RE: Enact a Local Law Entitled, “Amending Monroe County Charter Relating to Term of Office of Members of County Legislature”

Honorable Legislators:

This Honorable Body last revised legislative district boundaries and defined the length of terms of office for the Monroe County Legislature in 2011. The terms of office set as part of Local Law No. 7 of 2011 expire on December 31, 2021. Under normal circumstances, newly defined terms of office and revised legislative district boundaries would be presented jointly following the work on the Legislative District Revision Committee. As many in this Honorable Body are aware, the appointment of the Legislative District Revision Committee is legally tied to the publication of the results of the regular federal census.

Although the U.S. Census Bureau recently stated it is taking steps to meet the statutory deadline of December 31, 2020, reapportionment data may not be available until the second quarter of 2021. The timeline for the release of reapportionment data coupled with the New York State Political Calendar, which likely will call for the circulation of designating petitions to begin sometime in February 2021, makes it impossible for new legislative district boundaries to be viable for the general election to be held in the year 2021.

Despite this Honorable Body’s inability to revise legislative district boundaries, we must adjust the length of terms of office for the Monroe County Legislature as defined in Section C2-2(D) of the Monroe County Charter. The Majority believes the most practical approach is to amend the existing term of office structure so all Legislators shall be elected to a term of two years at the general election to be held in the year 2021. An additional two-year term will allow for revision of legislative district boundaries to take place once the reapportionment data becomes available, and for the newly defined legislative district boundaries to be in effect for the general election to be held in the year 2023.

Additionally, adding a new two-year term of office will allow this Honorable Body to later set new terms of office for the traditional ten-year cycle. This will avoid the perpetual timing issue that will exist into the future. Although the COVID-19 pandemic contributed to the expected delay
in the availability of reapportionment data, it likely still would have been impossible for this Honorable Body to revise legislative district boundaries in time for the circulation of designating petitions even if the data was not delayed.

By looking at the timeline for past Legislative District Revision Commissions, it's clear there would not be sufficient time to revise legislative district boundaries even if apportionment data was made available at the December 31st statutory deadline. The 2011 Legislative District Revision Commission was appointed on February 1, 2011. However, the local law defining the terms of office and revising the legislative district boundaries became effective on May 26, 2011. Although the nearly four-month timeline was suitable based on the 2011 New York State Political Calendar, it would not be viable under the new Political Calendar that is predicated on consolidated Federal and State Primary Election dates.

Therefore, I recommend this Honorable Body enact the attached local law, thereby amending Section C2-2(D) of the Monroe County Charter to add that all Legislators shall be elected to a term of two years at the general election to be held in the year 2021.

The specific legislative actions required are:
1. Schedule and hold a public hearing on the proposed Local Law.
2. Enact a Local Law to amend the Monroe County Charter relating to the term of office of members of the County Legislature.

This action is a Type II Action pursuant to 6 NYCRR 617.5(c) and is not subject to review under the State Environmental Quality Review Act.

This proposal will require no additional net County support in the current Monroe County budget.

Respectfully Submitted,

Steve Brew
Republican Majority Leader

Subject: Acceptance of a Grant from the New York State Canal Corporation for the New York State Canal Corporation Marine Patrol Matching Grant Program

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body accept a grant from the New York State Canal Corporation in the amount of $38,400 for the New York State Canal Corporation (NYSCC) Marine Patrol Matching Grant Program, for the period of April 1, 2020 through March 31, 2021.

This grant will provide funds for the dedication of extra law enforcement patrols along the Erie Canal and Canal Way Trail in Monroe County. In the past, NYSCC funded New York State Police patrols in that area; however, nine years ago the New York State Police suspended all dedicated marine patrol in the state. Therefore, NYSCC made the funds available to locally-administered police agencies. This money will be used to fund overtime for those deputies assigned to patrol the Erie Canal and Canal Way Trail. This will be the ninth year the County has received this grant. This year’s funding is an increase of $640 from last year.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a $38,400 grant from, and to execute a contract and any amendments thereto with, the New York State Canal Corporation for the New York State Canal Corporation Marine Patrol Matching Grant Program for the period of April 1, 2020 through March 31, 2021.
2. Amend the 2020 operating budget of the Office of the Sheriff by appropriating the sum of $38,400 into general fund 9300, funds center 3803010000, Police Bureau Administration.

3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolition of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c) and is not subject to review under the State Environmental Quality Review Act.

This grant requires a 25% local match. This match funding is included in the 2020 operating budget of the Sheriff’s Office, general fund 9001, funds center 3803010000, Police Bureau Administration.

This grant is funded by the New York State Canal Corporation. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize Implementation of a Project Labor Agreement for the Frank E. Van Lare Water Resource Recovery Facility Capital Improvements Project

Honorable Legislators:

I recommend that Your Honorable Body authorize the implementation of a Project Labor Agreement ("PLA") for the Rochester Pure Waters District's ("District") Frank E. Van Lare Water Resource Recovery Facility ("FEV WRRF") Capital Improvements Project.

The District owns, operates and maintains the FEV WRRF located at 1574 Lake Shore Boulevard in the City of Rochester. Overall project construction for the FEV Capital Improvements Project will consist of primarily three (3) separate construction contracts: FEV WRRF Aeration System Improvements, Phase B; FEV WRRF Secondary Clarifier Improvements, Phase 2; and FEV WRRF Electrical System Improvements. The proposed improvements total approximately $45 million and will be constructed over the next seven years.

A PLA will serve the objectives to provide uniform work conditions, cost savings, maximum labor-management harmony, and comprehensive protection against work disruptions arising out of labor disputes. An economic benefits analysis performed by Seeler Engineering, P.C. indicates that the PLA for the project may result in an estimated labor cost savings of $251,100 which is 4.4% of the estimated project labor cost. The benefits of such an agreement are outlined in the final Benefits Analysis Report which is on file in the Office of the Clerk of the Monroe County Legislature.

The terms of the PLA have been negotiated with the union trades by Monroe County, Seeler Engineering, P.C. and the project construction manager, The Pike Group. The PLA will be executed between The Pike Group, as construction manager, and the union trades. Monroe County negotiated and implemented PLAs for the O'Rorke Bridge Project in 2000, the Monroe Community College Building 9 Expansion and Renovation Project in 2007, the Monroe County Public Safety Laboratory Project in 2009, the Monroe Community College Downtown Campus in 2015 and the Modernization and Revitalization of Terminal Facilities at the Greater Rochester International Airport in 2017.
The specific legislative actions required are:

1. Authorize the implementation of a Project Labor Agreement for the benefit of the Frank E. Van Lare Water Resource Recovery Facility Capital Improvements Project.

2. Authorize the County Executive, or his designee, to take such necessary action as is required to ensure that the work on the Frank E. Van Lare Water Resource Recovery Facility Capital Improvements Project are carried out in accordance with the terms of the Project Labor Agreement and, in the event of a court order prohibiting the implementation of the Project Labor Agreement, to take such action as is necessary to progress the work without delay, including the letting of further or additional contracts necessary to complete the project.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c) and is not subject to review under the State Environmental Quality Review Act.

This Project Labor Agreement will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committees for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Authorize a Contract with Phoenix Business, Inc. for SAP Hosting Support Services

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Phoenix Business, Inc., for an amount not to exceed $600,000 for the first year and $350,000 annually thereafter, for SAP hosting support services for the period of November 16, 2020 through November 15, 2025, with the option to renew for five (5) additional one-year periods.

The SAP program operates and supports the County's Finance, Payroll, Purchasing and Work Order information technology systems. The hosting support services will include break/fix and enhancement work to ensure the needs of the County’s SAP users are being met. The County does not have in-house staff with the level of expertise required to perform SAP hosting support services for the County. The first year of the contract will include a dual platform in preparation for transferring the County’s SAP electronic data files from the existing server to the new platform, which will not exceed $350,000, plus migration costs of $250,000. The additional contract years will not include data migration costs.

A Request for Proposals was issued, with Phoenix Business, Inc. selected as the most qualified to perform these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Phoenix Business, Inc., 6021 Midnight Pass Rd Unit 3, Sarasota, Florida 34242, for SAP hosting support services, in an amount not to exceed $600,000 for the first year and $350,000 annually thereafter, for the period of November 16, 2020 through November 15, 2025, with the option to renew for five (5) additional one-year periods.
This is a Type II action pursuant to 6 NYCRR § 617.5(c) and is not subject to review under the State Environmental Quality Review Act.
