Subject: Memorializing the United States House of Representatives to pass H.R. 2301 and enact the Clinical Trial Cancer Mission 2020 Act

Honorable Legislators:

Nearly sixteen hundred Americans die from cancer every day. In 2014 alone, it is projected that 550,000 people will die from some form of cancer and over 1,000,000 people will develop some form of the disease. In the United States, cancer has become the second most common cause of death after heart disease, and accounts for nearly 1 of every 4 deaths.

Research funded by the American Cancer Society indicates that in a five year relative survival rate for all cancers diagnosed between 2003 and 2009, 68% of those diagnosed have a better survival rate, an increase from 49% in 1975-1977. This improvement of survival is a result of both progress in diagnosing certain cancers at an earlier stage and vast improvements in treatment as a result of recent advancements in research.

The Clinical Trial Cancer Mission 2020 Act will amend the Public Health Service Act to enhance the clinical trial registry data bank reporting requirements and enforce measures to ensure that the results of any cancer research that is being conducted are documented within this database in a timely manner. The publishing of results would be mandatory regardless of the effectiveness of the particular method studied. Based upon these changes, the Clinical Trial Cancer Mission 2020 Act will help to advance cancer research and ensure that tax payers dollars are being spent in the most productive and efficient manner.

Therefore, I urge you to join me in memorializing the United States House of Representatives to pass H.R. 2301 and enact the Clinical Trial Cancer Mission 2020 Act, which will strengthen cancer research reporting requirements to make current research data more readily available. The Clinical Trial Cancer Mission 2020 Act is a step in the right direction to attain the goal of ending cancer by the year 2020.

Subject: Memorizing the New York State Senate to Oppose the Marijuana Regulation and Taxation Act

Honorable Legislators:

The cultivation, processing, transportation and use of marijuana presents a major public health risk. In a recent study conducted by the Rocky Mountain Poison and Drug Center in Denver following the legalization of marijuana in Colorado, doctors have noticed an increase in exposure to marijuana in young pediatric patients. Specifically, these doctors noted that the young patients have had more severe symptoms than typically associated with marijuana use. In all, over fifteen hundred children under the age of 12 have been evaluated and admitted to hospitals in Colorado for accidental marijuana poisonings.

Research conducted by the Substance Abuse and Mental Health Service Administration reported over 500,000 emergency room visits in 2011 directly were connected to marijuana use, surpassing heroin and LSD. In a recent report conducted by the Institute of Behavior and Health regarding automobile accidents, 26.9% of seriously injured drivers tested positive for marijuana. These reports show that the use of marijuana can be dangerous to an individual’s safety and well-being.

The Marijuana Regulation and Taxation Act will legalize, regulate and tax marijuana under state law. This will enable any person over the age of 21 to legally purchase up to two ounces of marijuana. The core issues with the legalization of marijuana are the unintended health and safety risks not only for those who partake in the recreational use of this drug but for children exposed to these drugs and motorists who share the roadways with those under the influence.

Therefore, I urge you to join me in memorializing the New York State Senate to oppose the Marijuana Regulation and Taxation Act, which will legalize the use of marijuana in New York State. With the increased risks which could be visited on our State’s children and motoring public, it is important that New York State comply with current federal law and join federal agencies to stop the spread of marijuana distribution.

RE: Enacting a Revolving Door Ban on Employment with Local Development Corporation Contractors

Honorable Legislators:

Public trust in government can be shattered when current or former government officials are perceived to value their own personal financial well-being over the public good. In order to protect public interest, it is important to establish a ban on the practice of county officers or employees from accepting employment with entities contracting or subcontracting with a Local Development Corporation.

Similar revolving door bans have been adopted in thirty-one states and by the White House in order to prevent actual or perceived conflicts of interest. By establishing a “cooling off period” between public and certain private sector employment, the County can establish greater compliance with our ethics rules and constituents are able to gain trust regarding who is benefiting from their tax dollars. By adopting this policy, Monroe County officials would ensure that individuals affiliated with LDCs are not influenced by political connections.

In the recent past, there have been several high-ranking county officials who have left public employment to obtain lucrative new jobs with LDCs and their subcontractors. This pathway to employment leaves the public with the clear impression, whether legitimate or not, that public officials are being rewarded for their political contacts.

To help prevent the erosion of public trust by these occurrences, we propose enacting a two-year ban on county officers or employees soliciting or accepting employment with certain LDCs, their contractors and subcontractors. The enactment of this law will send a strong message that we will not tolerate even the appearance of rewarding entities that hire current or former county officers and employees.
Therefore, we propose that this Honorable Body enact a local law amending the Monroe County Charter and Administrative Code entitled “Enacting a Revolving Door Ban on Employment with Local Development Corporation Contractors”

The specific legislative actions required are:

1. Schedule and hold a public hearing on the proposed local law.

2. Enact local law amending the Monroe County Charter, as attached.

This proposed local law will have no impact on the revenues and/or expenditures of the 2014 Monroe County Budget.

We recommend that this matter be approved by Your Honorable Body.

RE: Memorializing the United States Congress to Pass, and President Barack Obama to Sign S.2035, the Suicide Prevention Research Innovation Act of 2014 (SPRINT ACT).

Honorable Legislators:

The tragedy of suicide is devastating, and loved ones are often left with many questions that go unanswered. In order for America to make a firm commitment to suicide prevention, there needs to be a shift in focus to supporting mental health resources and brain research. The SPRINT ACT of 2014 is an important bill that would designate funding to both understand and prevent suicide.

The SPRINT Act of 2014 would provide $40 million per fiscal year to the National Institute for Mental Health (NIMH) to conduct targeted research on suicide prevention over the next five years. The research includes studies designed to reduce the risk of self-harm, suicide and interpersonal violence, especially in rural communities with a shortage of mental health services.

The bill’s sponsor, Senator Mark Begich (D-AK), introduced this legislation in response to troubling statistics regarding suicide in the United States. According to the Centers for Disease Control, more than 38,364 Americans commit suicide every year. It is believed that 90 percent of the individuals who die by suicide had a diagnosable psychiatric disorder at the time of their death. Veterans are an especially at-risk population, accounting for 20 percent of all suicides in the U.S.

As the tenth leading cause of death in the United States, more must be done to ensure every possible action is being taken to better understand and more capably address instances of preventable suicide. This critically important legislation has the potential to prevent families from dealing with the devastating wake that suicide brings. For these reasons, it must be enacted.

Therefore, I urge you to join me in memorializing the United States Congress to pass, and President Barack Obama to sign S.2035, the Suicide Prevention Research Innovation Act of 2014 (SPRINT 2014).

RE: Memorializing the United States Congress to Pass, and President Barack Obama to Sign S.56, the Right Start Child Care and Education Act.

Honorable Legislators:

The ability for a parent to afford child care is synonymous with their ability to gain meaningful employment and have financial success. Unfortunately, the cost of child care is significantly rising, which places an unrealistic burden on New York families. Senator Kirsten Gillibrand has co-sponsored S.56, the Right Start Child Care and Education Act, that would make child care more affordable and encourage more trained professionals to enter the child care work force.

The legislation would amend the Internal Revenue Code to increase the rates and maximum allowable amount of the tax credit for employer-provided child care facilities. It would also increase the eligibility threshold amount and rate of the household and dependent care tax credit and make such credit refundable. Further, it would allow a new $2000 tax credit for child care providers who hold a bachelor’s degree in early childhood education or a related degree. Lastly, it would increase the tax exclusion for employer-provided dependent care assistance.

According to a report by Senator Gillibrand, New York's working parents are paying higher rates than ever for quality child care. The cost of child care has increased approximately $730 per year while the allowable tax credit has increased less than $20 a year since 1981. It is estimated that families across New York are paying approximately $10,400 per year for an infant, $9,100 per year for a toddler and $8,300 per year for a school aged child. The proposed legislation would greatly decrease the cost of child care for New York families while increasing the level of care that children receive by increasing the number of individuals with early education training in the child care field.
Therefore, I urge you to join me in memorializing the United States Congress to pass, and President Barack Obama to sign S.59, the Right Start Child Care and Education Act.

Re: Calling on Governor Cuomo to Support Local Town Officials and Oppose Amending the Current Agreement with the Seneca Nation to Allow For a Casino in the Town of Henrietta

Honorable Legislators:

Recently, the Seneca Nation purchased land in the Town of Henrietta for development, including a proposed casino. While investment in our County should always be encouraged and welcomed, it is not at all clear that a casino is in the best interest of the residents and businesses in the Town.

Supporters of casinos cite a growth in jobs and tourism dollars for the community where it is located. However, studies indicate that casinos draw a significant share of their dollars from local residents, hurting surrounding small businesses. If the project receives tax or regulatory breaks, the advantage over local businesses becomes even more obvious. There are also wider societal issues that come along with casino including increased addiction and crime.

More importantly, the Town of Henrietta is officially opposed to a proposed casino. This came as a result of an outcry from residents to their local elected officials. It is important that these local wishes be respected and that this Honorable Body join the Town of Henrietta in declaring its official opposition to a casino within the Town of Henrietta. Therefore, we urge you to join us in calling on Governor Andrew Cuomo to oppose amending the current agreement with the Seneca Nation to allow a casino within the Town of Henrietta.

Subject: Authorize a Contract with CHA Consulting, Inc., for Design Services for the Extend Taxiway E to Runway 10 Threshold Project at the Greater Rochester International Airport

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with CHA Consulting, Inc., in the amount of $160,000, for design services, for the Extend Taxiway E to Runway 10 Threshold Project at the Greater Rochester International Airport.

This project will improve airfield safety with the construction of 1,000 feet of new 75 feet wide asphalt pavement which is an extension of Taxiway E from Runway 4-22 to the Runway 10 Threshold. The project is shown on the approved Airport Layout Plan and several projects have been completed over the past thirteen years to prepare for this new taxiway. The project work includes earthwork, drainage improvements, crushed stone subgrade, asphalt pavement, airfield lighting, and pavement markings.

This project will be funded by a Federal Aviation Administration grant of 90%, a New York State Department of Transportation grant of 5%, and a local share of 5%.

The Department of Aviation recommends authorization of a contract with CHA Consulting, Inc., a designated airport consultant per Resolution 241 of 2011, to provide design services for the Extend Taxiway E to Runway 10 Threshold Project in the amount of $160,000.

The specific legislative action required is to authorize the County Executive, or her designee, to execute a contract with CHA Consulting, Inc., 16 Main Street West, Suite 830, Rochester, New York 14614, for design services, for the Extend Taxiway E to Runway 10 Threshold Project at the Greater Rochester International Airport, in the amount of $160,000, along with any amendments necessary to complete the project within the total capital fund(s) appropriation.

Environmental assessments were completed for the Extend Taxiway E to Runway 10 Threshold Project and it was determined that there would be no significant effect on the environment.

Listed below is pertinent information from an application for the refund of property taxes. The Real Property Tax Service Agency has the original application and support material available for review if needed. I am recommending the correction and refund of these Monroe County taxes because the same is erroneous. Listed below is the applicant's name, address, property location, tax year(s), tax account number, refund amount and reason for correction.

**Town of Clarkson:** Stiles Veterans Legacy Trust, 36 Underwood Avenue, Hilton, NY 14468 (property location: 1363 Roosevelt Highway). Tax Account No. 030.02-2-13.4 requires a $4,697.76 refund for tax year 2014. Veterans, Limited Income and Enhanced Star Exemptions were omitted from the final assessment roll in error.

**Town of Gates:** Wegmans Food Markets, Inc., P.O. Box 24470, Rochester, NY 14624 (property location: 1500 Brooks Avenue). Tax Account No. 134.08-1-85 requires a $41,145.06 refund for tax year 2012, a $63,556.58 refund for tax year 2013, a $74,957.49 refund for tax year 2014. Pure Waters Capital and O/M charges need to be partially cancelled due to the fact that a portion of the water consumed is used in the production of product and cooling towers.

The necessary procedure to be followed by the Monroe County Legislature regarding this refund is for that body, by resolution, to approve this application, to authorize and direct the Controller to draw an order on the Director of Finance payable from the Erroneous Assessment Account for the heretofore stated sums and to authorize and direct the County Director of Real Property Tax Services to mail a duplicate copy of the approved application to said taxpayer.

Subject: Authorize the Issuance of Refunding Bonds

Honorable Legislators:

I am recommending that Your Honorable Body authorize the issuance of refunding bonds in a total amount not to exceed $9 million with the proceeds to be used to pay the remaining debt service costs associated with the Public Stadium Bonds-1999 issue. The potential savings to Monroe County taxpayers of this action are significant.

Recent conditions in the bond market offer the potential for significant savings to taxpayers if the County refinances all or a portion of the outstanding balance of these bond issues by issuing refunding bonds. This would have the effect of reducing the interest cost of the original bond issue since the refunding bond issue would incur a lower interest cost and therefore result in lower debt service cost.

While the exact amount of savings cannot be determined until the interest rates for the refunding bonds are set, it is anticipated that the present value savings is estimated to be in excess of $1 million over the remaining life of the bond issue.

The specific legislative action required is to authorize the issuance of refunding bonds in a total amount not to exceed $9 million.

Environmental assessments were completed for the Issuance of Refunding Bonds and it was determined that there would be no significant effect on the environment.

No additional net County support is required in the current Monroe County budget.

Subject: Authorization to Settle Lawsuit, entitled "Frank Sterling V. County of Monroe, et. al.," and Authorize Financing

Honorable Legislators:

I recommend that Your Honorable Body authorize a settlement in the amount of $7,055,000 in an action brought against the County of Monroe by Frank Sterling, and authorize financing for the settlement in the amount of $7,500,000.

The Sterling lawsuit arises out of damages sustained by the plaintiff as a result of his arrest on July 10, 1991, by Monroe County Deputy Sheriff Investigators, and his conviction and subsequent incarceration for almost 19 years.

The specific legislative actions required are:

1. Authorize financing for the settlement of the Sterling lawsuit in the amount of $7,500,000.
2. Authorize the settlement of the Sterling lawsuit for $7,055,000.
3. Authorize the County Executive, or her designee, to execute and deliver any and all documents necessary to effectuate such settlement.

Funding for this settlement will be included in the Risk Management Fund pursuant to the financing authorization requested. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body. I request that the Sterling lawsuit referral be considered in Executive Session, pursuant to the Public Officer’s Law.

Plans, specifications and cost estimates have been prepared and the Department of Transportation is ready to advertise for bids.
