## Monroe County Hazard Mitigation Plan Update Project

### Information Bulletin #1: A Primer for Key Stakeholders

#### ***What is the objective of this project?***

The Monroe County Office of Emergency Management (OEM) has begun the process of updating the County's Hazard Mitigation Plan (HMP). The HMP will analyze the hazards faced by the County and its municipalities, and identify a strategy for minimizing the County's vulnerability to these hazards.

The planning process to update the HMP will be conducted in accordance with the requirements of the Disaster Mitigation Act of 2000 (DMA 2000). At the end of the process, the Federal Emergency Management Agency (FEMA) will review and approve the plan.

In addition, the planning process will be conducted so that it will earn points under FEMA's Community Rating System (CRS) Program, which will help the County's municipalities that participate in the program earn discounts on flood insurance.

Monroe County has contracted with Tetra Tech, Inc. (Tetra Tech) to guide us through the planning process.

The following information describes the efforts and the roles of stakeholder organizations to ensure the project's success.

Monroe County and its municipalities, partner agencies, residents, visitors, and business owners face a wide variety of natural and man-made hazards. These hazards threaten lives, damage property, and interrupt operations. By maintaining a current hazard mitigation plan (HMP) and implementing the projects described within it, the County and its stakeholders minimize the likelihood of hazard impacts and reduce their vulnerability to those impacts.

#### ***What is the general process to be used by the County to update the HMP?***

The County has established a Planning Committee consisting of representatives from County, municipal, and stakeholder organizations. While Tetra Tech will conduct the required analysis and modeling and will develop the HMP document, the Planning Committee will meet monthly to provide input and review results. Planning Committee meetings will be open to the public. There will also be public meetings held to review the risk assessment, the mitigation strategy, and the draft document.

Tetra Tech will meet with each municipality to collect information and solicit participation in the planning process. The HMP will include a jurisdiction-specific annex for each municipality that participates. This annex will show the jurisdiction's vulnerability to the hazards analyzed, discuss its capabilities to implement hazard mitigation, and identify and prioritize the mitigation actions that the jurisdiction intends to carry out.

#### ***How can municipal and stakeholder agencies participate?***

Municipal and stakeholder agencies can participate in the planning process by:

- ◆ Providing information (and/or access to information) to County and authorized Tetra Tech personnel by the requested deadlines
- ◆ Attending and actively participating in meetings and workshops to which you are invited
- ◆ Acting as spokespersons for the Monroe County HMP Update project, and reaching out to other stakeholders to share and solicit additional information
- ◆ Identifying any mitigation projects that you would like to have included in the HMP

#### ***For more information about this initiative, please contact:***

- ◆ Frederick J. Rion, Jr., Emergency Preparedness Administrator, Monroe County Office of Emergency Management, (585) 753-3816 or [FRion@monroecounty.gov](mailto:FRion@monroecounty.gov)
- ◆ Tony Subbio, Tetra Tech Project Manager, (717) 545-3580 or [tony.subbio@tetrattech.com](mailto:tony.subbio@tetrattech.com)

**For Immediate Release**  
Monday, July 27, 2015

### **MONROE COUNTY TO HOST PUBLIC MEETING ON HAZARD MITIGATION PLAN**

Monroe County's Office of Emergency Management will host a public meeting to discuss hazard mitigation and the planning process on July 29, 2015 from 6:00-7:00 p.m. at the Monroe County Office of Emergency Management located at 1190 Scottsville Road.

The County has begun updating its Hazard Mitigation Plan (HMP) which documents the County's vulnerability to hazards and its strategy to reduce vulnerability. The Hazard Mitigation Planning Committee will also meet from 9:00-11:00 a.m. at the Monroe County Office of Emergency Management on 8/26, 9/23, 10/20, 11/19, and 12/16.

A full meeting schedule of the Hazard Mitigation Planning Committee is available at [www.monroecountyhmp.com](http://www.monroecountyhmp.com). For more information contact Frederick J. Rion, Jr., Emergency Preparedness Administrator, at 753-3810.

## Monroe County Pre-Disaster Mitigation Plan

The Disaster Mitigation Act of 2000 amends the Robert T. Stafford Disaster Assistance and Emergency Act 42 USC 5133 by adding a new section, 322 - Mitigation Planning. Section 322 establishes a new requirement for local mitigation plans. The Act provides a framework for linking pre- and post-disaster mitigation planning and initiatives with public and private interests to ensure an integrated, comprehensive approach to disaster loss reduction. It requires all local governments to have an approved All-Hazard Mitigation Plan in place to be eligible to receive Hazard Mitigation Grant Program (HMGP) project funding.

This plan is designed to establish a viable direction for the mitigation of natural and technological disasters within Monroe County. It is a comprehensive document that exceeds federal planning requirements. Specifically, we identify all hazards (29) that may adversely impact our community.

The Federal Emergency Management Office (FEMA) approved the Monroe County Pre-Disaster Mitigation Plan on July 29, 2011 and the Monroe County Legislature adopted the Plan on November 15, 2011.

**Monroe County has begun updating its Hazard Mitigation Plan (HMP). The HMP documents the County's vulnerability to hazards, and its strategy to reduce that vulnerability. To guide the planning process, the County has established a Planning Committee. The Planning Committee will meet from 9:00-11:00 a.m. on the following dates: 7/29/15, 8/26/15, 9/23/15, 10/20/15, 11/19/15, 12/16/15, 1/25/16. Meetings will be at the Monroe County Office of Emergency Management, 1190 Scottsville Road, Rochester, NY, and are open to the public. A full meeting schedule will be available at [www.monroecountyhmp.com](http://www.monroecountyhmp.com). Please check the website regularly for updates.**

**There will be a public meeting to discuss hazard mitigation and the planning process on July 29, 2015, from 6:00-7:00 p.m. The meeting will be held at the Monroe County Office of Emergency Management, 1190 Scottsville Road, Rochester, NY. Contact Frederick J. Rion, Jr., Emergency Preparedness Administrator, for more information.**

Early part of this week will be quite warm till a cold front moves in mid week. Here are some safety tips for dealing with the heat:

Slow Down. Reduce, eliminate or reschedule strenuous activities until the coolest time of the day. Children, senior and anyone with health problems should stay in the coolest available place, not necessarily indoors.

Dress for summer. Wear lightweight, light-colored clothing to reflect heat and sunlight.... [See More](#)

**Subject:** Follow Up on Hazard Mitigation Plan Meeting

Good Evening,

I wanted to take a moment and thank you for attending and representing your department or division of the County as we update our County Hazard Mitigation Plan. Last week our office emailed all of the worksheets that needed to be completed by the upcoming "Municipality Meetings".

I wanted to let you know that the website devoted to our plan update, [www.monroecountyhmp.com](http://www.monroecountyhmp.com) is up and live and all of the documents (and more) from the meeting last week are there for you to download, etc. I would ask that any of the worksheets that you complete that pertain to you and your organization, if once completed you could send to me and I will collate and combine all County worksheets into one document. If possible, if you could provide them to me by August 13th, that would give me enough time to merge all of the information before my County meeting with Tony and Tetra Tech staff on August 18th.

Thank you again for your assistance in this process and being a great partner to OEM.

**Subject:** Following up on Hazard Mitigation Planning Committee

Good Evening,

I just wanted to do a quick follow up with each of you related to the Monroe County Hazard Mitigation Plan update. The Planning Committee of which you (as your municipality's primary contact) are a member, met for the first time last week on July 29th. At that meeting, Tony Subbio from Tetra Tech, Inc. (the contractor working with the County to update the plan) reviewed the processes we will be going through as we update the plan, the worksheets that need to be filled out by each community, and other items. Additionally, we have scheduled several "Municipality Meetings" for the week of August 17th that I hope you or your designee or alternate may be able to attend. At these meetings the completed worksheets will be reviewed, questions will be asked and answered and next steps discussed.

Last week following the meeting, our office e-mailed the worksheets and other documents to you. In addition, a website has been created, [www.monroecountyhmp.com](http://www.monroecountyhmp.com) that has all of the worksheets, meeting minutes, slide presentation, municipal meeting locations and times and other items for you to download and review.

I encourage you, as well as your alternate to go to this site and begin the process of completing the worksheets as soon as possible and reviewing the materials. Please remember without a FEMA Approved Hazard Mitigation Plan, your municipality will be at risk of not being eligible for certain disaster dollars. Additionally, for this plan iteration, we will be conducting this update in accordance with the Community Rating System (CRS) requirements, with the goal of achieving up to approximately 300 CRS points for participating jurisdictions. These points can turn into significant savings on flood insurance premiums for the residents of your communities so I again encourage your municipality to take part in this process.

Should you have any questions, Mr. Subbio is available and can be reached at (717) 545-3580 or electronically at the email address above. I too am available for questions.

I look forward to seeing you and/or your alternate at our upcoming "Municipality Meetings" and full Planning Committee Meeting.

Thank you and have a great night.

**Subject:** AG & Markets Questions for Hazard Mitigation Plan

Bob,

My apologies for not getting these questions to you sooner. By the way, I have cc'd Tony Subbio from Tetra Tech, Inc. the vendor who is working with us on updating our Hazard Mitigation Plan (HMP). Tony was facilitating the meeting where some Ag & Markets questions came up and if I don't get them completely correct, Tony can clarify.

The first topic that came up was related to the hazard drought. Is there anything you can elaborate on as it relates to the hazard of drought in Monroe County? I guess we are looking for information related to the impacts locally that it has, any information related to any drought incidents since our last HMP (2010). Also, are there any mitigation projects, etc. in place that address the issue of drought (ie actual physical projects, education programs, etc?)

Flooding is also a significant hazard in the County. I know you and I talk frequently when we have significant rain events and the impacts that this has on local farmers (i.e. crops damaged, etc.). Is there any information (similar to the criteria above) that you can share related to flooding and its impacts on agriculture county wide?

In the meeting, when we were discussing terrorism, I brought up concerns related to agro-terrorism. Any information, education to farmers, etc. that might be helpful there to the plan?

Relating to HazMat (fixed and mobile), I discussed the Ginna issue and the requirement to do the 50 mile ingestion pathway FEMA evaluated exercise every 8 year cycle (I think we are on board for 2018 or 2019 for that). I also mentioned how during the yearly plume exercise drills the precautions that you take as the Ag & Markets lead related to bringing in animals, covering feed, etc. Anything to add there?

Additionally, I mentioned the issues related to potential in transit hazmats that could contain a spill, etc. that could impact a farm or agricultural area. Anything that you could add to those?

As I recall, those were the major things I wanted to touch bases with you on.

Tony - if there are things I missed, please don't hesitate to reach out.

Thank you.

**Subject:** Hazard Mitigation Planning Meeting Follow-up from 9/23/15

Good Afternoon,

I just wanted to provide a follow up email related to our last Hazard Mitigation Planning Group meeting that was held at our office on September 23, 2015. Our sign in sheet indicated that no one from your agency was able to attend the meeting on 9/23/15. During that meeting we reviewed vulnerabilities. However, we were not able to get through all of that topic, so at our next meeting we will cover vulnerabilities and goals.

As you may recall, in order to gain points for the Community Rating System (CRS) Program, attendance is required at all meetings. Since we did not cover all of the material on vulnerabilities at our last meeting, we will be covering the remainder of that topic at our October meeting. Sending a representative to that meeting will still provide your municipality with credit for all topic area meetings. Please make every effort to send someone to the October 20th meeting so that we can ensure all municipalities receive points towards CRS.

Thank you and please contact me with any questions.

Sam,

Was wondering if you could do me a favor. As you know we are updating the County Hazard Mitigation Plan. One of the things I need to do is notify and gain any information from organizations that may not formally be on the planning committee. One of the groups identified would be the Fire District Commissioners. Would you be able to forward the attached letter to that group via email and cc me on it? It is somewhat of a checkbox, but it does help our cause.

Thanks in advance.

Subject: Monroe County Hazard Mitigation Plan Update

Dear Fire District Commissioner(s):

Good Day. Monroe County and its municipalities are in the process of updating the Monroe County Hazard Mitigation Plan (HMP). The HMP will analyze the natural and man-made hazards faced by the County and its municipalities, and identify a strategy for minimizing the County's vulnerability to these hazards. Specifically, the plan will examine the following hazards:

- Civil Unrest
- Drought
- Earthquake
- Extreme Temperatures
- Flood
- Hazardous Materials
- Infestation
- Landslide
- Severe Storms
- Severe Winter Storms
- Terrorism
- Utility Failure
- Wildfire

I am writing to you to request your assistance in the HMP update process. If you have any data sets, plans, reports, or other information about any of the hazards listed above—particularly the flood hazard—please share it with us. Likewise, if your organization is doing anything that may affect the nature of these hazards and or the ways in which the hazards may impact Monroe County and its communities and properties (particularly the flood hazard), we would like to know about that as well. Information should be relevant to Monroe County and its municipalities.

I would be happy to discuss hazard mitigation and the planning process with you if you have any questions. You can reach me at (585) 753-3810 or via e-mail at [frion@monroecounty.gov](mailto:frion@monroecounty.gov). You can also reach Monroe County's planning contractor's project manager, Tony Subbio, at (717) 545-3580 or via e-mail at [tony.subbio@tetrattech.com](mailto:tony.subbio@tetrattech.com).

Finally, I would like to invite you to participate in Monroe County's mitigation planning process. You can find information about the planning process by visiting [www.monroecountyhmp.com](http://www.monroecountyhmp.com). Planning committee meetings are listed on the Calendar of Events. Meetings are open to the public, and you are welcome to attend.

Thank you for your time and attention.

Sincerely,

Frederick J. Rion, Jr., MWS, MPA, CEM®  
Emergency Preparedness Administrator

Good Morning,

Attached is a letter requesting information that you may have that if provided, would be helpful to our office as we work to update the County's Hazard Mitigation Plan. Please review and respond as necessary. Additionally, if there are other contacts or organizations that you would like to share this letter with, feel free to do so. My only request is that you provide me a list of who the letter was sent to so that we can document that for FEMA as we update or plan.

Thank you in advance and have a pleasant weekend.

Subject: Monroe County Hazard Mitigation Plan Update

Dear Hazard Mitigation Planning Stakeholder:

Monroe County and its municipalities are in the process of updating the Monroe County Hazard Mitigation Plan (HMP). The HMP will analyze the natural and man-made hazards faced by the County and its municipalities, and identify a strategy for minimizing the County's vulnerability to these hazards. Specifically, the plan will examine the following hazards:

- Civil Unrest
- Drought
- Earthquake
- Extreme Temperatures
- Flood
- Hazardous Materials
- Infestation
- Landslide
- Severe Storms
- Severe Winter Storms
- Terrorism
- Utility Failure
- Wildfire

I am writing you to request your assistance in the HMP update process. If you have any data sets, plans, reports, or other information about any of the hazards listed above—particularly the flood hazard—please share it with us. Likewise, if your organization is doing anything that may affect the nature of these hazards and or the ways in which the hazards may impact Monroe County and its communities and properties (particularly the flood hazard), we would like to know about that as well. Information should be relevant to Monroe County and its municipalities.

I would be happy to discuss hazard mitigation and the planning process with you if you have any questions. You can reach me at (585) 753-3810 or via e-mail at [frion@monroecounty.gov](mailto:frion@monroecounty.gov). You can also reach Monroe County's planning contractor's project manager, Tony Subbio, at (717) 545-3580 or via e-mail at [tony.subbio@tetrattech.com](mailto:tony.subbio@tetrattech.com).

Finally, I would like to invite you to participate in Monroe County's mitigation planning process. You can find information about the planning process by visiting [www.monroecountyhmp.com](http://www.monroecountyhmp.com). Planning committee meetings are listed on the Calendar of Events. Meetings are open to the public, and you are welcome to attend.

Thank you for your time and attention.

Sincerely,

Frederick J. Rion, Jr., MSW, MPA, CEM®  
Emergency Preparedness Administrator

**Sent:** Thursday, October 08, 2015 11:23 AM  
**To:** White, Daniel  
**Subject:** Monroe County Hazard Mitigation Plan

Mr. White,

Good Morning. I hope this email finds you well. We have spoken a few times in the past related to weather events and other issues that are relevant to the districts within the Monroe #1 BOCES area. Today, I am asking if you could assist me in my office's efforts to update our County Hazard Mitigation Plan (HMP). I have attached a letter that I was hoping you could forward to the Superintendents within the Monroe #1 BOCES catchment area. The letter is a brief request to them asking if they have relevant information related to our HMP update for them to provide it to us, as well as an invitation to attend our HMP planning meetings (you too sir are welcome to attend the HMP meetings).

Forwarding this letter on to your districts is all part of the process FEMA requires we follow in order to ensure that we have received input from agencies that are not part of our "formal" HMP Planning Committee. If you (or someone from your staff) are able to forward this letter on to the districts, could you please cc me in so that I have documentation to present

to FEMA moving forward.

Thank you in advance and should you have any questions, please don't hesitate to contact me. Have a great day.

Debra,

Good afternoon!

I wanted to invite you to the Monroe County HMP Planning Committee Meeting on 11/19/15 from 9:00-11:00 a.m., and any other meetings that you would like to attend. Paul Hoole from FEMA Region II has been invited to the meeting on 11/19 to discuss mitigation actions, like he did in Dutchess County back in May. I wanted to make sure we got on your calendar early enough. You can find the meeting schedule here (<http://www.monroecountyhmp.com/index.php/en/2013-04-22-04-52-53/month.calendar/2015/10/08/->).

Also, we're about finished drafting the hazard profiles. Do you need any of the Local Plan Review Tool crosswalk filled out when I send those to you for the informal review? Thanks for your time.

Have a great day!

## Talking Points on the HMP Update

- The HMP update process has begun. Many of the officials were involved in the last update of the PDMP in 2010-2011. The HMP is designed to show how jurisdictions will reduce the likelihood of hazard impacts, and/or make those impacts less severe.
- The planning process to update the HMP will be conducted in accordance with the requirements of the Disaster Mitigation Act of 2000 (DMA 2000). It includes
  - Examining and profiling the hazards that affect the County and its municipalities
  - Assessing the jurisdictions' capabilities to implement hazard mitigation
  - Identifying a set of actions that each jurisdiction can take to reduce their vulnerability to hazards.
- There is a project website, [www.monroecountyhmp.com](http://www.monroecountyhmp.com) that provides information and has a calendar of all planning committee meetings. All jurisdictions are encouraged to post the meeting schedule to their own websites, and to link to the project website. There is a Citizens' Preparedness Survey as well, so that members of the public can offer input into the planning process.
- Planning Committee meetings are open to the public. Information is posted on the OEM website and Facebook page.
- We just finished conducting a set of 6 meetings throughout the County, to gather information from municipal officials and give them a chance to ask Tetra Tech questions about the process and product.
- At the end of the process, the Federal Emergency Management Agency (FEMA) will review and approve the plan.
- **The final product will have a jurisdictional annex for the County and each town, village, and the city.** These annexes can be considered a mini-plan, showing how hazards impact the respective jurisdictions, what their individual capabilities are, and the specific mitigation actions that they intend to carry out over the next 5 years.
- In addition, the planning process will be conducted so that it will earn points under FEMA's Community Rating System (CRS) Program, which will help the County's municipalities that participate in the program earn discounts on flood insurance for their residents. The CRS program is **one of two ways to reduce flood insurance premiums in the County**. The other way is to remove structures from the floodplain by either demolishing/relocating them or elevating them. **CRS requires participation throughout the process, so it is critical that a municipal representative attends every Planning Committee Meeting, starting with the meeting next Wednesday (August 26).**
- A set of worksheets has been distributed to members of the Planning Committee. It is vital that your [*as in, the mayors'*] Planning Committee representatives work with other municipal officials to get them completed and submitted.

# IBTS Meeting Notes – 09/24/15, Irondequoit Bay Boat Tour

Facilitator & note taker: Rochelle Bell

***draft***

Action items are underlined.

## In attendance (bold names were at breakfast meeting)

Ben Melos, Sheriff's Marine Unit

John Whitehair, Sheriff's Marine Unit

Thomas Fantigrossi, Sheriff's Marine Unit

Daniel Kawski, Sheriff's Marine Unit

Tom Haley, DEC

Kristina Kleese Daughtery, MC Emergency Mgt.

Jim Costello, Penfield

Kerry Ivers, Irondequoit

Geoff Benway, Webster

Tony Casani, Webster PB

Barry Dean, Webster PB

Mike Allen, Citizen Rep.

John Frazer, MCDOH

Peter Rightmeyer, MCDOH

Michelle Virts, MCDES

Andy Sansone, MCDES

Rochelle Bell, MC Planning

## Notes from breakfast meeting

### *Penfield*

- Complaint from Bay Front South re: traffic from Southpoint Marina. Really not possible. Jim views webcam and there really isn't that much boat traffic. There is more activity with launch there (cost is \$25). Talked about getting a student to do a boat count next summer.
- Jim will have final document w/ group re: Southpoint cross access easements, public access and eagle protection.
- Hilary Mosher will be speaking on invasive species on October 27 at Penfield

### *Monroe County*

- Charlie Knauf is retiring October 19. He is writing a report on the oxygenation program. County is still not sure who is taking this program over.
- Kristina spoke about the County's Hazard Mitigation Plan. There are a few towns that have not been attending meetings and are in jeopardy of losing financial support.

### *Irondequoit*

- Rochelle received a complaint from Irondequoit resident about dog poop on the pier. She will contact Paul Sawyko about putting up a H2O Hero sign. Kerry will check with town code enforcement.
- Newport – Nothing happening. The docks that were supposed to be taken out are still there.
- Gangemi lot for sale.
- 90 Indian Trail resubdivisions
- 183 Schnakel Drive – Tom will check with Peggy.
- 190 Schnakel Drive – new hoist, no permit
- Bill Grey's by Seabreeze demolished vic and Irv's

### *Webster*

- Webster wants to do a thorough boat dock survey
- Pen-Web apartments are before the board. The public is not happy with the scale of the project.
- Willowpoint

## Notes from tour

- Next year limit attendance to one boat?
- Next year Mike will bring radio
- Noticed Canopy over deck that was not approved
- Newport Marina
- Densmore Delta – did anyone notice the buoys?
- There were many cormorants on the bay and roosting on Devil's Island and Snyder Island.

**Subject:** FW: County Hazard Mitigation Plan

Jim:

Please see below and if you could email out to FD members.

Thanks,  
Dawn

All:

Monroe County Office of Emergency Management is in the process of updating it's County Hazard Mitigation Plan.

They are asking that you take the time to visit the website below and fill out a simple survey about the area in which you live. The survey does not ask for personal information just the street you live on.

They also will be conducting public meetings (listed on website) in which any of you can attend. Public input is important to the update and implementation of the plan.

# You are invited . . .

**What:** Floodplain Informational Meeting

**Where:** Village board room  
23 E. Buffalo Street  
Churchville, NY 14428

**Who:** Open to all property owners in the Village of Churchville located in a floodplain.

**When:** Thursday, October 29, 2015  
7:00 pm

**Presenters:**

Mayor Nancy Steedman  
Trustee Diane Pusateri  
Fred Rion, Emergency Preparedness Coordinator  
for the County of Monroe

**Topic:** Hazard Mitigation Plan and the Community Rating System (CRS) where municipalities can earn discounts on flood insurance for their residents.

*A short presentation with time for questions and answers. This will also be an opportunity for you to share any concerns regarding the floodplain area.*

*News From:*

# **Monroe County**

## *Department of Communications*

---

**For Immediate Release**

Monday, December 14, 2015

### **MONROE COUNTY TO HOST PUBLIC MEETING ON HAZARD MITIGATION PLAN**

Monroe County's Office of Emergency Management will host a public meeting for its Hazard Mitigation Plan (HMP) on Wednesday, December 16<sup>th</sup>, 2015 from 6:00-7:30 p.m. at the Monroe County Office of Emergency Management located at 1190 Scottsville Road.

The County has begun updating its HMP which documents the County's vulnerability to hazards and its strategy to reduce vulnerability.

For more information contact Frederick J. Rion, Jr., Emergency Preparedness Administrator, at 753-3810 or visit [www.monroecountyhmp.com](http://www.monroecountyhmp.com).

| Strengthen codes, ordinances and plans to require higher hazard risk management standards and/or provide greater control over development in high hazard areas | <b>15.63%</b> 5     |
| Buy out flood prone properties and maintain as open space                                                                                                      | <b>15.63%</b> 5     |
| Inform property owners of ways they can mitigate damage to their properties                                                                                    | <b>43.75%</b><br>14 |
| Improve access to information about hazard risks and high-hazard areas                                                                                         | <b>25.00%</b> 8     |
| Assist vulnerable property owners with securing funding to mitigate their properties                                                                           | <b>18.75%</b> 6     |
| Create a stream gage and weather monitoring program to provide more accurate data and warnings                                                                 | <b>28.13%</b> 9     |
| <b>Total Respondents: 32</b>                                                                                                                                   |                     |

| # | Other (please specify)                                                                                                                                                                                        | Date              |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| 1 | More frequent plowing/salting of the roads in winter, not only after significant precipitation but also on cold nights to prevent black ice from forming and making for a dangerous a.m. commute              | 9/8/2015 9:46 PM  |
| 2 | Storm sewer maintenance & improvement - many of the storm sewers have standing water in them on sunny day. When it rains, the storm sewers quickly become overwhelmed and in adequate, resulting in disaster. | 8/19/2015 8:52 AM |

**Q18 How much money would you be willing to spend on your current home to help protect it from the impacts of potential future disasters within our community?**

**Examples of hazard mitigation-related home improvements are elevating a flood-prone home; elevating utilities in flood-prone basements; strengthening your roof, siding, doors, or windows to withstand high winds; and removing threatening trees or branches from your property.**
