Future Activities
OPI will continue to 1) provide training on ethics to County employees and contractors, 2) conduct risk and control assessments with departments, 3) perform audits of County operations and contractors, and 4) perform investigations of suspected misconduct, fraud, and unethical behavior. Future audits could include, but not be limited to, the following areas, as highlighted through risk assessment: the procurement process, construction projects, emergency medical services, fire districts, the Public Safety Training Center, cell towers, fuel purchases, revenue-producing functions, travel expenses, and a cost-recovery audit of utility expenses.

Auditable units with risk factors that exceed 3.00 should be included on the annual audit plan, unless the auditable unit was recently audited and contained no significant findings.

Despite the complexity and magnitude of the risks, the risk factor scale, intrinsic to Monroe County, is from 0.00 to 3.00.

III. RISK ASSESSMENT AND FUTURE ACTIVITIES

The inherent and unique responsibility of the Office of Public Integrity is to follow-up and respond to any concerns that are reported through the County’s hotline. However, to maximize its effectiveness, OPI also takes a proactive approach in mitigating the various financial and operational risks to Monroe County. To accomplish this, OPI uses a comprehensive approach to risk assessment that includes OPI’s knowledge of County operations, prior audit results, and management’s immediate concerns. For purposes of this section, management is defined as any employee or elected official of Monroe County, who is responsible for establishing policy or providing services to the public.

Risk Assessment

Risk assessment is one of the five essential internal control components for any entity. For management, assessing risk can allow them to identify and implement internal controls that are most cost-efficient in minimizing those risks. For auditors, assessing risk allows for the development of an annual audit plan which is logical, reasonable, and maximizes the effectiveness of available resources.

In order to assess risk, the following steps (italicized) are performed.

a) Determine management’s objectives.

The County’s objective, per its vision statement, is to make Monroe County a community of choice. To meet this objective, management strives to provide governmental services in an efficient manner so as to minimize the tax burden on County residents.

b) Identify risks related to management’s objectives.

Risk is defined as any event that could prevent management from meeting its objectives. Various risks exist that could prevent the County from meeting its objective of providing services in an effective and efficient manner. These risks are related to, but are not limited to, employees, vendors, customers, and the environment. These risks can potentially impact revenues, expenditures, assets, and services. While OPI can identify the general risks of each auditable unit, management is responsible for identifying and controlling all risks, especially those specific to their units.

c) Assess the magnitude of the risks.

Each risk has various attributes that can be quantified. Using data from the Budget Office and the Controller’s Office, OPI has quantified the magnitude of each of the eight risk attributes that have been included in Monroe County’s risk assessment. After quantifying the risk attributes, it becomes possible to compare the risks of auditable units.

d) Assess the likelihood of the risks.

In addition to magnitude, the likelihood of occurrence must be determined in order to have an overall sense of each risk and its relationship to other risks within the County. However, assessment of likelihood can be more subjective if historical data is not available. To date, an objective assessment of likelihood of each risk is pending.
Examples of certain recurring auditing and monitoring activities include:

- Residency requirements for employees who are not eligible for waivers.
- Confirming the MWDBE status of subcontractors listed on legislative referrals.
- Financial Disclosure forms for employees in management and professional positions.
- Compliance with equipment-use policies, including, but not limited to, vehicles and portable electronic devices.
- Compliance with County procurement policies, with emphasis on professional service contracts and publicly bid contracts.
- Inventory management of County assets, such as public safety equipment provided to Emergency Medical providers and Fire Districts.
- Intermunicipal agreements for functions such as the Public Safety Training Center, the 911 Center, cell towers, and fuel purchases.

During 2021, OPI completed 11 audits, and another 5 audits are active as of year-end.

The completed audits are as follows:

1. Cost-recovery audit of utility expenses
2. Contract with Redman Associates for providing facilities for Appellate Court
3. Contract with the University of Rochester for Nurses at the Monroe Community Hospital
4. Contract with Nordozzi Paving and Construction for Mendon Center Road Improvements
5. Contract with Nordozzi Paving and Construction for North Road in Wheatland Improvements
6. Contract with Nordozzi Paving and Construction for Brooks Road Culvert Replacement
7. Contract with Nordozzi Paving and Construction for Lake Road Improvements
8. Contract with Ramsey Constructors for East Street Culvert Replacements
9. Residency audit for 2021
10. Employee compliance with the Portable Electronic Device policies for 2021
11. Risk Assessment of the Department of Public Safety – Weights and Measures Unit

Complete audit reports are available upon request.

Investigations

OPI opened 80 investigations in 2021, with 73 based on contact from whistleblowers. OPI completed 93 investigations and had 1 active case at year end. Seventy-six (76) cases were closed within 30 days (82%) and another 13 were closed within 90 days (96%). Thirty-six (36) allegations were either unprovable or unfounded (39%).

The 93 completed investigations and their dispositions were as follows:

- Fifty-six (56) involved employee misconduct; 28 were referred to the County departments and/or Human Resources for employ-ee disciplinary actions, including 1 termination, 12 were unprovable, 14 were unfounded, and 2 were resolved without discipline.
- Six (6) involved COVID complaints; 4 were referred to the NYS COVID Task Force, 1 was referred to the Sheriff’s Office, and 1 was provided information.
- Four (4) involved privacy violations; 1 was sustained and 3 were unfounded.
- Four (4) involved protection of a County asset; 1 was referred to the Sheriff’s Office, 1 was referred to the Federal Bureau of Investigation, 1 was referred to the County’s Law Department, and 1 was unfounded.

Other Accomplishments

In 2021, Director McNair became a Certified Inspector General through the Association of Inspectors General (AIG). All investigative and auditing staff, consisting of Director McNair, Eric Leinenbach, Investigator Peglow, and Investigator Melville, have been certified by the AIG. Certification requires forty (40) hours of Continuing Professional Education over a two-year period, and each certified employee has maintained this level of training.

The AIG establishes and maintains the “Principles and Standards for Offices of Inspectors General.” Also known as the “Green Book”, the AIG’s Principles and Standards establish criteria for creating and administering inspector general offices consistent with best practices within the inspector general profession. Currently, approximately 4,500 people are certified as either investigators, auditors, or inspector generals by the AIG. This compares to 669,130 actively licensed Certified Public Accountants as of August 24, 2021 per the National Association of State Boards of Accountancy.
OPI’s accomplishments include activities that occur one-time and activities that are on-going, such as ethics training and certain audits. While the impact of an enhanced ethical environment cannot always be easily quantified, certain financial benefits of audits and investigations can be readily calculated and are included below.

**Financial Benefits to the County**

**Cost Savings** ($425,476 in 2021, $564,447 for 2017-2021)

During an annual audit of employee and vendor compliance with the County’s policy for Portable Electronic Devices, OPI identified 18 phones and air cards to eliminate, along with a cost savings of $23,150 annually, beginning in 2021.

OPI contracted with Troy & Banks, Inc. to perform a cost-recovery audit for utility expenses. While actual recoupments are stated below, the contractor also obtained future savings of $12,326 for the County.

Based on the initiative taken by the County’s Department of Planning and Development – Division of Economic Development, OPI was able to assist and prevent $390,000 in Federal pass-through funds from being disbursed through fraudulent grant applications.

**Recoupments and Additional Revenue**

($446,587 in 2021, $1,020,052 for 2017-2021)

As referred to under Cost Savings, OPI contracted with Troy & Banks, Inc. to perform a cost-recovery audit for utility expenses. In addition to future savings, the County also realized a net recoupment of $150,799 from utility providers.

During a vendor audit, OPI identified $210,236 that had been paid to the vendor but never claimed for reimbursement from the New York State Unified Court Administration (NYS UCA). OPI assisted the department with claiming $204,666 from the NYS UCA and obtaining a credit of $5,569 from the vendor.

During the course of a construction audit, OPI identified a recoupment opportunity of $85,552.30 based on the contractor’s failure to meet contractual requirements for Minority and Women Business Enterprise (MWBE) participation amounts. The method of recoupment will depend on the outcome of current litigation with the contractor.

OPI believes in setting a “tone at the top” and sharing this tone with employees and contractors through online ethics training and classroom-style presentations.

During 2021, OPI maintained the on-line ethics training course, which is deployed to all County employees through the Department of Human Resources. This training is intended for approximately 3,900 full-time employees, 600 part-time employees, and 100 contractors. This training covers various concerns, including confidentiality, and the Monroe County Law Department’s criteria regarding the acceptance of gifts, and uses examples of issues identified during actual investigations.

In addition to employee/contractor on-line training, OPI, in conjunction with the County’s Purchasing Unit, developed an on-line ethics training for all vendors having professional service contracts and construction contracts with the County. OPI’s objective is to have this training incorporated into Requests for Proposals and Public Bids beginning in 2022 and required in order to fully execute a contract.

In addition to the on-line training, OPI provides classroom-style trainings to employees through New Employee Orientation, Supervisory Training, and direct presentations to departments. Due to the COVID-19 pandemic, OPI was prevented from providing any classroom-style training sessions to employees in 2021.

**Audits**

Within the internal control environment of Monroe County, the Office of Public Integrity serves as a preventive and detective function. Accordingly, many of OPI’s activities are recurring rather than simply one-time occurrences.
