**Re: Memorializing Governor Andrew M. Cuomo, Commissioner of Health Dr. Howard Zucker, and the New York State Legislature to Raise the Reimbursement Rates for Direct Service Providers and Service Coordinators in the Early Intervention Program**

Honorable Legislators:

The Majority Caucus of the Monroe County Legislature has repeatedly called on New York State to make meaningful changes to the Early Intervention Program in New York State. These repeated pleas for help have gone without acknowledgement and Monroe County, as well as many other counties, now face an Early Intervention crisis impacting direct care providers, service coordinators and most importantly, the children and families served by Early Intervention. Governor Cuomo's lack of knowledge and focus on the lifesaving Early Intervention Program is disheartening and poses a threat to many children in our community and statewide who are in dire need of services.

Early Intervention is a critical program for children between birth and three years old. In many cases, Early Intervention can be lifesaving and can significantly impact the quality of life for children and families. County Health Departments coordinate all Early Intervention services, however New York State sets the reimbursement rates, contracts with the providers, and controls the regulations of the program. The reimbursement rates have remained the same or have even been cut in the last two decades.

Due to the inaction and inability of New York State to provide adequate reimbursement to direct service providers, the amount of providers has significantly decreased statewide. This has led to a shortage of both direct service providers and service coordinators. Because of these shortages, providers are dropping out of the program and counties are being forced to fill the gap with no help or acknowledgment from the State. Monroe County has had at least five prominent providers close their service coordinator program in the last decade.

As a result of these shortages, Monroe County, as well as other counties, are facing a service coordinator capacity issue, as well. While Monroe County's Public Health staff has gone above and beyond to provide service coordination to residents, there are currently not enough service coordinators to manage the volume of incoming cases.

Therefore, we urge you to join us in calling on Governor Andrew M. Cuomo, New York State Commissioner of Health Dr. Howard Zucker, and the New York State Legislature to make immediate and meaningful reform to the Early Intervention Program in New York State including raising the reimbursement rates for Direct Service Providers and Service Coordinators. As we have asked for in the past, New York State must expand the capacity of providers statewide and provide timely reimbursement for Early Intervention services. We will continue to advocate on behalf of service coordinators, providers,

and children and families who are receiving care until New York State assumes its responsibility in ensuring Early Intervention Program stays solvent. The State has ignored its duty for nearly two decades and is putting children at risk in doing so. Making steps to fix the Early Intervention crisis we are facing by raising the reimbursement rate for Direct Service Providers and Service Coordinators is an important step in ensuring the wellbeing of children in need.

This grant will partially fund the salary of an existing full-time Investigator position in the District Attorney's Office. The Investigator will assist prosecutors by collecting statements and other evidence, and by providing support service to victims of domestic violence and their families, who may find the judicial process to be a traumatic experience. The Investigator orients victims to procedures, assists in arranging court appearances, and helps victims to obtain services from community organizations. **The specific legislative actions required are:**

1. Authorize the County Executive, or her designee, to accept a \$50,000 grant from, and to execute a contract and any amendments thereto with, the New York State Division of Criminal Justice Services, for domestic violence services in the District Attorney's Office, for the period of October 1, 2018 through September 30, 2019.

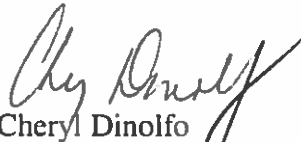

2. Amend the 2018 operating budget of the District Attorney's Office by appropriating the sum of \$50,000 into general fund 9300, funds center 2505010000, Special Victims Trial Division Administration.
3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual requirements.
4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service law and, when applicable, the terms of any labor agreement affecting such positions.

Environmental assessments were completed for this action and it was determined that there would be no significant effect on the environment.

This grant is 100% funded by the New York State Division of Criminal Justice Services. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

I recommend that Your Honorable Body accept a grant from the University of Baltimore, in the amount of \$262,500, and authorize a contract with PrimeCare Medical of New York, Inc. (PrimeCare Medical), in the amount of \$190,000, for the Combatting Opioid Overdose through the Community-Level Intervention Initiative, for the period of January 1, 2019 through December 31, 2019.

The grant funding will allow the Monroe County Sheriff's Office to implement an evidence-based medication-assisted treatment program in the Monroe County Jail. The new project reflects the work of a community coalition between a research partner, community partner organizations (for case management), PrimeCare Medical (Jail Medical Provider) and the Monroe County Sheriff's Office. The program will be offered to incoming male and female inmates, on a voluntary basis, with opioid use disorders. The Sheriff's medical provider will oversee the screening and medical treatment, and provide a Transitional Care Coordinator to provide medical case management. Sheriff Drug Counselors will also provide drug counseling treatment and case management within the facility and transition the inmates to a community partner organization to ensure continuum of care of inmates upon release. The research partner will evaluate program and data and gather sufficient detail to document what was completed and successful to allow other organizations to replicate the program. This is the first time the County has received this grant.

A request for proposals was issued with PrimeCare Medical of New York, Inc. selected as the most qualified to provide this service.

**The specific legislative actions required are:**

1. 4. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
5. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

Environmental assessments were completed for this action and it was determined that there would be no significant effect on the environment.

This grant is 100% funded by the University of Baltimore. No net county support is required in the current Monroe County budget.
