE ACT OF 2014.

Honorable Legislators:

With organizations giving untold millions to support elections, anonymous political spending is at an all-time high. Lacking full disclosure of donors and the size of their donations exposes elections to billionaires and corporations seeking their own special interests. In order for the American electoral system to remain unbiased there must be complete disclosure to avoid self-serving politics that do not address voter interests. The DISCLOSE Act is an important bill that would increase transparency and accountability in the electoral system and ensure that Americans know who is funding campaigns.

In recent elections, contributions from undisclosed sources have significantly increased, reaching $310 million in 2012. The DISCLOSE Act would require an organization that spends $10,000 or more in support of a campaign to file a report with the Federal Election Commission within 24 hours. Organizations would provide thorough expenditure data, detailing the nature and amount of each expenditure, and provide the names of all donors who gave $10,000 or more. Provisions in the bill would also prevent donors from using shell organizations to hide their activities.

The bill’s sponsor, Senator Sheldon Whitehouse (D-RI), with the support of Senator Charles Schumer (D-NY), introduced this legislation in response to special interest groups’ secretive donations that serve to deceive voters. Voters are berated with misleading ads that give no indication of who is supporting or opposing the candidates. These undisclosed donors fund ads that are disconnected to the challenges and concerns of the American people. Without proper precautions, billionaires and corporations will have a louder voice in the electoral process than the American citizen.
This influx of secret money in our political system has led the American people to question the integrity of the electoral process and lose confidence in Congress and elected officials. The only solution is an immediate and complete disclosure of contributions so that the American public can definitively see who is attempting to influence their vote. Without immediate action to curb anonymous campaign finance, the integrity of our democratic political system is at risk.

Therefore, I urge you to join me in memorializing the United States Congress to pass, and President Barack Obama to sign the DISCLOSE Act of 2014.

RE: Calling for the Creation of a Committee to Create Cost Savings in Accordance with Governor Cuomo’s Property Tax Freeze Plan

Honorable Legislators:

I recommend that Your Honorable Body establish a special temporary Committee to Create Cost Saving to ensure our county’s compliance with Governor Cuomo’s property tax freeze plan. During the first year of the program, municipalities must stay within the tax cap so that residents are eligible for rebates. However, during the second year of the program municipalities must also submit a government efficiency or shared services plan that demonstrates savings equal to one percent of the combined property tax levies for those municipalities in the plan.

As elected officials, we have a sworn duty to use taxpayer monies responsibly and efficiently. This committee will allow us to explore opportunities and options we have as local governments to control costs through shared services or consolidations to benefit tax payers. This committee should be comprised of thirteen members to best represent the overall challenges of containing costs in our county. This will include two County Legislators appointed by the Majority Leader of the Monroe County Legislature, two County Legislators appointed by the Minority Leader of the Monroe County Legislature, one Monroe County Administration official appointed by the County Executive, one City of Rochester Administration official appointed by the Mayor of Rochester and one representative based on the recommendation of the Monroe County School Boards Association.

These members shall select an additional six members from the community as at-large members. The committee shall meet in public to discuss and develop a plan of potential
efficiencies, consolidations, and cost sharing proposals. The committee shall also accept testimony and consider recommendations from the public. The committee will put forth recommendations to be submitted to the full County Legislature prior to New York State's June 1, 2015 deadline.

The specific legislative actions required are:

1. Create a Committee to Create Cost Savings in accordance with Governor Cuomo's Property Tax Freeze Plan.

2. The Committee shall meet and put forth recommendations to the Full Legislature to be voted on prior to New York State's June 1, 2015 submission deadline.

This proposal will have no impact on the revenues or expenditures of the current Monroe County Budget, but it could reduce expenses in future budgets.

RE: To Authorize the County Executive to Initiate a Procurement Process for a Parking Study at 691 St. Paul Street in the City of Rochester.

Honorable Legislators:

The current parking situation at the Department of Human Services (DHS) office on St. Paul Street has raised serious concerns for both staff and clients. The issues at this location have been longstanding and have been in need of solutions for far too long. Addressing the concerns about lack of sufficient parking spots and towing practices should be a priority for this Legislative Body.

Parking in the lots at this location is often impossible for clients. Street parking adjacent to the DHS Office is susceptible to frequent ticketing and towing, which is especially troubling considering the economic hardships faced by the vast majority of residents seeking services at DHS. The parking for staff is also less than ideal.

It is critical that there be sufficient parking at this location. Local residents and county employees deserve a facility that does not promote chaos the moment people arrive to a public building. Therefore, a formal study of the parking situation should be initiated to gather the
requisite information to determine the parking needs of this location. We must ensure that the citizens and employees of Monroe County are able to park without fear while utilizing this public building.

The specific legislative action required is to adopt the attached resolution to authorize the County Executive to initiate a procurement process for a parking study at 691 St. Paul Street in the City of Rochester.

Funding for this action is included in capital fund 1631 and any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

Subject: Acceptance of a Grant from the New York State Division of Criminal Justice Services for the District Attorney’s Office, the Office of the Sheriff, and the Department of Public Safety, Office of Probation and Community Corrections, for the Gun Involved Violence Elimination Partnership

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of District Attorney Sandra Doorley and Monroe County Sheriff Patrick M. O’Flynn.

I recommend that Your Honorable Body accept a grant from the New York Division of Criminal Justice Services, in the amount of $1,136,032, for the Gun Involved Violence Elimination (GIVE) Partnership, for the period of July 1, 2014 through June 30, 2015.

This project provides resources enabling the Monroe County law enforcement community to target violent criminals, and those possessing weapons, in a coordinated effort to reduce violent crime in Monroe County. The ultimate goal of this partnership is to support targeted firearm and violent crime reduction efforts within Monroe County. This is the first year the County is receiving this funding; however GIVE Partnership funding replaces Project IMPACT grant funding, which expires June 30, 2014 after 10 continuous years.

Funds will be used specifically to help support the following programs in the following departments:

• **District Attorney’s Office:** Partially supports fourteen (14) existing Assistant District Attorney positions assigned to prosecute violent felons and criminals possessing illegal weapons, and provide the Boys and Girls Clubs of Rochester, Inc. with an $18,000 sub grant to continue its Accelerated Reading Program;

• **Sheriff’s Office:** Supports an existing Sheriff’s Criminal Investigator (50%), a Road Patrol Deputy (50%) and a Jail Deputy, and underwrites part of the overtime costs of the Office of the Sheriff’s participation in joint anti-crime efforts with the other GIVE agency partners;

• **Office of Probation and Community Corrections:** Supports the cost of an existing Senior Probation Officer and underwrites part of the overtime costs of the Office of Probation and Community Correction’s participation in joint anti-crime efforts with the other GIVE agency partners.

We have been notified of the funding amounts for the District Attorney’s Office, fund 9300, funds center 2508010000 ($673,553), the Office of the Sheriff, fund 9300, funds center 3803010000 ($305,500), and the Department of Public Safety, Office of Probation and Community Corrections, fund 9300, funds center 2403050000 ($156,979).
The specific legislative actions required are:

1. Authorize the County Executive, or her designee, to accept a $1,136,032 grant from, and to execute contracts and any amendments thereto with, the New York State Division of Criminal Justice Services, for the Gun Involved Violence Elimination Partnership, for the District Attorney’s Office, the Office of the Sheriff, and the Department of Public Safety, Office of Probation and Community Corrections, for the period of July 1, 2014 through June 30, 2015.

2. Amend the 2014 operating grant budget of the Office of the Sheriff by appropriating the sum of $103,595 into fund 9300, funds center 3803010000, Police Bureau Administration.

3. Amend the 2014 operating grant budget of the Department of Public Safety, Office of Probation and Community Corrections by appropriating the sum of $87,790 into fund 9300, funds center 2403050000, Central Services.

4. Authorize the County Executive, or her designee, to execute a contract, and any amendments thereto, with Boys and Girls Clubs of Rochester, Inc., 500 Genesee Street, Rochester, NY 14611, to continue its Accelerated Reading Program, in the amount of $18,000, for the period of July 1, 2015 through June 30, 2015.

5. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

6. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

Environmental assessments were completed for the Gun Involved Violence Elimination (GIVE) Partnership and it was determined that there would be no significant effect on the environment.

Funding for this grant is included in the 2014 operating grant budget of the District Attorney’s Office, fund 9300, funds center 2508010000, Major Felony Bureau. Partial funding for this grant is included in the 2014 operating grant budget of the Department of Public Safety, Office of Probation and Community Corrections, fund 9300, funds center 2403050000, Central Services, and the Office of the Sheriff, fund 9300, funds center 3803010000, Police Bureau Administration. The appropriated amounts will adjust the current funding to that established by the grant.

This grant is 100% funded by the New York State Division of Criminal Justice Services. No additional net County support is required in the current Monroe County budget.

The Boys and Girls Clubs of Rochester, Inc. is a not-for-profit agency, and the records in the Office of the Monroe County Treasury have indicated that it does not owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Acceptance of Three Alternatives to Incarceration Grants from the New York State Division of Criminal Justice Services for the Pretrial Program, Enhanced Pretrial Program, and Domicile Restriction Program

Honorable Legislators:

I recommend that Your Honorable Body accept three (3) Alternatives to Incarceration (ATI) grants from the New York State Division of Criminal Justice Services, the first in the amount of $170,494, for the Pretrial Program, the second in the amount of $105,533, for the Enhanced Pretrial Program, and the third in the amount of $51,961, for the Domicile Restriction Program, all for the period of July 1, 2014 through June 30, 2015.

The goal of all ATI programs is to reduce recidivism, promote public safety, and enhance defendant/offender accountability through community corrections. Monroe County Probation Officers and Pretrial Services Corporation staff interview offenders to determine if any ATI programs would be appropriate for the offender.

The Pretrial Program provides universal screening for all defendants arrested and detained in the Monroe County Jail. The program staff interview defendants, verify information given and communicate that information to the Court in order to assist a qualified defendant in obtaining release on his/her own recognizance in lieu of money bail or pre-trial detention. If the defendant is released to the program, he/she is monitored to ensure subsequent Court appearances.

The Enhanced Pretrial Program provides intensive monitoring of a defendant by an individual case manager. An additional treatment component may be required of the defendant. The Program team links defendants with treatment programs, monitors client progress, and makes recommendations to the court for adjustment/modification. Monitoring occurs through personal and telephone contacts and continues at least twice per week until case disposition.

The Domicile Restriction Program provides an alternative to incarceration/detention by the use of electronic monitoring of offenders. The program includes traditional monitoring (landline and cellular) and GPS, and alcohol sensing equipment for high risk clients. By placing clients in this program, the County saves money, and the client has the opportunity to continue their employment, schooling, and/or treatment and maintain familial ties, thereby reducing their chance of re-offending.

The two (2) pretrial programs will be provided by Pre-Trial Services Corporation of the Monroe County Bar Association. The Domicile Restriction Program will be administered by staff from the Monroe County Office of Probation and Community Corrections. This will be the twenty-second year that the County has received these grants. This year’s funding represents the same amount as the previous grant award.
The specific legislative actions required are:

1. Authorize the County Executive, or her designee, to accept a $170,494 grant from, and to execute a contract and any amendments thereto with, the New York State Division of Criminal Justice Services, for the Alternatives to Incarceration Grant, for the Pretrial Program, for the period of July 1, 2014 through June 30, 2015.

2. Authorize the County Executive, or her designee, to accept a $105,533 grant from, and to execute a contract and any amendments thereto with, the New York State Division of Criminal Justice Services, for the Alternatives to Incarceration Grant, for the Enhanced Pretrial Program, for the period of July 1, 2014 through June 30, 2015.

3. Authorize the County Executive, or her designee, to accept a $51,961 grant from, and to execute a contract and any amendments thereto with, the New York State Division of Criminal Justice Services, for the Alternatives to Incarceration Grant, for the Domicile Restriction Program, for the period of July 1, 2014 through June 30, 2015.

4. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within grant guidelines to meet contractual commitments.

5. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolition of positions shall be in accordance with New York State Civil Service Law, and when applicable, the terms of any labor agreement affecting such positions.

Environmental assessments were completed for the three (3) ATI grants and it was determined that there would be no significant effect on the environment.

Funding for these grants is included in the 2014 operating budget of the Department of Public Safety, Office of Probation and Community Corrections, fund 9001, funds center 2403060000, Alternatives to Incarceration.

These grants are 100% funded by the New York State Division of Criminal Justice Services. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Honorable Legislators:

This grant will be used to continue funding of the salary of two (2) Probation Officers who provide intensive supervision of high-risk adult probationers by performing field checks to document violation of curfew conditions of court-ordered Probation. The success of this effort is contingent upon surprise, unannounced night visits to probationers’ homes by teams of Probation Officers and Rochester Police Officers through Operation Nightwatch. The specific legislative actions required are:

2. Amend the 2014 operating grant budget of the Department of Public Safety, Office of Probation and Community Corrections, by appropriating the sum of $4,565 into fund 9300, funds center 2403040000, General Supervision Division.

Subject: Authorize an Intermunicipal Agreement with the Town of Ogden to Provide Sanitary Sewage Conveyance and Treatment Services

Honorable Legislators:

I recommend that Your Honorable Body authorize an intermunicipal agreement with the Town of Ogden (Ogden), for the Gates-Chili-Ogden Sewer District (District) to provide sanitary sewage conveyance and treatment services to properties in Ogden’s Perry-Ward Sanitary Sewer District.

Ogden has requested the District agree to accept, convey and treat the additional sanitary sewage from these properties as out-of-District customers by way of an intermunicipal agreement. Under the agreement, Ogden will retain ownership of the sewers and any new sewers constructed to serve the properties and the District will operate and maintain them in accordance with applicable District standards. The properties will pay the annual District rate for conveyance and treatment services.

The proposed intermunicipal agreement will not require the District to expend any funds.

The specific legislative actions required is to authorize the County Executive, or her designee, to execute an intermunicipal agreement, and any amendments thereto, with the Town of Ogden, for the Gates-Chili-Ogden Sewer District to provide sanitary sewage conveyance and treatment services to properties in Ogden’s Perry-Ward Sanitary Sewer District.

Environmental assessments were completed for the project and it was determined that there would be no significant effect on the environment.

No net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,
