Re: Memorializing the New York State Assembly to Pass and Governor Andrew M. Cuomo to Sign Sheriff Patrick O’Flynn and New York State Senator Rich Funke’s Plan to Combat Opioid Abuse Regarding the Regulation and Punishment Pertaining to Opioid Possession and Sale

Honorable Legislators:

The substance abuse and opioid crisis continues to grow and infect our communities. The reach of this epidemic has impacted many upstate and western New York counties including Monroe County. While our local and state officials have already begun working diligently to fight this growing problem, there are still many measures that must be taken in order to eradicate the causes and effects of opioid addiction and substance abuse. This summer, Monroe County Sheriff Patrick O’Flynn and New York State Senator Rich Funke called on the New York State Assembly and Governor Cuomo to pass and sign several bills in the State Legislature to combat the growing opioid problem in New York State. These bills would regulate and prevent the sale and possession of opioids; they have been passed in the Senate, but are held up in the Assembly.

One of the most critical components of preventing and alleviating the effect of opioid abuse is to ensure that minors are not exposed to substances that are dangerous or highly addictive. Assembly Bill A03981 has been introduced as a means of discouraging the distribution of controlled substances to minors by increasing the potential punishment. This bill increases the punishment for selling controlled substances to people less than fourteen years old to a Class A-II felony. Because many people who abuse narcotics begin using as teenagers, it is critical to make sure that the punishment for sale to minors is severe enough to dissuade drug dealers from targeting young people. Assembly Bill A08523 also aims at combating opioid abuse in minors by amending the public health law in terms of prescribing opioids to minors. This bill prohibits physicians from prescribing minors more than a seven day supply of any controlled substance containing an opioid, except in cases of medical emergency that put a child’s health and safety at risk. In addition, parental consent must be issued before the initial prescription. This addresses the growing number of minors who become addicted to opioids due to illness or injury treated by the prescription of opioids. It is important to confront the distribution of opioids to minors, as this is the time when many people start to use and form an addiction.
Similarly, Assembly Bill A08538 amends the public health law in relation to patient counseling before issuing prescriptions containing opioids. This bill would mandate that practitioners consult and counsel patients on the effects and potency of the painkillers being distributed. This bill also calls for practitioners to advise patients of lower dosages or lesser amounts to be prescribed. This would significantly decrease excess medication being accessible to family members, friends or the patient. Again, this is important as many cases of addiction begin following the prescription of medications containing opioids for injuries. Assembly Bill A02790 aims to combat the growing black market of prescription drugs by restructuring the existing crime of the criminal sale of prescription medications. This legislation aims to increase and establish criminal penalties to more appropriately fit this crime. The improper distribution of medications containing opioids is not only dangerous as it causes addiction, but it is very costly to taxpayers as it pertains to Medicaid. This bill will save the Medicaid Program millions per year; it is estimated that the prosecution of just five doctors that are prescribing non-controlled substances could save taxpayers $3.5 million per year.

In addition to the previously mentioned bills, Assembly Bill A07689 amends current penal law and mental hygiene law in order to prohibit individuals, addiction professionals, health care providers, health care facilities or substance abuse programs from receiving any benefits to induce the referral of an individual who requires substance abuse services. It has become increasingly common for individuals or health care facilities to actively pursue people in need of treatment and promise them services in exchange for a kickback. This bill expands Health Care Fraud in the Fifth Degree to include any individual who knowingly gives or receives a kickback in exchange for a referral for substance abuse services. This bill will make sure that admission to treatment services is equal and ensures that anyone who needs assistance has an opportunity to receive the help they need. Assembly Bill A08022 has been introduced to amend the existing mental hygiene law. Currently, funds issued by the Office of Alcoholism and Substance Abuse Services (OASAS) to provide addiction, prevention, treatment and recovery services must be given to a nonprofit provider. This bill would allow for profit organizations to apply for contracts, therefore increasing competition within the RFP process. This would ensure that state dollars are being used in the most efficient way possible and helping as many people as possible. Health care is clearly an important avenue to consider when battling this opioid epidemic.

Updating the schedule of controlled substances is another way to ensure that everything possible is being done to combat the problems we are facing with drug abuse. Senate Bill S05357 amended public health law in order to add substances to the schedules of controlled substances. The Assembly must introduce same as legislation to ensure that state schedules are consistent with federal schedules which will promote health and safety. In many cases, drug-seeking individuals exploit the fact that certain drugs are not controlled substances under New York State law. Adding this consistency between state and federal law is important in order to address the abuse and misuse of controlled substances. The abuse of fentanyl is another key problem in the current opioid battle. Fentanyl drugs are a major driver of the recent overdoses that have occurred throughout New York State. Senate Bill S05884 added six new derivatives of fentanyl to the controlled substance schedule because of its potency and potentially fatal impact; we urge the New York State Assembly to introduce same as legislation to this bill, as well.
A great deal of legislation has been introduced as a way to increase the sanctions associated with the possession and sale of opioids and other controlled substances. Senate Bill S00623 increases the punishment for the sale of Carfentanil. Carfentanil is an extremely potent substance that is being sold as heroin or being used to cut heroin. Most commonly, Carfentanil is used as a tranquilizer by veterinarians; a 10 mg dose is able to tranquilize a 15,000 pound elephant. It is critical that substances such as Carfentanil are stopped from being sold and distributed to people because of its obvious destructive impacts. Another Senate Bill, S02744, provides a disincentive to drug dealers for selling heroin or compounds containing heroin. The passage of a similar bill in the Assembly would attempt to combat heroin overdoses by increasing the penalties for selling heroin or compounds that include heroin or other narcotics. Heroin plays a key role in many of the overdoses we have seen across the state and across the nation; increasing the penalty for distributing and selling heroin will likely have a significant effect on those selling narcotics, as well as the amount of people purchasing and possibly suffering an overdose.

Introducing and passing a bill similar to Senate Bill S00880 would also help to combat opioid addiction by restricting and imposing a greater penalty for the possession and criminal sale of substances that contain heroin. The passage of a bill like this would create appropriate level penalties pertaining to the sale of heroin by taking into account the lighter weight of heroin. Heroin weighs less than other drugs; therefore more doses of heroin are necessary to trigger criminal offenses, despite the potency and potentially fatal nature of heroin. The introduction of same as legislation in the New York State Assembly would address this issue by creating appropriate levels of weight to trigger sections of the penal law. Senate Bill S00638 confronts another way that criminal drug offenses are triggered by; the possession of individual packages of heroin or compounds containing heroin and other narcotics. Currently, dealers are able to carry large amounts of individually packaged opioid substances before triggering felony charges. Amending the penal law to make it more difficult to sell large amounts of these controlled substances will provide communities some of the necessary tools to target heroin dealers.

Introducing a same as bill in the Assembly will help to establish a presumption of intent to sell. Senate Bill S01127 establishes "drug free zones" on the grounds of a drug or alcohol treatment center. This legislation will prohibit the criminal sale of a controlled substance within 1,000 feet of a drug or alcohol treatment center or methadone clinic. This is crucial to the success of the battle against drug abuse. Dealers often prey on individuals with addictions by distributing in the immediate vicinity of these places. Those who are actively seeking and receiving treatment deserve to feel safe and confident while they are receiving the help they need.

The passage of Assembly Bill A03398 is another critical component of the plan to combat opioid abuse. This bill enacts “Laree’s Law,” which would establish the crime of homicide by sale of an opiate controlled substance. Currently, someone who sells a drug that results in the death of a user can only be charged with the criminal sale of a controlled substance. Earlier this year, this Honorable Body signed onto a resolution memorializing members of the New York State Assembly to pass and Governor Cuomo to sign this bill. We continue to feel that this is an important road to take in battling the abuse of opioid-based substances.

There are several actions that need to be taken to ensure that the opioid epidemic that we are in the midst of does not take any more lives from our community. Monroe County is
fortunate to have leaders like Monroe County Sheriff Patrick O’Flynn and State Senator Rich Funke who are helping to lead the charge against drug use and abuse in our community. Passing legislation that discourages the possession and distribution of narcotics is of the utmost importance when considering the drastic rise of drug use in New York State. We cannot afford to lose any more lives from this terrible epidemic. Therefore, we urge you to join us in calling on the New York State Assembly to pass Assembly Bills A03981, A08523, A08538, A02790, A07689, A08022 and A03398 and introduce and pass same as legislation for Senate Bills S05357, S05884, S00623, S02744, S00880, S00638 and S01127 and Governor Andrew M. Cuomo to sign all of the above mentioned bills included in Sheriff Patrick O’Flynn and Senator Rich Funke’s plan to combat opioid abuse. It is critical that the New York State Assembly and Governor Cuomo act upon these bills and we thank Sheriff Patrick O’Flynn and Senator Rich Funke for their leadership in combatting the opioid epidemic.

Subject: Amend Resolution 240 of 2014 to Revise the M/WBE Policy Statement for Monroe County Capital Projects to Include Veteran-Owned and Service Disabled Veteran-Owned Businesses

Honorable Legislators:

We recommend amending Resolution 240 of 2014 to revise the M/WBE Policy Statement for Monroe County capital projects to include veteran-owned businesses and service-disabled veteran-owned businesses (SDVOBs) to promote more meaningful participation in public procurement, thereby further integrating such businesses into Monroe County’s economy.

The objective of this revision is to expand opportunities for Veterans and SDVOBs primarily through increased participation in county contracting and procurement. Monroe County residents are indebted to our Vets for their service, and we in county government are obligated to create an environment that encourages them to seek business opportunities. In addition, this amendment will have a positive impact on our economy by better assisting veterans with county business opportunities.

We recommend a level of participation goal of three (3) percent total for Veteran-Owned and Service-Disabled Veteran-Owned Businesses for annual county construction expenditures funded by a given year’s Capital Budget. Per the Veteran’s Business Council, there are 39 registered Veteran owned businesses and an estimated 300 SDVOB’s currently in Monroe County.

The Specific legislative actions required are:

1. Schedule and hold a public hearing on this proposed policy amendment.
2. Amend Resolution 240 of 2014 to revise the M/WBE Policy Statement for Monroe County Capital Projects, as attached.

This policy initiative will have no impact on this year’s Monroe County budget.

We recommend that this matter be referred to the appropriate committee(s) for favorable action by this Honorable Body.

Subject: Authorize Intermunicipal Agreements and Contracts with Fire Agencies for Limited Access to Monroe County’s Trunked Radio System

Honorable Legislators:

I recommend that Your Honorable Body authorize intermunicipal agreements and contracts with fire agencies for limited access to Monroe County’s trunked radio system, for the period of November 1, 2017 through October 31, 2018, with the option to renew for two (2) additional one-year periods.

Currently, fire agencies communicate on the conventional radio system. Limited access to the trunked system is intended to allow fire agencies to begin using the radio system for training operations, administrative functions and testing building penetration, prior to full transition to the system. By testing, agencies may discover any potential issues that can be addressed prior to full operational transition, which is projected to begin in 2020. In addition, County staff will be able to program radios with a phased approach.

The specific legislative action required is to authorize the County Executive, or her designee, to execute intermunicipal agreements and contracts, and any amendments thereto, with fire agencies for limited access to Monroe County’s trunked radio system, for the period of November 1, 2017 through October 31, 2018, with the option to renew for two (2) additional one-year periods.
