BE IT RESOLVED BY THE AFFIRMATIVE VOTE OF NOT LESS THAN TWO-THIRDS OF THE TOTAL VOTING STRENGTH OF THE LEGISLATURE OF THE COUNTY OF MONROE, as follows:

Section 1. For the object or purpose of financing the cost of the Frank E Van Lare Wastewater Treatment Plant electrical system improvements on behalf of the Rochester Pure Waters District, in and for the County of Monroe, New York (the “County”), there are hereby authorized to be issued $21,000,000 bonds of the County, pursuant to the provisions of the Local Finance Law. The duly adopted current Capital Budget of the County, to the extent inconsistent herewith, is hereby amended to provide for the appropriation of an additional $4,500,000 to pay the cost of the aforesaid class of objects or purposes ($16,500,000 having been heretofore appropriated from one or more Capital Budgets). The period of probable usefulness of the aforesaid class of objects or purposes is forty (40) years, pursuant to subdivision 4 of paragraph a of Section 11.00 of the Local Finance Law.

Section 2. The maximum estimated cost thereof is $21,000,000, and the plan for the financing thereof is by the issuance of $21,000,000 bonds of said County herein authorized, provided, however, that to the extent any state and/or federal aid and/or grant and/or gift is received for the aforesaid purpose, such aid shall be used to redeem any outstanding indebtedness incurred for such purpose or shall be applied, dollar for dollar, to reduce the amount of bonds to be issued for such purpose.

Section 3. The faith and credit of the County are hereby irrevocably pledged for the payment of the principal of and interest on such obligations as the same respectively become due and payable. To the extent not paid from rates, rents, or charges, there shall annually be apportioned and assessed upon the several lots and parcels of land within said District, in the manner provided by law, an amount sufficient to pay the principal of and interest on such obligations becoming due and payable in such year, but if not paid from such source, all the taxable real property of said County shall be subject to a tax sufficient to pay the principal of and interest on such obligations as the same become due and payable.

Section 4. Subject to the provisions of the Local Finance Law, the power to authorize the issuance of and to sell the bonds and bond anticipation notes in anticipation of the issuance and sale of the bonds herein authorized, including renewals of such notes, is hereby delegated to the Director of Finance - Chief Financial Officer, the chief fiscal officer of the County under the Local Finance Law. The Director of Finance - Chief Financial Officer may sell such bonds or notes at public or private sale, at a discount or premium, at fixed or variable rates of interest or at no interest whatsoever, or as capital appreciation bonds, and with such amortization of principal as the Director of Finance - Chief Financial Officer shall determine is most favorable to the County, and in compliance with any rules of the State Comptroller applicable thereto.
Such bonds or notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Director of Finance - Chief Financial Officer, consistent with the provisions of the Local Finance Law. The Director of Finance - Chief Financial Officer may, in the event it is determined to issue variable rate bonds or notes, enter into such agreements as said officer finds reasonable to facilitate the issuance, sale, resale and repurchase of such bonds or notes, as authorized under Section 54.90 of the Local Finance Law. The Director of Finance - Chief Financial Officer is also authorized to enter into such agreements and take such other action as may be necessary or appropriate and lawful to assure that, to the extent possible, (i) interest on the bonds and notes authorized hereby will not be includable in the gross income, for federal income tax purposes, of the recipients thereof; and (ii) to enable the purchaser thereof to comply with Securities and Exchange Commission Rule 15c2-12. The Director of Finance – Chief Financial Officer is hereby further delegated all powers of this County Legislature with respect to agreements for credit enhancement, derived from and pursuant to Section 168.00 of the Local Finance Law, for such bonds or notes, including, but not limited to the determination of the provider of such credit enhancement facility or facilities and the terms and contents of any agreement or agreements related thereto.

Section 5. All other matters, except as provided herein, relating to such bonds or notes, including prescribing whether manual or facsimile signatures shall appear on said bonds or notes, prescribing the method for the recording of ownership of said bonds or notes, appointing the fiscal agent or agents for said bonds or notes, providing for the printing and delivery of said bonds or notes (and if said bonds or notes are to be executed in the name of the County by only facsimile signatures, providing for the manual countersignature of a fiscal agent or of a designated official of the County), the date, form, denominations, maturities, interest rate or rates, terms of and manner of sale and interest payment dates, place or places of payment, and also including the consolidation with other issues, shall be determined by the Director of Finance - Chief Financial Officer. The Director of Finance - Chief Financial Officer may elect to become the fiscal agent for the bonds or notes, or may contract on behalf of the County for this service pursuant to the Local Finance Law. Such bonds or notes shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals, in addition to those required by Section 52.00 of the Local Finance Law, as the Director of Finance - Chief Financial Officer shall determine.

Section 6. The validity of such bonds and bond anticipation notes, as authorized by this resolution, may be contested only if:

an action, suit or proceeding contesting such validity is commenced within twenty (20) days after the date of such publication, or

3) such obligations are authorized in violation of the provisions of the Constitution.

Section 7. This resolution shall supersede Resolution No. 280 of 2019, being a bond resolution dated December 15, 2020, except to the extent that any indebtedness shall have been contracted or encumbrances made thereunder. The purpose of this superseding bond resolution is to effect the following: to increase the maximum estimated cost of the purpose to $21,000,000, and to provide $21,000,000 bonds therefore, an increase of $4,500,000 over the $16,500,000 bonds authorized under Resolution No. 280 of 2019.

Part 2: Impact Assessment

Part 2 is to be completed by the County Legislative Body ("CLB") as Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted to the CLB for the proposed modification, consolidation or termination of a county-adopted, State-certified agricultural district or otherwise available to the reviewer.

In providing responses to each of the questions, the reviewer should keep in mind that the action proposed is the modification, consolidation or termination of an agricultural district(s). The action is not the land use or activity which will, or may, take place in the district(s). For example, it is not appropriate to consider the effects of management actions that may be taken by individual operators in conducting farming. Agricultural farm management practices, including construction, maintenance and repair of farm buildings, and land use changes consistent with generally accepted principles of farming are listed as Type II actions in 6 NYCRR §617.5(c)(3), and these actions have been determined not to have a significant impact on the environment.

Part 3: Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur," or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short term, long-term and cumulative impacts.

The addition of 90 acres to the Western Monroe County Agriculture District through the addition of two parcels of 45 acres each will not result in any significant adverse environmental impacts. Each parcel is currently a mixture of forested and agricultural scrub land with over 60% prime farmland soils. The parcels are adjacent to residential and agricultural land. Future use of the land will be consistent with typical agricultural uses and purposes as defined by the New York State Agricultural and Markets. The addition of 90 additional acres to the Western Monroe County Agriculture District is a net benefit and will not result in any significant adverse environmental impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Supplemental Narrative for Question 4:

Two parcels are being recommended as additions to the Monroe County Western Agricultural District #5. The first is located at 64 Payne Beach Road in the Town of Greece, Parcel Number 017.01-2-1 (image below). The existing 45 acre parcel has approximately 10 acres of pasture and 5 acres of crops and the remaining is forested, hosts a residence, and contains wetlands along the southern and eastern border of approximately 1.8 and 2 acres, respectively. The intended use of the parcel is to remain agricultural with a mix of cropland and pasture land for animals. Although wetlands exist on the site they are below the threshold to require permits for state regulated wetlands. Additionally, normal agricultural practices, within limits, are exempt from regulation and do not require a permit even for regulated wetlands. No significant adverse environmental impacts are expected from the addition of 64 Payne Beach Road.

The second is located at 1604 Clarkson Parma Townline Road in the Town of Parma, Parcel Number 055.02-2-6 (image below). The existing 45 acre parcel is a mix of cropland and forest with wetlands of 1.22, .39, and 1.94 acres running down the middle of the property. The intended use of the parcel is to remain agricultural with a mix of cropland and pasture land for animals. Although wetlands exist on the site they are below the threshold for state regulated wetlands. Additionally, normal agricultural practices are exempt from regulation and do not require a permit even for regulated wetlands. No significant adverse environmental impacts are expected from the addition of 1604 Clarkson Parma Townline Road.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the sale of the property and does not include the physical alteration nor disturbance of the property. Although Part 1 of the EAF indicates there are archaeological resources, wetlands, and the Coastal Erosion Hazard Area (CEHA) in the area, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for sensitive resources such as Wetlands and the Coastal Erosion Hazard Area from state and federal regulatory bodies. It has been determined that no significant adverse environmental impacts from this action will occur.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the sale of the property and does not include the physical alteration nor disturbance of the property. Wetlands may exist on site, however, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for wetlands from state and federal regulatory bodies if wetlands exist on site. It has been determined that no significant adverse environmental impacts from this action will occur.
