ENACT A LOCAL LAW ENTITLED “JUNIOR DEER HUNTER PILOT PROGRAM”

BE IT ENACTED BY THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. Part IV, General Local Laws of the Administrative Code and Charter of Monroe County, is hereby amended to add a new chapter to include the following Local Law:

CHAPTER 268, JUNIOR DEER HUNTING PILOT PROGRAM

§ 286-1. Title. This chapter shall be known as the law “Junior Deer Hunting Pilot Program.”

§ 286-2 Legislative Intent. The intent of this Local Law is to authorize Monroe County to permit 12- and 13-year-old individuals to participate in the new hunting opportunities pursuant to Environment Conservation Law § 11-0935. The enacted 2021-2022 New York State Budget included a pilot program expanding the opportunity for young hunters, aged 12 and/or 13, to hunt with firearms and crossbow through 2023 if a County authorizes such participation in the pilot program within their municipality via local law. Monroe County’s hunters are a large and important part of our community and this opportunity would allow adult hunters the ability to introduce and teach the proper values and ethics of hunting to the next generation. In addition, teaching such safe, proper and lawful hunting methods to young people will provide a rewarding and productive experience while providing food to families across the area and contributing to deer population control efforts.

§ 286-3 Authorizing Pilot Program in Monroe County. Pursuant to Section 11-0935 of the New York State Environmental Conservation Law, Monroe County hereby authorizes participation in the temporary pilot program to allow a hunting license holder who is twelve or thirteen years of age to hunt deer with a crossbow, rifle, shotgun, or muzzle-loading firearm through 2023.

§ 286-4 Requirements. A hunting license holder who is twelve or thirteen years of age may hunt deer with a crossbow, rifle, shotgun, or muzzle-loading firearm as provided in this chapter provided that:

D. Such minor is accompanied by their parent or legal guardian, or by a person designated in writing by such parent or legal guardian on a form prescribed by the New York State Department of Environmental Conservation, who is twenty-one years of age or older; and

E. Such parent, guardian or person has had at least three years’ experience in hunting deer; and

4. such parent, guardian or person holds a hunting license; and

5. such parent, guardian or person maintains physical control over the minor at all times while hunting. For the purposes of this paragraph "physical control" shall mean that the physical proximity of such minor to the parent, guardian or person is such that the parent, guardian or person is reasonably able to issue verbal directions and instructions, maintain constant visual contact, and otherwise provide guidance and supervision to the minor; and

6. such parent, guardian or person and the minor remain at ground level at all times while hunting; and
F. Such parent, guardian or person and the minor shall each display either a minimum total of two hundred fifty square inches of solid fluorescent orange or pink or patterned fluorescent orange or pink consisting of no less than fifty percent fluorescent orange or pink material worn above the waist and visible from all directions, or a hat or cap with no less than fifty percent of the exterior consisting of solid fluorescent orange or pink material and visible from all directions.

§ 286-5 Severability. If any clause, sentence, paragraph, section or chapter of this local law shall be adjudged by any court of competent jurisdiction to be invalid, such determination shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or chapter thereof directly involved in the proceeding in which such adjudication shall have been rendered. This local law shall not supersede any other state laws, rules, or regulations related to crossbow hunting.

Section 2. The Clerk of the Legislature shall notify the New York State Department of Environmental Conservation upon final adoption of this local law in accordance with Section 11-0935 of the New York State Environmental Conservation Law.

Section 3. This local law shall take effect after filing with the Secretary of State pursuant to Section 27 of New York Municipal Home Rule Law.

<td>The Children's Detention Center was relocated in early 2014 from Westfall Road in Rochester to the current site in Rush. An environmental review was conducted at that time and a Negative Declaration was issued by the County on December 18, 2013. Subsequent Memorandums To File were issued by Monroe County staff on 04/16/14 and 05/23/15. These Memorandum described modifications to the original plans for the facility. The conclusion was that the modifications were &quot;consistent with the scope of work considered in the environmental review&quot; and that no further environmental review was required. Modifications from the 2016 conceptual plans are now proposed in response to the &quot;Raise The Age&quot; program initiated by the State of New York. These modifications include a proposed approximately 45,050 square foot addition and interior renovations to approximately 3,560 square feet in Building 67. There may be some further improvements to Building 68 to maintain functionality while the new addition is constructed. The purpose of this project is to provide 34 SSD beds and associated program space.</td>

Short Environmental Assessment Form
Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

New modifications are proposed to the existing Children's Detention Center in response to the "Raise The Age" program initiated by the State of New York. Modifications include a proposed approximately 45,050 square foot addition and interior renovations to approximately 3,560 square feet at Building 67. There may be some minor improvements to Building 68 to maintain functionality while the new addition is constructed. Once the project is completed it is expected that Building 68 will only be used in case of occupancy overflow conditions. There will also be modifications to the existing fence, construction of a new entrance and 6 car visitor parking lot. The purpose of this project is to reconfigure the existing space and provide 34 SSD-rated beds with programmatic space.

The site appears to be within an archaeologically sensitive area according to information from the New York State Historic Preservation Office. There will be minimal ground disturbance for the construction of the new addition, a small area of fencing and the reconfigured entrance within the existing site. These areas have been significantly disturbed in the past for the construction of the original buildings and the soccer/recreational areas. It is anticipated that there will be no significant impact to archaeological resources. Part 1 of the environmental assessment form (EAF) also indicates that there may be wetlands or waterbodies present on site. The proposed activities on site are not within or adjacent to any wetland, adjacent or waterbody. The proposed project only impacts about 1.5 acres of a 53.6 acre parcel. All improvements are inside the existing fenced areas that are either currently gravel roadway or manicured grass. The project will not impact any areas that may contain threatened or endangered species. Traffic from the proposed project is expected to be very similar to the conditions resulting from the previous use.

This proposal results in a minor expansion of the existing use. The net increase after considering the removal of operations from Building 68 will be minimal. There is not expected to be any significant increase in traffic or any other potential impact from this project. Based on information contained in this EAF, as well as supporting documentation contained at the Department of Environmental Services, Monroe County has determined that there will not be any significant adverse environmental impact associated with this proposal.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

BE IT RESOLVED BY THE AFFIRMATIVE VOTE OF NOT LESS THAN TWO-THIRDS OF THE TOTAL VOTING STRENGTH OF THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. For the object or purpose of financing the cost of the Specialized Secure Detention Facility Project, consisting of renovations and additions to existing facilities, in and for the County of Monroe, New York (the “County”), there are hereby authorized to be issued $36,600,000 bonds of the County, pursuant to the provisions of the Local Finance Law. The duly adopted current Capital Budget of the County, to the extent inconsistent herewith, is hereby amended to provide for the appropriation of an additional $14,900,000 to pay the cost of the aforesaid class of objects or purposes ($21,700,000 having been heretofore appropriated from one or more Capital Budgets). The period of probable usefulness of the aforesaid class of objects or purposes is twenty-five (25) years, pursuant to subdivision 12(a)(1) of paragraph 3 of Section 11.00 of the Local Finance Law.

Section 2. The maximum estimated cost thereof is $36,600,000, and the plan for the financing thereof is by the issuance of $36,600,000 bonds of said County herein authorized, provided, however, that to the extent any state and/or federal aid and/or grant and/or gift is received for the aforesaid purpose, such aid shall be used to redeem any outstanding indebtedness incurred for such purpose or shall be applied, dollar for dollar, to reduce the amount of bonds to be issued for such purpose.

Section 3. The faith and credit of the County are hereby irrevocably pledged for the payment of the principal of and interest on such obligations as the same respectively become due and payable. An annual appropriation shall be made in each year sufficient to pay the principal of and interest on such obligations becoming due and payable in such year. There shall annually be levied on all the taxable real property of said County a tax sufficient to pay the principal of and interest on such obligations as the same become due and payable.

Section 4. Subject to the provisions of the Local Finance Law, the power to authorize the issuance of and to sell the bonds and bond anticipation notes in anticipation of the issuance and sale of the bonds herein authorized, including renewals of such notes, is hereby delegated to the Director of Finance - Chief Financial Officer, the chief fiscal officer of the County under the Local Finance Law. The Director of Finance - Chief Financial Officer may sell such bonds or notes at public or private sale, at a discount or premium, at fixed or variable rates of interest or at no interest whatsoever, or as capital appreciation bonds, and with such amortization of principal as the Director of Finance – Chief Financial Officer shall determine is most favorable to the County, and in compliance with any rules of the State Comptroller applicable thereto. Such bonds or notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Director of Finance - Chief Financial Officer, consistent with the provisions of the Local Finance Law.
Finance Law. The Director of Finance - Chief Financial Officer may, in the event it is determined to issue variable rate bonds or notes, enter into such agreements as said officer finds reasonable to facilitate the issuance, sale, resale and repurchase of such bonds or notes, as authorized under Section 54.90 of the Local Finance Law. The Director of Finance - Chief Financial Officer is also authorized to enter into such agreements and take such other action as may be necessary or appropriate and lawful to assure that, to the extent possible, (i) interest on the bonds and notes authorized hereby will not be includable in the gross income, for federal income tax purposes, of the recipients thereof, and (ii) to enable the purchaser thereof to comply with Securities and Exchange Commission Rule 15c2-12. The Director of Finance – Chief Financial Officer is hereby further delegated all powers of this County Legislature with respect to agreements for credit enhancement, derived from and pursuant to Section 168.00 of the Local Finance Law, for such bonds or notes, including, but not limited to the determination of the provider of such credit enhancement facility or facilities and the terms and contents of any agreement or agreements related thereto.

Section 5. All other matters, except as provided herein, relating to such bonds or notes, including prescribing whether manual or facsimile signatures shall appear on said bonds or notes, prescribing the method for the recording of ownership of said bonds or notes, appointing the fiscal agent or agents for said bonds or notes, providing for the printing and delivery of said bonds or notes (and if said bonds or notes are to be executed in the name of the County by only facsimile signatures, providing for the manual countersignature of a fiscal agent or of a designated official of the County), the date, form, denominations, maturities, interest rate or rates, terms of and manner of sale and interest payment dates, place or places of payment, and also including the consolidation with other issues, shall be determined by the Director of Finance - Chief Financial Officer. The Director of Finance - Chief Financial Officer may elect to become the fiscal agent for the bonds or notes, or may contract on behalf of the County for this service pursuant to the Local Finance Law. Such bonds or notes shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals, in addition to those required by Section 52.00 of the Local Finance Law, as the Director of Finance - Chief Financial Officer shall determine.

Section 6. The validity of such bonds and bond anticipation notes, as authorized by this resolution, may be contested only if:

1) such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or

2) the provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with, and

an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or

3) such obligations are authorized in violation of the provisions of the Constitution.

Section 7. This resolution shall supersede Resolution No. 189 of 2018, being a bond resolution dated July 10, 2018, except to the extent that any indebtedness shall have been contracted or encumbrances made thereunder. The purpose of this superseding bond resolution is to effect the following: to increase the maximum estimated cost of the purpose to $36,600,000, and to provide $36,600,000 bonds therefor, an increase of $14,900,000 over the $21,700,0000 bonds authorized under Resolution No. 189 of 2018.

Section 8. This resolution shall constitute a statement of official intent for purposes of Section 1.150-2 of the Treasury Regulations. Other than as specified in this resolution, no monies are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the objects or purposes described herein.
Section 0. This resolution shall take effect in accordance with Section C2-7 of the Monroe County Charter and the Clerk of the Legislature is hereby authorized and directed to publish this resolution or a summary hereof to be published, together with a notice attached in substantially the form and in the manner prescribed by Section 81.00 of the Local Finance Law.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Negative Declaration - Determination of No Significant Effect on the Environment:

The Village of Brockport will install approximately 3,250 linear feet of ADA compliant 5' wide concrete sidewalk and 340 linear feet of storm sewer. The new sidewalks will benefit residents by improving the overall safety for those who walk frequently in the area. The installation will be done in existing right of ways on a total of five separate streets (Lyman, Frazier, Barry St, Locust, and Glendale Rd). All five of these streets will be interconnected onto Glendale Rd and Locust St. On Glendale Rd and Locust St new sidewalks will be installed on the east side of both streets. To complete this project some trees will need to be removed and 25 new trees will be planted in the right of way between the sidewalk and the road. The NYS DEC locator shows a waste site on State Street which is outside of the project area. The project will not impact existing natural resources, wetlands, historical or cultural resources and will not alter the existing community character or increase traffic. The proposed action is consistent with existing land use. Accordingly, the proposed action will have no significant effect upon the environment and is determined to be a negative determination.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
